Re Response to Notice of Intent
Proposal to acquire Real Property in the NPF CRA
714 Sistrunk Boulevard
526 NW 7 Terrace

Good Morning:

On behalf of 220145 LLC, we are pleased to offer you this proposal to purchase vacant property at 714 Sistrunk Boulevard and 526 NW 7 Terrace in response to your "Notice of Intent to Dispose of Property". Lansing Melbourne Group, LLC (LMG) is acting in a capacity of owner's representative for 220145 LLC (Purchaser) in this transaction and in the redevelopment of certain properties surrounding the parcels, further described herein.

The offer to purchase is as follows:

- Purchase Price of $116,000.00 (One Hundred Sixteen thousand dollars and no cents) payable in cash at closing
- Closing Date of ten days after the execution by the parties of any required CRA agreements cited in the "Notice of Intent".
- Closing Costs will be paid by Purchaser
- No inspection period
- Closing Agent will be selected by Purchaser
- Property will be accepted "as is"
- Proposed use of the property will be development in combination with other properties owned by the Purchaser as the project known as West Village, as further described herein.

Per the direction in the LOI, this submittal includes one original cover letter, 20 copies of the development proposal, and one flash drive containing all information in the development proposal. Note that the developer has been actively discussing this project with the CRA for approximately two years and has submitted term sheets and requests for assistance that are under active negotiation as of this writing. Due

to the active and confidential nature of these discussions we refer the reader to the CRA Legal Counsel's office for information regarding those discussions.

Background

LMG and the Purchaser have been acquiring property on the southwest corner of NW 7th Avenue and Sistrunk Boulevard in pursuit of a major redevelopment project for a number of years. All the privately owned lots on the large block bounded by NW 7th Avenue on the east, NW 9th Avenue on the west, Sistrunk Boulevard on the north, and NW 4th Street on the south, are now owned by Purchaser except for the Subject Parcels in the LOI.

The parcels are critical to the redevelopment of the entire block. In July 2017, LMG presented the concept of a detailed plan for the redevelopment of the NW 7th Avenue and Sistrunk Boulevard property to the NW CRA Advisory Board. The concept was unanimously accepted and we are prepared to move forward upon acquisition of the subject property.

Furtherance of the CRA Plan

As previously discussed, the proposed project has been previously presented to the NW CRA Advisory Board and we received unanimous support. We have also briefed various neighborhood stakeholders to obtain input on the project. This large vacant parcel under single control at the intersection of the two primary arterial roads in the neighborhood represents a rare opportunity to provide a cohesive and managed plan for redevelopment. First class, market rate rental housing at a fair price is rare in the City, and the intensity of development only a few blocks east has left middle class housing opportunities nearly extinct in the area. By proposing a mixed use mid rise project, neighborhood integrity and cohesion is restored, re establishing the fabric of street level retail and community oriented businesses with living opportunities above. The proposed Public control of parking in the project ensures support for local businesses in quantities that are meaningful. We believe this will be the catalyst project for the entire corridor and demonstrate the City's commitment to balanced opportunity throughout all neighborhoods.

Proposal

The attached Proposal provides information requested in the LOI, including submittals that have been made to the City regarding the Development Plan. In summary, the project recently received positive recommendations from the Planning and Zoning Board and is scheduled to be heard at City Commission in September. The DRC has conducted a detailed review, public meetings have been held, and project consultants and designers are now actively meeting with staff to answer specific questions.

Administrative Matters

In previous correspondence to CRA on February 26, 2018 we have provided detailed information regarding owner authorization for LMG to act on behalf of 220145, LLC, and other matters. Please refer to that information for answers to any administrative questions.

Please contact the undersigned if you require further information. We are prepared to move forward immediately upon approval by the appropriate City Boards.

NOTICE OF INTENT TO DISPOSE OF PROPERTY FOR THE DEVELOPMENT OF VACANT REAL PROPERTY LOCATED AT 714 SISTRUNK BOULEVARD AND 526 NW 7 TERRACE IN THE NORTHWEST-PROGRESSO-FLAGLER HEIGHTS COMMUNITY REDEVELOPMENT AREA

INVITATION FOR PROPOSALS

The Fort Lauderdale Community Redevelopment Agency (the "CRA") hereby gives public notice pursuant of Section 163.380(3)(a), Florida Statutes (2018) of its intent to dispose of real property within the Northwest-Progresso-Flagler Heights Community Redevelopment Area ("NPF CRA"). The real property consist of two scattered sites on the same block referred to herein and identified as Site 1 (714 Sistrunk Boulevard) and Site 2 (526 NW 7 Terrace) in Fort Lauderdale, Florida 33311 and are legally described as:

Site 1 (714 Sistrunk Boulevard)

The East 40 Feet of Lots 50, 51 and 52, Block 14, Less the North 16.3 Feet Thereof, of NORTH LAUDERDALE, according to the plat thereof as recorded in Plat book 1, Page 48, of the Public Records of Miami-Dade, Florida, said land lying and being in Broward county, Florida

(Parcel ID 5042-03-01-1590)

and

Site 2 (526 NW 7 Terrace)

Lot 40, Block 14 of NORTH LAUDERDALE, according to the plat thereof as recorded in Plat Book 1, Page 48, of the Public Records of Miami-Dade, Florida, said land lying and being in Broward County, Florida.

(Parcel ID 5042-03-01-1500)

(the "**Property**")

The real property is vacant land. The parcel at 714 Sistrunk Boulevard is designated on the Official Zoning Map of City of Fort Lauderdale as Northwest Regional Activity Center Mixed Use west (NWRAC MUw). The parcel at 526 NW 7 Terrace is zoned Residential Mid-Rise Multi-Family/Medium High Density (RMM-25). The Market Value of the Property as of May 29, 2019 is $116,000.00, based on an appraisal of the Property by Calloway and Price, Inc.

The CRA is seeking proposals from qualified and experienced real estate developers interested in purchasing property from the CRA and undertaking the

development of the site within the NPF CRA pursuant to the Community Redevelopment Plan for the Northwest-Progresso-Flagler Heights Community Redevelopment Area (the "NPF CRA Plan") The purpose of this solicitation is to further implementation of the Community Redevelopment Plan for NPF CRA by providing for the conveyance of certain lots owned by the CRA to the Developer selected for redevelopment to remove conditions of slum and blight, increase the tax base, enhance the quality of life, improve the aesthetics and useful enjoyment of the redevelopment area, and promote the health, safety, morals and welfare of the residents of the NPF CRA and the CITY.

The fundamental goal is to position Sistrunk Boulevard as mixed-use-neighborhood commercial destination that not only serves the needs of the resident population, but also is attractive to the downtown employment base and is able to attract visitors from outside the area. Redevelopment sites should help revitalize the once vibrant Sistrunk Boulevard corridor, highlighting its historical heritage, promoting cultural tourism and entertainment, adding new compatible uses that help create an identifiable sense of place such as eat-in restaurants and active retail uses, foster housing and employment opportunities, improves access, increases the availability of goods and services and helps create an environment the will attract other private investment capital. The CRA is seeking proposals that demonstrate creativity addressing neighborhood compatibility, active street frontage, pedestrian activity, quality design and quality materials in construction.

It is recommended that proposers request a preliminary review from the City's Department of Sustainable Development ("DSD") prior to submitting a response to this solicitation to determine whether the project complies with the requirements of the City's Unified Land Development Regulations ("ULDR"). DSD may also be able to advise on recommended procedures and provide a development approval timeline. Proposers are responsible for ensuring compliance with State, County, City laws and regulations and other applicable codes, with respects to construction, operation and maintenance of the Property.

The selected Developer will be required to enter into a development agreement with the CRA and complete the proposed project within 36 months of award. The development agreement may include, but not be limited to, restrictions on the sale or lease of the Property, approval rights over development, rights of reverter, restrictions on land uses and structures, development completion schedule, insurance and indemnification and other items and conditions deemed to be in the best interest of the CRA and public. Restrictive covenants may be required in order to ensure continuity of the proposed uses.

The CRA property will be conveyed in "As Is" condition subject only to the terms and conditions for conveyance contained in the development agreement. The property at 714 Sistrunk Boulevard was purchased by Warranty Deed. The property at 826 NW 7 Terrace was purchased by Quit Claim Deed.

Files containing information regarding the property are available on the CRA web site at www.fortlauderdalecra.com under NOTICES - Notice of Intent to Dispose of Property at 714 Sistrunk Boulevard and 826 NW 7 Terrace – Files, consisting of Location Map, Appraisal, Surveys, Deeds, Environmental Assessments; and NPF CRA Community Redevelopment Plan.
There may be other right-of-way interest held by the CITY not show on the Surveys. Files containing information on CRA incentive programs and Application for funding assistance can be located on the CRA website at www.fortlauderdalecra.com under Services – CRA Incentive Programs – Application Commercial Programs. For questions regarding these project files, contact Bob Wojcik, CRA Housing and Economic Development Manager at (954) 828-4521.

All proposals for the development of this site shall be submitted on or before 4:00 P.M., July 16, 2019, to the address below, at which time all proposals will be publicly opened and recorded. Proposals received after that time will not be opened or considered.

City of Fort Lauderdale Community Redevelopment Agency (CRA)
914 NW 6th Street (Sistrunk Boulevard), Suite 200
Fort Lauderdale, Florida 33311

It is the sole responsibility of the respondent to ensure their proposal is received on or before the date and time stated, in the specified number of copies and in the format stated herein. The CRA is not responsible for delays caused by any mail, package or courier service, including the U.S. mail, or caused by any other occurrence or condition. The CRA's normal business hours are Monday through Friday, 8:00 a.m. through 5:00 p.m. excluding holidays observed by the CRA.

Submission must include one (1) signed original cover letter with purchase offer, and twenty (20) copies of the Development Proposal, including all attachments plus one (1) electronic (soft) copy (Flash Drive) in a sealed envelope and marked:

714 SISTRUNK BOULEVARD AND 826 NW 7 TERRACE
DEVELOPMENT PROPOSAL

Developers seeking CRA funding assistance must include a complete Application for funding assistance as part of their Development Proposal.

It is the intent of the CRA to select the proposer who submits a development proposal that:

1) Is in the best public interest of the CRA and promotes or facilitates the furtherance of the goals, objectives and policies of the NPF CRA Plan;
2) Is most responsive to this Invitation For Proposals
3) Demonstrates the financial capacity, development experience, qualifications and ability best suited to carry out such proposal.
4) Agrees to purchase the Property in "As Is" condition for its appraised value of $116,000.00.

Developers whose uses may be considered by the Broward County Property Appraiser to be tax exempt from ad valorem (property) taxes, will be required to enter into an agreement with the CRA for payment in lieu of taxes of FL CRA tax increment that would have been generated by the Project.

The CRA reserves the right to accept or reject any and all proposals, either in whole or in part with or without cause, waive any technicalities or irregularities of any proposals, cancel this request for proposals, or to make the award in the best interest of the CRA, subject to approval of the CRA Board of Commissioners.

This invitation for proposal shall serve as notice to the public of the Fort Lauderdale Community Redevelopment Agency's ("CRA") intent to dispose, sell or lease the property to the successful proposer, if the CRA deems it in the best interest of the CRA and in furtherance of the NPF CRA Plan.

Development Plan
West Village

The enclosed package includes information submitted to the City's DSD and various Boards in pursuit of entitlements required to proceed with development of the parcel. Note that in June the City's Planning and Zoning Board considered rezoning of the 7th Terrace Property in conjunction with the Proposer's lots and voted affirmatively to modify the zoning toe NWRAC MUw, consistent with the northern and eastern portions of the block.

The proposers are experienced developers, currently developing property throughout the eastern United States. Financial capacity and experience has been previously submitted to CRA in confidential packages.

The proposed project will serve as a catalyst for the Sistrunk Boulevard corridor by fostering living opportunities in the community and creating a market for neighborhood commercial development. The project has been through significant detailed review and is approaching final approvals, with City commission agenda dates set for September and Final DRC review underway.

Project principals have been discussing elements of a development agreement with CRA staff for 24 months and anticipate closure on this document this summer. The Purchaser understands and expects that Restrictive Covenants and other conditions will be a part of this agreement.

