*Crane and parking meter mitigation must be done prior to MOT approval. Please refer to the MOT Guidelines for crane definitions.

SECTION 4: TYPE OF WORK DESCRIPTION

Please make sure to include the following information in the description:

- List the names of affected streets and the nearest intersection. Use complete street names, including directionals.
 - Describe the nature of the construction and any phasing plans. A separate MOT application is required for each phase.
 - Describe any specific safety hazards that the work may produce during construction (i.e., large holes, etc.).
- Las Olas Boulevard westbound closing the north side one lane then turning onto A!A northbound closing the west side one lane, then turning westbound onto Poinsettia Street closing the one south side lane and then turning southbound onto Seabreeze Blvd. closing the east side lane. The traffic closures are only temporary while the bulk of the walkers leave the park and then enter the park. Traffic will continue to flow, but only in one lane instead of two. The entire walk only takes about 20 minutes before the road reopens.

SECTION 5: FDOT DESIGN STANDARD INDEX DRAWING NUMBERS/MUTCD TYPICAL APPLICATION

(State which FDOT Standard Index 600 series will be followed. The indexes must include the north arrow and the names of the main and cross streets. Also, state whether trenches will be covered or backfilled during non-working hours.)

GENERAL NOTES:

- This Index contains information specific to the Federal and State guidelines and standards for the preparation of traffic control plans and for the execution of traffic control in work zones, for construction and maintenance operations and utility work on highways, roads and streets on the State Highway System. Certain requirements in this Index are based on the high volume nature of State Highways. For highways, roads and streets off the State Highway System, the local agency (City/County) having jurisdiction may adopt requirements based on the minimum requirements provided in the MUTCD.
- Use this Index in accordance with the Plans and Indexes 102-601 through 102-680. Indexes 102-601 through 102-680 are Department-specific typical applications of commonly encountered situations. All just device location or number thereof as recommended by the Worksite Traffic Supervisor and approved by the Engineer. Devices include, but are not limited to, flaggers, portable temporary signals, signs, pavement markings, and channelizing devices. Comply with MUTCD or applicable Department criteria for any changes and document the reason for the change.
- Except for emergencies, any road closure on State Highway System must comply with Section 335.15, F.S.
