PUBLIC NOTICE

BOARD OF ADJUSTMENT MEETING

DATE: October 08th, 2025

TIME: 6:00 P.M.

CASE: PLN-BOA-25090003

Sec. 47-19.8. A Hotel accessory uses

- Requesting a variance from ULDR Section 47-19.8 to allow an existing motel with thirty-nine (39) guest rooms to provide accessory uses, including dining rooms, bars, patio bars, and outdoor food service areas, whereas the ULDR permits such accessory uses only in hotels with a minimum of fifty (50) guest rooms.

Sec. 47-19.8. A.1 Hotel accessory uses

- Requesting a variance from ULDR Section 47-19.8. A.1 to allow access to such accessories uses to be internalized within the site, whereas the ULDR requires that access be limited to the interior of the building through the main lobby.
- **Please Note:** The variance requests are not inclusive to parking, FBC requirements, or any Development Requirements.

SIGN NOTICE

Applicant must **POST SIGNS** (for Board of Adjustment) according to Sec. 47-27.2 Types of Public Notice and 47-27.9 Variance, Special Exception, Temporary Non-Conforming Use, Interpretation requires the following notice:

- Sign Notice shall be given by the applicant by posting a sign provided by the City stating the time, date, and place of the Public Hearing on such matter on the property which is the subject of an application for a development permit. If more than one (1) public hearing is held on a matter, the date, time, and place shall be stated on the sign or changed as applicable.
- The sign shall be posted at least fifteen (15) days prior to the date of the public hearing.
- The sign shall be visible from adjacent rights-of-way, including waterways, but excepting alleys.
- If the subject property is on more than one (1) right-of-way, as described above, a sign shall be posted facing each right-of-way.
- If the applicant is not the owner of the property that is subject of the application, the applicant shall post the sign on or as near to the subject property as possible subject to the permission of the owner of the property where the sign is located or, in a location in the right-of-way if approved by the City.
- If the sign is destroyed or removed from the property, the applicant is responsible for obtaining another sign from the City and posting the sign on the property.
- The sign shall remain on the property until final disposition of the application. This shall include any deferral, rehearing, appeal, request for review or hearings by another body. The sign information shall be changed as above to reflect any new dates.
- The applicant shall, five (5) days prior to the public hearing, execute and submit to the department an affidavit of proof of posting of the public notice sign according to this section. If the applicant fails to submit the affidavit the public hearing will be postponed until the next hearing after the affidavit has been supplied.

GENERAL INFORMATION
BOARD OF ADJUSTMENT REVIEW PROCESS AND APPLICATION SUBMITTAL

BOARD OF ADJUSTMENT MEETING REQUEST: Prior to the submittal of the Board of Adjustment application, applicants are required to schedule a meeting request with Zoning and Landscaping Division staff to obtain feedback regarding the proposed variance, special exception, or other applications. The meeting includes general guidance on the submittal and process for the application type. To request a meeting with staff, [email request to the Board of Adjustment](#).

APPLICATION DEADLINE: Submittals must be received by 5:00 PM each business day. Pursuant to Section 47-24.12, the Department will review all applications to determine completeness within five (5) business days. Applicants will be notified via e-mail, if application, survey, plans and other documentation do not meet the submittal requirements and if changes are required. The applicable [Meeting Dates and Deadlines](#) can be found on the City's website at the Board of Adjustment webpage. Staff will provide guidance once an application has been submitted to the City.

ONLINE SUBMITTAL PROCESS: Submittals must be conducted through the [City's online citizen access portal and payment of fees LauderBuild](#). LauderBuild requires the creation of an online account to submit a complete application. To access submittal requirements and standards please visit the [LauderBuild Plan Room](#). Staff will provide guidance once an application has been submitted to the City.

DETERMINATION OF COMPLETENESS: Submittals are reviewed for completeness to ensure the application submittal contains all the required information including plans, survey, proof of ownership, narratives, and other pertinent documentation. The City will notify the applicant within five (5) business days from submittal with a determination of completeness. The notification will be sent via email and will indicate application completeness or incompleteness with required changes. [BOA Flow Chart](#).

PAYMENT OF FEES: All applications for development permits are established by the City Commission, as set forth by resolution and amended from time to time. In addition to the application fee, any additional costs incurred by the City including review by a consultant on behalf of the City, special advertising, re-advertising and any other costs associated with the application submittal shall be paid by the applicant. Any additional costs, which are unknown at the time of application, but are later incurred by the City, shall be paid by the applicant prior to the issuance of a development permit. Applicants will receive invoices electronically indicating the applicable fee(s). Note, there are fees at various stages of review depending on application type. All Fees are paid online.

