INTRODUCTION

VISION STATEMENT

FAST FORWARD FORT LAUDERDALE

Our City, Our Vision 2035

WE ARE CONNECTED.
We move seamlessly and easily through a safe transportation system where the pedestrian is first.

WE ARE READY.
We are a resilient and safe coastal community.

WE ARE COMMUNITY.
We are a neighborhood of neighborhoods.

WE ARE HERE.
We are an urban center and a vacationland in the heart of South Florida.

WE ARE PROSPEROUS.
We are a subtropical City, an urban laboratory for education and business.

WE ARE UNITED.
We are a strong and vibrant kaleidoscope of multi-generational cultures, ethnicities, and community partners.

We are Fort Lauderdale, a community of choice.
We are the City you never want to leave.

Distinguished Budget Presentation Award

GOVERNMENT FINANCE OFFICERS ASSOCIATION

Distinguished Budget Presentation Award

PRESENTED TO

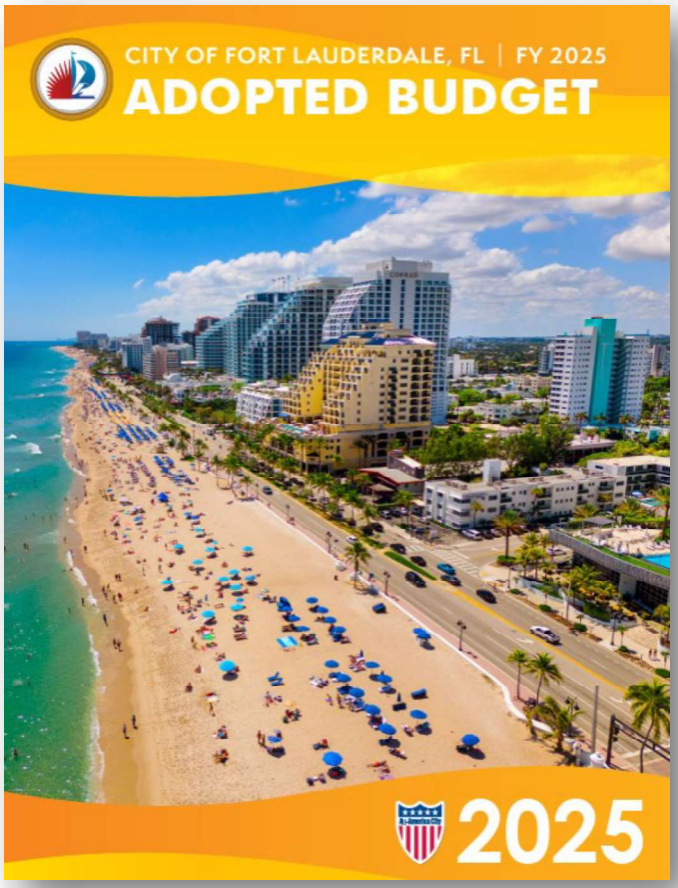

City of Fort Lauderdale
Florida

For the Fiscal Year Beginning

October 01, 2024

Christopher P. Morrill

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented the award of Distinguished Budget Presentation to the City of Fort Lauderdale, Florida for its annual budget for the fiscal year beginning October 1, 2024.

In order to receive this award, a governmental unit must publish a budget document that meets stringent program criteria as a policy document, a financial plan, an operations guide, and a communications device.

Additionally, the City's budget received the following special recognitions: Long-range Operating Financial Plans, Strategic Goals and Strategies, Budget Process, and Capital Program.

This is the 41st consecutive year that the City of Fort Lauderdale has received this distinguished and notable award.

What Works Cities Certification

The City of Fort Lauderdale was awarded Silver What Works City Certification from Bloomberg Philanthropies and Results for America in 2025. This prestigious distinction recognizes the most advanced cities' implementation of data and evidence-based practices and policies. The City achieved this award through a culmination of strong leadership, use of data to inform decisions and drive outcomes, and effective practices and policies.

As a part of certification, the City was assessed against 43 criterium organized into eight (8) foundational practices. Of the Data Driven Budget and Finance practices, the City scored a perfect score, well above other participating cities.

CITY OF FORT LAUDERDALE

Reader's Guide

This budget book presents the City of Fort Lauderdale Fiscal Year (FY) 2026 Adopted Budget, and it consists of seven (7) major sections: Introduction, Budget in Brief, Budget Overview, Long Range Financial Plans, Financials, Department Budgets, and Appendix.

We have made every effort to design this book in an accessible and transparent manner, but understand how difficult it can be to find what you are looking for in such a complex document. To make your search easier, we have provided several tools to help you find what you need. A combination of charts, graphs, and narratives are used to clarify and enhance data as well as a Glossary of commonly used terms and acronyms.

Introduction - This section includes our Vision Statement and provides the reader with general information and background on the City's history, demographics, and economic context, as well as organizational charts for Citywide units and advisory boards/committees. An overview of the Integration of the Strategic Plan and the Budget along with the *Fast Forward Fort Lauderdale 2035* Vision Plan are also included in this section.

Budget in Brief – This section contains the City Manager's Message for the FY 2026 Adopted Budget. The City Manager's budget message provides highlights of the budget's development, new initiatives, current and future challenges, and any fee changes for the coming year. This section also includes the FY 2026 Adopted All Funds Budget and FY 2026 Personnel Complement.

Budget Overview - This section provides key components that make up the FY 2026 Adopted Budget. It contains information about the budget process, the strategic plan to support the City's vision, budgetary and financial policies that guided the adopted budget, program enhancement highlights for each department, and overviews of each fund. It also provides a comparison of millage rates and fire assessment fees to other municipalities.

Long Range Financial Plans - This section outlines the City's approach to long-range financial planning. The City develops 10-year financial forecast schedules for key funds, which are updated on an annual basis to assess the City's projected financial condition. Long-range financial planning enables management to strategically plan for long-term financial sustainability.

Financials - This section contains detailed revenues and expenditures for the General Fund and all other operating funds. Financial schedules in this section provide a comparison of the FY 2024 Actuals, FY 2025 Adopted Budget, FY 2025 Estimate, and FY 2026 Adopted Budget. This section also provides the debt service requirements for all funds.

Department Budgets - This section provides an overview of each department including an organizational chart, a description of the core services, key performance measures, and a three-year financial comparison, which includes the FY 2026 Adopted Budget. Key performance measures and benchmarking are provided as an ongoing tool to measure the efficiency and effectiveness of each department.

Appendix - This section also includes a glossary of commonly used terminology and acronyms.

Check Us Out Online! - To access the FY 2026 Adopted Budget and prior-year budgets, go to www.fortlauderdale.gov/budget or scan the QR code below.

FAST FORWARD FORT LAUDERDALE

VENICE OF AMERICA

THE CITY OF FORT LAUDERDALE

Elected officials from left to right: Ben Sorensen, Steven Glassman, Dean J. Trantalis, Pamela Beasley-Pittman, and John C. Herbst

OUR VISION

The City of Fort Lauderdale is committed to improving productivity, streamlining expenses, and developing a stronger, more effective organization. The City has embraced a vision that is based on fiscal responsibility, accountability, high ethical standards, and quality service delivery. It is a vision that rewards excellence, not mediocrity, and above all, places the people of Fort Lauderdale first.

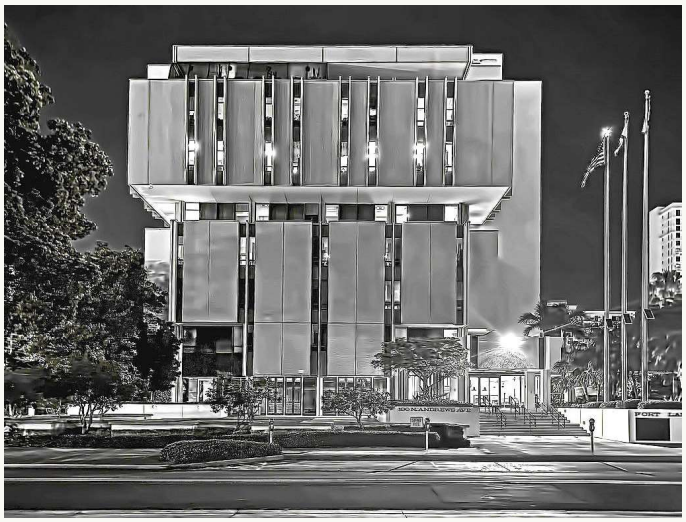

As the City moves forward, it will continue to work in partnership with its most important asset, its neighbors, to develop the strategies necessary to ensure a safe and secure community, provide quality programs and services, enhance quality of life, protect the environment, promote smart growth, and maintain fiscal responsibility. To view the City's complete vision plan, Fast Forward Fort Lauderdale 2035, please visit www.fortlauderdale.gov/vision.

CITY ADMINISTRATION

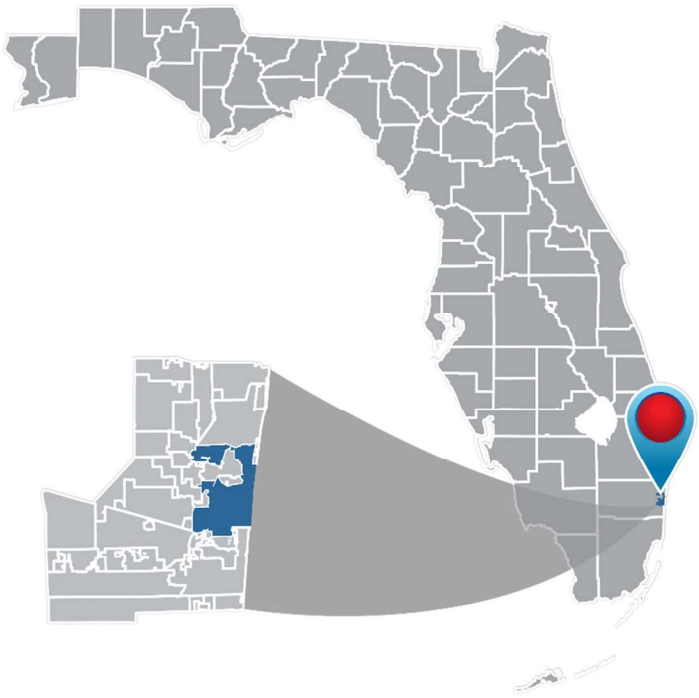

The City of Fort Lauderdale has been operating under a Commission-Manager form of government since 1925. The City Commission is comprised of the Mayor, who is elected at-large, and four (4) Commissioners, who are elected in non-partisan district races. Elections are slated to occur every four (4) years and each elected official is eligible to serve three (3) consecutive four-year terms. The next election is scheduled for November 2028.

As the City's legislative body, the City Commission sets policy, passes ordinances, adopts resolutions, and makes appointments to advisory boards and committees. The City Manager is appointed by, and reports directly to, the City Commission. As Chief Executive Officer, the City Manager is responsible for directing the City's day-to-day operations and carrying out the policies set forth by the Commission. Rickelle Williams, Fort Lauderdale's current City Manager, began serving in April 2025.

The City of Fort Lauderdale's organizational structure is comprised of the offices of the City Commission, City Manager, City Attorney, City Auditor, and City Clerk, along with the following departments: Capital Projects, Community Services, Development Services, Finance, Fire Rescue, Fort Lauderdale Executive Airport, Human Resources, Information Technology Services, Office of Management and Budget, Office of Strategic Communications, Parks and Recreation, Police, Procurement Services, Public Works, Transportation and Mobility, and Utility Services. The City employs a workforce of approximately 2,900 full-time employees. Seven (7) bargaining units represent a substantial number of employees, including: Fraternal Order of Police (FOP) – Police Officers and Sergeants, FOP - Police Lieutenants and Captains, International Association of Firefighters (IAFF) – Rank and File, IAFF – Battalion Chiefs, Teamsters Local Union 769, the Federation of Public Employees: Professional, and the Federation of Public Employees: Supervisory.

Fort Lauderdale City Hall, 1968-2024.

THE CITY YOU NEVER WANT TO LEAVE

The City of Fort Lauderdale is a warm and welcoming community famous for its beaches, arts, culture, and outdoor events, making it an outstanding place to live, work, and play. There are dining and shopping options all along Las Olas Boulevard, gondola rides on the canals, beautifully landscaped beachfront promenades, luxury hotels, historical districts, and magnificent mansions and yachts along Millionaires Row.

Other attractions, such as the Arts and Entertainment District and the Riverwalk, make Fort Lauderdale a premier destination for people of all ages. The City is just a short drive away from America's Everglades, the largest subtropical wilderness in the United States. All of this truly makes Fort Lauderdale the City you never want to leave.

HISTORY

The Fort Lauderdale area was known as the "New River Settlement" prior to the 20th century. The introduction of the Florida East Coast Railroads in the mid-1890s initiated organized development in the area. In 1911, the City of Fort Lauderdale was incorporated; and in 1915, it was designated the county seat of the newly formed Broward County. The first census after the City's incorporation, the 1920 census, documented a population of 2,065 residents.

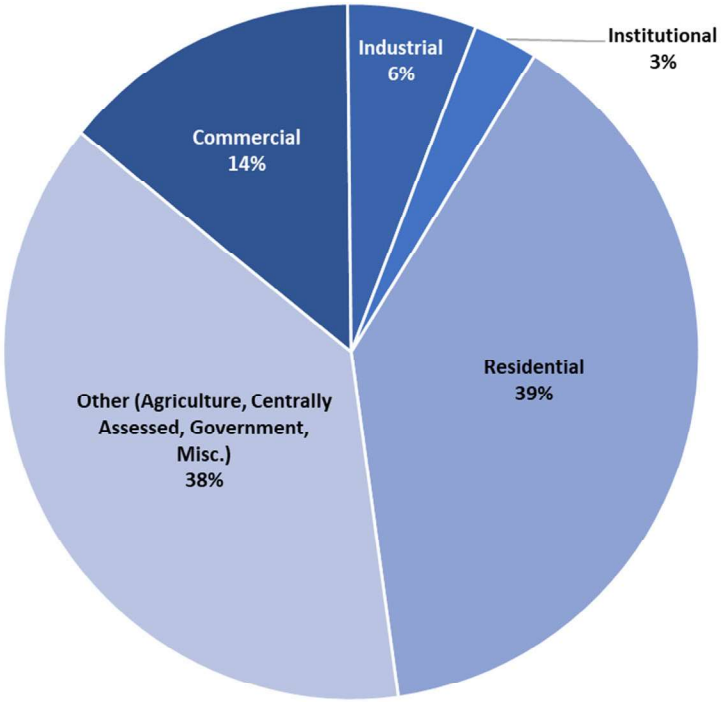

Fort Lauderdale's first considerable development began in the 1920s amidst the Florida land boom. Fort Lauderdale became a major United States Naval Base during World War II. After the war ended, service members returned to the area and, in earnest, an enormous population explosion began.

Today, the City of Fort Lauderdale is known as a major yachting capital, one of the nation's most popular tourist destinations, and the center of a metropolitan area with more than 19.4 million visitors annually.

OUR CITY AT A GLANCE

The City of Fort Lauderdale is perpetually growing and evolving. The following section will provide you with a snapshot of the City as it exists today, as well as illustrate historical trends over the past few decades. Although the trends are presented separately, the interactions between them influence the direction of the City's future. These constantly changing trends and demographics greatly influence the types and costs of governmental services provided to neighbors.

DEMOGRAPHIC TRENDS

Demographic trends strongly influence the City of Fort Lauderdale's budget. Changing demographics impact the cost of governmental services as well as tax revenues. The following information is based on the most recent data available at the time of publication.

POPULATION AND HOUSING

Some of the strongest demographic influences on the City's expenditures and revenues are those associated with the growth in total population and housing units. From 1980 to 2020, the City grew by approximately 29,481 residents (or a 19% increase) and added 23,033 additional housing units (or a 29% increase). Many City programs, such as fire prevention, transit, and water and sewer are impacted by the number of housing units. Other programs, such as recreation and police staffing, are impacted more by the growth of the population.

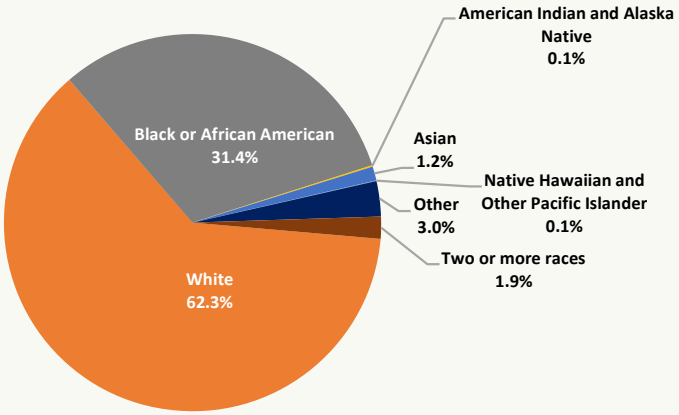

Source: 1980, 1990, 2000, 2010, & 2020 U.S. Census Bureau

CULTURAL STATISTICS

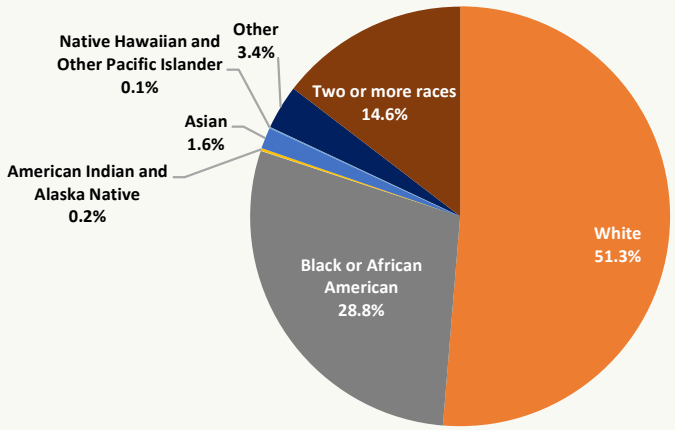

As the City has matured and its population has grown, the City of Fort Lauderdale has become more culturally varied. In 2013, racial minorities comprised 37.7% of Fort Lauderdale's population; in 2023, minorities made up 48.7% of the City's population. As the population changes, the City strives to expand programming to celebrate the increased cultural variety.

Racial Composition 2013

Source: U.S. 2013 American Community Survey 5-Year Estimates Census

Racial Composition 2023

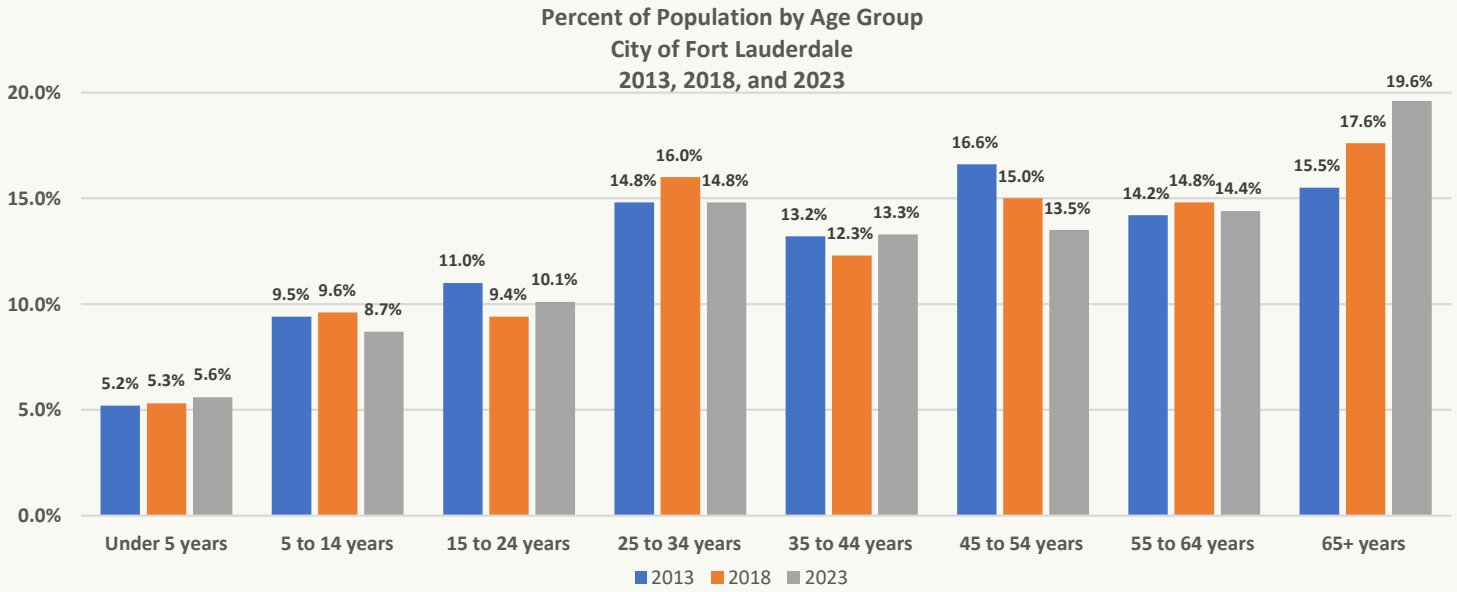

Source: U.S. 2023 American Community Survey 5-Year Estimates Census

POPULATION AGE DISTRIBUTION

The population of the City of Fort Lauderdale has grown older in the last ten years. Since 2013, the percentage of adults 65 years and older grew from 15.5% to 19.6%, representing the most significant demographic shift. This growth reflects broader national aging trends and indicates a steadily expanding older adult population in the City.

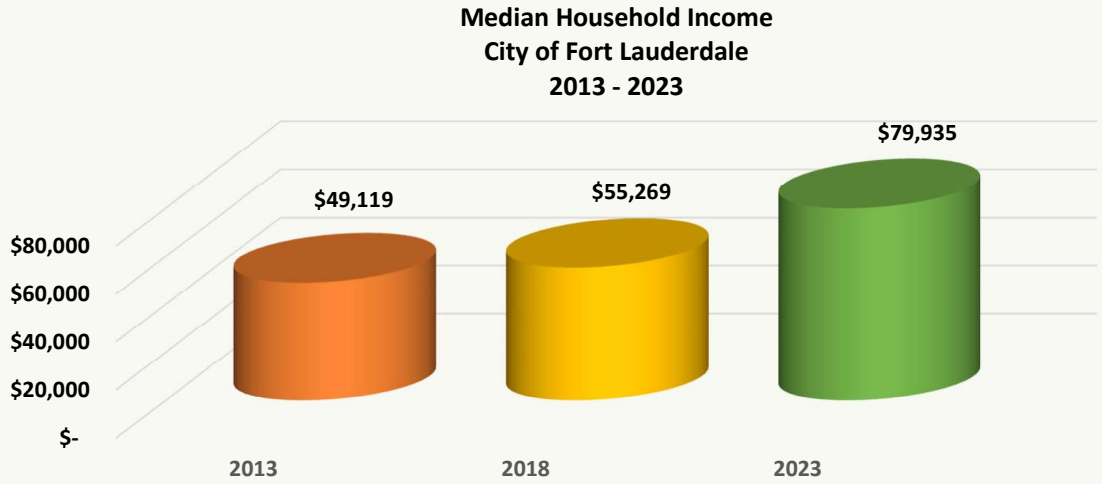

In contrast, the proportion of children and youth under 25 years of age declined slightly, falling from 25.7% in 2013 to 24.4% in 2023. A similar downward shift occurred among residents 35 to 54 years old, whose share decreased from 29.8% to 26.8% over the same period. These reductions indicate a gradual demographic tilt away from younger families and middle-aged adults and toward older populations.

Source: 2013, 2018, and 2023 American Community Survey 5-Year Estimates

HOUSEHOLD INCOME

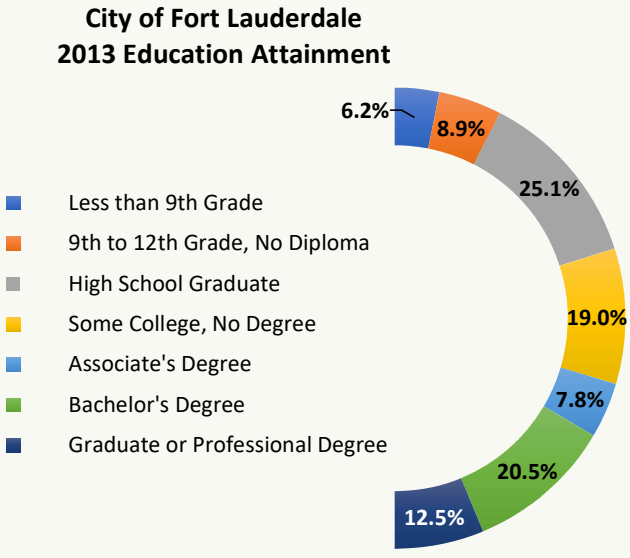

Median household income increased by 63% over the past decade, rising from $49,119 in 2013 to $79,935 in 2023. Income growth does not directly impact the City's tax revenues because Florida does not tax incomes. However, tax revenues are indirectly impacted by higher incomes because they improve the purchasing power of local residents, leading to an increase in local economic prosperity and property improvements.

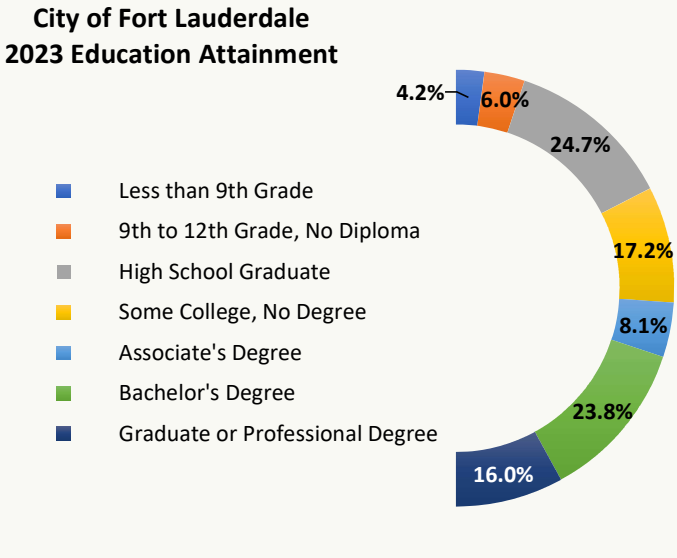

Source: 2013, 2018, and 2023 American Community Survey 5-Year Estimates

EDUCATION

As prominent employers seek out talent to remain competitive in the marketplace, residents within the City of Fort Lauderdale stand ready to meet the challenge. The percentage of the residents with at least some college education increased from 59.8% in 2013 to 65.1% in 2023. Most notable is the City's increasing trend of residents earning post-secondary degrees and certifications, having either completed an Associate's Degree, Bachelor's Degree, or Graduate/Professional degree, which increased from 40.8% to 47.9% over the same period.

Source: 2023 American Community Survey 5-Year Estimates

EMPLOYMENT*

Employment serves as a gauge on the number of jobs existing in Fort Lauderdale. Growth, both in terms of employment and in the number of businesses, generates increased tax revenues and additional expenditures for the City.

The labor force in the Greater Fort Lauderdale area has been steadily increasing since 2014, with a sharp decline in 2020 due to pandemic-related disruptions. Since then, job gains have steadily occurred, reaching a ten year high in 2024. The Bureau of Labor Statistics identifies an individual as employed if they, in the week of being surveyed, did one of the following: worked at least one-hour as a paid employee, worked at least one hour for their own business, were temporarily absent from their employment, or worked a minimum of fifteen hours, without pay, for a member of their family.

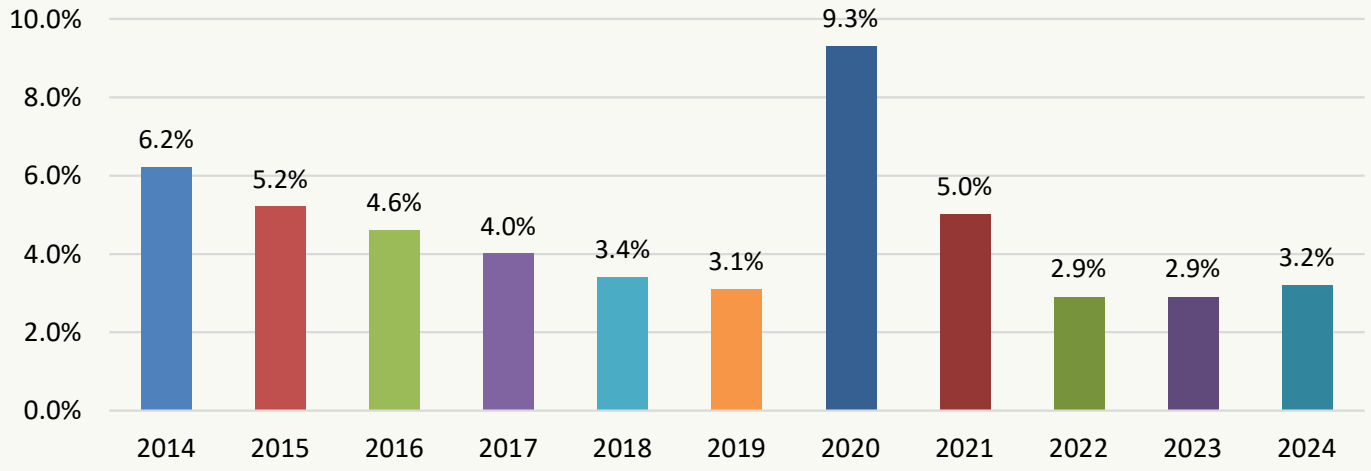

Employment - Annual
Greater Fort Lauderdale
2014 - 2024

Source: U.S. Bureau of Labor Statistics, 'Fort Lauderdale – Pompano Beach – Sunrise, FL Metropolitan Division' annual averages.

Unemployment rates in Greater Fort Lauderdale have also similarly improved over the past decade. Although the unemployment rate rose to 9.3% in 2020 due to the impacts of the COVID-19 pandemic, rates have steadily declined ever since, reflecting a strong and sustained local economic recovery.

Unemployment - Annual

2014 - 2024

Source: U.S. Bureau of Labor Statistics, 'Fort Lauderdale – Pompano Beach – Sunrise, FL Metropolitan Division' annual averages.

**Employment and unemployment figures for 2014–2024 were updated in August 2025, to reflect revised data and geographical coverage. These updates may cause some numbers to differ from those shown in previously published reports.*

COMMUNITY PROFILE

Incorporated on March 27, 1911, the City of Fort Lauderdale is nestled on the east coast of Florida by seven (7) miles of golden sand beaches and sits east of the Everglades. Between the two, the Intracoastal Waterway, the New River, and a canal system reminiscent of Venice wind through the interior.

Encompassing nearly 36 square miles with an estimated population of 192,338* in 2025, Fort Lauderdale is the largest of Broward County's 31 municipalities and one of the ten largest cities in Florida.

An advantageous economic climate has helped Fort Lauderdale establish itself as an international business center and one of the most desirable locations for new, expanding, or relocating businesses. Once known strictly as a tourism-based economy, today Fort Lauderdale supports a diverse range of industries, including marine, manufacturing, finance, real estate, high technology, avionics, aerospace, and film and television production.

Fort Lauderdale also offers an outstanding quality of life, highlighted by a semi-tropical climate, rich natural beauty, and an array of cultural, entertainment, and educational amenities.

Blessed with over 3,000 hours of sunshine each year and pleasant year-round ocean breezes, world-famous Fort Lauderdale Beach offers premier opportunities for recreation, relaxation, and enjoyment.

**Source: Florida Bureau of Economic and Business Research, University of Florida, 2025*

The picturesque Riverwalk serves as the cornerstone of the City's arts, science, cultural, and historic district that features the Broward Center for the Performing Arts, Museum of Discovery and Science, NSU Art Museum Fort Lauderdale, and Fort Lauderdale History Center.

Las Olas Boulevard has gained international acclaim as Fort Lauderdale's centerpiece of fashion, fine dining, and entertainment. The City's downtown area is home to many corporate headquarters, government offices, and higher education institutions.

Through cooperative efforts of residents, businesses, and local government, Fort Lauderdale has evolved into a City that offers the best of both worlds – an attractive business environment and an outstanding quality of life. Fort Lauderdale is a great place to live, work, and raise a family. Prospectively, the City looks forward to continuing to build upon its success to meet the challenges of the 21st Century and beyond.

The Fort Lauderdale Intercoastal Waterway, 17th Street Causeway Bridge

BUSINESS AND ECONOMIC DEVELOPMENT

The City's robust Economic Development Division works closely with the Greater Fort Lauderdale Alliance and Greater Fort Lauderdale Chamber of Commerce to recruit and retain businesses.

The City of Fort Lauderdale offers a stable, business-friendly government, with a strong base of existing businesses, well-educated labor force, diverse housing options, and an excellent quality of life. The City also offers several various tax advantages: no state or local personal income tax, no city sales tax, no state ad valorem, no franchise of inventory tax, and no gift tax.

This year, the City of Fort Lauderdale is excited to celebrate the following business expansions and relocations, as noted in the Greater Fort Lauderdale Alliance's Economic Sourcebook and Market Profile 2026:

- **ARG America**, a U.S. national distributor of marine stabilizers, made a $2,000,000 capital investment in Fort Lauderdale and added four (4) new jobs.
- **Event Services Group (ESG)** which provides décor and services for special events, moved to a new facility in Fort Lauderdale and made a $1,000,000 capital investment, adding fifty (50) new jobs.
- **Screen Graphics**, an industry leader in the design, production, and installation of high-quality graphics, is expanding their headquarters and manufacturing facility within the City, investing $2,000,000 and creating six (6) new jobs.
- **Shipmonk**, a strategic logistics partner that includes warehousing and distribution, made a capital investment of $14 million in Fort Lauderdale and created 200 new jobs.
- **West Marine,** the nation's leading chain of boating supply and fishing retail stores, relocated its headquarters in Fort Lauderdale, creating 225 jobs, making an $800,000 capital investment and leasing 50,000 square feet in office space.

MEASURES OF TREMENDOUS SUCCESS

The following are a few recent examples of where the City of Fort Lauderdale was nationally ranked:

- In 2025, Fort Lauderdale was ranked No.15 in Tripadvisor's "Best of the Best Beaches" in the U.S.
- In 2025, Fort Lauderdale was ranked No.16 in Urban Land Institute's "Best Market for Real Estate Prospects" in the U.S.
- In 2025, Fort Lauderdale was ranked No.8 in Niche's "Best Cities to Retire in America."
- In 2024, Fort Lauderdale ranked as the "2nd Happiest City for Young Professionals in the U.S." by Forbes.
- In 2024, Fort Lauderdale was named, for the fourth year in a row, as a "Top 100 Best Places to Live in America" by Livability.com.
- In 2024, Fort Lauderdale was ranked as leading "Magnet: 18-Hour City", for the third year in a row by the Urban Land Institute.
- In 2024, Fort Lauderdale was named as one of the country's "100 Best Places to Live and Launch a Business" by CNN Money.
- In 2022, Fort Lauderdale was ranked No.7, in Bestplaces.net's "Most Fiscally Fit Cities."

MARINE INDUSTRY

The marine industry is Greater Fort Lauderdale's top economic sector, supporting approximately 142,000 jobs and generating $9.9 billion in Broward and $18.5 billion across South Florida. The annual Fort Lauderdale International Boat Show attracts over 100,000 visitors and adds $1.8 billion to the economy. With nearly 300 miles of waterways and world-class facilities, Fort Lauderdale remains the Yachting Capital of the World.

TOURISM INDUSTRY

Tourism is Greater Fort Lauderdale's second-largest industry, driven by its beaches, golf courses, arts, shopping, and fine dining. In April 2025, MAASS at the Four Seasons earned the City's first MICHELIN Star, marking a milestone in its global culinary recognition.

Every year, the City welcomes approximately 19.4 million visitors, who strengthen the economy by spending approximately $6.7 billion per year. The hospitality industry has stepped up to the plate, with world-class restaurants that specialize in Florida regional seafood along with approximately 600 regional lodging establishments.

TRANSPORTATION

The City of Fort Lauderdale offers an extensive transportation network that includes Port Everglades, Fort Lauderdale/Hollywood International Airport (FLL), Fort Lauderdale Executive Airport (FXE), three major railways, highways, convenient ridesharing and carpool options, a mass transit system, water taxis, and community shuttles.

PORT EVERGLADES

Port Everglades is Florida's number one temperature-controlled cargo port, and one of the world's busiest seaports, generating approximately $28 billion worth of economic activity. Port Everglades services more than 150 ports in 70 countries around the world.

Port Everglades processes more than 4.4 million cruise passengers and is the homeport for Disney Cruise Line and the new Celebrity Ascent. Port Everglades generates big economic advantages that flow right into the community, making it an economic powerhouse. Annually, the Port supports over 204,000 jobs statewide. The recently completed Port Everglades 2024 Master/Vision Plan outlines a $3 billion, 20-year expansion strategy designed to prepare the port for future growth in container traffic and maintain its competitive position in the global marketplace.

FORT LAUDERDALE/HOLLYWOOD INTERNATIONAL AIRPORT

The Fort Lauderdale/Hollywood International Airport (FLL) is one of the fastest growing passenger and cargo hubs in the country and is centrally located between Fort Lauderdale and Dania Beach in the heart of Florida's Gold Coast. According to The Greater Fort Lauderdale Alliance, FLL has an annual economic impact of around $37.5 billion.

In 2024, FLL served 35.2 million passengers and ranked 20th for domestic travel, 19th in overall U.S. passenger traffic, and 13th for international traffic, offering nonstop flights to 97 U.S. cities and 55 international destinations across 25 countries.

Source: Greater Fort Lauderdale Alliance 2026 Economic Sourcebook

FORT LAUDERDALE EXECUTIVE AIRPORT

The Fort Lauderdale Executive Airport (FXE) is home to one of the top five busiest general aviation airports in the nation, providing more than 180,000 take-offs and landings each year. FXE boasts a state-of-the-art, 24-hour Federal Aviation Administration (FAA) Air Traffic Control Tower, a U.S. Customs and border Protection facility, and 24-hour airport security. FXE is owned and operated by the City of Fort Lauderdale. A recent Florida Department of Transportation (FDOT) Economic Impact Study identified FXE as an economic engine with job creation at over 22,900 jobs, payroll at $1.2 billion, and an overall economic impact of $3.9 billion.

The Airport serves as the hub to Fort Lauderdale's Foreign Trade Zone 241, which encourages initiatives to promote development of the industrial airpark, serves businesses engaged in international commerce in the Greater Fort Lauderdale area, and maximizes the City's business retention and attraction of emerging industries. The Foreign-Trade Zone allows facilities to defer, reduce, or eliminate customs duties on foreign products.

DOWNTOWN HELISTOP

The Downtown Fort Lauderdale John Fuhrer Helistop, owned and operated by the City of Fort Lauderdale, is designed to service the community's general aviation and helicopter needs. Situated above the Riverwalk Center Parking Garage, in the heart of Fort Lauderdale's dynamic downtown, the John Fuhrer Helistop operates 24 hours a day, seven days a week, has a maximum landing weight of 11,900 pounds, 46-foot rotor diameter, and is wheelchair accessible by elevator from the lobby level.

The Helistop features a landing area and one helicopter parking position on a 14,500 square-foot elevated platform. A fully furnished lobby with a meeting room provides travelers with a comfortable area to converse and conduct business, along with access to parking and convenient ground transportation. The Helistop is an outstanding example of the City's progressive approach to downtown revitalization and commitment to providing neighbors with efficient transportation options.

BRIGHTLINE

Brightline is the only privately funded express passenger rail system in the country, and Florida's only high-speed passenger rail service crossing more than 235 miles. Brightline connects downtown Fort Lauderdale with neighboring cities such as Miami and West Palm Beach, and as far north as Orlando. Brightline is contributing to an influx of visitors to nearby emerging neighborhoods such as FAT (Fashion, Art, Technology) Village and the MASS (Music, Arts South of Sunset) District, featuring galleries, boutiques, cafes, nightlife, outdoor art, and the downtown Riverwalk Arts and Entertainment District.

TRI-RAIL

The Tri-Rail is the region's primary commuter rail service, connecting the City of Fort Lauderdale with 18 other local municipalities within Broward, Palm-Beach, and Miami-Dade Counties, across 80 miles of rail. In operation since 1989, Tri-Rail provides 76 weekday trains and services approximately 4.6 million riders annually.

SURFACE TRANSPORTATION

An overarching goal of the City is to create a multi-modal, connected community where neighbors and visitors can walk, bike, and use transit or other alternatives to single-occupancy vehicles to get to their many destinations. The growing list of transportation options in Fort Lauderdale includes micromobility and microtransit services, Broward BCycle bike-share, Broward County Transit bus service, LauderGO! Community Shuttle, the Water Taxi, and the Riverwalk Water Trolley.

COMPREHENSIVE HEALTH CARE

A comprehensive network of public and private hospitals serves Fort Lauderdale. These hospitals are nationally recognized leaders in cardiovascular medicine, pediatrics, sports medicine, and rehabilitation.

Greater Fort Lauderdale also offers wellness programs, nursing homes, hospices, and mental health facilities. The City of Fort Lauderdale is home to six (6) major healthcare providers including: Broward Health Imperial Point, Broward Health Medical Center, Holy Cross Hospital, Kindred Hospital South Florida, Florida Medical Center, and the Salah Foundation Children's Hospital at Broward Health.

EDUCATION

The Broward County Public School District is the sixth largest fully accredited school district in the country. The school district serves nearly 248,000 students in pre-kindergarten through grade twelve (12). The Broward County Public Schools District is the largest public sector employer in Broward County and offers dynamic programs that redefine the scope of education including magnet, international baccalaureate, and dual enrollment programs.

Fort Lauderdale offers outstanding opportunities for higher education. Accredited school campuses in Broward County include Broward College, Florida Atlantic University, Keiser University, and Nova Southeastern University.

QUALITY OF LIFE

From the beaches and exotic Everglades to the winding waterways and chic ease of Las Olas, Fort Lauderdale is a city comfortable with its reputation as a paradise. The average daily temperature of 76°F year-round provides an inviting backdrop for year-round tourism, outdoor activities, and a high-quality of life.

Outdoor activities are endless with golf courses, parks, playgrounds, miles of coral reefs, and plenty of sunshine. Boating, scuba diving, snorkeling, fishing, and recreational activities are enjoyed by neighbors, tourists, and business travelers.

The area boasts professional sports teams in football, baseball, basketball, hockey, and soccer. World-class swimming and diving events are hosted at the Fort Lauderdale Aquatic Center. The Aquatic Center is the home of the tallest diving towers in the western hemisphere. Towering at 27 meters, it is the first tower in the world to incorporate diving and high diving for competition in one precast concrete structure.

CHASE STADIUM

The Chase Stadium, formerly known as Drive Pink Stadium, is a 21,500 capacity, 50,000-square foot training center and the current home for David Beckham's Major League Soccer Team, Inter Miami CF. Chase Stadium was built as a public-private partnership between Inter Miami CF and the City of Fort Lauderdale, with the City maintaining property ownership. The stadium is also the home of Inter Miami CF's youth academy, a hub for cultivating soccer talent.

RIVERWALK DISTRICT

The Riverwalk District is a 1.5-mile linear park along downtown Fort Lauderdale's New River with brick walkways, lush greenery, and pedestrian amenities. It is primarily maintained by Riverwalk Fort Lauderdale, a nonprofit organization, in partnership with the City, County, and various business associations. Within the district, Huizenga Park is undergoing a comprehensive redesign through a partnership between the City and the Downtown Development Authority (DDA). Construction is underway, with reopening expected at the end of 2025. The redesigned park will offer a lively gathering space for neighbors and visitors, linking the waterfront with arts, culture, and the urban environment.

MUSEUM OF DISCOVERY AND SCIENCE

Since 1977, the Museum of Discovery and Science has provided residents and visitors alike with a state-of-the-art museum of arts, science, and history. Located in Fort Lauderdale's Arts and Entertainment District, the museum connects people to inspiring science, providing STEM education and cultural experiences for more than 450,000 visitors annually in the 150,000 square foot facility.

BROWARD CENTER FOR THE PERFORMING ARTS

The Broward Center for the Performing Arts is one of the nation's most visited theaters drawing over 700,000 patrons and over 700 performances annually. It is home to the Florida Grand Opera, Miami City Ballet, Symphony of the Americas, and the Gold Coast Jazz Society. The Center also hosts the largest educational arts program of its kind, reaching over 150,000 students annually.

NSU ART MUSEUM FORT LAUDERDALE

NSU Art Museum is a premier destination in the City of Fort Lauderdale for visual arts. The NSU Art Museum is the permanent home to more than 7,500 works of art including avant-garde European Cobra artists, multi-cultural artists, and collections from the 19th and early 20th Century. The NSU Art Museum contains 25,000 square feet of exhibition space, a 256-seat auditorium, a museum store, and a café.

GROWTH AND DEVELOPMENT

The City of Fort Lauderdale has intertwining master plans to help protect neighborhoods by ensuring that new developments adhere to well-balanced guidelines. The Downtown Master Plan protects residential neighborhoods by directing large-scale, high-rise, and high-density developments to the downtown core, concentrating the most intensive, commercially orientated growth in the mixed-use urban center. At the same time, the City encourages redevelopment that that protects history and builds on the unique characteristics and distinct identities of its neighborhoods.

PROPERTY VALUES

The City of Fort Lauderdale experienced an increase of 8.5% in property values between 2024 and 2025. During the same period, Broward County's property tax base, which includes all municipalities, grew 8.2%. According to the Broward County Property Appraiser, the estimated assessed value of taxable property in the City of Fort Lauderdale as of July 1, 2025, is approximately $63.5 billion.

FORT LAUDERDALE COMMUNITY REDEVELOPMENT AGENCY

The Community Redevelopment Agency (CRA) invests in projects that improve people's lives, create job opportunities, support sustainability, and expand affordable housing. It also works to increase tax revenue for reinvestment in the district. The CRA leads redevelopment by funding infrastructure improvements, supporting private property development, and offering business assistance and incentives to revitalize blighted commercial and residential properties.

FIRE RESCUE BOND

To enhance the safety and well-being of residents, businesses, and visitors, the City of Fort Lauderdale is investing $40 million through its Fire Rescue Bond Program to build, renovate, and upgrade ten (10) strategically located Fire Rescue stations. These modernized facilities—designed to handle over 54,000 emergency calls annually—are a top priority for the City. Each station will feature hurricane-resistant construction, expanded operational space, enhanced security, and dedicated areas for medical examinations and community engagement. Construction of Fire Station thirteen (13), the final project funded by the bond, is slated to conclude in Fiscal Year 2028.

INFRASTRUCTURE BONDS

Fort Lauderdale's strong credit ratings help reduce borrowing costs, saving taxpayers millions of dollars in interest as the City continues to invest in critical water, sewer, and stormwater infrastructure. In January 2018, the City Commission approved $200 million in funding for Citywide water and sewer improvements. This was followed by a $210 million bond approved in June 2023 to upgrade the stormwater utility system. In September 2023, the Commission authorized an additional $550 million to finance the construction of the new Prospect Lake Water Treatment Plant along with the enabling works infrastructure to integrate the plant with the existing framework. In FY 2026, the City plans to issue $105.5 million in Special Obligation Bonds to pay for a portion of the police headquarters as well as to finance additional infrastructure projects, including improvements to streets, sidewalks, bridges, and seawalls.

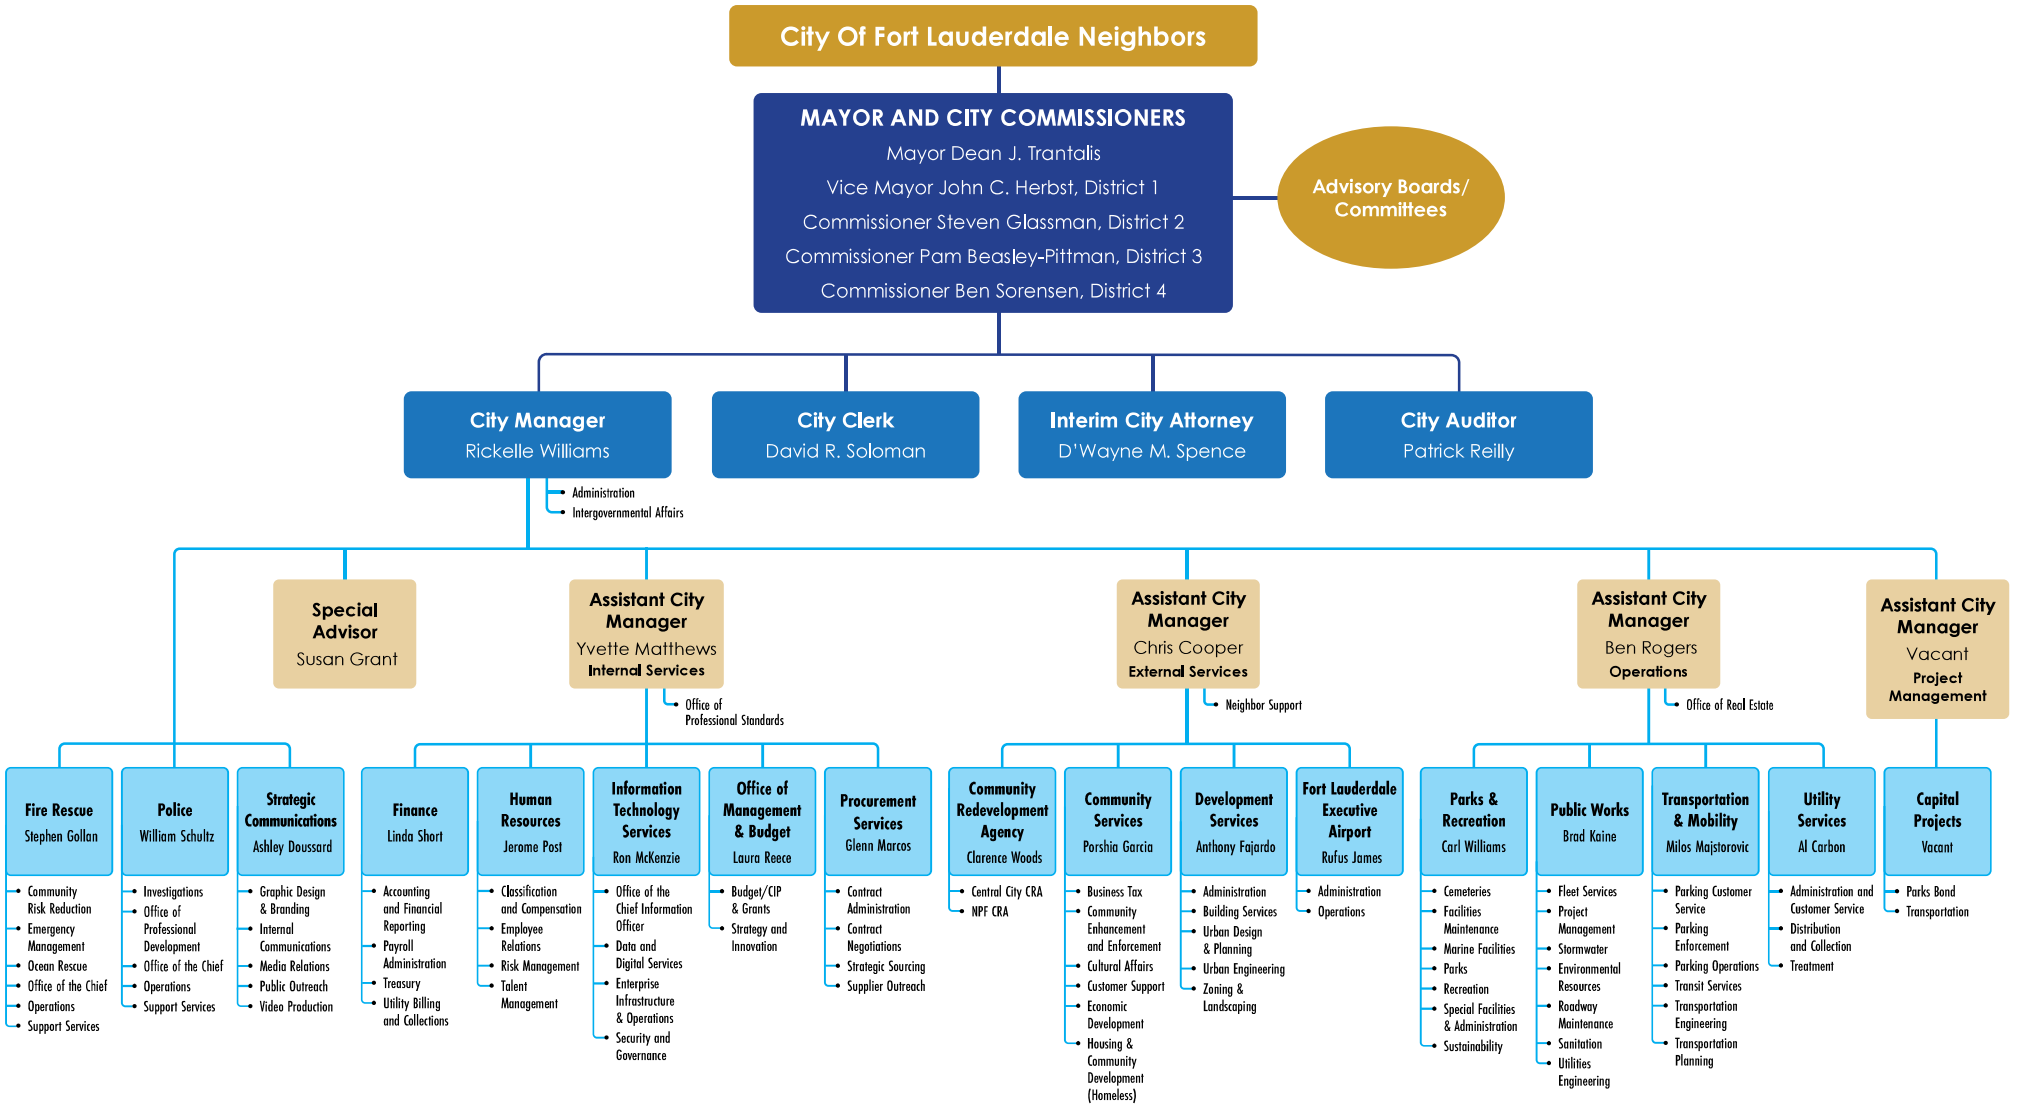

PUBLIC SAFETY BOND

In March 2019, 63% of voters approved a public safety bond that allocated up to $100 million to construct a new police headquarters while maintaining, and enhancing, the outstanding level of service provided by the Fort Lauderdale Police Department. The new facility, which is expected to open in by Spring 2026, will offer a 191,000 square foot multi-level structure that includes a community center, expanded workspace, and integrated state-of-the-art technology.

PARKS BOND

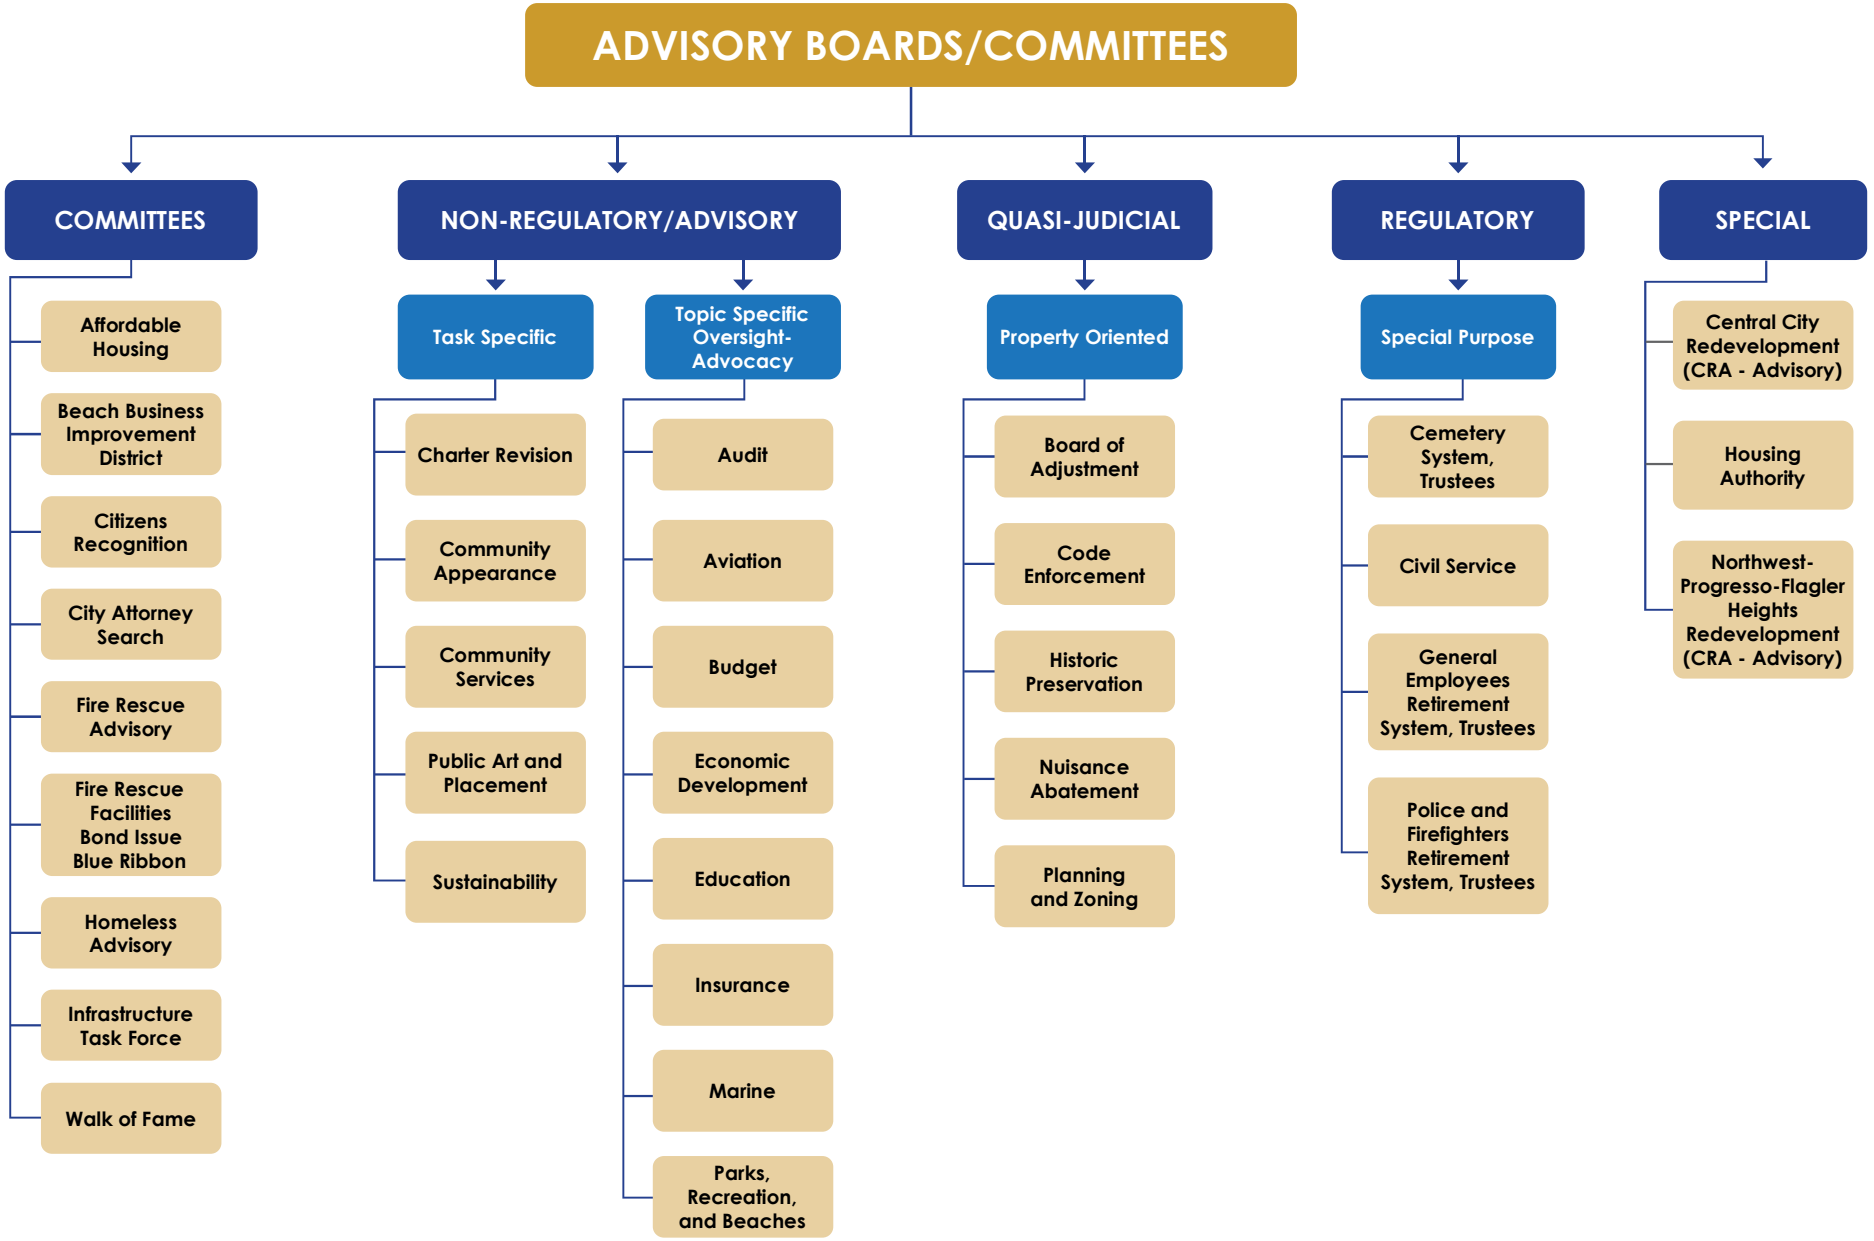

In March 2019, 60% of voters approved a parks bond to spend up to $200 million on improving parks and recreation facilities Citywide. This bond will help Fort Lauderdale invest in parks to make them more resilient to climate change, sea-level rise, and flooding. Many parks in the City will receive upgrades like new playgrounds, walking trails, pools, boat facilities, outdoor fitness equipment, sports courts and fields, lighting, solar panels, pavilions, restrooms, and other improvements to make the parks more accessible. Project updates are available online at: https://www.ftlparksprojects.com/

Alignment of the Strategic Plan and Budget

As much as big ideas are the inspiration of the City's Vision Plan, *Fast Forward Fort Lauderdale 2035,* action is essential. The City of Fort Lauderdale continues to make great strides implementing an innovative, results-focused government culture. The City uses a robust Quality Management System to connect planning, budgeting, service provision, performance measurement, and continual improvement.

Press Play Fort Lauderdale 2029, the City's new five-year strategic plan, connects the dots between the community's long-term vision and its day- to-day operations. It is the main vehicle for accomplishing the vision set forth in *Fast Forward Fort Lauderdale 2035* and is organized into five (5) Focus Areas: Public Safety, Housing, Infrastructure and Resilience, Public Places, and Business Growth and Support. Each Focus Area contains goals which outline what the City aims to accomplish as well as performance measures to objectively define the City's progress and success. Additionally, the Strategic Plan profiles five (5) Guiding Principles which serve as a foundation for how the City must consider its operations and processes as it implements the Strategic Plan.

In executing *Press Play Fort Lauderdale 2029*, the City Commission develops its priorities which are one-year work plans with initiatives and actions that align with the City's Vision and Strategic Plans and address the Community Survey. Commission Priorities are a product of collaboration and prioritization by the City Commission, the City Manager's Office, and Department Directors. These priorities highlight initiatives of significant importance to the City Commission for the upcoming year, ensuring that the organization is agile and prompt in its response to an ever-changing environment.

The Annual Operating Budget is the City's fiscal roadmap to prioritizing resources. Funding is allocated in alignment with the Vision Plan, Strategic Plan, and Commission Priorities. While it may not be possible to fund all priorities in the upcoming fiscal year, strategic investments can be made for the City's future. Leveraging the resources of community partners and seizing grant opportunities assists the City in stretching its dollars to maximize results. The budget process also integrates department business plans which identify strategic initiatives and performance targets, guiding decision makers to allocate resources for specific service level results.

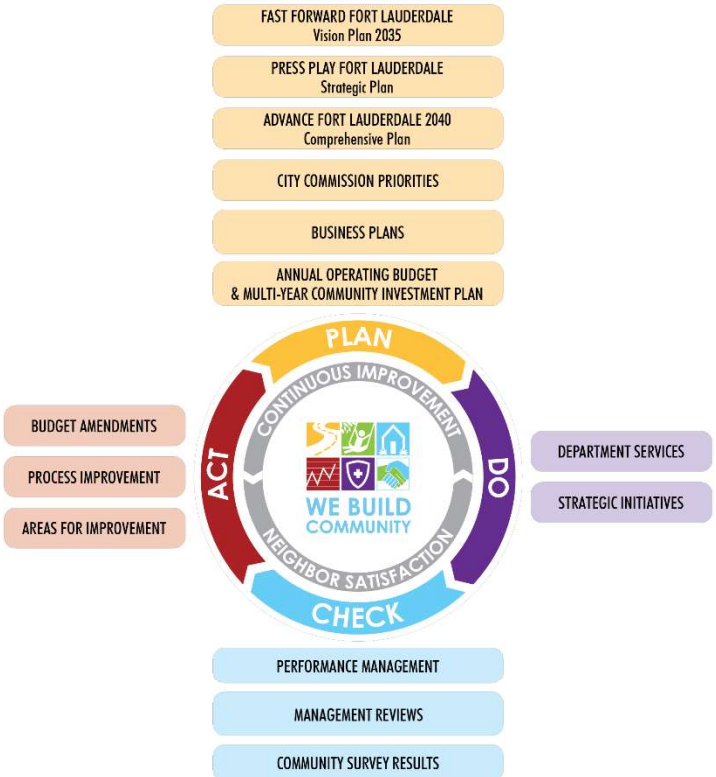

In addition to the operating budget, the City develops and monitors a five-year Community Investment Plan (CIP), which includes a plan for ongoing and future projects based on expected

Alignment of the Strategic Plan and Budget

revenues, bond issuances, and other financing mechanisms. Projects are carefully assessed and prioritized by objective criteria established by the City Commission to ensure the most pressing needs of the community are addressed and support *Fast Forward Fort Lauderdale 2035, Press Play Fort Lauderdale 2029,* and the annual City Commission Priorities.

