CRITERIA: Applicant must demonstrate a unique hardship attributable to the land by proving by a preponderance of the evidence for all of the following criteria. Please answer the following criteria completely. While some criteria may seem duplicative the response should be tailored specifically to each. Per section 47-24.12, A.4,

a. Special conditions and circumstances affect the property at issue which prevent the reasonable use of such property; and

N/A

b. Circumstances which cause the special conditions are peculiar to the property at issue, or to such a small number of properties that they clearly constitute marked exceptions to other properties in the same zoning district; and:

N/A

c. Literal application of the provisions of the ULDR would deprive the applicant of a substantial property right that is enjoyed by other property owners in the same zoning district. (It shall be of no importance to this criterion that a denial of the variance sought might deny to the owner a more profitable use of the property, provided the provisions of the ULDR still allow a reasonable use of the property; and

N/A

d. The unique hardship is not self-created by the applicant or his predecessors, nor is it the result of mere disregard for, or ignorance of, the provisions of the ULDR or antecedent zoning regulations; and

N/A

e. The variance is the minimum variance that will make possible a reasonable use of the property and that the variance will be in harmony with the general purposes and intent of the ULDR and the use as varied will not be incompatible with adjoining properties or the surrounding neighborhood or otherwise detrimental to the public welfare.

AFFIDAVIT: I, Abraham Al Jasi the Owner/Agent of said property ATTEST that I am aware of the following:

1. In order to be entitled to the relief requested in the application an affirmative vote of a majority plus one of the Board of Adjustment is required;
2. That in granting the relief requested, the Board of Adjustment is limited to the authority vested in the Board by the ULDR and that the Board may not grant the relief requested unless the applicant proves all the criteria specified in the ULDR have been met;
3. That the granting of relief by the Board does not exempt the applicant or owner of record from the responsibilities of obtaining all applicable permits or approvals as may be required by law for both new and existing structures;
4. That if the relief requested is granted by the Board, the applicant must secure a building permit to implement the relief requested within one hundred eighty (180) days of the entry of the final order of the Board, or within such lesser time as the Board may proscribe and that failure to procure the necessary permits within the time so proscribed shall render the variance or special exception null and void;
5. That if the Board denies the request for relief, then no additional application for the same or substantially the same relief may be entertained by the Board within two (2) years of the date of entry of the final order of denial.

NARRATIVE BY AVRAHAM ALFASI

Re: 1629 NE 1st Ave

Section code 25-62 (b)(3)

1-This corner street 1629 NE 1st Ave and NE 16th place has always been flooded during heavy rain. 2 months ago, and 9 months ago when we had heavy rains, the houses on these properties were completely flooded about 2' above the finished floor of the existing house. (Picture #3,4 and 5)

2-As you can see the entire street does not have a sidewalk, even the new house just built at the corner of Andrews Ave and 16th place does not have a sidewalk. Right after the corner of 1st avenue, the property on 100, 110 and 114 NE 16th place built about almost 2 years ago does not have sidewalks. And those properties are about 7' NAVD. As you see from the driveways for these properties in picture #2, the driveway from the house to the street (16th Place) is a very steep climbing driveway. As I have been talking to the owner of this property, he gave up his sports car because he was not able to get into the garage, because of the slope. You can continue to see on picture #1 the entire street continues all the way to the end of the street which is NE 3rd avenue, there is no sidewalk on the south side of the street at all and there is a sidewalk on the north side of the street only. Also you can see in picture #6, this is the new houses that was just build on the corner of Andrews Ave last year and there is no sidewalk even connected to Andrews Ave on that south side of the street and this property is right next door to 40 NE 16th Place.

3-All the adjacent properties to 40 NE 16th place and 1629 NE 1st Ave have been developed in the last two years and do not have any sidewalk. And these properties will not be redeveloped for the next 50 or 60 years, therefore they will never have a sidewalk.

4-If the city forces us to have a sidewalk, all the ground around the sidewalk will always be washed away with the next flood and then the sidewalk will become a hazard, which happened in many properties at the city. The main concern would be the lawsuit if somebody trips and falls over those sidewalks, and this has happened at many properties around the city. Therefore, I ask not to put a sidewalk.

5-If we must put the sidewalk, please understand the new house will be a minimum of 7.4 NAVD, my clients wanted to raise it even more because this area is very flood prone. He wanted to raise to 8 NAVD. If we raise it 8 or leave it at 7.4 our driveway will be very steep, because we only must slope it from the house to the sidewalk. The sidewalk must be at 3.48 NAVD, this gives us a slope of 3.5' on a land of 25' which is extremely steep. A regular car won't be able to go into the garage, only an SUV. If we do not put the sidewalk the slope will be all the way to the street 40'6". It will give us a much easier slope and you will be able to drive the car into the garage.

I hope you will consider my request, with all those 5 points I mentioned above

Thank you very much

Sincerely