CRITERIA: Applicant must demonstrate a unique hardship attributable to the land by proving by a preponderance of the evidence for all of the following criteria. Please answer the following criteria completely. While some criteria may seem duplicative the response should be tailored specifically to each. Per section 47-24.12. A.4,

a. Special conditions and circumstances affect the property at issue which prevent the reasonable use of such property; and

Refer to attached narrative

b. Circumstances which cause the special conditions are peculiar to the property at issue, or to such a small number of properties that they clearly constitute marked exceptions to other properties in the same zoning district; and:

Refer to attached narrative

c. Literal application of the provisions of the ULDR would deprive the applicant of a substantial property right that is enjoyed by other property owners in the same zoning district. (It shall be of no importance to this criterion that a denial of the variance sought might deny to the owner a more profitable use of the property, provided the provisions of the ULDR still allow a reasonable use of the property; and

Refer to attached narrative

d. The unique hardship is not self-created by the applicant or his predecessors, nor is it the result of mere disregard for, or ignorance of, the provisions of the ULDR or antecedent zoning regulations; and

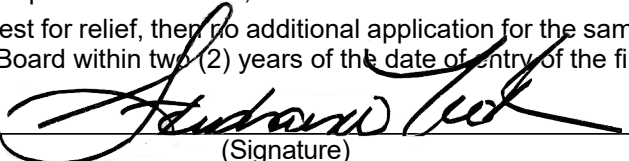

Refer to attached narrative

e. The variance is the minimum variance that will make possible a reasonable use of the property and that the variance will be in harmony with the general purposes and intent of the ULDR and the use as varied will not be incompatible with adjoining properties or the surrounding neighborhood or otherwise detrimental to the public welfare.

Refer to attached narrative

AFFIDAVIT: I, STEPHANIE J. TOOTHAKER, ESQ. the Owner/Agent of said property ATTEST that I am aware of the following:

1. In order to be entitled to the relief requested in the application an affirmative vote of a majority plus one of the Board of Adjustment is required;
2. That in granting the relief requested, the Board of Adjustment is limited to the authority vested in the Board by the ULDR and that the Board may not grant the relief requested unless the applicant proves all the criteria specified in the ULDR have been met;
3. That the granting of relief by the Board does not exempt the applicant or owner of record from the responsibilities of obtaining all applicable permits or approvals as may be required by law for both new and existing structures;
4. That if the relief requested is granted by the Board, the applicant must secure a building permit to implement the relief requested within one hundred eighty (180) days of the entry of the final order or the Board, or within such lesser time as the Board may proscribe and that failure to procure the necessary permits within the time so proscribed shall render the variance or special exception null and void;
5. That if the Board denies the request for relief, then no additional application for the same or substantially the same relief may be entertained by the Board within two (2) years of the date of entry of the final order of denial.

BOARD OF ADJUSTMENT
CITY OF FORT LAUDERDALE
100 NORTH ANDREWS AVENUE
FORT LAUDERDALE, FL 33311

RE: Variance Request for 3081 Harbor Drive, Fort Lauderdale, FL 33316

Dear Members of the Board of Adjustment:

This firm represents FTL LODGING OWNER LLC (the “Applicant”), owner of the property located at 3081 Harbor Drive, Fort Lauderdale, FL 33316 (the “Property”). The 0.37-acre site has a future land use designation of Residential High and is zoned Residential Multifamily High Rise/High Density District (“RMH-60”). The Property is improved with a two 3-story building constructed in 1951, which has operated as a 39-room licensed motel since 1990, known as the Sea Beach Plaza Hotel (State License No. MOT1608418). The Applicant recently acquired the Property and is currently undertaking renovations as conceptually shown on the submitted schematic plans.

The Applicant respectfully requests a variance from ULDR Section 47-19.8.A to permit accessory uses, including dining rooms, bars, patio bars, and outdoor food service areas, at an existing motel with thirty-nine (39) guest rooms, whereas the ULDR permits such accessory uses only in hotels with more than fifty (50) guest rooms. The Applicant also requests a variance from ULDR Section 47-19.8.A.1 to allow access to such accessory uses to be internalized within the site, whereas the ULDR requires that access be limited to the interior of the building through the main lobby.