To implement plans and ensure that the City is consistently providing value and quality services for its neighbors, the City utilizes a Quality Management System, to review, measure, analyze, and improve results. A connected system of scorecards links the initiatives and performance measures defined in the Vision Plan, Strategic Plan, Commission Priorities, department business plans, and budget. These results are examined through regular reviews and if challenges are identified, they are defined as areas for improvement and monitored until resolution is achieved. Data analytics and process improvement tools are used to identify the root cause of these areas for improvement and implement solutions. The City's process improvement approach is focused on Lean, a methodology centered on creating value for neighbors through waste reduction and continual improvement to increase the quality and satisfaction of services. Performance data pertaining to the core services of City Departments, including the Community Investment Plan and grants, is monitored and addressed through regular meetings to ensure progress is occurring as planned.

The Community Survey, inclusive of both the Neighbor and Business Surveys, provides information about neighbors' perceptions ranging from City service delivery to quality of life. Benchmarking with other cities and national trends provides context to survey results and City performance. Feedback is also gathered throughout the year through direct staff interactions with neighbors. This information alerts the City where to focus attention and resources, while also validating targeted improvements.

Alignment of the Strategic Plan and Budget

Throughout the Adopted Budget, the reader will find references to the Strategic Plan. Departments allocate resources through the annual budget to accelerate the achievement and realization of the strategic goals as indicated in the table below. Additional information on how each department utilizes resources to implement the Strategic Plan can be found in the Department Budget Section.

BUDGET IN BRIEF

CITY OF FORT LAUDERDALE

All-America City

October 1, 2025

Honorable Mayor and Members of the City Commission:

The Fiscal Year (FY) 2026 Adopted Budget reflects a bold and resilient vision for the City of Fort Lauderdale – one that weighs the needs of today with a deliberate focus on preparing for the unpredictability of tomorrow. The City of Fort Lauderdale has been very fortunate to see continued growth in our taxable values, but we can never rest on our laurels or take it for granted. During the development of this budget, I met with each department – and some departments multiple times – to emphasize the importance of balancing sustainable innovation with fiscal discipline. Departments were challenged to identify creative ways to generate new revenue streams and to reevaluate current operations – not just for immediate relief, but as part of a long-term strategy to strengthen the City's financial position.

HIGHLIGHTS

8.50%
Increase in Taxable Property Value

$5.0 Billion
Increase in Taxable Property Value

$1.1 Billion
Increase Attributed to New Construction

4.1193
Millage Rate for 19 Consecutive Years

This Adopted Budget places an emphasis on accelerating essential capital investments in our community. Even before joining the City, I recognized the need for advancing planned capital projects, as well as bolstering technical resources, with a focus of delivering the infrastructure our neighbors deserve. This budget focuses on filling gaps to ensure that many long-delayed, critical capital improvement projects are progressing in the right direction.

In addition, this budget invests heavily in the City's public safety - this includes personnel, infrastructure, and equipment enhancements. Our first responders will continue to be supported with the tools and facilities needed to serve the community effectively and respond efficiently. Overall, this budget reflects a careful balance of fiscal responsibility, strategic investment, and innovation. It provides resources to maintain the high-quality level of services our neighbors expect today, while thoughtfully preparing for the many needs of tomorrow.

I would like to thank everyone who assisted in the development of this year's adopted budget, including the Mayor, Vice Mayor, City Commissioners, Budget Advisory Board, Executive Team, Department Directors and Budget Coordinators. I am especially grateful for the leadership and technical expertise provided by staff in the Office of Management and Budget throughout the entire process. Finally, I would like to thank our amazing City staff for their efforts in support of a comprehensive and transparent budget process, and for their outstanding service to our community every day.

In accordance with the City of Fort Lauderdale Charter, the Code of Ordinances, and the laws of the State of Florida, it is my pleasure to present the City of Fort Lauderdale's Adopted Budget for Fiscal Year (FY) 2026 beginning October 1, 2025. A copy of the Adopted Budget is available for inspection in the City Clerk's Office. Additionally, a user-friendly electronic copy of the Adopted Budget can be found on the City's website at www.fortlauderdale.gov/budget.

Budget Overview

The FY 2026 total Adopted Operating Budget for all funds is $1,194,366,687 including balances and transfers. This is approximately $1.1 million more than the FY 2025 Adopted Budget of $1,193,279,369 or a 0.1% increase.

The Broward County Property Appraiser's July 1, 2025 estimate of the City's taxable property value indicated an increase of 8.5% from $58.5 billion to $63.5 billion. Of the $5.0 billion increase, $1.1 billion is associated with new construction. This growth in taxable value at the current millage rate is projected to generate $17.9 million in additional revenue above the FY 2025 budget, helping to offset many of the City's rising expenses.

The City's Fire Assessment Fee was reviewed and adjusted to full cost recovery as a part of the FY 2026 budget development process. The City's Fire Assessment Fee provides a valuable funding mechanism for personnel and equipment costs associated with the City's fire services. This year, the City is making significant investments in public safety, including a $7.1 million appropriation through the Community Investment Plan (CIP) to complete construction of the new Downtown Emergency Medical Services (EMS) Substation #88 and the Heron Garage Substation – both full-service stations are strategically located to improve response times in high-demand areas of the City's downtown corridors.

In addition, $3.7 million in CIP funds are being appropriated to finish construction of Fire Station 13, which will mark the completion of the City's Fire Rescue Bond projects. The upgraded station will provide the City's first responders with a resilient, modern facility, equipped with the latest technology and resources, to better serve the community.

Fire Assessment Fee Adjusted to Full Cost Recovery

$10.2 Million
in additional revenue generated in FY 2026

-

$10.8 Million
FY 2026 capital investment in fire stations

These investments – along with an updated fire assessment study that aligns required staffing levels with the Effective Response Force (ERF) standards set by the National Fire Protection Association – underscore the need to increase the fire assessment fee from $328 to $403 per residential dwelling unit. This change will generate $10.2 million in additional General Fund revenue, which will help expand critical emergency services infrastructure and address growing service demands.

Due to the continued growth in taxable value, I am pleased to present a structurally balanced budget that will enable the City of Fort Lauderdale to maintain our current millage rate of 4.1193 for the nineteenth (19th) consecutive year. The City of Fort Lauderdale is the only city in Broward County that has been able to maintain the same millage rate over this period, resulting in significant savings for residents and businesses. Note that the average millage rate increase for all Broward County municipalities over this same period is 37.6%.

The FY 2026 Adopted General Fund Operating Budget, including transfers, is $520,425,269. The General Fund budget represents a $32.5 million or 6.7% increase from the FY 2025 Adopted Budget of $487,889,378. The FY 2026 Adopted Budget allows the City to fund its General Fund commitments including wages, insurance, and investments in infrastructure. The Adopted Budget invests in the City's priorities and lays the foundation for a financially sustainable future.

Strategic Reorganization of City Departments

With the release of the Adopted Budget, I am formally launching the first phase of a comprehensive and strategic reorganization of the City's departments and leadership functions. These forward-looking efforts – outlined below – are designed to improve accountability, enhance operational efficiency, and better align the organization with current and emerging City priorities.

At the core of this restructuring is a transformative reimagining of how the City delivers large-scale capital investments. Capital projects have languished in recent years, and the City needs to fundamentally change how it advances large-scale initiatives. To address this, as a first step, the Adopted Budget establishes the creation of a new Capital Projects Department to focus on the engineering, design, and construction of major infrastructure projects within the City, including Parks Bond and Transportation-related projects. The budget also establishes a new Procurement Services Department to strengthen internal checks and balances and provides a higher level of leadership to ensure our procurement team is providing targeted strategies for large construction projects.

New City Departments

Capital Projects
-
Community Services
-
Fort Lauderdale Executive Airport
-
Procurement Services
-
Strategic Communications
-
Utility Services

Another key element of the reorganization is the bifurcation of departmental responsibilities to reduce oversized spans of control and increase accountability. As part of this effort, the Adopted Budget creates a new Community Services Department (CSD), separating the services from the larger Development Services Department (DSD). CSD will oversee vital services such as economic development, cultural affairs, code compliance, housing and community development (HCD) including homeless services, and the City's customer support center. Importantly, this change will centralize the City's non-public safety homelessness initiatives under one department, creating synergy with the HCD team responsible for managing related state and federal housing grant programs. DSD will maintain the building services, urban design and planning, urban engineering and zoning and landscape functions.

The FY 2026 Adopted Budget also establishes a standalone Utility Services Department, separating it from the Public Works Department to allow greater focus on the City's essential water, wastewater, and treatment plant operations. In addition, the Public Works Department will assume full responsibility for all sanitation-related services to improve operational efficiency. In partial exchange – the Parks and Recreation Department will assume responsibility for the Sustainability Division, previously housed within the Public Works Department. These realignments position these departments to improve operational efficiencies and oversight of critical public services.

Lastly, the Adopted Budget elevates two (2) existing divisions currently housed under the City Manager's Office to full departmental status: the Fort Lauderdale Executive Airport (FXE) and the Office of Strategic Communications. Recognizing the Fort Lauderdale Executive Airport as a major economic asset, this change will give the team the independent organizational structure needed to continue managing complex operations and contributing meaningfully to the City's economic development. Similarly, by creating an Office of Strategic Communication, the City is investing in the ability to deliver clear, cohesive, and effective messaging across all City departments – which will allow for greater operational focus, improved resource management, and stronger alignment with the City's strategic goals and community needs.

Neighbor Survey Results

Twice each year, the City conducts a Neighbor Survey to identify priorities and assess community needs. The results help inform budgetary decisions by identifying where service level enhancements are most needed. Key highlights from the latest survey include:

Parks: City parks remain one of Fort Lauderdale's most highly rated services. In the recent survey, 64% of respondents rated the quality of City parks positively, which is notably above national averages and a 10% increase from last year's survey. To build on this success, this budget includes funding to:

- Advance Parks Bond projects, which involve implementing additional walking trails, playgrounds, and recreational areas;
- Advance the LauderTrail Project with additional capital funding.

Infrastructure: Resident sentiments on the City's infrastructure improved notably over the last survey. Positive responses for street, sidewalk, and infrastructure maintenance increased from 30% to 42% while responses for stormwater resiliency efforts rose from 12% to 25%. To build on this success, this budget includes funding to:

- Advance the Fortify Lauderdale program and improve flood resilience;
- Appropriate additional CIP funding for street and sidewalk replacements, along with additional funding for asphalt repair following utility rehabilitation work;
- Open and staff the Prospect Lake Clean Water Center in FY 2026.

Homelessness: Residents are beginning to recognize the City's ongoing efforts to address homelessness, with positive responses increasing from 10% to 21%. But there is still more progress to be made. To that end, this budget includes funding to:

- Continue the mental health and substance abuse treatment program with two (2) housing service providers;
- Pilot a new Safe Parking Program, offering individuals living in vehicles a safe place to sleep, along with resources, case management, and pathways to stable housing;
- Continue the Community Court Program, which connects participants to social services, treatment providers, and community service opportunities.

Public Safety: Residents reported a notable increase in feelings of overall safety, with positive responses increasing from 29% to 44%. To continue this progress, this budget funds:

- Additional closed-circuit television cameras (CCTV) to support crime prevention efforts in high-traffic areas such as Himmarshee, Las Olas, and Sistrunk Boulevards;
- An expansion of the City's License Plate Readers (LPR) program, allowing officers to focus more on proactive policing;
- Complete construction of new public safety facilities in the downtown corridor and throughout the City.

Reviewing the Neighbor Survey is an important step in the ongoing planning and budgeting cycles to ensure that the budget reflects community priorities. Although issues often require significant time and resources to address, survey results guide policy and management decisions to target investments and improve service delivery for our community.

Budget Development Process

The City's Adopted Budget is the product of a strategic budgeting process involving numerous individuals and working groups collaborating to create a cohesive plan that achieves the City's long-term goals and objectives for the next fiscal year. Neighbor and community leader engagement was integral to identifying opportunities and solutions to community challenges. Public engagement occurred through various efforts including the Neighbor Survey, Budget Advisory Board meetings, Revenue Estimating Conference Committee meetings, and the City Commission Prioritization Workshop.

The collaborative effort of these diverse community stakeholders, along with the professional expertise of our staff, ensures the Adopted Budget efficiently addresses the most pressing challenges faced by our community and continues to recognize the core mission of municipal government.

To promote long-term financial stability, the City of Fort Lauderdale conducts a comprehensive financial sustainability analysis for each major fund annually during the budget development process. This analysis enables staff to evaluate current revenues and expenditures while projecting future financial conditions. Through this process, the City ensures that it is able to meet all ongoing obligations, such as operating expenses, capital investments, debt service, and minimum reserve targets over the ten-year horizon. This detailed forecast was presented at a City Commission Workshop with the Budget Advisory Board on June 17, 2025.

How the Adopted Budget Implements the City Commission Priorities

As part of our commitment to an open and transparent government, the City Commission identifies the City's priorities for the next year in a facilitated public workshop. The FY 2026 Commission Priorities, which were developed in January 2025, include the following:

- Public Safety
- Homelessness Response
- Infrastructure and Resilience
- Public Enjoyment of Waterways
- Public Spaces and Cultural Initiatives
- Bolstering Thriving Communities

The adopted budget makes fundamental investments that will improve the quality of life for neighbors today and prepare the City for tomorrow's challenges. Our team has thoughtfully considered ways to align resources towards addressing these priorities to provide the best services for our neighbors while maintaining the current millage rate.

The table on the following page highlights how funding in the FY 2026 Adopted Budget will advance the City Commission's priorities. A full listing of the alignment between the City Commission's priorities and the FY 2026 Adopted Budget is available in the Budget Overview Section of the FY 2026 Adopted Budget.

PRIORITY	FUNDED ITEMS (★ Newly funded initiatives)
Public Safety	★The Community Investment Plan (CIP) includes $7.1 million for two (2) new full-service emergency medical service (EMS) substations – the Heron Garage Substation will serve the Las Olas corridor, and the Downtown Substation #88 will serve the South Federal Highway corridor.
	★The CIP includes $3.7 million to enhance the existing $12.8 million in unspent project balance for Fire Station 13. This station is the final project for the Fire Rescue Construction Bond.
	★The Police Department budget includes approximately $427,000 for the operation and maintenance of the new state-of-the art 191,000-square-foot police headquarters.
	★The Police Department budget includes approximately $1.6 million for closed-circuit television (CCTV) cameras and vehicle stop barriers to improve public safety and crime prevention for special events.
	★An additional Forensic Specialist is funded in the Police Department in the amount of approximately $162,000 to enhance DNA review and processing capabilities.
	★The Police Department budget includes $128,000 to expand training opportunities that enhance crisis intervention tactics and promote community engagement.
Homelessness Response	The Community Services Department budget includes $330,000 for a Shelter Bed Access Program, which provides temporary shelter for neighbors experiencing homelessness for a period of up to 60 days.
	★Funding in the amount of $250,000 is included for the continuation of a mental health and substance abuse treatment program with two (2) condition specific housing service providers.
	The Community Services Department budget includes approximately $315,000 to continue the Housing Navigation Program in partnership with the Taskforce Fore Ending Homelessness.
	★Funding in the amount of $200,000 is included to pilot a new Safe Parking Program which will provide individuals living in their vehicles with a safe place to park and sleep overnight as well as resources, case management, and pathways to stable housing.
	★The Community Services Department budget includes $116,000 for the new long-term lease of the Community Court Program site, which accommodates approximately 100 participants weekly.
	The Community Services Department budget includes approximately $214,000 for the continuation of the Community Court Program, which includes one (1) position, to help individuals receive services tailored to their needs and link participants to restitution projects and onsite social services and treatment providers.

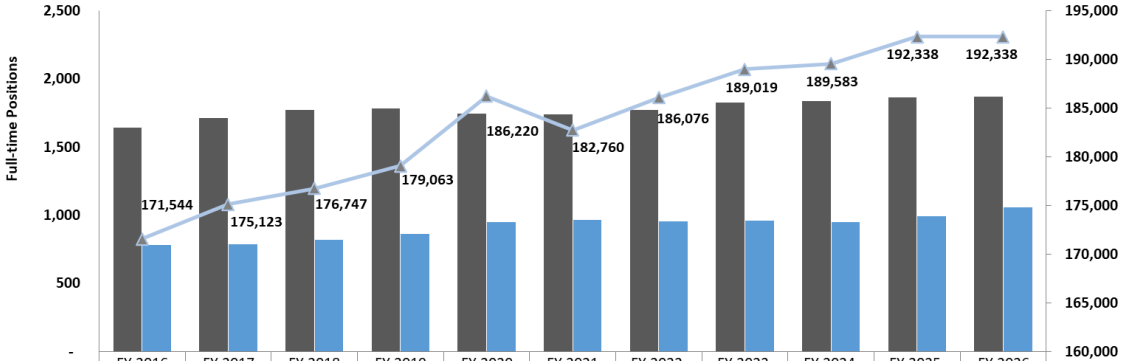

PRIORITY	FUNDED ITEMS (★ Newly funded initiatives)
Infrastructure and Resilience	**Transportation Initiatives**
	The CIP includes $4.7 million for the repair and maintenance of asphalt, roadways, and sidewalks, in addition to $1.0 million, designated surtax funding, to expand sidewalk access within the City.
	The Transportation and Mobility Department budget includes $2.1 million in ongoing funding for the City's Microtransit Program, funded in part through the Transportation Surtax Program.
	★The Transportation and Mobility Department budget includes an enhancement of $200,000 for additional traffic calming improvements, expanding the City's existing $325,000 Traffic Calming Program.
	Stormwater Initiatives
	The Fortify Lauderdale Program continues toward completion of the first tranche of Stormwater improvements in the original eight (8) neighborhoods. There is a planned issuance of a Stormwater Bond to begin Phase 2 planned for FY 2026.
	The CIP includes $1.5 million in funding for the restoration and replacement of City-owned seawalls.
	★The CIP includes $100,000 for the installation of solar panels. This program will create renewable energy systems that empower the City to lower utility costs and reduce greenhouse gas emissions.
	Water and Sewer Initiatives
	The CIP Water and Sewer – General Capital Projects include $29.5 million in new cash funded capital projects in addition to approximately $85.3 million in unspent project balances. The Central Region Wastewater budget includes $23.6 million in new cash funded capital projects prioritized based upon a renewal and replacement study in addition to approximately $69.4 million in unspent project balances.
	The CIP includes $228.1 million in unspent project balance for the new Prospect Lake Water Treatment Plant which includes enabling works.
	★The Utility Services Department budget includes funding in the amount of $2.9 million as a part of the City's financial obligation for the new Prospect Lake Clean Water Center. This funding will support 18 additional positions required to run the new facility, as well as operations and maintenance related expenses.

PRIORITY	FUNDED ITEMS (★Newly funded initiatives)
Public Enjoyment of Waterways	The Parks and Recreation Department budget includes $2.2 million for a new Marine Facilities Fund, which ensures neighbors have access to clean, well-maintained public boat ramps and marinas.
	The Police Department budget includes $2.1 million for personnel and operational expenses of the Marine Unit, which is staffed by eight (8) dedicated officers responsible for patrolling local waterways and enforcing marine laws and regulations.
	★The Utility Services Department budget includes $122,000 to expand waterway sampling to five (5) additional testing sites and incorporate molecular source tracking to identify the potential urban sources of certain bacteria.
Public Spaces and Cultural Initiatives	The City continues progress toward the $200 million voter-approved Parks Bond, which includes advancing improvements on over 80 parks.
	★The Parks and Recreation Department budget includes $112,000 to enhance median beautification and resilience efforts through smart irrigation controllers.
	★Funding in the amount of approximately $411,500 is included in the Community Services Department budget to enhance the City's Cultural Affairs Program aimed at supporting economic development, promoting neighborhood beautification, and strengthening community engagement through the following initiatives: • $185,000 for permanent and temporary art installations, permitting, and advertising • $125,000 to sponsor programming, art activations, and art events • $101,500 for a staff member to assist with the logistical tasks associated with the implementation of cultural programming, public art initiatives, and arts-related policy development
	★Funding in the amount of $216,000 is allocated to build-out the space donated for an Airport Workforce Training Program. The program will equip students with the skills to support the aviation industry within the City.
	★The Community Services Department budget includes $150,000 for a Municipal Services Affordability (MSA) Program to assist financially burdened households with paying for their water, sewer, and sanitation services. This program aims to maintain uninterrupted access to essential services for low-income households, enhancing housing stability, safety, and overall quality of life.

FY 2026 Adopted Budget Snapshot

The total General Fund personnel complement for FY 2026 is adopted at 1,872 full-time employees, which does not include part-time and seasonal (temporary) employees. Seasonal positions supplement staffing for temporary periods such as summer camps or special events but are not included in these numbers.

The Number of Full-time Employees and City Population

	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026
General Fund Employees	1,647	1,715	1,774	1,786	1,747	1,745	1,773	1,827	1,842	1,866	1,872

Infrastructure and Community Investment Plan

In the FY 2026 – 2030 Adopted Community Investment Plan (CIP), staff has strategically outlined a roadmap that includes critical capital initiatives the City needs to undertake over the next five years. The City's assets are carefully managed and maintained to ensure that Fort Lauderdale remains the City you never want to leave. The FY 2026 CIP includes $21.4 million from the General Fund, $2.1 million from Transportation Surtax funds, $700,000 from Community Development Block Grant funds, and the reallocation of $9.9 million from existing projects to address the most pressing general infrastructure needs of our community. Key highlights of the Community Investment Plan are listed below:

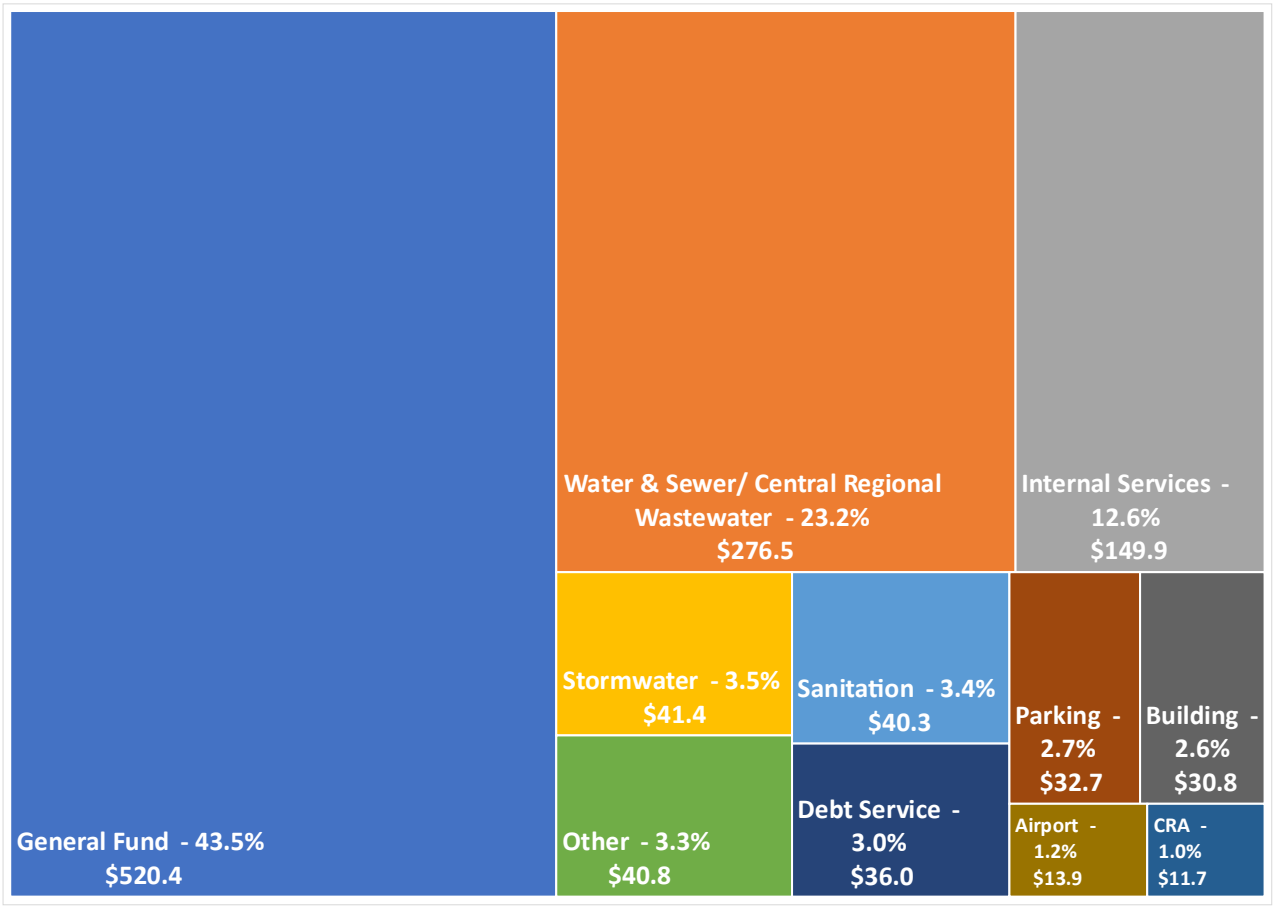

- $10.8 million to complete the construction of Fire Station #13, Emergency Medical Substation #88, and the Heron Garage Substation
- $8.6 million for the repair, enhancement and replacement of roadways and sidewalks, including Breakers Avenue and Birch Road
- $5.7 million for the replacement of the NE 1st Street Bridge
- $1.9 million for the repair and maintenance of existing City facilities
- $1.5 million for seawall restoration and replacement
- $500,000 for streetlight improvements
- $100,000 for solar panel installation on City facilities

FY 2026 Adopted Operating Budget by Fund

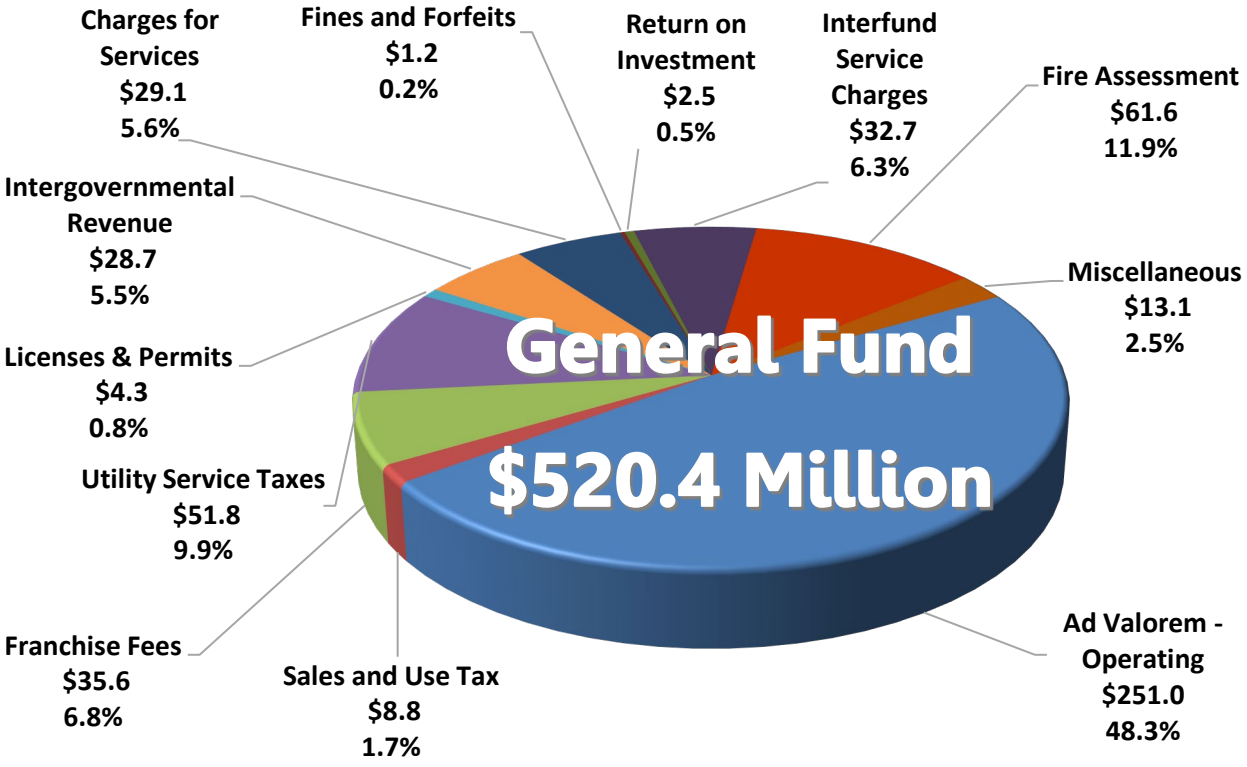

The following chart provides a consolidated summary all funds with adopted appropriations in FY 2026. The chart includes all governmental, proprietary, and fiduciary funds. The City has additional funds - such as certain grant funds - that are not listed as they do not have scheduled appropriations through the City's budget development process.

The total amount shown below includes all expenditure funding as well as other financing uses, including interfund transfers. The Internal Services category, with $149.9 million – includes the City's Self-Insured Health Benefits Fund, the City Property and Casualty Insurance Funds, the Vehicle Rental Fund, the Central Services Fund, the Unified Customer Service Fund, and the Project Management Fund. The other, miscellaneous category, totaling $40.8 million, includes the City's Cemetery System Fund, Arts and Science Garage Fund, Marine Facilities Fund, Beach Business Improvement District Fund, School Crossing Guard Fund, Nuisance Abatement Fund, Sunrise Key Neighborhood District, Police Confiscation Funds, Transportation Surtax Fund, and Grant, Reserve, and Bond Funds.

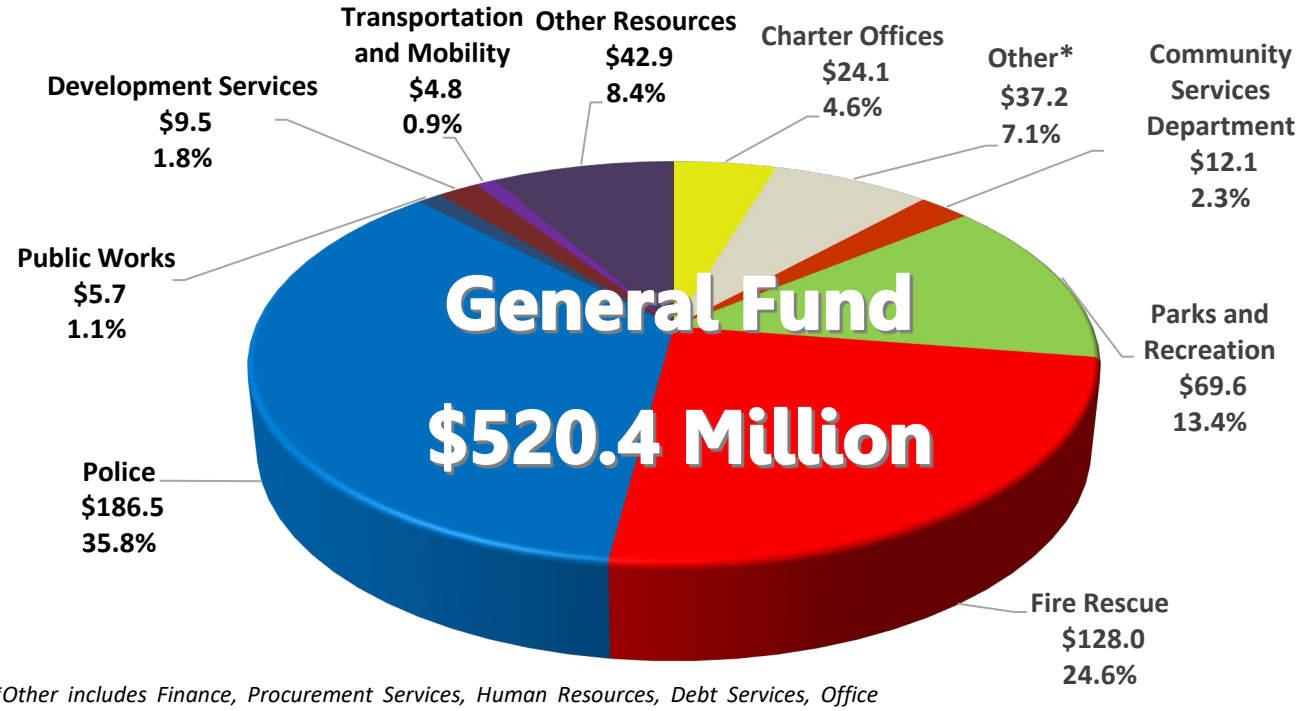

FY 2026 Adopted Operating Budget by Fund - $1.2 Billion
(All Funds - In Millions)

Where the Money Comes From

Where the Money Goes

**Other includes Finance, Procurement Services, Human Resources, Debt Services, Office Management and Budget, Office of Capital Projects, Office of Strategic Communications, and Other General Government Departments.*

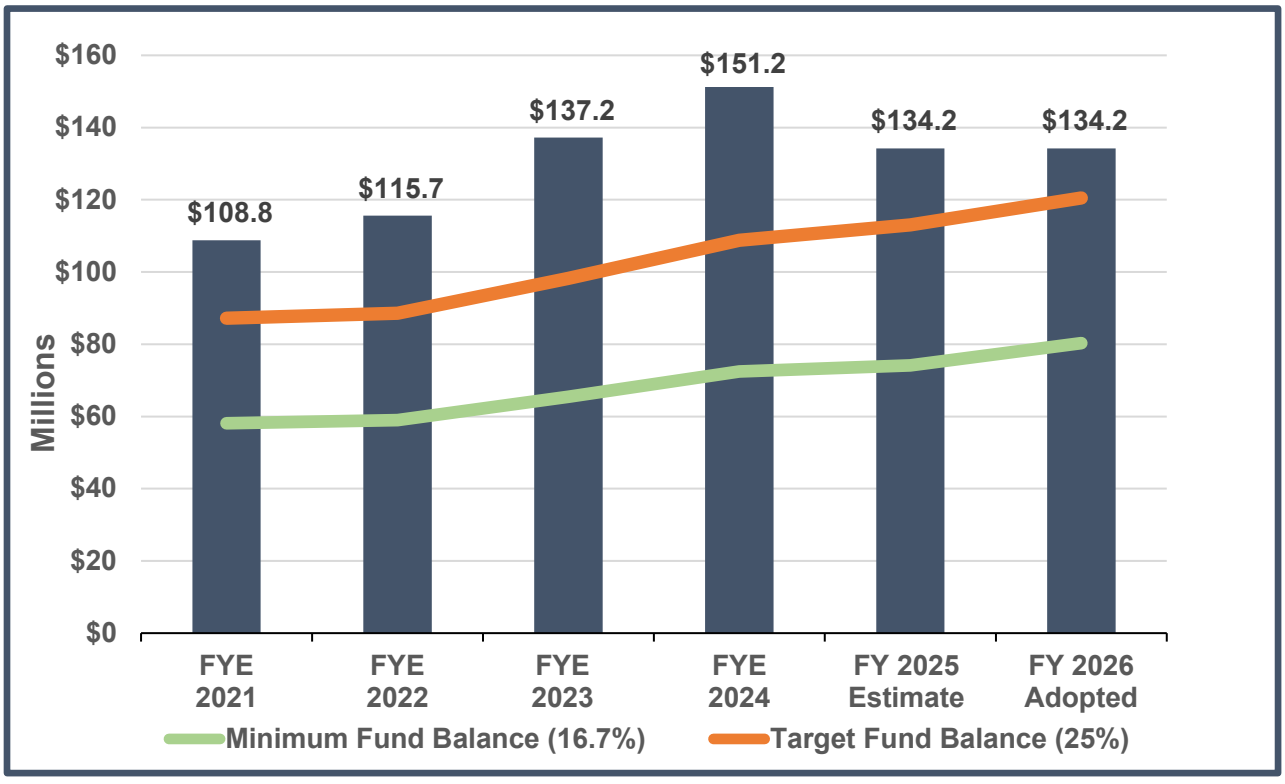

General Fund - Fund Balance

The fund balance in the General Fund provides a measure of the financial resources available for future spending or appropriation. These funds should be adequate to support potential unanticipated costs, like emergency repairs, and to support unanticipated opportunities, like leveraging General Fund dollars to meet grant match requirements. Credit rating agencies such as Standard and Poor's (S&P) and Moody's Investors Service have pointed to the City's reserves as an indicator of the fiscal health for our City thus allowing the City to experience significant savings in interest costs.

The City Commission's fund balance policy requires a minimum available fund balance for the General Fund of two months, or 16.7% of the General Fund Budget including necessary transfers. To put the City into a favorable position to issue General Obligation Bonds and address unplanned events, our target General Fund Balance is three (3) months of operating expenses, or 25% of the General Fund Budget including necessary transfers. Since the policy is a percentage of the budget, as the budget increases, the required level of fund balance also increases.

The FY 2026 estimated fund balance exceeds our targeted fund balance requirement by $13.72 million with a total available fund balance of $134.2 million, or 27.85% of the General Fund operating budget as shown in the chart below. In early FY 2026, staff will present strategic recommendations for allocating this excess funding to address unfunded capital investment needs. Further, City staff will continue to monitor and assess the fund balance to ensure that the level of available funds is commensurate with the level of risk associated with our diverse City and the variability in our revenue and expenditure sources.

General Fund – Fund Balance in Dollars and as a Percent of the Operating Budget

General Fund Changes Since the FY 2026 Proposed Budget

Adjustments were made to the FY 2026 Proposed General Fund Budget to incorporate updated assumptions and new information prior to the final budget adoption. General Fund revenues decreased by $32,360, primarily due to the refinement of the anticipated Per- and Polyfluoroalkyl Substances (PFAS) settlement payment. To maintain a structurally balanced budget, General Fund expenditures were reduced by the same amount as shown in the table below.

Revenue Adjustments Since Proposed Budget		
Ad Valorem Revenue Broward County Property Appraiser estimates as of July 1, 2025	$	754,888
Municipal Revenue Sharing Sales Tax State Municipal Revenue Sharing estimates as of July 1, 2025		198,639
PFAS Settlement Payment Refinement of Anticipated PFAS Payment Schedule		(514,283)
Local Government Half-Cent Sales Tax State Local Government Half-Cent Sales Tax estimate as of July 1, 2025		(471,604)
Total Revenue Adjustments	**$**	**(32,360)**

Expenditure Adjustments Since Proposed Budget		
Increased Transfer to the School Crossing Guards Fund Transfer to the School Crossing Guards Fund	$	108,576
Adjustments in Salaries and Wages and Operational Expenses Multiple Departments		(85,057)
Decrease in Police and Fire Rescue Pension Payment Police and Fire Rescue Department		(35,301)
Decreased Transfer to the Community Redevelopment Agency (CRA) Transfer to Community Redevelopment Agency		(20,578)
Total Expenditure Adjustments	**$**	**(32,360)**

New Emergency Management Reserve

For the first time ever, due to the volatility and recent uptick of natural disasters across the nation, coupled with an uncertain economic outlook from State and Federal agencies, I am recommending the establishment of an emergency management reserve. The creation of this new reserve will transparently and boldly demonstrate that we are prepared for catastrophic emergencies.

Currently, the City uses fund balance to respond to unanticipated financial obligations such as capital project cost over-runs or unbudgeted overtime expenses and to recover from unplanned, emergency events such as a pandemic or storm event. By establishing a dedicated Emergency Management Reserve, the City is taking a proactive, and responsible, measure to isolate and reserve funding for emergency response and recovery purposes. This ensures that critical funding is earmarked for emergency response and recovery and is not to be co-mingled with the broader uses associated with Fund Balance. Historical events like Hurricane Irma and the 2023 flash flood highlight the financial strain emergencies can impose.

For the FY 2026 budget, the City has earmarked $4.8 million in one-time funding available from the PFAS settlement to initiate the Emergency Management Reserve. This new reserve will represent approximately 1% of the adopted FY 2026 General Fund operating budget. Over the coming months, staff will review and update financial policies to memorialize the creation and use of this reserve, including a recommendation to the City Commission for a formal reserve target. Establishing this reserve will strengthen the City's financial resilience and ability to respond to future emergencies and move us toward a more resilient future.

Property Taxes

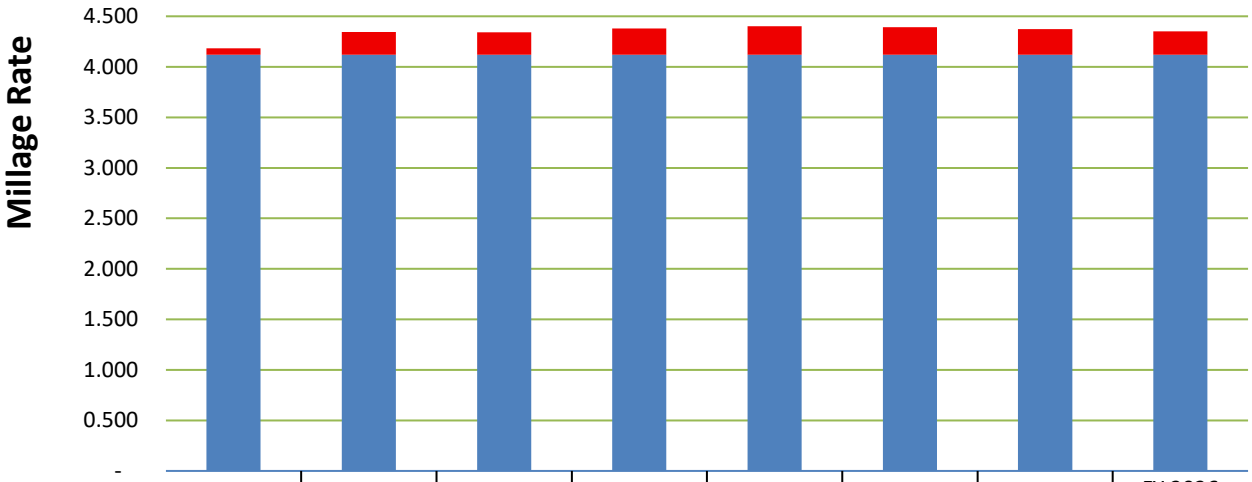

Approximately 48% of the City's General Fund revenues are generated through property taxes. The chart below represents the Broward County Property Appraiser's taxable values and net new construction for the City of Fort Lauderdale for the last ten years.

Calendar Tax Year	Net New Construction	Final Gross Taxable Value	Increase/Decrease from Prior Year	Operating Millage Rate
2025 - July	**$1,118,251,262**	**$63,504,763,583**	**8.50%**	**4.1193**
2024 - Final	$521,556,050	$58,529,808,545	7.72%	4.1193
2023 - Final	$1,131,926,110	$54,333,485,464	11.33%	4.1193
2022 - Final	$1,679,235,780	$48,804,360,453	12.95%	4.1193
2021 - Final	$1,141,870,340	$43,209,678,707	5.73%	4.1193
2020 - Final	$686,582,000	$40,866,781,365	5.43%	4.1193
2019 - Final	$1,139,083,000	$38,762,628,574	7.36%	4.1193
2018 - Final	$824,076,040	$36,105,845,628	7.69%	4.1193
2017 - Final	$340,929,480	$33,528,048,467	8.27%	4.1193
2016 - Final	$455,847,640	$30,966,306,786	9.20%	4.1193

Millage Comparison

The FY 2026 Adopted Budget includes an operating millage rate of 4.1193 per $1,000 of taxable value. The adopted aggregate millage rate (operating and debt service) is 4.3499, which is approximately a 0.55% decrease from the prior year aggregate rate of 4.3738. The debt service millage rate adjusts annually based on the property valuation and debt service requirement. The debt service millage in FY 2026 includes two (2) voter approved General Obligation Bonds approved in March of 2019 to fund park improvements and a new Police Headquarters in addition to older debt associated with Fire Rescue facilities.

Millage Rate History

	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026 Adopted
City Total	4.1833	4.3443	4.3411	4.3806	4.4026	4.3930	4.3738	4.3499
Debt Service	0.0640	0.2250	0.2218	0.2613	0.2833	0.2737	0.2545	0.2306
Operating	4.1193	4.1193	4.1193	4.1193	4.1193	4.1193	4.1193	4.1193

FY 2026 Funding Highlights

Water and Sewer Fund

The City supplies water and sewer services on a regional basis for approximately 250,000 residents of central Broward County. Areas serviced by the City's water treatment plants and distribution system include Fort Lauderdale, Port Everglades, Sea Ranch Lakes, Lauderdale-by-the-Sea, Oakland Park, Wilton Manors, and portions of Davie, Tamarac, and unincorporated Broward County.

The FY 2026 Water and Sewer Fund Adopted operating budget and transfers is $222.4 million, which is $16.0 million more than the FY 2025 Adopted Budget. For FY 2026, the City adopted a water and sewer rate increase of 9.0%, in accordance with Ordinance C-23-35, which was approved by the City Commission in September 2023 and sets annual rate adjustments through FY 2028.

The increased rate will support the completion of the approved Prospect Lake Water Treatment Plant, continue the installation of a new Automatic Metering System, and support other operating and capital needs of the system. The impact on customers varies based upon user class and level of water consumption. An example of a customer's monthly increase based upon consumption of 5,000 gallons/month is provided below.

Water and Sewer Charges Monthly Increase on Neighbors
(Based on Average Usage of 5,000 gallons/month)

5/8 Inch Meter	FY 2025 Adopted Rate	FY 2026 Adopted Rate	$ Change	% Change
Total	**$107.15**	**$116.79**	**$9.64**	**9.0%**

Central Regional Wastewater System Fund

The Central Regional Wastewater System Fund Adopted expenditures is $54.1 million which is $8.3 million more than the FY 2025 Adopted Budget. The large customer wastewater calculated rate increased from $2.85 per 1,000 gallons to $3.22 per 1,000 gallons. This rate increase is necessary to fund increased operating expenses associated with sludge disposal costs and treatment chemicals.

Bulk Wastewater Rate

FY 2025 Adopted Rate	FY 2026 Adopted Rate	$ Change	% Change
$2.85	$3.22	$0.37	13.0%

Sanitation Fund

The Sanitation Fund supports a full complement of modern solid waste services by providing household garbage, recycling, yard waste, and bulk trash collection. The fund also supports household hazardous waste collection events, rights-of-way maintenance, and public trash receptacles. The City's Clean Team is funded through the Sanitation Fund, working to preserve the unique beauty of our city streets and high-traffic areas. The FY 2026 Sanitation Fund adopted expenditures total $40.3 million, which is a 0.2% decrease compared with the FY 2025 Adopted Budget.

Changes in disposal and processing fees, a new solid waste contract, and increases in volumes collected require an adjustment to the rates charged for these services. The revised solid waste and disposal charge in FY 2026 reflects an increase of 5.0% over the previous rate, consistent with Ordinance C-24-36, which was adopted by the City Commission in August 2024. This ordinance established a 5% annual rate increase unless modified by future Commission action.

The FY 2026 rate adjustment represents an increase of $2.50 in the monthly charge for a single-family residential home. The impact of the adopted rates for a residential customer is illustrated on the following page:

Sanitation Fee
(Monthly Single-Family Residential Rate)

FY 2025 Adopted Rate	FY 2026 Adopted Rate	$ Change	% Change
$49.99	$52.49	$2.50	5.0%

Stormwater Fund

The revenues collected for the City's Stormwater Management Program are used for operating expenses and capital improvements directly related to the management of stormwater, including improvements designed to improve water quality in the City's waterways. The FY 2026 Adopted operating budget and transfers for the Stormwater Fund is $41.4 million, which is 37.6% less than the FY 2025 Adopted Budget, primarily due to the utilization of fund balance to support capital needs.

The City has been making unprecedented investments in its stormwater infrastructure through the Fortify Lauderdale program. These major investments are possible because the City developed a hybrid stormwater rate structure to build up its reserves and to support revenue bonds associated with the program. The stormwater fee's annual assessment was implemented on October 1, 2020, and is critical to the continued success of the Stormwater Management Program. The assessment rates were adopted with an increase of 15% for FY 2026.

Stormwater Fee
(Annual Assessment)

Stormwater Charge (Annual Assessment)	FY 2025 Adopted Assessment	FY 2026 Adopted Assessment
Single Family Residential ≤ 3 Units	**$276.67/unit + $5.30/trip**	**$318.17/unit + $6.10/trip**
Developed Parcels	**$2,875.36 per acre + $5.30/trip**	**$3,306.66 per acre + $6.10/trip**
Undeveloped Parcels	**$717.26 per acre**	**$824.85 per acre**

Conclusion

The FY 2026 Adopted Budget supports the City's ongoing efforts to fund core services, advance key priorities, and make strategic investments to keep Fort Lauderdale a great place to live, work, and play. Thanks to sound fiscal management, progressive economic development, and long-term planning, the City continues to deliver meaningful results for our neighbors, businesses, and visitors.

This progress is grounded in a shared vision developed with input from our neighbors. That vision is reflected in the City Commission's "Press Play Fort Lauderdale 2029" Strategic Plan -- a blueprint for turning our shared vision into reality. The City's strategic budgeting approach ensures that we make thoughtful choices, even amid competing funding requests and limited resources.

I want to again thank the Budget Advisory Board (BAB), especially its chair William Brown, as well as Yvette W. Matthews, Assistant City Manager; Laura Reece, OMB Director; and Parth Patel, Assistant OMB Director for helping to align my vision with the City's budget. The FY 2026 Adopted Budget was formally presented to City Commission at the first public hearing on September 3, 2025 and then adopted at the second public hearing on September 12, 2025. Our team of committed public servants looks forward to working with you as we move forward as a City into our next fiscal year.

Respectfully submitted,

Rickelle Williams

Rickelle Williams

COMMUNITY INVESTMENT PLAN

FY 2026 – FY 2030 Community Investment Plan

INTRODUCTION AND OVERVIEW

The Community Investment Plan (CIP) has a unique and important responsibility to delineate what the community needs to build now and what it will need to build in years to come. This must be done in a strategic, careful, and impactful way to maximize economic development and improve quality of life in line with the City Commission's vision and policy. That is why this CIP incorporates the concept of *sustainable infrastructure*, which involves connecting a commitment to sound asset management with an approach that prioritizes community needs within the context of a sustainable future. It needs to be carefully managed and maintained to ensure Fort Lauderdale remains the City you never want to leave.

The Community Investment Plan is a planning document that sets forth the City's capital improvements to ensure that municipal infrastructure and facilities are appropriate and adequate to serve the needs of the neighbors of Fort Lauderdale. The timeline for the CIP process is outlined below:

December - February	• Departments identify projects and determine cost estimates • City Manager appoints a Community Investment Plan Project Review Team • Community Investment Plan Project Review Team meets to discuss the process, schedule, and proposed criterion for the CIP process • Budget and CIP Kickoff commences
February - March	• Trainings are conducted • Training materials and instructions are distributed • Departments submit projects to be included in the CIP • Budget, CIP and Grants Division meet with departments to review CIP project applications
April - June	• Community Investment Plan Project Review Team evaluates, prioritizes projects, and develops recommendations • Departments present their requests to the City Manager along with their operating budget requests • City Departments present their requests to the Budget Advisory Board • Committee submits recommendations to the City Manager • Proposed Community Investment Plan is drafted
July	• City Manager makes recommendations to the City Commission (Proposed Community Investment Plan) along with the proposed budget
September	• City Commission approves the CIP and Budget
October	• Implementation of the approved CIP occurs

The projects in the CIP provide the basic necessities, such as municipal waterworks and sidewalks, that make Fort Lauderdale a desirable community to live, work, and play. Ensuring conformity with the City's Comprehensive Plan and coordination of capital improvements, with the development of the operating budget to maintain low taxes and fees, are key objectives to the process. Projects considered in the CIP can be either capital improvements or capital maintenance projects.

Each adopted capital improvement project must meet the following criteria to be considered as part of the Community Investment Plan:

- Represent a physical or structural improvement
- Have a value of $100,000 or more
- Have a useful life in excess of 10 years; or if bond funded, have a useful life equal to or greater than the life of the bonds; or if grant funded with asset life qualifying factors, the capital project must have a life equal to or greater than the life requirements of the grant
- Be classified as a capital asset when placed into service

Each adopted capital maintenance project must meet the following criteria:

- Have a value of $100,000 or more
- Be a project that replaces/repairs existing infrastructure, equipment, or facilities (e.g., street resurfacing, roof replacements, and playground equipment replacement)

The City recognizes its ongoing responsibility to maintain and improve capital facilities to meet the demands of a dynamic city. The five-year CIP is based on the City Commission and Administration's recognition of the need to have a comprehensive and financially balanced plan. Pursuant to the City's long-range planning objectives, each project is analyzed and prioritized according to the needs of the community, the project ranking, and the City's ability to implement the project using available resources. The adopted CIP must also take into consideration the financial parameters necessary to preserve the City's fiscal integrity and continued sustainability.

The methodology utilized to develop the Community Investment Plan stems from a needs assessment performed by City staff, with input from various City Commission appointed advisory boards/committees. The needs assessment also includes the incorporation of various studies that have been performed by consultants with expertise in their respective discipline. Key assessments used to develop the FY 2026 – FY 2030 requests include:

- Walkability Plan
- Bridge Master Plan
- Sidewalk Assessment
- Wastewater Master Plan
- Water Master Plan
- Stormwater Master Plan
- Las Olas Conceptual Design Visions
- Parks & Recreation Master Plan
- Facilities Condition Assessment
- Pavement Condition Assessment
- Comprehensive Utility Strategic Master Plan
- 2035 Vision Plan: Fast Forward Fort Lauderdale
- Strategic Plan: Fast Forward Fort Lauderdale
- Sustainability Action Plan
- Downtown Master Plan
- FXE Master Plan

Each plan or assessment generates a list of projects that address physical and/or structural improvements and enhancements in various locations within the City. Project applications are then developed and submitted to the Budget/CIP and Grants Division. Each application involving a physical or structural improvement must include project cost estimate justification. Together, managers and directors develop the adopted CIP project applications with the goal of meeting and managing the City's community investment needs.

Adopted FY 2026 – FY 2030 Community Investment Plan

CIP PRIORITIZATION CRITERIA AND SCORING MATRIX

Prioritization criteria and a scoring matrix were developed for the Adopted Fiscal Year 2026 - 2030 CIP to rank projects for inclusion in the plan. There are ten criteria that were used by the Community Investment Plan Project Review Team to evaluate the adopted projects. Each CIP Project Review team member scored projects from zero to two for each of the ten criteria and then a total score was calculated for the project, based on the criteria weight. This methodology promotes an informed decision-making process to formulate a final set of recommendations for the Adopted Community Investment Plan. The prioritization criteria are outlined below:

Basic Program Attributes

- **Meets federal, state or legal requirement** - *Whether there is a federal, state, local mandate, grant, court order, judgment, or other requirement that the project must be completed.*
- **Project feasibility** - *Whether there are obstacles to proceeding with the project (i.e., land acquisition, easements, approvals required, etc.).*
- **Costs and sources of funds** - *Whether the project would impact the City's operating costs, debt service level, and/or whether the project would yield revenue.*
- **Relevant performance measures** - *Is the impact of the project measurable? Will completing the project improve key performance measures or result in efficiencies?*
- **Project consistency with existing approved plans** - *Whether the project is directly consistent with a Commission approved plan, or advances the Strategic Plan, the Commission Annual Action Plan (CAAP), and/or the 2035 Community Vision Plan.*

Impact on Focus Areas/Strategic Goals

- **Improves traffic, mobility, connectivity, pedestrian safety and cyclist safety** - *Whether the project would result in filling mobility gaps, supporting more effective interconnectivity, and ensuring increased and safe accessibility to activities, events, and locations (i.e., bikeway path, commuter rail).*
- **Environmental benefits** - *Whether the project would address sea level rise, flooding, energy efficiency, water quality, water efficiency, or other sustainability measures.*
- **Addresses aging infrastructure needs and maintenance of existing facilities** - *Whether the project helps to repair or replace the City's aging infrastructure (e.g. bridges, seawalls, roads) or provides for capital maintenance of existing City facilities (e.g. community centers, swimming pools, or sports complex).*
- **Promotes or accelerates sustainable economic development** - *Whether the project would directly result in capital investment, increased tax base, increased property values, or improved job opportunities.*
- **Improves neighbor safety** - *Whether the project reduces an immediate or future risk, addresses a public health and/or safety hazard, or addresses an urgent safety need.*

The Community Investment Plan Project Review Team met with each department, reviewed, and ranked all projects. Following the ranking, the team summarized the information and made recommendations to the City Manager. The City Manager then had the opportunity to review project applications to make a final determination about which projects would be recommended to the City Commission for funding. The project ranking will also serve to guide the City's applications for regional, State, Federal, or other grant funds throughout the upcoming fiscal year.

The CIP is a multi-year funding plan as follows:

- ✓ **Projects with unspent balances:** These are existing projects that are ongoing. This unspent balance is re-appropriated and approved as part of the five-year total.

- ✓ **Projects funded during the Fiscal Year 2026 Budget cycle:** These projects are recommended in the City Manager's adopted budget and finalized in concert with the City Commission's adopted budget.

- ✓ **Projects planned for Fiscal Years 2027 – 2030 have funding identified:** These projects will be updated on an annual basis and considered for funding in the respective year of the request. Funding will not be appropriated or available for these projects until the annual adoption of the CIP via City Commission action.

Multi-year projects are identified in phases by year, from design through construction. Appropriations are made on an annual basis, but planning is accomplished on a multi-year basis. Projects may be designed before construction dollars are secured to have "shovel ready" projects as new funding is identified. The Community Investment Plan is developed annually and presented to the City Commission for adoption of the first year of the plan along with the City's Operating Budget.

The Adopted FY 2026 – FY 2030 Community Investment Plan document contains the following major sections:

- ♦ **Introduction**

- ♦ **Adopted FY 2026 - FY 2030 Five Year Community Investment Plan by Funding Source**

- ♦ **Adopted FY 2026 – FY 2030 Five Year Community Investment Plan by Project Type**

- ♦ **Community Investment Applications by Funding Source**

- ♦ **Adaptation Action Areas**

- ♦ **Connecting the Blocks**

- ♦ **Glossary and Acronyms**

Project applications are not presented for existing projects with funding that are not in need of additional funding. However, they are listed in the Adopted FY 2026 – FY 2030 Five Year Community Investment Plan schedule. The five-year CIP is balanced based on existing and anticipated revenues, bonds, and other financing mechanisms.

Adopted FY 2026 – FY 2030 Community Investment Plan

CAPITAL FUNDING SOURCES

This section provides a summary list of capital funds and details for each of the projects that are included in the Adopted FY 2026 – FY 2030 Community Investment Plan. The projects are organized by funding source. A capital projects fund accounts for the financial resources that are committed or assigned for the acquisition, improvement or construction of major governmental capital assets. Below is a brief description of each funding source used to fund capital projects in the Community Investment Plan.

Fund	Description
Community Development Block Grant (CDBG) Fund (108)	Federal entitlement funds from the U.S. Department of Housing and Urban Development (HUD); used per program guidelines to meet community development needs.
Grants Fund (129)	Funds from various grant sources; used according to each grant's program guidelines.
Building Permit Fund (143)	Permit fee revenue restricted to the enforcement of Florida Building Code.
Special Assessments Fund (319)	Fees levied on properties for specific improvements or services provided by the City.
General Capital Projects Fund (331)	Transfers from the City's General Fund to support priority community investment projects.
Gas Tax Fund (332)	County fuel tax distributed by population formula to fund transportation projects.
Fire Rescue Bond (336)	Voter-approved debt to fund development, design, acquisition, construction, equipping, and furnishing of Fire Rescue projects.
Transportation Surtax Fund (338)	Broward County 30-year, 1% surtax (MAP) funds projects to increase mobility and enhance countywide transportation.
Community Redevelopment Agency (CRA) Funds (346, 347, 348)	Tax increment financing from designated redevelopment areas; restricted to redevelopment of those areas.
Park Impact Fees Fund (350)	Developer-paid fees used to expand park system capacity to serve new development.
Police Bond Fund (352)	Voter-approved debt to fund development, design, acquisition, construction, equipping, and furnishing of Public Safety projects.
Parks Bond Fund (353)	Voter-approved debt to fund development, design, acquisition, construction, equipping, and furnishing of Parks.
Utility Undergrounding Fund (354)	Special assessment fees to fund utility undergrounding projects including FPL, AT&T, and Comcast.

Fund	Description
Sanitation Fund (409)	Funded by residential waste management fees; supports garbage, recycling, yard waste, and bulk trash collection services.
Cemetery System / Perpetual Care Fund (431, 627)	Provides ongoing care for plots, crypts, niches, markers, and memorials sold and installed in the Cemetery System.
Water and Sewer Funds (452, 453, 454, 493, 495)	Funded by Water & Sewer rates; used for system improvements and replacements.
Central Regional Wastewater Fund (455, 496)	Supports operation and enhancement of the Central Regional Wastewater System serving Fort Lauderdale and partner municipalities.
Parking Services Fund (463)	Derived from parking fees and fines; used to maintain and enhance parking lots, garages, and on-street parking.
Airport Fund (469)	Revenue from leases and airport fees; used to maintain and enhance the City's Airport.
Stormwater Funds (471, 473)	Funded by assessed non-ad valorem stormwater fees; used for stormwater operations, maintenance, and drainage improvements; revenue bonds fund major investments.
Prospect Lake Water Treatment Plant Fund (494)	Funds development of the Prospect Lake Clean Water Center, a membrane-based facility replacing the Fiveash Regional Water Treatment Plant.
Water Meter Replacement Program Funds (497, 498)	Funds replacement of residential and commercial water meters as part of an Automated Meter Infrastructure (AMI) upgrade.
Fleet Fund (584)	Fleet Services is an internal service funding vehicles to City departments.
Central Services Operations Fund (585)	Information Technology (IT) is an internal service fund used to maintain and improve City information technology systems.
FDOT & FAA Grant Funds (778, 779)	State and federal grants from Florida Department of Transportation (FDOT) and Federal Aviation Administration (FAA) primarily to enhance the City's airport and roadways.

Adopted Fiscal Year 2026 Community Investment Plan

IMPACT ON OPERATING BUDGET

Many capital improvement projects outlined in the Community Investment Plan have, or will have, corresponding impacts to the operating budget commensurate with the capital investment. Identifying the operating budget impacts is useful for decision-making because it provides a greater understanding of the financial obligations associated with the capital investment. New or expanded facilities may increase the annual costs needed to maintain the facility and desired level of service, which can contribute to the growth of annual operating budgets. Other new facilities, such as swimming pools, may generate offsetting revenues from program fees, which provide additional revenues to help support operating expenses related to the new facility.

Given the potential impact to future operating budgets, it is important to have reliable operating cost estimates for capital projects contained in the City's Community Investment Plan. These operating costs can then be programmed into the operating budget during the budget development process, ensuring funding is available when a project becomes operational. Operating cost estimates are developed during the CIP application development process and factor in variables such as project location, structural impacts, energy costs, staffing costs, maintenance, and/or future replacement. Each application includes a section where operating departments identify potential impacts to the operating budget. While these estimates are preliminary, the estimates still assist in the decision-making process to ensure proper consideration is given to the total cost of the project over the estimated lifespan. As a project moves from its various stages, these costs are reviewed to ensure future operating budgets include the necessary funding.

Overall, the estimated annual impact of all capital projects funded in the Adopted Fiscal Year 2026 Community Investment Plan is an increase of $590,320. The increased costs are primarily related to the projects below:

- Bridge Restoration
- City-Owned Seawall Restoration and Replacement
- Lightning Predictor
- Melrose Park Street Lighting
- Las Olas Isles Undergrounding Utilities
- New Utility Billing Software
- 1343-1349 Chateau Park Drive Stormwater Improvements
- 1161 SW 30th Avenue Stormwater Improvements
- 1200 SE 20th Street Stormwater Improvements
- 1435 SW 9th Street Stormwater Improvements
- 1641 SW 28th Terrace Stormwater Improvements
- 1390 SW 26th Terrace Stormwater Improvements
- Tarpon River Stormwater Improvements
- Holly Heights Drive Stormwater Improvements
- Sailboat Bend Stormwater Improvements
- Riverland Road Stormwater Improvements
- NE 32nd Avenue and NE 30th Street Stormwater Improvements
- SE 5th Ave – Andrews Ave Tidal Valves Replacement
- SE 5th Ave – SE 15th Ave Tidal Valves Replacement
- Bayview Dr. from Sunrise Blvd to Oakland Park Blvd
- 1801 NE 45th Street Stormwater Improvements
- 1544 Argyle Drive Stormwater Improvements
- Drainage Canal Dredging
- Utilities Asset Management System
- Dorsey Riverbend Area Stormwater Improvements

- Durrs Area Stormwater Improvements
- Progresso Area Stormwater Improvements
- NE 56th Street and 22nd Avenue Stormwater Improvements
- NW 30th Avenue and NW 17th Court Stormwater Improvements
- NE 4th Street Drainage Improvements
- Harbor Isles Stormwater Improvements

Fiscal Year 2026 Community Investment Plan

Project	Annual Operating Impact	Explanation
General Fund (331) – $57,820		
Bridge Restoration	$ 10,000	This project will add annual costs for maintenance after construction.
City-Owned Seawall Restoration and Replacement	19,440	This project will add annual costs for maintenance after construction.
Lightning Predictor	11,850	This project will add annual costs for maintenance after construction.
Melrose Park Street Lighting	16,530	This project will add annual costs for maintenance after construction.
Total	**$ 57,820**	
SA Bond 2021 Construction – Utility Undergrounding Fund (354) – $2,000		
Las Olas Isles Undergrounding Utilities	$ 2,000	This project will add annual costs for maintenance after construction.
Total	**$ 2,000**	
Water and Sewer Fund (454) – $340,000		
New Utility Billing Software	$ 340,000	This project will add annual costs for maintenance after construction.
Total	**$ 340,000**	
Stormwater Fund (471) – $190,500		
1343-1349 Chateau Park Drive Stormwater Improvements	$ 500	This project will add annual costs for maintenance after construction.
1161 SW 30th Avenue Stormwater Improvements	3,000	This project will add annual costs for maintenance after construction.
1200 SE 20th Street Stormwater Improvements	3,500	This project will add annual costs for maintenance after construction.
1435 SW 9th Street Stormwater Improvements	3,000	This project will add annual costs for maintenance after construction.
1641 SW 28th Terrace Stormwater Improvements	3,000	This project will add annual costs for maintenance after construction.
1390 SW 26th Terrace Stormwater Improvements	3,000	This project will add annual costs for maintenance after construction.
Tarpon River Stormwater Improvements	5,500	This project will add annual costs for maintenance after construction.
Holly Heights Drive Stormwater Improvements	1,500	This project will add annual costs for maintenance after construction.
Sailboat Bend Stormwater Improvements	1,000	This project will add annual costs for maintenance after construction.
Riverland Road Stormwater Improvements	1,000	This project will add annual costs for maintenance after construction.

