Page 2: Board of Adjustment (BOA) Criteria for Variance Request

This page must be filled in. An attached narrative may be included if additional space is required.

SPECIFIC REQUEST: State the specific request according to the ULDR or other provisions of the Code.

Please see attached Narrative

CRITERIA: Applicant must demonstrate a unique hardship attributable to the land by proving by a preponderance of the evidence for all of the following criteria. Please answer the following criteria completely. While some criteria may seem duplicative the response should be tailored specifically to each. Per section 47-24.12.A.4,

a. Special conditions and circumstances affect the property at issue which prevent the reasonable use of such property; and

Please see attached Narrative.

b. Circumstances which cause the special conditions are peculiar to the property at issue, or to such a small number of properties that they clearly constitute marked exceptions to other properties in the same zoning district; and:

Please see attached Narrative.

c. Literal application of the provisions of the ULDR would deprive the applicant of a substantial property right that is enjoyed by other property owners in the same zoning district. (It shall be of no importance to this criterion that a denial of the variance sought might deny to the owner a more profitable use of the property, provided the provisions of the ULDR still allow a reasonable use of the property; and

Please see attached Narrative.

d. The unique hardship is not self-created by the applicant or his predecessors, nor is it the result of mere disregard for, or ignorance of, the provisions of the ULDR or antecedent zoning regulations; and

Please see attached Narrative.

e. The variance is the minimum variance that will make possible a reasonable use of the property and that the variance will be in harmony with the general purposes and intent of the ULDR and the use as varied will not be incompatible with adjoining properties or the surrounding neighborhood or otherwise detrimental to the public welfare.

Please see attached Narrative.

AFFIDAVIT: I, Benjamin E. Olive the Owner/Agent of said property ATTEST that I am aware of the following:

1. In order to be entitled to the relief requested in the application an affirmative vote of a majority plus one of the Board of Adjustment is required;
2. That in granting the relief requested, the Board of Adjustment is limited to the authority vested in the Board by the ULDR and that the Board may not grant the relief requested unless the applicant proves all the criteria specified in the ULDR have been met;
3. That the granting of relief by the Board does not exempt the applicant or owner of record from the responsibilities of obtaining all applicable permits or approvals as may be required by law for both new and existing structures;
4. That if the relief requested is granted by the Board, the applicant must secure a building permit to implement the relief requested within one hundred eighty (180) days of the entry of the final order of the Board, or within such lesser time as the Board may proscribe and that failure to procure the necessary permits within the time so proscribed shall render the variance or special exception null and void;
5. That if the Board denies the request for relief, then no additional application for the same or substantially the same relief may be entertained by the Board within two (2) years of the date of entry of the final order of denial.

Proposed Renovation Re: 2426 EAST LAS OLAS LLC
Request for Variance
2426 East Las Olas Boulevard

Introduction

The Applicant, 2426 East Las Olas LLC, is proposing to construct a renovation to its existing office located at 2426 East Las Olas Boulevard. Specifically, Applicant is seeking to expand its conference room, located in the northwest section of the building by moving the northern exterior wall north a distance of 2.25 feet.

The Applicant acquired the property in 2013. At the time, the property's finished floor elevation was below the required City of Fort Lauderdale Code requirements and as a result was experiencing regular flooding from various weather events and the King Tides. Applicant renovated the property and focused its renovations on significantly raising the elevation to comply with the City of Fort Lauderdale's Municipal Code. In so doing, at great expense to the Applicant, the Property was protected from the susceptibility of recurrent flooding. Thus, the Applicant's property, as well as the property of its neighbors, was better safeguarded from the frequent flooding in the area. At the time of this renovation, the entire north wall of the building was located on the north property line. In addition to raising the elevation, the Applicant moved the wall of the northwest section 5 feet south of the property line and constructed a planter along this façade with the northern planter wall being located on the north property line. By adding the planter, the Applicant has realized that the size of its northwest conference room is unusable. As such, Applicant is requesting that it be permitted to move the northwest window wall north a distance of 2.75 feet to a distance that is 2.25 feet from the property line. The north planter wall will not be moved, and the planter will remain a viable planter for greenspace.

Application/Request

The Applicant is seeking the following relief from ULDR Sec . 47-6.20, set back requirements of the CB-Community Business zoning district:

Setback	Required	Proposed	Variance Request
Front (Las Olas)	5'	2.25'	2.75'

The Applicant has encountered several unique hardships attributable to the land and existing building, and therefore, the above referenced variance is being requested. The Applicant submits that the criteria to granting variances established by ULDR Section 47-24.12.A.4 are satisfied as demonstrated below:

a. That special conditions and circumstances affect the property at issue which prevent the reasonable use of such property.