RE: Site Plan Level II DRC for West Village

Dear Mr. Fajardo,

On behalf of the property owners, Keith and Associates, Inc. is submitting an application for a Site Plan Level II for the property located at the SW intersection of W Sistrunk Boulevard and NW 7th Avenue within the City of Fort Lauderdale, Broward County, located in Block 14 of North Lauderdale as recorded in Plat Book 1, Page 48 of the Dade County Records. The property is zoned North West Regional Activity Center-Mixed Use west (NWRAC-MUw) and RMM-25 - Residential Multifamily Mid Rise/ Medium High Density with an underlying future land use of NW Regional Activity Center. The developer is proposing a mixed-use development that includes 470 residential units and 16,575 feet commercial use. The portion of the property zoned RMM-25 is undergoing a rezoning request to NWRAC-MUw, to allow for the development of the entire site. An associated DRT Application was submitted to the City and is currently under review. The DRT Application will be followed by an application to the City Commission to request an increase in height up to 65 Feet, subject to ULDR Section 47-13.52. B *Performance standards and criteria for additional height bonus* and

Planning Principles

The West Village is a mixed-use community designed to be a catalyst in the rebirth of the Sistrunk neighborhood. The vision for this area, as established in the NWRAC-MUw Design Standards and Zoning Regulations, is to promote a mix of uses along the Sistrunk Corridor. The proposed development offers a mix of uses intended to serve the nearby neighborhood and promote a vibrant and thriving residential, business and shopping area. The project supports the long-term future vision of the NWRAC-MU district of promoting and enhancing the existing commercial and residential character of the main corridors of the NWRAC by providing a wide range of employment, shopping, services, cultural and residential opportunities through allowing a mix of residential and non-residential uses. The Northwest Regional Activity Center is experiencing

rapid redevelopment and there is a recognized need for permanent supportive housing in Fort Lauderdale. The proposed use of residential apartments and commercial/retail is suitable to the mixed-use character of the area. Providing employment, shopping, services, cultural and residential opportunities further promote the goals, objectives and policies of the City of Fort Lauderdale.

The full-block development builds out the urban street wall fabric while offering a variety of pedestrian experiences. The articulated facades, mini pocket art plazas, deeply carved reveals and varying building entrances create a dynamic streetscape and pedestrian interaction. The intersection of Sistrunk and NW 7th Avenue integrates a multi-story public plaza space that marks the gateway to the Sistrunk neighborhood. The plan envisions commercial spaces to activate the sidewalk and plaza. The intersection of NW 5th Street and NW 7th Avenue anchors the south end of the block with retail and residential entrances. NW 5th Street and the NW 7th Terrace corridors are lined with walk-up units that anchor the pedestrian scale to the surrounding single-family homes. The interior courtyards were designed with controlled entrance locations and openings from the street, offering glimpses into the interior spaces and creating a sense of porosity thru the block.

Architectural Materials

The façade materials are anchored by an Iron Spot brick masonry plinth. The active ground level facades have large storefronts for visual connection to the street. A rhythm of prefinished cement panel rainscreens and stucco finishes, with large scale window openings and Juliet balconies create a sense of organic scale and visual interest. The parking garage is fully concealed on the NW 7th Terrace exposure as well as both internal courtyards. The NW 7th Avenue of the Arts exposure is a composition of architectural metal screening with an art wall installation envisioned to mark the entrance to the Avenue of the Arts. The use of simulated wood rain screen materials at soffit areas, with glass guardrails accentuates the varying carved-out terraces and balconies, offering a sculpted massing profile to the street.

Section 47-25.2. - Adequacy requirements

A. Applicability. The adequacy requirements set forth herein shall be used by the city to evaluate the demand created on public services and facilities created by a proposed development permit.
Response: Acknowledged.

B. Communications network. Buildings and structures shall not interfere with the city's communication network. Developments shall be modified to accommodate the needs of the city's communication network, to eliminate any interference a development would create or otherwise accommodate the needs of the city's communication network within the development proposal.
Response: Acknowledged.

C. Drainage facilities. Adequacy of stormwater management facilities shall be evaluated based upon the adopted level of service requiring the retention of the first inch of runoff from the entire

site or two and one-half (2½) inches of runoff from the impervious surface whichever is greater.
Response: There are no drainage facilities or stormwater facilities within the site.

D. Environmentally sensitive lands.
1. In addition to a finding of adequacy, a development shall be reviewed pursuant to applicable federal, state, regional and local environmental regulations. Specifically, an application for development shall be reviewed in accordance with the following Broward County Ordinances which address environmentally sensitive lands and wellfield protection which ordinances are incorporated herein by reference:
a. Broward County Ordinance No. 89-6.
b. Section 5-198(I), Chapter 5, Article IX of the Broward County Code of Ordinances.
c. Broward County Ordinance No. 84-60.
2. The applicant must demonstrate that impacts of the proposed development to environmentally sensitive lands will be mitigated.
Response: It is not anticipated that there are any environmentally sensitive lands on or in the vicinity of the site.

E. Fire protection. Fire protection service shall be adequate to protect people and property in the proposed development. Adequate water supply, fire hydrants, fire apparatus and facilities shall be provided in accordance with the Florida Building Code, South Florida Fire Code and other accepted applicable fire and safety standards.
Response: The future project will be designed to meet all fire protection requirements and the proposed building will be fully sprinklered.

F. Parks and open space.
1. The manner and amount of providing park and open space is as provided in Section 47-38A, Park Impact Fees, of the ULDR.
2. No building permit shall be issued until the park impact fee required by Section 47-38A of the ULDR has been paid in full by the applicant.
Response: Acknowledged. The future project will be designed to be consistent with park and open space requirements.

G. Police protection. Police protection service shall be adequate to protect people and property in the proposed development. The development shall provide improvements which are consistent with Crime Prevention Through Environmental Design (CPTED) to minimize the risk to public safety and assure adequate police protection.
Response: Acknowledged. The future project will be designed to be consistent with CPTED guidelines and principles.

H. Potable water.
1. Adequate potable water service shall be provided for the needs of the proposed development. The proposed development shall be designed to provide adequate areas and easements which may be needed for the installation and maintenance of potable water systems in accordance with

city engineering standards, the Florida Building Code, and applicable health and environmental regulations. The existing water treatment facilities and systems shall have sufficient capacity to provide for the needs of the proposed development and for other developments in the service area which are occupied, available for occupancy, for which building permits are in effect or for which potable water treatment capacity has been reserved. Capital expansion charges for water and sewer facilities shall be paid by the developer in accordance with Resolution 85-265, as it is amended from time to time. Improvements to the potable water service and system shall be made in accordance with city engineering standards and other accepted applicable engineering standards.

2. Potable water facilities.

a. If the system is tied into the city treatment facility, the available capacity shall be determined by subtracting committed capacity and present flow from design capacity. If there is available capacity, the city shall determine the impact of the proposed development utilizing Table 3, Water and Wastewater, on file with the department.

b. If there is adequate capacity available in the city treatment plant to serve the proposed development, the city shall reserve the necessary capacity to serve the development.

c. Where the county is the projected service provider, a similar written assurance will be required.

Response: Acknowledged. The future project will be designed to provide adequate potable water services.

I. Sanitary sewer.

1. If the system is tied into the city treatment facility, the available capacity shall be determined by subtracting committed capacity and present flow from the design capacity. If there is available capacity, the city shall determine the impact of the proposed development utilizing Table 3, Water and Wastewater, on file with the department.

2. If there is adequate capacity available in the city treatment plant to serve the proposed development, the city shall reserve the necessary capacity to serve the proposed development.

3. Where the county is the projected service provider, a written assurance will be required.

4. Where septic tanks will be utilized, the applicant shall secure and submit to the city a certificate from the Broward County Health Unit that certifies that the site is or can be made suitable for an on-site sewage disposal system for the proposed use.

Response: Acknowledged. The future project will be designed to provide adequate sanitary sewer services.

J. Schools. For all development including residential units, the applicant shall be required to mitigate the impact of such development on public school facilities in accordance with the Broward County Land Development Code or section 47-38C. Educational Mitigation, as applicable and shall provide documentation to the city that such education mitigation requirement has been satisfied.

Response: The proposed project will comply with Broward County Land Development Code and section 47-38C Educational Mitigation.

K. Solid waste.

1. Adequate solid waste collection facilities and service shall be obtained by the applicant in connection with the proposed development and evidence shall be provided to the city demonstrating that all solid waste will be disposed of in a manner that complies with all governmental requirements.

2. Solid waste facilities. Where the city provides solid waste collection service and adequate service can be provided, an adequacy finding shall be issued. Where there is another service provider, a written assurance will be required. The impacts of the proposed development will be determined based on Table 4, Solid Waste, on file with the department.

Response: Adequate solid waste collection facilities and service will be provided with the proposed development.

L. Stormwater. Adequate stormwater facilities and systems shall be provided so that the removal of stormwater will not adversely affect adjacent streets and properties or the public stormwater facilities and systems in accordance with the Florida Building Code, city engineering standards and other accepted applicable engineering standards.

Response: Adequate stormwater facilities and service will be provided with the proposed development.

M. Transportation facilities.

1. The capacity for transportation facilities shall be evaluated based on Table 1, Generalized Daily Level of Service Maximum Volumes, on file with the department. If a development is within a compact deferral area, the available traffic capacity shall be determined in accordance with Table 2, Flowchart, on file with the department.

2. Regional transportation network. The regional transportation network shall have the adequate capacity, and safe and efficient traffic circulation to serve the proposed development. Adequate capacity and safe and efficient traffic circulation shall be determined by using existing and site-specific traffic studies, the adopted traffic elements of the city and the county comprehensive plans, and accepted applicable traffic engineering standards. Site-specific traffic studies may be required to be made and paid for by the applicant when the city determines such a study is needed in order to evaluate the impacts of the proposed development on proposed or existing roadways as provided for in subsection M.4. An applicant may submit such a study to the city which will be considered by the DRC in its review. Roadway improvements needed to upgrade the regional transportation network shall be made in accordance with the city, the county, and Florida Department of Transportation traffic engineering standards and plans as applicable.

3. Local streets. Local streets shall have adequate capacity, safe and efficient traffic circulation, and appropriate functional classification to serve the proposed development. Adequate capacity and safe and efficient traffic circulation shall be determined by using existing and site-specific traffic studies, the city's comprehensive plan and accepted applicable traffic engineering standards. Site-specific traffic studies may be required to be made and paid for by the applicant when the city determines such a study is required in order to evaluate the impact of the proposed development on proposed or existing roadways as provided for in subsection M.4. An applicant may submit to the city such a study to be considered as part of the DRC review. Street

improvements needed to upgrade the capacity or comply with the functional classification of local streets shall be made in accordance with the city engineering standards and acceptable applicable traffic engineering standards. Local streets are those streets that are not classified as federal, state or county roadways on the functional classification map adopted by the State of Florida.

Response: Not Applicable.

4. Traffic impact studies.

a. When the proposed development may generate over one thousand (1,000) daily trips; or

b. When the daily trip generation is less than one thousand (1,000) trips; and (1) when more than twenty percent (20%) of the total daily trips are anticipated to arrive or depart, or both, within one-half (½) hour; or (2) when the proposed use creates varying trip generation each day, but has the potential to place more than twenty percent (20%) of its maximum twenty-four (24) hour trip generation onto the adjacent transportation system within a one-half (½) hour period; the applicant shall submit to the city a traffic impact analysis prepared by the county or a registered Florida engineer experienced in trafficways impact analysis which shall:

i. Provide an estimate of the number of average and peak hour trips per day generated and directions or routes of travel for all trips with an external end.

ii. Estimate how traffic from the proposed development will change traffic volumes, levels of service, and circulation on the existing and programmed trafficways.

iii. If traffic generated by the proposed development requires any modification of existing or programmed components of the regional or local trafficways, define what city, county or state agencies have programmed the necessary construction and how this programming relates to the proposed development.

iv. A further detailed analysis and any other information that the review committee considers relevant.

v. The traffic impact study may be reviewed by an independent licensed professional engineer contracted by the city to determine whether it adequately addresses the impact and the study supports its conclusions. The cost of review by city's consultant shall be reimbursed to the city by the applicant.

vi. When this subsection M.4.b. applies, the traffic study shall include an analysis of how the peak loading will affect the transportation system including, if necessary, an operational plan showing how the peak trips will be controlled and managed.

Response: A traffic impact study is provided with the associate site plan DRC application.

5. Dedication of rights-of-way. Property shall be conveyed to the public by plat, deed or grant of easement as needed in accordance with the Broward County Trafficways Plan, the city's comprehensive plan, subdivision regulations and accepted applicable traffic engineering standards.

Response: Acknowledged.