Project	Annual Operating Impact	Explanation
Stormwater Fund (471) continued		
NE 32nd Avenue and NE 30th Street Stormwater Improvements	$ 5,500	This project will add annual costs for maintenance after construction.
SE 5th Ave – Andrews Ave Tidal Valves Replacement	500	This project will add annual costs for maintenance after construction.
SE 5th Ave – SE 15th Ave Tidal Valves Replacement	500	This project will add annual costs for maintenance after construction.

COMMUNITY INVESTMENT PLAN BY PROJECT

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Airport										
Airport Security and Fiber Upgrade	NEW-505557	This project is for the replacement of an underground fiber optic system that provides network access control to the gates, alarms, remote communication and limited surveillance equipment along the airport's perimeter. The scope of the design of the project includes, but not limited to the following: field inspection, topographical survey, electrical engineering services, geotechnical survey, development of construction plans, development of bid documents and engineer's cost estimate for construction.	Airport - Capital Projects (Fund 469)	-	-	100,000	-	375,000	537,500	1,012,500
			Florida Department of Transportation (Fund 778)	-	-	400,000	-	1,500,000	2,150,000	4,050,000
Runway 13-31 Pavement Rehabilitation Project	NEW-955211	This project is for the design of the pavement rehabilitation of Runway 13-31. The project includes removal of pavement milling, preparation of lime rock subgrade, and the construction of new pavement with new or recycled materials. The adjacent taxiway intersections will also be milled and re-surfaced as part of this project. New striping will be applied after the paving has been completed.	Airport - Capital Projects (Fund 469)	-	-	-	140,000	375,000	-	515,000
			Federal Aviation (Fund 779)	-	-	-	-	6,750,000	-	6,750,000
			Florida Department of Transportation (Fund 778)	-	-	-	560,000	375,000	-	935,000
FTL Executive Master Drainage Permit	P12323	The master drainage/conceptual environmental resources permit project (ERP) is intended to be a guide for improving FXE's stormwater drainage systems performance and to ensure that FXE continues to meet the requirements of all applicable environmental regulatory agencies. The ERP will include a preliminary schedule of prioritized capital improvements necessary to allow FXE's stormwater systems to meet the increasing performance and regulatory demands.	Airport - Capital Projects (Fund 469)	1,912						1,912
Airport Drainage Improvements Phase 1	P12355	This project involves constructing drainage improvements for parcels adjacent to the airport, serving as Phase I of a multiphase drainage program. The scope of work includes earthwork, piping installation, swale installation, and basing installation.	Airport - Capital Projects (Fund 469)	1,102,933	-	-	-	-	-	1,102,933
Aviation Equipment & Service Facility Expansion	P12356	This project is for the expansion of the Fort Lauderdale Executive Airport Aviation Equipment and Service (AES) facility. This expansion will include additional ramp space, the construction of additional bays, and the construction of a covered walkway between the AES and the Airport's Administration Building.	Airport - Capital Projects (Fund 469)	3,227,408	-	-	-	-	-	3,227,408
Parcel 21B NRA Mitigation and Maintenance	P12459	This project is for the restoration and enhancement of a designated Natural Resource Area (NRA) as established by the conservation easement approved by Broward County Environmental Protection and Growth Management Department (BCEPGMD). The project includes the removal of non-native and invasive species and vegetation, the installation of native plantings, and providing maintenance services for a three (3) year period following acceptance of project by BCEPGMD.	Airport - Capital Projects (Fund 469)	32,773	-	-	-	-	-	32,773
Mid-Field Taxiway Extension and Run-Up Area	P12474	This project funds the design and construction of a Taxiway extension, the reconstruction and expansion for the run-up area, and the installation of a blast deflection fence. This project is partially funded through a grant from the Florida Department of Transportation (FDOT), which will provide for approximately 80% of eligible project costs through reimbursement. The airport match is 20%.	Airport - Capital Projects (Fund 469)	1,309,063	-	-	-	-	-	1,309,063
Runway 31 Bypass Taxiways	P12521	This project is for the design and construction of by-pass taxiways at Runway 31 as called for in the current Airport Layout Plan (ALP). This project is partially funded through a grant from the Florida Department of Transportation (FDOT) which will provide for approximately 80% of eligible project costs through reimbursement. The airport match is 20%.	Airport - Capital Projects (Fund 469)	282,040	-	-	-	-	-	282,040
Runway Run-Up Area	P12522	This project is for the design and construction of the run-up area and the installation of a blast fence at the western end of Runway 9. This project is partially funded by a grant from the Federal Aviation Administration (FAA) for approximately 90% reimbursement of the eligible project costs and by a grant from the Florida Department of Transportation (FDOT) for approximately 5% reimbursement of the eligible project costs. The Airport match is 5%.	Airport - Capital Projects (Fund 469)	41,545	-	-	-	-	-	41,545
Taxiway Golf Pavement Rehab	P12539	This project is for the design, milling, and resurfacing of the asphalt pavement along Taxiway Golf, between Taxiways Charlie and November, based on its current Pavement Condition Index (PCI) of 69. Additionally, new pavement striping will be applied. The project also includes the redesign of Taxiway Mike to meet current Federal Aviation Administration (FAA) design standards, including the installation of new Light Emitting Diode (LED) taxiway edge lights and updated guidance signs.	Airport - Capital Projects (Fund 469)	221,443	-	-	-	-	-	221,443
Runway 27 By-Pass Taxiways	P12540	This project provides for the design and construction of two by-pass taxiways south of the east end of runway 27 to provide for a more efficient flow of traffic between the north and south sides of the airfield. Additionally, Taxiway Echo will be re-aligned to provide a 90-degree entrance and the run-up area will be reconfigured to meet current Federal Aviation Administration (FAA) design standards. The project will include pavement demolition, asphalt, electrical sodding, and striping.	Airport - Capital Projects (Fund 469)	140,269	-	200,000	-	-	-	340,269
			Federal Aviation (Fund 779)	-	763,000	3,802,281	-	-	-	4,565,281
			Florida Department of Transportation (Fund 778)	-	-	348,000	-	-	-	348,000
Security and Access System Upgrade	P12541	The Fort Lauderdale Executive Airport (FXE) has over 180,000 aircraft operations per year, making it one of the top five General Aviation airports in the United States. In order to continue being an attractive destination, the Airport must maintain the general airfield. In order to accomplish this, City staff have identified certain improvements that will enhance security, provide a higher level of service to our tenants, and continue servicing aircraft flying in and out of FXE.	Airport - Capital Projects (Fund 469)	600,000	-	-	-	-	-	600,000
Runway 9 Western Extension	P12588	Fort Lauderdale Executive Airport's (FXE) existing Master Plan was developed to provide for future airfield and non-airfield development options for 5-year, 10-year, and 20-year periods. The development of a Master Plan was completed in 2019 and included consideration of a future project for a one-thousand-foot extension of Runway 9.	Airport - Capital Projects (Fund 469)	31,290	1,131,784	-	-	-	-	1,163,074
			Federal Aviation (Fund 779)	-	7,740,100	-	-	-	-	7,740,100
			Florida Department of Transportation (Fund 778)	-	430,000	-	-	-	-	430,000

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Runway 9 Taxiway Intersection Improvement	P12612	Design for the re-alignment of taxiways Echo and Juliet on the southern end of Runway 9. The taxiways will be extended into perpendicular taxiways. The project will also include the milling and resurfacing of taxiway Echo. New asphalt striping sodding and light-emitting-diode (LED) edge-lights and guidance signs will be installed.	Airport - Capital Projects (Fund 469)	22,000	-	-	-	-	-	22,000
Taxiways B & Q Realignment	P12706	This project provides for the design and construction of the re-alignment of taxiways Bravo and Quebec. These taxiways will be reconstructed to connect perpendicularly to Runway 9-27, meeting current Federal Aviation Administration (FAA) standards. Modern light-emitting-diode (LED) taxiway edge lights and updated guidance signs will be installed, along with advanced in-ground and elevated Runway Guard Light units to enhance visibility at the hold-short lines. The Airport Light and Control Monitoring (ALCM) system will also be modified with the new taxiway configuration.	Airport - Capital Projects (Fund 469)	373,124	-	-	-	-	-	373,124
Runway 13-31 Pavement Sealing	P12707	This project provides for the design and construction of the pavement sealing of runway 13-31 and its taxiway connectors. The project will also include pavement striping.	Airport - Capital Projects (Fund 469)	210,901	-	-	-	-	-	210,901
Runway 9 Run-Up Relocation & South End Taxiways Intersection	P12708	This project combines two previous projects: the Runway 9 Run-Up Area South (P12522) and the Runway 9 Taxiway Intersection Improvements (FY20200889). The project includes the design and construction of the run-up area and the installation of a blast fence at the western end of Runway 9. Additionally, the project involves redesigning Taxiways Echo and Juliet at the southern end of Runway 9, extending them into perpendicular taxiways. The project will also include the milling and resurfacing of Taxiway Echo, along with adding new asphalt striping, landscaping, and modern light-emitting-diode (LED) edge-lights and guidance signs.	Airport - Capital Projects (Fund 469)	57,547	-	-	-	-	-	57,547
FXE Runway 9-27 Rehabilitation Project	P12764	This project provides for the planning, design, and construction of the pavement rehabilitation of Runway 9-27. This includes the removal of existing pavement, preparation of lime rock subgrade, and the construction of new pavement with new or recycled materials. The adjacent taxiway intersections will also be milled and re-surfaced as part of this project. New striping will be applied after the paving has been completed.	Airport - Capital Projects (Fund 469)	278,299	-	-	-	-	-	278,299
FXE Decorative Street Posts - Phase II	P12770	Design and construction of new decorative colored and precast concrete poles. The new poles will include a decorative airport name/logo. New concrete curbing will be installed in areas where the new posts do not meet the minimum separation distance from the roadway. This project is the phase 2 of the original project in the same area around the Executive Airport.	Airport - Capital Projects (Fund 469)	428,860	-	-	-	-	-	428,860
Runway 9-27 Pavement Rehabilitation Project	P12811	This project provides for the planning, design, and construction of the pavement rehabilitation of Runway 9-27. The effort would include the removal of existing pavement, preparation of lime rock subgrade, and the construction of new pavement with new or recycled materials. The adjacent taxiway intersections will also be milled and re-surfaced as part of this project. New striping will be applied after the paving has been completed.	Airport - Capital Projects (Fund 469)	172,000	-	-	-	-	-	172,000
Runway 9 Taxiway Improvements (South Runway)	P12812	This project combines the scope of project P12522-Runway 9 Run-Up Area (South) and project FY 20200889-Runway 9 Taxiway Intersection Improvements. The project is for the design and construction of the run -up area and the installation of a blast fence at the western end of Runway 9. In addition, this project is to design the re-alignment of taxiways Echo and Juliet on the southern end of Runway 9. The taxiways will be extended into perpendicular taxiways. The project will also include the milling and resurfacing of taxiway Echo. New asphalt, striping sodding, and light - emitting-diode (LED) edge-lights and guidance signs will be installed. This project is funded through three sources- a Federal Aviation Administration (FAA) grant for approximately 90% reimbursement of the eligible project costs, a grant from Florida Department of Transportation (FDOT) for approximately 5% reimbursement of the eligible costs, and with an airport match of 5%.	Airport - Capital Projects (Fund 469)	312,196	-	-	-	-	-	312,196
Environmental Assessment For Runway 9 Extension	P12813	This project provides funding for the City to conduct an Environmental Assessment (EA) for the proposed Runway 9 western extension. The EA will describe the need for the consideration of the environmental impacts of the proposed action and alternatives. The EA will also provide a listing of the agencies consulted to document the impacts anticipated.	Airport - Capital Projects (Fund 469)	24,714	-	-	-	-	-	24,714
Airport Entry Features	P12814	This project is for the construction of new entrance monument signs at various locations around the airport. The primary focus areas for sign placement are the key entry points to the Airport including Commercial Boulevard at NW 21st Avenue, W. Prospect Road, W. Perimeter Road at NW 31st Street, and Cypress Creek Road at NW 28th Way. These signs will have landscape features and an irrigation system where necessary. Additionally, some signs will have a decorated fence around them and, if feasible, decorative lighting as well.	Airport - Capital Projects (Fund 469)	343,000	-	-	-	-	-	343,000
Taxiway L & P Extension & Run-Up Area	P12881	This project is for the planning, design, and construction of the extension of Taxiways Lima and Papa to conform to current Federal Aviation Administration (FAA) design standards as well as to correct alignment issues. Portions of the taxiways will be demolished and re-constructed to the new alignment. Additionally, a run-up area will be constructed east of Taxiway Papa to accommodate a growing number of piston aircraft in the northwest corner of the Airport. New light-emitting-diode (LED) taxiway edge-lights, guidance signs, striping, runway guard lights (RGL), and an airport lighting control and monitoring system (ALCMS) update will also be included as part of the project.	Airport - Capital Projects (Fund 469)	58,750	95,000	-	367,080	-	-	520,830
			Federal Aviation (Fund 779)	-	-	-	6,607,440	-	-	6,607,440
			Florida Department of Transportation (Fund 778)	-	380,000	-	367,080	-	-	747,080
Runway 9 Parallel Taxiway Extension	P12882	Fort Lauderdale Executive Airport's (FXE) existing Master Plan was developed to provide for future airfield and non-airfield development options for 5-year, 10-year, and 20-year periods. The development of a Master Plan was completed in 2019 and included consideration for a future project for a one-thousand-foot extension of Runway 9. As part of the runway extension project, the parallel taxiways on both south and north sides of the runway need to be extended as well.	Airport - Capital Projects (Fund 469)	538,567	750,000	-	-	-	-	1,288,567
			Florida Department of Transportation (Fund 778)	-	3,000,000	-	-	-	-	3,000,000

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Design and Construct FXE Maintenance Apron Pavement Rehab Project	P12883	This project is to design and construct the apron at the airport maintenance building. The scope of the design includes but is not limited to topographical survey, geotechnical report, development of construction plans and technical specifications, and development of a construction cost estimate. The construction scope of the project includes, but is not limited to survey, clearing and grubbing, testing, maintenance of traffic, milling and resurfacing of asphalt, sodding, and pavement markings.	Airport - Capital Projects (Fund 469)	155,410	-	-	-	-	-	155,410
Design and Construction of Taxiway Echo Pavement Rehabilitation	P12884	This project is for the reconstruction of Taxiway Echo (portion east of Runway 13-31) and will include the removal of existing pavement, preparation of subgrade, and construction of new pavement with new or recycled materials.	Airport - Capital Projects (Fund 469)	538,861	-	-	-	-	-	538,861
2025 Helistop Painting and Fireproof Coating	P12970	The scope of project includes, but not limited to, mobilization, maintenance of traffic, hand washing, cleaning, and application of the fireproof material on the space frame. The work also includes washing, preparation, and painting of the space frame under the heliport deck. The project also requires protection of the pedestrians and properties during entire construction schedule.	Airport - Capital Projects (Fund 469)	33,506						33,506
FXE Localizer Relocation Project	P13025	Federal Aviation Administration (FAA) has advised Fort Lauderdale Executive Airport (FXE) to relocate the antenna array outside of the runway safety area. In addition to the antenna array relocation, the project will also involve the relocation of the equipment shelter and a review of the safety area's grading to review compliance with FAA advisory circulars.	Airport - Capital Projects (Fund 469)	-	500,000	-	-	-	-	500,000

Ambulance and Rescue Service										
Emergency Medical Sub-Station #88	P12328	The purpose of this project is to construct a Fire Rescue Station located on or about Federal Highway in the region that is south of Broward Boulevard. This additional station is needed to provide enhanced Emergency Fire/Medical Services in the downtown district and in the areas along south Federal Highway.	General Capital Projects (Fund 331)	4,664,261	5,102,849	-	-	-	-	9,767,110
Temporary Trailer for the Ocean Rescue Headquarters	P12866	This project funds a trailer to serve as a temporary headquarters for Fort Lauderdale Ocean Rescue. The trailer will accommodate all 30 personnel and their equipment, featuring office space for four workstations, day-use storage lockers for lifeguards, radio charging stations, a time clock, and emergency rescue equipment such as medical bags and oxygen tanks. An outdoor area will be included to serve as a shower and rinse-off station for personnel and equipment. The trailer will be located adjacent to the Las Olas Garage, which will be used for secure storage of personal and city-owned vehicles, including pickup trucks, all-terrain vehicles, and a utility terrain vehicle. The garage will also serve as a secure storage area for essential gear and equipment, such as paddleboards, rescue tubes, and other operational equipment.	General Capital Projects (Fund 331)	185,405	-	-	-	-	-	185,405
		Ambulance and Rescue Service Total		**4,849,666**	**5,102,849**	**-**	**-**	**-**	**-**	**9,952,515**
Bridge										
Laguna Terrace Over Diane River Bridge Replacement	NEW-FY 2023058	This project involves replacing the Laguna Terrace Bridge, which spans the Diane River. The existing structure is a 140-footlong, five-span bridge with a vehicular deck supported by double tee concrete beams. The bridge is approximately 29.5 feet wide, accommodating two lanes of traffic. A single sidewalk is located on the west side of the bridge.	General Capital Projects (Fund 331)	-	-	-	-	-	3,765,340	3,765,340
West Lake Drive Over Diane River Bridge Replacement	NEW-FY 2023059	This project involves replacing the West Lake Drive Bridge over the Diane River. The existing bridge is 140 feet long with five spans, supported by double tee concrete beams. It has a deck width of approximately 25.9 feet, accommodating two lanes of traffic. A single sidewalk is located on the west side of the bridge.	General Capital Projects (Fund 331)	-	-	-	-	-	3,765,340	3,765,340
Bridge Restoration	P12010	This project is for the restoration of bridges using epoxy coating. The funding will be used to repair concrete spalls, cracks, replacement of expansion joints, bulkheads, and concrete piles. The work will include replacement and treatment of corroded rebars and other repairs as identified in the Bridge Master Plan.	General Capital Projects (Fund 331)	1,309,586	2,095,292	1,500,000	2,100,000	2,400,000	2,000,000	11,404,878
Surtax-Bridge Replacement at South Ocean Drive	P12087	This project is for the replacement of an existing bridge at South Ocean Drive. The bridge is 80-feet long by 36-feet wide. The City's bridge was built in 1952. The project will be designed with Fiscal Year 2015 funding and then will accumulate funding for replacement costs. The City is responsible for maintaining 52 bridges throughout the City. Florida Department of Transportation (FDOT) funded the design of the bridge and the design was complete in 2008. FDOT has not programmed replacement funds in its five year capital program.	General Capital Projects (Fund 331)	51,225	-	-	-	-	-	51,225
			Transportation Surtax Fund (Fund 338)	284,614	-	-	-	-	-	284,614
West Lake Drive Bridge Restoration	P12299	This project is for the restoration of West Lake Drive Bridge, which was built in 1964. The bridge is 28.9 foot long, single span, and has pre-stressed concrete slab. The bridge has a roadway width of 27.9 feet and carries two (2) lanes of traffic. West Lake Drive Bridge is located on an urban collector roadway in a residential neighborhood. There are 4.5 foot wide sidewalks on each side of the bridge.	General Capital Projects (Fund 331)	27,336	-	-	-	-	-	27,336
NE 1st Street Bridge Replacement	P12597	This project is for a full bridge replacement at NE 1st Street over the Stranahan Lake due to existing City damaged infrastructure. The bridge is a 44-feet long, two-span, steel multi-girder beam bridge that was constructed in 1940. The bridge has a roadway width of 24.1 feet and carries two lanes of traffic in a residential neighborhood. The work will include removing and replacing the vehicular and pedestrian structure and installing a new bridge with an upgraded structure to meet Florida Department of Transportation (FDOT) compliance standards.	General Capital Projects (Fund 331)	2,660,741	5,653,857	-	-	-	-	8,314,598
Castle Harbor Isle Bridge Design and Replacement	P12641	This project is for the design and construction of the Castle Harbor Isle Bridge. The project scope will include the immediate repair of the two structurally weak points on the bridge and the design construction and in-house project management fees for the bridge replacement. Construction is scheduled for FY 2031 based on the Master Plan Recommendation and FDOT rating.	General Capital Projects (Fund 331)	7,426,999	(6,800,000)	-	-	-	-	626,999
Swing Bridge 865748 Electrical And Mechanical Rehabilitation	P12730	The scope of the work consists of the cleaning and rust removal from the mechanical gears of the swing bridge and the relocation of the electrical box attached to the bridge.	General Capital Projects (Fund 331)	7,040	-	-	-	-	-	7,040

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Bayview Drive Bridge Over Longboat Inlet Replacement	P12790	This project is for the replacement of the Bayview Drive bridge. This bridge is a 20-foot-long single span reinforced concrete slab bridge constructed in 1962. The 42-foot-wide bridge has a roadway width of 28.3 feet and carries two (2) lanes of traffic. Additionally it has two (2) 2.9-foot-wide sidewalks separated from the roadway by a raised curb in a residential neighborhood.	General Capital Projects (Fund 331)	3,109,399	-	-	7,835,172	-	-	10,944,571
SE 13th Street Bridge Replacement	P12791	This project is for the repair/replacement of the SE 13th Street bridge. The bridge is a 180.5 foot long, nine (9) span, reinforced concrete double T-beam bridge constructed in 1952. The bridge has a roadway width of 21 feet and carries two (2) lanes of traffic in a residential neighborhood. There is a 2.5 foot sidewalk on the south side of the bridge. This bridge serves as the only entry point for residences east of the bridge.	General Capital Projects (Fund 331)	1,193,268	-	-	-	9,478,423	-	10,671,691
West Lake Drive Bridge over Mercedes River Replacement	P12858	This project is for the replacement of the West Lake Drive Bridge (#865774), spanning over the Mercedes River. The main bridge is reinforced concrete. The bridge is approximately 150-feet long by 30-feet wide, with a narrow 2.5-foot sidewalk on one side. The two-lane bridge serves as the only access to the island and is a designated school bus route.	General Capital Projects (Fund 331)	90,974	-	3,662,072	-	-	-	3,753,046
			Miscellaneous Federal/State/County Grants (Fund 129)	-	-	7,662,586	-	-	-	7,662,586
SE 7th Street Bridge over Rio Cordova Replacement	P12859	This project is for the replacement of the SE 7th Street Bridge, spanning over the Rio Cordova River. The existing bridge is 120-feet long by 36-feet wide with sidewalks on both sides. This two-lane bridge serves as the only vehicular access point to the island.	General Capital Projects (Fund 331)	125,575	-	3,662,072	-	-	-	3,787,647
			Miscellaneous Federal/State/County Grants (Fund 129)	-	-	7,662,586	-	-	-	7,662,586
West Lake Drive Bridge over Estelle River Replacement	P12860	This project is for the replacement of the West Lake Drive Bridge (#865771), spanning over the Estelle River. The main bridge material is primarily reinforced concrete. The bridge is approximately 140-feet long by 30-feet wide, with a narrow 2.4-foot sidewalk on one side. The two-lane bridge serves as the only access to the island and is a designated school bus route.	General Capital Projects (Fund 331)	122,850	-	3,662,072	-	-	-	3,784,922
			Miscellaneous Federal/State/County Grants (Fund 129)	-	-	7,662,586	-	-	-	7,662,586
West Lake Drive Bridge over Lucille River Replacement	P12861	This project is for the replacement of the West Lake Drive Bridge, spanning over the Lucille River. The main bridge is primarily reinforced concrete. The bridge is approximately 184-feet long by 30-feet wide, with a narrow 3-foot sidewalk on one side. The two-lane bridge serves as the only access to the island and is a designated school bus route.	General Capital Projects (Fund 331)	28,980	-	3,662,072	-	-	-	3,691,052
			Miscellaneous Federal/State/County Grants (Fund 129)	-	-	7,662,586	-	-	-	7,662,586
SE 8th Street Bridge Replacement	P12863	This project is for the repair and replacement of the SE 8th Street bridge. The initial phase of funding will support the repair needs and the bridge will undergo evaluation for replacement.	General Capital Projects (Fund 331)	2,254,264	-	-	-	-	-	2,254,264
SW 11th Ave Swing Bridge	P12912	This project funds the rehabilitation of SW 11th Avenue Swing Bridge. The scope of the project includes making adjustments to the alignment of the bridge and to the locking mechanisms.	General Capital Projects (Fund 331)	500,000	-	-	-	-	-	500,000
		Bridge Total		**19,192,851**	**949,149**	**46,798,632**	**9,935,172**	**11,878,423**	**9,530,680**	**98,284,907**
City Facilities										
Facility Assessment - Roofing Priorities	P12161	This project supports the repair and replacement of roofs, roof finishes, roof openings, gutters, and downspouts at all City facilities.	General Capital Projects (Fund 331)	220,328	500,000	500,000	700,000	700,000	700,000	3,320,328
Facility Assessment - HVAC Priorities	P12162	This project supports the repair and replacement of all equipment distribution systems controls and energy supply systems required for the following: heating, ventilating, and air conditioning (HVAC); electrical distribution (including panels); lighting end devices and emergency power generation; as well as plumbing fixtures and domestic water distribution at all City facilities.	General Capital Projects (Fund 331)	280,613	900,000	900,000	600,000	900,000	900,000	4,480,613
Facility Assessment - Exterior Repair / Construction	P12163	This project supports the repair and replacement of deficiencies of the exterior of City facilities. Key areas of improvement include the following: exterior load bearing walls, windows, columns, finishes (i.e., stucco), floor construction, structural frames, roof frameworks, parking lots, fencing, retaining walls, interior windows, doors, interior finishes of walls, floors, ceilings, staircases, and handrails.	General Capital Projects (Fund 331)	196,079	250,000	250,000	700,000	600,000	600,000	2,596,079
Facility Assessment - Interior Repair/Construction	P12164	This project supports the repair and replacement of interior windows, doors, interior finishes of walls, floors, ceilings, stair construction, and handrails at all City facilities.	General Capital Projects (Fund 331)	433,750	250,000	250,000	700,000	600,000	600,000	2,833,750
DSD Building - Cooling System Replacement	P12267	This project funds the replacement of the Heating Ventilation and Air Conditioning (HVAC) system at the Department of Sustainable Development as follows; Replace four (4) cooling units on roof. Replace indoor air-handling unit. The project shall include modifications and cleaning of existing duct system and replacement of some ducts energy efficiency improvements test and balance; and temporary replacement of 2 outdoor units.	Building Permits - CIP (Fund 143)	1,518	-	-	-	-	-	1,518
GTL WWTP Fuel Island Improvements	P12363	This project is for the installation of a canopy over the fuel island to protect the fuel dispenser and fuel tracking system from inclement weather. Additionally, the project will address potential fuel spills at the fuel island by adding an oil/water system to prevent contamination of the sewer and storm drainage system.	Vehicle Rental - Capital Projects (Fund 584)	37,657	-	-	-	-	-	37,657
Fire Station 53 Fuel Island Improvements	P12432	This project is for improvements at the fuel terminal at Fire Station 53 to include replacement of the irreparable, obsolete fuel management system, replacement of the fuel pump sump, installation of a fuel level monitoring system and cleaning of the inner lining of the diesel tank and the existing fuel.	Vehicle Rental - Capital Projects (Fund 584)	1,170						1,170
Public Works Joint Facility	P12446	This project is for the design-build of a new, joint Public Works facility (offices and storage) as well as new access roads for the stormwater operations team, the water meter shop team, and the road repair and maintenance team.	General Capital Projects (Fund 331)	869,341	-	-	-	-	-	869,341
			Stormwater - Capital Projects (Fund 471)	1,579,443	-	-	-	-	-	1,579,443
			Water and Sewer - General Capital Projects (Fund 454)	26,438	1,520,000	-	-	1,212,552	-	2,758,990

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Utilities Central Warehouse	P12525	This project is for the construction of an approximately 5000 square foot warehouse at the Public Works Administration Facility.	Water and Sewer - General Capital Projects (Fund 454)	1,500,000	-	-	-	-	-	1,500,000
Utilities Operation Center	P12526	This project is for the construction of a new Utilities Emergency Operations Center within the existing Administration Building, located at 949 NW 38th Street. This project will also enable the renovation of the Administration Building as a whole.	Water and Sewer - General Capital Projects (Fund 454)	5,311,486	-	-	-	-	-	5,311,486
Water Tower Lighting	P12545	As part of the water tower rehabilitation project, the Commission gave direction to move forward on the color scheme along with a decorative lighting plan. With the bid, the lighting component came in over budget so it was removed from the final award and only the tower rehab and painting moved forward. This project is for the installation of the decorative lighting on the water tower.	General Capital Projects (Fund 331)	-	-	-	644,000	-	-	644,000
Greg Brewton Center (DSD)	P12560	The Greg Brewton Department of Sustainable Development building is a City building that has been in service for over 15 years. The building and associated parking areas were purchased by the building fund in February 2020. As a result of this purchase the Department of Sustainable Development (DSD) will consolidate capital improvement projects focused on building upgrades/improvements delayed or deferred due to funding.	Building Permits - CIP (Fund 143)	20,543,252	-	-	-	-	-	20,543,252
Plant A Stormwater Treatment Facility Upgrades	P12700	This project will provide upgrades addressing environmental sustainability and stormwater issues for the Plant A facility site. These upgrades include new stormwater infrastructure, recycling, debris collection, and water quality treatment.	Sanitation Operations - CIP (Fund 410)	215,034	-	-	-	-	-	215,034
			Stormwater - Capital Projects (Fund 471)	557,696	-	-	-	-	-	557,696
City Hall Replacement	P12864	The project includes the phase one effort of planning for the replacement of City Hall. Phase one includes project management, design, permitting, and bidding of the project.	General Capital Projects (Fund 331)	8,808,995	1,000,000	-	-	-	-	9,808,995
Public Works Administration Building Elevator Upgrades	P12898	This project is for the removal and replacement of an obsolete elevator control and mechanical components to modernize the elevator serving the Public Works Administration Building. As part of this work, the City's elevator repair company will install a door position monitoring system which is a safety system required by the Broward County Elevator Inspection Division.	Water and Sewer - General Capital Projects (Fund 454)	84,250	-	-	-	-	-	84,250
Fleet Maintenance Building Roof	P12918	This project is to install a new roofing system including insulation, asphalt, drip edge, and top coating for the Fleet Maintenance Building roof that is in failed condition.	General Capital Projects (Fund 331)	1,751,936						1,751,936
Radio Frequency Wireless Network Redundancy	P12921	This project is to implement a radio-frequency/microwave wireless network connection to ensure that specific City of Fort Lauderdale locations have a secondary connection to the City's network for redundancy.	General Capital Projects (Fund 331)	899,000						899,000
Fire Station #29 Air Conditioner Replacement	P12922	The AC units at FS 29 are at the end of their lives. Historically, the roof top AC units begin to fail after 10 years , with increased frequency of interrupted operation in the subsequent years. Currently, a condenser coil in one of the AC units is leaking, the heat transfer fins in all condensers are showing signs of corrosion, and various mechanical components have failed. These units need to be replaced in order to eliminate complete loss of the fire station cooling system. The delivery time of the replacement AC system is four to six months. So, loss of the cooling system, would significantly impact the effective operation of FS 29.	General Capital Projects (Fund 331)	5,300						5,300
Public Works Administration Building AC Ductwork Replacement	P12947	This project finances the replacement of the heating, ventilation, and air-conditioning (HVAC) ductwork linked to the newly installed air-conditioning system at the Public Works Administration Building. Properly installed and well-maintained air ducts are a key component of indoor air quality. In addition to replacing the ductwork, the project also includes the removal and replacement of ceiling grids, ceiling tiles, and light fixtures. This ensures a comprehensive upgrade to the building's infrastructure.	Water and Sewer - General Capital Projects (Fund 454)	795,000	-	-	-	-	-	795,000
18 NW 1st Avenue Property Purchase	P12960	The City is seeking to acquire the property with general fund dollars for City use. The future intent for the property is to be determined. The purchase price of the property is $3,132,000.	General Capital Projects (Fund 331)	3,120,000	(3,120,000)	-	-	-	-	-
Remediation at Public Work Administrative Building	P12975	This is the remediation of the entire Public Works Administrative Building following the testing report from Terracon for Mold.	Water and Sewer - General Capital Projects (Fund 454)	150,529						150,529
Uninterruptible Power Supply Remediation and Redundancy	P13035	This project is to add an additional Uninterruptible Power Supply (UPS) for the Citywide Data Center at the Fort Lauderdale Emergency Operations Center (FL-EOC). It includes funds to secure an engineering firm to design a redundant backup power scheme and implementation funding as well.	General Capital Projects (Fund 331)	-	200,000	800,000	100,000	-	-	1,100,000

Comprehensive Planning										
Kronos Upgrade	P11922	The City currently utilizes the Kronos timekeeping software system, primarily for Public Works and Parking employees. This project aims to enhance efficiency by introducing an electronic leave request workflow and by increasing the deployment of time capture devices for those employees who still rely on manual time cards.	Central Services - CIP (Fund 585)	813,983	-	-	-	-	-	813,983
Utilities Asset Management System	P12190	This project is for the purchase and implementation of a Utilities Geographic Information System (GIS) Centric Asset Management System for stormwater, distribution and collection, and treatment assets throughout the City. The software system will include long-range planning, life-cycle costing, proactive operations, maintenance, and capital replacement plans based on cost-benefit analysis.	Central Regional Wastewater System (Fund 455)	329,372	-	-	-	-	-	329,372

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Bulk Petroleum Fluid Tanks at Fleet Services	P12889	This project will fund the purchase and installation of three (3) additional petroleum bulk storage tanks as well as the refurbishment of the one (1) existing bulk petroleum storage tank in the Maintenance Bays at Fleet Services. These tanks will be used to store fluids such as engine and hydraulic system additives as well as oils used in larger volume by Fleet Services. With the additional storage tanks, a bulk delivery system will be added to include the plumping. Additionally, hose reels and dispensing nozzles will be added, with metering valves to track the amount of fluid dispensed. The reels and nozzles will also be in closer proximity to the vehicle maintenance work area.	Vehicle Rental - Capital Projects (Fund 584)	41,232	-	-	-	-	-	41,232

Conservation and Resource Management										
C-51 Reservoir	P12564	The C-51 was first conceptualized in the 1992 Everglades Restoration Plan, which aimed to reduce discharges into the Lake Worth Lagoon. Since 2006, Broward County, Palm Beach County, and other Lower East Coast area water providers have worked collaboratively to develop the reservoir. Designed as a regional alternative water supply, the C-51 Reservoir will store excess stormwater runoff from the wet season for use during dry season.	Water and Sewer - General Capital Projects (Fund 454)	90,130	-	-	-	-	-	90,130
Solar Panel Installation Program at City Facilities	P13013	As part of the City's Net Zero Plan, the Sustainability Division is seeking an investment of $100,000 to initiate a groundbreaking pilot program for the installation of solar panels at one to two City facilities. This funding is crucial for the design and installation of innovative renewable energy systems that will not only empower the City to transition to clean energy but also significantly lower utility costs while advancing the City's commitment to achieving net zero greenhouse gas (GHG) emissions.	General Capital Projects (Fund 331)	-	100,000	100,000	100,000	100,000	100,000	500,000
		Conservation and Resource Management Total		**90,130**	**100,000**	**100,000**	**100,000**	**100,000**	**100,000**	**590,130**
Financial and Administrative										
Enterprise Resource Planning (ERP)	P11937	The Finance Department is seeking an Enterprise Resource Planning (ERP) software, which is principally an integration of business management practices and modern technology. In simpler words, an ERP is a large-scale software architecture that supports the streaming and distribution of geographically scattered enterprise information across all of the City's departments. An ERP system's key objective is to integrate information and processes from all functional divisions of an organization, and merge them for effortless access and structure.	Central Services - CIP (Fund 585)	66,918	273,000	240,400	275,000	225,000	145,000	1,225,318
			General Capital Projects (Fund 331)	18,599	-	-	-	-	-	18,599
Access Control Upgrade - Citywide	P12305	Access control is utilized in buildings throughout the City to limit and track access to various facilities. This project aims to upgrade and consolidate access control systems throughout the City into one city-wide access control platform, allowing staff to centrally manage all facilities from one system and one location. This platform will be hosted on enterprise grade hardware and provide necessary system redundancy to this critical system.	Central Services - CIP (Fund 585)	246,562	-	-	-	-	-	246,562
New Utility Billing Software	P12946	The Finance Department is seeking cloud-based utility billing software, which is a digital platform that is hosted and accessed online to manage and automate billing processes. Cloud-based utility billing software is a software-as-a-service (SaaS) that simplifies billing operations and improves operational efficiency by storing data in the cloud where billing information is accessible from any location at any time, making it convenient when working on-site or remotely. A cloud-based utility billing software contains robust security measures, including advanced encryption and compliance with strict data protection regulations. Some key objectives for cloud-based utility billing software are automatic system updates, scalability, improved efficiency, enhanced security, seamless integrations with other systems, and better customer experience.	Water and Sewer - General Capital Projects (Fund 454)	1,621,165	-	-	-	-	-	1,621,165

Lifeguard Tower Replacements	P12503	The Fort Lauderdale Ocean Rescue Division covers three (3) miles of public beach, with twenty (20) lifeguard towers spaced approximately 265 yards apart. The Fire Rescue Department is requesting the implementation of a funded replacement plan for existing lifeguard towers.	General Capital Projects (Fund 331)	203,501	209,727	224,408	235,628	247,409	259,779	1,380,452
Temporary Fire Station 13	P12509	This project is for the relocation of the temporary Fire Station 54 trailers to house temporary Fire Station 13 while the new station is rebuilt substantially where it exists today.	General Capital Projects (Fund 331)	71,778	-	-	-	-	-	71,778
			Parking System - Capital Projects (Fund 463)	51,130	-	-	-	-	-	51,130
Fire Station 54 HVAC System	P12735	This project is designed to become the permanent solution to the humidity and indoor condensation conditions created by the HVAC system from the original design of Fire Station #54.	General Capital Projects (Fund 331)	21,431	-	-	-	-	-	21,431
Fire Station 54 Generator Automatic Transfer Switch Replacement	P12854	This project is requesting funds for the Replacement of the automatic transfer switch for the generator at Fire Station 54.	General Capital Projects (Fund 331)	8,866	-	-	-	-	-	8,866

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
P3 Heron Bay Garage	P13012	This project requests funding to support the City's involvement in a Public-Private Partnership (P3) to construct a fire-rescue substation within the Heron Garage on Las Olas Boulevard. The station will feature two servicing bays and accommodations for up to seven (7) fire fighters. This fire station will serve the Las Olas corridor and surrounding areas as needed The developer will provide the structure of the building and will be responsible for certain specified elements of the construction, including hard costs, as defined in the agreement. Upon completion of construction, the City will be responsible for finishing the interior of the station and equipping it for full operational readiness.	General Capital Projects (Fund 331)	-	2,000,000	-	-	-	-	2,000,000
		Fire Control and Ambulance Rescue Services Total		**12,060,503**	**5,900,811**	**224,408**	**235,628**	**247,409**	**259,779**	**18,928,538**
Flood and Stormwater Control										
NE 7th Street and NE 2nd Avenue Stormwater Improvements	FY20200820	This project funds the installation of stormwater infrastructure along NE 7th Street, from NE 1st Avenue to NE 3rd Avenue. The existing system is undersized, structurally deficient, and lacks interconnectivity, resulting in frequent flooding of the surrounding area during moderate to heavy rainfall events. The scope of this project includes interconnecting the stormwater system, installing additional exfiltration trenches and structures, and providing a positive outfall at NE 3rd Avenue to improve system performance and alleviate flooding.	Stormwater - Capital Projects (Fund 471)	-	-	927,428	-	-	-	927,428
1343-1349 Chateau Park Drive Stormwater Improvements	FY20210950	This project is for the installation of Stormwater Infrastructure along Château Park Drive. This project's scope includes the design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	-	-	471,239	-	-	471,239
1108 SW 25th Avenue Stormwater Improvements	NEW - FY 2023049	This project is for new stormwater drainage infrastructure along SW 25th Avenue. This project's scope includes the design and construction of new stormwater infrastructure to alleviate historical flooding. The proposed conceptual design encompasses enhancements such as the creation or improvement of swale areas, installation of drainage structures, piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	-	1,120,510	-	-	-	1,120,510
2739 NE 14th Street Stormwater Improvements	NEW - FY 2023051	This project is for new stormwater drainage Infrastructure along NE 14th Street. This projects scope includes the design and construction of new stormwater infrastructure to alleviate historical flooding. The proposed conceptual design encompasses enhancements such as the creation or improvement of swale areas, installation of drainage structures, piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	-	431,550	-	-	-	431,550
6711 NE 21st Avenue Stormwater Improvements	NEW - FY 2023054	This project is for new stormwater drainage infrastructure in NE 21st Avenue in the Imperial Point Neighborhood. This project's scope includes the design and construction of new stormwater infrastructure to alleviate historical flooding. The proposed conceptual design encompasses enhancements such as the creation or improvement of swale areas, installation of drainage structures, piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	-	1,439,550	-	-	-	1,439,550
Shady Banks Stormwater Improvements	NEW-058895	This project is for the assessment, design, permitting and construction of stormwater improvements within the Shady Banks Neighborhood. The focus will be on the area encompassing the intersection of SW 14th Street, SW 18th Avenue and SW 13th Court. The proposed enhancements involve the installation of a new drainage system, equipped with tidal valves, along with a connection to an existing outfall for discharge into the intercoastal waterway.	Stormwater - Capital Projects (Fund 471)	-	-	-	1,051,050	-	-	1,051,050
804 S Rio Vista Boulevard Stormwater Improvements	NEW-069492	This project is for the design and construction of new Stormwater Infrastructure along South Rio Vista Boulevard. This project's scope includes the design and construction of new stormwater infrastructure to alleviate historical flooding. The proposed conceptual design includes new or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	333,900	3,000,000	3,333,900
SW 5th Place Stormwater Improvements	NEW-072407	This project is for the design and construction of new Stormwater Infrastructure along SW 5th Place. This project's scope is for design and construction of new stormwater infrastructure to alleviate historical flooding. The proposed conceptual design includes new or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	697,900	-	697,900
SW 11th Court Stormwater Improvements	NEW-200665	This project is for the design and construction of new Stormwater Infrastructure along SW 11th Court. This project's scope is for design and construction of new stormwater infrastructure to alleviate historical flooding. The proposed conceptual design includes new or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	630,003	-	630,003
NW 15th Avenue Stormwater Improvements	NEW-218705	This project is for the installation of new stormwater infrastructure including stormwater mains and catch basins to connect existing ditch bottom catch basins on NW 22nd Street, NW 21st Street, NW 20th Court, NW 20th Street, and NW 19th Court to NW 15th Avenue.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	-	946,489	946,489
SE 12th Street Stormwater Improvements	NEW-317019	This project funds the replacement of existing stormwater infrastructure along SE 12th Street, extending from Cordova Road westward, and along Cordova Road between SE 12th Street and SE 11th Street. The aim of the project is to alleviate documented flooding in the area. The proposed conceptual design encompasses enhancements such as new or improved swale areas, the installation of drainage structures and piping, the restoration of adjacent roadways, and the implementation of additional stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	622,628	-	622,628
Coconut Canal Dredging	NEW-353063	The project consists of the maintenance dredging of accumulated bottom sediments the Coconut Canal from SW 18th St to SW 21st Ct. The dredging includes removal of debris, garbage, exotic plants, and other impediments to normal drainage.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	-	2,906,409	2,906,409
SW 5th Avenue and SW 2nd Street Stormwater Improvements	NEW-429333	The scope of this project entails repairing an existing 72-inch RCP (reinforced concrete pipe) drainage pipe along SW 5th Avenue, spanning from Broward Blvd to Esplanade Park. The repair will utilize cured-in-place pipe lining (CIPP) or other trenchless technology methods.	Stormwater - Capital Projects (Fund 471)	-	-	-	1,850,780	-	-	1,850,780
Stormwater Station #1 - Rehabilitation & Safety Improvements	NEW-439992	This project will provide the necessary mechanical, electrical repairs, and safety improvements recommended by the Engineering Consultant GHD and Hazen and Sawyer.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	-	733,110	733,110

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
900 NE 20th Avenue Stormwater Improvements	NEW-471001	This project funds the design, permitting and construction of proposed stormwater improvements along NE 20th Avenue. The stormwater improvement will include the upsizing of existing infrastructure to alleviate flooding. Staff will be upsizing the existing 18-inch high-density polyethylene piping (HDPE) and 24-inch reinforced concrete piping (RCP) to 24-inch high-pressure (HP) storm piping. In addition, staff will upsize the existing 15-inch RCP pipe to an 18-inch HP storm pipe and install five (5) catch basins along with one (1) 24-inch tidal valve.	Stormwater - Capital Projects (Fund 471)	-	-	-	582,330	-	-	582,330
SE 17 Street and Cordova Road Stormwater Improvements	NEW-500621	The scope of this project entails repairing an existing 96-inch RCP (reinforced concrete pipe) drainage pipe along Cordova Road, spanning from SE 18th Street to SE 16th Street, using cured-in-place piping lining (CIPP) or alternative trenchless technology methods. The existing pipe has joint damage, which is causing subsidence of the soils and the roadway above SW 17th Street and Cordova Road.	Stormwater - Capital Projects (Fund 471)	-	-	-	1,814,499	-	-	1,814,499
1630 NE 20th Street Stormwater Improvements	NEW-527833	This project funds the design and construction of new stormwater infrastructure along NE 20th Street. The aim of this project is to alleviate historical flooding throughout the area. The proposed conceptual design encompasses new or improved swale areas, the installation of drainage structures, piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	637,350	-	637,350
NE 33rd Street Stormwater Improvements	NEW-598159	This project is for the design and construction of new stormwater infrastructure along NE 33rd Street. This project's scope is for design and construction of new stormwater infrastructure to alleviate historical flooding. The proposed conceptual design encompasses enhancements such as the creation or improvement of swale areas, installation of drainage structures, piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	-	571,000	-	-	-	571,000
SW 30th Avenue Stormwater Improvements	NEW-604074	This project is for the design and construction of new stormwater infrastructure along SW 30th Avenue. This project's scope is for design and construction of new stormwater infrastructure to alleviate historical flooding. The proposed conceptual design encompasses enhancements such as the creation or improvement of swale areas, installation of drainage structures, piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	538,662	-	538,662
234 Plaza Las Olas Stormwater Improvements	NEW-650504	The Project includes the installation of new stormwater infrastructure to address documented flooding issues along Plaza Las Olas Staff will replace the existing 15-inch pipe, of unknown material, with a 15-inch high-pressure (HP) storm pipe. In addition, staff will install a new 24-inch reinforced concrete pipe (RCP), three (3) catch basins, and one (1) French Drain.	Stormwater - Capital Projects (Fund 471)	-	-	338,146	-	-	-	338,146
Kentucky Ave and NW 35th Ave Stormwater Improvements	NEW-689369	This project funds the replacement of an aging elliptical pipe with new, improved stormwater infrastructure, including upgraded catch basins, manholes, and asphalt restoration. This project aims to enhance drainage capacity and alleviate persistent flooding along Kentucky Ave and NW 35th Ave between NW 1st Ct and Auburn Blvd.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	-	919,309	919,309
SW 22nd Terrace Stormwater Improvements	NEW-719645	This project is for the installation of new stormwater infrastructure including stormwater mains and catch basins along SW 22nd Terrace, between Marina Bay Drive East and the frontage road north of Marina Mile Boulevard. This area currently lacks stormwater infrastructure.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	-	937,809	937,809
2600 SW 18th Terrace Stormwater Improvements	NEW-733847	This project is for the design and construction of new Stormwater Infrastructure along SW 18th Terrace. This project's scope is for design and construction of new stormwater infrastructure to alleviate historical flooding. The proposed conceptual design encompasses enhancements such as the creation or improvement of swale areas, installation of drainage structures, piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	396,600	-	396,600
NE 53 St., Middle River Dr., and S. Rio Vista Blvd Outfall R	NEW-862126	This project will rehabilitate existing stormwater outfall pipes and associated infrastructure across multiple locations using trenchless technology techniques. The locations for this project were determined based on staff's inability to perform open-cut installations within the existing drainage easements. The deterioration of the existing stormwater mains has led to soil subsidence and obstruction of the intended drainage flow.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	412,000	-	412,000
NW 10th Terrace and Adjacent Area Stormwater Improvements	NEW-865495	This project funds the inspection and cleaning of existing infrastructure through desilting and a closed-circuit television (CCTV) survey to assesses its condition. Additionally, it supports the removal of unnecessary tees and the installation of new stormwater infrastructure to create conventional drainage configurations.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	-	1,167,594	1,167,594
1733 NW 3rd Avenue Stormwater Improvements	NEW-916627	This project is for the design and construction of new stormwater infrastructure along NW 3rd Avenue. This project scope is for design and construction of new stormwater infrastructure to alleviate historical flooding. The proposed conceptual design encompasses enhancements such as the creation or improvement of swale areas, installation of drainage structures, piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	380,000	-	380,000
Stormwater Station #2 - Rehabilitation & Safety Improvements	NEW-942198	This project is to make necessary safety and rehabilitation improvements at Storm Station #2, following the recommendations made by engineering consultants GHD and Hazen and Sawyer.	Stormwater - Capital Projects (Fund 471)	-	-	-	-	-	772,530	772,530
Riveroaks Stormwater Park	P11419	This project focuses on enhancing stormwater infrastructure in the River Oaks neighborhood through the development of a dedicated stormwater park. The conceptual design includes constructing a new berm, establishing water control basins, and implementing an underground conveyance system, all of which will contribute to the creation and functionality of the stormwater park.	General Capital Projects (Fund 331)	38,485	-	-	-	-	-	38,485
			Park Impact Fee Projects (Fund 350)	12,296	-	-	-	-	-	12,296
			Stormwater - Capital Projects (Fund 471)	376,367	-	-	-	-	-	376,367
Edgewood Stormwater Improvements	P11842	This project consists of providing new stormwater infrastructure for the Edgewood Neighborhood area. This project funds a survey, conceptual design, final design, hydraulic modeling, permitting, and construction. This area is bound by State Road 84 to the north, Florida East Coast railroad to the east, I-95 to the west, and I-595 to the south.	2019 Stormwater Bonds Construction (Fund 473)	249,976	-	-	-	-	-	249,976

City of Fort Lauderdale

Dorsey Riverbend Area Stormwater Improvements	P11845	This project consists of providing improved stormwater infrastructure for the Dorsey Riverbend Neighborhood area. This project will include a survey conceptual design, final design, and hydraulic modeling. This area is bound by NW 6th Street to the north, NW 7th Avenue to east, I-95 to the west, and Broward Boulevard to the south.	2019 Stormwater Bonds Construction (Fund 473)	4,175,039	-	-	-	-	-	4,175,039
			Stormwater - Capital Projects (Fund 471)	-						-
River Oaks Stormwater Improvements	P11868	This project is one of the seven priority neighborhoods that made up Phase 1 of the Stormwater Masterplan Program. The River Oaks neighborhood is currently under construction as part of the 1st tranche of neighborhoods for the project. This project is part of the in-kind water quality consent order. This project funds a survey, conceptual design, final design, hydraulic modeling, permitting, and installation of improved stormwater infrastructure in the River Oaks neighborhood. River Oaks is bounded by Davie Road, SW 9th Avenue, State Road 84, and Interstate 95.	2019 Stormwater Bonds Construction (Fund 473)	1,996,699	-	-	-	-	-	1,996,699
Southeast Isles Tidal and Stormwater Improvements	P12074	The purpose for this Southeast Isles project is to retrofit approximately 230 stormwater outfall locations with tidal back flow valves, which are necessary to alleviate tidal flooding in the neighborhoods located in the southeastern portion of Fort Lauderdale. The neighborhoods include Las Olas Isles, Seven Isles, Venice Isles, Nurmi Isles, Idlewyld, Sunrise Key, Navarro Isles, Riviera Isles, Rio Vista, Lauderdale Harbors, Harbordale, and Harbor Beach. Additional infrastructure improvements will also be provided to address stormwater flooding.	2019 Stormwater Bonds Construction (Fund 473)	31,020,569	27,500,000	-	-	-	-	58,520,569
			Stormwater - Capital Projects (Fund 471)	14,536	-	-	-	-	-	14,536
Victoria Park Tidal and Stormwater Improvements	P12082	This project funds a survey, conceptual and final design, hydraulic modeling, and construction of improved stormwater infrastructure for the Victoria Park Neighborhood area. This area is bound by Sunrise Boulevard to the north, Middle River to the east, Federal Highway to the west, and Broward Boulevard to the south.	2019 Stormwater Bonds Construction (Fund 473)	18,093,750	31,500,000	-	-	-	-	49,593,750
			Stormwater - Capital Projects (Fund 471)	16,473,027	-	-	-	-	-	16,473,027
Drainage Canal Dredging	P12264	This project includes the dredging of various canals throughout the City to provide proper flow of stormwater from drainage canals and channels. The work also includes the navigation of vessels and conveyance of stormwater in navigable canals. The scope of the project includes dredging the bottom canal channel to a maximum of five (5) feet below mean low water elevation. This will be completed to comply with the City's canal dredging criteria and ensure all stormwater outfalls are clear.	Stormwater - Capital Projects (Fund 471)	1,245,719	-	-	-	-	-	1,245,719
Piling Replacements Along New River	P12308	This project involves the replacement of timber pilings at various marina locations along the New River. The work will include the replacement of timber piles, installation of pile wraps, and the installation of pile caps. The scope of work encompasses the following sections of the New River: from 4th Avenue East to the Railroad Bridge, from the Railroad Bridge East to Andrews Avenue, from Andrews Avenue East to 3rd Avenue, from 3rd Avenue East to U.S. 1, and from Andrews Avenue East to 3rd Avenue, continuing from 3rd Avenue East to U.S. 1.	General Capital Projects (Fund 331)	61,947	-	-	-	-	-	61,947
Stormstation 1 Fixed Emergency Generators	P12478	This project funds the installation of a permanent generator to run the storm station pumps in the event of a electrical power outage.	Stormwater - Capital Projects (Fund 471)	1,784,132	-	-	-	-	-	1,784,132
Stormstation 2 Fixed Emergency Generators	P12479	This project funds the installation of a permanent generator to run the storm station pumps in the event of a electrical power outage.	Stormwater - Capital Projects (Fund 471)	1,233,562	-	-	-	-	-	1,233,562
1544 Argyle Drive Stormwater Improvements	P12615	This project includes the replacement and installation of new stormwater infrastructures at 1544 Argyle Drive. This project funds the design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	5,729	-	-	-	-	-	5,729
Bayview Dr. From Sunrise Blvd. to Oakland Park Blvd	P12709	This project is for the installation of new stormwater infrastructure and tidal control systems to address documented flooding issues along Bayview Drive from Sunrise Boulevard to Oakland Park Boulevard. Potential conceptual design elements may consist of new and/or improved swale areas, drainage structures, drainage piping, tidal value installation, and sod restoration.	Stormwater - Capital Projects (Fund 471)	67,353	-	-	-	-	-	67,353
NW 21st Avenue Pipe Rehabilitation	P12710	This project involves the rehabilitation of 1,450 linear feet of 54-inch reinforced concrete pipe along NW 21st Avenue, between Sistrunk Boulevard/NW 6th Street and the New River. The work will be conducted using advanced trenchless concrete spin casting techniques, minimizing surface disruption while ensuring durable and efficient pipe restoration.	Stormwater - Capital Projects (Fund 471)	113,317	-	-	-	-	-	113,317
SE 5th Ave - SE 15th Ave Tidal Valves Replacement	P12712	This project is for the installation of tidal valves #43-54, and other stormwater infrastructure, to alleviate tidal flooding between SE 5th Avenue and SE 15th Avenue in downtown Fort Lauderdale.	Stormwater - Capital Projects (Fund 471)	8,496	-	-	-	-	-	8,496

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Melrose Manors Neighborhood Improvements	P12719	This project provides for new stormwater infrastructure in the Melrose Manors and Riverland Civic Neighborhoods. Melrose Manors and Riverland Civic are bounded by SW 31 Ave to the west, Interstate 95 to the east, Davie Blvd to the south and Broward Blvd to the north. This project will fund an initial survey, conceptual design and final design.	2019 Stormwater Bonds Construction (Fund 473)	123,032	171,000,000	-	-	-	-	171,123,032
			Stormwater - Capital Projects (Fund 471)	1,586,978	-	-	-	-	-	1,586,978
Osceola Creek Restoration Project	P12743	The project consists of the restoration of the Osceola Creek from SW 32nd Place to Marina Blvd. The project's scope includes removal of debris garbage and other impediments to normal drainage. Maintenance dredging of accumulated bottom sediments, removal of exotic tree species, and mangrove trimming are also included as part of the scope for this project. This project is part of the in-kind water quality consent order.	2019 Stormwater Bonds Construction (Fund 473)	649,787	-	-	-	-	-	649,787
			Stormwater - Capital Projects (Fund 471)	564,863	-	-	-	-	-	564,863
River Oaks Stormwater Pump Stations	P12745	This project involves the construction of two (2) new stormwater pump stations within the River Oaks Preserve to enhance the stormwater infrastructure serving the Edgewood and River Oaks neighborhoods. Construction is anticipated to span approximately 2.5 years.	2019 Stormwater Bonds Construction (Fund 473)	1,394,010	-	-	-	-	-	1,394,010
NE 14 Street Stormwater Improvements	P12749	The drainage system in this area is undersized and does not have a positive outfall to the waterway. As part of this project, the system will be upsized and connected to an existing outfall to provide more efficient drainage attenuation.	Stormwater - Capital Projects (Fund 471)	21,038	-	-	-	-	-	21,038
NW 15 AVE Stormwater Improvements FXE	P12785	This project funds the design and construction of new stormwater improvements system on NW 15 Avenue between South Perimeter Road and NW 56th Street. The project will include survey, design, bidding and construction. The project will consist of installation of exfiltration trenches with perforated pipes, catch basin, swales, sod, pavement, and pavement markings. The project may also include regrading of existing swale and roadway.	Airport - Capital Projects (Fund 469)	1,916	-	-	-	-	-	1,916
			General Capital Projects (Fund 331)	6,459	-	-	-	-	-	6,459
NE 32nd Avenue and NE 30th Street Stormwater Improvement	P12815	This project provides for the installation of additional stormwater infrastructure in the Lauderdale Beach neighborhood, along NE 32 Ave W/NE 33 Ave E/NE 30 Ct S/NE 30 St, to help alleviate flooding from tidal events as well as to prevent permitted discharges from underground parking garages entering into the City's system. The scope of this project includes the design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	821,336	-	-	-	-	-	821,336
Riverland Road Stormwater Improvements	P12816	This project is for the installation of additional stormwater infrastructure to help alleviate flooding along the stretch of Riverland Road, between SW 26th Avenue and SW 31 Avenue, closest to the South Fork New River. The project scope is for design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	946,488	-	-	-	-	-	946,488
Sailboat Bend Stormwater Improvements	P12818	This project is for the installation of stormwater infrastructure along SW 2nd Court in order to alleviate ponding in the neighborhood. This project provides for the design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	708,500	-	-	-	-	-	708,500
Holly Heights Drive Stormwater Improvements	P12820	This project is to provide stormwater improvements for Holly Heights Drive and adjacent streets in Middle River Terrace Neighborhood. The projects scope includes the design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	734,976	-	-	-	-	-	734,976
Stormwater Masterplan - Phase 2	P12852	The Stormwater Master Plan - Phase 2 will include the design and permitting of the following neighborhoods: Harbour Isles, Flagler Village, Poinsettia Heights Shore, Sailboat Bend, Tarpon River, Imperial Point, Riverland Road, South Middle River, Shady Banks, Chula Vista, Croissant Park, Lake Ridge, Lauderdale isles, Melrose Park, Middle River Terrace, Riverland Manors-Woods, and Riverland Village.	Stormwater - Capital Projects (Fund 471)	250,503	100,000,000	-	-	250,000,000	-	350,250,503
			Stormwater - Capital Projects (Fund 471)	15,000,000	-	-	-	-	-	15,000,000
Tarpon River Stormwater Improvements	P12885	This project is for the analysis and design of stormwater improvements in the Tarpon River Neighborhood. The consultant will utilize the existing Interconnected Channel and Pond Routing (IPRC) model to assess the drainage infrastructure in the neighborhood and develop appropriate construction ready plans and specifications that can be bid out to contractors for implementation.	Stormwater - Capital Projects (Fund 471)	564,950	-	-	-	-	-	564,950
Harbor Isles Stormwater Improvements	P12886	This project is for the analysis and design of stormwater improvements in the Harbor Beach Neighborhood. The Consultant will be utilizing the existing Interconnected Channel and Pond Routing (IPRC) model to assess the drainage infrastructure in the neighborhood and develop construction ready plans and specifications that can be bid out to contractors for implementation.	Stormwater - Capital Projects (Fund 471)	567,880	-	-	-	-	-	567,880
NE 4th Street Drainage Improvements	P12887	This project is intended to be constructed alongside a Transportation and Mobility streetscape improvement project that will interconnect the existing drainage systems in the area on NE 4th Street between NE 3rd Avenue and US-1, ensuring flood protection and runoff conveyance for years to come.	Stormwater - Capital Projects (Fund 471)	508,615	-	-	-	-	-	508,615

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Watershed Asset Management Plan (WAMP) Condition Assessment	P12888	The City published its Watershed Asset Management Plan (WAMP) in December 2019. The initial plan development and implementation efforts were funded for five (5) years. In that time, the City made great strides in developing an improved asset registry; identifying critical assets and developing a Condition Assessment Plan In the next five (5) years, while continuing to refine the asset registry, the WAMP program will transition to the next phase to perform a condition assessment on all assets beginning with the most critical (ratings 3-5). Staff estimates that this effort will cost $18.75 million over the next five years. This condition assessment will include 190 miles of underground pipes and 14,500 discrete assets like catch basins and pump stations. As a strategic planning initiative mirroring similar efforts in water and wastewater, continuing to support the development of the storm water WAMP is part of the City's long-term vision.	Stormwater - Capital Projects (Fund 471)	7,499,608	3,750,000	3,750,000	3,750,000	3,750,000	-	22,499,608
Ponce de Leon Dr Stormwater Improvements	P12893	This project's scope includes design, permitting, construction of a 24 -inch stormwater pipe and drainage structures along Ponce de Leon Drive between US-1 and SE 9th Avenue. The proposed stormwater improvements will replace the existing 12-inch undersize pipe.	Stormwater - Capital Projects (Fund 471)	68,238	-	-	-	-	-	68,238
Las Olas Marina Seawall Replacement	P12895	The Las Olas Marina project has a seawall that is being replaced as part of the development. The developer, Suntex, is responsible for the seawall within the demised premise and the City is responsible for the seawall section outside of the demise premise. Suntex notified the City that the seawall conditions were worse than anticipated and recommended that the City consider replacing its portion at the same time. City staff recommend entering into a development agreement with Las Olas SMI for them to manage the project on behalf of the City.	General Capital Projects (Fund 331)	2,900,000	-	-	-	-	-	2,900,000
Chula Vista Stormwater Improvements	P12916	This project is for the design and construction of new Stormwater Infrastructure along SW 29th Avenue (Chula Vista) to alleviate historical flooding. The proposed conceptual design encompasses enhancements such as the creation or improvement of swale areas, installation of drainage structures, piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	4,913	-	-	-	-	-	4,913
5311 NE 15th Ave Stormwater Rehabilitation	P12926	This project includes design and construction of a 60-inch stormwater pipe in the drainage easement at 5311 NE 15th Avenue, west of NE 15th Avenue between NE 53rd Court and NE 53rd Street. The proposed stormwater improvements will rehabilitate the existing 60-inch deteriorating outfall pipe.	Stormwater - Capital Projects (Fund 471)	430,625						430,625
NE 32nd St & NE 33rd Ave Alleyway Stormwater Improvements	P12929	This project is for the design and construction of the replacement and improvements of stormwater infrastructure in City Commission District 1 south of the intersection of NE 33rd Avenue and NE 32nd Street. Existing stormwater infrastructure in NE 32nd Street Alleyway will be replaced and extended to connect to existing stormwater infrastructure at the intersection of NE 33rd Avenue and NE 32nd Street.	Stormwater - Capital Projects (Fund 471)	37,462						37,462
NW 30th Avenue and NW 17th Court Stormwater Improvements	P12950	This project is for the installation of Stormwater Infrastructure along NW 30th Avenue and NW 17th Court. This projects scope includes the design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	405,664	-	-	-	-	-	405,664
NE 56th Street and 22nd Avenue Stormwater Improvements	P12951	This project is for the installation of Stormwater Infrastructure along NE 56th Street and NE 22nd Avenue. This projects scope includes the design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	783,730	-	-	-	-	-	783,730
1390 SW 26th Terrace Stormwater Improvements	P12952	This project is for the design and construction of new stormwater infrastructure along SW 14th Street and SW 26th Terrace within the Flamingo Park neighborhood. This projects scope is for design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	708,270	-	-	-	-	-	708,270
1641 SW 28 Terrace Stormwater Improvements	P12953	This project is for the installation of stormwater infrastructure along SW 28th Terrace. This projects scope is for design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	332,084	-	-	-	-	-	332,084
1435 SW 9th Street Stormwater Improvements	P12955	This project is for the installation of stormwater infrastructure along SW 9th Street. The project scope includes the design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	391,482	-	-	-	-	-	391,482
1200 SE 20th Street Stormwater Improvements	P12956	This project is for the design and construction of new stormwater infrastructure along SE 20th Street from SE 10th Avenue to SE 14th Avenue in the Harbordale neighborhood. This project's scope is for the design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	669,599	-	-	-	-	-	669,599
1161 SW 30 Avenue Stormwater Improvements	P12957	This project is for the installation of stormwater infrastructure along SW 30th Avenue and SW 11th Court. This project's scope includes the design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	536,782	-	-	-	-	-	536,782
NW 9th Court Stormwater Improvements	P12958	This project funds the installation of additional stormwater infrastructure along NW 9th Court to help alleviate flooding. The new stormwater design will include the upsizing of drainage pipes, the installation of new drainage structures, the creation of new swales, and the repaving of adjacent roads.	Stormwater - Capital Projects (Fund 471)	300,214	-	362,350	-	-	-	662,564