The entire north building wall was located on the property line at the time the applicant purchased the Property. Upon information and belief, the building was constructed prior to the imposition of the five-foot setback by the Zoning Code. The north walls of all other buildings within this block are similarly located on the north property line. The Applicant moved the northwest window wall five feet from the property line in order to install the planter losing approximately 103 SF of usable space. The relocated façade wall resulted in a significant decrease of building square footage and an irregularly shaped conference room, the size of which does not permit the comfortable use thereof. There is no need for a five-foot wide planter in this location. A planter width of 2.25 feet can accommodate the same type of plant material that is currently in place. The requested variance would increase the Property by a total of only 57 square feet. The enforcement of the five-foot setback is a special condition and circumstance as it relates only to the Applicant. The Applicant is the only property owner on the 2400 block of Las Olas Boulevard affected by its enforcement. Please see a photo of 2400 block building façades all uniformly situated on the north property line.

- b. That the circumstances which cause the special conditions are peculiar to the property at issue, or to such a small number of properties that they clearly constitute marked exceptions to other properties in the same zoning district.**

The special conditions and circumstances are peculiar to this Property and constitute a marked exception to other neighboring properties in the CB zoning district. This property, when acquired, was susceptible to frequent flooding events. To remedy the hazards associated with the flooding, Applicant raised the elevation of the Building and added a planter to the building. Moving the

northwest wall five feet back from the property line from its original position resulted in a reduction of the building's square footage and producing an irregularly shaped conference room, the size of which does not permit the comfortable use thereof.

- c. That the literal application of the provisions of the ULDR would deprive the applicant of a substantial property right that is enjoyed by other property owners in the same zoning district. It shall be of no importance to this criterion that a denial of the variance sought might deny to the owner a more profitable use of the property, provided the provisions of the ULDR still allow a reasonable use of the property.**

The main reason for the front setback requirement, although not expressly stated in the ULDR, is to establish uniform development patterns along roadways. All of the neighboring buildings sit on the property line. Enforcing the setback requirement against the Applicant's property would create a disparity between the other buildings in the block and the Applicant's building.

Literal application of the provision of the ULDR would deprive Applicant from improving the Property which is a right enjoyed by other property owners on this block. Consideration should be given that, historically, the building's northwest wall was on the property line, the north planter wall is on the property line and will remain on the property line. The width of the sidewalk, and the public's enjoyment of same, will not be affected.

- d. That the unique hardship is not self-created by the applicant or his predecessors, nor is it the result of mere disregard for, or ignorance of, the provisions of the ULDR or antecedent zoning regulations.**

The hardship was created by the fact that the building was initially constructed in 1955, prior to the adoption of the City's ULDR. At the time the building was constructed, there apparently was no set back requirement for this building. The Applicant did not construct the initial building and given the locations of the buildings situated on the 2400 block of Las Olas Boulevard and the setback requirement as it applies only to the Applicant, this hardship is unique to the Applicant.

- e. That the variance is the minimum variance that will make possible a reasonable use of the property and that the variance will be in harmony with the general purposes and intent of the ULDR and the use as varied will not be incompatible with adjoining properties or the surrounding neighborhood or otherwise detrimental to the public welfare.**

The requested variance is the minimum variance necessary to make a reasonable use of the improvements. The Applicant is seeking to move the northwest window wall 2.75 feet into the set back. The general purpose and intent of the ULDR is to promote the health, safety, morals, comfort, prosperity, and general welfare of the community. Although not expressly stated in the ULDR, the general purpose of the front setback is to establish uniform development patterns along the roadways. The requested variance will not disrupt the uniform development pattern along Las Olas as all surrounding buildings are constructed on the property line. Furthermore, the existing planter wall will not be moved and the nature and quality of the planter and landscaping will remain. The request will have little to no impact on the public or the neighboring properties. All

of the building owners in the 2400 block have no objection to the requested variance. The variance will be in harmony with the general purpose and intent of the ULDR. The requested variance will not be incompatible with adjoining properties or the surrounding neighborhood or otherwise detrimental to the public welfare. as all surrounding buildings are constructed on the property line. If granted, this variance will be in harmony with the general purpose of the ULDR. Please see a photo of the Applicant's existing façade:

This request is also compatible with the adjoining properties. A letter of support written by Idlewood Place, LLC, the owner of the property to the west of the Applicant is attached hereto.
