Sec. 47-3.3. B.2. - Nonconforming lot

A. Generally. As used in this section a nonconforming use is any use which is in compliance with the zoning regulations applicable to that use at the time the use was established and for which all required permits were issued, which use would be prohibited, restricted or would otherwise not conform to the ULDR.

B. Continuation of a nonconforming use. A nonconforming use may continue subject to the following:

1. A nonconforming use shall not be enlarged or extended nor shall the building it occupies be enlarged, extended or rebuilt such that the use would occupy a greater area of land than was occupied by the use on the effective date (June 28, 1997) or amendment of the ULDR which causes the use to become nonconforming, nor altered in any way so as to extend or enlarge the scope or area of its operation.

2. Once a nonconforming use is changed to a permitted use, or terminated as provided in [Sec. 47-3.8](#) in all or portion of a building or property, the nonconforming use which was permitted or terminated, as the case may be, shall not be resumed.

BOARD OF ADJUSTMENT (BOA) APPLICATION FORM

REV: 03/18/2024 APPLICATION FORM: BOA

GENERAL INFORMATION
BOARD OF ADJUSTMENT REVIEW PROCESS AND APPLICATION SUBMITTAL

BOARD OF ADJUSTMENT MEETING REQUEST: Prior to the submittal of the Board of Adjustment application, applicants are required to schedule a meeting request with Zoning and Landscaping Division staff to obtain feedback regarding the proposed variance, special exception, or other applications. The meeting includes general guidance on the submittal and process for the application type. To request a meeting with staff, [email request to the Board of Adjustment](#).

APPLICATION DEADLINE: Submittals must be received by 5:00 PM each business day. Pursuant to Section 47-24.12, the Department will review all applications to determine completeness within five (5) business days. Applicants will be notified via e-mail, if application, survey, plans and other documentation do not meet the submittal requirements and if changes are required. The applicable [Meeting Dates and Deadlines](#) can be found on the City's website at the Board of Adjustment webpage. Staff will provide guidance once an application has been submitted to the City.

ONLINE SUBMITTAL PROCESS: Submittals must be conducted through the [City's online citizen access portal and payment of fees LauderBuild](#). LauderBuild requires the creation of an online account to submit a complete application. To access submittal requirements and standards please visit the [LauderBuild Plan Room](#). Staff will provide guidance once an application has been submitted to the City.

DETERMINATION OF COMPLETENESS: Submittals are reviewed for completeness to ensure the application submittal contains all the required information including plans, survey, proof of ownership, narratives, and other pertinent documentation. The City will notify the applicant within five (5) business days from submittal with a determination of completeness. The notification will be sent via email and will indicate application completeness or incompleteness with required changes. [BOA Flow Chart](#).

PAYMENT OF FEES: All applications for development permits are established by the City Commission, as set forth by resolution and amended from time to time. In addition to the application fee, any additional costs incurred by the City including review by a consultant on behalf of the City, special advertising, re-advertising and any other costs associated with the application submittal shall be paid by the applicant. Any additional costs, which are unknown at the time of application, but are later incurred by the City, shall be paid by the applicant prior to the issuance of a development permit. Applicants will receive invoices electronically indicating the applicable fee(s). Note, there are fees at various stages of review depending on application type. All Fees are paid online.

PUBLIC SIGN NOTICE: Board of Adjustment (BOA) application, and certain applications are subject to public sign notice. Affidavits must be completed and submitted to the city stated compliance that such has been completed. The affidavit form can be found in this package on page 4 and on the City's website.

Page 2a: Board of Adjustment (BOA) Criteria for Variance Request

Answer ALL questions on this page only if you are applying for a VARIANCE. If additional space is needed, attach an additional page(s) to this page. If you are applying for a Special Exception, print or type N/A for the questions below and complete page 2b of this application form. Note: A narrative must be submitted in addition to this page.

SPECIFIC REQUEST: State the specific request according to the ULDR or other provisions of the Code.