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Stormwater Improvements at Lauderdale Memorial Park Cemetery	P13014	This project is for the installation of new stormwater infrastructure within the Lauderdale Memorial Park Cemetery. The existing system is undersized, structurally deficient, and not interconnected. For these reasons, the surrounding area and the City facilities located at the Cemetery experience flooding during moderate and heavy rainfall events. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Cemetery Operations - CIP (Fund 431)	-	184,806	588,060	-	-	-	772,866
TAM Stormwater Repair	P13023	This project includes stormwater drainage upgrades and parking lot resurfacing at 290 NE 3rd Ave, Fort Lauderdale, FL 33301. Work involves replacing undersized pipes and catch basins to improve drainage, prevent flooding, and reduce infrastructure damage. Parking lot improvements include pavement resurfacing, re-striping, and necessary repairs. The project aims to improve drainage efficiency, prevent flooding, extend the parking lot's lifespan, and enhance safety and accessibility for employees and visitors.	Parking System - Capital Projects (Fund 463)	-	150,000	-	-	-	-	150,000
Flagler Village Neighborhood Improvements	P13026	This project is for the analysis and design of stormwater improvements in the Flagler Village Neighborhood. The project includes the utilization of existing Interconnected Channel and Pond Routing Model (ICPR 4) to assess the drainage infrastructure in the neighborhood and develop construction ready plans and specifications that can be bid out to contractors for implementation.	Stormwater - Capital Projects (Fund 471)	-	672,409	-	-	-	-	672,409
1410-1415 SW 24th Court Stormwater Improvements	P13027	This project is for the design and construction of new stormwater infrastructure at 1410-1415 SW 24th Court. This location currently does not have stormwater infrastructure. This project's scope includes the design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	488,239	-	-	-	-	488,239
2175 NE 56th Street Stormwater Improvements	P13028	This project is for the design and construction of new stormwater infrastructure at 2175 NE 56th Street. This location currently does not have stormwater infrastructure. This project's scope includes the design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	635,162	-	-	-	-	635,162
811 NW 57th Place Stormwater Improvements	P13029	This project is for the design and construction of new stormwater infrastructure to alleviate historical flooding in City Commission District 1 along the 800 block of NW 57th Place. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	816,300	-	-	-	-	816,300
West Las Olas Stormwater Improvements	P13030	This project is for the design and construction of new stormwater infrastructure in the Sailboat Bend Neighborhood along 700 block of West Las Olas Boulevard. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	946,000	-	-	-	-	946,000
940 SW 8th Street Stormwater Improvements	P13031	This project is for the design and construction of new Stormwater Infrastructure along SW 8th Street. This projects scope includes the design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	537,705	-	-	-	-	537,705
Imperial Point Neighborhood Stormwater Improvement	P13032	This project is for the design and construction of new Stormwater Infrastructure throughout the Imperial Point Neighborhood. This projects scope is for design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	418,110	-	-	-	-	418,110
2420 Aqua Vista Blvd Stormwater Improvements	P13033	This project is for the design and construction of new Stormwater Infrastructure along Aqua Vista Blvd. This project's scope is for design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	548,940	-	-	-	-	548,940
Poinsettia Heights Stormwater Improvements - North Shore	P13034	This project is for the design and construction of new Stormwater Infrastructure in Poinsettia Heights North Shore Neighborhood. This project's scope includes the design and construction of new stormwater infrastructure to alleviate historical flooding. Potential conceptual design may consist of new and/or improved swale areas, drainage structures, drainage piping, and other stormwater control features.	Stormwater - Capital Projects (Fund 471)	-	595,140	-	-	-	-	595,140

Housing and Urban Development										
Undergrounding Program	NEW-954605	This project provides the funding needed to establish a Citywide undergrounding program. Funds will enable staff to provide the preliminary engineering design and consulting services to support the actions of the City Code - Chapter 25, Article IV, Division 2 - as requested by neighborhoods to replace the overhead utility lines with underground system for improved resiliency. The funds requested through this Community Investment Project are to enable the retention of the appropriate professional services, per the code, with expectation of future reimbursement through the special assessment process.	SA Bond 2021 Construction - Utility Undergrounding (Fund 354)	-	-	2,611,840	5,651,920	-	-	8,263,760
Riviera Isles Utilities Undergrounding	P11632	This project funds the undergrounding of overhead utility lines in the Riviera Isles neighborhood by special assessment.	General Capital Projects (Fund 331)	350,107	-	-	-	-	-	350,107
Idlewyld Undergrounding of Utilities	P11714	This project is for the study and undergrounding of overhead utilities in the Idlewyld neighborhood by special assessment.	General Capital Projects (Fund 331)	379,749	-	-	-	-	-	379,749
			Special Assessments (Fund 319)	538	-	-	-	-	-	538

Law Enforcement										
Citywide Camera Initiative	P12056	This project funds security and surveillance cameras throughout the City. Parks, neighborhoods, streets, and other public venues represent prime target areas for camera installations. Public events can also be monitored for suspicious activities through security and surveillance cameras.	General Capital Projects (Fund 331)	3,158	-	-	-	-	-	3,158
New Police Headquarters	P12573	The new Police Headquarters is anticipated to encompass approximately 200,000 square feet and include a multi-level parking garage with a capacity for approximately 400 vehicles. City leadership has selected the site at 1300 West Broward Boulevard for this project. During construction, the current police headquarters shall remain in use and will be demolished upon completion of the new facility. The City envisions the new headquarters to serve as a gateway to the downtown area, enhancing the surrounding urban landscape. The amount of site area that this project would utilize will be determined during the planning and design process. It is anticipated that the new Police Headquarters will be 3-4 stories.	General Capital Projects (Fund 331)	5,855,086	-	-	-	-	-	5,855,086
			GO Bond 2019 Construction - Police (Fund 352)	12,396,805	-	-	-	-	-	12,396,805
			Treasury Task Force (Fund 109)	140,683	-	-	-	-	-	140,683
Police Mounted Stables Roof Replacement	P12733	This project aims to replace the roof at the Fort Lauderdale Police Mounted Stables. The existing roof at the stables for the Police Mounted Unit is 28 years old and has exceeded its useful life.	General Capital Projects (Fund 331)	33,215	-	-	-	-	-	33,215
Police Substation Buildout	P12841	This project involves the design and construction of a new police substation within the Sistrunk Corridor, in partnership with the L.A. Lee YMCA/Mizell Community Center. Located at 1409 Sistrunk Boulevard, the project includes a range of renovations and enhancements to ensure the facility serves as a fully functional public safety hub. The scope encompasses the design and construction of office spaces for district-assigned officers, a kitchen area, restroom facilities, and an intake lobby to assist residents in need of services.	NW Progresso Flagler Heights CRA CIP (Fund 347)	73,070	-	-	-	-	-	73,070
Communication Equipment Upgrades	P12937	With construction of the new Fort Lauderdale Police Headquarters, there will be subsequent demolition of the existing building. There is a 350-foot self-supporting State of Florida communication tower situated on City land. This tower will be removed in favor of redevelopment for better usage. The City operates a three-site 800 MHz Project 25 (P25) Trunked Simulcast radio system, which is essential for life-safety and mission critical communications. This system is utilized by the City of Fort Lauderdale, Wilton Manors and Oakland Park. This radio system is extensively used during citywide emergencies, disasters, and special events. One of the three P25 radio sites is currently located within the existing police headquarters and utilizes the State communication tower for antenna support. Plans for the redevelopment will address the relocation and continuity of these essential communication services. This radio system is extensively used during citywide emergencies, disasters, and special events. One of the three P25 radio sites is currently located within the existing police headquarters and utilizes the State communication tower for antenna support. Plans for the redevelopment will address the relocation and continuity of these essential communication services.	General Capital Projects (Fund 331)	4,797,593	-	-	-	-	-	4,797,593

Beachwalk Improvements at Park Tower Tunnel	NEW-528306	This project aims to enhance both the aesthetic appeal and safety standards of the Beachwalk at the Park Tower Tunnel, located at 1151 N Fort Lauderdale Beach. Originally constructed to facilitate pedestrian access between Park Tower on the west side of Florida A1A and the beach on the east, the underground pedestrian tunnel now has structural deficiencies. To address these structural concerns, this project provides funding to support the Florida Department of Transportation's (FDOT) effort to close the tunnel and fill it with concrete. Afterwards, the City will be responsible for removing the above-ground beach entrance structure, extending the seawall, and constructing a similar beach pillar to ensure continued beach access while significantly enhancing pedestrian safety.	General Capital Projects (Fund 331)	-	-	-	100,000	-	-	100,000
Mausoleums - Lauderdale Memorial Gardens Cemetery	P12717	This project funds the construction of a community mausoleum that consists of 762 crypts and 256 large niches at Lauderdale Memorial Park Cemetery. A community mausoleum is an above-ground building that memorializes individuals offering a secure enclosure that remains clean and dry.	Cemetery Operations - CIP (Fund 431)	1,561,584	360,916	-	-	-	-	1,922,500
Mausoleums - Sunset Memorial Gardens Cemetery	P12718	This project funds the construction of three community mausoleums that consists of 476 crypts at Sunset Memorial Gardens. A community mausoleum is an above-ground building that memorializes individuals and offers a secure enclosure that remains clean and dry. City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Mausoleum Roof Replacement - Lauderdale Memorial Park Cemetery	P12867	This project supports the mausoleum roof replacement at Lauderdale Memorial Park Cemetery.	Cemetery Operations - CIP (Fund 431)	45,970	-	-	-	-	-	45,970
Cemetery Security & Access System-LMP & SMP	P12897	This project will enhance security and safety at Lauderdale Memorial Park and Sunset Memorial Gardens cemeteries through the installation of security cameras and access-controlled door entries.	Cemetery Operations - CIP (Fund 431)	18,449	-	-	-	-	-	18,449
Lauderdale Memorial Park Maintenance Shop Restoration	P12942	This project funds the restoration of the existing maintenance shop located within the grounds of the Lauderdale Memorial Park Cemetery. The restoration efforts will primarily focus on the following enhancements: installing insulation, replacing interior wood frames, expanding the storage room, creating a dedicated breakroom, enhancing shelving and storage facilities for essential burial service supplies, and implementing air conditioning systems in the office, breakroom, and bathroom spaces.	Cemetery Operations - CIP (Fund 431)	250,000	-	-	-	-	-	250,000
Irrigation Upgrades - Lauderdale Memorial Park Cemetery	P12943	This project funds irrigation upgrades at Lauderdale Memorial Park Cemetery to implement a comprehensive, automated system across the property. This project will alleviate the need to manually water sections of the cemetery. In addition, these upgrades will permit staff to effectively manage water usage and minimize the number of system breakdowns.	Cemetery Operations - CIP (Fund 431)	1,556,412	-	-	-	-	-	1,556,412
Office Building Roof Replacement - Lauderdale Memorial Park	P12944	This project funds the roof replacement of the office building at Lauderdale Memorial Park Cemetery.	Cemetery Operations - CIP (Fund 431)	27,699	-	-	-	-	-	27,699
Mausoleums Roof Replacements - Sunset Memorial Gardens Cemetery	P13015	This project supports seven (7) mausoleums roof replacements at Sunset Memorial Gardens Cemetery.	Cemetery Operations - CIP (Fund 431)	-	824,110	-	-	-	-	824,110
Mausoleum (West) Roof Replacement - Lauderdale Memorial Park Cemetery	P13016	This project supports the west mausoleum roof replacement at Lauderdale Memorial Park Cemetery.	Cemetery Operations - CIP (Fund 431)	-	235,460	-	-	-	-	235,460
		Other Physical Environment Total		**5,484,879**	**1,420,486**	**-**	**100,000**	**-**	**-**	**7,005,365**
Parking Facilities										
Sunrise Village Parking Improvements	NEW-836294	This project is for parking improvements to support the impacted areas surrounding the Sunrise Lane District Streetscape project. The scope of work includes general improvements to the parking areas such as landscaping, lighting, milling, resurfacing, pavement markings, signage, and parking equipment.	Parking System - Capital Projects (Fund 463)	-	-	-	-	250,000	-	250,000
Parking Administration and City Parking Garage Rep	P12183	In 2022, a structural analysis was completed for the Riverwalk City Garage, which included several phases of rehabilitation that would be required. The scope of the work to be accomplished includes, but is not limited to, concrete repairs, waterproofing repairs, drainage repairs, and limited railing upgrades for safety purposes.	Parking System - Capital Projects (Fund 463)	1,085,894	350,000	-	-	-	-	1,435,894
North Beach Parking Lot	P12378	Funding will implement the construction of a new surface parking lot within the beach area. The lot will include parking for vehicles, motorcycles, as well as bicycles.	Parking System - Capital Projects (Fund 463)	205,872	-	-	-	-	-	205,872
FTL Beach Parking Lots Improvements	P12513	The Fort Lauderdale Beach Parking Lot improvements has been a priority over the last 6 years to provide accommodations to the City's special events hosted on the beach. The Beach Business Improvement District has approved and provided funding for the scope of work that includes median revisions, landscaping, electrical additions and beautification with a wall mural. The intention of this project is to further advance the goal of building an attractive, global and local economic community marketplace; providing amenities that assist with existing special events, and potentially add diversity to smaller vendors that could not utilize the lot in the past due to resource constraints. The BID improvement project is currently in its design phase.	Parking System - Capital Projects (Fund 463)	636,142	-	-	-	-	-	636,142
Crossroads Shopping Center Parking Lot Stormwater Imp	P12638	This project is for the installation of new stormwater infrastructure in a City-owned parking lot at the Cross Roads Shopping Center. The new infrastructure will consist of one catch basin one manhole and a 240 linear feet of pipe with a new outfall connection.	Parking System - Capital Projects (Fund 463)	71,754	-	-	-	-	-	71,754
Federal Courthouse Parking Garage	P12687	This project provides for the construction of a 350+ space parking garage for the new Federal Courthouse, located on SE 3rd Avenue and SE 11th street. This project provides for the design and construction of the garage and addresses all necessary requirements as determined by the General Services Administration (GSA).	Parking System - Capital Projects (Fund 463)	6,814,898	7,000,000	-	-	-	-	13,814,898
Parking Facility Rehabilitation	P12705	This project funds the rehabilitation and improvement of existing parking lots and garages within the parking inventory. At this time, the City does not have a rehabilitation program established for the maintenance of these parking facilities to ensure a long usable life. This rehabilitation program will focus on the following improvements: installing energy efficient lighting, environmentally friendly landscaping for the South Florida climate, repaving and seal coating the lots with environmentally safe and efficient materials, and other innovative future ideas.	Parking System - Capital Projects (Fund 463)	-	-	250,000	1,750,000	-	-	2,000,000
Nautical Parking Lot Improvements	P12737	This project provides for improvements to the Nautical parking lot. Improvements to this 58 parking spaces lot includes milling and resurfacing, pavement markings, drainage cleaning, and replacement of curbing, landscaping, and irrigation. This project will be for the construction activities related to the improvements.	Parking System - Capital Projects (Fund 463)	4,122	-	-	-	-	-	4,122

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Venice Lot Parking Improvements	P12738	This project will address the improvements needed at the Venice Parking Lot. These improvements will include the milling and resurfacing of the lot, replacement of curbing in some sections, irrigation updates, and new pavement markings.	Parking System - Capital Projects (Fund 463)	99,592	-	-	-	-	-	99,592
Pelican Lot Parking Improvements	P12739	This project provides for improvements to the Pelican Parking Lot at 1500 SE 2nd Street. These improvements include: milling and resurfacing, the replacement of curbing in some sections, irrigation updates, and new pavement markings.	Parking System - Capital Projects (Fund 463)	124,727	-	-	-	-	-	124,727
Parking Meter Technology	P12740	In 2023, staff initiated a structural assessment to identify the structural repair needs, if any, for the City Hall Parking Garage. The assessment was completed, and it was determined that there is an immediate need for full design and structural repair of the garage. The assessment prioritized the phases of the repair in 6, 12 and 24-month increments, based on the engineering recommendation of the structural assessment team. City staff is requesting additional funding to complete the design and structural repairs for all phases of the City Hall Garage. While City Hall is not currently occupied, the garage is still being utilized by City and 1 East Broward users.	Arts and Science District Garage (Fund 643)	24,150	-	-	-	-	-	24,150
			Parking System - Capital Projects (Fund 463)	981,846	200,000	250,000	-	-	-	1,431,846
Commercial Road Parking Improvements	P12766	This project will improve the parking and adjacent roads alongside Commercial Boulevard. Improvements include: the milling and resurfacing of Commercial Boulevard, from the intercoastal to Federal Highway; the addition of ADA (Americans with Disabilities) parking improvements; thermal striping, and other general improvements.	Parking System - Capital Projects (Fund 463)	822,732	-	-	-	-	-	822,732
Parking Wayfinding Barrier Island Signage	P12810	There is an existing CIP to design and install wayfinding on the Barrier Island. The project was fully funded before recent inflation and unexpected expenditures to address community feedback.	Parking System - Capital Projects (Fund 463)	327,612	-	-	-	-	-	327,612
Holiday Park Parking Garage	P12851	This project is for the design and construction of a parking garage with 1,000 spaces.	Parking System - Capital Projects (Fund 463)	414,446	-	-	-	-	-	414,446
Galt Shops West Improvements	P12877	The Parks and Recreation Department has plans to add a second level to an existing parking facility to create a rooftop park. To accommodate adding a structure above the parking facility, the Transportation and Mobility Department will need to redesign the existing parking lot. This project also includes funding to mill and resurface the existing parking lot and other general improvements.	Parking System - Capital Projects (Fund 463)	739,469	-	-	-	-	-	739,469
North & South Galt Lot Improvements	P12878	Transportation and Mobility is seeking to improve the North and South Parking Lots located at 3500 Galt Ocean Drive. These improvements include the enhancement of ADA (Americans with Disabilities) accessible ramps from the parking lot to the sidewalk, the milling and resurfacing of the parking lot, the application of thermal pavement markings, and other general improvements.	Parking System - Capital Projects (Fund 463)	574,016	-	-	-	-	-	574,016
City Hall Parking Garage Improvements	P12879	In 2023, staff initiated a structural assessment to identify the structural repair needs, if any, for the City Hall Parking Garage. The assessment was completed, and it was determined that there is an immediate need for full design and structural repair of the garage. The assessment prioritized the phases of the repair in 6-, 12- and 24-month increments, based on the engineering recommendation of the structural assessment team. City staff is requesting additional funding to complete the design and structural repairs for all phases of the City Hall Garage. While City Hall is not currently occupied, the garage is still being utilized by City and 1 East Broward users.	Parking System - Capital Projects (Fund 463)	3,765,354	-	-	-	-	-	3,765,354
Parking Facility Electric Vehicle Charging Stations	P12880	This project is for the purchase and installation of additional electric vehicle (EV) charging stations at City parking facilities. Transportation and Mobility (TAM) is seeking to increase the number of EV charging stations at City parking facilities to ensure that this public service is distributed throughout the community. This project will also help accelerate decarbonization of the transportation sector.	Parking System - Capital Projects (Fund 463)	55,267	150,000	150,000	150,000	150,000	150,000	805,267
Arts & Sciences District Garage Elevator Upgrades	P12890	The State of Florida implemented new code requirements on all elevators. Broward County is now requiring these codes to be met by December 31, 2023. As a result, Transportation and Mobility (TAM) has one (1) location needing these upgrades: the Arts and Science Garage.	Arts and Science District Garage (Fund 643)	169,390	-	-	-	-	-	169,390
Oakland Park Parking Lot Improvements	P12948	This project will improve parking and adjacent roads alongside Oakland Park Boulevard. The improvements included in the project are the milling and resurfacing of Oakland Park Boulevard, from the intercoastal to Federal Highway; the addition of ADA (Americans with Disabilities Act) parking improvements; the addition of thermal striping; and other general improvements. In FY 2025 the project will be focused on designing the parking lot improvements and in FY 2026 construction will begin.	Parking System - Capital Projects (Fund 463)	750,000	-	3,091,032	-	-	-	3,841,032
Las Olas Garage Improvements	P12949	The Las Olas Garage opened in 2019. Staff recommends completing a structural assessment to determine future repair and maintenance needs. With this assessment, staff will be able to review the conditions of the garage and how it has aged in the beach conditions. With this information, the City can develop a short term, mid term, and long term repair and maintenance schedule (with cost estimates for budgeting purposes).FY 2025 funding is intended to address the facade lighting issues. Future funding will develop and implement a maintenance schedule for the garage including a FY 2027 study, FY 2028, design, and FY 2029 construction.	Parking System - Capital Projects (Fund 463)	3,000,000	-	-	250,000	750,000	3,000,000	7,000,000
Fleet Infrastructure Improvements	P12959	This project is for the upgrade and improvements for the fleet maintenance and repair garage facility. The project scope includes, addition of vehicle lifts, bulk oil storage, vehicle key tracker, installation of vehicle alignment machine, tire changer and balancer, electric doors for the garage bay, ceiling fan for garage, and electrical improvements for the facility. Cypress Creek Sand Pine Park	P11056	The City acquired the 8.15 acre Cypress Creek Sand Pine Preserve in May 2006. This sand pine scrub will be developed and maintained by the City as a conservation preserve, offering passive recreational opportunities for the public.	Miscellaneous Federal/State/County Grants (Fund 129)	-	-	-	-	-	-	-
Las Olas Blvd Corridor Improvements	P11900	As part of the Beach Master Plan, this project aims to transform the Oceanside Lot into a world-class, flexible open space while preserving the current number of parking spaces. It replaces the previous project, P11678: Oceanside Plaza Project (Parking Garage), and represents a major step forward in enhancing the beach experience for residents and visitors alike. Key features include a wide pedestrian connection linking the ocean to the Intracoastal Waterway promenade, creating inviting public spaces. The project also involves redeveloping Las Olas Boulevard, incorporating a broad promenade, and enhancing the Oceanside Parking Lot. Additional improvements include constructing a new parking structure near the Las Olas Bridge and revitalizing the canal adjacent to Las Olas Circle.	Parking System - Capital Projects (Fund 463)	8,507	-	-	-	-	-	8,507
Las Olas Tunnel Top Park	P12058	The City proposes to build a pedestrian friendly plaza on top of the extended tunnel roof at the Federal Highway entrance to Las Olas Boulevard. The plaza will feature park benches, shaded seating areas, and a tourist kiosk. This project is led by the Florida Department of Transportation (FDOT), and will include a Bridge Design Report, final design, and construction. This project is a designated District 4 Park for the 2019 Parks Bond program.	Park Impact Fee Projects (Fund 350)	1,518,278	-	-	-	-	-	1,518,278
			Parks Bond (Operating) (Fund 353)	9,092,657	-	-	-	-	-	9,092,657
New Carter Park Senior Center	P12097	This project it to build a senior center at Carter Park. The center will be a 5,900 square feet facility with the capacity to accommodate 250 participants, including classrooms, fitness and technology areas, and spaces for socializing. This new facility will provide for more programming for seniors living in Fort Lauderdale.	NW Progresso Flagler Heights CRA CIP (Fund 347)	2,065,505	-	-	-	-	-	2,065,505
George English Park Boat Ramp 2016	P12186	This project provides funding for the replacement of the boat ramps at George English Park. Currently, ramp use has been limited due to the frequent dislodging of tiles, while leads to pot holes being formed. To address this issue, the ramps will need to be replaced with monolithic slabs supported by sheet piling. This new design will accommodate current usage and support anticipated increases in demand driven by improved access.	Park Impact Fee Projects (Fund 350)	31,166	-	-	-	-	-	31,166
Mills Pond Park Boat Ramp Replacement	P12341	This project is for the replacement of the Mills Pond Park boat ramp and other associated improvements. The existing boat ramp will be removed and replaced with a new concrete ramp. Additionally, several loads of sand will be placed along the north side of the ramp.	General Capital Projects (Fund 331)	32,037	-	-	-	-	-	32,037
Riverwalk Floating Docks Phase I and Phase II	P12369	This project covers the design and permitting phase for the installation of two (2) additional floating docks along the New River near Esplanade Park. In October 2017, the Florida Inland Navigation District awarded the City a $65,000 grant to support Phase I of the project. The Parks and Recreation Department plans to apply for additional funding from the District for Phase II. The City's required match will be provided by the Grants General Fund, with $50,000 to be appropriated at the time of the grant award.	Miscellaneous Federal/State/County Grants (Fund 129)	441,467	-	-	-	-	-	441,467
Bill Keith Preserve Shoreline Stabilization Design	P12370	This project covers the design and permitting phase to create shoreline stabilization for the Bill Keith Preserve. In October 2017, the Florida Inland Navigation District awarded the City a $60,000 grant to support Phase I of the project. The Parks and Recreation Department plans to apply for additional funding from the District for Phase II. The City's required match of $25,000 will be appropriated at the time of the grant award.	Miscellaneous Federal/State/County Grants (Fund 129)	132,168	-	-	-	-	-	132,168
DC Alexander Park Improvement Project	P12373	This project aims to upgrade DC Alexander Park and make it a vibrant destination for families and visitors. Key features include an artistic, interactive centerpiece designed to engage all ages and a new restroom facility that integrates a concession stand. The park will also include shaded seating areas, inviting greenspaces, and enhanced landscaping. Additional improvements include the removal of the existing parking lot and installation of turtle-compliant lighting, security cameras, and emergency call boxes to ensure safety and sustainability. SE 5th Street, located immediately north of the park, will also be improved as part of the project. Proposed enhancements include converting the street to two-way traffic, removing on-street parking, widening the southern side of the sidewalk, and installing turtle-compliant lighting. Collectively, these upgrades will create a safer, more accessible, and family-friendly environment in and around DC Alexander Park.	General Capital Projects (Fund 331)	160,271	-	-	-	-	-	160,271
			Park Impact Fee Projects (Fund 350)	282,229	-	-	-	-	-	282,229
Riverland Road Park	P12426	This project is for a new park on the recently purchased Black Property, that is approximately 5 acres. The Park will include a trail, and a few exercise stations.	Park Impact Fee Projects (Fund 350)	259						259
Florence C. Hardy Park Improvements	P12452	This project will provide installation of new artificial turf on the multipurpose field at Florence C. Hardy Park and retrofitting the existing field lighting to new Light Emitting Diode (LED) technology. The city's Bermuda fields are not being sufficiently "rested" to maintain an adequate playing surface. The installation of an artificial turf will enhance the City's ability to meet the demands for the playing areas and allow for proper maintenance of the bermuda fields. With the high demand for field space and high cost of purchasing and developing land for athletic fields, converting natural grass fields to artificial turf fields is an alternative that will increase the supply of fields space at a marginal cost.	Park Impact Fee Projects (Fund 350)	171						171

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Bill Keith Preserve Boardwalk Extension	P12460	This project is for the creation of a pathway that will provide a barrier free access to the river and fishing dock. The pathway will require a 6'x75' rubber, rainbow mulch, and will be pursuant to the American with Disabilities Act (ADA) requirements. The pathway will extend from the existing parking lot to the pavilion. Furthermore, the existing recycled lumber deck will be extended 6'x84' to the pavilion.	Park Impact Fee Projects (Fund 350)	1,353						1,353
Lockhart Stadium Community Center	P12574	This project funds consulting services for an architect to design the Community Center at the Lockhart Stadium Site.	Parks Bond (Operating) (Fund 353)	18,012	-	-	-	-	-	18,012
Provident Park Improvements	P12621	The Provident Park Improvement Project will undergo renovation to the existing structural site. The funds are being used to upgrade the park and will include interactive splash pads, walking trails, bandstand features, monument pedestals, amphitheater monuments, new restrooms, and improved landscaping.	NW Progresso Flagler Heights CRA CIP (Fund 347)	1,294,305	-	-	-	-	-	1,294,305
District 1 - Lockhart Park	P12624	This project involves the design and construction of the new Lockhart Park. Key enhancements for this project include the development of new athletic fields, surface parking, community center, splash pads, enhanced lighting, landscaping, and hardscape elements.	Parks Bond (Operating) (Fund 353)	402,664	22,550,000	-	-	-	-	22,952,664
Laudertrail Construction	P12627	The LauderTrail Master Plan was accepted by the City Commission in January 2022. The LauderTrail project consists of various segments that are broken down in several different phases. The next phase of the project involves developing additional greenway trails through the River Run, Riverland West, and Sunset neighborhoods. Esterre Davis Wright Park Improvements	P12755	This project involves the design and construction of improvements at Esterre Davis Wright Park. Key enhancements include replacing the playground, installing a walking trail and outdoor fitness equipment, renovating the park pavilion, updating signage, installing additional site furnishings, and implementing improvements to ensure compliance with the Americans with Disabilities Act (ADA).	Parks Bond (Operating) (Fund 353)	663,467	-	-	-	-	-	663,467
Flamingo Park Improvements	P12756	This project involves the design and construction of improvements at Flamingo Park. Key enhancements include replacing the playground, upgrading lighting, installing a new walking trail and outdoor exercise station, updating signage, installing site furnishings, and implementing improvements to ensure compliance with the Americans with Disabilities Act (ADA).	Parks Bond (Operating) (Fund 353)	940,000	-	-	-	-	-	940,000
Floranda Park Improvement	P12757	This project involves the design and construction of improvements at Floranada Park. Key enhancements include replacing the playground, upgrading lighting on the athletic field, renovating restrooms, installing additional shade features, and implementing improvements to ensure compliance with the Americans with Disabilities Act (ADA).	Parks Bond (Operating) (Fund 353)	126,218	-	-	-	-	-	126,218
Fort Lauderdale Beach Improvement	P12758	This project involves the design and construction of improvements at Fort Lauderdale Beach. Key enhancements include upgrading the exercise equipment, improving beach lighting, and implementing improvements to ensure compliance with the Americans with Disabilities Act (ADA).	Parks Bond (Operating) (Fund 353)	1,270,922	-	-	-	-	-	1,270,922
Guthrie Blake Park Improvements	P12759	This project involves the design and construction of improvements at Guthrie Blake Park. Key enhancements include installing park crosswalks, improving lighting, replacing the playground, and implementing improvements to ensure compliance with the Americans with Disabilities Act (ADA).	Parks Bond (Operating) (Fund 353)	518,982	-	-	-	-	-	518,982
Lauderdale Manors Park Improvement	P12760	This project encompasses the design and construction of improvements at Lauderdale Manors Park. The project's enhancements include a variety of upgrades such as: playground enhancements; installation of solar panels; renovations to the community center; addition of interactive water features; pool area improvements; installation of ADA-compliant benches, picnic tables, drinking fountains, and shower tower; relocation of ADA pathways; and installation of grills and trashcans.	Parks Bond (Operating) (Fund 353)	1,856,000	-	-	-	-	-	1,856,000
Riverland Park Improvement	P12761	This project involves the design and construction of improvements at Riverland Park. Key enhancements include renovating the activity center, developing a multi-purpose park facility; renovating the pool and restrooms, resurfacing the playground, installing additional shade features, installing a new walking trail and outdoor exercise equipment, adding crosswalks and solar panels, and implementing improvements to ensure compliance with the Americans with Disabilities Act (ADA).	Parks Bond (Operating) (Fund 353)	2,738,000	-	-	-	-	-	2,738,000
Walker Park Improvement	P12762	This project involves the design and construction of improvements at Walker Park. Key enhancements include renovating the pavilion, replacing the playground, installing benches and bike racks, updating lighting and park signage, fencing the park's perimeter, and implementing improvements to ensure compliance with the Americans with Disabilities Act (ADA).	Parks Bond (Operating) (Fund 353)	650,700	-	-	-	-	-	650,700
Warbler Wetlands Improvement	P12763	This project involves the design and construction of improvements at Warbler Wetlands. Key enhancements include installing sidewalk connections to bridge gaps in the sidewalk system, enhancing the parking capacity at the park, extending the boardwalk, renovating the pavilion, adding benches, updating signage, and implementing improvements to ensure compliance with the Americans with Disabilities Act (ADA).	Parks Bond (Operating) (Fund 353)	705,000	-	-	-	-	-	705,000
George English Park Improvements	P12771	This project involves the design and construction of improvements at George English Park. Key enhancements include renovating the community center, installing a crew boathouse, adding additional shade features, installing solar panels and site furnishings, updating lighting and signage, installing a new walking trail and exercise equipment, renovating the pavilion, and implementing improvements to ensure compliance with the Americans with Disabilities Act (ADA).	Parks Bond (Operating) (Fund 353)	905,479	4,112,088	-	-	-	-	5,017,567
Dillard 6-12 Park Improvements	P12773	This project encompasses the design and construction of the Dillard 6-12 Improvement Project. The City is looking to expand park access for City residents at school sites throughout the City. Enhancements at this site include tennis court renovations.	Parks Bond (Operating) (Fund 353)	2,647	-	-	-	-	-	2,647
Stranahan High School Park Improvements	P12775	This project encompasses the design and construction of the Stranahan High School Improvement Project. The City is looking to expand park access for City residents at school sites throughout the City. Enhancements at this site include resurfacing tennis courts, fencing the basketball court, and installing fitness equipment.	Parks Bond (Operating) (Fund 353)	210,830	-	-	-	-	-	210,830
North Fork School Park Improvements	P12776	This project involves the design and construction of the North Fork School Park Improvement Project. Key enhancements at this site include installation of a new playground, fencing and integrating the Broward and 15th Avenue green spaces with a walking path, lighting upgrades for the basketball courts, and installation of a water viewing deck and interactive learning feature.	Parks Bond (Operating) (Fund 353)	780,692	-	-	-	-	-	780,692

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Sunrise Middle School Park Improvements	P12777	This project request is for the design and construction of the Sunrise Middle School Improvement Project. Key enhancements at this site include installation of new fencing, pool chiller improvements, demolition of the field pavilion, enhancements of the entryways and overall site, and resurfacing the track.	Parks Bond (Operating) (Fund 353)	1,512,184	-	-	-	-	-	1,512,184
Westwood Heights Elementary School Park Improvements	P12778	This project involves the design and construction of the Westwood Heights Elementary Improvement Project. Key enhancements at this site include installation of a new playground and additional shade features, fencing, basketball court resurfacing, and installation of a walking trail.	Parks Bond (Operating) (Fund 353)	323,256	-	-	-	-	-	323,256
Thurgood Marshall Elementary School Park Improvements	P12779	This project involves the design and construction of the Thurgood Marshall Improvement Project. Key enhancements at this site include installation of a new playground, basketball court renovations, and rehabilitation of walking trails.	Parks Bond (Operating) (Fund 353)	380,727	-	-	-	-	-	380,727
Rock Island Elementary Park Improvements	P12780	This project involves the design and construction of improvements at Rock Island Elementary School Park. Key enhancements include playground installation and fencing around the park's perimeter.	Parks Bond (Operating) (Fund 353)	260,343	-	-	-	-	-	260,343
Stephen Foster Elementary Park Improvements	P12781	This project involves the design and construction of improvements at Stephen Foster Elementary School Park. Key enhancements include installing fencing around the park's perimeter, replacing the playground, installing a new basketball court, and updating signage.	Parks Bond (Operating) (Fund 353)	497,001	-	-	-	-	-	497,001
Harbordale Elementary Park Improvements	P12782	This project involves the design and construction of improvements at Harbordale Elementary School Park. Key enhancements include replacing the playground and resurfacing the park court.	Parks Bond (Operating) (Fund 353)	455,798	-	-	-	-	-	455,798
Streetlight Improvements	P12793	The Fort Lauderdale Street Lighting Master Plan established lighting standards and guidelines for light assemblies (i.e., poles and fixtures). This project is designed to implement improvements listed in the master plan and earmark funding for analysis. Recommended Improvements include: FY 2023 design work for the following project with construction scheduled for FY 2024-2025: * Las Olas Blvd $260,000-Lighting criteria is not currently met on the corridor. There have been 155 nighttime crashes over a five (5) year period. Recommendation is to retrofit the existing light poles with LED fixtures, providing better lighting along the corridor. *Riverland Road Neighborhood $825,000 - Continuous lighting is not provided on neighborhood roadways. There have been 139 nighttime crashes over five (5) year period. Recommendation is to work with FP&L's Tariff program, convert the existing 315 lights to LED fixtures and add approximately 539 additional light poles. FY 2025 Design work for the following project with construction scheduled for FY 2026-2027: *Himmarshee Area $962,000 - Lighting criteria is not met in all areas of the corridor. There have been ninety-seven (97) nighttime crashes over a five (5) year period. Recommendation is to add approximately 130 pedestrian light poles. Using FP&L Lighting Tariff, convert the remaining HPS lights to LED and add approximately forty-one (41) light poles. FY 2027 Design work for the following project with construction scheduled when funding is secured: * NE 4th Ave $289,000 - Roadway from train tracks to NE 16th Street does not meet established lighting criteria. There have been eighty-six (86) nighttime crashes over five (5) year period. Recommendation is to retrofit the existing light poles with LED fixtures from the train tracks to Sunrise Boulevard and add pedestrian lights from Sunrise Boulevard to NE 16th Street. *Flagler Village Area $1,903,000 - Continuous lighting is not provided on all roadways.	General Capital Projects (Fund 331)	1,391,820	500,000	500,000	1,000,000	1,000,000	1,000,000	5,391,820
Beach Community Center	P12843	This project involves the design and construction of improvements at the Beach Community Center. Key enhancements include renovating the center, installing a rooftop parking structure and park, installing solar panels, updating the lighting, replacing the patio furnishings, and implementing improvements to ensure compliance with the Americans with Disabilities Act (ADA).	Parks Bond (Operating) (Fund 353)	507,675	3,013,250	-	-	-	-	3,520,925
South Side Cultural Arts Center HVAC System Redesign	P12850	This project is to evaluate and re-design the Heating, Ventilation, and Air Conditioning (HVAC) system at South Side Cultural Arts Center.	General Capital Projects (Fund 331)	76,660	-	-	-	-	-	76,660
Lauderdale Isles Landing	P12907	This project involves the design and construction of improvements at Lauderdale Isles Landing. Key enhancements include installing sidewalk connections to address gaps in the sidewalk system, updating the lighting at the park, and implementing improvements to ensure compliance with the Americans with Disabilities Act (ADA).	Parks Bond (Operating) (Fund 353)	2,193,539	135,000	-	-	-	-	2,328,539
District 1 - 2201 NE 19th St Property Purchase	P12919	The City intends to purchase the property using park bond funds for future park development. The planned use of the site is a public park.	Parks Bond (Operating) (Fund 353)	20,289						20,289
Parks & Recreation Staff Maintenance Facility	P12930	This project is for facility maintenance at Snyder Park.	General Capital Projects (Fund 331)	4,900,000						4,900,000
Annie Beck House Renovations	P12933	The project is for the improvements to an existing historic structure at the Annie Beck House. The work includes hardscape and landscape, porch and deck repair, new louvers, new electrical panels, facade repair, full interior repaints, and interior flooring sanding and refinishing.	General Capital Projects (Fund 331)	157,540						157,540
Lightning Predictor	P12940	This project will replace existing antiquated lighting prediction systems with new, state-of-the-art weather prediction technology to enhance public safety. A total of 18 units will be installed at various City parks, including Holiday Park (2 units), Bass Park, Carter Park, Croissant Park, Lauderdale Manors Park, Riverside Park, Mills Park (2 units), Warfield Park, Jimmy Evert Tennis Center, Bayview Park, Osswald Park, Snyder Park (2 units), Floyd Hull Stadium, Sunset Memorial Park, and Lauderdale Memorial Park. As part of the installation process, the vendor will add two (2) on-site weather stations at Holiday Park and Mills Park to support real-time weather tracking and monitoring.	General Capital Projects (Fund 331)	178,630	-	-	-	-	-	178,630

Road and Street Facilities										
New Pedestrian Safety Improvements - Las Olas and SE 5th Ave	NEW-532532	This project seeks to implement a new north-south crosswalk on Las Olas Boulevard and SE 5 Avenue intersections. The project scope includes the construction of new ramps compliant with the Americans with Disabilities Act (ADA), the installation of rapid rectangular flashing beacons for pedestrian crosswalks, and the implementation of high-emphasis crosswalks.	General Capital Projects (Fund 331)	-	-	-	-	140,000	-	140,000
Dorsey Riverbend Traffic Safety Improvements	NEW-549914	This project funds the design and construction of raised intersections at the following locations: NW 15th Avenue/NW 4th Street, NW 15th Avenue/NW 5th Street, NW 13th Avenue/NW 5th Street, and NW 12th Avenue/NW 4th Street, totaling four (4) raised intersections. Additionally, this projects supports the installation of three (3) speed humps and tables along NW 15th Avenue, north of Broward Boulevard.	General Capital Projects (Fund 331)	-	-	-	-	250,000	-	250,000
NE 15th Avenue Mobility Project	NEW-843850	The project on NE 15th Avenue between Sunrise Boulevard and the South Fork of the Middle River includes the implementation of landscaped median islands, crosswalks, Americans with Disabilities Act (ADA) improvements, raised intersections, and raised crosswalks to enhance pedestrian safety and roadway functionality. Funded through a Broward MPO grant program, the City has requested funding for FY 2029 but may advance the project using City funds with reimbursement upon grant availability.	Miscellaneous Federal/State/County Grants (Fund 129)	-	-	-	-	450,000	2,900,000	3,350,000
Bayview Drive Gravity System Lining and Roadway Reconstruction	NEW-860869	This project is for the lining of the gravity pipes and road reconstruction on Bayview Drive from Sunrise Boulevard to Oakland Park Boulevard. The scope of the project includes, but is not limited to, lining of the gravity pipes under the road, new sub-base materials for total reconstruction of the road, new asphalt pavement, new pavement markings, and full restoration of the right of way. This project will improve the infrastructure for the next 40 years.	Water and Sewer - General Capital Projects (Fund 454)	-	-	-	-	-	7,646,319	7,646,319
NE 26th Street Complete Streets	NEW-932113	This project allocates funding for enhancements to NE 26th Street, from US1 and Bayview Drive, to improve the roadway ensuring it is aligned with the City's Complete Streets Policy. Essentially, the project aims to redesign the street to meet the needs of pedestrians, bicyclists, and transit riders. The Coral Ridge Neighborhood first identified the need for improvements to NE 26th Street through their neighborhood master plan. Staff has worked with the neighborhood to develop a proposed scope of work for NE 26th Street. This project tackles congestion by lengthening the westbound left turn lane at US1. It features installing a traffic circle at Bayview Drive, a sidewalk on the north side of the street, and new bike lanes to address the previous ADA (Americans with Disabilities Act) complaints. Additionally, this connects with the recent road work being completed on Bayview Drive, Middle River Terrace and on US1 by the Florida Department of Transportation (FDOT).	General Capital Projects (Fund 331)	-	-	525,000	-	-	-	525,000
South Middle River Mobility Project	NEW-959375	This project funds the implementation of traffic calming measures along several key corridors to mitigate traffic speed within the South Middle River neighborhood. This project includes enhancements such as raised intersections, mini-medians, and speed tables - all designed to slow traffic - along with the construction of additional sidewalks. The planned improvements in the high volume corridors can be used to leverage the sidewalks to be installed through the City's Surtax Sidewalk Project to improve overall safety. The key corridors are NW 7th Avenue, NW 16th Street, NW 17th Street, NW 19th Street, NW 6th Avenue, and NW 12th Street.	General Capital Projects (Fund 331)	-	-	-	-	75,000	-	75,000
SR A1A Streetscape Improvements	P11681	This project is located on the West side of A1A and includes providing a safe pedestrian walkway by relocating trees and streetlights to within 2 feet of the curb, replacing the existing concrete sidewalk with decorative pavers, and installing lighted bollards and pedestrian-scale lights.	Central Beach Redevelopment CRA CIP (Fund 346)	45,590	-	-	-	-	-	45,590
			General Capital Projects (Fund 331)	48,668	-	-	-	-	-	48,668
Annual Asphalt Concrete Resurfacing	P11945	This project funds an annual contract for street resurfacing. This contract includes striping adjustment of storm inlets and pothole repair. It also includes the milling and leveling for streets that need a full repair and resurfacing of streets based on assessed conditions. Streets identified for resurfacing will be scheduled based on the Pavement Management System study results.	Gas Tax (Fund 332)	480,500	-	-	-	-	-	480,500

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Downtown Fort Lauderdale Mobility Hub Project	P12126	This project is to provide management of the design and construction of streetscape improvements in the Downtown Fort Lauderdale Mobility Hub. The Downtown Fort Lauderdale Mobility Hub Project includes design and construction of physical improvements to achieve a high-quality user experience, seamless mobility and mode transfer, increased walkability, and to catalyze transit oriented development. The City is a sub-recipient of a grant from the Broward Metropolitan Planning Organization (BMPO) which expires end of 2020.	General Capital Projects (Fund 331)	78,673	-	-	-	-	-	78,673
Sidewalk and Paver Replacement	P12134	This project involves reconstructing selected concrete sidewalks, curbs, gutters, and pavers within the City's right-of-way. It includes sidewalks adjacent to schools located within the City's limits. The scope of work focuses on repairing and replacing sidewalks and pavers identified as trip-and-fall hazards, as well as those under the City's responsibility.	General Capital Projects (Fund 331)	700	-	-	-	-	-	700
Cordova Road Complete Streets Project	P12158	The Cordova Road project will convert the existing four vehicle lane section to provide landscaped buffered sidewalks new pedestrian crossings pedestrian lighting bike accommodations and traffic calming. The design and construction is being funded through a Transportation Alternatives Grant.	General Capital Projects (Fund 331)	3,787	-	-	-	-	-	3,787
Off-Street Parking	P12166	This project provides funding for the construction of public off street parking improvements and parking improvements for vacant lots along Sistrunk.	NW Progresso Flagler Heights CRA CIP (Fund 347)	30,622	-	-	-	-	-	30,622
NE 4th Street Improvements	P12318	The scope of the project includes adding wide sidewalks, pedestrian lighting and landscaping to complete the street between US1 and NE 3rd Avenue and the gaps between the existing and soon to be developed properties mostly on the south side of the street as well as a few missing gaps on the north side. NE 4th Street is a major East/West corridor that connects US1/Federal Highway to the west over the FEC railway yet remains to have gaps in the multimodal network that is appropriate to support the densification of mixed uses in the downtown and especially along NE 4th Street. If not completed there will be a major gap in the multimodal network where properties haven't been redeveloped that creates barriers to people being able to move throughout the city.	General Capital Projects (Fund 331)	33,151	-	-	1,250,000	-	-	1,283,151
Shady Banks Entryway	P12326	Project funding will be used to implement the vision of the Shady Banks Neighborhood through their Neighborhood Mobility Master Plan. The priority item for the neighborhood was to address the speed of vehicles entering their neighborhood as well as the volume of cut through traffic. The scope includes narrowing the entryway at Davie Boulevard and SW 17th Avenue including reducing the high speed right turn lane installing a neckdown on SW 17th Avenue at the approach to SW 12th Court install a raised intersection at SW 12th Ct and SW 17th Avenue and using patterned asphalt to demarcate the entryway into the neighborhood.	General Capital Projects (Fund 331)	80,943	-	-	-	-	-	80,943
Tarpon River Traffic Calming Improvements	P12377	Project funding will implement the highest priorities out of the Tarpon River Mobility Masterplan. The neighborhood's priority was to address pedestrian connectivity and safety. Primary improvements include the installation of new sidewalks, and any leftover funds will go towards mobility masterplan improvements prioritized by the neighborhood. The priority is to begin with SW 9th Avenue and SW 7th Street.	General Capital Projects (Fund 331)	1,390	-	-	-	-	-	1,390
Mid-Block Flashing Beacon	P12427	This crosswalk will connect students from Walker Elementary and the neighborhood on the west side of NW 9th Avenue to the Boys and Girls Club on the east side of NW 9th Avenue at NW 2nd Street. The scope of the project includes the design survey of the intersection final design and construction of the crosswalk. The design includes the traffic signing and marking needed, ADA (Americans with Disabilities Act) ramps, any drainage relocations due to conflicts, sidewalk reconstruction at intersection to connect to crosswalk, and new rapid-flashing beacon crosswalk signage with push buttons.	NW Progresso Flagler Heights CRA CIP (Fund 347)	96,375	-	-	-	-	-	96,375
Breakers Avenue and Birch Road Improvements	P12435	The Breakers Avenue project will implement the streetscape vision established for the North Beach Village Area through the Central Beach Master Planning process. The consensus reached by stakeholders was for the City to prioritize creating Breakers Avenue as a model street that places more prominence on the safe movement of the pedestrian in recognition of the character and destinations on the street. Neighbors prioritized the addition of wider sidewalks, on-street parking, landscaping street trees, string canopy lighting, and traffic calming on this 7 block stretch from Riomar Street north to the entrance of the Bonnet House Museum and Gardens. They also emphasized the need to address aging infrastructure and incorporate sustainable design elements and innovative stormwater treatments which will be defined through the design process. The components of the project will be designed to serve multiple functions and provide co-benefits.	General Capital Projects (Fund 331)	1,754,235	2,850,000	-	-	-	-	4,604,235
			Stormwater - Capital Projects (Fund 471)	1,055,085	-	-	-	-	-	1,055,085
			Water and Sewer - General Capital Projects (Fund 454)	1,750,000	-	-	-	-	-	1,750,000
NW 15th Ave Twin Lakes Road Closure	P12440	This project funds the design and construction of a road closure on NW 15th Ave between the residential and commercial uses north of NW 46th Street as identified within the Twin Lakes North Neighborhood Mobility Master Plan. The project will include a closure that only allows pedestrians and bicycles and appropriate signage to warn vehicles prior to turning down the street to the north and south.	General Capital Projects (Fund 331)	40,010	-	-	-	-	-	40,010
Sistrunk Crossroads	P12443	The Sistrunk Crosswalks Project has been requested by the community for many years to help improve safety along Sistrunk Boulevard. The project will design and construct new crosswalks along Sistrunk Blvd between NW 24th Ave and Andrews Avenue including ADA (Americans with Disabilities Act) ramps where necessary and the striping of crosswalks. It is anticipated that there will be approximately six (6) new crossings added through this project. The Transportation and Mobility Department (TAM) will work with neighbors and stakeholders around Sistrunk Boulevard to finalize the locations of additional crosswalks.	NW Progresso Flagler Heights CRA CIP (Fund 347)	248,580	-	-	-	-	-	248,580

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
NW 15th Avenue Complete Streets Project	P12470	The proposed project is along approximately a one mile stretch of NW 15th Avenue between Sunrise Blvd and NW 19th St. The scope includes improving bicycle and pedestrian accommodations to increase the safe mobility of neighbors by adding crosswalks where there are currently none in the one-mile stretch and by widening the existing sidewalk on the east side of the street to be a shared use path. Traffic calming improvements will also be implemented to reduce speeds and discourage cut through traffic along this major collector road that transects the Lauderdale Manors neighborhood. This project focuses on improving safety conditions to support the activity along this corridor. The Lauderdale Manors neighborhood has requested that this street be prioritized in order to make it safer for local residents.	General Capital Projects (Fund 331)	24,827	-	-	-	-	-	24,827
NPF Streetscape Improvement Project	P12507	This project entails streetscape improvements within the Public Right-Of-Way along NW 5th Avenue and various streets within the Northwest Progresso Flagler Heights (NPF) Community Redevelopment Area (CRA). Annual Concrete & Paver Stones Contract	P12517	This project is for the repair of damaged sidewalks and paver bricks Citywide, based on the results of the Sidewalk Inspection and Management System.	Gas Tax (Fund 332)	3	-	-	-	-	-	3
			General Capital Projects (Fund 331)	16,463	1,500,000	2,000,000	2,000,000	3,646,554	3,646,554	12,809,571
Annual Asphalt Resurfacing	P12518	This project is for roadway asphalt overlay and/or milling and resurfacing to maintain and improve streets affected by utility work and for those streets with a Pavement Condition Index (PCI) score below 55.	Gas Tax (Fund 332)	525,763	-	-	-	-	-	525,763
			General Capital Projects (Fund 331)	3,081,317	2,500,000	3,000,000	3,500,000	3,500,000	3,500,000	19,081,317
The NE 4th Ave Complete Street Project	P12557	This project involves transportation improvements and streetscape enhancements including new wide sidewalks, ADA (Americans with Disabilities Act) ramps, street lighting, shade trees, and potential entryway signs features. Project scope includes the engineering, design, survey, construction, and inspection services.	Central City CRA CIP (Fund 348)	38,325	-	-	-	-	-	38,325
Galt Ocean Mile Beautification	P12585	This project will be for the Galt Ocean Mile corridor improvements. The existing sidewalk has multiple patches due to utility repairs and there has been difficulty in matching the existing construction material originally installed. Also, the light poles and fixtures are faded and in poor physical appearance, the existing street surface is worn, and the existing striping is faded. The project scope will include milling and resurfacing the existing road. The project will also install wider sidewalks with decorative paver inserts, paver raised intersections, pedestrian lighting pavement markings, royal palm trees, and regulatory signs.	General Capital Projects (Fund 331)	2,655,440	-	-	-	-	-	2,655,440
Lake Ridge Plan Implementation	P12586	This project involves the implementation of traffic calming measures as identified in the Lake Ridge Mobility Master Plan. The scope of this project includes lower cost tactical urbanism measures. This project involves implementing a pilot road diet using paint and planters (NE 15th Ave between NE 11th St and NE 13th Street) as well as installing a mini-roundabout (NE 11th St at NE 10th Ave) and rubber speed humps throughout the neighborhood (NE11th Street, NE 17th Terrace, NE 17th Way, NE17th Ave, and NE 18th Ave).	General Capital Projects (Fund 331)	52,085	-	-	-	-	-	52,085
NW 15th Ave Streetscape	P12595	This project is to improve the streetscape and roadway mobility of NW 15th Avenue between Sunrise Blvd and NW 19th St. The scope of the project focuses on improving bicycle and pedestrian accommodations by constructing crosswalks and by widening the existing sidewalk on the east side of the street to be multi-modal. This project also provides for lighting improvements from Sunrise Boulevard to Mills Pond Park. Finally, traffic calming improvements will be implemented to reduce speeds and discourage cut through traffic along this major collector road that transects the Lauderdale Manors neighborhood. This project focuses on improving safety conditions to support the activity along this corridor.	Transportation Surtax Fund (Fund 338)	3,352,705	-	-	-	-	-	3,352,705
Surtax-Sidewalk Connections	P12596	There are many incomplete sidewalks within the City. The project will design the new sidewalks that will fill those missing gaps beginning with identifying priorities from the list and design.	Transportation Surtax Fund (Fund 338)	-	-	-	-	-	-	-
Riverland Road Traffic Calming	P12598	This project will design and construct traffic calming improvements along Riverland Road between State Road 7 and Davie Blvd to complement the Complete Streets Project which is being constructed by the Broward Metropolitan Planning Organization (MPO) through Transportation Investments Generating Economic Recovery (TIGER) grants. The concept plan includes raised intersections at Okeechobee Lane SW 35th Avenue SW 14th Street and SW 18th Street.	General Capital Projects (Fund 331)	1,041,659	-	-	-	-	-	1,041,659
ADA-Compliant Bus Stops	P12599	This project concerns the installation of fifteen (15) ADA (Americans with Disabilities Act)compliant bus stops along the Community Bus (Sun Trolley) Service Routes. As of 2019 15 bus stops have been identified as "non-compliant" within the City. An additional attachment has been provided to detail the locations of the non-compliant stops. Broward County Transit (BCT) has provided a cost estimate for the work needed to obtain compliance. BCT estimates that on average each non-compliant bus stop will cost $52500 to bring into compliance. In total the BCT estimates that $750000 will be needed to update all 15 bus stops to ADA compliance standards. This project would fund the purchasing of the right of way, the relocation of all utilities cables and drainage, the installation of a concrete pad, the redesign of the curbing around the bus stops, and the necessary shelter and bus equipment.	Miscellaneous Federal/State/County Grants (Fund 129)	-	-	-	-	-	-	-
Traffic Flow Improvements	P12600	In order to address the City Commission Priority to improve the traffic flow throughout the City of Fort Lauderdale, the Transportation and Mobility Department is requesting technological improvements to improve critical areas and pinch points. This project will be done in coordination with the Florida Department of Transportation and Broward County Traffic Engineering.	General Capital Projects (Fund 331)	52,577	-	-	-	-	-	52,577
Coral Ridge Country Club Estates Mobility Masterplan Implementation	P12636	This project is for the implementation of the neighborhood mobility master plan that was completed for the Coral RIdge Country Club Estates neighborhood. This project will include the installation of signage speed humps stripping and other traffic calming elements throughout the neighborhood.	General Capital Projects (Fund 331)	74	-	-	-	-	-	74

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Fire Station #49 Roof Replacement	P12691	This project is requesting funds for the replacement of the roof at Fire Station #49.	General Capital Projects (Fund 331)	59,786	-	-	-	-	-	59,786
Las Olas Isles Signalized Crosswalks	P12699	This project calls for the installation of two signalized crosswalks on East Las Olas Blvd one at Coconut Isle Dr and the other on Coral Way.	General Capital Projects (Fund 331)	27,292	-	-	-	-	-	27,292
River Oaks Traffic Improvements	P12788	This project includes the milling and resurfacing, roadway and sidewalk improvements, minor drainage improvements, possible landscape, signing and pavement marking improvements throughout the River Oaks neighborhood.	General Capital Projects (Fund 331)	34,710	-	-	-	-	-	34,710
Sunrise Lane District Streetscapes	P12792	This project focuses on roadway improvements to the support the areas surrounding businesses. The scope of work includes widening the sidewalk area; improving nighttime visibility through pedestrian lighting, roadway lighting, and overhead festival lighting. The project will also realign the street parking spots, improve landscaping, and install entryway features to help create a unique destination feel for the district. These improvements will help attract visitors to the area by letting them know there are stores and restaurants within the area just off A1A including wayfinding features.	General Capital Projects (Fund 331)	85,991	-	-	-	-	-	85,991
Las Olas Mobility	P12796	In 2017 a unified effort was launched to evaluate the transportation, landscaping, planning and urban design needs of the Las Olas Boulevard corridor from Andrews Avenue to SR A1A aimed at building consensus on the future of a world-class corridor. The effort included extensive stakeholder participation by the Las Olas Working Group established that included residents, business owners and property owners along the entire corridor. The project is estimated at $140 million. Based on prior city projects that used a special assessment model, where the City had a participatory role in the funding, staff is requesting a phased funding approach to advance the initiative through the next phases.	General Capital Projects (Fund 331)	4,783,545	-	1,000,000	-	-	-	5,783,545
EV Charger Installation at City Facilities	P12833	This project is for the purchase and installation of additional electric vehicle (EV) chargers at City-owned facilities. With this project, the goal is to install approximately fifteen (15) EV chargers per fiscal year. Staff will focus on City facilities where City vehicles are parked overnight, including the following facilities: City Hall, the Parks and Recreation Headquarters, the Public Works building at NW 38th Street, and the Development Services building.	Vehicle Rental - Capital Projects (Fund 584)	203,052	100,000	100,000	-	-	-	403,052
Central City Streetscape Improvement Project	P12855	The Central City Streetscape Improvement Project will provide, where none presently exist; sidewalks, drainage, curb and gutters, fiber optic cable for wireless connectivity, an increase in water and sewer capacity, upgraded lighting, new street furniture to include bus benches, trash receptacles, ADA compliant side walks and signage.	Central City CRA CIP (Fund 348)	2,652,260	-	-	-	-	-	2,652,260
Annual Sidewalk Gap Construction	P12865	This project provides annual funding for the construction of new sidewalks within the City of Fort Lauderdale. The City will prioritize filling the gaps as identified in in the Sidewalk Master Plan as well as areas frequently identified by residents through the Q-Alert request list. 32 locations were identified as needing additional sidewalks from the Neighborhood Mobility Master Plans (over 10 miles of sidewalk construction requested). This is a recurring request to commence construction of the needed infrastructure.	General Capital Projects (Fund 331)	1,076,976	-	1,100,000	2,500,000	2,500,000	3,000,000	10,176,976
			Transportation Surtax Fund (Fund 338)	-	1,000,000	-	-	-	-	1,000,000
NE 16th Court Traffic Calming	P12901	The City is actively working to address safety concerns on NE 16th Terrace. The roadway has high accidents and staff worked with the HOA (Home Owners Association) to implement traffic calming measures. The design was completed in FY23 but bids came back over budget. The design includes roadway modifications and the installation of a median island to slow traffic.	General Capital Projects (Fund 331)	14,347	-	-	-	-	-	14,347
Broward Blvd Dual Left Lane at SW 15th Avenue	P12902	The City is actively working with Broward County Traffic Engineering to add capacity at the Broward Boulevard and SE 15th Avenue intersection. The plan is to redesign the turning lane configuration to add capacity. The work includes milling, resurfacing, pavement markings, signage, and signal timing adjustments.	General Capital Projects (Fund 331)	188,000	-	-	-	-	-	188,000
Cordova Rd at SE 12th St Safety Improvements	P12903	The City is actively working to address safety concerns at Cordova Road and SE 12th Street. The intersection is located on a curve of Cordova Roadway creating safety concerns. Staff envisions modifications that tighten the intersection and improve visibility.	General Capital Projects (Fund 331)	50,000	-	-	-	-	-	50,000
District Three Pedestrian Improvements	P12904	The scope of work includes pedestrian safety improvements, ADA (Americans with Disabilities Act) enhancements, and crosswalk modifications to enhance mobility.	General Capital Projects (Fund 331)	100,000	-	-	-	-	-	100,000

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
NE 15th Avenue Complete Streets Project	P12905	The project was identified as a FY24 Commission Priority to move forward with the permanent solution for NE 15th Avenue following the input of impacted neighborhoods. The project is on NE 15th Avenue between Sunrise Boulevard to the South Fork of the Middle River in both Lake Ridge and Poinsettia Heights and includes the hardscape construction of the pilot area between Sunrise Boulevard and NE 13th Street and enhancements between NE 13th Street and the River to add traffic calming, new crosswalks and enhancing existing crosswalks. The Lake Ridge portion is the implementation of their priority project from their Neighborhood Mobility Master Plan completed in 2015. The scope includes adding a landscaped median, ADA improvements to support the crosswalks, and making the interim project permanent based on lessons learned. The interim project has shown the significant safety improvements in this corridor including reducing speeds of vehicles from the 60% of cars traveling over the Average Speed to only 1% and the 85% being reduced to the speed limit. Multimodal counts have shown that now bicyclists have their own place to ride off the sidewalk and do frequently use it and also that pedestrians are utilizing the crosswalks not that they exist. Finally, the number of accidents have been reduced by 50% since the installation. Without this project being made permanent there will be a burden on maintenance to the city until permanent funding is secured with planters, paint and delineators. If the project is removed, the results will be to degrade safety on the street back to its previous condition with a major roadway having sub adequate accommodations for bicyclists and pedestrians as well as safety issues for vehicles trying to cross and turn onto NE 15th Avenue. The speed causes a safety hazard degrading the quality of life for residents.	General Capital Projects (Fund 331)	127,846	-	-	-	-	-	127,846
Central City Lighting NE 4th Ave Streetscape	P12923	The Central City NE 4th Avenue Streetscape Improvements requires a lighting component for the project. The scope is to install poles, fixtures, and wiring.	Central City CRA CIP (Fund 348)	211,000						211,000
Rio Vista SE 6th Ave Traffic Calming	P12934	This project will improve safety for all users along SE 6th Avenue, around the Henry Kinney Tunnel, and on SE 9th Avenue in Rio Vista. Improvements on SE 6th Avenue will include a raised crosswalk just north of SE 6th Street, a speed hump just north of SE 5th Street, and a raised intersection at SE 6th Avenue and Rio Vista Boulevard. SE 9th Avenue improvements will include the installation of two solar speed radar signs.	General Capital Projects (Fund 331)	287,040	-	-	-	-	-	287,040
SE 9th Ave Pedestrian Connection	P12935	This project will implement traffic calming measures within the area and create a safer pedestrian connection between Las Olas Boulevard and the water transportation stop at the end of SE 9th Avenue.	General Capital Projects (Fund 331)	199,920	-	-	-	-	-	199,920
Bayview Drive North Bike Lanes	P12936	This project is designed to complete a missing link in the bike lane network on Bayview Drive. This project will resurface the road and restripe the pavement in order to add in bike lanes, within the existing roadway between NE 60th Street and US1/Federal Highway, and by reducing the excessively wide lane widths from 20 wide to 11 wide. The landscaped buffer on the north side at US1 will be filled with concrete along the shopping plaza to allow bicyclists to be separated from vehicles as they approach the intersection and keep the existing lane configuration and will add a painted bike box at the intersection westbound to allow for bicyclists to safely position at the intersection for turning movements.	General Capital Projects (Fund 331)	18,000	-	120,000	-	-	-	138,000
Riverside Park Traffic Calming and Sidewalks	P12938	The Riverside Park Residents Association has identified key transportation improvements needed to enhance safety for everyone, particularly students and other pedestrians. Given the proximity to the Stranahan High School, this area is designated for improvements including sidewalks, raised intersections, speed bumps, and traffic calming measures. These improvements have been requested by the Homeowner Association and residents.	General Capital Projects (Fund 331)	37,702	-	-	-	-	-	37,702
NE 13th Street Sculpture	P12941	This project will replace the existing Central City Unity Beacon with a new powder coated and sealed sculpture. This project will become a focal point for the area to help attract businesses.	Central City CRA CIP (Fund 348)	200,000	-	-	-	-	-	200,000
Smart City Technology	P13022	The scope of the Smart City Parking System project includes the deployment of lot sensors, cameras, and AI-powered software to monitor parking availability, automate payments, enforce compliance, and provide real-time data insights for improved urban mobility and traffic management.	Parking System - Capital Projects (Fund 463)	-	200,000	450,000	450,000	450,000	450,000	2,000,000
Parking Lot Sign Replacements	P13024	This project involves the replacement and installation of 25 monument-style parking lot signs at key locations within the Transportation and Mobility Department's facilities and public parking areas throughout Fort Lauderdale. The scope includes site preparation, foundation work, fabrication, and installation of the new signs, ensuring durability and compliance with city branding standards. These monument-style signs will be designed with high-quality, weather-resistant materials to withstand environmental conditions while maintaining visibility, aesthetic appeal, and long-term functionality.	Parking System - Capital Projects (Fund 463)	-	150,000	-	-	-	-	150,000
		Road and Street Facilities Total		**28,638,387**	**8,300,000**	**8,295,000**	**9,700,000**	**11,011,554**	**21,142,873**	**87,087,814**
Seawall										
Riverwalk Seawall Partial Restoration Northside	P11722	This project will be to replace/repair a portion of the seawall along the North New River/Riverwalk based on the results of the inspection of the seawall and the land behind it. Approximately 1,700 linear feet of seawall is aging along the North New River in the Riverwalk area. The funding for this project will provide for the design, permitting, repair, and replacement of a portion of the existing seawall to correct the most critical issues identified in the inspection. Additionally, the funding will provide for the reinforcement of the existing seawall as well as the existing fixed and floating docks. The portion of the Riverwalk Seawall that will be repaired is from the Andrews Avenue Bridge to the Florida East Coast Railroad Train Tracks. This is approximately 500 feet of seawall repair work.	General Capital Projects (Fund 331)	4,222,711	-	-	-	-	-	4,222,711
Seawall Replacement Along New River	P11827	This project is for the replacement of the seawall along the New River.	General Capital Projects (Fund 331)	584						584