1. PROJECT DESCRIPTION

The Property is developed with a longstanding motel use that has been serving Fort Lauderdale Beach for decades. While the RMH-60 zoning district allows accessory food and beverage services in hotels having more than 50 rooms, the subject Property currently has 39 rooms, slightly below this threshold.

The Applicant acknowledges the zoning distinction between hotels and motels, as defined in the ULDR. Hotels typically feature a central lobby or common entrance providing enclosed access to guest rooms, along with accessory dining and retail amenities. Motels, conversely, are distinguished by rooms offering direct exterior access without a centralized lobby. Despite this categorical distinction, modern motels frequently provide internal, guest-exclusive food and beverage services similar to those available in larger hotels.

To meet the expectations of today’s modern traveler and elevate the overall guest experience, the Applicant would like to introduce a curated food and beverage program that blends convenience, quality, and atmosphere. The offering will include an in-room mini bar stocked with premium snacks and beverages, as

Stephanie J. Toothaker, Esq.
land use development political strategy procurement

well as poolside and patio service for breakfast, lunch, and dinner, operating daily from 7:00 AM to 11:00 PM. Designed for flexibility and ease, service will be delivered through a combination of traditional table service, self-serve modern vending options, and in-room amenities. With an estimated capacity of 30 guests in the common areas and 39 hotel rooms, this amenity not only enhances the guest experience but also supports competitive positioning in Fort Lauderdale's hospitality market.

The requested variance seeks solely to authorize a guest-only food and beverage amenity, recognized as customary and essential within modern transient lodging facilities, irrespective of their size. Today, even smaller-scale motels routinely provide on-site dining facilities, grab-and-go counters, or lounge spaces to maintain market competitiveness and fulfill guest expectations for convenience and safety. Denial of this basic service would impose a functional and economic disadvantage on the Property, despite its long-established motel use and zoning compatibility with larger nearby hotels, such as the B-Ocean, which are permitted to provide these amenities. Granting the requested variance will enable this motel to align with current hospitality standards without necessitating any increase in the number of rooms or physical expansion.

2. REQUESTED VARIANCE

ULDR Section 47-19.8. permits accessory uses as follows:

- A. *Hotels with more than fifty (50) guest rooms when permitted within an RML, RMM or RMH district, may have the following accessory uses: dining rooms, restaurants, nightclubs, bars, retail stores, personal service shops, patio bars, outdoor food services areas.*
 1. *Access to such accessory use shall be limited to the interior of the building through the main lobby and there shall be no direct public access from the exterior of the building, provided that entrance doors may be located in exterior walls fronting on an interior court not visible at ground level from the adjacent property on any street except State Road A-1-A. Exit doors may be located in exterior walls.*
 2. *There shall be no show windows or displays relating to such accessory uses to the exterior of the building or visible from the adjacent property or any street except State Road A-1-A.*
- B. *Hotels with more than fifty (50) guest rooms when permitted within a nonresidential district may have, but not be limited to, the following accessory or secondary uses: dining rooms, restaurants, nightclubs, bars, retail stores, personal service shops, patio bars and outdoor food service areas. In the North Beach Area, hotels with more than ten (10) guest rooms when permitted by the zoning district may have, but not be limited to, the following accessory or secondary uses: dining rooms, restaurants, nightclubs, bars, retail stores, personal service shops, patio bars and outdoor food service areas. (emphasis added).*

The Applicant respectfully requests a variance from ULDR Section 47-19.8.A, which permits accessory uses, such as dining rooms, restaurants, bars, patio bars, and outdoor food service areas, only in hotels with more than fifty (50) guest rooms when located within an RML, RMM, or RMH district. The requested variance seeks to allow such accessory food and beverage uses at an existing 39-room motel in the RMH-60 district, including in-room minibars as well as poolside and patio service for breakfast, lunch, and dinner,

operating daily from 7:00 AM to 11:00 PM. Service will be provided through a combination of traditional waiter service, in-room offerings, and self-service vending, and will be available exclusively to registered motel guests.

The Applicant further requests a variance from ULDR Section 47-19.8.A.1, which requires that access to such accessory uses be limited to the interior of the building through the main lobby. Given the motel's configuration, with rooms and amenities accessed directly from the exterior, strict compliance with this requirement is not feasible. The requested variance would allow access to the accessory uses to be internalized within the site screened from public view and restricted to motel guests only.