6. Pedestrian facilities. Sidewalks, pedestrian crossing and other pedestrian facilities shall be provided to encourage safe and adequate pedestrian movement on-site and along roadways to

adjacent properties. Transit service facilities shall be provided for as required by the city and Broward County Transit. Pedestrian facilities shall be designed and installed in accordance with city engineering standards and accepted applicable engineering standards.
Response: Sidewalk facilities exist on Sistrunk Blvd. and NW 7th Avenue and new sidewalks are proposed along NW 5th Street and NW 7th Terrace. The proposed development plans to enhance the sidewalk experience, per the intent of the design standards for projects located within the North West Regional Activity Center District.

7. Primary arterial street frontage. Where a proposed development abuts a primary arterial street either existing or proposed in the trafficways plan, the development review committee (DRC) may require marginal access street, reverse frontage with screen planting contained in a non-access reservation along the rear property line, deep lots with or without rear service alleys, or such other treatment as may be necessary for adequate protection of residential properties and to assure separation of through and level traffic.
Response: Acknowledged.

8. Other roadway improvements. Roadways adjustments, traffic control devices, mechanisms, and access restrictions may be required to control traffic flow or divert traffic, as needed to reduce or eliminate development generated traffic.
Response: Acknowledged.

9. Street trees. In order to provide for adequate landscaping along streets within the city, street trees shall be required along the length of the property abutting a street. A minimum of fifty percent (50%) of the required street trees shall be shade trees, and the remaining street trees may be provided as flowering or palm trees. These percentages may be varied based on existing or proposed physical conditions which may prevent the ability to comply with the street tree requirements of this subsection. The street trees shall be planted at a minimum height and size in accordance with the requirements of Section 47-21, Landscape and Tree Preservation Requirements, except in the downtown RAC districts the requirements of Sec. 47-13.20.H.8 shall apply. The location and number of street trees shall be determined by the department based on the height, bulk, mass and design of the structures on the site and the proposed development's compatibility to surrounding properties. The requirements for street trees, as provided herein, may be located within the public right-of-way as approved by the entity with jurisdiction over the abutting right-of-way.
Response: The proposed project will comply with all landscape requirements.

N. Wastewater.
1. Wastewater. Adequate wastewater services shall be provided for the needs of the proposed development. The proposed development shall be designed to provide adequate areas and easements which may be needed for the installation and maintenance of a wastewater and disposal system in accordance with applicable health, environmental and engineering regulations and standards. The existing wastewater treatment facilities and systems shall have adequate capacity to provide for the needs of the proposed development and for other developments in

the service area which are occupied, available for occupancy, for which building permits are in effect or for which wastewater treatment or disposal capacity has been reserved. Capital expansion charges for water and sewer facilities shall be paid by the developer in accordance with Resolution 85-265, as it is amended for time to time. Improvements to the wastewater facilities and system shall be made in accordance with the city engineering and accepted applicable engineering standards.
Response: Acknowledged.

O. Trash management requirements. A trash management plan shall be required in connection with non-residential uses that provide prepackaged food or beverages for off-site consumption. Existing non-residential uses of this type shall adopt a trash management plan within six (6) months of the effective date of this provision.
Response: Acknowledged.

P. Historic and archaeological resources.
1. If a structure or site has been identified as having archaeological or historical significance by any entity within the State of Florida authorized by law to do same, the applicant shall be responsible for requesting this information from the state, county, local governmental or other entity with jurisdiction over historic or archaeological matters and submitting this information to the city at the time of, and together with, a development permit application. The reviewing entity shall include this information in its comments.
Response: It is not anticipated that there are any historic or archaeological resources on or in the vicinity of the alley.

Q. Hurricane evacuation. If a structure or site is located east of the Intracoastal Waterway, the applicant shall submit documentation from Broward County or such agency with jurisdiction over hurricane evacuation analysis either indicating that acceptable level of service of hurricane evacuation routes and hurricane emergency shelter capacity shall be maintained without impairment resulting from a proposed development or describing actions or development modifications necessary to be implemented in order to maintain level of service and capacity.
Response: This project is not located east of the Intracoastal Waterway.

Thank you for your review of this application. Please feel free to contact (954) 788-3400 if you require additional information or have questions regarding this application. We look forward to working with you on this exciting project.

Respectfully Submitted,

DEVELOPMENT REVIEW COMMITTEE (DRC)
Site Plan Application

Cover:	Deadline, Notes, and Fees
Page 1:	Applicant Information Sheet
Page 2:	Required Documentation / Submittal Checklist
Page 3:	Technical Specifications for Plan Submittal
Addendum:	DRC Rezone with Flex Allocation <<if applicable>>
Addendum:	Parking Reduction Information <<if applicable>>

DEADLINE: Submittals must be received by 4:00 PM each business day. Pursuant to Section 47-24.1(1), the Department will review all applications to determine completeness within five (5) business days. Applicants will be notified via email, if plans do not meet the submittal requirements and if changes are required.

NOTES: Prior to formal submittal of applications, applicants are encouraged to schedule an appointment with Urban Design & Planning Division staff to obtain feedback regarding subject proposals, especially rezoning and right-of-way vacation requests, as well as any other considerable development projects. The meetings provide an opportunity for applicants to obtain feedback and general direction, prior to expending significant effort on design and preparation of submittal documents.

Optional 15-minute time slots are available during DRC meetings for scheduling to applicants, to obtain signatures on completed DRC plans (including Pre-Planning and Zoning Board, Pre- City Commission and Final DRC plans) from all representatives at one time, in preference to scheduling individual appointments. Appointments are subject to availability. To make an appointment, please call 954-828-6531 latest by Friday at 12:00 noon prior to the meeting date.

FEES: All applications for development permits are established by the City Commission, as set forth by resolution and amended from time to time. In addition to the application fee, any additional costs incurred by the City including review by a consultant on behalf of the City, or special advertising costs shall be paid by the applicant. Any additional costs, which are unknown at the time of application, but are later incurred by the City, shall be paid by the applicant prior to the issuance of a development permit.

Page 2: Required Documentation / Submittal Checklist

One (1) copy of the following documents:

- ❑ Completed application (all pages filled out as applicable)
- ❑ Proof of ownership (warranty deed or tax record), including corporation documents if applicable
- ❑ Property owners signature and/or agent letter signed by the property owner.
- ❑ Address verification letter (954-828-5233)
- ❑ Traffic study for projects that trigger vehicular trip threshold (See ULDR Sec. 47-24, contact Engineering Rep re: methodology)
- ❑ Color photographs of the property and surrounding properties, dated, labeled and identified as to orientation, may be submitted by applicant to aid in project analysis.

The following number of Plans:

- ❑ One (1) original set, signed and sealed at 24" x 36"
- ❑ Three (3) copy sets, with plans at 24" x 36"
- ❑ Five (5) copy sets, with plans at 11" x 17"
- ❑ One (1) electronic version of complete application and plans in PDF format

NOTE: For initial submittal one signed and sealed set is required. Copied sets will be requested after review for completion. If the development site is separated by a public right-of-way, including alley or alley reservations, a separate application must be completed for each parcel.

Plan sets should include the following:

- ❑ **Narrative** describing project specifics, to include: architectural style and important design elements, trash disposal system, security/gating system, hours of operation, etc. Narrative response referencing all applicable sections of the ULDR, with point-by-point responses of how project complies with criteria. Narratives must be on letterhead, dated, and with author indicated.
- ❑ **Cover sheet** including project name and table of contents.
- ❑ **Land Use and Zoning maps** indicating all properties within 700 ft. of the subject property. These should be obtained from Urban Design & Planning Division. Site should be highlighted or clearly marked to identify the parcel(s) under consideration on all sets.
- ❑ **Current survey(s)** of property, signed and sealed, showing existing conditions. The survey should consist of the proposed project site alone excluding adjacent properties or portions of lands not included in the proposal.
- ❑ Most **current recorded plat** including amendments, with site highlighted. This may be obtained from Broward County Public Records at 115 S. Andrews Ave. *Note: Not required for Change of Use applications.*
- ❑ **Aerial photo** indicating all properties within 700 ft. of the subject property. Must be clear and current with site highlighted.
- ❑ **Plans** "A" thru "H" with all elements as listed under Technical Specifications.
  - A. Site Plan
  - B. Details*
  - C. Floor Plans (typical floor plan may be submitted for like floors)
  - D. Building Elevations*
  - E. Additional Renderings*
  - F. Landscape Plans*
  - G. Photometric Diagram*
  - H. Engineering Plans*

  **Only required for Change of Use applications if proposed changes affect the plans, otherwise latest approved plans from Property Records may be submitted if showing current conditions.*

NOTES:

- All plans and documents must be bound, stapled and folded to 8 ½" x 11";
- All copy sets must be clear and legible and should include any graphic material in color;
- For examples of project narratives, site plan data tables, and renderings required as part of the application, please refer to the "Submittal Reference Book" available at the Urban Design & Planning office or on the City's website: http://www.fortlauderdale.gov/planning_zoning/dev_applications.htm;
- **Civil Engineering plans are only required at Final-DRC sign-off. Contact DRC Engineering Representative for details;**
- If proposing residential, public School Concurrency Verification Letter from the Broward County School Board (754-321-8350) will be required prior to Planning & Zoning Board, City Commission or final DRC submittal.

A. SITE PLAN

1. Title Block including project name and design professional's address and phone number
2. Scale (1" = 30' min., must be engineer's scale)
3. North indicator
4. Location map showing relationship to major arterials
5. Drawing and revision dates, as applicable
6. Full legal description
7. Site Plan Data Table
   - Current use of property and intensity
   - Land Use designation
   - Zoning designation
   - Water/wastewater service provider
   - Site area (sq. ft. and acres)
   - Building footprint coverage
   - Residential development: number of dwelling units, type, floor area(s), site density (gross and net)
   - Non-residential development: uses, gross floor area
   - Parking data: parking required (#), parking provided (#), loading zones (if applicable), ADA spaces
   - Floor Area Ratio (FAR) (total building square footage, including structured parking, divided by site area)
   - Building height (expressed in feet above grade)
   - Structure length
   - Number of stories
   - Setback table (required vs. provided)
   - Open space
   - Vehicular use area (as defined by Sec. 47-58.2, in sq. ft.)
   - Open space (in sq. ft.)
   - Landscape area (in sq. ft.)
   - Linear feet of sidewalk proposed
8. Site Plan Features (graphically indicated)
   - Municipal boundaries (as applicable)
   - Zoning designation of adjacent properties with current use listed
   - Adjacent rights-of-way to opposite property lines (indicate all nearby curb cuts)
   - Waterway width, if applicable
   - Outline of adjacent buildings (indicate height in stories and approximate feet)
   - Property lines (dimensioned)
   - Building outlines of all proposed structures (dimensioned)
   - Ground floor plan
   - Dimension of grade at center line of road, at curb, and finished floor elevation
   - Dimension for all site plan features (i.e. sidewalks, building lengths and widths, balconies, parking spaces, street widths, etc.)
   - Mechanical equipment dimensioned from property lines
   - Setbacks and building separations (dimensioned)
   - Driveways, parking areas, pavement markings (including parking spaces delineated and dimensioned as well as handicapped spaces as applicable)
   - On-site light fixtures
   - Proposed ROW improvements (ie. bus stops, curbs, tree plantings, etc.)
   - Pedestrian walkways (including public sidewalks and on-site pedestrian paths), Project signage
   - Traffic control signage
   - Catch basins or other drainage control devices
   - Fire hydrants (including on-site and adjacent hydrants)
   - Easements (as applicable)

B. DETAILS

1. Provide details of the following (Scale ¼" = 1' min.)
   - Ground floor elevation
   - Storefronts, awnings, entryway features, doors, windows
   - Fences/walls
   - Dumpster
   - Light fixtures
   - Balconies, railings
   - Trash receptacles, benches, other street furniture
   - Pavers, concrete, hardscape ground cover material

C. FLOOR PLANS

1. Delineate and dimension, indicating use of spaces
2. Show property lines and setbacks on all plans
3. Typical floor plan for multi-level structure
4. Floor plan for every level of parking garage
5. Roof plan

D. BUILDING ELEVATIONS

1. All building facades with directional labels (ie. North, South) and building names if more than one building
2. Dimensions, including height and width of all structures
3. Dimensions of setbacks and required stepbacks from property lines
4. Dimension grade at crown of road, at curb, sidewalk, building entrance, and finished floor
5. Indicate architectural elements, materials and colors
6. Include proposed signage