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
City-Owned Seawall Restoration and Replacement	P12330	This project will address the capital repair and/or replacement of the City-owned seawalls. The repair and replacement efforts will include potential structural modifications to address the challenges associated with sea level rise in addition to the standard capital repairs, rehabilitations, and replacements.	General Capital Projects (Fund 331)	2,044,043	1,542,304	1,500,000	2,000,000	2,000,000	2,000,000	11,086,347
Cordova Road Seawall Replacement	P12337	This project will repair/replace a 2,200 linear feet portion of a seawall along Cordova Road between SE 7th Street and SE 12th Street. The wall cap has areas of spalls coral rock seals have failed creating voids there are spalls with exposed rebar and cracks with staining. There is visible distress to the soil behind the wall. The wall is currently over topping. This project will fund the design permitting and construction to repair/replace a portion of the existing seawall.	General Capital Projects (Fund 331)	131,573	-	-	-	-	-	131,573
Seawall Maintenance	P12549	This project is for installation and replacement of city owned seawalls. The repair or replacement efforts will include potential structural modifications to address the challenges associated with sea level rise in addition to the standard capital repairs rehabilitation or replacement.	General Capital Projects (Fund 331)	462,254	-	-	-	-	-	462,254
Southeast Isles Seawall Replacement Project	P12728	This project is for the replacement of approximately 790 linear feet of existing seawalls along East Las Olas Boulevard, and along SE 10th Street. The seawalls are #12, 13, 14, 30, and 36 as identified in the City's Seawall Masterplan. The new seawalls will be constructed of marine grade steel sheet-piles with a concrete cap, set at an elevation of 5.0 NAVD88, per the City's new seawall ordinance.	2019 Stormwater Bonds Construction (Fund 473)	291,060	-	-	-	-	-	291,060

Parker Playhouse Renovation	P12343	This funding is the City's monetary contribution to the Broward County Performing Arts Center Authority (PACA) towards the renovation of Parker Playhouse. The City owns the land and the building; the City leases the building to the Parker Theatre, Incorporated. Broward County Performing Arts Center Authority (PACA) operates the facility on behalf of the foundation. The City's contribution is estimated to be one third of the total project cost and is to be paid over a nine year period. City's Monetary Contribution Breakdown: FY2018 - FY2020 $500K per year FY2021 - FY2023 $600K per year FY2024 - FY2027 $700K per year FY2028 - $185K per year	General Capital Projects (Fund 331)	-	700,000	700,000	185,000	-	-	1,585,000
Aquatic Center South Building Replacement	P12582	The Fort Lauderdale Aquatic Center sits on a 5.5 acre peninsula on the barrier island. The Aquatic Center pools are undergoing a $27 Million renovation under a design build contract issued to Hensel Phelps. The existing athlete locker rooms are located in the South Building and need renovation. The South Building is in poor condition and it is not a fiscally responsible to perform interior renovations on a building with severe deficiencies. The City received an unsolicited proposal from Hensel Phelps to demolish and rebuild a new South Building. The new South Building will have athlete locker rooms, office space, conference room meeting rooms, a weight room, a first aid station, a sun deck, a storage space.	Parks Bond (Operating) (Fund 353)	263,943	-	-	-	-	-	263,943

NW 13th Street 24" Force Main Replacement - Phase 2 & 3	NEW-000353	This project is for the construction costs associated with the replacement of a 24-inch diameter sewer force main with a 30-inch duct iron pipe. Phase 2 of the project will replace 3,300 linear feet and Phase 3 will replace 6,700 linear feet of pipes. Phase 2 is located between the intersection of NW 13th Street and Powerline Road up to the intersection of NW 15th Avenue and NW 11th Place, running along NW 13th Street, NW 9th Terrence, NW 11th Place and Chateau Park Drive, and connects on the east end of Phase 1. Phase 3 is located between the intersection of NW 13th Street and North Andrews Avenue, and just south of the intersection of NE 14th Street and 15th Avenue and the force main will run along NW 13th Street, NE 3rd Avenue, NE 12th Street, NE 7th Avenue, NE 14th Avenue, NE 14th Street and NE 15th Avenue. Force Main B-1 Discharge Improvements	NEW-528906	This project is for the replacement of an existing 10-inch force main and will tie into the existing 18-inch force main cross over on Bayview Drive (approximately 350 linear feet) to NE 37th Court to reduce velocity. A valve closure may be required to implement. The project also includes a 600-foot subaqueous crossing beneath the Intracoastal Waterway.	Water and Sewer - General Capital Projects (Fund 454)	-	-	-	-	204,601	1,587,412	1,792,013
Equipment Replacement at Re-Pump Stations B & E	NEW-797432	This project is for the replacement of pumps and motors at the City's two (2) sanitary re-pump stations (B & E). Re-pump stations are designed to intercept wastewater at the point of connection, transport, and then dispose of all wastewater collected.	Central Regional Wastewater System (Fund 455)	-	-	-	-	5,142,735	15,142,735	20,285,470
Hendricks Isle Sewer Replacement	NEW-FY 2023019	This project is for the replacement of approximately 350 linear feet of gravity wastewater collection pipe lines on Hendricks Isle and to service laterals up to the property lines.	Water and Sewer - General Capital Projects (Fund 454)	-	-	-	-	-	357,127	357,127
I&I Program Management	P12214	This project is for the Inflow and Infiltration (I&I) Program. This program includes lining of sewer mains, laterals, and manholes. The lining is expected to produce new assets with a 50-year service life.	Water and Sewer - General Capital Projects (Fund 454)	1,086,583	6,378,022	11,014,581	6,393,040	16,017,779	12,800,000	53,690,005

Water and Wastewater										
Regional Renewal & Replacement	P00401	The City is the owner and operator of the Broward County Central Wastewater System. The regional system consists of wastewater transmission lines, re-pump stations, and the wastewater treatment facility. Annually, the City prepares a Central Region Wastewater System Renewal and Replacement Analysis, which functions as a 20-year financial model for the proper maintenance of the system. City staff evaluates the various components of the system and validates their condition against the expected life span. The information gathered on the system's components is then used to prioritize rehabilitation work and project out future, anticipated cost. This information is entered into a 20-year rotating replacement database to ensure sufficient funds are collected. Water / Sewer Combination Services										
George T. Lohmeyer WWTP Sludge Pump Replacement	FY20221035	This project is for the rehabilitation of Sludge Pump Stations, which includes bypass pumping and cleaning with concrete repair. Additionally, this project is for the replacement of variable frequency drives (VFDs), pumps, and leaking large diameter valves.	Central Regional Wastewater System (Fund 455)	-	-	-	-	9,464,810	-	9,464,810
Sodium Hypochlorite Conversion at George T. Lohmeyer WWTP	NEW-246681	This project will convert the existing chlorine gas system -- which consists of a chlorine storage room, scales, chlorinators and evaporators -- to a bulk liquid sodium hypochlorite system at the George T. Lohmeyer (GTL) Wastewater Treatment Facility. Treating wastewater with sodium hypochlorite has a similar disinfectant efficiency as chlorine, but it reduces the hazards that are associated with handling and storing chlorine gas.	Central Regional Wastewater System (Fund 455)	-	-	1,500,000	15,411,195	-	-	16,911,195
Central New River Watermain River Crossings	P10814	The City's existing water transmission system includes a 16-inch pipe that crosses the New River at SE 1st Avenue and an existing 12-inch pipe that crosses the New River at SW 7th Avenue. Both of these river crossings are subaqueous pipelines, are important to the downtown water supply, and have exceeded their expected life cycle. Replacement pipelines are currently under design. Staff recommends running a transmission system hydraulic model to determine the impact of changes to the existing and proposed river crossings. Victoria Park A North-Small Watermains	P10850	Small Water Main replacement in the Victoria Park-North neighborhood. Replace approximately 26,500 linear feet of existing undersized and deteriorated small water mains with new 6" and 8" polyvinyl chloride pipe water mains, and improve fire hydrant coverage.	Water and Sewer - General Capital Projects (Fund 454)	875						875
			Water & Sewer Master Plan 2 017 (Fund 495)	1,105						1,105
Victoria Park Sewer Basin A-19 Rehab	P11563	This project includes the rehabilitation of mainline sewers manholes and service laterals. Project work includes pre and post television survey flow monitoring traffic control and site restoration.	Water and Sewer - General Capital Projects (Fund 454)	71,766	-	-	-	-	-	71,766
			Water & Sewer Master Plan 2 017 (Fund 495)	48,670	-	-	-	-	-	48,670
Rio Vista Sewer Basin D-43 Rehab	P11566	This project includes the rehabilitation of Mainline Sewers in the Rio Vista neighborhood associated with pump station D-43. Work includes pre and post television survey, flow monitoring, traffic control, and site restoration. This is part of the Wastewater Conveyance System Long Term Remediation Program. There is no bidding phase for this project.	Water and Sewer - General Capital Projects (Fund 454)	650,635	-	-	-	-	-	650,635
			Water & Sewer Master Plan 2 017 (Fund 495)	15	-	-	-	-	-	15
Fiveash WTP Disinfection Improvements	P11589	This project is for the construction of two separately designed projects under one construction contract. Combining the projects is necessary because both projects need to be completed simultaneously. Having one construction contract will avoid disputes between two contractors working at the same time and competing for staging areas and storage space on the crowded water treatment plant site. Under this approach, both projects can be constructed in three (3years. The first project, Reliability Upgrades, installs various repairs and replacements throughout the plant. Major items include replacement of the control system for the entire plant, replacement of the obsolete emergency generators, modifications to the high service pumps, and increasing the weather resistance of the plant buildings.	Water and Sewer - General Capital Projects (Fund 454)	2,315	-	-	-	-	-	2,315

Basin B-6 Sanitary Sewer System Rehabilitation	P11664	This project funds the rehabilitation of a sanitary sewer collection system in the Coral Ridge Neighborhood at Basin B-6. This project involves point repairs, minor road restoration, landscaping, and the rehabilitation of mainline sewers. City staff will employ the use of trenchless technologies to repair sewer system components such as lining of gravity sewers, manholes, and sewer laterals. This project also includes a pre- and post- television survey, flow monitoring, traffic control, and site restoration. This project is a part of the Wastewater Conveyance System Long Term Remediation Program.	Water and Sewer - General Capital Projects (Fund 454)	10,016,927	-	-	-	-	-	10,016,927
GTL WWTP Cryogenic Plant Upgrades	P11781	This project is to upgrade all equipment instrumentation and controls to the latest technology in order to automate the Cryogenic Plant and increase reliability. Project will include any required control room upgrades for proper space conditioning. The work includes engineering evaluation and upgrades to several components of the Cryogenic plant including an upgrade of the control systems to PLC (Programmable Logic Controller), valve replacements, cold box rehabilitation, replacement of the motor control, counter upgrades to back-up systems, and maintenance of the air compressors.	Central Regional Wastewater System (Fund 455)	373,867	-	-	-	-	-	373,867
Downtown Sewer Basin Ps A-7 Rehabilitation	P11991	The project includes the rehabilitation of manholes lateral service connections main lines point repairs minor road restoration and landscaping the use of trenchless technologies to repair sewer system components such as lining of gravity sewers manholes and sewer laterals. Work also includes pre and post rehabilitation close circuit television survey flow monitoring traffic control and site restoration. City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Flagler Heights Sewer Basin A-21 Laterals	P12049	This project includes the rehabilitation of sewer laterals identified in Sewer Basin A-21 by using the cured-in-place pipe method for lateral pipes. The work will include pre and post TV survey flow monitoring flow bypass satisfactory rehabilitation of the sewer laterals in Sewer Basin A-21. There is no bidding phase for this project.	Water and Sewer - General Capital Projects (Fund 454)	948,784	-	-	-	-	-	948,784
			Water & Sewer Master Plan 2 017 (Fund 495)	142,272	-	-	-	-	-	142,272
Contract Supervisory Control and Data Acquisition	P12051	Request for specialized contractor to implement a supervisory control and data acquisition (SCADA) system within the Utilities Bureau. The contractor will be responsible for creating constructing and updating the necessary systems/equipment throughout the various water plants the wastewater plant and the water/wastewater distribution and sewer collection system.	Water and Sewer - General Capital Projects (Fund 454)	91,632	-	-	-	-	-	91,632
Basin A-18 Sanitary Sewer Collection System Rehabilitation	P12055	This project is for the sanitary sewer collection system rehabilitation located at Basin A -18 (Dorsey-Riverbend area). The project will include relining of sanitary sewer collection mains and laterals.	Water and Sewer - General Capital Projects (Fund 454)	343,393	-	-	-	-	-	343,393
			Water & Sewer Master Plan 2 017 (Fund 495)	13	-	-	-	-	-	13
Electrical/SCADA Evaluation	P12114	This project holistically evaluates the overall plant and addresses the global needs with regards to the current condition of the various plant electrical and control systems. The output of the consultant would be a schedule that clearly identifies and prioritizes the work to be done to improve the electrical and control elements at the George T. Lohmeyer Waste Water Treatment Plant. Furthermore, it would evaluate the current SCADA (Supervisory Control And Data Acquisition) system and incorporates it into the same schedule.	Central Regional Wastewater System (Fund 455)	89,140	-	-	-	-	-	89,140
GTL Odor Control Dewatering Building	P12169	This project is for the George T. Lohmeyer Waste Water Treatment Plant odor control system as well as the dewatering building study and upgrade.	Central Regional Wastewater System (Fund 455)	18,475,894	-	-	-	-	-	18,475,894
GTL Concrete Restoration	P12170	This project is to assess the concrete surfaces and structures at the George T. Lohmeyer Waste Water Treatment Plant for failures. The work will create the bid specs for concrete repairs, oversee the bid process, and the construction inspection services.	Central Regional Wastewater System (Fund 455)	24,566	-	-	-	-	-	24,566
Butler Building Upgrade at GTL Wellfield	P12171	The Butler building is used for the Beach crew office staging area and storage of George T. Lohmeyer Water Treatment Plant equipment and maintenance items. The building is deteriorated and is exposed to the environment in places. The building needs to be assessed for upgrades or replacement to bring into compliance with the Miami/Dade specifications.	General Capital Projects (Fund 331)	3,381,364	-	-	-	-	-	3,381,364
George T. Lohmeyer WWTP Motor Control	P12176	This project is for upgrades of various Motor Control Centers based on the Electrical Reliability Study. The study resulted in recommendations for the George T. Lohmeyer Wastewater Treatment Plant.	Central Regional Wastewater System (Fund 455)	73,007	-	-	10,535,752	10,535,752	-	21,144,511
GTL Interior Painting	P12252	This project will provide a protective coating application for all interior surfaces at the George T. Lohmeyer (GTL) Wastewater Treatment Plant.	Central Regional Wastewater System (Fund 455)	448,138	-	-	-	-	-	448,138
GTL Exterior Painting	P12255	This project is for a protective coating application on all exterior surfaces at the George T. Lohmeyer Wastewater Treatment Plant.	Central Regional Wastewater System (Fund 455)	254,862	-	-	-	-	-	254,862
Public Works Administration Building Air Conditioning	P12259	There are five air conditioning units on the rooftop and two inside units at the Public Works Administration Building that need to be replaced. The five units are 100% fresh air which cause more extensive wear and tear as they are exposed to the elements and the two additional units are older and need replacement. The seven units have received extensive repairs with sheet metal and replacement of blower wheels and drain pans.	Water and Sewer - General Capital Projects (Fund 454)	40,116	-	-	-	-	-	40,116
Fiveash Water Treatment Plant Electrical Voltage Upgrade	P12294	This project replaces 4160-volt switchgear and motors for 10 high service pumps and 1 backwash pump. The work will also include the installation of two variable speed drives on the south high service pumps and one variable speed drive on the north high service pumps. Discuss with FPL the feeding to Fiveash with only 480 volt which would eliminate panel OSW2. If possible, there will be a need to install a junction box to supply the administration building with 480 volts instead of 4160 volts. This would also eliminate the need to use a 4160 volt to 480-volt transformer at the administration building. Conduct a full arc flash survey of the plant.	Water and Sewer - General Capital Projects (Fund 454)	130,425	-	-	-	-	-	130,425
New Utilities Central Laboratory - Peele Dixie Water	P12296	This project is for the replacement of the City's Central Utilities Laboratory (lab) with a new modern state of the art laboratory. The new lab will be located on the second floor of the process building at the Peele Dixie Water Treatment Plant. This building is Category IV hurricane proof and would provide a safe location to conduct water quality testing during and in the immediate aftermath of a hurricane. This project also involves the construction of 13 additional parking spaces, new restrooms, and a negative pressure air condition system with isolation between the various laboratory sections. There are also plans to update the electrical supply system, if needed, to support the furnaces used for the lab operations. The new lab will be state-of-the-art and will meet all of the National Environmental Laboratory Accreditation Conference (NELAC) Management System Institutes International Organization for Standardization (ISO) certification requirements.	Water and Sewer - General Capital Projects (Fund 454)	2,122,382	-	-	-	-	-	2,122,382
NE 25th Avenue 24" Force Main Replacement	P12383	This project is for the construction costs associated with the replacement of a deteriorated 24-inch diameter, ductile iron pipe (DIP) sewer force main measuring approximately 5,500 linear feet (LF). The force main is located along NE 25th Avenue from Commercial Boulevard to Oakland Park Boulevard.	Water and Sewer - General Capital Projects (Fund 454)	1,260,135	-	-	-	-	-	1,260,135
			Water & Sewer Master Plan 2 017 (Fund 495)	2,402,671	-	-	-	-	-	2,402,671

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
NE 38th Street 42" Force Main and NE 19th Avenue 24" Force M	P12384	This project funds the replacement of approximately 8,000 linear feet of deteriorated 42-inch diameter sewer force main along NE 38th Street, between North Dixie Highway and Coral Ridge Club. In addition, this project will enable the installation of approximately 3,000 linear feet of 24-inch new sewer force main along NE 19th Avenue, between NE 38th Street and NE 32nd Street. On October 24, 2019 FDEP approved the request to modify this project by installing 2,500 linear feet of 24-inch new sewer force main along NE 50th Court in lieu of the 3,000 feet of 24-inch new sewer force main along NE 19th Avenue.	Sewer Expansion/ Impact Fee Construction (Fund 453)	1,200,000	-	-	-	-	-	1,200,000
			Water & Sewer Regional Mas ter Plan 2017 (Fund 496)	6,672,776	-	-	-	-	-	6,672,776
Effluent Pipe 54-Inch Force Main Replacement	P12387	This project is for the rehabilitation, or replacement, of a 54-inch pipe leading from George T. Lohmeyer Wastewater Treatment Plant (GTL) to the injection wells.	Central Regional Wastewater System (Fund 455)	2,885,614	-	-	-	-	-	2,885,614
			Water & Sewer Regional Mas ter Plan 2017 (Fund 496)	22,854,294	-	-	-	-	-	22,854,294
Prospect Wellfield Electrical Studies & Testing	P12400	This project is to perform short circuit device coordination and arc flash study electrical maintenance testing and generate accurate as-built one line drawings and plans of the entire wellfield.	Water & Sewer Master Plan 2 017 (Fund 495)	183,832	-	-	-	-	-	183,832
Prospect Wellfield Bonding and Grounding Test	P12401	Perform Bonding and Grounding survey and testing and add lightning protection to generator buildings to the Prospect Wellfield.	Water and Sewer - General Capital Projects (Fund 454)	97,216	-	-	-	-	-	97,216
Pump Stations C-1 and C-2 Replacement	P12410	This project is for the replacement of Pump Stations C-1 and C-2. The replacement will upgrade the pumps at Pump Station C-1 and C-2 with higher capacity models. The project will replace the station piping valves appurtenances and wet well as necessary.	Water and Sewer - General Capital Projects (Fund 454)	2,563,660	-	-	-	-	-	2,563,660
			Water & Sewer Master Plan 2 017 (Fund 495)	512,409	-	-	-	-	-	512,409
Pump Stations A-16 Upgrade	P12412	This project encompasses the construction of a new submersible wastewater pump station (PS) A-16 that will be constructed approximately 120 feet east of the SE 4th Avenue and SE 11th Street. This relocation ensures compliance with federal setbacks for the new Federal Courthouse. The scope of the project includes installation of an 18-inch PVC gravity sewer line connecting the existing sanitary sewer to the new pump station. The project also includes the construction of a new 10-inch HDPE (High-Density Polyethylene) force main to connect the new pump station to the City's existing 36-inch force main. Additionally, the project includes the construction of 30-inch HDPE transmission water main along SE 3rd Avenue and SE 9th Street to clear the area around the Federal Courthouse site. Lastly, the project involves the decommissioning and removal of the existing pump station, its force main, and the 30-inch water main.	Water and Sewer - General Capital Projects (Fund 454)	126,093	-	-	-	-	-	126,093
			Water & Sewer Master Plan 2 017 (Fund 495)	134	-	-	-	-	-	134
Gravity Pipe Improvement to Downtown Collection System	P12414	This project includes the following: Upsize 920 feet of the existing 12-inch gravity pipe to a 15-inch gravity pipe along E Las Olas Boulevard from SE 1st Avenue to SE 4th Avenue; Upsize 750 feet of the existing 14-inch gravity pipe to 21-inch gravity pipe right by the pump station and along SE 2nd Street from SW 1st Avenue to SE 1st Avenue; Upsize 84 feet of the existing 14-inch gravity pipe to 24-inch gravity pipe right by the Pump Station A-7 along SW 2nd Street; Upsize 560 feet of the existing 15-inch gravity pipe to 18-inch gravity pipe right along SE 1st Avenue from East Las Olas Boulevard to SE 2nd Street.	Water and Sewer - General Capital Projects (Fund 454)	100,000	-	-	-	-	-	100,000

Freight Elevator Replacement - GTL WWTP	P12438	The freight elevator at George T. Lohmeyer (GTL) requires an immediate replacement. It exceeded its life expectancy according to the study completed by our consultant CDM Smith in June of 2016. It currently requires on average $125,000 in annual repairs and it is constantly breaking resulting in considerable downtime. In summary it is not just impacting daily operations of the plant, but it is also a life and safety issue for the staff. In addition, the elevator is outdated, and the elevator capacity needs to be increased from 6,000 to 10,000 tons.	Central Regional Wastewater System (Fund 455)	1,152,290	-	-	-	-	-	1,152,290
Sewer Basin D-40 Rehab	P12456	Hazen & Sawyer (Consultant) is the Consent Order Program Manager and is responsible for overall program management. This Project will require the Consultant to provide engineering services needed to deliver I/I Reduction in a portion of Sanitary Sewer basin D-40. The Consultant shall provide professional services including engineering analysis field investigation rehabilitation scope preparation and construction management in portions of these pump station areas. The Consultant will be an extension of the City Staff to oversee and report on the rehabilitation of their limits of construction.	Water & Sewer Master Plan 2 017 (Fund 495)	103,804	-	-	-	-	-	103,804
Coral Ridge Small Watermain Improvements	P12462	This project is designed for small water main improvements in the Coral Ridge neighborhood. This project will replace existing water mains, which are undersized and deteriorated, with approximately 16,000 linear feet of 6-inch water mains.	Water & Sewer Master Plan 2 017 (Fund 495)	4,903,273	-	-	-	-	-	4,903,273
Tarpon River A-11 Sewer Basin Rehabilitation	P12464	This project includes point repairs minor road restoration landscaping and the rehabilitation of mainline sewers. City staff will employ the use of trenchless technologies to repair sewer system components such as lining of gravity sewers manholes and sewer laterals for Basin A-11. This project also includes a pre- and post- Closed Circuit Television (CCTV) survey flow monitoring traffic control and site restoration. This is part of the Wastewater Conveyance System Long Term Remediation Program.	Water and Sewer - General Capital Projects (Fund 454)	4,129,666	-	-	-	-	-	4,129,666
Harbor Beach Sewer Basin D-34 Rehabilitation	P12465	The project includes point repairs minor road restoration landscaping and the rehabilitation of mainline sewers in Basin D-34. City staff will employ the use of trenchless technologies to repair sewer system components such as lining of gravity sewers manholes and sewer laterals for Basin A-11. This project also includes a pre- and post- Closed Circuit Television (CCTV) survey flow monitoring traffic control and site restoration. This is part of the Wastewater Conveyance System Long Term Remediation Program.	Water and Sewer - General Capital Projects (Fund 454)	2,479,305	-	-	-	-	-	2,479,305
Fiveash Wellfield Pump Replacement	P12476	This project is for removal and replacement of nineteen (19) complete well assemblies. These wells have exceeded their effective life cycle. Wells would be replaced by operations staff at a rate of five (5) units per fiscal year. Community Investment Plan funding is strictly for equipment only.	Water and Sewer - General Capital Projects (Fund 454)	556,060	-	-	-	-	-	556,060

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
GTL Chlorine Flash Mix Remodel	P12528	The George T. Lohmeyer Wastewater Treatment Plant (GTL) has one chlorine flash mix basin where chlorine is injected to effluent before discharge. This project will require bypass pumping of the basin to enable inspection of the concrete and subsequent repairs if needed. This project will also replace all slide gates and move the chlorine injection upstream.	Central Regional Wastewater System (Fund 455)	330,061	-	-	-	-	-	330,061
			Water & Sewer Regional Master Plan 2017 (Fund 496)	285,790	-	-	-	-	-	285,790
Effluent Pumps Standby Generator and Administration Building	P12529	The George T. Lohmeyer Wastewater Treatment Plant (GTL) has no standby electrical power for the effluent pumps. When Florida Power and Light (FPL) power is lost the effluent discharges into the Intracoastal requiring a notification to the Florida Department of Environmental Protection. This project focuses on the significant upgrades required to the Administration Building in order to support a 10 megawatt gas-turbine emergency generator on a new second floor.	Central Regional Wastewater System (Fund 455)	6,408,343	-	-	-	-	-	6,408,343
			Water & Sewer Regional Master Plan 2017 (Fund 496)	11,897,057	-	-	-	-	-	11,897,057
Deepwell Electric Power Instrumentation and Control	P12530	The Deepwell Underground Injection site is the location of final disposal of treated effluent from the George T. Lohmeyer Wastewater Treatment Plant. This site consists of 5 wells with associated instrumentation and electrically actuated control valves that inject the treated water. This project will replace the underground electrical conduit and electrical feeders to the equipment for the 5 wells. The site is over 1,200 feet in length and the new conduit will extend across nearly the entire length. This project will require excavation of the existing conduit and the transition of electrical feeders one (1) well at a time.	Central Regional Wastewater System (Fund 455)	344,845	-	-	-	-	-	344,845
North New River Drive East	P12531	This project is to replace approximately 1,285 linear feet of 6 ductile iron water main that has had numerous failures with 8 polyvinyl chloride (PVC) water main between East Las Olas and SE 3rd Avenue along North New River Drive East.	Water and Sewer - General Capital Projects (Fund 454)	7,805	-	-	-	-	-	7,805
Peele Dixie Water Treatment Plant Facility Improvements	P12581	This project is for the roof replacements and roadway improvements at the Peele Dixie Water Treatment Plant. Indications of mold was discovered during an inspection by a qualified vendor at the original building that is almost 100 years old. Before the City can begin the mold remediation process the roof and roadway need to be replaced at the water treatment plant.	Water and Sewer - General Capital Projects (Fund 454)	435,000	-	-	-	-	-	435,000
GTL Roadway Resurfacing	P12601	This project is to resurface roadways within George T. Lohmeyer Wastewater Treatment Plant (GTL) fence line.	Central Regional Wastewater System (Fund 455)	200,000	-	-	-	-	-	200,000
George T. Lohmeyer WWTP Building Infrastructure	P12602	This project will replace various corroded concrete, steel, and other critical building components at the George T. Lohmeyer Wastewater Treatment Plant (GTL). These components include but are not limited to: electrical supports; heating ventilation and air Conditioning (HVAC) ductwork; large and small diameter ductile iron process pipe, roof drains, windows, and physical perimeter fencing.	Central Regional Wastewater System (Fund 455)	335,323	-	-	-	-	-	335,323
Small Water Main Replacement - Hendricks Isle	P12604	This project will replace approximately 3500 linear feet of 6-inch water main preferably by pipe bursting methods to minimize impact to neighbors. Once installed this project also will fund the milling and replacement of the entire street to allow for better driving conditions.	Water and Sewer - General Capital Projects (Fund 454)	1,298,769	-	-	-	-	-	1,298,769
			Water Expansion/ Impact Fee Construction (Fund 452)	2,000,000	-	-	-	-	-	2,000,000
			Water & Sewer Master Plan 2 017 (Fund 495)	4,375,645	-	-	-	-	-	4,375,645
New Pumping Station Flagler Village A-24	P12605	This project is for the design and construction of a new wastewater pump station on NE 6th Street between NE 3rd Avenue and NE 4th Avenue. The project also funds the splitting of the existing gravity system, in the same location, and redirects the southern section to the new pump station. Finally, this project enables the construction of a new 12-inch force main from the new pump station to the existing 18-inch force main on NE 5th Street.	Water and Sewer - General Capital Projects (Fund 454)	236,923	-	-	-	-	-	236,923
Dolphin Isles B-14 Sewer Basin Rehabilitation	P12618	The project includes point repairs, minor road restoration, landscaping, and the rehabilitation of mainline sewers for Dolphin Isles, Basins B-14.1 and B-14.2. City staff will employ the use of trenchless technologies to repair sewer system components such as the lining of gravity sewers, manholes, and sewer laterals. This project also includes a pre- and post- Closed-Circuit Television (CCTV) survey, flow monitoring, traffic control, and site restoration. This project is part of the Wastewater Conveyance System Long Term Remediation Program.	Water and Sewer - General Capital Projects (Fund 454)	2,204,105	-	-	-	-	-	2,204,105
			Water & Sewer Master Plan 2 017 (Fund 495)	189,895	-	-	-	-	-	189,895
Bayview Drive 16" Force Main to Pump Station B-14	P12619	This project is for the replacement of 3450 linear feet of 12-inch diameter sewer force main with a 16-inch diameter sewer force main. The force main extends from Bayview Drive and NE 26th Court to Pump Station B-14.	Water and Sewer - General Capital Projects (Fund 454)	1,200,000	-	-	-	-	-	1,200,000
			Water & Sewer Master Plan 2 017 (Fund 495)	2,434,421	-	-	-	-	-	2,434,421
Las Olas Marina Pump Station D-31	P12620	This project is for the replacement of the Las Olas Marina Pump Station D-31.	Water & Sewer Master Plan 2 017 (Fund 495)	29,898	-	-	-	-	-	29,898
GTL Sludge Holding Tank Covers and Roof	P12702	This project is for the replacement of the asphalt membrane roof, the replacement of the steel cover and associated water piping (with a flat aluminum cover and a new pipe), and for the reconfiguration of odor control ductwork at George T. Lohmeyer Wastewater Treatment Plant.	Central Regional Wastewater System (Fund 455)	2,696,822	-	-	-	-	-	2,696,822
George T. Lohmeyer Wastewater Treatment Plant Sludge Flow Me	P12703	This project is for the replacement of approximately twenty (20) flow meters across the George T. Lohmeyer Wastewater Treatment Plant. The flow meters are used to monitor and control the treatment process flows.	Central Regional Wastewater System (Fund 455)	500,000	-	-	-	-	-	500,000

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
Advanced Metering Infrastructure Implementation	P12716	This project is for the implementation of Advanced Meter Infrastructure (AMI) throughout the water distribution system. The system will provide smart water meters with two-way communication between the meter and utility and between the meter and our neighbors (smart grid). The project includes the purchase and installation of 63,580 water meters with AMI radio modules a Citywide AMI network infrastructure billing integration with the Cayenta software system and project management.	Water and Sewer - General Capital Projects (Fund 454)	264,724	-	-	-	-	-	264,724
			Water Meter Replacement Program (Fund 498)	34,486,777	-	-	-	-	-	34,486,777
Lead and Copper Rule Revision (LCRR) Compliance Program	P12787	In order to comply with the update of the lead and copper rule (LCR) various tasks need to be completed at the water treatment plants, distribution system, and public education locations. The scope of the project includes the addition and/or expansion of orthophosphate, field verification of service lines, and sampling of schools/day care centers as well as public education locations.	Water and Sewer - General Capital Projects (Fund 454)	1,600,000	-	-	-	-	-	1,600,000
Deepwell Mechanical Integrity Testing and Pipe Replacement	P12798	This project will replace aging above ground valves and pipes at the George T. Lohmeyer Wastewater Treatment Plant and simultaneously perform the 5-year well integrity test.	Central Regional Wastewater System (Fund 455)	2,125,743	-	-	-	-	-	2,125,743
Rehabilitation or Replacement of 48 to 54-Inch Force Main	P12799	This project is for the rehabilitation, or replacement, of 19,100 linear feet of 48-54 inch diameter sewer force main. The force main runs along SE 9th Avenue and 10th Avenue to the George T. Lohmeyer Wastewater Treatment Plant.	Central Regional Wastewater System (Fund 455)	1,366,974	-	-	-	-	-	1,366,974
			Water & Sewer Regional Master Plan 2017 (Fund 496)	35,011,162	-	-	-	-	-	35,011,162
George T. Lohmeyer Wastewater Treatment Plant PLC Panels	P12801	This project entails an upgrade of the plant-wide Programmable Logic Controller (PLC) panels for PLC's 1A,1B,4,5,6,7. A PLC receives electrical signals from several instruments and valves, converts them to treatment process numbers, and communicates them to the central computer system for viewing by operators. Operators in turn record these numbers for regulatory compliance and base their process decisions on these essential numbers. For consistency, these panels will be upgraded with the same PLC's that currently exist at the Charles W. Fiveash and Peele Dixie water treatment plants as well as throughout the Distribution and Collection (D&C) network.	Central Regional Wastewater System (Fund 455)	1,049,575	-	-	-	-	-	1,049,575
SW 29th Street Small Watermains	P12802	This project funds a small water main replacement located at SW 29th Street, from SW 9th Avenue through SW 12th Avenue. This project will replace existing water mains, which are undersized and deteriorated, with new 6-inch water mains.	Water and Sewer - General Capital Projects (Fund 454)	182,920	-	-	-	-	-	182,920
Small Watermain Abandonment - SE 25th Avenue	P12805	This project will abandon approximately 1,100 linear feet of old 6-inch cast iron water main on SE 25th Avenue from 17th Street Ramp to SE 19th Place (Barbara Drive). Additionally, the project scope includes moving all water services from the old 6-inch water main to the existing 8-inch water main. The most suitable option would be to pipe burst the main to maintain water main redundancy.	Water and Sewer - General Capital Projects (Fund 454)	35,202	-	-	-	-	-	35,202
			Water & Sewer Master Plan 2 017 (Fund 495)	734,891	-	-	-	-	-	734,891
Public Works Admin Building Generator Replacement	P12806	This project is for the replacement of the Public Works Administration building generator. The current 600 kilo watt emergency generator is 32 years old and has exceeded its useful life and repair parts are very difficult to obtain and costly. The old generator also does not meet new clean air act standards for diesel engines. The Public Works Administration Building is the center for Public Works Operations and houses an Emergency Operations Center that is critical for the command and control of utility operations during emergencies and natural disasters.	Water and Sewer - General Capital Projects (Fund 454)	694,313	-	-	-	-	-	694,313
North Andrews FEC Railway Watermain Replacement	P12808	This project is to replace approximately 400 linear feet (LF) of 16-inch water main at North Andrews Avenue and Florida East Coast (FEC) railway.	Water and Sewer - General Capital Projects (Fund 454)	184,881	-	-	-	-	-	184,881
Pump Station A-7 Redundant Force Main	P12831	This project will fund the installation of a redundant 16-inch sewer force main for Pump Station (PS) A-7. The pipe will connect to the existing force main at PS A-7, run east along SW/SE 2 St to SE 8 Ave, then south to SE 2 Court, and then east where it will connect to the new 54-inch FM at the intersection of SE 2 Ct and SE 9 Ave.	Water and Sewer - General Capital Projects (Fund 454)	1,622,776	-	-	-	-	-	1,622,776
			Water & Sewer Master Plan 2 017 (Fund 495)	2,462,193	-	-	-	-	-	2,462,193
Wellfield Communications	P12868	This project is for installing a hardened communication network throughout the Prospect Wellfield.	Water and Sewer - General Capital Projects (Fund 454)	507,498	-	-	-	-	-	507,498
George T. Lohmeyer Belt Presses Replacement	P12874	The project is for replacement of biosolids dewatering equipment, specifically belt filter presses, at the George T. Lohmeyer (GTL) Waste Water Treatment Plant. Currently, GTL maintains seven (7) belt filter presses.	Central Regional Wastewater System (Fund 455)	2,827,374	-	21,010,011	-	-	-	23,837,385
George T. Lohmeyer WWTP Secondary Server	P12875	This project is for the design and construction of a secondary server room at the George. T. Lohmeyer Wastewater Treatment Plant (GTL), which will provide greater resiliency in case one of the rooms experiences water damage.	Central Regional Wastewater System (Fund 455)	417,453	-	-	-	-	-	417,453
George T. Lohmeyer WWTP Clarifier Rehabilitation	P12876	This project is for the Clarifier Battery Resurfacing - Launder and Weir Repair and Mechanism Replacement at the George T. Lohmeyer Wastewater Treatment Plant (GTL). Currently, GTL has two (2) clarifiers that separate solids from treated water with concrete that is old and failing.	Central Regional Wastewater System (Fund 455)	9,151,458	-	-	-	-	10,000,000	19,151,458
New Downtown Sanitary Sewer Pump Station A-5	P12899	This project is for the design and construction of a new sanitary sewer pump station (SS PS A-5) to be located in an easement on the SW corner of City property located at 301 North Andrews Avenue. Work will include re-routing gravity sewer flows in the A-7 Basin from Broward Boulevard & SW 1st Avenue to the new pump station and a new force main from the new Pump Station A-5, running northward, connecting to the existing force main at NW 5th Street & NW 1st Avenue.	Sewer Expansion/ Impact Fee Construction (Fund 453)	8,900,000	-	-	-	-	-	8,900,000
			Water and Sewer - General Capital Projects (Fund 454)	2,464,276	-	-	-	-	-	2,464,276

Water Transportation System										
Electrical Improvements New River Docks	P11065	This project is for the electrical upgrades of the service centers at 24 slips on the north side of the New River. The current cost estimates are approximately $60,000 per slip for installation of 200 amp/480 volt, and single and 3-phase electrical power. This will allow the Marine Facilities to accommodate the mega-yacht vessels' demands for dockage on the New River.	General Capital Projects (Fund 331)	583,889	-	795,600	-	-	-	1,379,489

City of Fort Lauderdale
Adopted FY 2026 - FY 2030 Community Investment Plan (CIP) by Project Type

Project Name	Project Number	Project Scope	Fund	Unspent Balance as of 09/30/2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	Total
North Fork Riverfront Park	P12515	This project involves the design and construction of improvements at North Fork Park. Key upgrades include installing a new kayak launch and implementing enhancements to ensure compliance with the Americans with Disabilities Act (ADA).	Miscellaneous Federal/State/County Grants (Fund 129)	33,008	-	-	-	-	-	33,008
Hendricks Isle Seawalls Replacement Project	P12695	This project consists of the replacement of new existing located in Hendricks Isle. The two (2) seawalls consists of one 260 foot section located between 505 and 535 Hendricks Isle; the other section consists of 60 feet located at the north end of Hendricks Isle. Constructions costs will be partially (50%) covered by the Florida Department of Environmental Protection (FDEP) Florida Resilient Coastlines Program (FRCP) grant.	Miscellaneous Federal/State/County Grants (Fund 129)	-	-	-	-	-	-	-
Merle Fogg Seawall Replacement	P12726	This project will fund the design and construction of a portion of collapsed seawall located at Merle Fogg Park.	General Capital Projects (Fund 331)	23,180	-	-	-	-	-	23,180
Fiveash Replacement of the Rotary Mechanisms Recirculation	P12871	This project is to replace one of the Hydrotreaters (Hydrotreater #2) at the Fiveash Water Treatment Plant (WTP). Hydrotreaters are used to remove impurities and contaminants from water through a chemical process involving hydrogenation.	Water and Sewer - General Capital Projects (Fund 454)	923,104	-	-	-	-	-	923,104

Water Treatment										
Peele Dixie Membrane Replacement	FY20190737	This project is for the replacement of Peele Dixie Water Treatment Plant Water Membranes.	Water and Sewer - General Capital Projects (Fund 454)	-	-	1,802,130	-	-	-	1,802,130
Prospect Wellfield West Generator Replacement	NEW-094105	This project funds the replacement of the west generator and its associated switchgear at the Prospect Wellfield. The City's Comprehensive Utility Strategic Master Plan includes a recommendation to renew and rehabilitate the western generator including the main breaker, the automatic transfer switch, the motor control center, the lighting transformer, the circuit breaker panel board, the emergency diesel generator, the wiring, and the raceways.	Water and Sewer - General Capital Projects (Fund 454)	-	-	-	2,514,591	-	-	2,514,591
Decommissioning the Fiveash Water Treatment Plant	NEW-357544	This project is to formally decommission the Fiveash Water Treatment Plant and create a plan for the site's future use.	Water and Sewer - General Capital Projects (Fund 454)	-	-	-	-	-	3,358,800	3,358,800
Decommissioning the Old Peele-Dixie Water Treatment Plant	NEW-999306	This project is to assess the historic Peele-Dixie Water Treatment Plant facility and prepare a plan to formally decommission the plant and create a plan for the facility's future use.	Water and Sewer - General Capital Projects (Fund 454)	-	-	-	-	-	1,649,450	1,649,450
Fiveash WTP PCCP Replacement	P12399	This project is to replace prestressed concrete cylinder pipe (PCCP) feeding the high service pumps at the Fiveash Regional Water Treatment Plant.	Water & Sewer Master Plan 2 017 (Fund 495)	3,132						3,132
Peele-Dixie WTP Chemical Storage Improvements	P12403	At the Peele-Dixie Water Treatment Plant (WTP), the antiscalant and corrosion inhibitor bulk chemical tanks do not allow for a full load delivery of chemicals. This project is to investigate the addition of another tank and/or the replacement of the existing tank with multiple smaller tanks. Additionally, the day tanks for the sodium hydroxide and sulfuric acid do not hold enough chemical to last a whole day and additional storage is required.	Water and Sewer - General Capital Projects (Fund 454)	1,236,738	1,892,534	-	-	-	-	3,129,272
Fiveash Water Treatment Plant Valves Replacement	P12727	The project consists of replacing two 30-inch valves and installing 3 new valves a 30-inch, 36-inch, and 42-inch on the water transmission main line at the Fiveash Water Treatment Plant.	Water and Sewer - General Capital Projects (Fund 454)	133,130	-	-	-	-	-	133,130
New Water Treatment Plant - Prospect Lake WTP	P12765	This project is for the construction of the new Prospect Lake Water Treatment Plant at prospect wellfield. Project funding is included for planning, design, and construction of a new water treatment plant at the prospect wellfield.	Prospect Lake Water Treatment Plant - Enabling Works (Fund 494)	54,457,364	-	-	-	-	-	54,457,364
			Water and Sewer - General Capital Projects (Fund 454)	12,663,233	-	-	-	-	-	12,663,233
			Water Meter Replacement Fund (Fund 497)	82,318,879	-	-	-	-	-	82,318,879
Excavate and Dispose of Dry Lime Sludge	P12869	This project funds the excavation and disposal of approximately 300,000 cubic yards of dry lime sludge stored in the 8-acre east sludge storage area. The Fiveash Water Treatment Plant produces lime sludge as a byproduct of its lime softening treatment process. The lime sludge is pumped continuously to one of two storage areas while lime sludge in the other adjacent storage area dries. The dry lime sludge must be removed to make room for storage of more liquid sludge after the storage area becomes full.	Water and Sewer - General Capital Projects (Fund 454)	4,879,371	-	-	-	-	-	4,879,371
Peele Dixie WTP Variable Frequency Drive	P12917	This project is for the replacement of aging variable frequency drives on motors for nine large pumps at the Peele-Dixie Water Treatment Plant.	Water & Sewer Master Plan 2 017 (Fund 495)	485,413	-	-	-	-	-	485,413
Analysis of Chemical Addition Systems-Peele Dixie	P13019	This project is to fund an engineering consultant to analyze the current chemical addition systems (fluoride, corrosion inhibitor, antiscalant, and sulfuric acid) at the Peele Dixie Water Treatment Plant. The analysis will result in recommendations for how to replace the tanks and equipment so that the plant can provide continuous 24 hours of service. BUDGET OVERVIEW

The Annual Budget Process

Commission Annual Prioritization Meeting
(January)

- The City Commission meets to discuss and set the City's priorities for the upcoming fiscal year

Forecast Stage
(January - February)

- OMB prepares personnel service budgets
- Departments compile their operating and capital budget requests

Review Stage
(March - May)

- OMB reviews all operating and CIP requests submitted by Departments
- Departments meet and discuss with the City Manager and then the Budget Advisory Board

Preliminary Development
(June)

- Public release of the preliminary budget, which details line-item budgets and any City Manager supported strategic enhancements or reductions

Adoption Stage
(September)

- The City Commission holds two (2) public hearings in September to adopt the final millage rate, non-ad valorem assessments, and all funds budget for the upcoming fiscal year

Budget Development
(January)

- Department prepare their annual Business Plans
- OMB hosts the operating budget and Community Investment Plan (CIP) kickoff

Request Stage
(March)

- Departments submit operating budget and CIP requests as well as any strategic enhancements or reductions

Revenue Estimating Conference Committee
(March - April)

- Staff and appointed board members review and recommend General Fund revenue estimates for revenues not projected by a third party

Proposed Stage
(July)

- The City Manager submits the proposed operating and CIP budget to the City Commission for review
- The City Commission sets the maximum proposed millage rate

Monitoring Stage
(October Onward)

- Staff identifies prospective financial challenges and issues through periodic quarterly projections

Budget Overview

Budget Overview

The budget reflects the policies adopted the City Commission in response to the needs and concerns communicated to them by the neighbors of Fort Lauderdale.

The City's structure includes five (5) Charter Offices: City Attorney, City Auditor, City Clerk, Mayor and City Commission, and City Manager. There are also sixteen (16) operational departments: Capital Projects, Community Services, Development Services, Finance, Fire Rescue, Fort Lauderdale Executive Airport, Human Resources, Information Technology Services, Office of Management and Budget, Office of Strategic Communications, Parks and Recreation, Police, Procurement Services, Public Works, Transportation and Mobility, and Utility Services. In addition, there is a Community Redevelopment Agency.

The adopted budget is the result of efforts by the Mayor and four (4) City Commissioners, as well as City staff to allocate limited resources to best serve the needs of the City of Fort Lauderdale. The budget reflects the policies adopted by the City Commission in response to the needs and concerns communicated to them by the neighbors of Fort Lauderdale.

The Fiscal Year 2026 Adopted Budget for the City of Fort Lauderdale, Florida was developed using a modified program/performance model. This model enhances the quality of decision-making and provides a vehicle to measure the City's delivery of services. The budget is intended to serve four (4) primary purposes: a Policy Document, an Operations Guide, a Financial Plan, and a Communications Device.

Policy Document

As a policy document, the adopted budget was developed within the framework of the City's strategic goals, Commission Priorities, Community Investment Plan, and financial and budgetary policies. The information contained in this document allows policy makers an opportunity to review recommendations to address long-term goals for sustainability of the City and its services.

Operations Guide

As an operations guide, the adopted budget describes programs, services, and functions performed by each department. Departmental goals, objectives, and performance measures are provided for each program. An organizational chart is provided to show the City is structured for collaboration and interdepartmental coordination work. In addition, a three-year comparison and analysis of staffing is included.

Financial Plan

As a financial plan, the adopted budget outlines the City's financial resources. This document displays projected revenue and expenditures for all operating funds. A five-year financial analysis is provided for the major revenue and expense categories.

Communications Device

The budget is designed to clearly communicate information by using text, tables, and graphs to summarize data for the reader. The document describes the budget process for developing, reviewing, adopting, and amending the budget. The Appendix section provides the reader with a glossary and a list of acronyms to enhance reader understandability. Additional information about the City may be found on the City's website at www.fortlauderdale.gov. Contact the Budget/CIP and Grants Division of the Office of Management and Budget at (954) 828-5425 with questions about the City's budget.

Budget Development Process

The budget process is a collaborative effort between the City Commission, City Manager, employees, and neighbors to strive to meet the needs of the community while ensuring long-term financial stability.

Every City Commission meeting involves deliberation about what services the City should provide, at what level, and at what price. The decisions made by the City Commission throughout the year provide a general path for budget deliberations to follow**.** City employees provide the perspective of professionals as to the most efficient and effective way to implement Commission policy. Neighbors have the opportunity to express their preferences for City services and funding mechanisms through representation on the Budget Advisory Board, formal budget public hearings as well as through individual City Commission meetings during the year.

The budget process is comprised of six stages: Forecast, Request, Review, Proposed, Adoption, and Monitoring. These steps often overlap with one another because the City is always operating in one fiscal year while developing the next.

Forecast Stage - This is the beginning step in the development of the next year's budget. The City Commission will set initial priorities and provide guidance for the process. Budget staff will prepare payroll projections, revenue and expense worksheets, and additional supplemental data. The development of the Community Investment Plan occurs concurrently with this stage.

Request Stage - This stage commences after departmental staff receive guidance and training. Departments develop revenue projections and expenditure requests based upon City Commission priorities, needs of the community, financial trends, and projections. Departments will have an opportunity at this stage to request and justify additional resources or propose departmental reorganization at this time.

Review Stage - This stage provides for the evaluation of departmental budget modification requests. Budget staff will review and conduct an analysis at the most detailed level of a department's revenue projections and expense requests. During this stage, City Management will meet individually with each department to review their budget requests and to better understand their priorities. In April, the City Manager meets individually with each department frequently to discuss the decisions necessary to prepare a proposed, balanced budget. Departments also meet with the Revenue Estimating Conference Committee and Budget Advisory Board during this stage.

Proposed Budget Stage - In July, the City Manager presents the proposed budget to the City Commission per City Charter requirements. At this step in the development of the budget, the City Commission must set a maximum millage rate that will be provided to the Broward County Property Appraiser for inclusion as a preliminary millage in the State-required "Truth in Millage" (TRIM) notice sent to all property owners.

Adoption Stage - The City Commission holds two public hearings in the month of September to adopt the millage and non-ad valorem rates, the budget, and Community Investment Plan.

Monitoring Stage - In October, the adopted budget and authorized positions are loaded into the City's financial system. Throughout the fiscal year, Office of Management and Budget staff review personnel requisitions, determine the financial impact of City Commission actions, and monitor the City's budget using the Quarterly Budget Projection System. Each quarter the system informs senior leadership of the budgetary impact of decisions and estimates remaining expenses and revenues through the end of the fiscal year. Because projections are forward-looking, senior leadership can proactively identify and address potential issues such as over-expenditures or low-revenue collection.

Budget Calendar

January
- Prepare training documents used for budget development
- Operating Budget and Community Investment Plan (CIP) Kickoff Presentation
- CIP software open for data entry
- Commission Prioritization
- Office of Management and Budget (OMB) staff facilitates Budget and CIP training

February
- Departments complete Business Plans
- Departments prepare Budget and CIP requests
- Budget development software open for data entry

March
- OMB provides ongoing budget preparation assistance to departments
- Departments submit budget requests
- Budget requests, CIP applications, revenue and estimates for all funds due
- Budget and CIP Departmental Budget Reviews
- Revenue Estimating Conference Committee review meetings with departments
- Budget development and CIP software closed

April
- City Manager Budget and CIP Review meetings with departments

May
- Departmental Budget Request Presentations to the Budget Advisory Board

June
- Broward County Property Appraiser provides preliminary property valuation
- City Commission/Budget Advisory Board Joint Workshop recommendation of Millage and Non–Ad Valorem Rate
- City Commission and management staff receive the Preliminary Budget

July
- Broward County Property Appraiser certifies the property tax roll on July 1
- Completion of proposed budget balancing
- City Manager presents the proposed budget, CIP, and five-year financial forecast to the City Commission
- City Commission adopts a maximum millage rate and non ad valorem assessment rates to be advertised in the Truth in Millage (TRIM) Notice

August
- Certification of Proposed Millage and non-ad valorem fees to the Property Appraiser
- Property Appraiser distributes TRIM notices to all property owners
- Prepare for two (2) public hearings

September
- City Commission holds 1st and 2nd (final) public hearings to adopt the millage and the budget
- Certification of the non-ad valorem assessments to the Property Appraiser
- Certification of the final millage with the Property Appraiser and State of Florida Department of Revenue within three (3) days of final adoption

October
- Beginning of a new fiscal year
- Prepare TRIM compliance packet for Florida Department of Revenue
- Review Government Finance Officers Association (GFOA) requirements for submission for the distinguished budget awards

November
- Prepare and publish Adopted Budget document

December
- Submit Adopted Budget to Government Finance Officer's Association (GFOA)

Public Involvement in the City's Budget Process

Identify the community's wants and needs | Involve a broad representation of the community | Communicate fact-based and clear data | Utilize a variety of public engagement techniques | Track and share the community's feedback over time

The City of Fort Lauderdale worked closely with its residents throughout the FY 2026 budget development process. Read about the journey below along with engagement opportunities for the upcoming fiscal year.

The Journey

In January, the City Commission held a goal-setting workshop to identify Fort Lauderdale's highest-priority needs over the fiscal year. The priorities included addressing homelessness, enhancing public safety, investing in infrastructure and resilience, and improving the public's enjoyment of the waterways. There was also an emphasis on bolstering thriving communities, creating more public spaces, and expanding cultural initiatives.

During preliminary budget development, City staff crafted proposals to implement the Commission priorities and ensure the prudent use of fiscal resources. Throughout the month of May, each department presented its line-item budget and highest priority program enhancement proposals to the Budget Advisory Board. These meetings were open to the public.

In June, the City released detailed budget information through a preliminary budget memo, including department budgets, replacement plans, department performance metrics, and program enhancement requests. In July, the City Manager submitted a balanced budget proposal to the City Commission. City staff shared the budget and solicited neighbor feedback through several mediums including meetings, online transparency tools, and social media to build consensus from a variety of stakeholders.

The process culminated with two public hearings in September, where the City Commission voted to adopt the budget and Community Investment Plan (CIP) for the upcoming fiscal year.

Get Engaged in the FY 2027 Budget!

Budget Advisory Board

The City's Budget Advisory Board (BAB), which is made up of representatives from each City district, provides input regarding the taxpayer's perspective in the development of the annual budget. The BAB meets at 5 p.m. on the third Wednesday of each month and more frequently during the month of May. They also schedule joint workshops with the City Commission three times per year.

If you're interested in learning more about the BAB, visit ftlcity.info/bab or email budgetadvisoryboard@fortlauderdale.gov.

Engagement Activities

- Attend a BAB or a Commission and BAB Joint Workshop
- Participate in the rate-setting discussion at the July City Commission Meeting
- Submit budget recommendations using the City's Balancing Act tool: fortlauderdale.abalancingact.com
- Connect with your City Commissioner
- Attend the two September Public Budget Hearings
- Request a budget presentation through your local civic group or neighborhood association

For the latest information on the City's budget, visit fortlauderdale.gov/budget.

Budgetary Basis

The budget is adopted on a basis consistent with Generally Accepted Accounting Principles (GAAP) with the following exceptions:

- Advances from other funds are presented as revenues.
- Encumbrances, advances to other funds, and principal on long-term debt of proprietary funds are presented as expenditures or expenses.
- Depreciation and compensated absences are not budgeted in any funds.

The basis of accounting for governmental funds is modified accrual. Under the modified accrual basis, revenues are recognized when they become susceptible to accrual, i.e., measurable and available to finance the City's operations. Available refers to collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

The budget is adopted on a basis consistent with generally accepted accounting principles

Expenditures (decreases in net financial resources) are recognized in the accounting period in which the related fund liabilities are incurred, as long as they are measurable. An exception to this is long-term debt and the long-term portion of accumulated compensated absences and longevity pay, which are recognized when due. Budgetary expenditures include expenditures adjusted for encumbrances at fiscal year-end and principal on long-term debt of the proprietary funds.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as a guide. There are, however, essentially two types of these revenues. In one, monies must be expended on the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. The resources are reflected as revenues at the time of receipt or earlier if susceptible to accrual.

The major utility taxes and franchise fees are recorded as revenues when earned. Licenses and permits, fines and forfeitures, charges for services, and other revenues (except investment earnings) are recorded as revenues when received in cash because they are generally not measurable until actually received. Property taxes are recorded as revenues in the fiscal year levied, provided they are collected in the current period or within sixty days thereafter. Those remaining uncollected are recorded as deferred revenues. Investment income is recorded as revenue when earned. Special assessments are recorded as revenues only to the extent that individual installments are considered available.

The accrual basis of accounting is utilized by proprietary funds, pension, and non-expendable trust funds. Under the accrual basis, revenues are recognized in the accounting period in which they are earned, if objectively measurable, whether collected sooner or later. Expenses, not expenditures, are recognized when the benefits of costs incurred are deemed to have been consumed or expired. Long-term liabilities are accounted for through those funds. Depreciation of fixed assets (including capital outlay equipment purchased in the operating budget) is recorded in the accounts of these funds as well, on the straight-line basis over the following useful lives: buildings (40-50 years), improvements (20-50 years), and equipment (3-15 years).

Financial Integrity Principles and Policies

As stewards of public funds, the City of Fort Lauderdale is dedicated to the proper handling of finances, utilizing best practices, and delivering high quality services; thereby preserving the integrity of the organization and providing financial sustainability.

The financial integrity of the City of Fort Lauderdale is of the utmost importance and upholding a set of principles is a key element to maintaining this integrity. The financial integrity principles outlined in this document highlight the basic framework for the overall fiscal management of the City. This document contains high-level principles that govern the City's financial management. Detailed policy direction is set forth in separate policy documents as described herein.

The financial integrity principles will be reviewed and updated as necessary but will be comprehensively evaluated at least every five years. The approved City of Fort Lauderdale financial integrity principles and supporting policies are outlined below:

Principle I: Sound Budgeting Practices
Supporting Policies

- **A.** Revenue Estimating Conference Process
- **B.** Cost Recovery
- **C.** Grants/Reimbursement
- **D.** Interfund Borrowing
- **E.** Proprietary Funds – Working Capital
- **F.** General Fund – Fund Balance
- **G.** Structurally Balanced Budget
- **H.** Budget Adjustment and Amendment
- **I.** Allocation of Overhead Cost

Principle II: Prudent Fiscal Management
Supporting Policies

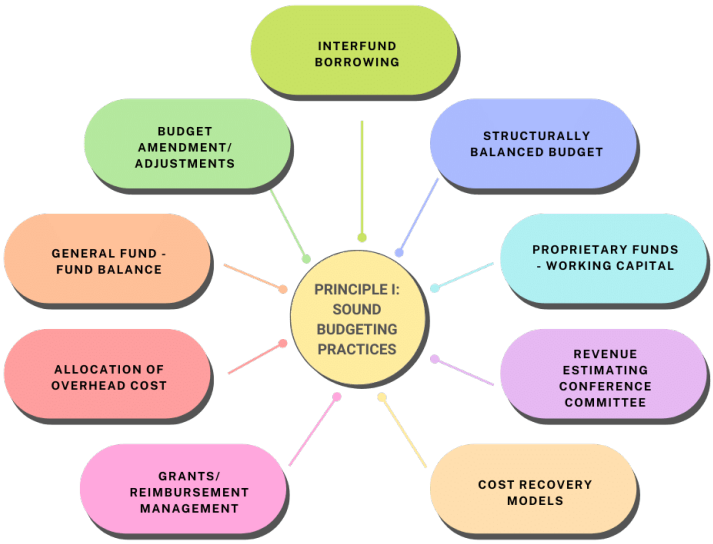

- **A.** Revenue Collections
- **B.** Purchasing
- **C.** Fixed Assets
- **D.** Procurement Card (P-Card)
- **E.** Risk Management
- **F.** Cash Management
- **G.** Financial Oversight and Reporting

Principle III: Cost Effective Operations
Supporting Policies

- **A.** Performance Management
- **B.** Financial Transparency
- **C.** Business Continuity Preparedness
- **D.** Travel Policy

Financial Policies

GENERAL FINANCIAL POLICIES

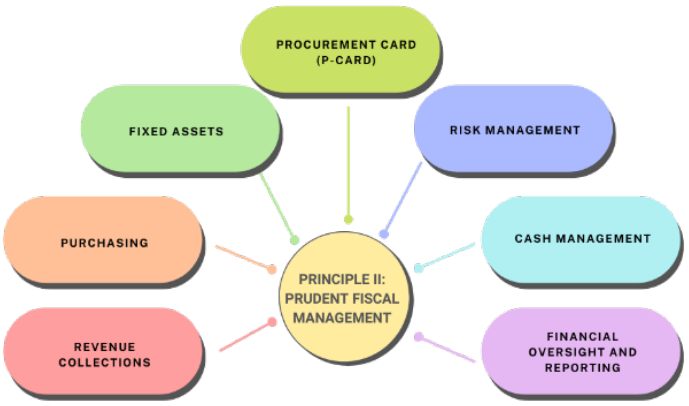

The purpose of these policies is to provide overall financial guidance for the City of Fort Lauderdale and serve as a basis for future financial decision-making.

General Guidelines

- Current, recurring expenses equal current, ongoing expenses (Structurally Balanced Budget).
- One-time revenues can be used to build up the unassigned fund balance or be used for truly one-time expenses without impacting current service levels.
- Any year-end surplus should be directed at unassigned fund balance and not used to finance recurring expenses in the following fiscal year.
- Capital improvements should be financed from current revenues but may be financed by prudent use of debt instruments that provide for a pay-back period which does not exceed the life expectancy of the improvement. Once the City has borrowed for such improvements, debt service becomes a current expense to be covered by recurring revenue.
- Internal service funds are used by the City to provide services within the City organization. Examples include fleet, project management, information technology, and insurance. Charges to the City departments or projects should be set to cover all costs. They should have sufficient reserves to cover fluctuations or long-term liabilities such as vehicle replacement and insurance claims.
- Revenues and expenditures will be projected out at least five (5) years into the future. Should any structural imbalance be projected, a plan should be agreed upon to address the imbalance.

Fund Balance Levels and Appropriation of Fund Balance

- Unrestricted Fund Balance is defined as the total of committed fund balance, assigned fund balance, and unassigned fund balance. This only includes resources without a constraint on spending or for which the constraint on spending is imposed by the City.
- Maintaining a prudent level of unrestricted fund balance is necessary to protect the City against reducing service levels, emergencies, natural disasters, unanticipated economic downturns, or unpredicted one-time expenditures.
- The City Commission adopted a recommendation from the Budget Advisory Board to maintain the unrestricted fund balance for the General Fund at a level that is equivalent to two months of operating expenditures and required transfers. Should the projected or actual unrestricted fund balance fall below this minimum, a plan will be submitted for consideration to achieve the minimum level within a three-year period. This plan will include a combination of cost reductions, revenue enhancements, and/or service reductions and should be submitted within 30 days of recognition of the fund shortfall. Use of fund balance below the recommended threshold is permitted only in case of an emergency, or in the case of an unanticipated economic downturn which causes a material loss of revenues. Non-recurring revenues shall not be used to balance the annual budget for recurring expenses.