3. CRITERIA FOR APPROVAL OF BOA VARIANCE REQUEST

- a. *That special conditions and circumstances affect the property at issue which prevent the reasonable use of such property; and*

Response: The Property is developed with a long-standing, legally operating 39-room motel on a small site constrained by both parcel size and existing improvements. The motel cannot be expanded to meet the 51-room threshold without triggering additional nonconformities or requiring full code compliance for parking, which is infeasible under current site conditions. Strict application of the ULDR would therefore prevent the Property from offering a basic, industry-standard guest amenity, thereby preventing its reasonable use as a transient lodging facility.

- b. *That the circumstances which cause the special conditions are peculiar to the property at issue, or to such a small number of properties that they clearly constitute marked exceptions to other properties in the same zoning district; and*

Response: While RMH-60 zoning permits up to 120 hotel rooms per acre, the Property is uniquely constrained by its size, existing improvements, and legal nonconformities. Unlike larger properties in RMH-60 with room to expand, the subject Property is physically and operationally limited into its 39-room configuration. These conditions create a marked exception from the general characteristics of other RMH-60-zoned properties.

- c. *That the literal application of the provisions of the ULDR would deprive the applicant of a substantial property right that is enjoyed by other property owners in the same zoning district. It shall be of no importance to this criterion that a denial of the variance sought might deny to the owner a more profitable use of the property, provided the provisions of the ULDR still allow a reasonable use of the property; and*

Response: Literal application of the minimum room standard deprives the Applicant of the right to offer standard internal food and beverage service to motel guests, a right afforded to other similarly situated RMH-60 properties with slightly more rooms. Despite being operationally and visually indistinguishable from larger motels or hotels, the Applicant's property would be excluded from providing guest amenities.

- d. *That the unique hardship is not self-created by the applicant or his predecessors, nor is it the result of mere disregard for, or ignorance of, the provisions of the ULDR or antecedent zoning regulations; and*

Response: The unique hardship is not self-created. The Property was developed and legally operated as a motel prior to the adoption of ULDR Section 47-19.8's requirement of a minimum of more than 50 rooms in 1997. This regulatory threshold was imposed after the motel's construction, making compliance impossible without significant physical redevelopment, which is constrained by the Property's existing footprint and limited lot size. Consequently, the Applicant, who acquired the Property in its current configuration, is unable to meet the room-count requirement through no action or omission of their own, nor by their predecessors. This hardship results exclusively from the application of the current zoning standard to an established, lawfully developed site.

- e. *That the variance is the minimum variance that will make possible a reasonable use of the property and that the variance will be in harmony with the general purposes and intent of the ULDR and the use as varied will not be incompatible with adjoining properties or the surrounding neighborhood or otherwise detrimental to the public welfare.*

Response: This variance is the minimum variance that will make reasonable use of the Property. The Applicant seeks only to allow internal food and beverage service for motel guests, consistent with all existing design, access, and screening requirements in Section 47-19.8. There will be no signage or public access. The requested use is entirely compatible with the ULDR's purpose to limit commercial impacts in residential settings and aligns with the City's own policy allowing such uses in smaller hotels with at least more than 10 guest rooms elsewhere on the Barrier Island, such as in the North Beach Area:

Sec. 47-19.8. - Hotel accessory uses.

...

- C. *Hotels with more than fifty (50) guest rooms when permitted within a nonresidential district may have, but not be limited to, the following accessory or secondary uses: dining rooms, restaurants, nightclubs, bars, retail stores, personal service shops, patio bars and outdoor food service areas. In the North Beach Area, hotels with more than ten (10) guest rooms when permitted by the zoning district may have, but not be limited to, the following accessory or secondary uses: dining rooms, restaurants, nightclubs, bars, retail stores, personal service shops, patio bars and outdoor food service areas. (emphasis added)*

BOARD OF ADJUSTMENT
CITY OF FORT LAUDERDALE
100 NORTH ANDREWS AVENUE
FORT LAUDERDALE, FL 33311

RE: Variance Request for 3081 Harbor Drive, Fort Lauderdale, FL 33316

Dear Members of the Board of Adjustment:

This firm represents FTL LODGING OWNER LLC (the “Applicant”), owner of the property located at 3081 Harbor Drive, Fort Lauderdale, FL 33316 (the “Property”). The 0.37-acre site has a future land use designation of Residential High and is zoned Residential Multifamily High Rise/High Density District (“RMH-60”). The Property is improved with a two 3-story building constructed in 1951, which has operated as a 39-room licensed motel since 1990, known as the Sea Beach Plaza Hotel (State License No. MOT1608418). The Applicant recently acquired the Property and is currently undertaking renovations as conceptually shown on the submitted schematic plans.

