Page 2: Board of Adjustment (BOA) Criteria for Variance Request

This page must be filled in. An attached narrative may be included if additional space is required.

SPECIAL REQUEST: State the specific request according to the ULDR or other provisions of the Code.

Requesting a Special Exception to allow the sale of alcohol at a distance of 86 feet from other establishment that sell alcohol where the code states that a restaurant bar is prohibited in any place of business located within 300 feet of another place of business in which there is already in existence a retail vendor's license to sell alcoholic or intoxicating beverages for consumption on or off premises. This is per ULDR Sec 5-26 (a) and(b).

CRITERIA: Applicant must demonstrate a unique hardship attributable to the land by proving by a preponderance of the evidence for all of the following criteria. Please answer the following criteria completely. While some criteria may seem duplicative the response should be tailored specifically to each. Per section 47-24.12.A.4,

a. Special conditions and circumstances affect the property at issue which prevent the reasonable use of such property; and

The property is located in the Community Business zoning district which allows amongst many uses for restaurants, bars, lounges, bakeries, etc. Given the location of the establishment allowing them to serve wine and beer on premise would be consistent with the allowed uses.

b. Circumstances which cause the special conditions are peculiar to the property at issue, or to such a small number of properties that they clearly constitute marked exceptions to other properties in the same zoning district; and:

By serving beer and wine my establishment would become one of the many already established places that are well known in the area.

c. Literal application of the provisions of the ULDR would deprive the applicant of a substantial property right that is enjoyed by other property owners in the same zoning district. (It shall be of no importance to this criterion that a denial of the variance sought might deny to the owner a more profitable use of the property, provided the provisions of the ULDR still allow a reasonable use of the property; and

The area already has a few restaurants that are also less than 300 feet from one another and they all coexist. La Bottega Caffe's primary business is a bakery/desserts and light Italian dishes/salads, pizza, etc. This is by no means a "drinking" place. Serving beer and wine would only complement the current sales.

d. The unique hardship is not self-created by the applicant or his predecessors, nor is it the result of mere disregard for, or ignorance of, the provisions of the ULDR or antecedent zoning regulations; and

There were never any consumption on premise alcohol sales at this location before and that could be the reason why many businesses failed in this location.

e. The variance is the minimum variance that will make possible a reasonable use of the property and that the variance will be in harmony with the general purposes and intent of the ULDR and the use as varied will not be incompatible with adjoining properties or the surrounding neighborhood or otherwise detrimental to the public welfare.

Serving beer and wine at La Bottega Caffe will not be incompatible with the surrounding neighborhood nor detrimental to the public. On the contrary, it would help fulfill the demand of the customers in the area.

AFFIDAVIT: I, Salvatore Caccig the Owner/Agent of said property ATTEST that I am aware of the following:

1. In order to be entitled to the relief requested in the application an affirmative vote of a majority plus one of the Board of Adjustment is required;
2. That in granting the relief requested, the Board of Adjustment is limited to the authority vested in the Board by the ULDR and that the Board may not grant the relief requested unless the applicant proves all the criteria specified in the ULDR have been met;
3. That the granting of relief by the Board does not exempt the applicant or owner of record from the responsibilities of obtaining all applicable permits or approvals as may be required by law for both new and existing structures;
4. That if the relief requested is granted by the Board, the applicant must secure a building permit to implement the relief requested within one hundred eighty (180) days of the entry of the final order of the Board, or within such lesser time as the Board may proscribe and that failure to procure the necessary permits within the time so proscribed shall render the variance or special exception null and void;
5. That if the Board denies the request for relief, then no additional application for the same or substantially the same relief may be entertained by the Board within two (2) years of the date of entry of the final order of denial.

Narrative:

I am new to the area, but I quickly learned that the customers in the area would like to have a glass of wine with lunch or with the dessert. I was told by the neighbors that no other coffee shop/bakery ever made it in this location in prior years - I am sure you can verify this with the business tax. I could see why- if the customer cannot buy a beer or wine with lunch/dinner - then they go somewhere else. Even though I have only been open a couple of weeks – every day I am meeting more and more people from the neighborhood and they all ask me the same thing: why can't I sell beer and wine at the table!

Please understand that each business that is serving alcoholic beverages in the neighborhood is unique and I feel that my establishment will only help create more foot traffic that other surrounding businesses might benefit from. The fact that my business is primarily a bakery should provide confidence to the Board that granting this special exception will not in any way adversely affect the neighborhood or public safety.

If you have any questions I will be happy to answer them.

Sincerely,

A handwritten signature in blue ink that reads "Salvatore Caccia". The signature is written in a cursive style and is positioned above a horizontal line.