Financial Policies, continued

Funding of Self Insurance Fund

- City managed, self-insured programs are to be funded through fees recovered through the user departments including administrative costs and reserves. These self-insurance programs include workers' compensation, certain health plans, police and employment practices and general liability.
- It is the policy of the City that the self-insurance programs be fully funded. An actuarial study will be performed each year. Any current or future deficits that may occur in the workers' compensation or general liability programs will include a financial plan for eliminating the fund deficit within the next three years. The plan will include options such as increased department contributions or transfers from other funds available to fund the deficit.

Community Investment Plan (CIP)

- The City currently prepares a 5-year Community Investment Plan with each annual budget. The plan serves as a planning guide for the construction of general purpose and utility improvements in the City. This provides the City Commission with an assessment of capital needs. Annual contributions to this program from the General Fund are necessary to maintain facilities and meet infrastructure needs.
- It is the policy of the City that annual contributions to this program from the General Fund are, at a minimum, 1% of the total General Fund expenses. Additional contributions may be made during the fiscal year through budget amendments as desired projects and funding sources become available. However, additional funding from the General Fund will not be permitted if the use of fund balance causes the unrestricted fund balance to fall below the minimum requirement. The City Manager may pursue alternate methods of funding these projects through federal, state, local grants, or other innovative financial options (i.e. public/private partnerships).
- Fund balance more than 25% operating expenses and required transfers may be used to fund additional capital projects or increase funding of existing projects.
- The construction of new facilities or buildings and other types of infrastructure or the annexation of property may require additional future operating costs for staff to maintain the facility or property. The costs of staffing and maintaining the facility or property and any associated revenues should be considered prior to construction of the facility or annexation of the property.
- It is the policy of the City that all capital projects or other long-range projects (i.e., annexation of property, tax increment areas, etc.) contain an economic evaluation providing information on the potential operating impacts of the project. The evaluation should include any savings or incremental revenue resulting from the project, as well as any new costs.
- No capital project should be funded unless an economic evaluation has been completed, and the necessary funds can be reasonably assumed to be available when needed.

Operating Capital Outlay

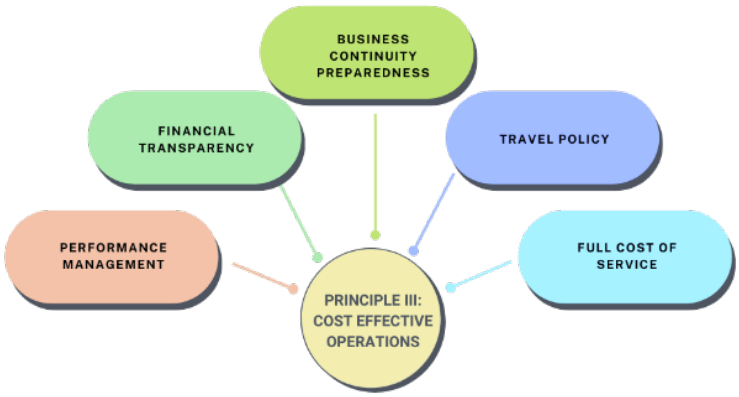

- Capital outlay needs can also be provided through department budgets. This type of capital expenditure includes equipment replacement, hardware needs, and other minor facility or building improvements that do not meet the criteria to be included in the Community Investment Plan.

Financial Policies, continued

- It is the policy of the City to fund operating capital needs from current revenues. The City will include in the operating budget those operating capital needs that are considered "critical" to functional operations of City services. Financing the purchase through bonds, notes, or an interfund advance is an option only if the debt service required to pay back the debt can be made from current revenues (i.e., it does not require the use of fund balance in future years).

Enterprise Funds

- The City provides a wide variety of services to the residents and visitors including water and sewer, solid waste, stormwater, parking facilities, a cemetery system, and an executive airport. The cost of these services is approximately 30% of the City's annual expenditures. The City Commission establishes rates for the use of these services and periodically adjusts the rates based upon system needs.
- It is the policy of the City regarding enterprise funds to establish user fees at an amount sufficient to cover all costs, including indirect costs and any debt service related to investment in these facilities, and to provide for reasonable reserve levels. The City is responsible for conducting periodic reviews of the financial performance of these funds to ensure user fees are adequate, costs are justified, and reserve balances are sufficient to provide for future operations.

DEBT POLICIES

The City has established policies regarding the utilization of debt instruments. The principal use of debt by the City has been for making capital expenditures. Because the use of public capital stretches over many years, it is appropriate that those who enjoy the benefits should also pay the costs.

The City Commission has issued debt for recapitalization of existing assets, most of the Water and Sewer Master Plan, the replacement of nine existing fire stations, the undergrounding of utility lines, the addition of one new fire station, the addition of a new police station and the revitalization of City parks.

The solid financial position of the City, along with the application of current financial management practices, has permitted the City to obtain very favorable bond ratings and secure low interest rates.

The City has adopted the following policy statements as guidelines for the use of debt:

- Short-term debt is not to be used to support routine operations unless borrowing can be obtained at a lower rate of interest than invested funds and funds are not available for the routine operations.
- Debt payment shall not exceed the anticipated useful life of an improvement and, in no case, exceed 30 years.
- Bond issues shall be scheduled to level annual debt service requirements so that borrowing costs are minimized. This may be modified based on the express purpose of spreading improvement costs equally over a long period of time so that future residents become responsible for portions of the cost.
- With each bond offering and at least annually, the City shall fully disclose its financial position and fiscal management practices.

Financial Policies, continued

BOND RATINGS

Bond ratings measure the financial health and creditworthiness of institutions. Entities that receive high bond ratings can secure lower interest rates which, in turn, translate into savings for taxpayers and ratepayers.

Through the perennial pursuit of sustaining fiscal resiliency, coupled with maintaining robust financial policies, the City has obtained high bond ratings among the foremost credit rating agencies. These ratings, which are detailed below, exemplify the City's vitality against potential obscurities, and serve as a prominent signal of the City's successful strategic financial governance.

A summary of the City's bond ratings for outstanding long-term debt is as follows:

General Obligation
Moody's: Aa1
Standard & Poor's: AAA

Special Obligation Bonds, Series 2012 Moody's: Aa2
Standard & Poor's: AAA

Special Obligation Refunding Bonds, Series 2020
Moody's: Aa1
Standard & Poor's: AA

Water & Sewer Revenue Bonds
Moody's: Aa1
Standard & Poor's: AA+

Stormwater Revenue Bonds, Series 2023A Moody's: Aa2
Standard & Poor's: AAA

Special Obligation Bonds, Series 2025
Moody's: Not Rated
Standard & Poor's: AAA

General Obligation Bonds are secured by the full faith and credit of the City. The outstanding General Obligation Bonds will be repaid from ad valorem taxes.

Special Obligation Bonds are secured by pledged funds consisting of non-ad valorem revenues.

AMENDMENT/TRANSFER POLICIES

The City's annual operating budget is approved by the City Commission at the fund and department level. Any change in the overall budget appropriations, between departments, allocations from fund balance, or for changes between funds is considered an amendment and must be approved by the City Commission.[1]

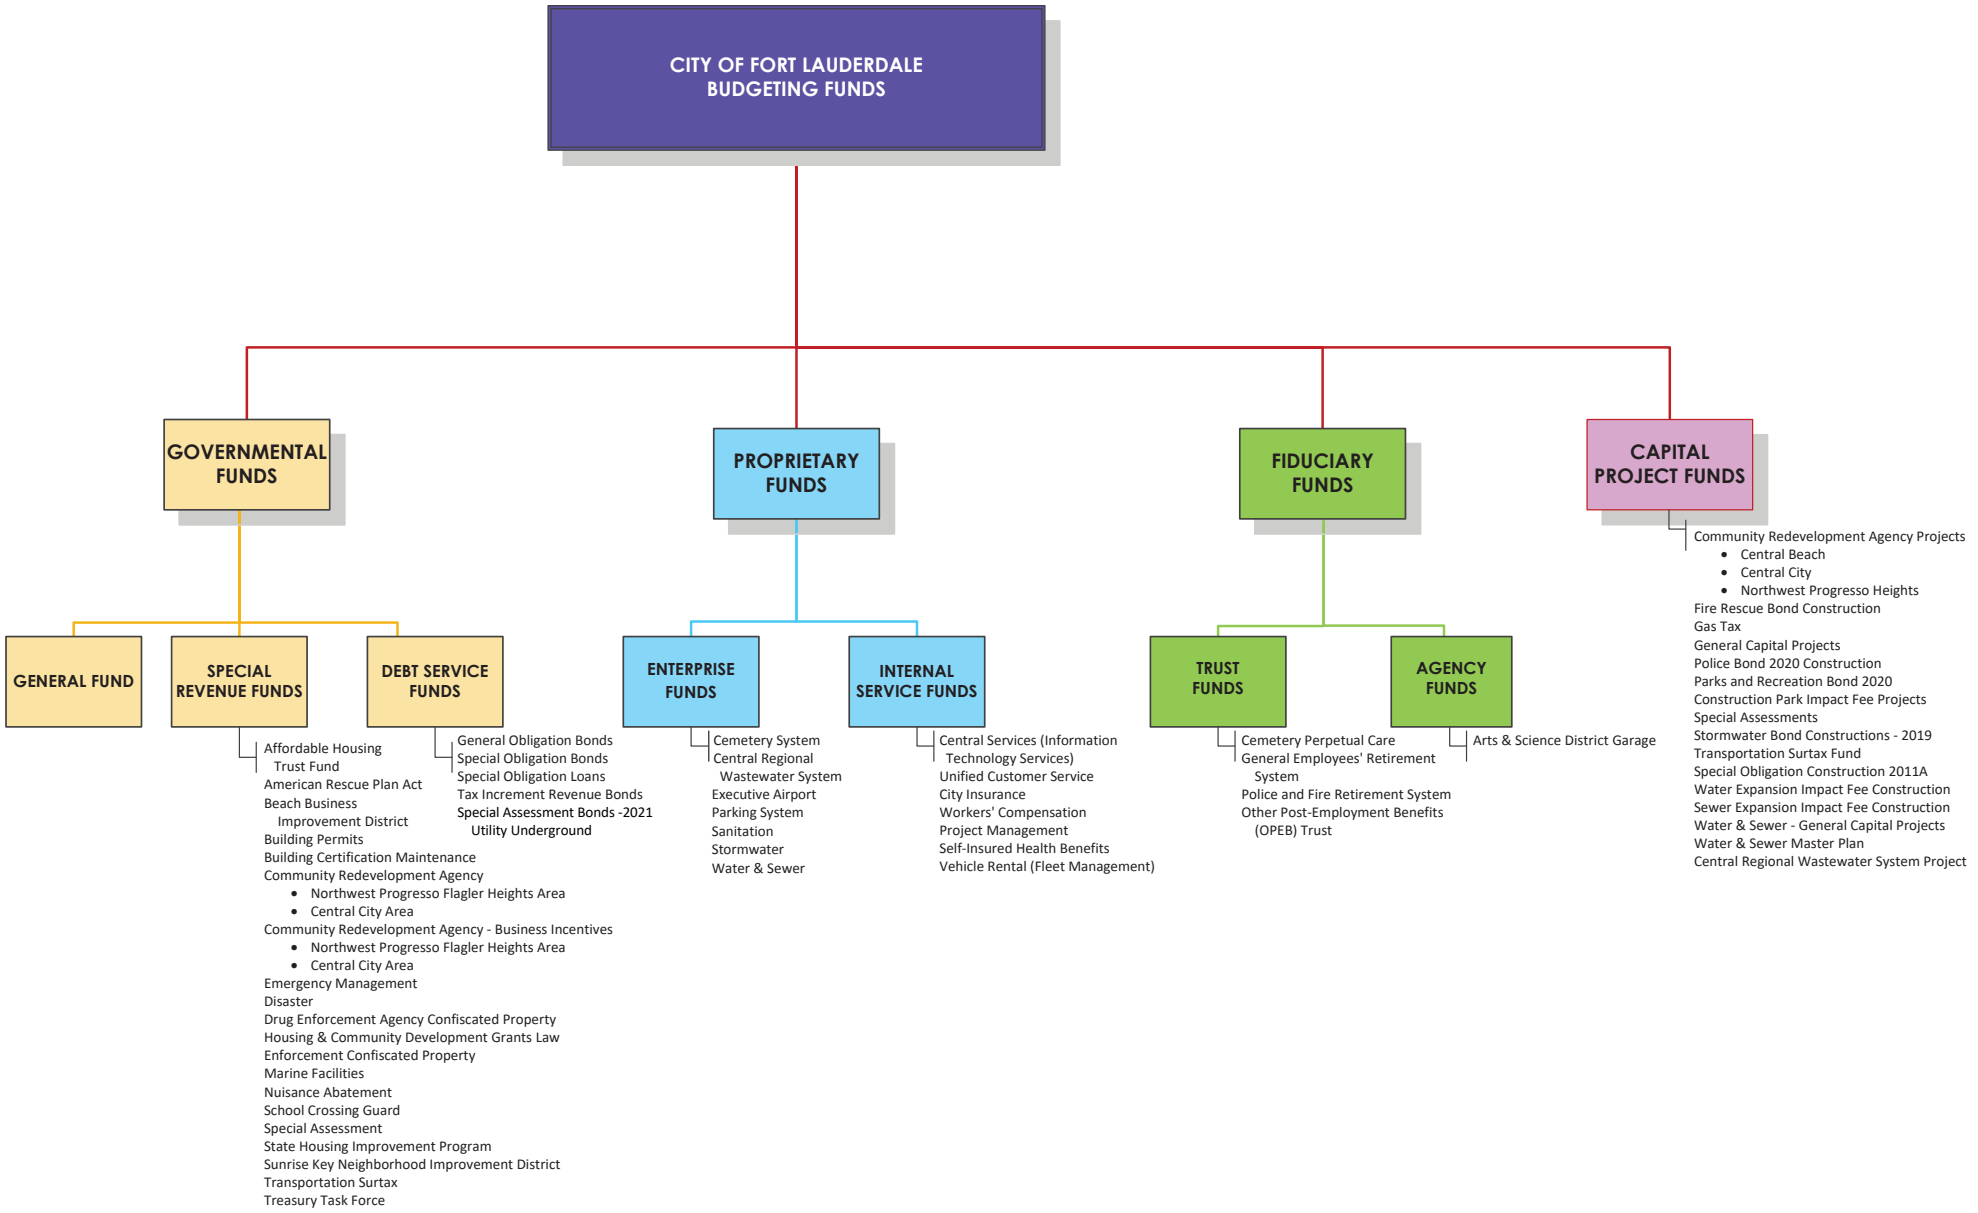

Budget transfers are administrative changes to the budget within the same department and fund. This process provides for ongoing adjustments to the operating budget and enhanced reporting and control over expenditure items; it does not impact the adopted budget for that department. The City Manager has the delegated authority to approve budget transfers.

1. The City Charter allows for approved encumbrances and capital project balances to "roll" to the next year without receiving specific Commission approval.

CITY OF FORT LAUDERDALE | BUDGET FUND STRUCTURE

WE BUILD COMMUNITY

Fund Descriptions

Governmental Fund Types

Governmental Funds are those through which most governmental functions of the City are financed. The funds are comprised of fiscal and accounting entities, made up of self-balancing accounts, recorded cash, and other financial resources with their own related liabilities, residual equities or balances, and related changes. The acquisition, use, and balances of the City's expendable financial resources and related liabilities (except those accounted for in proprietary funds) are accounted for through governmental funds. The measurement focus is on determination of changes in financial position, rather than net income. The following are the City's governmental fund types:

General Fund - The General Fund is the general operating fund of the City. All general tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. General operating expenditures, fixed charges, and capital improvement costs not paid through other funds are paid from the General Fund. Funds of this type are:

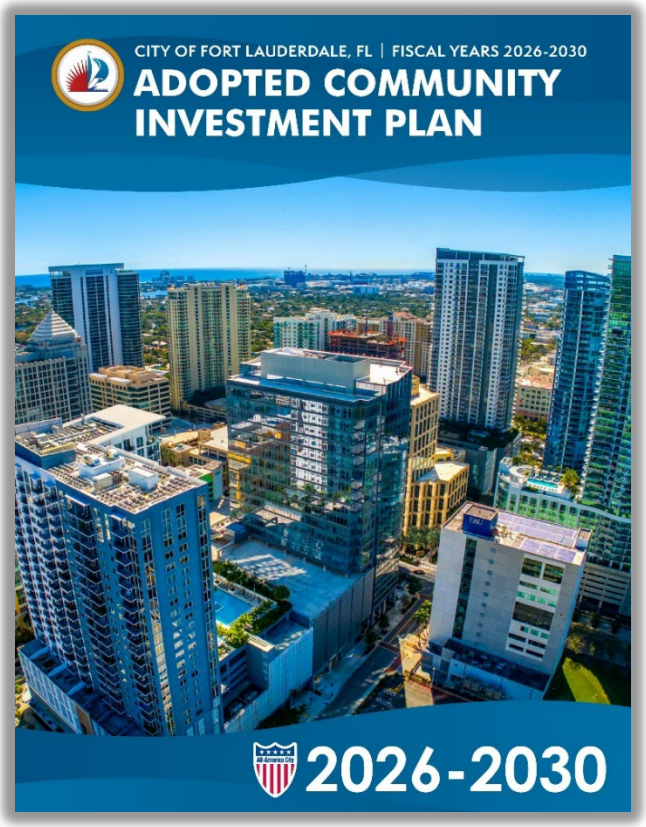

- General Fund
- Marine Facilities Fund

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) requiring separate accounting due to legal, regulatory provisions, and/or administrative action. Funds of this type are:

- Affordable Housing Trust
- American Rescue Plan Act (ARPA)
- Beach Business Improvement District (BBID)
- Building Permits
- Building Certification Maintenance
- Community Redevelopment Agency (CRA)
- CRA Business Incentives
- Emergency Management
- Disaster
- Housing and Community Development (HCD)
- Nuisance Abatement
- Police Confiscation
- School Crossing Guard
- State Housing Initiative Program (SHIP)
- Sunrise Key Neighborhood Improvement District
- Transportation Surtax
- Treasury Task Force

Debt Service Funds - Debt Service Funds are used to account for the annual payment of principal, interest, and other expenditures on general long-term debt, other than bonds payable from the operations of the enterprise funds. Funds of this type are:

- General Obligation Bonds
- Special Obligation Bonds
- Special Obligation Loans
- Tax Increment Revenue Bonds
- Special Assessment Bonds

Capital Projects Funds - Capital Projects Funds are used to account for financial resources reserved for the acquisition or construction of major capital facilities other than those financed by enterprise operations. Specific appropriations for these funds are summarized in the Community Investment Plan.

Fund Descriptions, continued

Proprietary Fund Types

Proprietary Funds are used to account for the City's ongoing organizations and activities, which are like those often found in the private sector. The City's proprietary fund types are as follows:

DC Alexander Park, opened to the public on October 18, 2024

Enterprise Funds - Enterprise Funds are used to account for operations that provide a service, such as water or sewer service, to citizens. Such funds are financed primarily by a user charge. The funds are measured based on net income that is deemed appropriate for capital maintenance, public policy, management control, accountability, or other purposes. Funds of this type are:

- Cemetery System
- Central Regional Wastewater System
- Executive Airport
- Parking System
- Sanitation
- Stormwater
- Water and Sewer

Internal Service Funds - Internal Service Funds are used to account for the financing of goods or services provided by one department to other departments of the City or to other governmental units. Funds of this type are:

- Central Services (Information Technology Services)
- Unified Customer Service
- City Insurance
- Workers' Compensation
- Project Management
- Self-Insured Health Benefits
- Vehicle Rental (Fleet Management)

Other Fund Types

In the City's accounting system, there are other fund types. The following are the City's fiduciary funds and account groups.

Fiduciary Funds - Fiduciary Funds are used to account for assets held by the City in a trustee capacity for individuals, private organizations, other governmental units, and/or other funds. Funds of this type are:

- Arts and Science District Garage
- Cemetery Perpetual Care
- General Employees' Retirement System
- Police and Fire Retirement System
- Other Post-Employment Benefits (OPEB) Trust

Contributions to the pension plans and deferred compensation are reflected in the adopted budget. The City does not contribute funds to the Cemetery Perpetual Care Fund. The Arts and Science District Garage, while managed by the Transportation and Mobility staff, is handled as a separate function on behalf of the Performing Arts Center Authority (PACA) and the Downtown Development Authority (DDA).

Fund Highlights

Airport System Fund

The Fort Lauderdale Executive Airport is a General Aviation Airport located in the Uptown Business District. The Executive Airport oversees the administration of land leases and property development for more than 100 aeronautical and non-aeronautical businesses and manages a 200-acre Airport Industrial Airpark with more than 2 million square feet of office, warehouse, and manufacturing space. Additionally, FXE operates, maintains, and promotes the John Fuhrer Downtown Helistop (DT1) in the Downtown Business District and the City's Foreign-Trade Zone No. 241. The Airport's mission is to attract businesses to the area, support tenant growth, and benefit the community.

Ranked among the top five busiest General Aviation Airports in the nation for itinerant operations, FXE is home to more than 600 aircraft, including 235 jets. The Airport features two intersecting paved runways (Runway 09-27 and Runway 13-31), with Runway 09-27 as the primary runway measuring 6,002 feet by 100 feet. FXE essential amenities include four prominent Fixed-Base Operators that offer dedicated facilities and services tailored to the needs of business travelers and private aircraft owners, a 24-hour Federal Aviation Administration Air Traffic Control Tower, a U.S. Customs and Border Protection facility, 24-hour onsite Aircraft Rescue and Firefighting services, 24-hour Airport Security, and a Fort Lauderdale Police Substation.

The Executive Airport records over 180,000 aircraft operations annually. In 2024, its U.S. Customs facility, the busiest in general aviation, served 62,000 passengers and cleared more than 20,000 aircrafts. Also, according to the Florida Department of Transportation's 2022 Statewide Economic Impact Study, Fort Lauderdale Executive Airport generates an Annual Economic Impact of $3.9 billion and supports 22,959 jobs, with a payroll of $1.2 billion. The Division is self-sustaining, funding its operational costs through revenues generated from fuel flowage fees and land leases, which include 37 land leases for parcels across the 1,200-acre campus.

This year, several Community Investment Projects are planned to enhance the Airport's infrastructure. Some of these projects include funding for relocating the FXE antenna array outside the runway safety area, and funding for ongoing projects including the consideration of the Western Extension of Runway 9, the Runway 9 Parallel Taxiway Extension, and the Taxiway L and P Extension and Run-Up Area. The FY 2026 adopted operational budget, including transfers, is $13,860,547.

Arts and Science District Garage Fund

The Arts and Science District Garage, also known as the Performing Arts Center Authority (PACA) Garage, is a 942-space structured parking facility located in the cultural hub of the City. While the City of Fort Lauderdale holds full operational and maintenance responsibility for the garage, it is managed as a joint venture between the City, the PACA, and the Downtown Development Authority (DDA). The City has 16% interest, the DDA 42% interest, and PACA 42% interest.

The Transportation and Mobility Department – Parking Services Division oversees the daily operations and revenue collection. The Finance Department is responsible for distributing net revenues to PACA and the DDA in accordance with the ownership structure.

Fund Highlights, continued

Historically, the City's net income from this fund is zero as all proceeds are proportionally allocated to the stakeholders. In accordance with the joint agreement, the City provides an annual social contribution to PACA based on net proceeds, not to exceed $300,000 per fiscal year. The FY 2026 adopted operating budget for the Arts and Science District Garage is $2,449,996.

Building Fund

The Building Fund is responsible for all construction and permitting services in the City. Staff within the City's building fund manage building records, issue permits, and perform building inspections. A major focus of the fund is to ensure that commercial and residential buildings and structures comply with the Florida Building Code (FBC) and all other applicable laws and ordinances.

The FY 2026 Adopted Budget includes additional funding for a new Senior Administrative Assistant position to support both the Building Safety Inspection Program and the Code Enforcement Board. The budget also includes funding for one (1) part-time Facilities Worker I position to assist in managing buildings maintained by the Building Fund, along with additional service charges to partially support a new Senior Administrative Assistant position dedicated to providing zoning and business tax administrative support. The FY 2026 Adopted Budget also memorializes the transfer of one (1) Code Compliance Officer position from the General Fund into the Building Fund as well as the transfer of one (1) Senior Human Resources Analyst position from the Building Fund into the General Fund. The FY 2026 adopted operational budget, including transfers, is $30,841,320.

Cemetery Perpetual Care & Cemetery Enterprise Funds

The Cemetery Perpetual Care and Cemetery Enterprise Funds were established to manage and ensure the long-term maintenance of the City's four cemeteries: North Woodlawn, Evergreen, Sunset Memorial Gardens, and Lauderdale Memorial Park. Collectively encompassing approximately 102 acres, these cemeteries have been city-owned since 1917 and city-operated since 2019.

The cemeteries offer a range of products and services related to the final disposition of human remains and memorialization. They also serve as peaceful spaces for visitors and mourners to honor and remember their loved ones. Revenue generated from the sale of cemetery plots, merchandise, and services is deposited into the Perpetual Care Trust Fund, which supports the continued maintenance of the cemetery grounds, facilities, and capital improvements.

For FY 2026, the adopted budget includes several Community Investment Projects including funding for roof replacements at mausoleums and stormwater improvements at cemetery facilities. The FY 2026 adopted operating budgets for the Cemetery Perpetual Care and Cemetery System Funds are $3,787,074 and $8,554,945 respectively.

Central Services Fund

The Central Services Fund is responsible for providing full-service delivery of the City's technology ecosystem including Enterprise Resource Planning (ERP), Geographic Information Systems (GIS), Internet of Things (IOT), cyber-security, cloud-based software solutions, on-premises data centers, and network (WAN/LAN/Wifi/Video) solutions. The fund also manages the City's telephones, computers

Fund Highlights, continued

(desktops/laptops), enterprise email, print shop, business applications, mobile device (i.e., tablets, iPad, cell phones), the Information Technology service-desk , as well as a portfolio of public safety technologies including Automatic Vehicle Locaters (AVL) units, License Plate Readers (LPR), city-wide access control, finger-print scanners, body worn camera technology, security surveillance systems and mission-critical radio/satellite/RF microwave communications for emergency responders and various internal and external local government agencies.

This Central Services fund supports various technology components such as 2,951 laptops

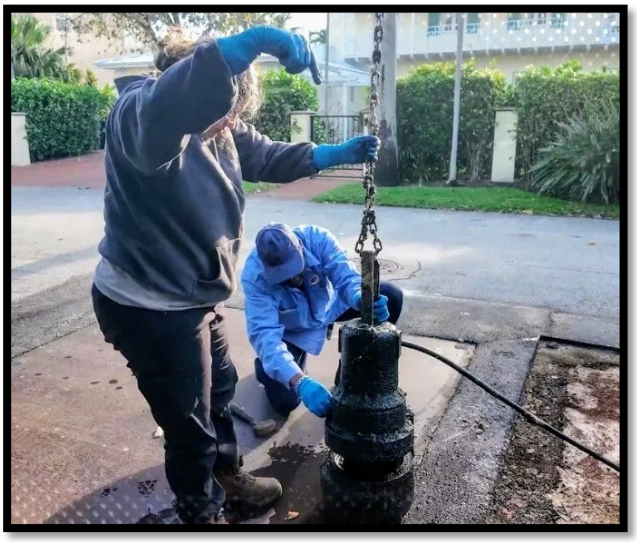

and desktops, 1,750 desk phones, 773 patrol and marine rugged laptops, over 110 tech support requests a day, 390 virtual and physical servers, 1 Petabyte (1,000 gigabytes) of data storage, technology for 34 conference rooms citywide, 2,701 radios, 268 network switches, 190 wireless access points, and 600 citywide video cameras.

In addition, the Central Services Fund is responsible for the support and maintenance of applications and security systems, such as building access controls, voicemail, call center, digital signage, firewall, remote access, and web filtering. It manages over 175 citywide business applications, 49 interfaces, over 50 Power Bl dashboards, 215 databases, and yearly responses to an average of 2,000 application service requests. Also, the division administers Bl technologies for City staff to analyze business application data.

The adopted budget includes enhanced funding for seven (7) additional ITS positions to support public safety operations, the systematic replacement of five (5) aging servers, and ongoing funding for two (2) dedicated part-time positions – one focused on technical support and the other on application support.

The FY 2026 Adopted Budget also includes funding for the implementation of Microsoft Co-Pilot, an artificial intelligence (AI) functionality within the Microsoft 365 Government Community Cloud (GCC) environment, as well as increased funding for a new Telecommunications Technician position to support additional radio repair work orders for public safety.

The Adopted FY 2026 Community Investment Plan includes funding for the continued implementation and support of the City's Enterprise Resource Planning (ERP) system, and funding to install an additional uninterruptible power supply (UPS) to provide backup power at the Fort Lauderdale Emergency Operations Center (FL-EOC). The FY 2026 adopted operating budget for the Central Services Fund is $30,635,520.

Fund Highlights, continued

Lauderdale Isles Water Management District Fund

Following the annexation of the Riverland Road area in September 2002, the Lauderdale Isles Water Management District is a special district authorized by Section 197.3632, Florida Statutes to address water quality issues. This district, currently composed of 551 properties adjoining the waterways that run through the Riverland area, continues to levy an assessment of $15.00 per parcel for properties within the district for enhancement of their aquatic weed control efforts in their canals. The district adopted their budget in the amount of $129,790, based upon an assessment of $15.00 per property and other revenue sources. The district's budget was approved at its June 16, 2025, meeting.

Marine Facilities Fund

The FY 2026 Adopted Budget establishes a new governmental fund to separately account for revenues generated by the City's marine facilities. Creating this fund will add an extra level of transparency and accountability associated with the funds generated by marine facilities, primarily dockage fees, yacht slip fees, and lease agreements.

Known as the "Venice of America," Fort Lauderdale is home to 165 miles of scenic waterways, seven miles of beaches, and the world's largest in-water boat show. The City's publicly owned marine facilities include municipal docks and public boat launches and are located along the New River, Riverwalk Linear Park, and the Intracoastal Waterway. These facilities provide both residents and visitors with vital access to the City's magnificent waterways. The FY 2026 adopted operating budget, including transfers, is $2,209,997.

Parking Fund

The Parking Fund is a self-sustaining fund; therefore, no tax dollars are used to fund parking operations. The fund includes garages, lots, enforcement, administrative support, and field personnel. All salaries, benefits, and expenses are paid exclusively from user-based revenues collected from meters, the sales of permits, and citations. Excess revenues are accumulated in the fund balance to finance major reconstruction and rehabilitation projects of the City's garages and parking lots, as well as implementing sustainable "greening" features, without tax dollars or outside financing. The City's parking system includes approximately 10,900 parking spaces in five parking garages, 32 surface lots, and on-street parking. The FY 2026 adopted operating budget, including transfers, is $32,659,063.

This year, the Adopted Community Investment Plan includes funding for the construction of a parking garage at the new Federal Courthouse; rehabilitation of the Riverwalk City Garage; funding for the implementation of Smart City Parking technology -- which includes the deployment of lot sensors, cameras, and AI-powered software; and funding for stormwater drainage upgrades and parking lot resurfacing.

Project Management Fund

The Project Management Fund is an internal service fund established in 2019 to centralize the City's project management services, which primarily support the Community Investment Plan (CIP). This structure allows for the proper allocation of charges to projects managed by the City's project managers and their support staff. The FY 2026 adopted operating budget, including transfers, is $4,789,860.

Sanitation Fund

The Sanitation Fund supports a full complement of modern solid waste services by providing residential household garbage, recycling, yard waste, and bulk trash collection. The fund also supports household hazardous waste collection events, rights-of-way maintenance, and public trash receptacles. The City's Clean Team, funded through the Sanitation Fund, works to preserve the unique beauty of our city's streets and high-traffic areas.

Fund Highlights, continued

The licensing of private collectors and the collection of franchise fees are included along with large-scale Emergency Debris Management services. The remediation and closure of the Wingate Landfill and Incinerator site has been finalized; however, the City has an obligation to perform ongoing environmental monitoring of the property until 2032. The total FY 2026 adopted operating budget, including transfers, for the Sanitation Fund is $40,325,148.

Effective October 1, 2024, the residential rates are recommended to increase by 5%, consistent with Ordinance C-24-36, which was adopted by the City Commission in August 2024. This ordinance established a 5% annual rate increase unless modified by future Commission action. The impact of the approved rate increase for a residential customer is illustrated below:

Effect of Increase on Base Monthly Sanitation Rates

FY 2025 Adopted Rate	FY 2026 Adopted Rate	$ Change	% Change
$49.99	$52.49	$2.50	5.0%

Stormwater Management Fund

The revenues collected for the City's Stormwater Management program are used for operating expenses and capital projects directly related to the management of stormwater, including improvements designed to address water quality in the City's waterways. The FY 2026 adopted operating budget, including transfers, for the Stormwater Fund is $41,357,791. This includes an estimated $6.6 million debt service payment associated with the first tranche of the City's Stormwater Revenue Bond.

Starting in FY 2021, the Stormwater Management program transitioned from the utility bill to a non-ad valorem special assessment. The assessment is based on a hybrid rate methodology that considers both the total square footage of a parcel, the trip generation potential of the parcel as identified by the Department of Revenue (DOR) land use, and the magnitude of trip drivers on the parcel (i.e., square ft., dwelling units, etc.).

Stormwater Charge (Annual Assessment)	FY 2025 Adopted Rate	FY 2026 Adopted Rate
Single Family Residential ≤ 3 Units	$276.67/unit + $5.30/Trip	$318.17/unit + $6.10/Trip
Developed Parcels	$2,875.36 per acre + $5.30/Trip	$3,306.66 per acre + $6.10/Trip
Undeveloped Parcels	$717.26 per acre	$824.85 per acre

Because of the new assessment rate structure, the City can make unprecedented investments in its stormwater infrastructure, with $9.4 million cash funding for projects scheduled in FY 2026. This funding supports improvements in Flagler Village, Las Olas, Poinsettia Heights, Imperial Point, and other neighborhoods. Additional capital funding is appropriated for the Watershed Asset Management Plan (WAMP) condition assessment project as well.

Fund Highlights, continued

Sunrise Key Neighborhood Improvement District Fund

In accordance with the State Statute regarding safe neighborhood districts, the Improvement District Board met on May 6, 2025, and approved a millage rate of 1 mill. This revenue and reserves support a FY 2026 adopted budget of $223,168.

Unified Customer Service Fund

The Unified Customer Service Fund, established in FY 2024, is an internal service fund that is administered by the Development Services Department.

The fund was created to centralize the City's various departmental call centers with the goal of streamlining operations, reducing service request response times, and enhancing neighbor satisfaction. The fund also supports advanced customer relationship management technologies and the implementation of best practices in customer service, enabling more effective tracking and resolution of service requests. Overall, the Unified Customer Service Fund promotes cross-departmental collaboration and communication, facilitating a more holistic approach to addressing the needs and concerns of the community.

The FY 2026 adopted operating budget, including transfers, is $2,726,575. This includes enhanced funding for a new Division Manager position to oversee the diverse functions and disciplines within the call center as well as funding for operational enhancements such as a call monitoring system and a public evaluation tool.

Fleet Fund

The City's fleet consists of over 1,750 vehicles and rolling stock, managed under the Public Works Fleet Services Division. The division is responsible for overseeing the Fleet Maintenance and Management Services contract, vehicle procurement and disposal, replacement of vehicles, auctioning vehicles and equipment, vehicle monitoring systems, overseeing the five fueling facilities, and carwash operations. The FY 2026 adopted budget, including transfers, is $30,318,710. The Community Investment Plan includes funding to support the installation of new electric vehicle (EV) charging stations at City facilities.

In 2025, the City of Fort Lauderdale was ranked 28th in the NAFA 100 Best Fleets in the Americas, in 2024, ranked No. 39 in the Green Fleet Award, and had a finalist in the 2025 Fleet Professional of the Year. Fleet Services seeks vehicles with the best miles per gallon rating and right sizes for all City vehicles for the application at hand to increase reliability, longevity, and reduce fuel usage.

Water and Sewer Fund

The City supplies water and sewer services on a regional basis for approximately 250,000 residents of central Broward County. Areas serviced by the City's water treatment plants and distribution system include Fort Lauderdale, Port Everglades, Sea Ranch Lakes, Lauderdale-by-the-Sea, Oakland Park, Wilton Manors, and portions of Davie, Tamarac, and unincorporated Broward County.

This year, several Community Investment Projects are planned to enhance the City's water and sewer infrastructure, including force main replacements, enhanced funding for inflow and infiltration (I&I) program management, and chemical storage upgrades at the Peele-Dixie facility.

Fund Highlights, continued

The total FY 2026 adopted operating budget, including transfers, for the Water and Sewer Fund is $222,414,109. The budget includes enhanced funding to support phased staffing of the new Prospect Lake Treatment facility, adding eighteen new positions and covering operations and maintenance costs for one month of service in FY 2026. Additionally, the budget includes enhanced funding for asphalt rehabilitation following utility distribution repairs, for expanding weekly water sampling at five new locations, and for implementing molecular source tracking (MST) at sites failing quality testing.

For FY 2026, the City is adopted a water and sewer service rate increase of 9%, in accordance with Ordinance C-23-25, which was approved by the City Commission in September 2023 and sets annual rate adjustments through FY 2028 The increased rate will support the completion of construction of the approved Prospect Lake Water Treatment Plant, continue installing a new Automatic Metering System, and support other operating and capital needs of the system. The impact of the adopted rate increases on a residential customer is illustrated below:

Effect of Increase on Base Monthly Water & Sewer Rates
(5,000 gallons/month)

5/8 Inch Meter	FY 2025 Adopted Rate	FY 2026 Adopted Rate	$ Change	% Change
Total	$107.15	$116.79	$9.64	9.0%

Central Regional Wastewater Fund

The City, through Large User Agreements, operates the Central Regional Wastewater System to provide treatment services for Fort Lauderdale, Oakland Park, Wilton Manors, Port Everglades, and parts of Tamarac and Davie. These agreements establish the methodology for setting rates to large users. The City Commission establishes a billing rate based upon estimated expenses operating the system in the coming fiscal year. At the close of each fiscal year, the fund is audited, and the actual rate is determined. If necessary, rebates or charges are made to adjust the amounts paid during the year.

The Wastewater Large User Advisory Board, as established by City Ordinance, serves in an advisory capacity to the City Commission and the Central Wastewater Region for the purpose of making recommendations regarding rates and modifications to wastewater facilities. The adopted rate for FY 2026 is a $0.37 increase to $3.22 per 1,000 gallons.

Per 1,000 Gallons	FY 2025 Adopted Rate	FY 2026 Adopted Rate	$ Change	% Change
Total	$2.85	$3.22	$0.37	13.0%

This year, several Community Investment Projects are planned to enhance the City's wastewater system including funding to increase the capacity of the liquid oxygen storage tank, funding to repair the vacuum-pressure swing absorption (VPSA) facility, and funding to rehabilitate the wastewater treatment plant reactor. The FY 2026 adopted operating budget, including transfers, for the Central Regional Wastewater Fund is $54,124,520.

Department Highlights – Key Changes and Funding Enhancements

Highlights of new funding for programs, one-time expenses, or key changes for the FY 2026 Adopted Budget are outlined below.

Capital Projects Department – ***NEW*** – The FY 2026 Adopted Budget establishes a new Capital Projects Department, to lead the planning, management, and construction of the City's major capital improvement projects. At its inception, nine (9) positions will be transferred into the department - five (5) from the Transportation and Mobility Department and four (4) from the Parks and Recreation Department.

Additionally, the adopted budget includes $257,213 in ongoing funding to support the addition of one (1) Director position to provide executive leadership for the new Department.

City Manager's Office - The FY 2026 Adopted Budget includes $216,000 to establish an airport workforce training program on the campus of the Fort Lauderdale Executive Airport, including $113,400 in initial buildout costs. Additionally, $13,300 in ongoing funding is provided to continue the City's scholarship program for local students. The budget also includes $25,000 in enhanced artistic services funding to maintain Neighbor Support Night at its current service level.

To support intergovernmental and executive operations, the FY 2026 Adopted Budget includes $418,495 in ongoing funding for one (1) Director position to manage the Intergovernmental Affairs Division and one (1) Executive Assistant to the City Manager to provide high-level administrative and operational support for the City Manager's Office. The budget also includes $194,067 for one (1) new Division Manager position for the Real Estate Division.

The FY 2026 Adopted Budget also memorializes a citywide reorganization which includes the transfer of one (1) Chief Waterways Officer to the Public Works Department as well as the transfer of seven (7) positions to the newly created Community Services Department. Furthermore, this budget also memorializes the transition of two (2) City Manager divisions into standalone departments: the Office of Strategic Communications, with the transfer of 10 positions, and the Fort Lauderdale Executive Airport, with the transfer of 21 positions.

Finally, the budget memorializes the current executive structure by formalizing the reporting framework for the Assistant City Managers, including the formalization of two (2) additional Assistant City Manager positions to mirror the number of Assistant City Manager roles over the prior year.

Community Redevelopment Agency (CRA) – The FY 2026 Adopted Budget includes a staffing realignment within the Community Redevelopment Agency to reflect the scaled back extension of CRA activities. This alignment includes the elimination of

Department Highlights – Key Changes and Funding Enhancements, continued

one (1) CRA Project Coordinator position and one (1) CRA Housing and Economic Development position, resulting in $284,245 in ongoing savings.

Community Services Department – ***NEW*** – The FY 2026 Adopted Budget establishes a new Community Services Department dedicated to fostering economic development, promoting arts and culture, community enhancement, advancing affordable housing, addressing homelessness, and delivering exceptional customer service through the City's centralized call center. At its inception, the Department will include 88 positions previously housed with the Development Services Department and seven (7) positions from the City Manager's Office.

The FY 2026 Adopted Budget includes $197,911 in ongoing funding for one (1) Chief Economic Development Officer position to lead and coordinate the City's many economic development initiatives. Additionally, $411,465 in ongoing funding is included for one (1) Administrative Assistant position to support public art sponsorships, art installations, and related programming. The budget also includes $49,000 in one-time funding for a welcome sign to the Sistrunk neighborhood at the I-95 overpass and $40,000 to conduct a comprehensive citywide economic revitalization study.

The budget also provides $196,726 in ongoing funding for one (1) Division Manager position to oversee operations at the Customer Service Center. To further enhance the center, the budget allocates $75,000 for the implementation of an automated call monitoring system and public evaluation tool.

To address homelessness, $250,000 in ongoing funding is included for maintaining service agreements with two (2) providers of housing services for homeless individuals; and $200,000 in one-time funding is included to pilot a safe parking pilot program for individuals living in their vehicles to have a safe place to park overnight. Lastly, $116,000 is included to fund the new lease of the community court building to support the increased participation in the program

The adopted budget includes $24,464 in ongoing funding to convert one (1) Senior Management Fellow position into one (1) Management Analyst position. Lastly, $150,000 in enhanced funding is included to launch a new Municipal Services Affordability program, which is designed to help low-income households maintain uninterrupted access to essential services, including water, sewer, and sanitation services.

Development Services Department – The FY 2026 Adopted Budget includes $100,000 in one-time funding for the Sailboat Bend Historic District Streetscape Beautification Plan and $50,000 in one-time funding to support the development of a small-scale beautification plan for the Himmarshee Historic District.

The FY 2026 Adopted Budget also includes $126,527 in ongoing funding for one (1) Senior Administrative Assistant to enhance efficiency and effectiveness of the Building Safety Inspection Program; $67,410 in ongoing funding for one (1) part-time Facilities Worker I position to address the additional maintenance needs of the department's facilities; and $125,987 in ongoing funding for one (1) Senior Administrative Assistant to provide support and assistance to the Zoning and Landscaping Division.

Finally, the adopted budget includes the transfer of 88 positions from Development Services to the new Community Services Department. Furthermore, the

Department Highlights – Key Changes and Funding Enhancements, continued

budget includes the transfer of one (1) Code Compliance Officer position from the Transportation and Mobility Department, and the transfer of one (1) Senior Human Resources Analyst position to the Human Resources Department.

Finance – The FY 2026 Adopted Budget includes $247,595 in ongoing funding for one (1) Senior Accountant position and one (1) Accountant position within the Accounting and Financial Reporting Division to support timely closing of the City's financial books. An additional $84,288 in ongoing funding is included for one (1) Accounting Clerk position to manage daily bank transaction reconciliations.

The FY 2026 Adopted Budget also includes $40,000 in ongoing professional services to initiate an annual audit of the City's procurement card program.

Finally, the budget memorializes the transfer of fourteen (14) positions to the newly established Procurement Department.

Fire Rescue – The FY 2026 Adopted Budget includes $299,246 in funding to establish a two-year in-house Officer Development Training program for Fire Rescue personnel, with a focus on incident command, emergency medical response, and leadership development. The budget also includes $260,000 in enhanced funding to provide sworn personnel with Class A uniforms, as well as $87,000 in enhanced funding to procure specialized equipment, such as handheld sonars and high-resolution cameras, for Emergency Medical Service and technical rescue operations.

Additionally, the budget includes $125,069 in ongoing funding for one (1) Senior Administrative Assistant position to manage the department's timekeeping and workforce management system as well as $124,589 in ongoing funding for one (1) Senior Administrative Assistant position to provide administrative support for the City's Emergency Operations Center (EOC).

Fort Lauderdale Executive Airport – ***NEW*** – The FY 2026 Adopted Budget establishes the Fort Lauderdale Executive Airport as an independent department to allow the organization to continue managing complex operations and contributing to the City's economic development. As part of the reorganization, the adopted budget memorializes the transfer of twenty-one (21) positions from the City Manager's Office.

Human Resources Department – The FY 2026 Adopted Budget includes $155,586 in one-time funding to conduct a comprehensive classification and compensation study, along with $43,737 in ongoing funding to convert one (1) part-time Human Resources Assistant position to full-time to support the administration of the City's Family Medical Leave Act (FMLA) services.

The FY 2026 Adopted Budget also reflects $80,002 in savings through the outsourcing of specialized safety training sessions for City staff and the elimination of one (1) Training Specialist position.

Finally, the budget memorializes the transfer of two (2) Human Resource Analyst positions from the Police Department and one (1) Senior Human Resource Analyst position from the Building Fund component of the Development Services Department.

Department Highlights – Key Changes and Funding Enhancements, continued

Information Technology Services (ITS) – The FY 2026 budget includes $1,107,925 in ongoing funding to add seven (7) new information technology (IT) positions dedicated to supporting public safety operations. The budget also includes $214,577 in ongoing funding to enhance the IT Service Desk through two (2) additional part-time positions.

Additional investments include $145,600 in consulting services to support the City's Infor ERP system and $103,982 in ongoing funding for one (1) additional Telecommunications Technician position to improve the operational efficiency of the radio equipment repair shop.

To modernize ITS infrastructure, the adopted budget includes $426,229 in ongoing funding to establish a server replacement plan and $900,000 in ongoing funding to implement Microsoft Copilot, which will add efficiencies to staff workflows and routine processes.

Office of Strategic Communications – *NEW* – The FY 2026 Adopted Budget establishes a new Office of Strategic Communications Department to strengthen the City's ability to deliver clear, consistent, and effective messaging across all departments. With its formation, the adopted budget memorializes the transfer of ten (10) positions from the City Manager's Office, one (1) full-time position from the Parks and Recreation Department, and one (1) part-time position from the Parks and Recreation Department.

The FY 2026 Adopted Budget includes $143,006 in ongoing funding for one (1) Strategic Communications Specialist and $143,006 in ongoing funding for one (1) Full-Time Photographer/ Videographer, to meet the increasing needs for both internal and external communication from the City.

Parks and Recreation – The FY 2026 Adopted Budget includes $299,822 in ongoing funding to acquire a facilities asset management and work order software solution, which will provide operational efficiencies. Additionally, $112,000 in one-time funding is included for the purchase and installation of 40 solar smart controllers along City medians to reduce water consumption and $462,600 to implement a Parks and Recreation equipment replacement plan to minimize smooth out fluctuations in annual capital expenditures.

The budget also includes $314,271 for one (1) Recreation Program Coordinator position along with one (1) community bus to provide transportation to and from departmental programs; $150,000 in one-time funding to implement and maintain dog stations at City parks, in addition to $62,492 in ongoing funding for two (2) part-time positions; and in recognition of upcoming milestones, $350,000 in one-time special-event funding is included to celebrate the 250th birthday of the United States.

The adopted budget formalizes the transition of the Marine Facilities division in the General Fund, along with its six (6) positions, into a new governmental Marine Facilities Fund designed to account for the revenue generated by marine operations. The FY 2026 Adopted budget also memorializes the transfer of four (4) positions to the newly created Capital Projects Department, one (1) full-time position to the Public Works Department - General Fund, one (1) full-time position to the Office of

Department Highlights – Key Changes and Funding Enhancements, continued

Strategic Communications, and one (1) part-time position to the Office of Strategic Communications.

In addition, the FY 2026 Adopted Budget formalizes the transition of all Parks and Recreation sanitation related functions to the Public Works Department, with the transfer of 61 positions. In partial exchange, Parks and Recreation will absorb the Sustainability Division from with the Public Works Department, which includes the transfer of eight (8) positions.

Police – The FY 2026 Adopted Budget memorializes a significant reorganization of the department, including the creation of the Professional Development Bureau, which will be staffed by 49 existing positions. The reorganization also involves internal transfers across departmental bureaus, including the following: the Office of the Chief will gain two (2) additional positions; the Support Services Bureau will decrease by 53 positions; the Operations Bureau will decrease by 20 positions; and the Investigations Bureau will increase by 21 positions.

The FY 2026 Adopted budget includes $1.9 million in additional overtime funding, based on historic trends, to support police security services at City-sponsored events. Additionally, the budget includes $161,859 in ongoing funding for one (1) Forensic Specialist position to process and validate DNA samples internally within the department.

To enhance public safety in high-traffic areas such as Himmarshee, Las Olas, and Sistrunk Boulevard, the budget includes $1.6 million in one-time funding for CCTV cameras and vehicle stop barriers. An additional $220,000 in one-time funding is also included for two (2) tower surveillance camera trailers and three (3) license plate reader message boards to support community policing efforts.

The adopted budget also includes $427,172 in ongoing funding to support and maintain the new police headquarters - which is scheduled to open in FY 2026 and $128,000 in enhanced training funding designed to reduce implicit bias, improve crisis intervention tactics, and promote greater community engagement.

Finally, the budget memorializes the transfer of two (2) Human Resource Analyst positions to the Human Resources Department.

Procurement Services – ***NEW*** – The FY 2026 Adopted Budget establishes a new Procurement Services Department to strategically manage the City's acquisition of goods and services in compliance with all applicable laws, ordinances, policies and procedures. As part of its formation, fourteen (14) positions have been transferred from the Finance Department to support departmental operations.

Public Works – The FY 2026 Adopted budget reflects a more streamlined Public Works department aimed at enhancing accountability and reducing spans of control to create more manageable and effective functional teams.

As part of the reorganization, the FY 2026 Adopted Budget memorializes the transfer of 321 positions – funded through the Water and Sewer Fund and the Central Regional Wastewater Fund – into the newly created Utility Services Department. In addition, the Public Works Department will assume full responsibility for all Sanitation-related services to improve operational efficiency, with the transfer of 61 positions from the Parks and Recreation Department – Sanitation Fund. In partial exchange,

Department Highlights – Key Changes and Funding Enhancements, continued

Public Works will transfer the Sustainability Division to the Parks and Recreation Department, with the transfer of eight (8) positions

Additionally, the budget includes the transfer of one (1) Chief Waterways Officer position from the City Manager's Office to the Public Works Department and one (1) Parks Manager position to Public Works from Parks and Recreation – General Fund.

Finally, the Sanitation Fund includes $75,600 in enhanced funding to rent an additional beach dozer vehicle for operation on City beaches.

Utility Services – ***NEW*** – The FY 2026 Adopted Budget establishes a new Utility Services Department (USD) to oversee the City's utility infrastructure and treatment facilities, including the new Prospect Lake Clean Water Center, which is scheduled to open in FY 2026. As part of the reorganization, 321 positions will be transferred from the Public Works Department to support USD's operations.

The FY 2026 Adopted Budget includes approximately $2.9 million in enhanced, ongoing funding to support phased-in staffing – totaling 18 FTEs – for the new Prospect Lake Clean Water Center with additional operational funding to support one (1) month of concurrent operations with the existing Fiveash Treatment Facility.

Additionally, the budget includes $400,000 in enhanced, ongoing funding to support asphalt repairs following utility rehabilitation work plus $122,000 in ongoing funding to expand water quality sampling at five (5) new locations and implement molecular source tracking (MST) at sites that do not meet quality standards.

Transportation and Mobility – The FY 2026 Adopted Budget includes $164,150 in ongoing funding for one (1) additional Project Manager II position to provide Citywide support in traffic engineering, operational safety analysis, congestion mitigation, and strategic transportation planning. The budget also includes $200,000 in enhanced funding to expand traffic calming improvement efforts across the City.

The FY 2026 Adopted Budget also formalizes the establishment of a Transportation Surtax Operating Fund, a Special Revenue Fund established to account for revenues received through the County's surtax program. With the establishment of this new fund, the FY 2026 Adopted Budget transfers the LauderGo! Micro Mover Program expenses from the General Fund into the Transportation Surtax Operating Fund.

The budget also formalizes the transfer of five (5) positions from Transportation and Mobility to support the creation of the new Capital Projects Department. Additionally, one (1) Code Compliance Officer position is scheduled to be transferred to the Development Services Department to ensure compliance with maintenance of traffic (MOT) regulations throughout the City.

Alignment of Funding to the City Commission's Priorities

As a part of a commitment to an open and transparent government, the City Commission participated in its annual prioritization workshop in January 2025 to identify its priorities for the upcoming year. Through a facilitated session, which included neighbor feedback from the Neighbor Survey and an analysis of challenges and opportunities, the FY 2026 Commission Priorities were developed.

The budget makes significant investments into each of the City Commission's identified priorities to improve the quality of life for neighbors today and prepare the City for tomorrow's challenges. The City strategically identified how to best align resources toward these priorities, while maintaining the current millage rate. The table below demonstrates how funding in the FY 2026 Adopted Budget will advance the City Commission's priorities.

PRIORITY	FUNDED ITEMS (★ Newly funded initiatives)
Public Safety	★The Community Investment Plan (CIP) includes $7.1 million for two (2) new full-service emergency medical service (EMS) substations: the Heron Garage Substation, servicing the Las Olas corridor, and the Downtown Substation #88, servicing the South Federal Highway corridor.
	★The CIP includes $3.7 million to enhance the existing $7.6 million in unspent project balance for Fire Station 13. This station is the final project for the Fire Rescue Construction Bond.
	★The Police Department budget includes approximately $427,000 for the operation and maintenance of the new state-of-the-art 191,000-square-foot police headquarters.
	★The Police Department budget includes an additional $1.9 million for overtime expenses related to special event security – the majority of which represents the City's comprehensive approach to the management of Spring Break.
	★An additional Forensic Specialist is funded in the Police Department in the amount of approximately $162,000 to enhance DNA review and processing capabilities.
	The Police Department budget continues to fund the staffing of the Real Time Crime Center in the amount of approximately $460,000.
	★The Police Department budget includes $128,000 to expand training opportunities that enhance crisis intervention tactics and promote community engagement.
	A police-focused public safety survey is funded in the amount of approximately $48,000 to better understand the perception and satisfaction with the City's police and public safety efforts.
	The Police Department budget includes approximately $484,000 for the continuation of the ShotSpotter Program.

Alignment of Funding to the City Commission's Priorities, continued

PRIORITY	FUNDED ITEMS (★ Newly funded initiatives)
Public Safety, continued	★The Police Department budget includes $220,000 for equipment such as tower surveillance camera trailers and message boards with integrated License Plate Readers to enhance neighborhood security.
	★The Police Department budget includes approximately $1.6 million for closed-circuit television (CCTV) cameras and vehicle stop barriers to improve public safety and crime prevention for special events.
	The Police Department budget includes approximately $952,000 for the replacement of police equipment such as ballistic vests, high-resolution cameras, boat engines, and license plate readers.
	★The Fire Rescue Department budget includes $87,000 for handheld sonar devices, fire investigation cameras, and other technical rescue equipment, to enhance operational efficiency and emergency response capabilities.
	★The Fire Rescue Department budget includes $39,000 for the purchase of wetsuits and powered air-purifying respirators to improve operational safety and effectiveness.
	The Fire Rescue Department budget includes approximately $1.3 million for the replacement of equipment and gear such as power-load systems and bunker gear.
	The Fleet Services budget includes $9.4 million for the replacement of 136 public safety vehicles, per the vehicle replacement schedule, including two (2) Fire Rescue ambulances.
	The CIP includes approximately $210,000 for the replacement of two (2) lifeguard towers which will feature artistic murals.
Homelessness Response	The Community Services Department budget includes $330,000 for a Shelter Bed Access Program, which provides temporary shelter for neighbors experiencing homelessness for a period of up to 60 days.
	★Funding in the amount of $250,000 is included for the continuation of a mental health and substance abuse treatment program with two (2) condition-specific housing service providers.
	The Community Services Department budget includes approximately $315,000 to continue the Housing Navigation Program in partnership with the Taskforce For Ending Homelessness.
	★Funding in the amount of $200,000 is included to pilot a new Safe Parking Program which will provide individuals living in their vehicles with a safe place to park and sleep overnight as well as resources, case management, and pathways to stable housing.

Alignment of Funding to the City Commission's Priorities, continued

PRIORITY	FUNDED ITEMS (★ Newly funded initiatives)
Homelessness Response, continued	Funding in the amount of approximately $276,000 is included in the Community Services Department for two (2) positions to support homeless-related initiatives.
	★The Community Services Department budget includes $116,000 for the new long-term lease of the Community Court Program site, which accommodates approximately 100 participants weekly.
	The Community Services Department budget includes approximately $214,000 for the continuation of the Community Court Program, which includes one (1) position, to help individuals receive services tailored to their needs and link participants to restitution projects and onsite social services and treatment providers.
	The Police Department continues its efforts toward homeless support in the amount of approximately $1.2 million through the General Fund for the Homeless Outreach Unit and Reunification Travel Voucher Program.
	The Fire Rescue Department budget includes approximately $297,000 to continue the Mobile Integrated Health Program – Homeless Action Team which connects high utilizers (911 callers with three or more logged calls annually) to public and private resources.
	Entitlement grant funding will continue to support homelessness initiatives and is managed by the Housing and Community Development Division: • Community Development Block Grant (CDBG) funding will provide approximately $227,000 to support local organizations' homelessness assistance and prevention programs. • The City anticipates continuing to receive approximately $1.3 million in State Housing Initiative Partnership funding to be used in part to assist those experiencing homelessness and to prevent homelessness.
Infrastructure and Resilience	**Transportation Initiatives**
	The CIP includes $4.7 million for the repair and maintenance of asphalt, roadways, and sidewalks, in addition to $1.0 million, in designated surtax funding, to expand sidewalk access within the City.
	★The Utility Services Department budget includes enhanced funding in the amount of $400,000 to complete asphalt repairs following utility rehabilitation work.
	The CIP includes $19.2 million in unspent project balances for the repair and replacement of bridges. An additional $2.1 million is included in FY 2026 for bridge restoration activities.
	The CIP includes $4.8 million of unspent project balance to continue the implementation of the Las Olas Mobility Plan.

Alignment of Funding to the City Commission's Priorities, continued

PRIORITY	FUNDED ITEMS (★ Newly funded initiatives)
Infrastructure and Resilience, continued	The Transportation and Mobility Department budget includes $2.1 million in ongoing funding for the City's Microtransit Program, funded in part through the Transportation Surtax Program.
	The CIP includes approximately $52,600 in unspent project balance for traffic flow improvements as well as $287,000 for the Rio Vista SE 6th Ave Traffic Calming Project.
	★The Transportation and Mobility Department budget includes an enhancement of $200,000 for additional traffic calming improvements, expanding the City's existing $325,000 Traffic Calming Program.
	Stormwater Initiatives
	The Fortify Lauderdale Program continues toward completion of the first tranche of stormwater improvements in the original eight (8) neighborhoods. There is a planned issuance of a Stormwater Bond to begin Phase 2 planned for FY 2026.
	The CIP appropriates an additional $3.8 million for a condition assessment of the City's Watershed Asset Management Plan (WAMP) to enhance the $7.5 million of available funding. Additionally, the Public Works Department Stormwater Operations budget includes $1.3 million to support asset inventory improvements and implementation of the WAMP.
	The Public Works Department budget includes approximately $143,000 for a Resilience Outreach Coordinator.
	The CIP includes $1.5 million in funding for the restoration and replacement of City-owned seawalls.
	★As a part of the implementation of the Net Zero Plan, the CIP includes $100,000 for the installation of solar panels. This program will create renewable energy systems that empower the City to lower utility costs and reduce greenhouse gas emissions.
	Water and Sewer Initiatives
	The CIP Water and Sewer – General Capital Projects include $29.5 million in new cash funded capital projects in addition to approximately $93.2 million in unspent project balances. The Central Regional Wastewater budget includes $23.6 million in new cash funded capital projects prioritized based upon a renewal and replacement study in addition to approximately $59.4 million in unspent project balances.
	The CIP includes $149.4 million in unspent project balance for the new Prospect Lake Water Treatment Plant which includes enabling works.

Alignment of Funding to the City Commission's Priorities, continued

PRIORITY	FUNDED ITEMS (★ Newly funded initiatives)
Infrastructure and Resilience, continued	★The Utility Services Department budget includes funding in the amount of $2.9 million as a part of the City's financial obligation for the new Prospect Lake Clean Water Center. This funding will support 18 additional positions required to run the new facility as well as operations and maintenance related expenses.
	The CIP includes $34.8 million in unspent project balance for implementation of Advanced Metering Infrastructure (AMI) as well as $1.6 million in unspent project balance for a new utility billing software system.
Public Enjoyment of Waterways	The Public Works Department budget includes approximately $133,000 for the continuation of the Chief Waterways Officer position.
	The Police Department budget includes $2.1 million for personnel and operational expenses of the Marine Unit, which is staffed by eight (8) dedicated officers responsible for patrolling local waterways and enforcing marine laws and regulations.
	The Public Works Department budget includes $3.5 million for the maintenance of the City's stormwater system, which includes street sweeping, catch basin maintenance, and illegal dumping cleanup to ensure the integrity of the City's waterways as a stormwater asset.
	The Public Works Department budget includes approximately $212,000 for water quality monitoring in compliance with the National Pollutant Discharge Elimination System (NPDES), environmental clean-up efforts, and the purchase of pollution mitigation equipment to help protect local waterways.
	★The Utility Services Department budget includes $122,000 to expand waterway sampling to five (5) additional testing sites and incorporate molecular source tracking to identify the potential urban sources of certain bacteria.
	The Public Works Department budget includes approximately $864,000 for ongoing canal cleaning.
	The Utility Services Department budget includes approximately $150,000 for the Waterway Quality Monitoring Program.
	The Parks and Recreation Department budget includes $2.2 million for a new Marine Facilities Fund, which ensures neighbors have access to clean, well-maintained public boat ramps and marinas.
	A $50,000 Broward Boating Improvement Program Derelict Vessel Removal Grant will continue to support the City's efforts to remove and dispose of vessels that present an environmental or navigational hazard.

Alignment of Funding to the City Commission's Priorities, continued

PRIORITY	FUNDED ITEMS (★ Newly funded initiatives)
Public Enjoyment of Waterways, continued	A $1.1 million grant from the Florida Department of Environmental Protection Land Water and Conservation Fund will renovate the Cooley's Landing Marina including sea wall improvements, security lighting, and trash receptacles.
Public Spaces and Cultural Initiatives	The City continues progress toward the $200 million voter-approved Parks Bond, which includes 81 open CIP projects.
	The CIP includes approximately $2.7 million in unspent project balances for the Galt Ocean Mile beautification project.
	★The Development Services Department budget includes $100,000 to develop a streetscape beautification plan for the Sailboat Bend Historic District.
	★The Parks and Recreation Department budget includes $112,000 to enhance median beautification and resilience efforts through smart irrigation controllers.
	The Parks and Recreation Department budget includes $4.0 million for median maintenance and landscaping beautification efforts.
	★The Parks and Recreation Department budget includes funding in the amount of approximately $300,000 for a comprehensive facility asset management and work order platform, which will improve operational efficiency and proactive maintenance.
	★The Parks and Recreation Department budget includes approximately $184,000 for the installation and maintenance of signage and dog waste stations in all City parks.
	★Funding in the amount of approximately $462,600 is included in the Parks and Recreation Department budget to establish an equipment replacement plan for a wide range of assets including playgrounds, irrigation systems, pool systems, and lighting components.
	The CIP includes $1.0 million to enhance the $8.8 million in unspent project balance for the initial costs associated with the replacement of City Hall.
	★Funding in the amount of approximately $411,500 is included in the Community Services Department budget to enhance the City's Cultural Affairs Program aimed at supporting economic development, promoting neighborhood beautification, and strengthening community engagement through the following initiatives: • $185,000 for permanent and temporary art installations, permitting, and advertising. • $125,000 to sponsor programming, art activations, and art events

Alignment of Funding to the City Commission's Priorities, continued

PRIORITY	FUNDED ITEMS (★ Newly funded initiatives)
Public Spaces and Cultural Initiatives, continued	• $101,500 for a staff member to assist with the logistical tasks. associated with the implementation of cultural programming, public art initiatives, and arts-related policy development.
	★The Community Services Department budget includes $49,000 for a historic Sistrunk neighborhood welcome mural or sign.
Bolster Thriving Communities	Entitlement grant funding in the amount of approximately $907,000 will be used to provide access to internet in low-income neighborhoods.
	★Funding in the amount of $13,300 is allocated to continue scholarships for 12 City of Fort Lauderdale students.
	★Funding in the amount of $216,000 is allocated to build-out the space donated for an Airport Workforce Training Program. The program will equip students with the skills to support the aviation industry within the City.
	★A Chief Economic Development Officer is funded in the amount of approximately $198,000 to create and implement a comprehensive plan for attracting, retaining, and expanding businesses in Fort Lauderdale.
	★Funding in the amount of $40,000 is allocated to conduct an economic revitalization study which will identify challenges and develop targeted strategies to stimulate economic growth in specific neighborhoods.
	★The Development Services Department budget includes $50,000 for the development of a conceptual vision plan focused on pedestrian and streetscape improvements in the Himmarshee Historic District.
	Entitlement grant funding, managed by the Housing and Community Development Division, will continue to support the following initiatives: • HOME Investment Partnerships funding will provide approximately $400,000 to be used in part to support affordable housing initiatives. • Housing Opportunities for Persons with AIDS (HOPWA) funding will provide $7.6 million to assist with facility-based housing, various rent programs, mortgage assistance, and utilities.
	★Funding in the amount of $640,000 is allocated for a loan to Pinnacle at Cypress Creek Phase 2, LLC. This funding will finance the construction of 96 workforce rental units.
	The Development Services Department budget includes approximately $224,000 for planning and administration of the Historic Preservation Program funded by the General Fund.