The Applicant respectfully requests a variance from ULDR Section 47-19.8.A to permit accessory uses, including dining rooms, bars, patio bars, and outdoor food service areas, at an existing motel with thirty-nine (39) guest rooms, whereas the ULDR permits such accessory uses only in hotels with more than fifty (50) guest rooms. The Applicant also requests a variance from ULDR Section 47-19.8.A.1 to allow access to such accessory uses to be internalized within the site, whereas the ULDR requires that access be limited to the interior of the building through the main lobby.

1. PROJECT DESCRIPTION

The Property is developed with a longstanding motel use that has been serving Fort Lauderdale Beach for decades. While the RMH-60 zoning district allows accessory food and beverage services in hotels having more than 50 rooms, the subject Property currently has 39 rooms, slightly below this threshold.

The Applicant acknowledges the zoning distinction between hotels and motels, as defined in the ULDR. Hotels typically feature a central lobby or common entrance providing enclosed access to guest rooms, along with accessory dining and retail amenities. Motels, conversely, are distinguished by rooms offering direct exterior access without a centralized lobby. Despite this categorical distinction, modern motels frequently provide internal, guest-exclusive food and beverage services similar to those available in larger hotels.

To meet the expectations of today’s modern traveler and elevate the overall guest experience, the Applicant would like to introduce a curated food and beverage program that blends convenience, quality, and atmosphere. The offering will include an in-room mini bar stocked with premium snacks and beverages, as

Stephanie J. Toothaker, Esq.
land use development political strategy procurement

well as poolside and patio service for breakfast, lunch, and dinner, operating daily from 7:00 AM to 11:00 PM. Designed for flexibility and ease, service will be delivered through a combination of traditional table service, self-serve modern vending options, and in-room amenities. With an estimated capacity of 30 guests in the common areas and 39 hotel rooms, this amenity not only enhances the guest experience but also supports competitive positioning in Fort Lauderdale's hospitality market.

The requested variance seeks solely to authorize a guest-only food and beverage amenity, recognized as customary and essential within modern transient lodging facilities, irrespective of their size. Today, even smaller-scale motels routinely provide on-site dining facilities, grab-and-go counters, or lounge spaces to maintain market competitiveness and fulfill guest expectations for convenience and safety. Denial of this basic service would impose a functional and economic disadvantage on the Property, despite its long-established motel use and zoning compatibility with larger nearby hotels, such as the B-Ocean, which are permitted to provide these amenities. Granting the requested variance will enable this motel to align with current hospitality standards without necessitating any increase in the number of rooms or physical expansion.

2. REQUESTED VARIANCE

ULDR Section 47-19.8. permits accessory uses as follows:

- A. *Hotels with more than fifty (50) guest rooms when permitted within an RML, RMM or RMH district, may have the following accessory uses: dining rooms, restaurants, nightclubs, bars, retail stores, personal service shops, patio bars, outdoor food services areas.*
 1. *Access to such accessory use shall be limited to the interior of the building through the main lobby and there shall be no direct public access from the exterior of the building, provided that entrance doors may be located in exterior walls fronting on an interior court not visible at ground level from the adjacent property on any street except State Road A-1-A. Exit doors may be located in exterior walls.*
 2. *There shall be no show windows or displays relating to such accessory uses to the exterior of the building or visible from the adjacent property or any street except State Road A-1-A.*
- B. *Hotels with more than fifty (50) guest rooms when permitted within a nonresidential district may have, but not be limited to, the following accessory or secondary uses: dining rooms, restaurants, nightclubs, bars, retail stores, personal service shops, patio bars and outdoor food service areas. In the North Beach Area, hotels with more than ten (10) guest rooms when permitted by the zoning district may have, but not be limited to, the following accessory or secondary uses: dining rooms, restaurants, nightclubs, bars, retail stores, personal service shops, patio bars and outdoor food service areas. (emphasis added).*

The Applicant respectfully requests a variance from ULDR Section 47-19.8.A, which permits accessory uses, such as dining rooms, restaurants, bars, patio bars, and outdoor food service areas, only in hotels with more than fifty (50) guest rooms when located within an RML, RMM, or RMH district. The requested variance seeks to allow such accessory food and beverage uses at an existing 39-room motel in the RMH-60 district, including in-room minibars as well as poolside and patio service for breakfast, lunch, and dinner,

operating daily from 7:00 AM to 11:00 PM. Service will be provided through a combination of traditional waiter service, in-room offerings, and self-service vending, and will be available exclusively to registered motel guests.