REDUCE THE SIDE YARD SETBACK (NORTH ONLY) FROM 5-FOOT (80 INCHES) PER SECTION 47-18.33 TO 3'-7" (43 INCHES)

CRITERIA: Applicant must demonstrate a unique hardship attributable to the land by proving by a preponderance of the evidence for all of the following criteria. Please answer the following criteria completely. While some criteria may seem duplicative the response should be tailored specifically to each. Per section 47-24.12, A.A.,

a. Special conditions and circumstances affect the property at issue which prevent the reasonable use of such property; and

THIS IS A SHIPPING CONTAINER BASED HOUSE. CONTAINERS HAVE SPECIFIC STANDARDS THAT INCLUDE DIMENSIONS 140'-2" BY 8'-2-1/2".

b. Circumstances which cause the special conditions are peculiar to the property at issue, or to such a small number of properties that they clearly constitute marked exceptions to other properties in the same zoning district; and:

THE FEASIBLE SIZE FOR THIS PROJECT WILL REQUIRE 8 CONTAINERS (4 AT FIRST LEVEL PLUS 4 AT SECOND LEVEL). THIS WILL HAVE A BUILDING FOOTPRINT OF 80'-4" 8'

c. Literal application of the provisions of the ULDR would deprive the applicant of a substantial property right that is enjoyed by other property owners in the same zoning district. (It shall be of no importance to this criterion that a denial of the variance sought might deny to the owner a more profitable use of the property, provided the provisions of the ULDR still allow a reasonable use of the property; and

THE LITERAL APPLICATION OF THE SPECIFIC REQUIREMENT OF SECTION 47.18.33 - SIDE SET BACK WOULD DEPRIVE THE OWNER OF THE ABILITY TO DEVELOP THIS PAR

d. The unique hardship is not self-created by the applicant or his predecessors, nor is it the result of mere disregard for, or ignorance of, the provisions of the ULDR or antecedent zoning regulations; and

LOT WIDTH OF 25-FOOT MAKES IT TOO NARROW FOR ALMOST ANY USE.

e. The variance is the minimum variance that will make possible a reasonable use of the property and that the variance will be in harmony with the general purposes and intent of the ULDR and the use as varied will not be incompatible with adjoining properties or the surrounding neighborhood or otherwise detrimental to the public welfare.

THIS IS THE MINIMUM VARIANCE NECESSARY TO USE THIS LOT AS TWO NEW FAMILIES WILL LIVE THERE, NOT ONLY BRINGING INCOME TO THE CITY AS TODAY TAXES

AFFIDAVIT: I, Adriana S. France, the Owner/Agent of said property ATTEST that I am aware of the following:

- 1. In order to be entitled to the relief requested in the application an affirmative vote of a majority plus one of the Board of Adjustment is required;
2. That in granting the relief requested, the Board of Adjustment is limited to the authority vested in the Board by the ULDR and that the Board may not grant the relief requested unless the applicant proves all the criteria specified in the ULDR have been met;
3. That the granting of relief by the Board does not exempt the applicant or owner of record from the responsibilities of obtaining all applicable permits or approvals as may be required by law for both new and existing structures;
4. That if the relief requested is granted by the Board, the applicant must secure a building permit to implement the relief requested within one hundred eighty (180) days of the entry of the final order or the Board, or within such lesser time as the Board may proscribe and that failure to procure the necessary permits within the time so proscribed shall render the variance or special exception null and void;
5. That if the Board denies the request for relief, then no additional application for the same or substantially the same relief may be entertained by the Board within two (2) years of the date of entry of the final order of denial.