Alignment of Funding to the City Commission's Priorities, continued

PRIORITY	FUNDED ITEMS (★ Newly funded initiatives)
Bolster Thriving Communities, continued	The Development Services Department budget includes $85,000 for the Fort Lauderdale Historical Society, Inc. to continue services that contribute to the City's historical life and serve as a resource within the Riverwalk Arts and Entertainment District. Additionally, $100,000 is available for improvements to a building being used by the Fort Lauderdale Historical Society, Inc.
	Funding in the amount of $300,000 is allocated for the Summer Youth Employment Program, operated by CareerSource Broward, to provide a summer work experience program to Fort Lauderdale residents, ages 16 through 18.
	★The Community Services Department budget includes $150,000 for a Municipal Services Affordability (MSA) Program to assist financially burdened households with paying for their water, sewer, and sanitation services. This program aims to maintain uninterrupted access to essential services for low-income households, enhancing housing stability, safety, and overall quality of life.

**Some of these projects have elements that are components of other programs and initiatives; as such, the funding identified above may extend to multiple Commission Priorities.*

Funding to Support External Organizations

As a part of the annual budget process, the City provides external organizations with funding to support key community services that align with the City's Strategic Plan, annual Commission Priorities, and operational needs. This funding allows the Commission to allocate resources to key initiatives without the lead time that would be required if the City were to provide the services internally and provides flexibility to address different priorities each year without a long-term financial commitment. Nonprofit organizations that receive grant funding are required to execute a participation agreement, which stipulates the funding amount, public purpose, scope of service, financial reporting requirements, term length, and time of performance.

The tables below show the organizations included in the FY 2026 Budget, the approved funding amounts, and the purpose of the City's contribution.

City of Fort Lauderdale FY 2026 Nonprofit Grant Participation Agreement Funding		
Organization	**Approved Funding**	**Purpose of City's Contribution**
FY 2026 Commission Priority: Bolster Thriving Communities		
Areawide Council on Aging of Broward County, Inc.	$ 127,842	Support meal and transportation services and resources for City of Fort Lauderdale seniors and adults with disabilities.
Early Learning Coalition of Broward County, Inc.	100,000	Provide subsidized childcare for approximately 2,500 children of low-income families in the City of Fort Lauderdale.
First Call for Help of Broward, Inc. dba 211-Broward, Inc.	25,000	Provide supportive listening, crisis intervention, and information and referrals that help residents access social services.
Jewish Adoption and Family Care Options, Inc.	25,000	Provide case management and respite care for approximately 75 Fort Lauderdale families with children with developmental disabilities as they navigate systems of care, including medical services and educational opportunities.
Junior Achievement of South Florida, Inc.	33,900	Provide 5th and 8th grade public school students in Fort Lauderdale with financial and entrepreneurial learning, served annually through JA BizTown and JA Finance Park.
FY 2026 Commission Priority: Public Spaces and Cultural Initiatives		
Museum of Discovery and Science, Inc.	214,800	Provide public elementary school students in Fort Lauderdale with museum access and school instruction to improve long-term academic success in the critical STEM (i.e., science, technology, engineering, and math) disciplines.
Nova Southeastern University, Inc. for NSU Art Museum	500,000	Provide cultural, educational, and enrichment programs as well as innovative art exhibitions to stimulate tourism in Fort Lauderdale, and offer complimentary admission to City residents.
The Stranahan House, Inc.	63,000	Provide programming for residents and visitors of Fort Lauderdale about the region's history, thus furthering the social, cultural, and historic viability of the community.
Subtotal Grant Funding	**$ 1,089,542**	

Funding to Support External Organizations, continued

City of Fort Lauderdale FY 2026 Interlocal Agreement Funding		
Organization	**Approved Funding**	**Purpose of City's Contribution**
FY 2026 Commission Priority: Public Spaces and Cultural Initiatives		
Downtown Development Authority of the City of Fort Lauderdale	$ 714,285	Redevelop Huizenga Park to add amenities and ensure that the location remains a public park, accessible to all residents and visitors in perpetuity. This is the third payment of the City's $5 million total commitment.
	100,000	Support the operation, maintenance, and programming for Huizenga Park.
	$ 814,285	**Subtotal Interlocal Agreement Funding**

City of Fort Lauderdale FY 2026 Contracts and Sponsorship Included in Department Operating Budgets		
Organization	**Approved Funding**	**Purpose of City's Contribution**
FY 2026 Commission Priority: Bolster Thriving Communities		
CareerSource Broward	$ 300,000	Provide Fort Lauderdale's youth with summer-long employment with the City, including lessons about how to obtain and maintain a job and how to turn any job into an investment of time and effort for the future.
FY 2026 Commission Priority: Homelessness Response		
Fellowship Recovery Community Organization, Inc.	125,000	Provide facility-based substance use stabilization and housing for individuals experiencing homelessness.
HomesUnited Ministries, Inc.	125,000	Provide shelter with mental health support services including, but not limited to, assistance to apply for federal benefits, housing navigation, legal aid, employment services, daily meals, and case management for individuals experiencing homelessness.
Miami Rescue Mission, Inc. dba Broward Outreach Centers The Caring Place	330,000	Provide access to 20 designated emergency shelter beds and supportive service for individuals identified by the Fort Lauderdale Homeless Outreach Team as experiencing homelessness and requiring such services.
Taskforce Fore Ending Homelessness, Inc.	315,260	Support a Housing Navigation Program which provides outreach, education, advocacy, and housing navigation. The Housing Navigation Team offers placement services such as shelter, treatment, and housing referrals.
FY 2026 Commission Priority: Public Spaces and Cultural Initiatives		
Fort Lauderdale Historical Society, Inc.	135,000	Contribute toward the educational, cultural, and historical life of Fort Lauderdale; this serves as a historic tourist destination within the Riverwalk Arts and Entertainment District.
Riverwalk Fort Lauderdale - *Go Riverwalk* Magazine	50,400	Provide space in the monthly *Go Riverwalk* magazine to communicate City information.
Riverwalk Fort Lauderdale - Riverwalk Activation	309,100	Provide for the programming, beautification, lighting enhancements, and revitalization of Riverwalk Park and special events such as the annual Light Up Lauderdale event and the Day of the Dead celebration.
Winterfest, Inc.	75,000	Sponsor the Annual Boat Parade and build a festival and full complement of events around the Greater Fort Lauderdale area.
	$ 1,764,760	**Subtotal Contracts and Sponsorship Funding**
Grand Total Funding	**$ 3,668,587**	

City of Fort Lauderdale, Florida
Special Events and Public Space Activation

Combined Water & Sewer Bill Survey

At 3,000 Gallons per Month

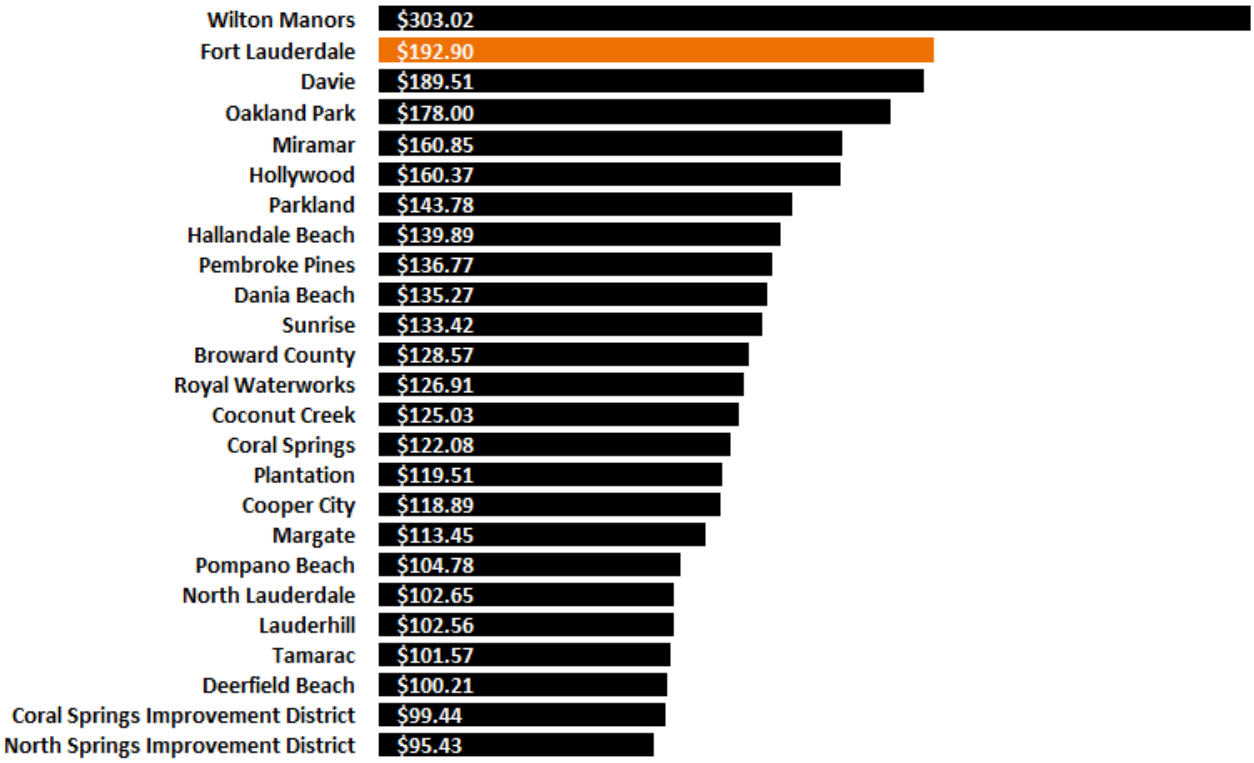

At 5,000 Gallons per Month

Combined Water & Sewer Bill Survey, continued

At 8,000 Gallons per Month

The comparative survey results indicate that the City's water and wastewater rates remain generally competitive across different consumption levels. For customers with lower usage, the City provides rates that fall near the middle of the range of comparable systems. For average and higher water users, the City's rates fall toward the upper quartile of surveyed providers.

Several neighboring municipalities have implemented annual rate indexing for water and wastewater services, and others are preparing for multi-year rate increases to fund planned water treatment plant projects. For FY 2026, the City adopted a 9% increase for water and wastewater rates. This adjustment is necessary to meet ongoing debt service obligations and to prepare for the future operational costs associated with the new water treatment facility.

LONG RANGE FINANCIAL PLANS

City of Fort Lauderdale Financial Forecast

The City of Fort Lauderdale is committed to long-term financial planning, which involves identifying future financial challenges and opportunities through financial forecasting and analysis. Based on that information, the City develops strategies to achieve financial sustainability. The City's forecast models are created by incorporating knowledge of operating and financial activities that are current and planned, assumptions regarding the overall economic outlook, and numerous situational scenarios and variables specific to the organization. This process is intended to ensure that resources are not overextended beyond capacity.

The City updates its 10-year financial sustainability analyses on an annual basis in collaboration with a team of consultants. Analyses and final forecasts are informed by assumptions that drive individual revenue and expenditure streams. These assumptions are often unique to each fund and will be laid out in greater detail in the fund profiles section of this book, which summarizes key fund-level financial data.

The findings articulated in this section represent an analysis of City financial data within a specific time interval. The initial financial forecast models are presented to the City Commission in June and updated following the final adoption of the FY 2026 budget, as presented in this section. Financial data is continuously shifting in tandem with City operations, and as such, analysis results represent forecast estimates. Margins of error are expected to increase with the forecast period for each fund analysis.

The City's long range financial plan seeks to ensure that there are sufficient resources identified to achieve the goals outlined in the City's Strategic Plan. This intentional planning process assures cross-departmental collaborations that target each of the strategic plan focus areas: Public Safety, Housing, Infrastructure and Resilience, Public Places, and Business Growth and Support.

Components of the Financial Forecast

The City's financial forecasting process targets four (4) main areas – revenues, expenditures, capital improvement projects, and debt. The key assumptions and considerations for each fund are identified in the fund's financial forecast.

Each forecast model estimates projected changes to revenue and expenditure streams within an individual fund by developing assumptions that correspond to each stream. Assumptions incorporate macro- and micro- economic trends, relevant changes to City operations, and emerging or anticipated shifts in services based on end user demand. To remain responsive to changes in the financial landscape, throughout the year, the City conducts quarterly revenue and expenditure reviews of the budget. Updates to annual analyses generally emphasize adjustments to the current and projected evaluated condition of City funds, incorporate service level adjustments and any other financial changes that are included in the City's annual budget.

The City's Community Investment Plan (CIP) details the capital improvement projects that have been programmed for each fund over a five-year period. The CIP incorporates the concept of *sustainable infrastructure* - which involves connecting a commitment to sound asset management with an approach that prioritizes community needs within the context of a sustainable future. The plan outlines the anticipated cost and funding methodology for each project, allowing the financial models to capture the financial impact of future projects on each fund.

The forecast models also project future debt service requirements. It is the policy of the City to fund operating capital needs from current revenues. However, financing purchases or services through bonds, notes, or an interfund advance is an option only if the asset has a useful life that exceeds the debt repayment schedule, and the debt service payment required to repay the debt can be made from the current year's ongoing revenues so that it does not require the use of fund balance in future years.

General Fund - Financial Forecast

Revenues

The revenue utilized consists of ad valorem taxes, assessments, franchise fees, charges for services, licensing and permitting fees, intergovernmental revenues, state shared revenues, fines and forfeitures, federal grants and donations, interest earnings, and other minor miscellaneous revenues from various service charges. The City of Fort Lauderdale has deliberately diversified the revenue streams of the General Fund to mitigate the decline or loss of any single source of revenue. Overall, the diversification of revenue sources assists the City in achieving its goal of long-term financial sustainability, even in times of economic adversity.

Expenditures

Operating expenses include personnel services costs, operating and maintenance (O&M) costs, and minor capital outlays. Expenses were projected for future years based on the FY 2026 Adopted Budget, with adjustments reflecting escalation factors identified through reviews with City Staff. This analysis resulted in the following average annual increases up to Fiscal Year 2035: 7.2% for salaries and wages, 7.6% for fringe benefits, 1.8% for services and materials, 4.0% for other non-operating expenses, and 9.1% for minor capital outlay expenses.

Community Investment Plan (CIP)

The projected cash-funded capital program in this analysis is based on the five-year Capital Improvement Program adopted by the City Commission. Based upon the Adopted Community Investment Plan, the General Fund's appropriation to the CIP will increase by an average of 10.9% annually over the next four years based upon scheduled capital projects. Beginning in FY 2031, this contribution is expected to stabilize, with a constant annual increase in transfer of $2.0 million each year to build capacity for funding additional projects and to account for the increased cost of construction.

Key Assumptions/Considerations

- The Fire Assessment Fee has increased from $328 per single family home in FY 2025 to $403 in FY 2026 for a full cost recovery true-up, with future adjustments to be determined by future studies in FY 2029, FY 2032, and FY 2035 to reflect the ongoing changes in Fire Rescue operations.
- Las Olas Marina revenue sharing is expected to start in FY 2026 at $300,000 and gradually increase as occupancy and sales increase in future years.
- A temporary annual revenue reduction of $0.9 million from the Bahia Mar lease agreement is expected between FY 2027 – 2029. However, starting in FY 2030, the agreement is expected to generate over $17.7 million annually once residential unit sales commence.
- The Return on investment (ROI) charge from the City's Parking Fund of $3.2 million remains a source of revenue in each year of the analysis.
- Incorporating increases in the Police and Firefighters Pension Plan due to lower assumed rates of return in the pension plan is projected to increase the City's annual required contribution by $0.6 million per year.
- Incorporating annual increases in the annual General Employee Retirement System to support the unfunded liability created with an approved retiree cost of living adjustment (COLA) totaling $2.2 million per year until FY 2030.
- Beginning in FY 2028, an additional $3.7 million in salaries and wages is expected to cover the personnel costs associated with the Las Olas Downtown Fire Rescue Substation becoming operational along with additional Citywide service enhancements tied to anticipated population growth.
- The $52.2 million supplemental funding for the new Police Headquarters project added $3.2 million in additional debt service payments starting in FY 2026.
- In FY 2028, the City will fully realize the additional $4.6 million annual obligation for 28 firefighters hired through the Staffing for Adequate Fire and Emergency Response (SAFER Grant)
- Starting in FY 2027, an assumption for the Swimming Hall of Fame lease is included, adding $1.9 million in General Fund net impact, increasing annually by 3%.
- The City expects to incur an additional $6.5 million in debt service expenses in the General Fund ($10 million in all funds), starting in FY 2028, to support the construction of a new government center to replace the previous City Hall.

General Fund - Financial Forecast, continued

Results

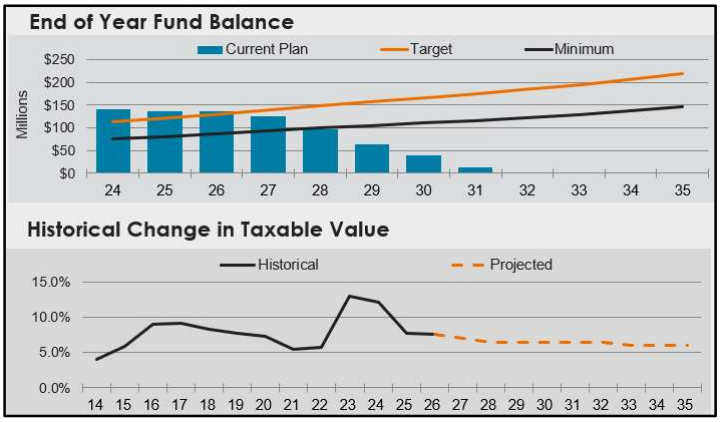

The results of the current analysis show a positive short-term outlook for the City's General Fund. Projections indicate that the City's fund balance will remain above the two-month minimum through FY 2027. Beyond FY 2027, a variety of factors, including longer-term cost pressures, are expected to weaken the fund's ability to maintain minimum reserve levels. To address these challenges, enhanced revenues or expenditure reductions would be needed to provide a structurally balanced budget. The current projections indicate that a millage rate increase of 0.55 mills in FY 2027 would help the City maintain existing service levels and a structurally balanced budget through FY 2034.

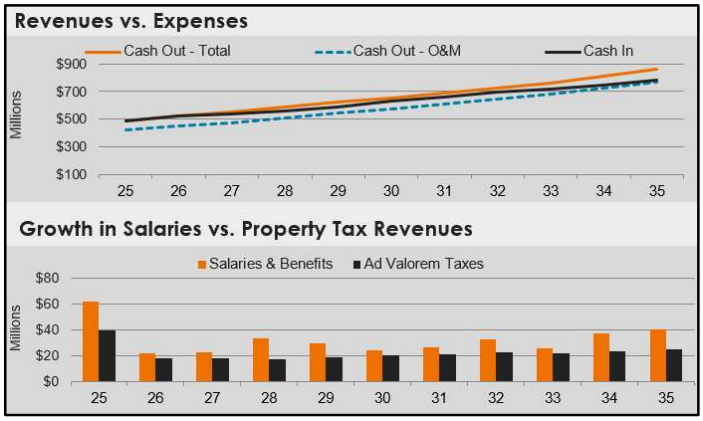

Due to the complexity of the General Fund, in addition to the 10-year forecast, the City also completes a detailed five-year forecast for the revenues and expenses of the fund.

General Fund – Five Year Financial Forecast Revenue

This section details major sources that make up the General Fund total revenue, which include the following: Ad Valorem/Property Taxes (48.3%), Sales and Use Tax (1.7%), Franchise Fees (6.8%), Utility Taxes (10.0%), Intergovernmental (5.5%), Charges for Services (5.6%), Licenses & Permits (0.8%), Fines & Forfeitures (0.2%), and Miscellaneous (21.1%).

The five-year estimates for revenues in this section were taken from the financial forecasting model developed with Stantec Consulting Services Inc. during the FY 2026 Budget Cycle. Below is a summary chart that details the current adopted budget along with a five-year projected forecast. A description of each revenue source as well as a discussion and outlook as of this year follows.

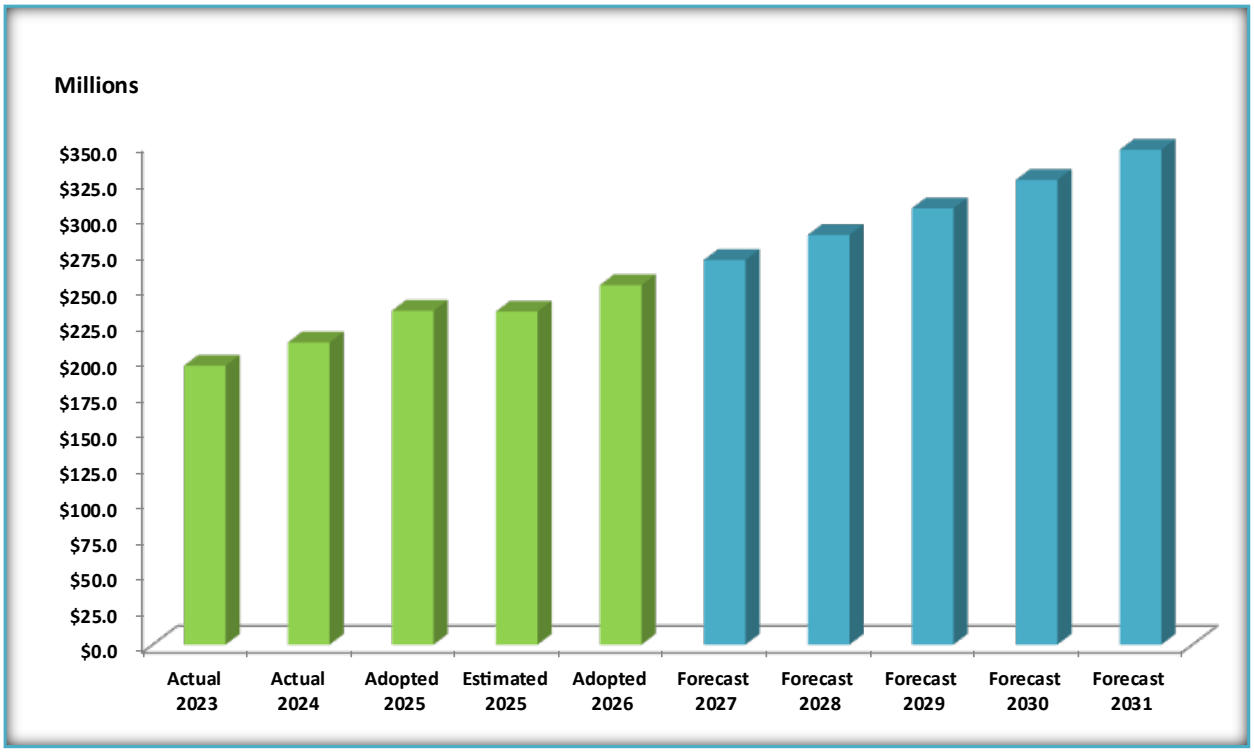

General Fund Revenue Summary						
Revenue Type	**FY 2026 Adopted**	**FY 2027 Projected**	**FY 2028 Projected**	**FY 2029 Projected**	**FY 2030 Projected**	**FY 2031 Projected**

General Fund – Five Year Financial Forecast Revenue, continued

Ad Valorem Taxes

The adopted ad valorem or property tax millage for operating purposes is 4.1193 and generates $251,131,366 or 48.3% of the General Fund revenue, based on the Broward County Property Appraiser's July 1, 2025, estimate of the City of Fort Lauderdale's taxable value. The tax rate is made up of two components: operating millage rate and voted debt millage rate. A separate debt levy is used to pay debt service costs (principal and interest payments) associated with the City's outstanding General Obligation Bonds (GOB).

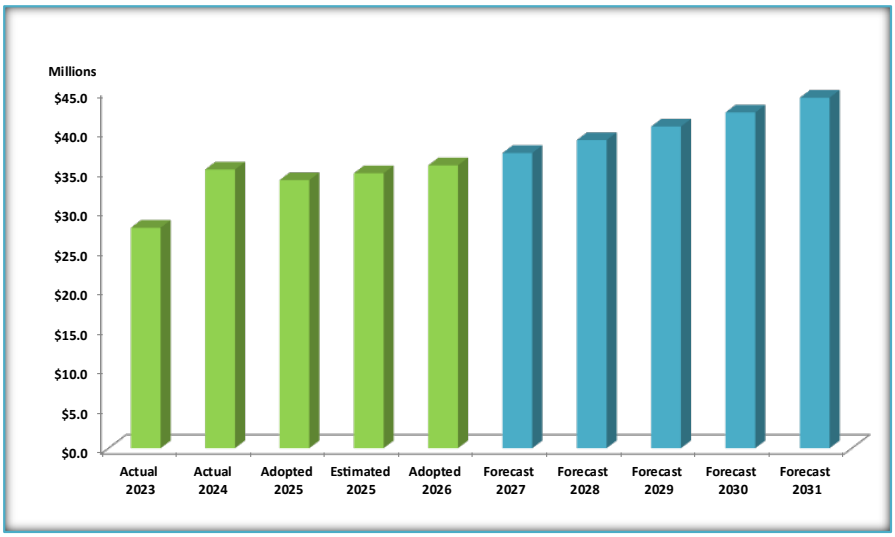

Over the last few years, taxable property values have steadily grown. Taxable values have increased by 8.5% over the past year. The five-year projection assumes taxable property value growth will slow to 7.0% in FY 2027, then to 6.5% from FY 2029 to FY 2032, before stabilizing at 6.0% through FY 2035. The current projections indicate that to maintain existing service levels and provide a structurally balanced budget without a millage rate increase, ongoing expenditures would need to be reduced by approximately $11.6 million in FY 2027 with additional expenditure reductions likely to be required in subsequent fiscal years.

General Fund – Five Year Financial Forecast Revenue, continued

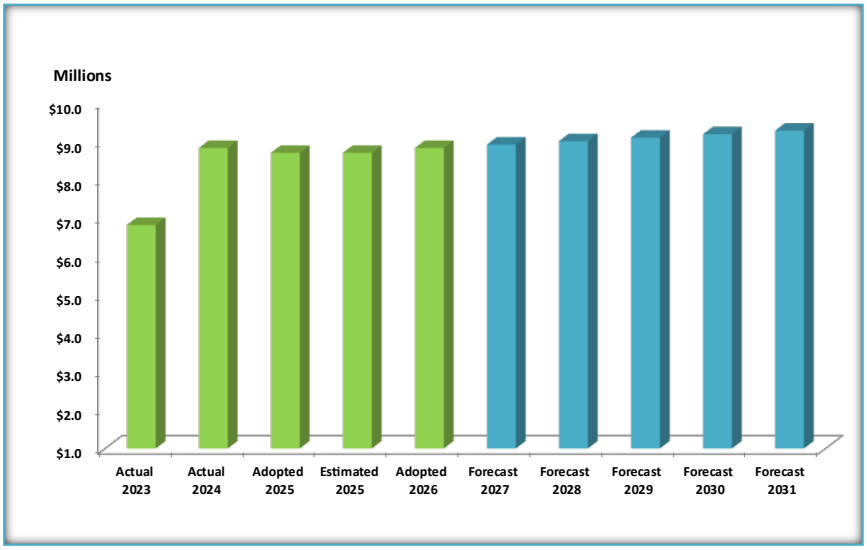

Franchise Fees

This revenue source consists of payments made by Florida Power and Light (FPL), Peoples Gas, and various sanitation contracts for the privilege of constructing upon, and operating within, the rights-of-way owned by the City. The basis for the fees is provided for in long-term agreements for payment to the City based upon their gross revenue derived from accounts within the City limits, less property tax and minor fees previously paid to the City. Projected FPL and Peoples Gas, and sanitation franchise fees for FY 2026 are budgeted to be $35,554,149, which represents an increase of 5.5% from the FY 2025 Adopted Budget. It is estimated that the sanitation-related franchise collector fees will generate $13,466,149, of which $13,289,629 will be transferred to the Sanitation Fund to support citywide sanitation related operations. Franchise Fee revenues are projected to increase by 4.4% annually for the remainder of the forecast as the City's population continues to grow and the price of sanitation services increases over the years.

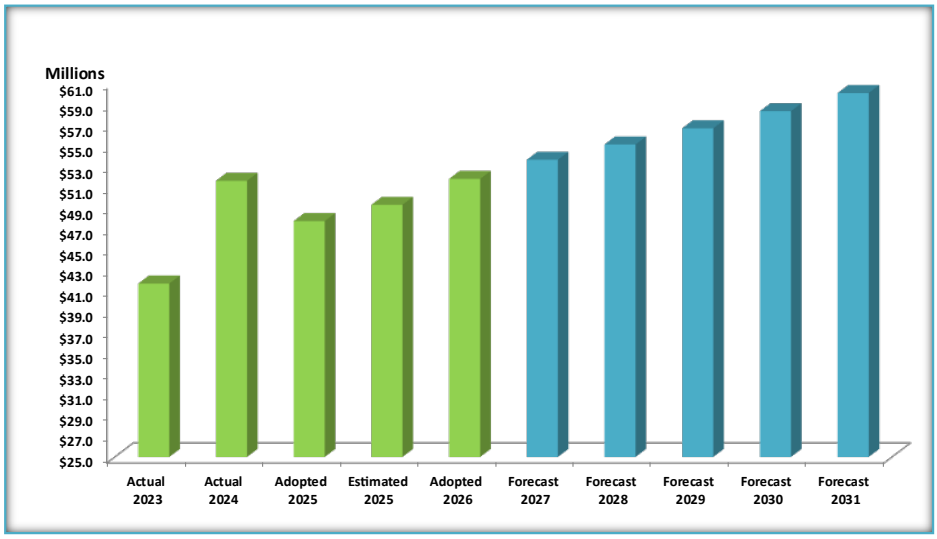

Sales & Use Taxes

Florida Statutes provide for the levy of excise taxes of 1.85% on fire insurance premiums and 0.85% on casualty insurance premiums. These funds are passed through the General Fund as revenue and an expense. Proceeds of these taxes are distributed to eligible municipalities to supplement the Pension and Retirement Trust funds for firefighters and police officers. The revenue for FY 2026 is budgeted to be $8,820,851, which represents an increase of 1.5% from the FY 2025 Adopted Budget. This revenue is conservatively projected to increase by 1.0% annually over the next five years.

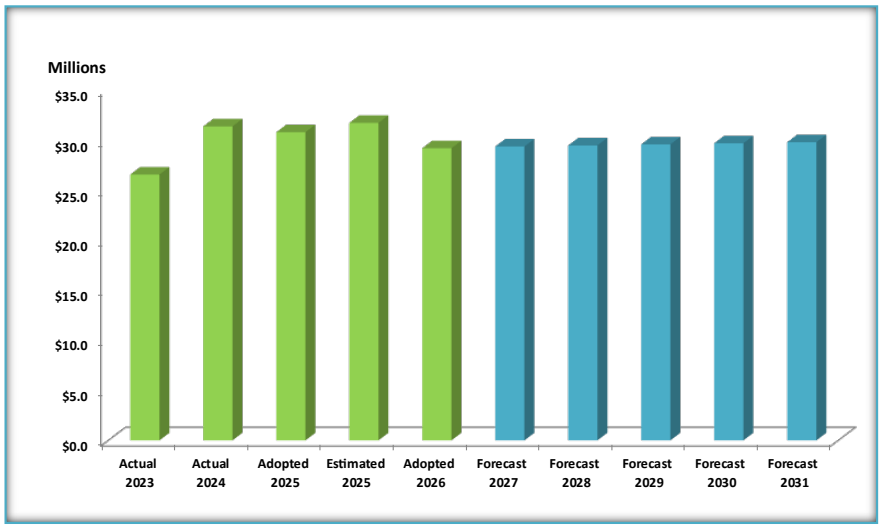

General Fund – Five Year Financial Forecast Revenue, continued

Utility Taxes

This category is comprised of three major components. The largest component is the City utility tax on electricity, charged by FPL to its customers. FPL utility tax is projected to be 52.0% of the Adopted FY 2026 utility tax revenues. The second largest source for this revenue category is a combination of the City's utility tax on gas and water utility bills. This tax represents 25.0% of the Adopted FY 2026 utility tax revenue. Water utility taxes increase as water rates and consumption increase. A third component of utility tax revenue is the Communication Service Tax, which applies to customers within the City and is based upon estimates provided by the Florida Department of Revenue. The combined utility service tax revenue for FY 2026 Adopted Budget is $51,758,700, which represents an increase of 8.5% above the FY 2025 Adopted Budget. As the City's population and the cost of utilities increase, these revenues are estimated to increase by an average of 3.0% over the next five years.

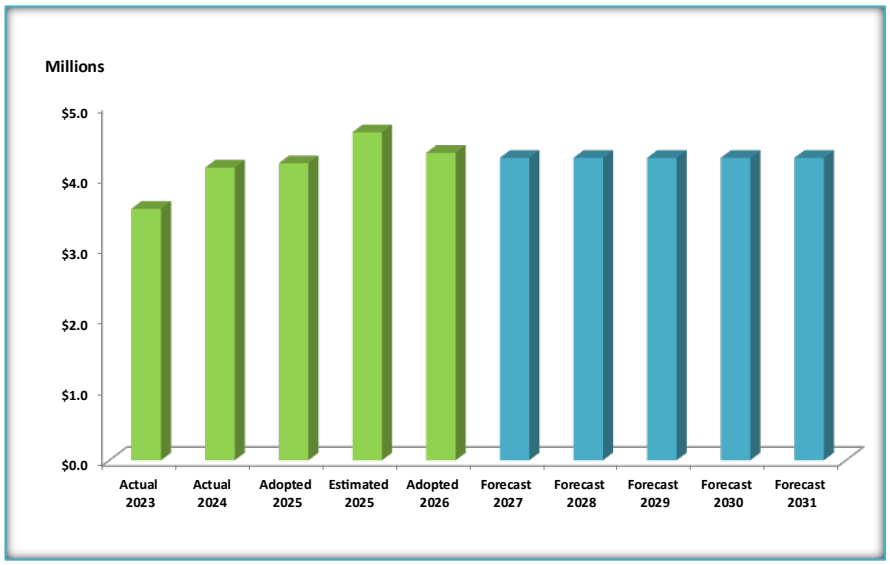

Charges for Services

This category of revenue is associated with funds received from users of specific services, including fees for fire related inspections, planning, and docks, as well as parks and recreation. The revenue for FY 2026 Adopted Budget is $29,090,075, which represents a 5.2% decrease from the FY 2025 Adopted Budget. The revenue is anticipated to increase by 0.6% in FY 2027 and then by 0.4% annually for the remainder of the forecast.

General Fund – Five Year Financial Forecast Revenue, continued

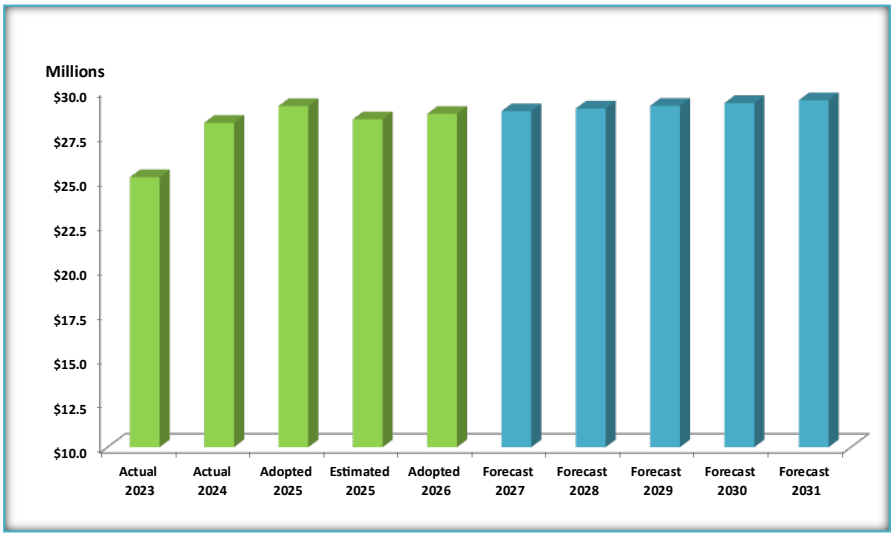

Licenses & Permit Fees

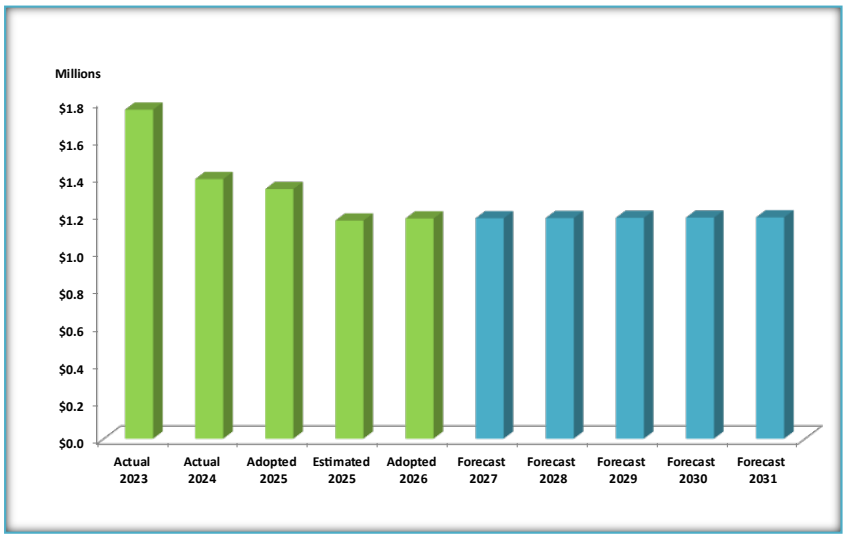

This revenue category includes local business tax receipts issued to authorize businesses to operate within the City limits and development permits issued to authorize building and construction within the City limits. The revenue for FY 2026 Adopted Budget is $4,326,957, which represents a 3.5% increase from the FY 2025 Adopted Budget. This revenue is anticipated to decrease by 1.6% in FY 2027 before leveling off for the remainder of the forecast period.

Intergovernmental Revenue

This revenue source is recurring State shared and County shared revenue. The State of Florida shares motor fuel, alcoholic beverage license, and sales tax revenue with local governments based on population. Broward County provides gasoline tax and local business tax receipt revenue. The revenue for FY 2026 Adopted Budget is $28,671,519, which represents a 1.5% decrease from the FY 2025 Adopted Budget. A slight annual increase of 0.5% is projected over the next five years for intergovernmental revenue.

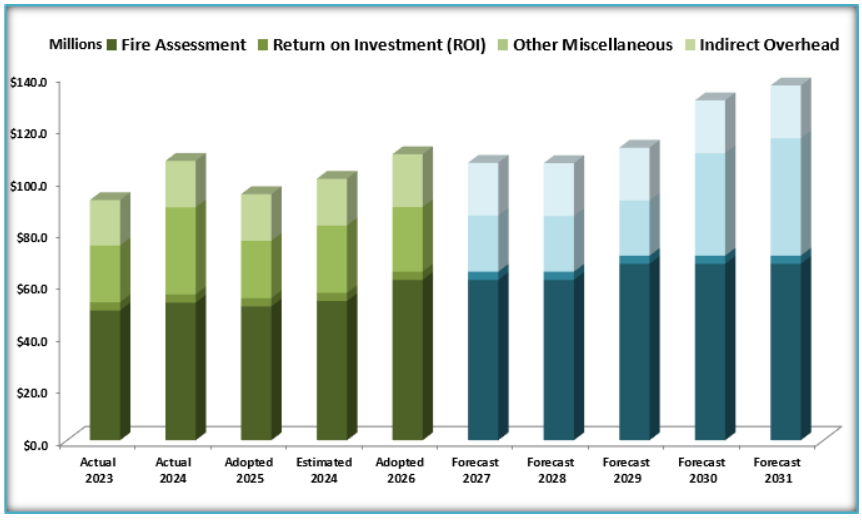

General Fund – Five Year Financial Forecast Revenue, continued

Fines & Forfeitures

This revenue category includes fines for traffic and other violations collected by the County on the City's behalf through the judicial process. This category represents 0.2% of all General Fund resources. The revenue for the FY 2026 Adopted Budget is $1,174,390, which represents a 11.8% decrease from the FY 2025 Adopted Budget, primarily due to a decrease in the number of citations written. This revenue is projected to increase annually by 0.1% over the next five years.

Miscellaneous Revenue

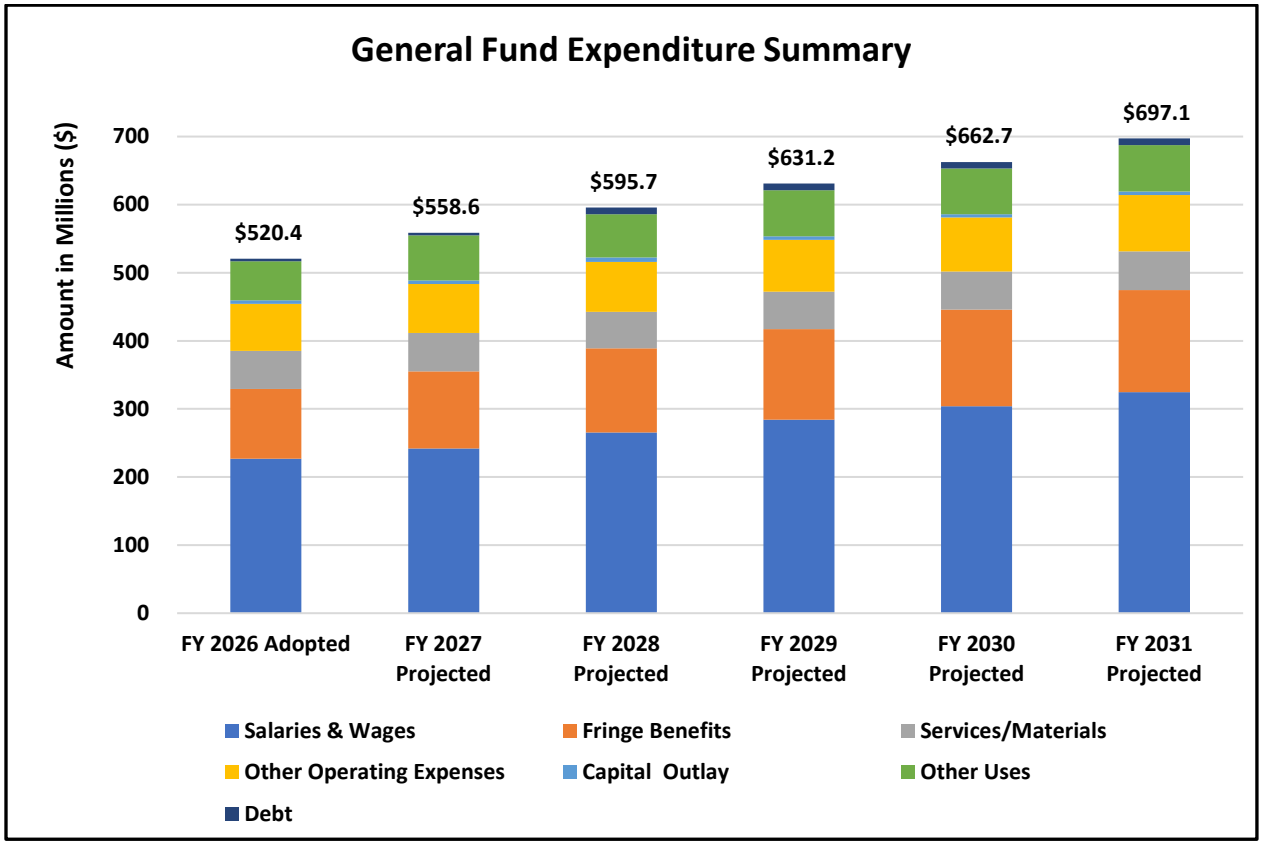

This revenue source includes interest earnings, rents, fire assessment fee, return on investment, cost allocation charges, and other direct interfund charges. This revenue category includes $3.2 million from return on investment (ROI) charges to the Parking Fund. The fire assessment fee, which appears as a non-ad valorem charge on the tax bill, is $403 per residential dwelling for FY 2026 and is estimated to generate $61.6 million. This non-ad valorem revenue is projected to remain stable until 2028 with future true-ups of 10.0% in 2029, 2032 and 2035 to expand critical emergency services infrastructure and address growing service demands. The additional $10.2 million generated through the increase in FY 2026 will help complete the construction of three (3) Fire Rescue facilities: EMS Substation #88, the Heron Garage Substation, and Fire Station 13 replacement. The total adopted miscellaneous revenue for FY 2026 is $109,897,262. This represents an increase of 16.2% from the FY 2025 Adopted Budget. The City's lease agreement for the Bahia Mar property will have significant impacts on future revenue projections. The lease adjustment is anticipated to decrease revenues by approximately $909 thousand per year from FY 2027 through FY 2029; however, the lease agreement is anticipated to yield over $17.7 million in additional revenues beginning in FY 2030 upon the sale of residential units.

General Fund – Five Year Financial Forecast Expenditures

This section details major categories that make up the General Fund total expenditures, which include the following: Salaries & Wages (43.6%), Fringe Benefits (19.6%), Services & Materials (10.8%), Other Operating Expenses (13.3%), and Capital Outlay (1.0%). The remaining expenditure category consists of transfers out of the General Fund to fund debt service and other direct charges to other funds (11.7%).

The five-year estimates for expenditures in this section were taken from the financial forecasting model provided by Stantec Consulting Services Inc. during the FY 2026 Budget Cycle. Below is a summary chart that details the current adopted budget along with a five-year projected forecast. A description of each expenditure category as well as a discussion and outlook over the next five years follows.

General Fund Expenditure Summary						
Expense Types	**FY 2026 Adopted**	**FY 2027 Projected**	**FY 2028 Projected**	**FY 2029 Projected**	**FY 2030 Projected**	**FY 2031 Projected**
Salaries & Wages	227,040,537	242,070,140	265,550,904	284,029,231	303,748,554	324,787,348
Fringe Benefits	102,068,228	113,131,479	123,479,774	133,336,084	142,346,128	149,852,600
Services/Materials	56,033,934	56,450,018	53,665,636	54,645,401	55,659,779	56,710,786
Other Operating Expenses	69,014,226	71,673,097	73,254,642	76,203,634	79,317,378	82,605,741
Capital Outlay	5,438,837	5,282,863	6,537,822	5,127,178	4,935,523	5,141,837
Other Uses	57,306,267	66,443,699	63,223,604	67,873,689	67,046,199	68,372,176
Debt	3,523,240	3,525,283	10,027,389	9,954,059	9,660,472	9,660,472
Total	**$520,425,269**	**$558,576,579**	**$595,739,767**	**$631,169,275**	**$662,714,033**	**$697,130,961**

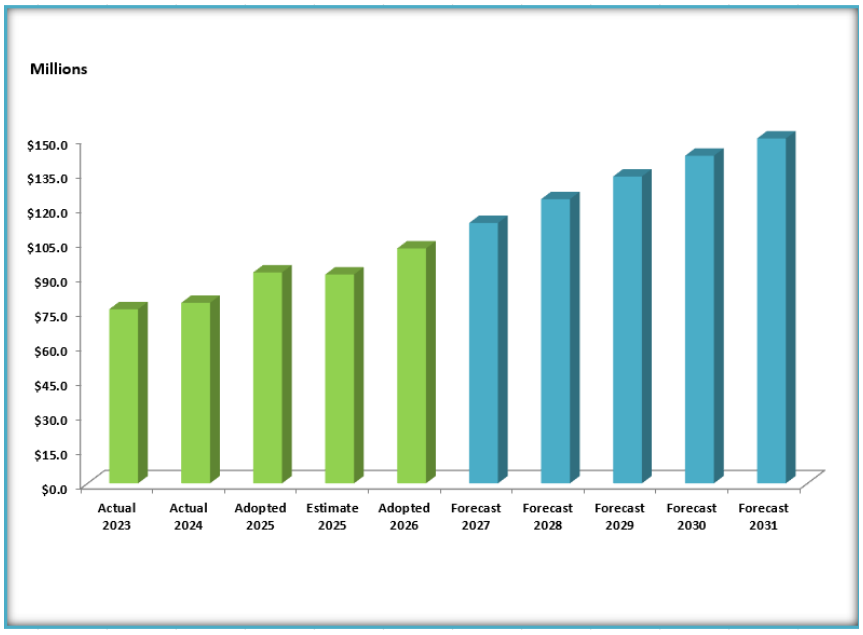

General Fund – Five Year Financial Forecast Expenditures, continued

Salaries & Wages

This is the largest expenditure category and represents 43.6% of the Adopted General Fund expenditures, excluding balances and reserves. The major expenses in this category include the following: salaries, other wages, overtime, termination pay, and longevity. The Adopted Budget for FY 2026 is $227,040,537, which represents a 5.9% increase from the FY 2025 Adopted Budget. Over the next five years, this expenditure category is projected to increase 7.4% annually, based primarily on negotiated contractual wage increases. Beginning in FY 2028, an additional $3.7 million in expenses is expected to cover the personnel costs associated with the Heron Garage Fire Rescue Substation becoming operational and with service enhancements tied to anticipated population growth. The City will also fully realize the $4.6 million annual obligation for 28 firefighters hired through the Staffing for Adequate Fire and Emergency Response (SAFER) grant.

Fringe Benefits

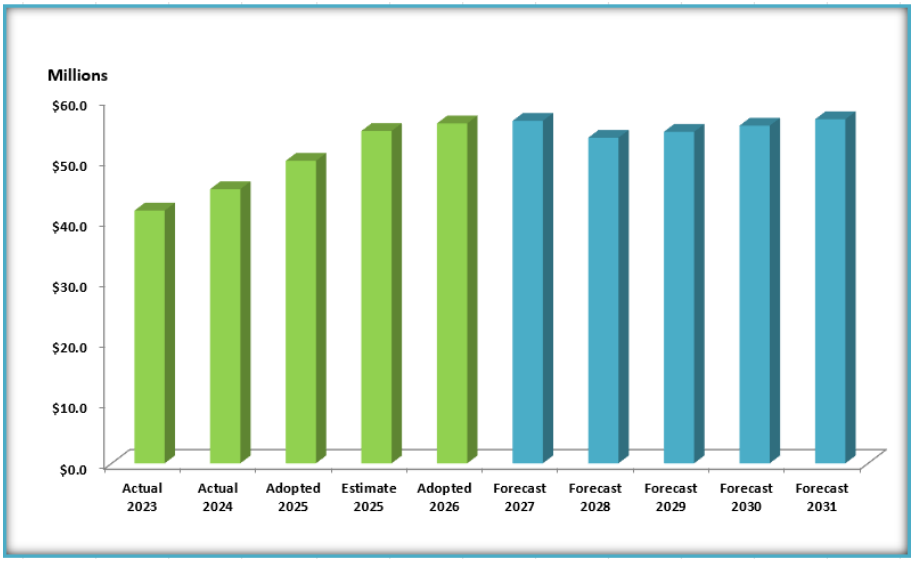

This expenditure category, which represents 19.6% of the Adopted General Fund Expenditures, includes pension, social security, health care, and retiree health care. The Adopted Budget for FY 2026 is $102,068,228, which represents a 11.4% increase from the FY 2025 Adopted Budget. The projection for this category is primarily driven by the required health and pension contributions. The City health contribution is adjusted annually based on the total medical and pharmacy trend for plans with a medium level of member cost sharing plus 2% as published by the City's actuarial reporting. The City's pension contributions are projected to increase annually based on wage increases and actuarial reviews of each plan's experience. The Police and Firefighters Pension Plan expense is also projected to increase due to the incremental decrease in the assumed rate of return.

General Fund – Five Year Financial Forecast Expenditures, continued

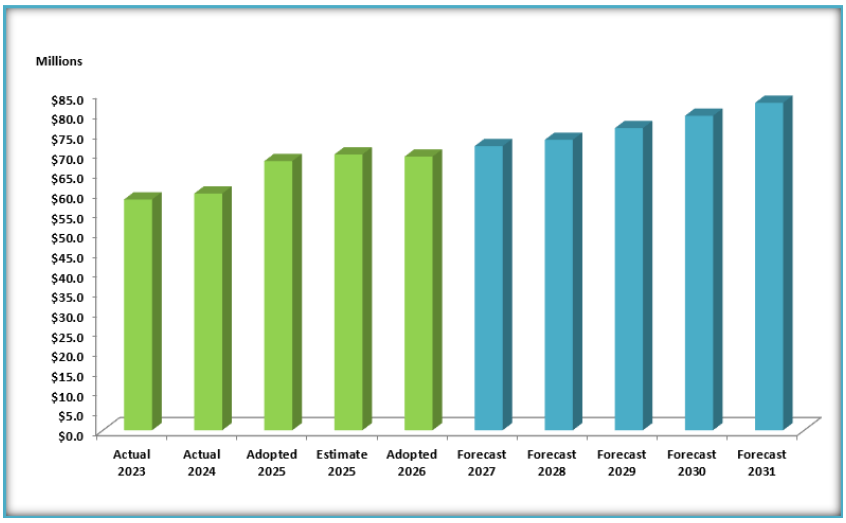

Services & Materials

This expenditure category, which is 10.8% of the Adopted General Fund expenditures, includes electricity, gasoline, supplies, equipment, other services, and other utilities. The Adopted Budget for FY 2026 is $56,033,934, which represents a 12.4% increase from the FY 2025 Adopted Budget. In FY 2028, the model assumes that the current office space rent will be removed with a new City Hall facility expecting to be operational in 2028. After which the financial model projects an average increase of 1.4% for the cost of supplies and services.

Other Operating Expenditures

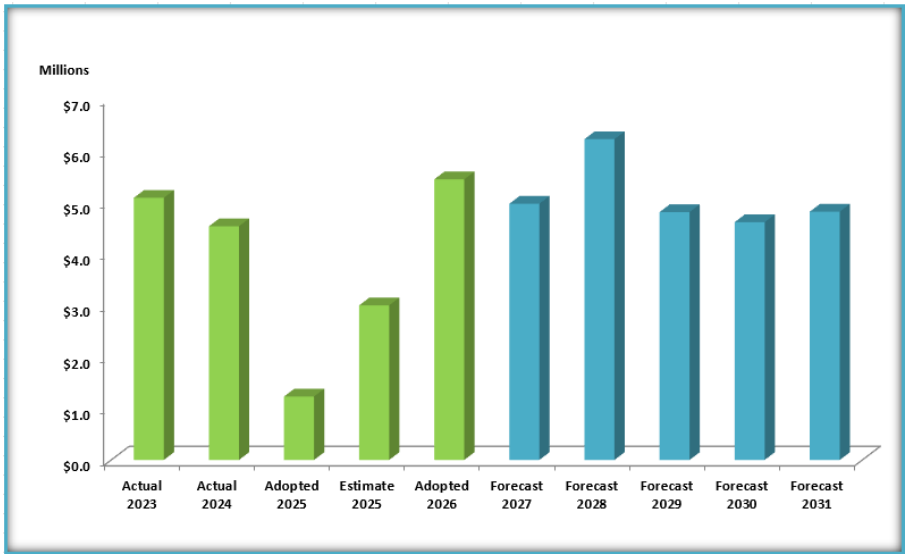

This expenditure category is 13.3% of the Adopted General Fund expenditures includes staff training and certifications, liability and property insurance premiums, information technology interfund service charges, and fleet related operating charges. The Adopted Budget for FY 2026 is $69,014,226, which represents a 1.6% increase from the FY 2025 Adopted Budget. This expenditure category is expected to grow at an average annual rate of 3.7% due primarily to ongoing maintenance costs associated with technology improvements that the City is implementing.

General Fund – Five Year Financial Forecast Expenditures, continued

Capital Outlay

This expenditure category accounts for all the City's fixed assets that are durable in nature, cost at least $5,000, and are typically one-time expenditures. The Adopted Budget for FY 2026 includes $5,438,837 in operating capital expenditures, which is 1.0% of the General Fund expenditures. Future year projections are based on established equipment replacement plans. Capital outlay is not the same as a capital project. The Community Investment Plan is a separate budget for capital projects that have a useful life of ten years or more and a value of $100 thousand or more. It is funded through a transfer to the General Capital Projects Fund. The General Fund's contribution to the Community Investment Plan (CIP) for FY 2026 is $16.3 million and is projected to be programmed at an average of $29.5 million per year in future years.

The City currently has two community redevelopment areas, which have received annual property tax revenue growth from their respective areas since their creation, also referred to as the increment. The General Fund transfers the increment every year to the City's Community Redevelopment Agency (CRA). The CRA has the sole purpose to finance and redevelop the City's designated redevelopment areas, which include the following two distinct CRA areas: Northwest-Progresso-Flagler Heights (NPF) and Central City. The individual CRAs were established in 1995, and 2012, respectively.

The Adopted Budget for FY 2026 includes a transfer of $7.2 million from the General Fund to the two CRAs. Starting in FY 2026, the transfer to the Northwest-Progresso-Flagler Heights CRA was reduced to 50% of the City's previous Tax Increment Finance (TIF) contribution based on the property valuations, following a vote by the City Commission to extend the CRA for 10 years.

Airport Fund – Financial Forecast

Revenues

The Fort Lauderdale Executive Airport (FXE) derives much of its income from two (2) sources: land leases and aviation leases. These income streams represent long-term contracts between FXE and third-party lessees.

Expenditures

Operating expenses include personnel services costs, operating and maintenance costs, and minor capital outlays. In each year of the forecast, spending execution rates of 100% were assumed for all personnel services, operational expenses, as well as for all budgeted and projected minor capital outlays.

Community Investment Plan (CIP)

CIP projects represent the ongoing improvements of FXE and rehabilitation of existing infrastructure. An average additional annual capital spending of $1.1 million was assumed for FY 2031 – FY 2035.

Key Assumptions/Considerations

The City should continue to fully utilize grants from the Federal Aviation Administration (FAA) and Florida Department of Transportation (FDOT) to fund capital projects.

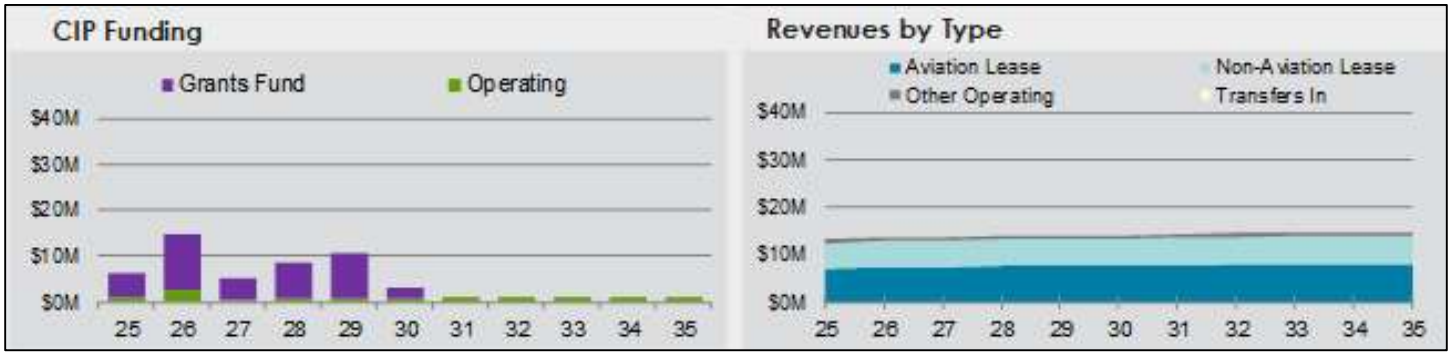

Results

It is anticipated that the Airport Fund will generate sufficient revenues throughout the projection period to fund the ongoing O&M costs, capital improvement projects, renewal and replacements (R&R), and reserve requirements of the fund. The current financial projections indicate that the forecasted net operating cash flow levels will continue to sustain the fund's operating reserve target, at least until FY 2035. Nevertheless, the City should continue to manage expense levels in the future, as the fund's revenue streams are generally limited to land and aviation leasing activities. This only allows periodic revenue adjustments through two (2) adjustment mechanisms: inflationary Consumer Price Index (CPI) increases and new lease contracts.

FAMS Financial Analysis & Management System | By Stantec

FT. LAUDERDALE - EXECUTIVE AIRPORT

	FY 2025	FY 2026	FY 2027	FY 2028	FY 2029	FY 2030	FY 2031	FY 2032	FY 2033	FY 2034	FY 2035
Net Cash Flow	2.28	1.05	2.55	2.33	1.11	2.01	1.31	1.01	0.79	0.37	(0.11)

Building Fund – Financial Forecast

Revenues

The three (3) main revenue drivers for the fund consist of building permits, reinspections or penalties, and other permits. Other minor revenue sources utilized in this analysis include the following: interest earnings, operating revenues from miscellaneous fees, and building certification/technology fees.

Expenditures

Operating expenses include personnel services costs, operating and maintenance costs, and minor capital outlays. In each year of the forecast after FY 2026, spending execution rates of 100% were assumed for all personnel services, operational expenses, as well as for all budgeted and projected minor capital outlays.

Key Assumptions/Considerations

Florida law limits the fund balance a local government may carry forward to an amount not exceeding the average of its operating budget for enforcing the Florida Building Code for the previous four (4) fiscal years. To satisfy all these requirements throughout the entire projection period, the fees (revenues) should be trued up to cost over time to maintain financial sustainability in the fund.

Additional building permit revenue is anticipated based on the construction of Sears Town, averaging $1.5 million annually through FY 2029, and Bahia Mar, averaging $4.4 million annually through FY 2031.

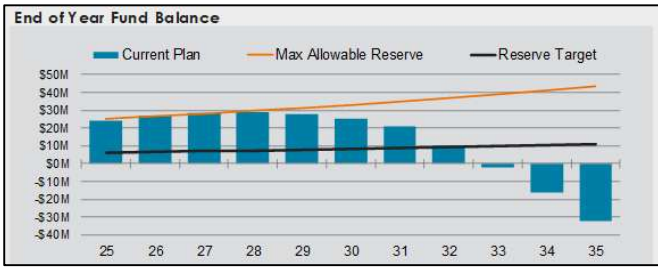

Results

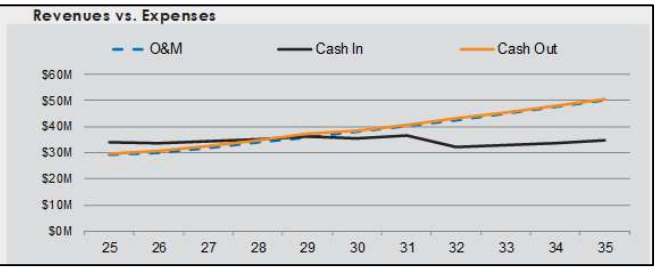

The Building Fund is projected to require annual 3.0% increases in rates for the forecast period to generate sufficient revenue to satisfy its annual operating expenses, capital improvement requirements, debt service, and operating reserve requirements. Fees (i.e., revenues) should be routinely trued up to cost over time to maintain financial sustainability in the fund. The fund should aim to increase its operating reserve target for the 10-year forecast period to match the requirements of Florida Statute 553.80. The new target fund balance will allow staff to develop plans to incrementally reduce expenses should there be significant changes in building activity related to an economic downturn.

Combined Fund Cash Flow	4.29	2.96	1.64	0.62	(1.12)	(2.85)	(4.25)	(10.87)	(12.40)	(14.06)	(15.86)

Central Regional Wastewater Fund – Financial Forecast

Revenues

Revenue sources utilized to support this fund consist of rate revenues, other operating revenues from miscellaneous service charges, and interest earnings.

Expenditures

Operating expenses include personnel services costs, operating and maintenance (O&M) costs, and minor capital outlays. In each year of the forecast after FY 2026, operational expenses were executed at 98% of budget to reflect historical norms. Personnel services and capital outlays were assumed to be executed at 100% throughout the projection period.

Community Investment Plan (CIP)

The City's agreements with the members of the Central Region also include the requirement for the City's wastewater consulting engineer to prepare an annual schedule of projected facility renewal and replacement (R&R) costs over a 20-year span for the Utility. The CIP funding allocated annually is based upon this study.

Debt Service

The debt service reflects the annual principal and interest requirements associated with the City's outstanding Revenue Bonds (Series 2016, Series 2018, and Series 2021) and State Revolving Loans (SRF).

Key Assumptions/Considerations

The regional rate is determined by the regional partners each year and will be adjusted to generate sufficient revenue to satisfy the Utility's annual operating expenses, R&R requirements, debt service, and operating reserve requirements through FY 2035.