The Applicant further requests a variance from ULDR Section 47-19.8.A.1, which requires that access to such accessory uses be limited to the interior of the building through the main lobby. Given the motel's configuration, with rooms and amenities accessed directly from the exterior, strict compliance with this requirement is not feasible. The requested variance would allow access to the accessory uses to be internalized within the site screened from public view and restricted to motel guests only.

3. CRITERIA FOR APPROVAL OF BOA VARIANCE REQUEST

- a. *That special conditions and circumstances affect the property at issue which prevent the reasonable use of such property; and*

Response: The Property is developed with a long-standing, legally operating 39-room motel on a small site constrained by both parcel size and existing improvements. The motel cannot be expanded to meet the 51-room threshold without triggering additional nonconformities or requiring full code compliance for parking, which is infeasible under current site conditions. Strict application of the ULDR would therefore prevent the Property from offering a basic, industry-standard guest amenity, thereby preventing its reasonable use as a transient lodging facility.

- b. *That the circumstances which cause the special conditions are peculiar to the property at issue, or to such a small number of properties that they clearly constitute marked exceptions to other properties in the same zoning district; and*

Response: While RMH-60 zoning permits up to 120 hotel rooms per acre, the Property is uniquely constrained by its size, existing improvements, and legal nonconformities. Unlike larger properties in RMH-60 with room to expand, the subject Property is physically and operationally limited into its 39-room configuration. These conditions create a marked exception from the general characteristics of other RMH-60-zoned properties.

- c. *That the literal application of the provisions of the ULDR would deprive the applicant of a substantial property right that is enjoyed by other property owners in the same zoning district. It shall be of no importance to this criterion that a denial of the variance sought might deny to the owner a more profitable use of the property, provided the provisions of the ULDR still allow a reasonable use of the property; and*

Response: Literal application of the minimum room standard deprives the Applicant of the right to offer standard internal food and beverage service to motel guests, a right afforded to other similarly situated RMH-60 properties with slightly more rooms. Despite being operationally and visually indistinguishable from larger motels or hotels, the Applicant's property would be excluded from providing guest amenities.

- d. *That the unique hardship is not self-created by the applicant or his predecessors, nor is it the result of mere disregard for, or ignorance of, the provisions of the ULDR or antecedent zoning regulations; and*

Response: The unique hardship is not self-created. The Property was developed and legally operated as a motel prior to the adoption of ULDR Section 47-19.8's requirement of a minimum of more than 50 rooms in 1997. This regulatory threshold was imposed after the motel's construction, making compliance impossible without significant physical redevelopment, which is constrained by the Property's existing footprint and limited lot size. Consequently, the Applicant, who acquired the Property in its current configuration, is unable to meet the room-count requirement through no action or omission of their own, nor by their predecessors. This hardship results exclusively from the application of the current zoning standard to an established, lawfully developed site.

- e. *That the variance is the minimum variance that will make possible a reasonable use of the property and that the variance will be in harmony with the general purposes and intent of the ULDR and the use as varied will not be incompatible with adjoining properties or the surrounding neighborhood or otherwise detrimental to the public welfare.*

Response: This variance is the minimum variance that will make reasonable use of the Property. The Applicant seeks only to allow internal food and beverage service for motel guests, consistent with all existing design, access, and screening requirements in Section 47-19.8. There will be no signage or public access. The requested use is entirely compatible with the ULDR's purpose to limit commercial impacts in residential settings and aligns with the City's own policy allowing such uses in smaller hotels with at least more than 10 guest rooms elsewhere on the Barrier Island, such as in the North Beach Area:

Sec. 47-19.8. - Hotel accessory uses.

...

- C. *Hotels with more than fifty (50) guest rooms when permitted within a nonresidential district may have, but not be limited to, the following accessory or secondary uses: dining rooms, restaurants, nightclubs, bars, retail stores, personal service shops, patio bars and outdoor food service areas. In the North Beach Area, hotels with more than ten (10) guest rooms when permitted by the zoning district may have, but not be limited to, the following accessory or secondary uses: dining rooms, restaurants, nightclubs, bars, retail stores, personal service shops, patio bars and outdoor food service areas. (emphasis added)*