SIGN NOTICE

Applicant must **POST SIGNS** (for Board of Adjustment) according to Sec. 47-27.2 Types of Public Notice and 47-27.9 Variance, Special Exception, Temporary Non-Conforming Use, Interpretation requires the following notice:

- Sign Notice shall be given by the applicant by posting a sign provided by the City stating the time, date, and place of the Public Hearing on such matter on the property which is the subject of an application for a development permit. If more than one (1) public hearing is held on a matter, the date, time, and place shall be stated on the sign or changed as applicable.
- The sign shall be posted at least fifteen (15) days prior to the date of the public hearing.
- The sign shall be visible from adjacent rights-of-way, including waterways, but excepting alleys.
- If the subject property is on more than one (1) right-of-way, as described above, a sign shall be posted facing each right-of-way.
- If the applicant is not the owner of the property that is subject of the application, the applicant shall post the sign on or as near to the subject property as possible subject to the permission of the owner of the property where the sign is located or, in a location in the right-of-way if approved by the City.
- If the sign is destroyed or removed from the property, the applicant is responsible for obtaining another sign from the City and posting the sign on the property.
- The sign shall remain on the property until final disposition of the application. This shall include any deferral, rehearing, appeal, request for review or hearings by another body. The sign information shall be changed as above to reflect any new dates.
- The applicant shall, five (5) days prior to the public hearing, execute and submit to the department an affidavit of proof of posting of the public notice sign according to this section. If the applicant fails to submit the affidavit the public hearing will be postponed until the next hearing after the affidavit has been supplied.

Ref.: Narrative for variance request for 1'-4 ½" side set back reduction

Dear Sir or Madam,

On behalf of Container Box, a renowned Brazilian company specialized in container constructions, and according to section 47-24.12 of Fort Lauderdale Unified Land Development Regulations (ULDR), I hereby present this request for a 16.5 inches side setback variance for the construction of a residence at the above-mentioned parcel. ULDR table 47-5.36 sets the dimensional requirements for the RMM-25 district as 5 feet for a Single Family Dwelling, Attached: Duplex/Two(2) Family Dwelling. Also Section 47-18 sets the Specific Use Requirements, and specifically Section 47-3.3.B.2 defines that a nonconforming lot in any residentially zoned district may be used for a standard single family or duplex structure or building only where a permitted use by the ULDR. Minimum five (5) foot side yards shall be required and front and rear yards shall meet the yard requirements in the zoning district where the parcel is located.

We would like to highlight the importance and benefits of these constructions, which follow strict principles of sustainability and circularity for the city. According to

About the company:

Container Box is a highly creative and sustainable company, specialized in mixed constructions using modular container Architecture, combined with masonry, steel frame and/or wood frame techniques. Over the past 15 years, the company has developed a unique construction methodology by leveraging the modulation of containers for constructions, to achieve an excellent level of sustainability. The company has had its Zero Carbon footprint in its corporate structure since 2022, and we rigorously calculate our carbon footprint, consistently verifying it as extremely low number, which allows us to build several projects with a carbon neutral impact.

All our projects are currently Zero Carbon and environmentally friendly projects. Last year, we were honored with a sustainability award from the American Chamber of Commerce in Brazil (AMCHAM) for a project of the Zero Carbon Laboratory for the Brazilian government – Butantan Institute. This recognition underlines our commitment to the economy in the construction industry

Container Building Carbon Footprint:

Our comparative study between container construction and traditional masonry (CMU) construction reveals significant environmental benefits. A "40-foot HC container" when prepared for construction with heat treatments, walls, floors, and other modifications, has a carbon footprint of approximately 18.23 tCO₂e (greenhouse gas emissions per ton). Compared to an equivalent masonry structure has a carbon footprint of about 195.06 tCO₂e. This demonstrates that the use of a container structure reduces carbon emissions by about 90%, avoiding emissions of approximately 176.83 tCO₂e, into the environment.

1. Durability and Resistance:

- Containers are designed to withstand harsh conditions during transport, which makes them extremely robust and durable. They can withstand extreme weather conditions, including Category 5 hurricanes, providing a solid foundation for a home.
- The steel frame is resistant to pests, rot, and other problems common in traditional wooden homes, reducing the need for long-term maintenance.
- Container homes are less prone to fires compared to wooden structures, offering superior fire protection when properly insulated and equipped.