E. ADDITIONAL RENDERINGS (as applicable)

For projects subject to Sec. 47-25.3 Neighborhood Compatibility, and/or new buildings 55' or five stories or more in height, the following are required:

- Street-level perspective renderings of project in context of surroundings, as viewed from a pedestrian level, with ground elements and references to depict and determine appropriate scale of project
- Oblique aerial perspectives from opposing views, which indicate the mass outline of all proposed structures, including the outlines of adjacent existing structures
- Context site plan indicating proposed development and outline of nearby properties with uses and height labeled

F. LANDSCAPE PLAN

1. Site Plan information (in tabular form on plans)
2. Title block including project name and design professional's address and phone number
3. Scale (1" = 30' min, must be engineer's scale)
4. North indicator
5. Drawing and revision dates, as applicable
6. Landscape Plan Information (in tabular form on plans)
   - Site area (sq. ft. and acres)
   - Vehicular use area (as defined by Sec. 47-58.2, in sq. ft.)
   - VUA landscape area (minimum 20% of VUA – in sq. ft. and percentage of VUA)
   - Perimeter landscape area (including buffers adjacent to ROW)
   - Interior landscape area (30 sq.ft. per space)
   - Total trees required/provided (1 per 1,000 sq.ft. net lot area)
   - VUA trees required/provided (1 per 1,000 sq.ft. VUA)
   - VUA shade trees required/provided (3" caliper)
   - VUA shade trees required/provided (2-3" caliper)
   - VUA flowering trees required/provided
   - VUA palms required/provided
   - VUA shrubs required/provided (6 per 1,000 sq.ft. VUA)
   - Bufferyard trees (if applicable)
7. Landscape Plan Features (graphically indicated)
   - Property lines
   - Easements (as applicable)
   - Landscape areas with dimensions
   - Existing trees and palms, their names and sizes (indicate whether they are to remain, be relocated, or removed)
   - Names and locations for all proposed trees, shrubs and groundcover, with quantities noted at each location
   - Plant list (note species, sizes, quantities and any appropriate specifications)
   - Site elements (buildings, parking areas, sidewalks, signs, fire hydrants, light fixtures, drainage structures, curbing, all utilities both above and below ground)
   - Grading (swales, retention areas, berms, etc.)

City of Fort Lauderdale

From: Lisa Bernstein, PE

Date: March 8, 2019

Re: West Village Parking Reduction Request – Sistrunk Redevelopment, SW Corner NW 6 Street and NW 7 Avenue (Avenue of the Arts)

The developer is proposing to construct West Village, a Six-Story Mixed-Use Development on the southwest corner of NW 6 Street and NW 7 Avenue. They are requesting a parking reduction from the number of spaces required by City Code. The City of Fort Lauderdale requires a parking reduction analysis for this request. This memorandum will outline the parking reduction methodology and analysis for the request.

The West Village proposed development is located on the southwest corner of NW 6 Street (Sistrunk Boulevard) and NW 7 Avenue (Avenue of the Arts). The property is bounded by NW 6 Street to the north, NW 7 Avenue to the east, NW 5 Street to the south and NW 7 Terrace to the west in Fort Lauderdale, Florida.

West Village will be a Six-Story Mixed-Use Development on the southwest corner of NW 6 Street and NW 7 Avenue. There will be a maximum of 470 apartment units (384 studio/one-bedroom, 73 two-bedroom and 13 two-bedroom/one den/two bath) and 16,575 Square Feet (SF) of Retail use. The project will provide 498 parking spaces. The provided parking spaces are less than the number required per City Code. The following analysis will compare the City Code required parking spaces for a Mid-Rise Apartment building with a retail component and the spaces required per the Institute of Transportation Engineers (ITE), *Parking Generation*, 4th Edition.

City Code Requirements

The proposed development is in the City's Northwest Regional Activity Center (NWRAC). The City's *Unified Land Development Code, Section 47-20.0 Parking and loading zone requirements*, provides information in Table 3 for the NWRAC. Table 3 states that for the NWRAC, the parking space requirements for residential are the same for the uses in Table 1. Table 1 states that the parking requirement for multifamily efficiency and one-bedroom are 1.75 spaces per unit and for multifamily two-bedroom its is 2 spaces per unit.

Table 3 states that nonresidential use greater than 2,500 SF shall be required to provide 60% of the parking space requirements for the uses provided in Table 1. Retail sales, service requires one space per 250 SF of gross floor area (gfa). The first 2,500 SF of Retail space is not counted per Table 3, which would result in 14,075 SF used for the parking calculation. The City Code information is included.

Based on the City Code criteria, the following number of spaces would be required:

Multifamily Studio/One-bedroom	1.75 spaces/unit	384 units	672 spaces
Multifamily Two-bedroom	2.0 spaces/unit	73 units	146 spaces
Multifamily Two-bedroom/One Den/Two Bath	2.1 spaces/unit	13 units	28 spaces
Retail Space	1space/250 gfa	14,075 SF	57 spaces (60%) = 35 spaces
Total Spaces Required per Code			**881 spaces**

With more reliance on different modes of transportation and the multitude of available transit along NW 6 Street (Sistrunk Boulevard) and NW 7 Avenue (Avenue of the Arts), the code required spaces are excessive for the proposed development. Alternative travel modes which will reduce roadway congestion are being encouraged.

The City Code required parking is compared to the data provided by the ITE *Parking Generation, 4th Edition* for the same uses.

ITE Parking Generation, 4th Edition

The ITE *Parking Generation, 4th Edition*, provides an estimate of parking demand based on parking demand studies submitted to ITE by public agencies, consulting firms, universities, association and local sections, districts and student chapters of ITE.

The parking demand data used in this evaluation is for the Land Use Code (LUC) 221, Low/Mid-Rise Apartment. The Traffic Impact Study also used LUC 221 for the project's Trip Generation. The condition evaluated is the Average Peak Period Parking Demand vs. Dwelling Units, on a Weekday in an Urban Area. The information from the ITE *Parking Generation, 4th Edition* is included with this memorandum.

The peak demand for parking for a Mid-Rise Apartment is from 10:00 PM to 5:00 AM. The data provides an equation to determine the number of parked vehicles based on the number of dwelling units. The equation is based on study sites with an average of less than 1.5 bedrooms per dwelling unit, so will only be applied to the Studio and one-bedroom units. Study sites with an average of 2.0 or greater bedrooms per dwelling unit reported peak demand at 13 percent greater. The two-bedroom dwelling units will use the equation plus 13 percent.

The Retail Space in the ITE *Parking Generation, 4th Edition* is based on Land Use 820 – Shopping Center. This use is for large retail shopping centers with an average SF of over 500,000 SF. The retail for this project is more localized with 16,575 SF. The City Code allows for the parking requirement for Retail Space to be reduced, therefor the same information from the City Code is used for these number of parking spaces. Based on the ITE Parking Generation, the following number of spaces would be required:

Multifamily Studio/One-bedroom	P = 0.92X + 4	384 units	358 spaces
Multifamily Two-bedroom	P = (0.92X + 4) * 1.13	86 units	94 spaces
Retail Space (City Code)	1space/250 gfa	14,075 SF	57 spaces (60%) = 35 spaces
Total Spaces Required per Code			**487 spaces**

Per ITE *Parking Generation, 4th Edition*, 487 spaces are required for the proposed project. There will be 498 spaces provided and the Retail spaces will not be needed at night and may be used for the residential overnight parking.

Conclusions

The developer is proposing to construct a Six-Story Mixed-Use Development on the southwest corner of NW 6 Street and NW 7 Avenue. There will be a maximum of 470 apartment units (384 studio/one-bedroom, 73 two-bedroom and 13 two-bedroom/one den/two bath) and 16,575 Square Feet (SF) of Retail use. The project will provide 498 parking spaces.

The provided parking spaces are less than the number required per City Code. The analysis shows that the City Code required parking spaces for a Mid-Rise Apartment building with a retail component would require 881 spaces, far more than available or needed on site. The parking spaces required per the Institute of Transportation Engineers (ITE), *Parking Generation*, 4th Edition for the same land uses are 487, which are less than what is being provided. The additional spaces and retail spaces would be available at night during the peak parking demand time for the residential. With the available alternative modes of transportation in the area, the reduced parking spaces would be appropriate for this project.

SECTION 47-20. - PARKING AND LOADING REQUIREMENTS

Sec. 47-20.1. - Intent and purpose.

A. The purpose of this section is:

1. To establish land development regulations that address the provision of off-street parking and loading for existing and future development, the access to parking areas; adequate on-site traffic circulation and integration of on-site and off-site traffic circulation.
2. To provide off-street parking requirements and standards for development and redevelopment of the city that achieve a balance between the parking needs and the limitation of space in a developed city.
3. To insure that development and redevelopment in the city includes safe, efficient and effective parking areas for the protection of existing neighborhoods and, where appropriate, to require mitigation of potential adverse impacts on adjacent uses.
4. The requirements of this section are intended to implement and complement the city's comprehensive plan, the Florida Building Code (Broward County Edition); guidelines adopted by the Institute of Transportation Engineers; city construction standards and specifications; the Florida Accessibility Code for Building Construction, latest edition regulations issued by federal and state agencies to implement the Federal Americans with Disabilities Act (ADA); and all other related and applicable codes.

(Ord. No. C-97-19, § 1(47-20.1), 6-18-97; Ord. No. C-03-23, § 2, 7-1-03)

Sec. 47-20.2. - Parking and loading zone requirements.

A. The off-street parking and loading required by this section shall be provided and maintained on the basis of the minimum requirements in the Table of Parking and Loading Zone Requirements ("Table"). Table 1 identifies uses and the parking and Table 2 identifies loading requirements for each use in all zoning districts except Downtown Regional Activity Center (RAC) districts, Central Beach Districts and districts within the North Beach Area as defined in Section 47-20.2.D.

B. For the purpose of calculating parking spaces, gross floor area shall not include: covered or enclosed parking areas; exterior unenclosed private balconies; floor space used for mechanical equipment for the building; and, elevator shafts and stairwells at each floor. Customer service area is the area of an establishment available for food or beverage service or consumption, or both, calculated by measuring all areas covered by customer tables and bar surfaces and any floor area within five (5) feet of the edge of said tables and bar surfaces, measured in all directions where customer mobility is permitted. Customer service area shall include any outdoor or patio floor area used or designed for food or beverage service or consumption, or both, measured as specified above. Areas between tables or bars which overlap in measurement with another table shall only be counted once.

C. Table 3 identifies the parking and loading requirements for the RAC and Central Beach districts.

D. Table 4 identifies the parking and loading requirements for the North Beach Area defined as the area

Executive Summary

Urbano 500 LLC is proposing to develop West Village, a six-story Mixed-Use Development with 470 apartment units and 16,575 Square Feet (SF) of Retail use on NW 7 Avenue in Fort Lauderdale, Florida. The City of Fort Lauderdale is requesting a Traffic Impact Study to evaluate the traffic that will be generated by the project.

The Traffic Impact Study consists of the proposed project's trip generation and trip distribution throughout the surrounding roadways. Eight (8) area intersections and the project's access drive are analyzed during the morning (AM) and afternoon (PM) peak traffic hours. The existing traffic is compared to the future traffic without the project and the future traffic with the project. The future is considered 2023, the buildout year of the project.

The analyses in the study demonstrates that the proposed access to the development is sufficient to accommodate the projects trips. The new trips anticipated to be generated by the proposed project will not have a significant impact on the surrounding roadways. The intersections around the proposed development will continue to operate at acceptable Levels of Service.

TRAFFIC IMPACT STUDY

West Village

Fort Lauderdale, Florida 33060

Introduction

Urbano 500 LLC is proposing to develop West Village, a six-story Mixed-Use Development on the southwest corner of NW 6 Street (Sistrunk Boulevard) and NW 7 Avenue (Avenue of the Arts). There will be a maximum of 470 apartment units and 16,575 Square Feet (SF) of Retail use. The properties are mostly vacant except for a Christian Center and a small, single-story apartment building.

