

Tiffany K. Bain serves as the Director of Administration and Strategic Initiatives in the City Manager's Office. In this role, Bain oversees the administrative functions of the City Manager's Office, leads strategic initiatives, and ensures high-level coordination among departments, elected officials, charter offices and the public. She plays a vital role in

managing the legislative process, advancing citywide operating procedures and delivering priority projects aligned with the city manager's vision.

Bain brings more than a decade of public sector experience at both the federal and municipal levels. Before joining Fort Lauderdale, she served as a program manager for U.S. Citizenship and Immigration Services within the U.S. Department of Homeland Security. She began her tenure in local government in 2015 at the City of Miami Gardens where she served concurrently as the mayor's executive assistant and legislative aide. She later transitioned to the City of Miami Beach in 2017, where she held progressively responsible roles in the City Manager's Office and Public Works Department.

Her areas of expertise include personnel and program management, budget development, government affairs, stakeholder engagement and strategic communications. Prior to her municipal roles, Bain also served in the non-profit and private sectors supporting advocacy efforts for underserved and unserved communities within the telecommunications and energy industries.

Bain holds a Bachelor of Science, summa cum laude, in public relations with a concentration in Spanish from Florida A&M University and a Master of Arts, summa cum laude, in political communication from American University in Washington, D.C. She is a member of Alpha Kappa Alpha Sorority, Inc. and a life member of the FAMU National Alumni Association. She also completed the Supervision in Government program at Florida Atlantic University's John Scott Dailey Florida Institute of Government and holds a professional certificate in local government management with a focus on disaster preparedness from the International City/County Management Association.
