Page 2: Board of Adjustment (BOA) Criteria for Variance Request

Answer All questions on this page and attach narrative.

SPECIFIC REQUEST: State the specific request according to the ULDR or other provisions of the Code.

Applicant is seeking variance on Lot Width Requirement in a RS-8 District (ULDR 47-5.31)

CRITERIA: Applicant must demonstrate a unique hardship attributable to the land by proving by a preponderance of the evidence for all of the following criteria. Please answer the following criteria completely. While some criteria may seem duplicative the response should be tailored specifically to each. Per section 47-24.12. A.4,

a. Special conditions and circumstances affect the property at issue which prevent the reasonable use of such property; and

The originally platted lots 22,23,24 were unified prior to March 1st 1989 (ULDR 47-24.5)

b. Circumstances which cause the special conditions are peculiar to the property at issue, or to such a small number of properties that they clearly constitute marked exceptions to other properties in the same zoning district; and:

Many of the previously platted Lots of Block 2 Oak Ridge are less than 50' in width

c. Literal application of the provisions of the ULDR would deprive the applicant of a substantial property right that is enjoyed by other property owners in the same zoning district. (It shall be of no importance to this criterion that a denial of the variance sought might deny to the owner a more profitable use of the property, provided the provisions of the ULDR still allow a reasonable use of the property; and

If ULDR 47-3.3 is applied it would necessitate a new division and reconfiguration the property into 3 less linear shaped lots, which would impose hardships on the applicant not imposed on other property owners in the same district. Such the need for catch basins - drain fields to manage on-site water retention, and would also require curb cuts and drive access onto Broward Blvd.

d. The unique hardship is not self-created by the applicant or his predecessors, nor is it the result of mere disregard for, or ignorance of, the provisions of the ULDR or antecedent zoning regulations; and

The hardship is created by subsequent requirements of the ULDR, give the original plat 1926

e. The variance is the minimum variance that will make possible a reasonable use of the property and that the variance will be in harmony with the general purposes and intent of the ULDR and the use as varied will not be incompatible with adjoining properties or the surrounding neighborhood or otherwise detrimental to the public welfare.

The variance is minimal, return to lots to their previously platted width of 48'-8", less

AFFIDAVIT: I, Cabot Edewaard the Owner/Agent of said property ATTEST that I am aware of the following:

- 1. In order to be entitled to the relief requested in the application an affirmative vote of a majority plus one of the Board of Adjustment is required;
2. That in granting the relief requested, the Board of Adjustment is limited to the authority vested in the Board by the ULDR and that the Board may not grant the relief requested unless the applicant proves all the criteria specified in the ULDR have been met;
3. That the granting of relief by the Board does not exempt the applicant or owner of record from the responsibilities of obtaining all applicable permits or approvals as may be required by law for both new and existing structures;
4. That if the relief requested is granted by the Board, the applicant must secure a building permit to implement the relief requested within one hundred eighty (180) days of the entry of the final order or the Board, or within such lesser time as the Board may proscribe and that failure to procure the necessary permits within the time so proscribed shall render the variance or special exception null and void;
5. That if the Board denies the request for relief, then no additional application for the same or substantially the same relief may be entertained by the Board within two (2) years of the date of entry of the final order of denial.

Board of Adjustment Narrative

(12) 10 SE 17th Ave, Fort Lauderdale, FL 33301
Lot 22, Block 2, Oak Ridge Amended Plat

February 4, 2022

Dear Board Members,

The applicant, Cabot Edewaard – 10 COLEE LLC, is seeking approval to return the subject property, 10 SE 17th Ave, to its previously platted individual lots, Lot 22, Lot 23, and Lot 24, with the intention of building one single family home on each lot.

The applicant is further seeking a Variance on the Lot Width Requirements in the RS-8 District where the subject property is located. Many of the originally platted Lots (circa 1926, see sheet CVR) of Block 2 are less than the currently required 50' wide. (ULDR 47-5.31 Dimensional Requirements for the RS-8 District)

Although sections of the ULDR (47-3.3 Nonconforming Lot and 47-24.5 Subdivision Regulations) prescribe a protocol that intends to maintain unified nonconforming lots, the applicant asks that the Board Members consider the specific context of the subject property and its compatibility with the contemporary development of the neighborhood. Also to consider that the development of the originally platted lots with a more linear rectangle shape will allow for more effective on-site water retention in the rear yard without the use of catch basins and drain fields, which are property rights afforded to other property owners in the same district. Also note that ULDR 47-3.3 does allow the use of a nonconforming lot for a single family structure, and that the Variance request is to return to the previously platted lot width not to reduce it.

Thank you for your consideration,

Mark Thomas Budd
Architect