Existing Conditions

The property is located on the southwest corner of NW 6 Street (Sistrunk Boulevard) and NW 7 Avenue (Avenue of the Arts) which is a signalized intersection. The site is bordered by NW 6 Street to the north, NW 7 Avenue to the east, NW 5 Street to the south and NW 7 Terrace to the west. The roadways in the vicinity of the project are as follows:

- NW 6 Street (Sistrunk Boulevard) – A four-lane (10-foot) divided, east-west roadway. The speed limit is 30 MPH.
- NW 7 Avenue (Avenue of the Arts) – A five-lane (11-foot), north-south, roadway. The speed limit is 35 MPH.
- NW 5 Street – A two-lane (12-foot), east-west roadway. The speed limit is 30 MPH.
- NW 7 Terrace – A two-lane (10-foot), north-south, roadway. The speed limit is 30 MPH.
- NW 9 Avenue – A two-lane (10-foot), north-south, roadway. The speed limit is 25 MPH.
- NW 4 Street – A two-lane (12-foot), east-west roadway. The speed limit is 30 MPH.

The property is currently occupied by a Christian Center and a small, single-story apartment building. Figure 1 shows the property location.

Proposed Conditions

The redevelopment of the site will result in the demolition of the existing building space and the construction of a new six-story apartment building with 470 units and 16,575 SF of retail. The proposed access to the property will be a driveway connection at NW 7 Terrace, north of NW 5 Street. The buildout year is 2023. The proposed site plan is included in Appendix A.

Trip Generation

Trip generation calculations for the existing and proposed conditions are based on trip generation rates and equations published in the Institute of Transportation Engineers (ITE), *Trip Generation Manual,* 10th Edition. Trip generation calculations for the proposed development are based on ITE Land Use Code (LUC) 221, Multifamily (Mid-Rise) and LUC 820, Shopping Center. The Shopping Center LUC is used for retail uses that are not specifically defined. Due to the small SF proposed compared to a shopping center, the lower end of the average rate is used for the Retail component Daily trips. These Land Use Codes are used for the analysis and the results are summarized in Tables 1, 2 and 3 for Daily, AM Peak Hour and PM Peak Hour, respectively.

Using the ITE trip generation rates, the proposed development will 2,414 Daily trips, 155 AM Peak Hour trips and 233 PM Peak Hour trips.

The trips generated by the proposed development are used in the analyses, trip credit was not applied for the few small buildings on the site. Appendix B includes the trip generation worksheets.

Trip Distribution

The trip distribution is based on the data from existing traffic counts, FDOT count stations and general knowledge of the area surrounding the project location. Figure 2A illustrates the trip distribution percentages for the area. Figures 2B and 2C show the distribution at the study intersections by lane movement.

Intersection Analyses

The following intersections are analyzed for existing, future without the project and future with the project conditions for both the AM and PM Peak Hours:

- NW 6 Street (Sistrunk Boulevard)/NW 7 Avenue (Avenue of the Arts) – A signalized intersection.
- NW 6 Street (Sistrunk Boulevard)/NW 7 Terrace – An unsignalized intersection.
- NW 6 Street (Sistrunk Boulevard)/NW 9 Avenue – A signalized intersection.
- NW 5 Street/NW 7 Avenue (Avenue of the Arts) – An unsignalized intersection.
- NW 5 Street/NW 7 Terrace – An unsignalized intersection.
- NW 5 Street/NW 9 Avenue – An unsignalized intersection.
- NW 4 Street/NW 7 Avenue (Avenue of the Arts) – A signalized intersection.
- NW 4 Street/NW 9 Avenue – A signalized intersection.

Traffic counts were performed on December 11 and 12, 2018 during the AM Peak Hour (7:00 to 9:00) and PM Peak Hour (4:00 to 6:00). Figures 3A and 3B detail the existing traffic at the subject intersections. Figures 4A and 4B are the Future Background Traffic; Figures 5A and 5B show the Project Traffic and Figures 6A and 6B show the Future Total Traffic and includes the volumes at the proposed driveway on NW 7 Terrace.

The growth rate of 1% is documented through five (5) FDOT count stations around the project the FDOT Traffic Trends Analysis Tool. The five (5) sites yielded growth rate of 2.12%, -2.43%, 0.66%, 1.03% and 0.85%. The average of these rates is less than 1.00%, therefore, to be conservative a 1% growth rate is applied for the 2023 background traffic. The Historical AADT and FDOT Traffic Trends Analysis Tool spreadsheets are included in Appendix C.

The peak season factor was determined by using the FDOT Peak Season Factor Category Report for the area in which the project is located. For the peak season factor, the area is Central Broward, west of US 1 to SR 7. The peak season factor is also in Appendix C.

The analyses, to determine Level of Service (LOS), are done using Highway Capacity Software. The Highway Capacity Manual (HCM) states that the LOS is a quantitative stratification of a performance measure or measures that represent quality of service. The measures used to determine LOS for transportation system elements are called service measures. The HCM defines six (6) levels of service, ranging from A to F, for each service measure, or for the output from a mathematical model based on multiple performance measures. The results of the analyses for the eight (8) intersections are summarized in Table 4.

The LOS, for the study intersections do not exceed the City of Fort Lauderdale requirements for capacity per City Code: *Article V. Development Review Criteria, Section 47.25. – Development Review Criteria, M. Transportation facilities, 3. Local streets. Local streets shall have adequate capacity, safe and efficient traffic circulation, and appropriate functional classification to serve the proposed development. Adequate capacity and safe and efficient traffic circulation shall be determined by using existing and site-specific traffic studies, the city's comprehensive plan and accepted applicable traffic engineering standards. Site-specific traffic studies may be required to be made and paid for by the applicant when the city determines such a study is required in order to evaluate the impact of the proposed development on proposed or existing roadways as provided for in subsection M.4. An applicant may submit to the city such a study to be considered as part of the DRC review. Street improvements needed to upgrade the capacity or comply with the functional classification of local streets shall be made in accordance with the city engineering standards and acceptable applicable traffic engineering standards. Local streets are those streets that are not classified as federal, state or county roadways on the functional classification map adopted by the State of Florida.*

FDOT and Broward County did not require a traffic study.

The overall Level of Service (LOS) for the study intersections are acceptable for all conditions.

Pedestrian and bicycle activity were observed during the vehicle counts. The pedestrian and bicycle activity did not have a significant impact on the operation of any of the intersections.

The actual count data and the turning movement count data are included in Appendix D. The signal timing and the HCS+ summary reports are included in Appendix E.

Conclusions

Urbano 500 LLC is proposing to develop West Village, a six-story Mixed-Use Development on the southwest corner of NW 6 Street (Sistrunk Boulevard) and NW 7 Avenue (Avenue of the Arts). There will be a maximum of 470 apartment units and 16,575 Square Feet (SF) of Retail use.

The access to the proposed development is sufficient to accommodate the project trips. The trip generation for the project indicates that the new trips anticipated to be generated will not have a significant impact on the surrounding roadways. The intersections around the proposed development will continue to operate at acceptable Levels of Service.

Based on the findings in this report, the proposed development, at NW 6 Street (Sistrunk Boulevard) and NW 7 Avenue (Avenue of the Arts), is compatible with the surrounding neighborhood and will not have a significant impact on the surrounding roadways.

SURVEY NOTES:

1. LAND DESCRIPTION SHOWN HEREON WAS PROVIDED BY THE CLIENT.
2. NOT VALID WITHOUT THE SIGNATURE AND ORIGINAL RAISED SEAL OF A FLORIDA LICENSED SURVEYOR AND MAPPER.
3. LANDS SHOWN HEREON WERE ABSTRACTED FOR RIGHTS OF WAY, EASEMENTS, OWNERSHIP, OR OTHER INSTRUMENTS OF RECORD BY ATTORNEYS' TITLE FUND SERVICES, LLC., TITLE POLICY NUMBER 686595 FEBRUARY 1, 2019 @ 11:00 PM.
4. OTHER THAN AS SHOWN, THERE IS NO EVIDENCE THAT UNDERGROUND ENCROACHMENTS EXIST. HOWEVER SUBSURFACE INVESTIGATION WAS NOT PERFORMED TO DETERMINE IF UNDERGROUND ENCROACHMENTS EXIST.
5. THIS SURVEY DOES NOT IDENTIFY THE LIMITS OR EXTENTS OF POTENTIAL JURISDICTIONAL BOUNDARIES.
6. BEARINGS SHOWN HEREON ARE BASED ON AN ASSUMED BEARING OF NORTH 87°51'26" EAST ALONG THE NORTH LINE OF BLOCK 14, NORTH LAUDERDALE, ACCORDING TO THE PLAT THEREOF, AS RECORDED IN PLAT BOOK 1, AT PAGE 48, OF THE PUBLIC RECORDS OF MIAMI-DADE COUNTY, FLORIDA.
7. IT IS A VIOLATION OF RULE 5J-17 OF THE FLORIDA ADMINISTRATIVE CODE TO ALTER THIS SURVEY WITHOUT THE EXPRESS PRIOR WRITTEN CONSENT OF THE SURVEYOR. ADDITIONS AND/OR DELETIONS MADE TO THE FACE OF THIS SURVEY WILL MAKE THIS SURVEY INVALID.
8. THE OWNERSHIP OF FENCES SHOWN HEREON ARE NOT KNOWN AND THUS ARE NOT LISTED AS ENCROACHMENTS.
9. THIS SURVEY IS CLASSIFIED AS COMMERCIAL/HIGH RISK AND EXCEEDS THE MINIMUM RELATIVE DISTANCE ACCURACY OF 1 FOOT IN 10,000 FEET AS REQUIRED BY THE STANDARDS OF PRACTICE (RULE 5J-17, F.A.C.). THE ACCURACY OBTAINED BY MEASUREMENT AND CALCULATION OF A CLOSED GEOMETRIC FIGURE WAS FOUND TO EXCEED THIS REQUIREMENT.
10. HORIZONTAL FEATURE LOCATION IS TO THE CENTER OF THE SYMBOL WHICH MAY HAVE BEEN ENLARGED FOR CLARITY. ALL MAPPED FEATURES SHOWN HEREON WERE OBTAINED BY KEITH & ASSOCIATES, INC. FOR THE PURPOSE OF THIS SURVEY. DISTANCES SHOWN HEREON ARE IN U.S. FEET.
11. THE INTENDED DISPLAY SCALE OF THIS SURVEY IS 1" = 30' OR SMALLER.
12. THE EXPECTED VERTICAL ACCURACY OF THE INFORMATION SHOWN HEREON IS +/- 0.02' FOR HARD SURFACE ELEVATIONS AND 0.1' FOR SOFT SURFACE ELEVATIONS. THE EXPECTED HORIZONTAL LOCATION ACCURACY IS +/- 0.1'.
13. ELEVATIONS SHOWN HEREON ARE BASED ON THE NORTH AMERICAN VERTICAL DATUM OF 1988 (NAVD 1988). THIS IS TO CERTIFY THAT THIS MAP OR PLAT AND THE SURVEY ON WHICH IT IS BASED WERE MADE IN ACCORDANCE WITH ALL APPLICABLE LAWS REGULATING SURVEYING IN THE STATE OF FLORIDA AND WITH THE 2016 MINIMUM STANDARD DETAIL REQUIREMENTS FOR ALTA/NSPS LAND TITLE SURVEYS, JOINTLY ESTABLISHED AND ADOPTED BY ALTA AND NSPS, AND INCLUDES ITEMS 1, 2, 3, 4, 5, 7(A), 7(B1), 8, 9, 11, 13, 14, 16, 17, 19, AND 20 OF TABLE A THEREOF. THE FIELDWORK WAS COMPLETED ON FEBRUARY 16, 2019.

1. THE ACCOMPANYING SURVEY WAS MADE ON THE GROUND AND CORRECTLY SHOWS THE LOCATION OF ALL BUILDINGS, STRUCTURES AND OTHER IMPROVEMENTS SITUATED ON THE SUBJECT PROPERTY EXCEPT AS NOTED. THERE ARE NO VISIBLE ENCROACHMENTS ON THE SUBJECT PROPERTY OR UPON ADJACENT LAND ABUTTING SUBJECT PROPERTY EXCEPT AS SHOWN HEREON, AND THERE ARE NO PARTY WALLS. ALL AREAS IN RECIPROCAL EASEMENT AGREEMENTS ("REA'S") HAVE BEEN DENOTED ON THE SURVEY. THE LIMITS OF ANY OFFSITE APPURTENANT EASEMENTS ARE ALSO SHOWN ON THE SURVEY. THE LIMITS OF ANY REA'S OF OFFISTE APPURTENANT AND BENEFICIAL EASEMENTS TO THE LAND SUBJECT TO THE SURVEY ARE REPORTED.