2. Speed in Construction and Sustainability:

- Containers are prefabricated and can be quickly assembled on site, reducing overall construction time. This can help the city meet the demand for housing faster than traditional construction.
- Due to prefabrication, container homes require less site preparation compared to traditional construction, helping to reduce erosion and pollution into the neighborhood. In addition, we use less material (such as water, sand, cement, stone) that are extracted from nature and are finite.

3. Modern and Contemporary Aesthetics:

- Our projects feature a modern and contemporary aesthetic that appeals to those seeking a distinctive look. The clean lines and functional appearance can be quite attractive to the city skyline.
- Containers are modular units, with different sizes standardized internationally (20x8x8.6 feet, 40x8x8.6 feet and 40x8x9.6 feet). This standardization makes it impossible to fit the construction to the lot, requiring the lot to be adjusted to the container.

Positive Impact for the City

1. Valuation of Vacant Lots:

- The construction of two houses on an empty lot, which has remained unused since the city's subdivision, will bring a series of economic and social benefits. The presence of new residences increases population density and contributes to the vitality of the neighborhood, attracting new residents and businesses to the area.
- The appreciation of empty lots also results in an increase in tax collection for the city, allowing investments in infrastructure and public services.

2. Tax Revenue Projection:

- Empty lots do not generate significant tax revenue for the city. However, when building two houses on one lot, tax increases substantially. Considering a 20-year projection, the positive financial impact for the city can be significant, providing additional resources for public investments.
- The tax collected annually is \$1,757.27 (2022) at this parcel. Once built and appraised with the building on it taxes can rise to \$10,000 annually, meaning a quarter million dollars more to the city on 20 years span.

3. Innovation and Sustainability in Construction:

- Our projects not only solve the problem of non-conforming lots, but also introduce innovative and sustainable practices in civil construction. City architects and engineers will have the opportunity to collaborate on projects that utilize modern and eco-friendly techniques, strengthening the city's commitment to sustainability.

Why we need this Variance Request:

The 1'-4 ½" variance is crucial due to the modular nature of the containers in our construction technique. As the containers follow an international size standard, adjusting the construction to the lot without this "variance" would compromise the integrity and design of the structure. The requested "variance" will allow us to maintain the modularity and sustainability of our constructions, without compromising the ecological principles that guide our work. In addition, this project may represent a milestone in the city of Fort Lauderdale, being the first Zero Carbon project in the city, which already values sustainable practices so much.

As this is a non-conforming lot, even for an usual brick and mortar construction the width of the lot would compromise the quality of the house. Taking in consideration a finished exterior brick wall would end at 10 inches, the internal "net" width for a house in this lot would be 13 feet.

We are confident that granting this variance will not only benefit Container Box, but also help the standard of innovation and environmental responsibility that other initiatives can follow, solidifying Fort Lauderdale as a pioneer city in sustainable construction and eco-friendly practices.

We appreciate your consideration and are available for any further clarification.

Sincerely,

Luiz Frediani, PE

JOB SPECIFIC SURVEYOR NOTES:

THE ASSUMED BEARING REFERENCE OF NORTH 87 DEGREES 54 MINUTES 55 SECONDS EAST IS BASED ON THE NORTHERLY LINE OF LOT 30, BLOCK 145, LOCATED WITHIN PROGRESSO, ACCORDING TO THE PLAT THEREOF, AS RECORDED IN PLAT BOOK 2, PAGE 18 OF THE PUBLIC RECORDS OF MIAMI-DADE COUNTY, FLORIDA.