2. THE SUBJECT PROPERTY IS THE SAME AS THE PROPERTY DESCRIBED IN THAT CERTAIN TITLE COMMITMENT NO. 686595, ISSUED BY ATTORNEYS' TITLE FUND SERVICES, LLC, WITH AN EFFECTIVE DATE OF FEBRUARY 1, 2019 @ 11:00 PM AND THAT ALL EASEMENTS, COVENANTS AND RESTRICTIONS REFERENCED IN SAID TITLE COMMITMENT OR APPARENT FROM A PHYSICAL INSPECTION OF THE SUBJECT PROPERTY OR OTHERWISE KNOWN TO ME HAVE BEEN PLOTTED HEREON OR OTHERWISE NOTED AS TO THEIR EFFECT ON THE SUBJECT PROPERTY.

3. THE SUBJECT PROPERTY DOES LIE WITHIN A SPECIAL FLOOD HAZARD AREA. THE PROPERTY LIES WITHIN ZONE X AS DEFINED BY THE FEDERAL EMERGENCY MANAGEMENT AGENCY. THE FLOOD AREA IS DELINEATED WITH SHADING OR OTHERWISE CLEARLY MARKED TO SHOW THE AREAS HAVING A ZONE DESIGNATION OF "X, AREAS INSIDE OF 0.2% ANNUAL CHANCE OF FLOOD", BY THE FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA), ON FLOOD INSURANCE RATE MAP NO. 12011C0369H, WITH A DATE OF IDENTIFICATION OF AUGUST 18, 2014, FOR COMMUNITY NO. 125105, IN BROWARD COUNTY, STATE OF FLORIDA, WHICH IS THE CURRENT FLOOD INSURANCE RATE MAPS FOR THE COMMUNITY IN WHICH THE SUBJECT PROPERTY IS SITUATED.

4. THE SUBJECT PROPERTY HAS ACCESS TO NW 6th STREET, NW 5th STREET, NW 7th AVENUE AND NE 7th TERRACE. THE WIDTHS OF ALL ADJACENT RIGHTS-OF-WAY ARE INDICATED BY PERPENDICULAR ARROWS ON THE SURVEY DRAWING TO CONFIRM THAT THE SUBJECT PROPERTY IS TIED TO SAME.

5. THERE IS NO OBSERVED EVIDENCE OF SITE USE AS A SOLID WASTE DUMP, SUMP OR SANITARY LANDFILL, OR ANY APPARENT DITCHES, DIKES, SLUICES OR CANALS OF THE SITE.

6. THERE IS NO OBSERVED EVIDENCE OF RECENT EARTH MOVING WORK, BUILDING CONSTRUCTION, OR BUILDING ADDITIONS OR ANY RECENT STREET OR SIDEWALK CONSTRUCTION OR REPAIRS.

7. THE TOTAL NUMBER OF PARKING SPACES ON THE SUBJECT PROPERTY IS 4 REGULAR SPACE.

PLANNING & ZONING BOARD (PZB)

Rezoning Application

(For a rezone only, not tied to a site plan and/or not requiring flexibility units or acreage.)

Cover: Deadline, Notes, and Fees
Page 1: Applicant Information Sheet
Page 2: Applicant Information Sheet, continued
Page 3: Required Documentation & Mail Notice Requirements
Page 4: Sign Notification Requirements & Affidavit

DEADLINE: Submittals must be received by 4:00 PM each business day. Pursuant to Section 47-24.1(1), the Department will review all applications to determine completeness within five (5) business days. Applicants will be notified via e-mail, if plans do not meet the submittal requirements and if changes are required.

NOTE: If your development site is separated by any public right-of-way (alley, alley reservation, or ROW easement) you must complete a separate application for each parcel.

NOTE: Optional 15-minute time slots are available during DRC meetings for scheduling to applicants, for general project inquiries or to obtain signatures on completed DRC plans (including Pre-Planning and Zoning Board, Pre- City Commission and Final DRC plans) from all representatives at one time in preference to scheduling individual appointments. Appointments are subject to availability. To make an appointment, please call 954-828-6531 latest by Friday at 12:00 noon prior to the meeting date.

FEES: All applications for development permits are established by the City Commission, as set forth by resolution and amended from time to time. In addition to the application fee, any additional costs incurred by the City including review by a consultant on behalf of the City, or special advertising costs shall be paid by the applicant. Any additional costs, which are unknown at the time of application, but are later incurred by the City, shall be paid by the applicant prior to the issuance of a development permit.

APPLICANT MUST INDICATE:

Provide a narrative indicating satisfaction of the following:

1. *The zoning district proposed is consistent with the City's Comprehensive Plan.*
The proposed rezoning is generally consistent with the City's Goals, Objectives and Policies of the Northwest Regional Activity Center land use category. More specifically, the proposed rezoning and resulting development is consistent and compatible with the following Goals, Objectives and Policies of the Fort Lauderdale Comprehensive Plan including Land Use Element GOAL 1, Objective 1.7, Objective 1.10, Objective 1.21, and Objective 1.32 of the Comprehensive Plan encourages redevelopment and expansion of employment opportunities in the Northwest Regional Activity Center and POLICY 1.8.3 which encourages mixed-use projects and implementation of the City's streetscape design and urban enhancements for Sistrunk Boulevard.

2. *Substantial changes in the character of development in or near the area under consideration supports the proposed rezoning.*
The property's future land use designation of Northwest Regional Activity Center encourages mixed-use projects along main corridors such as Sistrunk Boulevard and Avenue of the Arts., which is consistent with the proposed zoning designation. The Sistrunk Boulevard corridor is beginning to undergo significant mixed-use redevelopment. The proposed rezoning will permit a mixed-use project that will be consistent and compatible with the mixed-use nature of other projects in the area, as well as with the existing mix of uses along Sistrunk Boulevard.

3. *The character of the area proposed is suitable for the uses permitted in the proposed zoning district and is compatible with surrounding districts and uses.*
The rezoning of the property to NWRAC-MUw is compatible with the existing mix of land uses along Sistrunk Boulevard. The property is surrounded by the following zoning districts: NWRAC-MUw to the north, NWRAC-MUw/RMM-25 to the south, NWRAC-MUw/RMM-25 to the west, and NWRAC-MUw to the east. Rezoning to RMM-25 will allow for the entire development of the block to support the long-term future vision of the NWRAC-MU district of promoting and enhancing the existing commercial and residential character of the main corridors of the NWRAC by providing a wide range of employment, shopping, services, cultural and residential opportunities through allowing a mix of residential and non-residential uses. To protect and provide appropriate transition to existing residential areas, a compatible design is being proposed, to include building articulation, garage lined with residential units, and improved streetscapes with urban plazas and enhanced landscaping.

All applicable provisions of ULDR Sec. 47-9.20 (Rezoning) shall be satisfied.

A. *Application.* Rezoning to an X district may only be initiated by application of the owner(s) of the property proposed to be rezoned and when the property to be rezoned will be used for business uses with the owner of the business property as co-applicant. The application shall include the following:

1. All information required for an application for a site plan level II permit pursuant to Section 47-24, Development Permits and Procedures, and for a rezoning development permit.
2. Identification of the permitted use or uses proposed for the property to be rezoned.

3. A general vicinity map consisting of an eight and one-half (8½) inch by eleven (11) inch street map at a scale of not less than one (1) inch equals five hundred (500) feet identifying the parcel proposed to be rezoned and, if business is proposed, the business property to which the exclusive use property is to be joined, and all lots located within a seven hundred (700) foot radius of the parcel to be rezoned. The map shall show existing zoning, all residential uses and the heights of all structures in the seven hundred (700) foot area.

4. An area map showing the parcel proposed for rezoning and all new, existing or proposed redevelopment. If the parcel to be rezoned exclusive use is to be used as a parking facility which will serve a particular use, the area map shall show all new, existing or proposed redevelopment on the site which the parking is intended to serve. If the parcel is to be used for a business use, the area map shall show the business property to which the property proposed for exclusive use will be joined.

5. A site plan for the proposed use which shows how the proposed use will meet the performance criteria provided herein including if applicable, elevations, surrounding commercial and residential areas, location and sizes of signs, location of landscaping and other buffers, and vehicular and pedestrian movement between the proposed parcel to be rezoned and the surrounding areas.

6. All studies required to be submitted as provided in this section

Page 4: Sign Notification Requirements and Affidavit

SIGN NOTICE

Applicant must **POST SIGNS** (for Planning and Zoning Board and City Commission Hearings) according to Sec. 47-27.4.

- Sign Notice shall be given by the applicant by posting a sign provided by the City stating the time, date and place of the Public Hearing on such matter on the property which is the subject of an application for a development permit. If more than one (1) public hearing is held on a matter, the date, time and place shall be stated on the sign or changed as applicable.
- The sign shall be posted at least fifteen (15) days prior to the date of the public hearing.
- The sign shall be visible from adjacent rights-of-way, including waterways, but excepting alleys.
- If the subject property is on more than one (1) right-of-way, as described above, a sign shall be posted facing each right-of-way.
- If the applicant is not the owner of the property that is subject of the application, the applicant shall post the sign on or as near to the subject property as possible subject to the permission of the owner of the property where the sign is located or, in a location in the right-of-way if approved by the City.
- Development applications for more than one (1) contiguous development site shall be required to have sign notice by posting one (1) sign in each geographic direction, (north, south, east and west) on the public right-of-way at the perimeter of the area under consideration.
- If the sign is destroyed or removed from the property, the applicant is responsible for obtaining another sign from the City and posting the sign on the property.
- The sign shall remain on the property until final disposition of the application. This shall include any deferral, rehearing, appeal, request for review or hearings by another body. The sign information shall be changed as above to reflect any new dates.
- The applicant shall, five (5) days prior to the public hearing, execute and submit to the department an affidavit of proof of posting of the public notice sign according to this section. If the applicant fails to submit the affidavit the public hearing will be postponed until the next hearing after the affidavit has been supplied.

Right-of-way / Easement Application

Cover: Deadline, Notes, and Fees
Page 1: Applicant Information Sheet
Page 2: Required Documentation / Submittal Checklist
Page 3: Other Property & Right-of-Way related items for discussion

DEADLINE: Submittals must be received by 4:00 PM each business day. Pursuant to Section 47-24.1(1), the Department will review all applications to determine completeness within five (5) business days. Applicants will be notified via email, if plans do not meet the submittal requirements and if changes are required.

NOTES: Prior to formal submittal of applications, applicants are encouraged to schedule an appointment with Urban Design & Planning Division staff to obtain feedback regarding subject proposals, especially right-of-way vacation requests, as well as any other considerable development projects. The meetings provide an opportunity for applicants to obtain feedback and general direction, prior to expending significant effort on design and preparation of submittal documents.

Optional 15-minute time slots are available during DRC meetings for scheduling to applicants, to obtain signatures on completed DRC plans (including Pre-Planning and Zoning Board, Pre- City Commission and Final DRC plans) from all representatives at one time, in preference to scheduling individual appointments. Appointments are subject to availability. To make an appointment, please call 954-828-6531 latest by Friday at 12:00 noon prior to the meeting date.

Other Property & Right-of-Way related items for discussion: the application and submittal requirements are attached on the last page of this application.

FEES: All applications for development permits are established by the City Commission, as set forth by resolution and amended from time to time. In addition to the application fee, any additional costs incurred by the City including review by a consultant on behalf of the City, or special advertising costs shall be paid by the applicant. Any additional costs, which are unknown at the time of application, but are later incurred by the City, shall be paid by the applicant prior to the issuance of a development permit.

Any agreement with the City of Fort Lauderdale and other parties, such as, but not limited to, license, encroachment, water and sanitary sewer agreements, shall be preceded by the execution and filing of the following application form and the payment with said application fee of $100.00, (Ordinance No. C-84-65), which shall be nonrefundable. This application must be presented and the fee paid before agreement is prepared or considered. If publication is necessary, applicant agrees to pay the cost of such publication

Page 2: Required Documentation & Mail Notice Requirements

One (1) copy of the following documents:

- ❑ Original Pre-PZB signed-off plans and all supplemental documentation (ie. narratives, photos, etc.)
- ❑ Completed application (all pages must be filled out where applicable)
- ❑ Mail notice documents
- ❑ One (1) electronic version of complete application and plans in PDF format

Two (2) original sets, signed and sealed, of Pre-PZB plans at 24" x 36"
Thirteen (13) copy sets, of Pre-PZB half-size scaled plans at 12" x 18"

- ❑ **Narrative** describing specifics of vacation request. Narratives must be on letterhead, dated, and with author indicated.
- ❑ **Narrative** quoting all applicable sections of the ULDR, with point-by-point responses of how project complies with such criteria. Narratives must be on letterhead, dated, and with author indicated.
- ❑ **Land Use and Zoning maps** indicating all properties within 700 ft. of the subject property. These should be obtained from Urban Design & Planning Division. Site should be highlighted or clearly marked to identify the parcel(s) under consideration on all sets.
- ❑ **Cover sheet** on plan set to state project name and table of contents.
- ❑ **Current survey(s)** of property, signed and sealed, showing existing conditions; survey must be As-Built and Topographic with Right-of-Way and Easement Vacations Excluded. The survey should consist of the proposed project site alone. Do not include adjacent properties or portions of lands not included in the proposed project unless specifically requested by the City.
- ❑ Most **current recorded plat** including amendments, with site highlighted. This may be obtained from Broward County Public Records at 115 S. Andrews Ave.
- ❑ **Aerial photo** indicating all properties within 700 ft. of the subject property. Must be clear and current with site highlighted.
- ❑ **Sketch and legal description** right-of-way proposed to be vacated (prepared by Engineer or Surveyor).

Note: All copy sets must be clear and legible. If original set is in color, copy sets must also be in color.

Note: Plans must be bound, stapled and folded to 8 ½" x 11". All non-plan documents should be 8 ½" x 11" and stapled or bound.

Note: Civil Engineering plans are only required at Final-DRC sign-off. Contact DRC Engineering Representative for details.

Note: For examples of project narratives, site plan data tables, and renderings required with your application, please refer to the "Submittal Reference Book" available at the Planning & Zoning Department office.

MAIL NOTIFICATION

Notice shall be in the form provided by the department and mailed on the date the application is accepted by the department. The names and addresses of homeowner associations shall be those on file with the City Clerk).

- **REQUIREMENT**: Mail notice of development proposal shall be provided to real property owners within 300 feet of applicant's property, as listed in the most recent ad valorem tax records of Broward County.
- **TAX MAP**: Applicant shall provide a tax map of all property within the required notification radius, with each property clearly shown and delineated. Each property within the notice area must be numbered (by Folio ID) on the map to cross-reference with property owners notice list.
- **PROPERTY OWNERS NOTICE LIST**: Applicant shall provide a property owners notice list with the names, property control numbers (Folio ID) and complete addresses for all property owners within the required notification radius. The list shall also include all homeowners associations, condominium associations, municipalities and counties noticed, as indicated on the tax roll.
- **ENVELOPES**: The applicant shall provide business size (#10) envelopes with first class postage attached (stamps only, metered mail will not be accepted). Envelopes must be addressed to all property owners within the required notification radius, and mailing addresses must be typed or labeled; no handwritten addresses will be accepted. Indicate the following as the return address on all envelopes: City of Fort Lauderdale, Urban Design & Planning, 700 NW 19th Avenue, Fort Lauderdale, FL 33311.
- **DISTRIBUTION**: The City of Fort Lauderdale, Urban Design & Planning office will mail all notices prior to the public hearing meeting date, as outlined in Section 47-27.

Page 3: Sign Notification Requirements and Affidavit

SIGN NOTICE

Applicant must **POST SIGNS** (for Planning and Zoning Board and City Commission Hearings) according to Sec. 47-27.4.

- Sign Notice shall be given by the applicant by posting a sign provided by the City stating the time, date and place of the Public Hearing on such matter on the property which is the subject of an application for a development permit. If more than one (1) public hearing is held on a matter, the date, time and place shall be stated on the sign or changed as applicable.
- The sign shall be posted at least fifteen (15) days prior to the date of the public hearing.
- The sign shall be visible from adjacent rights-of-way, including waterways, but excepting alleys.
- If the subject property is on more than one (1) right-of-way, as described above, a sign shall be posted facing each right-of-way.
- If the applicant is not the owner of the property that is subject of the application, the applicant shall post the sign on or as near to the subject property as possible subject to the permission of the owner of the property where the sign is located or, in a location in the right-of-way if approved by the City.
- Development applications for more than one (1) contiguous development site shall be required to have sign notice by posting one (1) sign in each geographic direction, (north, south, east and west) on the public right-of-way at the perimeter of the area under consideration.
- If the sign is destroyed or removed from the property, the applicant is responsible for obtaining another sign from the City and posting the sign on the property.
- The sign shall remain on the property until final disposition of the application. This shall include any deferral, rehearing, appeal, request for review or hearings by another body. The sign information shall be changed as above to reflect any new dates.
- The applicant shall, five (5) days prior to the public hearing, execute and submit to the department an affidavit of proof of posting of the public notice sign according to this section. If the applicant fails to submit the affidavit the public hearing will be postponed until the next hearing after the affidavit has been supplied.

Mr. Anthony Fajardo, Director
Department of Sustainable Development
City of Fort Lauderdale
700 NW 19th Avenue
Fort Lauderdale, FL 33311

RE: Right-of-Way Vacation Application
West Village

Dear Mr. Fajardo,

On behalf of the property owners, Keith and Associates, Inc. is processing an approval request for the vacation of a 15-foot-wide alley which is situated directly south of NW 6th Street, between NW 7th Terrace and NW 7th Avenue within the City of Fort Lauderdale. The right-of-way is located in Block 14 of North Lauderdale as recorded in Plat Book 1, Page 48 of the Dade County Records. The area of the alley is currently underutilized as majority of the adjacent land is vacant. The proposed future improvements which include a multi-story mixed use building are in conflict with the alley, which prompts the applicant's vacation request to allow for effective development of the site. The alleyway to be vacated can be further described by the Sketch and Legal Description included with this submittal.

The proposed site plan and anticipated changes are to be designed to accommodate adequate utility and automobile accessibility without the need to preserve the existing alleyway. The proposed development and request to vacate are in compliance with the regulations set forth in Section 47-24.6 Vacation of Rights-of-Way of the City's Unified Land Development Regulations (ULDR).

Section 47-24.6.4.a-e – Criteria for Vacation of Rights-of-Way

a. The right-of-way or other public place is no longer needed for public purposes.

Response: The right-of-way is currently not needed for public purpose because it does not delineate a distinct roadway that is used by vehicles and pedestrians for public purposes. Thus, its abandonment will not impede its use to the public. The vehicle and pedestrian access and

circulation provided by the current easement are to be repurposed and mitigated through other portions of the site.

b. Alternate routes if needed are available which do not cause adverse impacts to surrounding areas.

Response: The proposed development consists of the entire block, which provides multiple alternate routes for access to the site, via adjacent streets. The proposed improvements will not cause adverse impact to the current site or surrounding areas since the improvements will utilize the entire block which will not impact vehicle or pedestrian circulation within and surrounding the site.

c. The closure of a right-of-way provides safe areas for vehicles to turn around and exit the area.

Response: The closure of the alley reservation and the proposed site improvements will provide a safe environment for vehicles to turn around and maneuver since all parking for the development is located within an interior parking garage. Vehicle access points to the parking garage are in compliance with code requirements; therefore, the abandonment of this alley right-of-way will not adversely affect the areas for vehicles to turn around, exit and maneuver the site.

d. The closure of a right-of-way shall not adversely impact pedestrian traffic.

Response: The closure of the alley will not negatively impact pedestrian traffic, since the current sidewalk circulation along Sistrunk Blvd. and NW 7th Avenue will be maintained and sidewalk along NW 5th Street and NW 7th Terrace will be added. The proposed development plans to enhance the sidewalk experience, per the intent of the design standards for projects located within the North West Regional Activity Center District.

e. All utilities located within the right-of-way or other public place have been or will be relocated pursuant to a relocation plan; and the owner of the utility facilities has consented to the vacation; or a utilities easement has been retained over the right-of-way area or portion thereof; or an easement in a different location has been provided for the utility facilities by the owner to the satisfaction of the city; or any combination of same and utilities maintenance shall not be disrupted.

Response: All known utility providers (AT&T, Comcast, Florida Power & Light, TECO/People's Gas) have been contacted and notified of this vacation, prior to the initiation of this request. All utilities have been accounted for through the coordination efforts brought forth by the appropriate utility provider representatives.

It is acknowledged that if any subgrade or aerial facilities that are rightfully owned by the City or other utility provider, are found within the right-of-way to be vacated, it shall be sufficiently relocated at the Applicant's expense and shall be inspected and approved by the corresponding agency. The vacation of the right-of-way is necessary to provide vehicle circulation, and access

to the proposed redevelopment of the property. All utility facilities, automobile and pedestrian transportation, access, and circulation displaced by the result of the vacation of this Alley reservation will be successfully facilitated and improved by the proposed redevelopment.

Section 47-25.2. - Adequacy requirements

A. Applicability. The adequacy requirements set forth herein shall be used by the city to evaluate the demand created on public services and facilities created by a proposed development permit.
Response: Acknowledged.
B. Communications network. Buildings and structures shall not interfere with the city's communication network. Developments shall be modified to accommodate the needs of the city's communication network, to eliminate any interference a development would create or otherwise accommodate the needs of the city's communication network within the development proposal.
Response: Acknowledged.
C. Drainage facilities. Adequacy of stormwater management facilities shall be evaluated based upon the adopted level of service requiring the retention of the first inch of runoff from the entire site or two and one-half (2½) inches of runoff from the impervious surface whichever is greater.
Response: There are no drainage facilities or stormwater facilities within the alley reservation.
D. Environmentally sensitive lands.
1. In addition to a finding of adequacy, a development shall be reviewed pursuant to applicable federal, state, regional and local environmental regulations. Specifically, an application for development shall be reviewed in accordance with the following Broward County Ordinances which address environmentally sensitive lands and wellfield protection which ordinances are incorporated herein by reference:
a. Broward County Ordinance No. 89-6.
b. Section 5-198(I), Chapter 5, Article IX of the Broward County Code of Ordinances.
c. Broward County Ordinance No. 84-60.
2. The applicant must demonstrate that impacts of the proposed development to environmentally sensitive lands will be mitigated.
Response: It is not anticipated that there are any environmentally sensitive lands on or in the vicinity of the alley reservation.
E. Fire protection. Fire protection service shall be adequate to protect people and property in the proposed development. Adequate water supply, fire hydrants, fire apparatus and facilities shall be provided in accordance with the Florida Building Code, South Florida Fire Code and other accepted applicable fire and safety standards.
Response: The future project after the alley is abandoned will be designed to meet all fire protection requirements and the proposed building will be fully sprinklered.
F. Parks and open space.
1. The manner and amount of providing park and open space is as provided in Section 47-38A, Park Impact Fees, of the ULDR.
2. No building permit shall be issued until the park impact fee required by Section 47-38A of the

ULDR has been paid in full by the applicant.

Response: Not Applicable.

G. Police protection. Police protection service shall be adequate to protect people and property in the proposed development. The development shall provide improvements which are consistent with Crime Prevention Through Environmental Design (CPTED) to minimize the risk to public safety and assure adequate police protection.

Response: Acknowledged. The future project will be designed to be consistent with CPTED guidelines and principles.

H. Potable water.

1. Adequate potable water service shall be provided for the needs of the proposed development. The proposed development shall be designed to provide adequate areas and easements which may be needed for the installation and maintenance of potable water systems in accordance with city engineering standards, the Florida Building Code, and applicable health and environmental regulations. The existing water treatment facilities and systems shall have sufficient capacity to provide for the needs of the proposed development and for other developments in the service area which are occupied, available for occupancy, for which building permits are in effect or for which potable water treatment capacity has been reserved. Capital expansion charges for water and sewer facilities shall be paid by the developer in accordance with Resolution 85-265, as it is amended from time to time. Improvements to the potable water service and system shall be made in accordance with city engineering standards and other accepted applicable engineering standards.

2. Potable water facilities.

a. If the system is tied into the city treatment facility, the available capacity shall be determined by subtracting committed capacity and present flow from design capacity. If there is available capacity, the city shall determine the impact of the proposed development utilizing Table 3, Water and Wastewater, on file with the department.

b. If there is adequate capacity available in the city treatment plant to serve the proposed development, the city shall reserve the necessary capacity to serve the development.

c. Where the county is the projected service provider, a similar written assurance will be required.

Response: There are no potable water facilities within the alley.

I. Sanitary sewer.

1. If the system is tied into the city treatment facility, the available capacity shall be determined by subtracting committed capacity and present flow from the design capacity. If there is available capacity, the city shall determine the impact of the proposed development utilizing Table 3, Water and Wastewater, on file with the department.

2. If there is adequate capacity available in the city treatment plant to serve the proposed development, the city shall reserve the necessary capacity to serve the proposed development.