GENERAL SURVEYOR NOTES:

1. The Legal Description used to perform this survey was supplied by others. This survey does not determine or imply ownership.
2. This survey only shows improvements found above ground. Underground footings, utilities and encroachments are not located on this survey map.
3. If there is a septic tank, or drain field shown on this survey, the location is approximate as the location was either shown to Surveyor by a third party or it was estimated by metal detection, probing rods, and visual above ground inspection only. No excavation was performed in order to determine the exact and accurate location.
4. This survey is exclusively for the use of the parties to whom it is certified.
5. Additions or deletions to this survey map and report by other than the signing party or parties is prohibited without written consent of the signing party or parties.
6. Dimensions are in feet and decimals thereof.
7. Due to varying construction standards, house dimensions are approximate.
8. Any FEMA flood zone data contained on this survey is for informational purposes only. Research to obtain such data was performed at www.fema.gov.
9. All corners marked as set are at a minimum a 1/2" diameter, 18" iron rebar with a cap stamped LB#8200.
10. If you are reading this survey in an electronic format, the information contained on this document is only valid if this document is electronically signed as specified in Chapter 5J-17.062 (3) of the Florida Administrative Code. The Electronic Signature File related to this document is prominently displayed on the invoice for this survey, which is sent under separate cover. Manually signed and sealed logs of all survey signature files are kept in the office of the performing surveyor. If this document is in paper format, it is not valid without the signature and original raised seal of a Florida Licensed Surveyor.
11. Unless otherwise noted, an examination of the abstract of title was NOT performed by the signing surveyor to determine which instruments, if any, are affecting this property.
12. The symbols reflected in the legend and on this survey may have been enlarged or reduced for clarity. The symbols have been plotted at the center of the field location, and may not represent the actual shape or size of the feature.
13. Points of Interest (POI's) are selected above-ground improvements which may be in conflict with boundary, building setback or easement lines, as defined by the parameters of this survey. There may be additional POI's which are not shown, not called-out as POI's, or which are otherwise unknown to the surveyor. These POI's may not represent all items of interest to the viewer.
14. Utilities shown on the subject property may or may not indicate the existence of recorded or unrecorded utility easements.
15. The information contained on this survey has been performed exclusively, and is the sole responsibility, of Geomatics Top Team Inc.

ELECTRONIC SIGNATURE:

In complete accordance with Florida Statute 472.025 and Pursuant to the Electronic Signature Act of 1996 or Florida Statute TITLE XXXIX, Chapter 668, If this document was received electronically via PDF, then it has been lawfully Electronically Signed. Therefore, this survey PDF, if authentic, is completely official and invariable. In order to validate the "Electronic Signature" of PDF surveys sent via www.surveystars.com you must use a hash calculator. A free hash calculator is available for download at: www.softspecia.com/get/System/File-Management/Hash-Calculator-Ki#ill.html

In order to validate the Electronic Signature of any survey PDF sent via www.surveystars.com:

1. Download the Hash Calculator available at: www.softspecia.com/get/System/File-Management/Hash-Calculator-Ki#ill.html
2. Save the Survey PDF onto your computer from www.surveystars.com or from the email sent from www.surveystars.com.
3. Click the square Browse button in the upper right hand corner of the Hash Calculator to find and select the saved Survey PDF document, and click the COMPUTE button in the lower right hand corner of the Hash Calculator.
4. Compare the 40 digit string of characters in the SHA-1 line to the 40 digit SHA-1 characters for the survey in the job file in www.surveystars.com which is also printed on the invoice for that survey.
5. If the 40 digit string of SHA-1 characters are exactly the same on the invoice for the survey as www.surveystars.com is, they are in the Hash Calculator, then this PDF is authentic. If the 40 digit string of characters does not match exactly, then this PDF has been tampered with and it is not authentic.

PRINTING INSTRUCTIONS:

1. While viewing the survey in Adobe Reader, select the "Print" button under the "File" tab.
 2. Select a printer with legal sized paper.
 3. Under "Print Range", click select the "All" toggle.
 4. Under the "Page Handling" section, select the number of copies that you would like to print.
 5. Under the "Page Scaling" selection drop down menu, select "None."
 6. Uncheck the "Auto Rotate and Center" checkbox.
 7. Check the "Choose Paper size by PDF" checkbox.
 8. Click OK to print.
- TO PRINT IN BLACK + WHITE:
1. In the main print screen, choose "Properties".
 2. Choose "Quality" from the options.
 3. Change from "Auto Color" or "Full Color" to "Gray Scale".