3. Where the county is the projected service provider, a written assurance will be required.

4. Where septic tanks will be utilized, the applicant shall secure and submit to the city a certificate from the Broward County Health Unit that certifies that the site is or can be made suitable for an on-site sewage disposal system for the proposed use.

Response: There are no sanitary sewer facilities within the alley.

J. Schools. For all development including residential units, the applicant shall be required to mitigate the impact of such development on public school facilities in accordance with the Broward County Land Development Code or section 47-38C. Educational Mitigation, as applicable and shall provide documentation to the city that such education mitigation requirement has been satisfied.

Response: The proposed project will comply with Broward County Land Development Code and section 47-38C Educational Mitigation.

K. Solid waste.

1. Adequate solid waste collection facilities and service shall be obtained by the applicant in connection with the proposed development and evidence shall be provided to the city demonstrating that all solid waste will be disposed of in a manner that complies with all governmental requirements.

2. Solid waste facilities. Where the city provides solid waste collection service and adequate service can be provided, an adequacy finding shall be issued. Where there is another service provider, a written assurance will be required. The impacts of the proposed development will be determined based on Table 4, Solid Waste, on file with the department.

Response: Adequate solid waste collection facilities and service will be provided with the proposed development.

L. Stormwater. Adequate stormwater facilities and systems shall be provided so that the removal of stormwater will not adversely affect adjacent streets and properties or the public stormwater facilities and systems in accordance with the Florida Building Code, city engineering standards and other accepted applicable engineering standards.

Response: There are no stormwater facilities within the alley reservation.

M. Transportation facilities.

1. The capacity for transportation facilities shall be evaluated based on Table 1, Generalized Daily Level of Service Maximum Volumes, on file with the department. If a development is within a compact deferral area, the available traffic capacity shall be determined in accordance with Table 2, Flowchart, on file with the department.

2. Regional transportation network. The regional transportation network shall have the adequate capacity, and safe and efficient traffic circulation to serve the proposed development. Adequate capacity and safe and efficient traffic circulation shall be determined by using existing and site-specific traffic studies, the adopted traffic elements of the city and the county comprehensive plans, and accepted applicable traffic engineering standards. Site-specific traffic studies may be required to be made and paid for by the applicant when the city determines such a study is needed in order to evaluate the impacts of the proposed development on proposed or existing roadways as provided for in subsection M.4. An applicant may submit such a study to the city which will be considered by the DRC in its review. Roadway improvements needed to upgrade the regional transportation network shall be made in accordance with the city, the county, and Florida Department of Transportation traffic engineering standards and plans as applicable.

3. Local streets. Local streets shall have adequate capacity, safe and efficient traffic circulation, and appropriate functional classification to serve the proposed development. Adequate capacity

and safe and efficient traffic circulation shall be determined by using existing and site-specific traffic studies, the city's comprehensive plan and accepted applicable traffic engineering standards. Site-specific traffic studies may be required to be made and paid for by the applicant when the city determines such a study is required in order to evaluate the impact of the proposed development on proposed or existing roadways as provided for in subsection M.4. An applicant may submit to the city such a study to be considered as part of the DRC review. Street improvements needed to upgrade the capacity or comply with the functional classification of local streets shall be made in accordance with the city engineering standards and acceptable applicable traffic engineering standards. Local streets are those streets that are not classified as federal, state or county roadways on the functional classification map adopted by the State of Florida.

Response: Not Applicable.

4. Traffic impact studies.

a. When the proposed development may generate over one thousand (1,000) daily trips; or

b. When the daily trip generation is less than one thousand (1,000) trips; and (1) when more than twenty percent (20%) of the total daily trips are anticipated to arrive or depart, or both, within one-half (½) hour; or (2) when the proposed use creates varying trip generation each day, but has the potential to place more than twenty percent (20%) of its maximum twenty-four (24) hour trip generation onto the adjacent transportation system within a one-half (½) hour period; the applicant shall submit to the city a traffic impact analysis prepared by the county or a registered Florida engineer experienced in trafficways impact analysis which shall:

i. Provide an estimate of the number of average and peak hour trips per day generated and directions or routes of travel for all trips with an external end.

ii. Estimate how traffic from the proposed development will change traffic volumes, levels of service, and circulation on the existing and programmed trafficways.

iii. If traffic generated by the proposed development requires any modification of existing or programmed components of the regional or local trafficways, define what city, county or state agencies have programmed the necessary construction and how this programming relates to the proposed development.

iv. A further detailed analysis and any other information that the review committee considers relevant.

v. The traffic impact study may be reviewed by an independent licensed professional engineer contracted by the city to determine whether it adequately addresses the impact and the study supports its conclusions. The cost of review by city's consultant shall be reimbursed to the city by the applicant.

vi. When this subsection M.4.b. applies, the traffic study shall include an analysis of how the peak loading will affect the transportation system including, if necessary, an operational plan showing how the peak trips will be controlled and managed.

Response: A traffic impact study will be provided with the associate site plan DRC application.

5. Dedication of rights-of-way. Property shall be conveyed to the public by plat, deed or grant of easement as needed in accordance with the Broward County Trafficways Plan, the city's comprehensive plan, subdivision regulations and accepted applicable traffic engineering

standards.

Response: Acknowledged.

6. Pedestrian facilities. Sidewalks, pedestrian crossing and other pedestrian facilities shall be provided to encourage safe and adequate pedestrian movement on-site and along roadways to adjacent properties. Transit service facilities shall be provided for as required by the city and Broward County Transit. Pedestrian facilities shall be designed and installed in accordance with city engineering standards and accepted applicable engineering standards.

Response: Sidewalk facilities exist on Sistrunk Blvd. and NW 7th Avenue and new sidewalks are proposed along NW 5th Street and NW 7th Terrace. The proposed development plans to enhance the sidewalk experience, per the intent of the design standards for projects located within the North West Regional Activity Center District.

7. Primary arterial street frontage. Where a proposed development abuts a primary arterial street either existing or proposed in the trafficways plan, the development review committee (DRC) may require marginal access street, reverse frontage with screen planting contained in a non-access reservation along the rear property line, deep lots with or without rear service alleys, or such other treatment as may be necessary for adequate protection of residential properties and to assure separation of through and level traffic.

Response: Acknowledged.

8. Other roadway improvements. Roadways adjustments, traffic control devices, mechanisms, and access restrictions may be required to control traffic flow or divert traffic, as needed to reduce or eliminate development generated traffic.

Response: Acknowledged.

9. Street trees. In order to provide for adequate landscaping along streets within the city, street trees shall be required along the length of the property abutting a street. A minimum of fifty percent (50%) of the required street trees shall be shade trees, and the remaining street trees may be provided as flowering or palm trees. These percentages may be varied based on existing or proposed physical conditions which may prevent the ability to comply with the street tree requirements of this subsection. The street trees shall be planted at a minimum height and size in accordance with the requirements of Section 47-21, Landscape and Tree Preservation Requirements, except in the downtown RAC districts the requirements of Sec. 47-13.20.H.8 shall apply. The location and number of street trees shall be determined by the department based on the height, bulk, mass and design of the structures on the site and the proposed development's compatibility to surrounding properties. The requirements for street trees, as provided herein, may be located within the public right-of-way as approved by the entity with jurisdiction over the abutting right-of-way.

Response: The proposed project will comply with all landscape requirements.

N. Wastewater.

1. Wastewater. Adequate wastewater services shall be provided for the needs of the proposed development. The proposed development shall be designed to provide adequate areas and easements which may be needed for the installation and maintenance of a wastewater and disposal system in accordance with applicable health, environmental and engineering regulations and standards. The existing wastewater treatment facilities and systems shall have adequate

capacity to provide for the needs of the proposed development and for other developments in the service area which are occupied, available for occupancy, for which building permits are in effect or for which wastewater treatment or disposal capacity has been reserved. Capital expansion charges for water and sewer facilities shall be paid by the developer in accordance with Resolution 85-265, as it is amended for time to time. Improvements to the wastewater facilities and system shall be made in accordance with the city engineering and accepted applicable engineering standards.

Response: Acknowledged.

O. Trash management requirements. A trash management plan shall be required in connection with non-residential uses that provide prepackaged food or beverages for off-site consumption. Existing non-residential uses of this type shall adopt a trash management plan within six (6) months of the effective date of this provision.

Response: Not Applicable.

P. Historic and archaeological resources.

1. If a structure or site has been identified as having archaeological or historical significance by any entity within the State of Florida authorized by law to do same, the applicant shall be responsible for requesting this information from the state, county, local governmental or other entity with jurisdiction over historic or archaeological matters and submitting this information to the city at the time of, and together with, a development permit application. The reviewing entity shall include this information in its comments.

Response: It is not anticipated that there are any historic or archaeological resources on or in the vicinity of the alley.

Q. Hurricane evacuation. If a structure or site is located east of the Intracoastal Waterway, the applicant shall submit documentation from Broward County or such agency with jurisdiction over hurricane evacuation analysis either indicating that acceptable level of service of hurricane evacuation routes and hurricane emergency shelter capacity shall be maintained without impairment resulting from a proposed development or describing actions or development modifications necessary to be implemented in order to maintain level of service and capacity.

Response: This project is not located east of the Intracoastal Waterway.

Thank you for your review of this application. Please feel free to contact (954) 788-3400 if you require additional information or have questions regarding this application. We look forward to working with you on this exciting project.

Subject: RE: 09535.01 WEST VILLAGE APPLICAITON # V 19002

Good morning Mr. Rammo, hope all is well. Linda Mia Franco from the Principal Urban Planner City of Fort Lauderdale| Urban Design and Planning Division *is requesting no objection response letters* stating that there are no utilities (water, sewer, drainage). In the chain of email below, she was copied on your email of Wednesday, April 10, 2019 but still needs the "no objection letters".

Please le me know if you can provide the letters.

Thanks.

Dear FLORENTINA,

FPL has no objection to abandoning or vacating the above right of way.

However, FPL has existing facilities and utility easements at this site. FPL will remove our existing facilities and vacate the existing easement at this location at the customer's expense. Prior to this being done, provisions must be made, new easements secured and facilities constructed to serve any existing FPL customers that may be affected by your request.

FPL will require a complete set of plans prior to construction. These would include the survey of property, site plan, water sewer & drainage, paving, and electrical plans. As the FPL engineering process takes about three to four months, it is imperative that complete plans be provided well in advance of construction.

Please contact me at 954-717-1430 should you have any questions or concerns.

Sincerely,

Noah Sherbacoff
Associate Engineer

MEETING NOTICE

February 25, 2019

Dr. Pamela Pittman
Historical Dorsey-Riverbend Civic Association, Inc.

Fort Lauderdale, FL 33311

Re: City of Fort Lauderdale
Development Review Committee (DRC) Meeting - March 26, 2019 at 10 AM
Project: West Village ROW Vacation (V19002)

Dear Ms. Pittman:

This letter is to notify you of a Development Review Committee (DRC) meeting with City of Fort Lauderdale related to a Right-of-Way Vacation application for an alley located west of NW 7th Avenue and east of NW 7th Terrace, between NW 6th Street and NW 5th Street. The area of the alley is currently underutilized as majority of the adjacent land is vacant. The proposed future improvements which include a multi-story mixed use building conflict with the alley, which prompts the applicant's vacation request to allow for effective development of the site.

Under the City of Fort Lauderdale Public Participation Ordinance, the petitioner is required to notify any official civic associations within 300 feet of the property regarding the date, time and place of the DRC meeting. The meeting will be held March 26, 2019 at 10:00 AM in the Urban Design and Planning Conference Room at the Greg Brewton Development Services Building, 700 NW 19th Avenue, Fort Lauderdale, FL, 33311.

If you wish to submit written comments, please send them to:

Florentina Hutt, AICP
Senior Planner

Email: FHutt@keithteam.com

Also, please be advised that there will be additional opportunities for public input at the City of Fort Lauderdale Public Hearings.

Sincerely,

Re: Platted Easement Encroachment
Parcel "4" "Progresso Plat" (P.B 1, PG 48, B.B.R.)

Name:

Thank you for contacting FPL about the encroachment of 10 ft easement in the alley way of Parcel "4" "Progresso Plat" (P.B 1, PG 48, B.B.R.) in the platted utility easement at the referenced location. FPL has no objection to this existing encroachment and will not require its removal, however FPL does not agree to the future encroachment of any other structures into the easement.

If I can be of any further assistance, please contact me at 954 717 1430.

Sincerely,