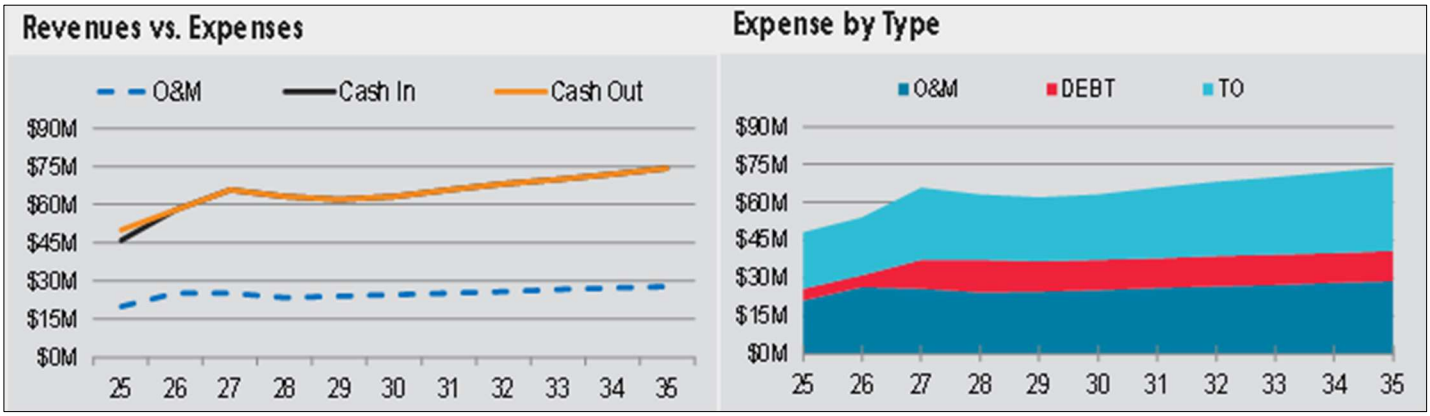

Results

Given the FY 2026 rate, the system will generate sufficient revenues to cover ongoing O&M, R&R, reserve targets, and debt service coverage requirements of the Utility. The Central Wastewater Region Large User Advisory Board voted and approved a rate of $3.22 per 1,000 gallons of wastewater treated representing a 37-cent increase from the FY 2025 rate at their July 30, 2025, board meeting.

Central Regional Wastewater Fund – Financial Forecast, continued

Parking Fund – Financial Forecast

Revenues

To forecast parking revenues, this analysis projected revenues for each individual City parking lot and garage in conjunction with input from staff.

Expenditures

Operating expenses include personnel services costs, operating and maintenance (O&M) costs, and minor capital outlays. In each year of the forecast, spending execution rates of 100% were assumed for all personnel services, operational expenses, as well as for all budgeted and projected minor capital outlays.

Community Investment Plan (CIP)

The Community Investment Plan projects represent the ongoing improvements of the City's parking facilities and replacement of existing parking assets. The analysis assumes an average annual appropriation of $1.5 million for renewal and replacement (R&R) expenses related to parking garages and lots between FY 2031 – FY 2032, $1.0 million for FY 2033 and $500,000 for FY 2034. The CIP includes $7 million in cash funded capital costs for the Federal Courthouse in FY 2026.

Debt Service

The debt service reflects annual debt service payments throughout the projection period associated with the City's outstanding Energy Service Company (ESCO) financing through FY 2029.

Key Assumptions/Considerations

This model accounts for additional metering activity driven by urban core expansion, new surface lots, increased parking activity, and operational costs, due to the opening of the new Federal Courthouse starting in FY 2028. Beginning in FY 2028, it assumes annual staffing and operating costs of $250,000 and projected annual revenues of $1 million.

The model includes total revenue growth estimates of 7.9% in FY 2027, and then 1.3% for remainder of the forecast.

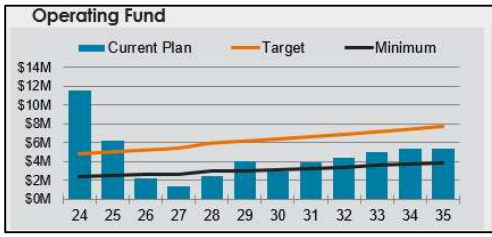

Results

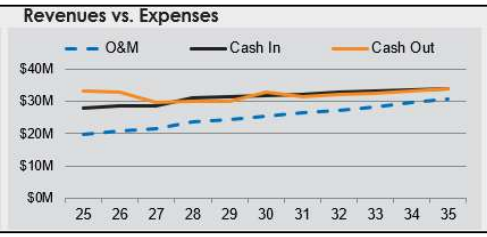

Based upon the Parking Fund's fee structure, the City is projected to generate sufficient revenues to maintain a healthy fund balance and satisfy the Fund's annual operating expenses, capital improvement requirements, debt service, and operating reserve requirements in each year of the forecast.

Revenues

Revenue sources consist of collection fee revenues, other operating revenues from miscellaneous service charges, interest earnings, and intergovernmental transfers.

Expenditures

Operating expenses include personnel services costs, operating and maintenance (O&M) costs, and minor capital outlays. In each year of the forecast, spending execution rates of 100% were assumed for all personnel services, operational expenses, as well as for all budgeted and projected minor capital outlays.

Key Assumptions/Considerations

Sanitation rates include an annual increase of 5% for the forecast period which are aligned with the new contractual rates. Based upon the assumptions and data described herein, the 5% annual rate increase will generate sufficient revenue to satisfy the Sanitation Fund's annual operating expenses. The projection assumes $13.3 million in General Fund Franchise Fees will continue to be transferred into the Sanitation Fund annually. Additionally, $60,000 in additional annual expenses starting in FY 2028 for the new City Hall.

The financial management plan presented in this report assumes that the City will maintain a minimum fund balance equal to the targeted three (3) months of annual O&M expenses.

Results

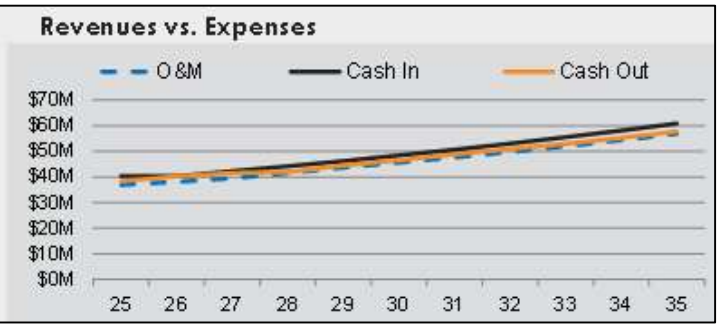

It is anticipated that the Sanitation Fund will require revenue adjustments throughout the projection period to provide sufficient revenues to fund the ongoing O&M costs, capital improvement projects, R&R costs, debt service, and reserve requirements of the fund.

Stormwater Fund – Financial Forecast

Revenues

Revenue sources utilized consist of stormwater user fee revenues, other operating revenues from miscellaneous service charges, and interest earnings.

Expenditures

Operating expenses include personnel services costs, operating and maintenance (O&M) costs, and minor capital outlays. In each year of the forecast after FY 2026, spending execution rates of 95% were assumed for all fixed operating expenses, while execution rates of 100% were assumed in all years for all personnel service expenses and budgeted/projected minor capital outlays.

Community Investment Plan (CIP)

The Community Investment Plan projects include two types of projects. The first is the normal ongoing renewal and reinvestment in the existing system, which is paid out of cash flow. The second is larger generational investments identified in the City's Stormwater Master Plan, funded primarily through the issuance of municipal revenue bonds.

The Community Investment Plan includes $3.75 million in annual capital investments for the Watershed Asset Management Plan through FY 2029.

Key Assumptions/Considerations

Customer growth from FY 2026 through FY 2035 was projected, assuming an average increase of 0.25% in revenue due to net customer growth in the residential category, commercial category, and the unimproved land category.

Debt issuances are planned for FY 2026, 2029, 2032, and 2035 to support ongoing and future master plan projects. To meet the associated debt service obligations, rates are projected to increase by 15% in FY 2026, followed by annual increases of 20% in FY 2027 and FY 2028. From FY 2029 through FY 2032, annual increases are expected to moderate to 15%, and then to 10% annually for the remainder of the forecast period.

New capital investments are expected to lead to increased operating and maintenance costs. The financial model assumes $800,000 in additional operating costs starting in FY 2027, rising to $1.9 million by FY 2035.

Results

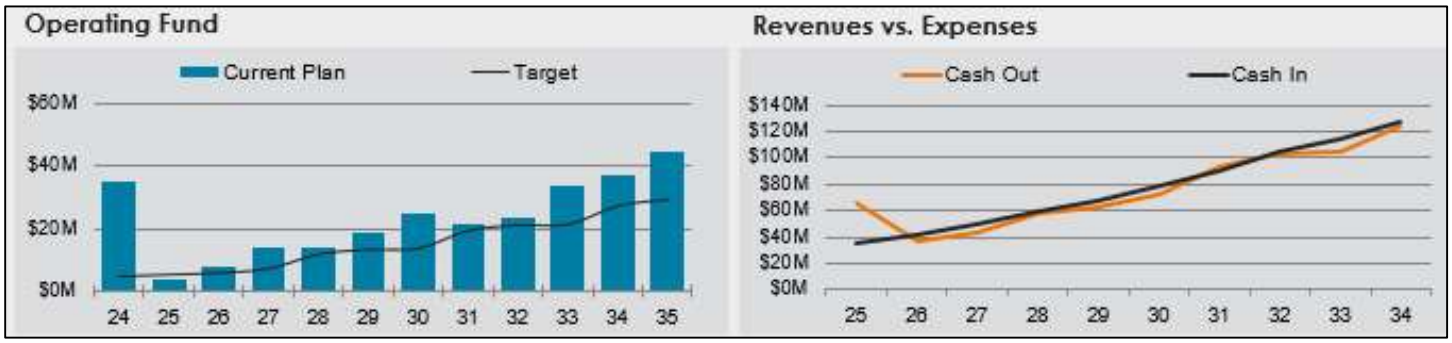

It is anticipated that the Stormwater Fund will require revenue adjustments throughout the projection period to provide sufficient revenues to fund the ongoing O&M costs, capital improvement projects, R&R costs, new debt service, and reserve requirements of the fund.

Stormwater Fund – Financial Forecast, continued

Water and Sewer Fund – Financial Forecast

Revenues

Revenue sources utilized consist of rate revenues, other operating revenues from miscellaneous service charges, interest earnings, and capital expansion (impact) fee revenues. Each year thereafter, rate revenues reflect prior year revenue, adjusted for projected growth in equivalent residential units, usage, and applicable rate adjustments.

Expenditures

Operating expenses include personnel services costs, operating and maintenance (O&M) costs, and minor capital outlays. In each year of the forecast, except for FY 2027, spending execution rates of 100% were assumed for all personnel services, operational expenses, as well as for all budgeted and projected minor capital outlays. For FY 2027, a spending execution rate of 95% was assumed for operational expenses.

Community Investment Plan (CIP)

Capital improvement projects support both the expansion of the system and the replacement of aging infrastructure. The analysis incorporates planned debt issuances of $183 million in FY 2027 and $100 million in FY 2032, in current dollars, consistent with the City's 2017 Master Plan. The City plans to issue interim financing prior to each bond issuance to ensure timely project delivery and maintain adequate cash flow for ongoing capital activities. In addition, the analysis assumes an average targeted annual cash-funded contribution of $38.1 million for the FY 2026 – FY 2030 CIP, increasing to an average of $65.4 million annually beginning in FY 2031 and continuing through the remainder of the forecast period.

Debt Service

The debt service reflects the annual principal and interest requirements associated with the City's outstanding Water & Wastewater Revenue Bonds: Series 2016, 2018, 2021, 2023, and 2024. The debt service also reflects the City's existing annual State Revolving Fund (SRF) debt service. Annual existing Debt Service levels are approximately $69.6 million in FY 2025.

Key Assumptions/Considerations

- The analysis includes two new issuances of debt, in FY 2027 with a par value of $183 million and in FY 2032 with a par value of $100 million.
- The City is in the process of transitioning its water meters to Advanced Metering Infrastructure (AMI) which, once implemented, is expected to result in contractual savings of $1.4 million annually, starting in FY 2028. An associated 1.75% increase in sales revenue from billed volumes is assumed to start by FY 2027.
- The analysis also incorporates $900,000 for the Water and Sewer fund's share of the new City Hall allocation, beginning in FY 2028, along with the assumed rent reduction of $480,000 based on current lease agreements.
- The Prospect Water Treatment Plant is scheduled to begin operations at the end of FY 2026, and the current budget includes an initial appropriation to support partial-year activity. The forecast assumes an increase of $6.6 million in FY 2027 to reflect full-year operating costs, including chemicals, electricity, and personnel. Subordinate debt totaling $29.4 million is incorporated in FY 2027, increasing to $40.4 million by FY 2035.
- A blended 7% rate increase, in FY 2027, will provide sufficient funding to support the ongoing debt and future operating costs associated with the new water treatment plant. Subsequent years include a 5% rate increase for the remainder of the forecast.

Results

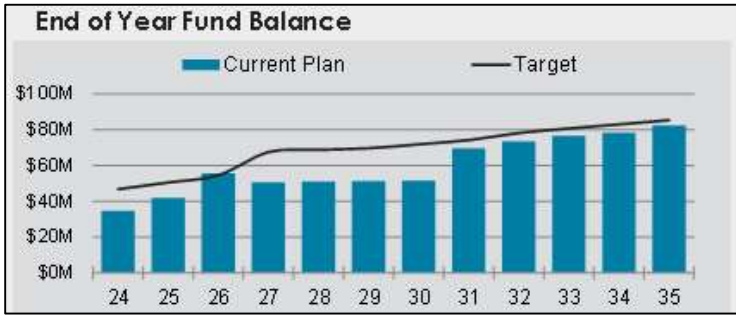

It is anticipated that the Utility will require revenue adjustments throughout the projection period to provide sufficient revenues to fund the ongoing O&M costs, capital improvement projects, R&R costs, new debt service, and reserve requirements of the fund.

FINANCIALS

Financials Introduction and Overview

The following fund summaries present financial information through comparative schedules, tables, and infographics detailing revenues and expenditures for the City's Governmental, Proprietary, and Fiduciary Funds. Capital Project summaries are not included in this budget book but can be found in the Community Investment Plan.

Fund summaries are divided into the following sections: revenues by character sources, expenditures by character, transfers, reserves, and balances.

Where applicable, the financial tables include actual expenditures and revenues for the FY 2024 Actuals, FY 2025 Adopted Budget, FY 2025 Estimate, and the FY 2026 Adopted Budget. The final column in each respective financial table compares the FY 2026 Adopted Budget to the FY 2025 Adopted Budget.

The detailed information provided in this section includes:

All Funds Summary

For FY 2026, the All Funds Adopted Budget, including transfers and reserves, is $1,194,366,687. The All Funds Summary includes:

- ❑ Comparative schedule including FY 2024 Actuals, FY 2025 Adopted Budget, FY 2025 Estimate, and FY 2026 Adopted Budget for all funds revenues and expenditures rolled up
- ❑ Schedule of All Fund Revenues by Object
- ❑ Schedule of All Fund Expenditures by Object
- ❑ Financial Fund Summaries
- ❑ Schedule of Debt Service Requirements

General Fund Summary

The FY 2026 Adopted Budget for the General Fund is $520,425,269. This amount includes a $16.3 million transfer out to the General Capital Projects Fund. The General Fund Summary includes:

- ❑ Schedule of General Fund Revenues by Object
- ❑ Schedule of General Fund Expenditures by Object
- ❑ Comparative schedule including FY 2024 Actuals, FY 2025 Adopted, FY 2025 Estimate, and FY 2026 Adopted Budget for the General Fund revenues and expenditures rolled up
- ❑ General Fund Transfers

City of Fort Lauderdale Long Term Debt Obligations

The City of Fort Lauderdale primarily uses debt to fund capital and infrastructure improvements. The useful life of these purchases spans over many years, making it appropriate that those who enjoy the benefits should also pay the costs. The City has issued debt for the recapitalization of existing assets, most of the Water and Sewer Master Plan, the replacement of nine existing fire stations, the addition of one new fire station, the addition of a new police headquarters, and for the revitalization of City parks. The solid financial position of the City, along with the application of current financial management practices, has permitted the City to obtain very favorable bond ratings and secure low interest rates.

The ratings and opinions of Wall Street's leading credit rating institutions signal robust confidence in the financial management of the City of Fort Lauderdale. High bond ratings enable the City to borrow and repay money at much lower interest rates, which translates into millions of dollars in savings for taxpayers and ratepayers. Our fiscal discipline and vigilance have been instrumental in building a strong financial foundation, and positioning Fort Lauderdale for a bright future. This success does not happen by chance – it is the direct result of innovation, long-term planning, dedication, and continuous process improvement.

BOND RATINGS

The Key to the City of Fort Lauderdale's Top Credit Ratings on Bonds

- ✓ **Very strong:** Budgetary flexibility
- ✓ **Very strong:** Liquidity
- ✓ **Very strong:** Economy
- ✓ **Very strong:** Management
- ✓ **Very strong:** Full value per capita
- ✓ **Strong:** Institutional framework
- ✓ **Strong:** Budgetary performance
- ✓ **Adequate:** Debt/long-term liabilities

Standard and Poor Global, Inc.

S&P Global Ratings assigned the 'AAA' rating for the bonds listed below.

- Series 2022A General Obligation bonds
- Series 2022B General Obligations refunding bonds Series
- 2023A Stormwater Special Obligation bonds
- 2025 Special Obligations Public Safety and Municipal Improvements bonds

The S&P report also diagnosed the City's outlook as stable, noting very strong, robust reserves, positive operations, and a trend of economic stability.

Score: AAA

"Environmental risks are elevated in Fort Lauderdale given its coastal exposure, which makes it more susceptible to severe weather events. However, we believe the city has taken a proactive approach to mitigating these risks and incorporating this approach into its capital and financial planning, which we view as a positive governance factor for the City.

The city's strong economic and financial trends will continue, and available reserves will remain in excess of a formal fund balance policy and sizable on a nominal basis. We expect the City will continue to maintain its forward-looking financial and risk management practices."

Moody's Investors Service, Inc.

Moody's Ratings assigned the 'Aa1' rating for the bonds listed below.

- Series 2022A General Obligation bonds
- Series 2022B General Obligation refunding bonds
- 2025 Special Obligations Public Safety and Municipal Improvements bonds
- Existing Unlimited Tax General Obligation bonds

The Moody's report also diagnosed the City's outlook as stable, noting a substantial commercial/office presence, a large retiree population affecting median income reporting, as well as future considerations such as inflationary pressures, new water plant construction costs, and pension expenses.

Score: Aa1

"The Aa1 issuer rating reflects the city's healthy finances, with significant liquidity and reserves across its governmental and business activities funds.

The issuer rating reflects the city's ability to repay debt and debt-like obligations without consideration of any pledge, security or structural features."

Source: City of Fort Lauderdale's 2024 Annual Report to Bondholders published August 22, 2025 and subsequent rating agency press releases.

The City of Fort Lauderdale issues debt to fund investment in capital assets, which are used to provide services to the City of Fort Lauderdale neighbors, such as land, buildings, improvements, infrastructure and equipment. In addition to infrastructure improvements, the City issued Pension Obligation Bonds to cover a significant portion of the City's unfunded pension liabilities.

The resources needed to pay the debt service comes from future revenues. The City's Debt Management Policy establishes targets for debt, as well as spending to ensure future flexibility. As of September 30, 2025, the City will have $1.4 billion in total outstanding debt.

GENERAL OBLIGATION BONDS

General obligation bonds are issued upon voter approval of specific purposes/projects and amounts. These bonds are backed by the full faith and credit of the City. The City adopts an ad valorem (property tax) millage to pay debt service costs on voter approved debt. The revenue collected from the debt levy is deposited into the debt service fund.

In FY 2011, the City issued General Obligation Bonds, in an amount not to exceed $20,000,000, to provide funds to pay a portion of the cost of the acquisition, design, construction, development, improvement, equipping and furnishing of certain new fire rescue facilities and the costs of issuance of the Series 2011A Bonds. On December 21, 2022, the General Obligation Bonds Series 2022B was issued at $7,950,000 for the purposes of (i) providing for a current refunding of a portion of the City's outstanding General Obligation Bonds Series 2011A (Fire Rescue Facilities) and (ii) paying costs of issuance related to the 2022B Bonds. The issue provides for semi-annual principal and interest payments at a rate of 5.0% and a final maturity of July 1, 2035.

In FY 2015, the City issued General Obligation Bonds, in the amount of $15,220,000, to provide for the refunding of all the City's outstanding General Obligation Bonds, Series 2005 (Fire Rescue Facilities) and pay certain costs of issuance of the Series 2015 Bonds. The issue provides for semi-annual principal and interest payments, with interest rates ranging from 3.0% to 4.0% and a final maturity on July 1, 2035.

On March 12, 2019, Fort Lauderdale voters approved a bond referendum to issue General Obligation ("GO") Bonds, in an amount not to exceed $200,000,000, to finance the acquisition, construction, renovation and improvement of various parks and recreational facilities. The City issued the first installment of $75,755,000 in General Obligation Bonds, Series 2020A on January 28, 2020. On December 21, 2022, the City issued the second tranche of $53,895,000 in General Obligation Bonds, Series 2022A. The proceeds from the sale of these two debt issuances are being used to finance the cost of development, design, acquisition, construction, equipping, installation, improvement and furnishing of certain Parks and Recreation Projects within the City. The Series 2020A issue provides for semi-annual principal and interest payments with interest rates ranging from 2.125% to 5.0% and a final maturity on July 1, 2049, while the Series 2022A issue provides for semi-annual principal and interest payments with an interest rate of 5.0% and a final maturity on July 1, 2052.

On March 12, 2019, Fort Lauderdale voters approved a bond referendum to issue General Obligation ("GO") Bonds, in an amount not to exceed $100,000,000, to finance the acquisition, construction, renovation and improvement of various police and public safety facilities. The City issued $92,290,000 in General Obligation Bonds, Series 2020B. The proceeds from the sale are being used to finance the cost of development, design, acquisition, construction, equipping, installation, improvement and furnishing of certain Police and Public Safety projects within the City. The issue provides for semi-annual principal and interest payments with interest rates ranging from 2.25% to 5.0% and a final maturity on July 1, 2049. In FY 2026, the City intends to issue the third, and final, tranche of $60 million in General Obligation Bonds to finance Parks and Recreation Projects.

SPECIAL OBLIGATION BONDS

The Special Obligation Bonds are secured through a pledge of designated non-ad valorem tax revenues, consisting of communications services tax, public services tax, guaranteed entitlement and business tax and a covenant to budget and appropriate.

On August 4, 2020 the City issued proceeds for the Series 2020 Bonds for the purpose of providing funds to (i) advance refund and defease a portion of the City's outstanding Taxable Special Obligation Bonds, Series 2012, for the Pension Obligation Bonds (the "Series 2012 Bonds"), originally issued in the aggregate principal amount of $337,755,000 and, prior to issuance of the Series 2020 Bonds, outstanding in the

aggregate principal amount of $209,360,000; and (ii) pay certain costs of issuing the Series 2020 Bonds. The City issued $167,155,000 in Taxable Special Obligation Refunding Bonds, Series 2020 with interest rates ranging from 0.55% to 1.95% and a final maturity of January 1, 2032.

In FY 2026 the City plans to issue Special Obligation Bonds, in an amount not to exceed $115,000,000 to finance Public Safety and Municipal Improvements projects.

SPECIAL OBLIGATION LOANS

The Special Obligation Loans are secured through a pledge of the City's legally available non-ad valorem tax revenues deposited into a sinking fund to pay the principal and interest thereon and any investment earning on sinking fund amounts.

The Series 2011A Bond was issued as a bank loan to provide funds to finance a portion of the cost of the acquisition, construction, renovation, improvement and equipping of certain capital improvement within the City and pay the cost of issuance of the Series 2011A Bond. The issue provides for semi-annual principal and interest payments at a rate of 2.98% and a final maturity on November 1, 2026.

SPECIAL ASSESSMENT BOND

On March 2, 2022, the Special Assessment Bonds, Series 2022, was issued in the amount of $7,900,000 to (i) pay the costs of relocating overhead utility lines, appurtenant equipment, and related improvements; constituting the project in the existing residential community known as the Las Olas Isles Neighborhood ("Las Olas Isles") within the City, (ii) pay capitalized interest on the Series 2022 Bonds through July 1, 2022 and (iii) make a deposit to the Reserve Fund, in the amount of the Reserve Fund Requirement, for the Series 2022 Bonds, and (iv) pay the costs of issuance of the Series 2022 Bonds. The issue provides for semi-annual principal and interest payments with interest rates ranging from 4.0% to 5.0% and a final maturity date on July 1, 2048.

LINE OF CREDIT

On May 23, 2023, the City entered into a Line of Credit agreement to provide interim financing for the construction of a new Police and Public Safety headquarters building and parking garage within the City.

LEASE PURCHASE AGREEMENTS

Lease Purchase (LP) agreements are commonly utilized by the City to finance equipment purchases and contains an appropriation clause – meaning that the agreement is subject to annual appropriation of funds by the Lessee (the City). The Lessor's security in a LP is a lien on the financed equipment and commonly issued as a direct financing between the Lessee and the Lessor (the lender). The term of a LP is agreed upon by the Lessee and the Lessor and is typically based on the useful life of the equipment but could be less based on the finance objectives of the Lessee.

UTILITY SYSTEM REVENUE BONDS

The City issues Water and Sewer System and Stormwater Revenue Bonds to finance capital projects and improvements related to the City's water, wastewater and surface water system. This type of bond is referred to as a Utility Revenue Bond as the debt payments are funded through fees charged to the customers of the water system.

On May 4, 2016, the City issued $158,930,000 in Water and Sewer Revenue Refunding Bonds, Series 2016. The proceeds from the sale are being used to refund the City's outstanding Water and Sewer Revenue Refunding Bonds, Series 2006, Series 2008, and Series 2010 in addition to prepaying two (2) loans obtained from the State of Florida. The issue provides for semiannual payments with interest rates ranging from 2.0% to 5.0% and a final maturity on September 1, 2038.

On February 20, 2018, the City issued $196,035,000 in Water and Sewer Revenue Bonds, Series 2018. The proceeds from the sale are being used to finance certain improvements and upgrades to the City's Water and Sewer System. The issue provides for semi-annual principal and interest payments with interest rates ranging from 3.5% to 4.0% and a final maturity on September 1, 2048.

On June 3, 2021, the City issued $42,170,000 in Water and Sewer Revenue Refunding Bonds, Series 2021. The proceeds from the sale are being used to refund the City's outstanding Water and Sewer Revenue Refunding Bonds, Series 2012. The issue provides for semiannual payments with an interest rate of 1.43% and a final maturity on September 1, 2031.

On August 16, 2023, the Stormwater Utility System Special Assessment Revenue Bonds, Series 2023A were issued in the amount of $88,485,000 to (i) finance costs of improvements to the City's Stormwater Utility System, (ii) payoff the Stormwater Line of Credit with PNC Bank, and (iii) pay costs of issuance related to the 2023A Bonds.

On October 19, 2023, the Water and Sewer Revenue Bonds Series 2023A were issued in the amount of $167,345,000 to (i) finance certain enabling works necessary to facilitate the integration of the new Prospect Lake Water Treatment Plant into the City's Water System and (ii) pay costs of issuance related to the 2023A Bonds. The City also issued the Water & Sewer Revenue Bonds Series 2023B in the amount of $343,820,000 to (i) finance a portion of the costs for the Prospect Lake Water Treatment Plan and (ii) pay costs of issuance related to the 2023B Bonds.

On November 20, 2024, the Water and Sewer Revenue Bonds, Series 2024A were issued to (i) finance costs of improvements to the City's Water and Sewer System consisting of the acquisition, installation and equipping of advance metering infrastructure (AMI), and (ii) pay costs of issuance related to the 2024A Bonds. The City also issued the Water & Sewer Revenue Refunding Bonds, Series 2024B were issued to (i) provide for a current refunding of the City's outstanding Water and Sewer Revenue Bonds, Series 2014 and (ii) pay costs of issuance related to the 2024B Bonds. The 2024 Bonds provide for annual principal payments and semi-annual interest payments with an interest rate of 5.00%. The final maturity date for the Series 2024A Bonds is September 1, 2044 and the final maturity date for the Series 2024B Bonds is September 1, 2035.

STATE REVOLVING FUND LOANS

In order to take advantage of low interest rates, the City is participating in the State of Florida revolving loan program to finance sewer system capital improvements. The City began borrowing funds through the State Revolving Fund (SRF) loan program in 2003. The SRF program has lending rates that are approximately fifty-five percent (55%) of the average for the municipal bond cost index. The low market rate makes this financing source attractive though there are additional administrative costs associated with the SRF loan program. The source of funding has been limited because of demand and other circumstances beyond the City's control.

The City maximized its use of this funding source, which is projected to result in reduced costs of approximately $30 million over the life of the loans when compared to revenue bonds. The City has executed SRF loan agreements totaling almost $104 million, with approximately $102 million available for capital improvement funding, of which nearly all available funds have been expended.

In 2016, all amounts outstanding for two (2) of the City's five (5) SRF loans, were prepaid by part of the proceeds from the Water and Sewer Revenue and Revenue Refunding Bonds, Series 2016. The prepaid loans were the City's first two (2) SRF loans: the 2003 SRF loan, and the 2004 SRF loan. An annual debt service of approximately $3.8 million for the total remaining outstanding SRF loans is payable by the City through FY 2028.

DEPARTMENT BUDGETS

Charter Offices and Departments

This section details the offices and departments that make up the governmental structure for the City of Fort Lauderdale. The City government is organized into five (5) Charter Offices, 16 operating departments, and a Community Redevelopment Agency. This section provides an overview of each office and department including the relevant organizational chart, division descriptions, Fiscal Year 2025 major accomplishments, Fiscal Year 2026 major projects and initiatives, strategic goals, select performance measures, and financial summaries.

Below is a brief summary of each office and department that will be highlighted in the Department Budgets section.

City Attorney's Office

Charter Office Description

The City Attorney's Office is the legal advisor and counselor for the City, its elected and appointed officials, boards, departments, and agencies. The Office also responds to legal questions, issues, and requests for information. The City Attorney's Office effectively provides high quality, professional, timely and cost-efficient legal advice and drafting assistance. The primary focus of the City Attorney's Office is to protect the legal interests of the City, minimize liability and future legal problems, support the operations of the City, and accomplish the goals of the City Commission and City Management while ensuring compliance with City, state, and federal laws.

CORE SERVICES

- Advises and assists City staff and the City Commission on a wide variety of legal issues specifically related to their function or, more commonly, to government operations
- Prepares, reviews, and approves all ordinances, resolutions, contracts, agreements, purchase and change orders, and numerous other legal instruments
- Prosecutes violations of City ordinances
- Protects and defends, on behalf of the City, all complaints, suits, and controversies in which the City is a party, or, when required to do so by the City Commission, files any action on behalf of the City
- Furnishes the City Commission or the City Manager, when requested to do so, an opinion on questions of law relating to any legal matter or to the powers, duties, obligations, or liability of any officer or employee of the City
- Reviews and responds to requests and questions relating to Florida's Sunshine Law and Public Records Law
- Advises the Police Department on legal matters relating to enforcement of City, state, and federal laws
- Acts as the legal advisor to any City board or department

City Auditor's Office

Charter Office Description

The City Auditor's Office provides an independent, objective, and comprehensive auditing program of City operations. As an appointed office, it is charged with supporting the City Commission by providing a review of business practices, procedures, internal controls, and procurement practices that are used, employed, and communicated by City government. This is accomplished through comprehensive and professional audits, reviews, and in-depth evaluations performed in accordance with generally accepted government auditing standards.

CORE SERVICES

- Conducts financial, compliance, economic, efficiency, and performance audits of the City government and City officials
- Performs legislative reviews to provide assurance to the City Commission and assist in the decision-making process
- Advises the City Commission on a variety of financial issues
- Serves as a technical resource to City staff and committees for guidance related to accounting, financial reporting, budgeting, and other fiscal activities
- Provides written audit reports to both the City Commission and City Manager

Office of the Mayor and City Commission

Charter Office Description

The City Commission operates under a Commission-Manager form of government. The Mayor is elected at-large, and the four Commissioners are elected by their respective districts. Together, the Mayor and Commissioners set the policies for the effective operation of the City. The administrative responsibility of the City rests with the City Manager, who is appointed by the City Commission.

CORE SERVICES

- Establishes City policies and enacts ordinances, rules, and regulations
- Appoints the City Manager, City Attorney, City Auditor, City Clerk, advisory board members, and City Commission support staff
- Provides leadership and direction for the City's future
- Assures the present and future fiscal integrity of the City
- Provides prompt and courteous response to neighbor concerns
- Adopts the Annual Budget

City Manager's Office

Charter Office Description

The City Manager's Office is a team of professional and diverse public administrators. Operating under the traditional Commission-Manager form of government, the City Manager is appointed by the five-member City Commission and is responsible for the day-to-day operations of the City. The City Manager's Office includes Assistant City Managers as a part of its leadership team as well as the Real Estate, Intergovernmental Affairs, Neighbor Support, and Office of Professional Standards Divisions. The Office's inclusive leadership philosophy is reflective of the City's mission to build community and create a sense of place by ensuring fiscally responsible, neighbor centric, and innovative delivery of services to neighbors, guests, and community stakeholders.

The City Manager's Office resource allocation and initiatives described in this section advance and achieve the following strategic goals and guiding principles to become the "City you never want to leave."

PRESS PLAY FORT LAUDERDALE 2029 STRATEGIC PLAN

Goal 5: Build a beautiful and welcoming community

HIGHLIGHTED PROGRAMS

- City Manager Administration
- Real Estate
- Office of Professional Standards
- Neighbor Support
- Intergovernmental Affairs

City Manager's Office

Administration

Division Description

The Administration Division of the City Manager's Office includes the City Manager and Assistant City Manager positions and, as such, is responsible for the leadership and management of the City's operations. The key functions of this Division also include coordination of the City Commission meeting agendas and administration of the City.

FY 2025 Major Accomplishments

- Advanced plans for a new City Hall
- Implemented a Teachers of the Year program and commemoration
- Issued $60 million of revenue bonds to allow acceleration of key infrastructure needs including seawalls, sidewalks, bridges, and roadway resurfacing
- Completed Collective Bargaining Agreements with Federation and Teamsters
- Approved a Scholarship Fund Agreement with the Broward Education Foundation to annually fund 12 student scholarships to be divided between six (6) Fort Lauderdale Public High Schools

FY 2026 Major Projects and Initiatives

- Complete construction of the new Police Headquarters
- Complete construction of the new Prospect Lake Clean Water Center
- Relocate City Commission meetings back to City facilities
- Launch the Barrington Irving Technical Training School (BITTS) at the Fort Lauderdale Executive Airport

City Manager's Office

Real Estate

Division Description

The Real Estate Division is responsible for administering the City's real estate portfolio. The Division oversees the City's transactions and assets and provides guidance on managing resources wisely and efficiently. Additionally, the Division ensures that all leases, acquisitions, and dispositions are conducted in accordance with the City Charter, Policy and Standards Manual, and Florida Statutes when necessary.

FY 2025 Major Accomplishments

- Secured new and amended lease agreements and managed existing leases that collectively generate approximately $3.6 million in annual revenue for the City, including long-term ground leases
- Transferred two (2) City-owned properties to the Community Redevelopment Agency (CRA) to support affordable housing initiatives
- Transferred two (2) City-owned properties to the Performing Arts Center Authority to enhance cultural arts and promote economic development
- Designated a City-owned parcel and an adjacent privately-owned property as a brownfield area to support rehabilitation and redevelopment efforts for affordable housing
- Negotiated a lease agreement between the North Broward Hospital District and the City of Fort Lauderdale for Broward Health Park at Imperial Point, honoring Dottie Mancini
- Completed negotiations and executed all ancillary agreements required for the YMCA facility at Holiday Park
- Completed lease negotiations for two (2) City-owned waterfront parcels in Dania Beach with the Marine Industries Association of South Florida (MIASF)
- Provided a $640,000 loan as Local Government Area of Opportunity Funding to Pinnacle at Cypress, LLP for the "Pinnacle at Cypress" project, facilitating the development of affordable senior housing in Uptown Fort Lauderdale

FY 2026 Major Projects and Initiatives

- Advance plans to reconstruct a comprehensive City Hall at the current site

City Manager's Office

Neighbor Support

Division Description

The Neighbor Support Division serves as the community connectors for the City. The Division proactively works to build an approachable government across all segments of the community through active listening, collaboration, and engagement. The Neighbor Support Division operates specialized programs focused on community engagement and volunteerism. Through these efforts, the Division creates community engagement opportunities, cultivates strong and strategic partnerships, and connects neighbors with City services.

FY 2025 Major Accomplishments

- Engaged 5,000 volunteers through City-hosted service events resulting in over 11,000 hours of service donated to Fort Lauderdale
- Regularly attended homeowner association (HOA) meetings and events to enhance and extend the City's presence and engagement in the community

FY 2026 Major Projects and Initiatives

- Rebrand Neighbor Support with a focus on civic engagement by creating an internal public sentiment monitoring program, continuing engagement with civic associations, and creating synergy between the City's Customer Service Center to provide management information on trending community concerns

City Manager's Office

Office of Professional Standards

Division Description

The Office of Professional Standards (OPS) Division of the City Manager's Office highlights the City's commitment to celebrating the cultural diversity of neighbors and employees. This Division is responsible for enforcing federal, state, and local laws that make it illegal to discriminate against an employee because of the person's race, color, religion, sex (including pregnancy and related conditions, gender identity, and sexual orientation), national origin, age (40 or older), disability, or genetic information. Professional Standards will provide reasonable accommodation to a qualified individual with a disability when necessary to enable the individual to perform the essential functions of the position unless the necessary accommodation would pose an undue hardship on the City's business operations.

In addition, the Division investigates and resolves complaints by employees of unfair or unjust treatment. Professional Standards serves as the central intake point for employee complaints that have not been successfully resolved at lower levels and determines the appropriate referral for handling such complaints. The Division is also responsible for developing and submitting an Equal Employment Opportunity Plan Utilization Report to the Office of Civil Rights, Office of Justice Programs, U.S. Department of Justice. The Office of Professional Standards serves as a resource for City supervisors seeking assistance in effectively handling employment matters, including conflict resolution, with the goal of resolving problems as early as possible.

FY 2025 Major Accomplishments

- Updated American Disabilities Act (ADA) presentation materials for new employee orientation
- Served on the City's Policy and Standards Manual Governance work group, reviewing and providing input on policy updates for the City of Fort Lauderdale

FY 2026 Major Projects and Initiatives

- Create a procedure manual to standardize the process of handling complaints received by the Division
- In conjunction with the Human Resources Department, develop a Citywide training and education program to enable employees to better prevent workplace discrimination and harassment

City Manager's Office

Office of Professional Standards

	Percentage of ADA accommodation requests resolved	N/A[1]	100%	100%	≥85%	≥85%

[1] *In FY 2023, the Division experienced turnover resulting in limited data reporting; as such, information is unavailable for the reporting period*

City Manager's Office

Intergovernmental Affairs

Division Description

The Intergovernmental Affairs Division serves as a liaison between the City and other levels of government, as well as external stakeholders. It aims to advocate for the City's interests, secure funding and resources, and navigate the complexities of government policies and regulations to benefit the City and its neighbors. The Division plays a crucial role in promoting effective communication, collaboration, and advocacy on behalf of the City within the broader political landscape.

FY 2025 Major Accomplishments

- Secured new federal and state funding for essential programs and projects
- Hosted a delegation from the City's sister city in Duisburg, Germany in March 2025
- Participated in the Tower Club Internationals' event with the Greater Fort Lauderdale Sister Cities International (GFLSCI) organization celebrating existing and new relationships with Germany, Taiwan, and Canada
- Planned and executed a successful trade mission to Constanta, Romania and Thessaloniki, Greece
- Entered in a successful sister city relationship with Iloilo, Philippines
- Secured grant funding from the National League of Cities (NLC) to advance economic mobility initiatives; the funds supported the creation of a microgrant program and the launch of accelerated entrepreneurial business workshops under the StartUp FTL Ideation and Grow cohorts

FY 2026 Major Projects and Initiatives

- Develop and execute a General Consul Meet and Greet Night to develop and strengthen the City's international relations and global connections

Capital Project Department

Department Description

The Capital Projects Department is the City of Fort Lauderdale's central hub for delivering major infrastructure and community investment plan initiatives. These efforts advance the city's long-term goal of creating a more connected, sustainable, and livable community. Established with the adoption of the FY 2026 budget, the Department is comprised of an Administrative Division, a Parks Bond Division, and a Transportation Division. The Parks Bond Division manages investments from the voter-approved $200 million bond to upgrade parks, expand green spaces, and enhance recreational amenities Citywide. The Transportation Division improves mobility through multimodal planning, traffic flow improvements, and partnerships that promote walking, biking, transit, and sustainable infrastructure.

The Capital Project Department's resource allocation and initiatives described in this section advance and achieve the following strategic goals to become the "City you never want to leave."

PRESS PLAY FORT LAUDERDALE 2029 STRATEGIC PLAN

Goal 4: Facilitate an efficient, multimodal transportation network

Goal 5: Build a beautiful and welcoming community

HIGHLIGHTED PROGRAMS

- Capital Projects Administration
- Transportation
- Parks Bond

Capital Projects Department

Administration

Division Description

The Administration Division is responsible for overseeing all functions of the Department, establishing departmental policies, providing leadership to staff, and ensuring the Department's daily operations and long-term projects are aligned with the City's overarching strategic goals. The Division also oversees the preparation of the Department's operating budget and capital projects, ensuring projects are properly funded and financial resources are prudentially utilized. Through oversight of both the Transportation and Parks Bond Divisions, Administration is instrumental in coordinating major capital initiatives, ensuring accountability, fiscal responsibility, and successful project delivery across the Department.

FY 2026 Major Projects and Initiatives

- Establish standard policies and procedures for the newly created Department
- Establish intake and workflow processes for client departments
- Establish a long-term priority list of capital projects and resource allocation for existing projects

Capital Projects Department

Parks Bond

Division Description

The Parks Bond Division is dedicated to overseeing the strategic planning, implementation, and delivery of projects funded by the $200 million General Obligation Bond approved in 2019 to enhance the City's parks system. The Parks Bond program provides funding to improve and upgrade parks, facilities, and amenities throughout the City as well as funding for land acquisition to establish new parks and expand existing green space. These investments are designed to enhance recreational opportunities, promote community wellness, and preserve green spaces for future generations.

FY 2025 Major Accomplishments*

- Completed construction of DC Alexander Park
- Completed construction of several projects to include:
    - Hortt Park
    - Riverside Park
    - Bayview Park
    - Florence C. Hardy Park Playground and Trail Improvements
    - Twin Lakes Park
    - Ann Herman Park
    - Dillard 6-12 Joint Use Improvements
    - Imperial Point entranceway
    - Lake Estates Linear Park
    - Sara Horn Greenway
    - Tarpon Cove Park
    - Cooley's Landing Administration Building Renovation

**FY 2025 Major Accomplishments were completed under the Parks and Recreation Department*

Capital Projects Department

Parks Bond, continued

FY 2026 Major Projects and Initiatives

- Continue progress of the following projects:
  - Complete Phase I of the Holiday Park project that includes the Jimmy Evert Tennis Center
  - Commence construction of Phase II of the Holiday Park project that includes a playground renovation, wayfinding signage, a new dog park, landscaping improvements, and a loop trail
  - Commence construction of the Mills Pond Park Softball Complex Restroom and Concession Project
  - Commence the construction of the Bass Park Community Center project
  - Commence construction at Lockhart Park
  - Complete the Sunrise Middle School Improvements Project
  - Commence construction at Osswald Park
  - Commence construction at Croissant Park
  - Complete Annie Beck Park Improvement Project
- Complete the following funded joint-use playgrounds:
  - Harbordale Elementary
  - Walker Elementary
  - Stephen Foster Elementary
  - Westwood Heights Elementary
  - Rock Island Elementary
  - Virginia Shuman Young Elementary
- Complete the playground renovation projects at the following parks:
  - Esterre Davis Wright Park
  - Palm Aire Village Park
  - Peter Feldman Park
  - Floranada Park
  - Harbordale Park
  - Flamingo Park
  - Guthrie Blake Park

Capital Projects Department

Transportation

Division Description

The Transportation Division is responsible for managing the design and construction of transportation and mobility related capital improvement projects to improve walkability, enhancing traffic flow, and increasing safety. The Division also manages parking-related improvements for both lots and garages.

FY 2025 Major Accomplishments

- Continued the implementation of pedestrian improvements, such as new sidewalks and crosswalks, as noted in the Citywide Sidewalk Masterplan
- Began the design of the Las Olas Concept Vision Plan (East) for the streetscape section between SE 17th Avenue to Seabreeze Boulevard/Florida State Road A1A
- Began construction of the NE 16th Court Traffic Calming project
- Completed design and began construction of the Breakers Avenue Streetscape Project
- Completed construction of lighting improvements as a part of the NE 4th Avenue Streetscape Project
- Continued the design of the Sunrise Lane Streetscape Project
- Began the design of the Shady Banks and Tarpon River Mobility Plan Project, funded by the Complete Streets and Other Localized Initiatives Program
- Began the design of a Surtax funded sidewalk project, which will improve sidewalk connections and gaps in several neighborhoods
- Began the design of a new surface parking lot at Holiday Park
- Completed improvements to the Venice and Pelican parking lots
- Continued construction of parking lot improvements at Galt Lots North and South including milling and resurfacing, landscaping, lighting, drainage, and improved American with Disabilities Act (ADA) compliant ramps
- Completed Phase I of structural improvements to the City Hall Garage
- Completed parking improvements along the Commercial Boulevard corridor
- Completed parking improvements at the Nautical Lot
- Began design of parking improvements along the Oakland Park Boulevard corridor

**FY 2025 Major Accomplishments were completed under the Transportation and Mobility Department*

Community Redevelopment Agency

Agency Description

The purpose of the Fort Lauderdale Community Redevelopment Agency (CRA) is to enhance the quality of life in two target areas: Northwest-Progresso-Flagler Heights (NPF) and Central City. Each CRA was established to reduce or eliminate blight, improve the economic health of the areas, and encourage public and private investments in the designated target areas.

To cultivate positive redevelopment, the CRA orchestrates orderly and progressive business development initiatives to revitalize the physical environment and the economy of the target areas. The CRA also encourages the creation of affordable housing and produces events and seminars that foster economic development with the purpose of building a sense of community.

The Central City CRA is generally bounded by 13th and 16th Streets on the north, Sunrise Boulevard on the south, Powerline Road and I-95 on the west, and the Florida East Coast (FEC) Railroad right-of-way on the east. The Central City CRA only receives Tax Increment Funds (TIF) from the City of Fort Lauderdale.

The NPF CRA is located between Sunrise Boulevard on the north, Broward Boulevard on the south, the City corporate limits on the west, and Federal Highway on the east. A portion lying south of NE 4th Street and east of Andrews Avenue between Broward Boulevard and Federal Highway is not included in the NPF CRA. Beginning in FY 2026, the Northwest Progresso CRA only receives TIF from the City of Fort Lauderdale.

The CRA's resource allocation and initiatives in this section advance and achieve the following strategic goal to become the "City you never want to leave."

PRESS PLAY FORT LAUDERDALE 2029 STRATEGIC PLAN

Goal 6: Build a diverse and attractive economy

Community Services Department

Department Description

The Community Services Department is dedicated to enhancing the quality of life for all who live, work, and visit the City of Fort Lauderdale by delivering responsive, inclusive, and community-focused programs. Through its divisions, the Department enhances quality of life by preserving and creating affordable housing, addressing homelessness, fostering economic development, promoting arts and culture, and ensuring exceptional customer service through a centralized customer support system. By aligning these efforts, the Department strengthens community resilience, promotes equitable growth, and deepens connections between neighbors and their local government.

The Community Service Department's resource allocation and initiatives described in this section advance and achieve the following strategic goals and guiding principles to become the "City you never want to leave."

PRESS PLAY FORT LAUDERDALE 2029 STRATEGIC PLAN

Goal 2: Enable housing options for all income levels

Goal 5: Build a beautiful and welcoming community

Goal 6: Build a diverse and attractive economy

Guiding Principle: Customer Service

HIGHLIGHTED PROGRAMS

- Housing Grant Administration
- Homeless Initiatives
- Community Court
- Economic Development
- Cultural Affairs
- Call Center - Citywide
- Call Center – Parking Services
- Business Tax
- Code Compliance
- Vacation Rental Division

Community Services Department

Administration

Division Description

The Administration Division provides executive leadership and strategic direction for the Community Services Department. The Division is responsible for establishing departmental policies, managing departmental operations, and ensuring that resources are effectively allocated to maximize community impact. The Division leads the development of the department's budget, oversees performance management, administers departmental procurement functions, and facilitates coordination across divisions, departments, and with external partners. Additionally, the Division ensures that all departmental activities are aligned with the City's strategic goals and Commission priorities, supporting the delivery of inclusive, community-focused services that enhance quality of life throughout Fort Lauderdale.

FY 2026 Major Projects and Initiatives

- Establish standard policies and procedures for the newly created Department

Community Services Department

Business Tax

Division Description

The Business Tax Division is responsible for the annual billing and collection of Business Tax, which is a tax for the privilege of engaging in or managing any business, profession, or occupation within City limits. The Division is also responsible for enforcing compliance with the Business Tax Ordinance.

FY 2025 Major Accomplishments

- Updated the business tax ordinance to consolidate business categories and streamline the existing fee structure
- Streamlined the business tax application process to address potential change of use issues, shorten the time from initial application to approval, and improve the overall customer experience; additionally, the online application was refined to improve internal processing times for new applications and expedite renewals
- Developed standard operating procedures and training resources to ensure team accountability, enhance training and performance standards, and standardize the response and processing of business tax applications

FY 2026 Major Projects and Initiatives

- Improve the collection of Business Tax revenue by consistently monitoring overdue accounts and expediting enforcement actions for delinquent businesses
- Enhance data quality by implementing data validation and standardization, along with data cleansing and enrichment, to ensure the Civic Platform remains up to date
- Automate reminders via multiple channels to notify businesses and individuals about expiring records, payments, or other information
- Implement a knowledge repository containing documents, guidelines, and resources to ensure the ability for succession planning

Community Services Department

Community Inspections

Division Description

The Community Inspections Division ensures compliance with the City's Code of Ordinances through proactive and reactive enforcement to promote the health, safety, preservation, and enhancement of all property within the City. Effective community enhancement has a positive impact on property values, encourages investment, and raises the overall quality of life within the City. The Division also protects the health, safety, and welfare of neighbors by conducting a comprehensive community enhancement program, which engages neighbors and fosters voluntary compliance efforts to promptly correct violations. The Division provides timely responses to remedy community concerns as well as oversees and administers quasi-judicial boards and hearings as mandated through state requirements for the enforcement of code violations.

FY 2025 Major Accomplishments

- Created a strategic plan to establish clear goals and objectives that guide the Division's processes, prioritize efforts, and allocate resources effectively
- Coordinated with the Office of Strategic Communications to inform neighbors and neighborhood associations of Division initiatives to improve timely compliance
- Collaborated with the City Attorney's Office to reinitiate lien foreclosure as an operational alternative to prompt compliance
- Implemented ongoing neighbor outreach through attendance at community events, satisfaction surveys, and a Community Inspections Division newsletter
- Decreased vacation rental application processing times and increased timeliness of vacation rental inspections through software integration
- Updated Chapter 17 of the City's Code of Ordinances to implement strategies to provide a balanced approach to the administration and enforcement of the City's Noise Control Program in a manner that allows businesses to thrive while assuring a reasonable noise comfort level for neighbors
- Strengthened enforcement of City's Noise Control Ordinance through ongoing training of Code Compliance Officers and continued real time response to noise complaints

FY 2026 Major Projects and Initiatives

- Improve data analytic tools to provide insight into enforcement patterns, complaint trends, and community needs to enable data-driven decision making and strategic resource allocation
- Design and implement targeted programs based on a comprehensive analysis of local issues aimed at addressing unique concerns within specific communities
- Develop a comprehensive online dashboard to provide real-time information on enforcement activities, complaint tracking, and inspection schedules to ensure transparency and accountability
- Implement a centralized repository containing documents, guidelines, and resources to ensure the ability for succession planning

Community Services Department

Cultural Affairs

Division Description

The Cultural Affairs Division champions the advancement of arts and culture, throughout the City of Fort Lauderdale. The Division is responsible for evaluating, planning, and implementing a wide-range of cultural programs and initiatives – such as the Public Art and Placemaking Program – that promote community identity, civic pride, and the City's cultural heritage. In addition, the Division oversees and administers events that celebrate the City's rich artistic community, with the aim of strengthening and expanding Fort Lauderdale's cultural landscape. This Division works closely with organizations and community stakeholders to promote cultural enrichment, support creative initiatives, and showcase the City as a premier cultural destination.

FY 2025 Major Accomplishments

- Expanded the reach and impact of public art initiatives by adding placemaking signage as well as exploring the addition of monumental art pieces in Tunnel Top Park and expansion of the James Winder Laird Arts Park project to encompass additional public spaces within the City
- Facilitated the proliferation of public art by streamlining the permitting process for mural installations and providing increased resources and support for artists seeking to contribute to the City's vibrant visual landscape
- Finalized and implemented an interlocal agreement with Broward County to enhance and broaden the film permitting process, fostering increased collaboration and efficiency in facilitating film production within the City

FY 2026 Major Projects and Initiatives

- Partner with leading cultural institutions to support public art installations and expand community access to art programming through the launch of a public art sponsorship program
- Install a variety of permanent and temporary art installations
- Enhance the Division's initiatives by hiring an Administrative Assistant to deploy public art initiatives

Community Services Department

Customer Support

Division Description

The Customer Support Division plays a pivotal role in the City's commitment to delivering exceptional service to its neighbors and visitors. Established in Fiscal Year 2024, this Division was created with the primary objective of centralizing and streamlining the process of responding to inquiries and service requests from the community. Through dedicated customer service teams, the Customer Support Division ensures a seamless and efficient experience for all who reach out for assistance. This Division not only streamlines the process of addressing neighbor concerns but also enhances responsiveness and the overall quality of service provided. Through this approach, the City of Fort Lauderdale has set a standard for modern urban governance, emphasizing the importance of direct and efficient communication between its administration and the community it serves.

FY 2025 Major Accomplishments

- Created standard operating procedures for customer service processes to encourage cross-training and increase resolution at the time of the inquiry (one call resolutions)
- Created additional training opportunities for Customer Support Center staff to enhance customer service skills and improve customer satisfaction
- Continued to refine FixIt FTL request categories to further encourage public use of the platform
- Created performance dashboards for FixIt FTL requests and Customer Support Center data to inform City decision making

FY 2026 Major Projects and Initiatives

- Develop and formalize a centralized knowledge base to document and share policies, procedures, and best practices among call center teams, while promoting cross-training opportunities to enhance team versatility
- Foster partnerships with operational City departments, through customer support center coordination meetings and collaboration with FixIt FTL liaisons, to improve communication and ensure call center agents are equipped with up-to-date information further providing accurate and timely assistance to the public
- Promote the FixIt FTL platform through community events, targeted social media campaigns, and ongoing internal training to increase awareness and utilization by both neighbors and City staff
- Enhance Division operations through the addition of a Customer Support Division Manager which will oversee the Customer Service Support Center
- Increase neighbor satisfaction by implementing a public evaluation tool which will optimize and deploy an automated call monitoring system

Community Services Department

Economic Development

Division Description

The Economic Development Division drives sustainable growth and prosperity in the City of Fort Lauderdale by serving as the central resource for business support, retention, and expansion. The Division builds partnerships with the local business community, fosters entrepreneurship, and supports the development of small and medium-sized enterprises. Through strategic initiatives, it works to attract investment, enhance the City's economic competitiveness, and promote equitable access to economic opportunities. By aligning policy, planning, and partnerships, the Division plays a vital role in shaping a vibrant, inclusive economy that benefits all neighbors and businesses.

FY 2025 Major Accomplishments

- Developed comprehensive recommendations to the City Commission to evaluate a Commercial Incentive Program
- Expanded the apprenticeship program aligned with the Good Jobs Great Cities program

FY 2026 Major Projects and Initiatives

- Evaluate the creation of an Economic Development Trust Fund to incentivize business development
- Create a comprehensive strategy to revitalize stagnant economic corridors throughout the City
- Enhance the Division's services by hiring a Chief Economic Development Officer, which will oversee all business development functions and address commercial business needs to boost business retention
- Onboard a Management Analyst, which will oversee the statistical reporting and programmatic functions of the Division, and assist in the development and implementation of emerging economic policies

Community Services Department

Housing and Community Development

Division Description

The Housing and Community Development (HCD) Division administers, manages, and implements federal and state grant funded programs, such as the U.S. Department of Housing and Urban Development (HUD) programs and the state funded Florida Housing Finance Corporation (FHFC) Program. These programs include Community Development Block Grants (CDBG); the HOME Investment Partnerships Program (HOME), HOME Investment Partnerships-American Rescue Plan; Housing Opportunities for Persons with HIV/AIDS (HOPWA) which serves the entirety of Broward County; the Neighborhood Stabilization Program (NSP1 and NSP3); and the State Housing Initiatives Partnership (SHIP). These programs enhance the quality of life for low- and moderate- income households within the City by preserving and creating affordable housing. Additionally, the City was awarded funding through the CDBG Grant Disaster Recovery (CDBG-DR) for recovery efforts in response to the April 2023 historic flooding event.

The Housing and Community Development Division has identified a Neighborhood Revitalization Strategy Area (NRSA) through a federal process which focuses on revitalizing the northwest quadrant of the City. This allows the City to strategically channel and utilize federal resources and funding for infrastructure, neighborhood, and business capital improvement projects.

The Division also coordinates key homeless response initiatives – including a community court program, housing navigation services, and emergency shelter resources – which work to collaboratively provide compassionate, effective solutions that support individuals on a path to stability and housing.

FY 2025 Major Accomplishments

- Completed the design and began construction of single-family homes in partnership with the Habitat for Humanity Home Ownership Program
- Issued a request for proposal and selected a vendor for the construction and development of non-congregate shelter, rental units, and supported services for HOME-American Rescue Plan grant qualified populations
- Issued a request for proposal and selected a vendor to implement a wireless broadband pilot project in the Durrs Neighborhood
- Completed the design for rental housing for seniors, advancing construction to potentially begin in 2026
- Provided timely response to House Bill 1365 requests, which prohibits camping or sleeping on public property, meeting the required five-day turnaround
- Secured a permanent location for the Community Court
- Partnered with other government entities to issue state identification cards (IDs)
    - 51 IDs were issued through the Florida Department of Motor Vehicles', Florida Licensing on Wheels (FLOW)
    - Five (5) ID’s were issued through Broward County Clerk of Courts’ Operation Green Light, a driver license reinstatement program for suspended licenses
- Pursued and implemented state and federal grants to address homelessness

Community Services Department

Housing and Community Development, continued

FY 2026 Major Projects and Initiatives

- Develop a new five-year consolidated plan for HUD to assess the City's affordable housing and community development needs and market conditions as well as include options and incentives for economic development
- Create an action plan and associated incentives for the development of Accessory Dwelling Units (ADU) to expand housing options for neighbors
- Develop a marketing plan to educate the public on available affordable housing programs
- Create additional service provider navigation and tracking procedures which will focus on tracking outcomes for Community Court participants
- Develop a safe parking pilot program through a non-profit service agreement

Community Services Department

Department Performance Measures

Strategic Goal	Performance Measure	FY 2023 Actual	FY 2024 Actual	FY 2025 Actual	FY 2025 Target	FY 2026 Target
Goal 2: Enable housing options for all income levels	Number of participants receiving housing benefits	1,023	1,028	2,719	≥1,550	≥1,550
	Number of affordable dwelling units, built for those with very low to moderate income, that received City funding[1]	N/A[2]	79	0[3]	≥137	≥137
	Community Court service provider referral rate[4]	108%	83%	82%	≥90%	≥90%
	Housing Navigation Program (HNP) housing success rate for participants referred to HNP	65%	21%	19%	≥75%	≥25%
	Emergency shelter bed occupancy rate	N/A[2]	N/A[2]	93%	≥75%	≥80%
Goal 5: Build a beautiful and welcoming community	Average number of days from complaint to first inspection	2.2	2.1	2.1	≤2.0	≤2.0
	Percent of code cases originating from proactive code enforcement	N/A[2]	40.3%	35.9%	≥40.0%	≥40.0%
Goal 6: Build a diverse and attractive economy	Number of Kauffman FastTrack Workshop participants	0[5]	13	31	≥15	≥15
Guiding Principle: Customer Service	Customer Support Center call abandonment rate	N/A[2]	7.1%	3.8%	≤5.8%	≤5.8%
	Percent of calls receiving a satisfactory call evaluation	N/A[2]	N/A[2]	N/A[2]	≥95%	≥95%

[1]Data is based on the City's constructed development incentives housing project units and acquired properties from the entitlement fund on an annual basis

[2]New measure, historical information not available

[3] In FY 2025, no acquisitions were handled by HCD and no affordable units that went through the development review process were completed with construction

[4]The service provider referral rate is calculated based on the number of NTAs and walk-ins referred to service providers divided by the total number of NTAs and individual walk-ins that appeared at Community Court

[5]In FY 2023, the Division focused on rebranding and training for FY 2024; as such, no workshops were conducted during this time

Development Services Department

Department Description

The Development Services Department (DSD) includes the Building Services, Urban Design and Planning, Engineering, and Zoning and Landscaping programs. DSD encourages and coordinates the City's growth and promotes well-designed development through sound planning practices focused on livability, urban revitalization, growth management, and historic preservation.

The Department verifies compliance with the Florida Building Code and enforces applicable local, state and federal regulations governing construction and land use. As part of this work, DSD conducts plan reviews, inspections, and issues building permits to support safe and high-quality construction throughout the community.

The Development Services Department's resource allocation and initiatives described in this section advance and achieve the following strategic goals and guiding principles to become the "City you never want to leave."

PRESS PLAY FORT LAUDERDALE 2029 STRATEGIC PLAN

Goal 2: Enable housing options for all income levels

Goal 5: Build a beautiful and welcoming community

Goal 6: Build a diverse and attractive economy

Guiding Principle: Customer Service

HIGHLIGHTED PROGRAMS

- Engineering
- Urban Design and Planning
- Building Permits
- Zoning and Landscaping

Development Services Department

Administration

Division Description

The Administration Division provides all internal support services for the Department, including financial administration, budget management, human resources, organizational development, information technology, employee engagement, performance management, and facilities management. The Division supports the other divisions within the Department to meet operational objectives and intended outcomes.

FY 2025 Major Accomplishments

- Initiated the creation of a succession planning policy by determining its strategic alignment, focusing on current staff conditions, and establishing a framework to ensure leadership continuity and talent development

FY 2026 Major Projects and Initiatives

- Finalize a succession planning policy to guide the Department on creating pathways for internal promotion and retention of historical knowledge
- Establish a process improvement working group by leveraging graduates of the Process Improvement Academy to identify, prioritize, and implement continuous improvement initiatives within the Department
- Create a streamlined process for divisions to submit requests for technological improvements or enhancements, allowing collaboration with the Acceleration Team and other IT professionals to address departmental needs effectively
- Develop an onboarding partner program that pairs new employees with experienced staff members to facilitate a smooth transition into the Department and City, fostering connections and enhancing the onboarding experience
- Develop an inventory control system for all Department supplies and materials to ensure proper management of City resources

Development Services Department

Building

Division Description

The Building Division is responsible for all construction permitting services in the City. The Division provides records, issues permits, and performs building inspections. A major focus of the Division is to ensure that commercial and residential buildings and structures comply with the Florida Building Code (FBC) and all other applicable laws and ordinances. The Division also participates in emergency management and disaster recovery.

FY 2025 Major Accomplishments

- Purchased and implemented software solutions to provide better management of flood risk data and enable the Flood Team to easily search and catalog flood risk documents; this initiative enhances the Division's resiliency efforts and reduces time spent on reviews, increasing efficiency as a result
- Developed one-on-one training opportunities for each discipline and permit intake team to expand employee knowledge and skills
- Expanded building enforcement practices to increase compliance with the Florida Building Code (FBC)
- Collaborated with the Community Services Department to effect uniform enforcement throughout the community
- Launched an upgraded customer portal to interact with Accela that will provide a more user-friendly experience for neighbors and decrease the number of errors when a neighbor initially submits a permit application
- Expanded the Private Provider Program, which allows neighbors the option to outsource inspection and/or plan review services by establishing and maintaining effective communication channels, implementing a system to accurately track and record information, monitor the submission process, and address concerns in a timely manner
- Implemented a short message service (SMS) texting system as a communication tool between customers and inspectors to enhance the responsiveness of inspection services
- Purchased and customized two (2) high water clearance vehicles, suitable for navigating through flooded or debris-covered streets, to strengthen the Department's response capabilities following a severe weather event

FY 2026 Major Projects and Initiatives

- Implement technology enhancements at the Greg Brewton Center Building to support special public meeting requirements and streamline operational improvements
- Continue implementing enhancements, such as a public information program and a substantial damage management plan, to improve the City's Community Rating System (CRS) rating, which will provide a greater discount to Fort Lauderdale neighbors on their flood insurance premiums
- Deploy two (2) high water clearance vehicles to increase response capabilities and allow for timely, safe, and effective flood damage assessments

Development Services Department

Urban Design and Development

Division Description

The Urban Design and Development Division encourages and coordinates and promotes sustainability and livability through quality development and redevelopment. These efforts strive to implement the goals and objectives of the City's Comprehensive Plan, Vision Plan, and Unified Land Development Regulations (ULDR), as well as various master plans and community planning initiatives intended to improve the City's neighborhoods. Urban Design and Development services include the review and processing of development applications for conformity with development regulations and consistency with engineering, zoning and landscaping standards. Services also include the presentation of findings and recommendations before advisory boards, quasi-judicial boards, committees, and the City Commission.

FY 2025 Major Accomplishments

- Initiated a robust public outreach effort to obtain input and consensus on code amendments for mixed use projects on major corridors
- Identified options for amending future land use and zoning for the Miami Road area south of SE 17th Street to support balanced redevelopment near port areas
- Adopted the Uptown Urban Village Transit Oriented Development Land Use Plan Amendment (LUPA) for the Uptown Project Area
- Processed ULDR amendments to the Uptown Zoning Districts to advance implementation of the Uptown Master Plan
- Initiated the Himmarshee District Revitalization Plan, which includes conducting an existing conditions analysis, developing streetscape design concepts, drafting code updates, and identifying best practices for oversight and management of the District
- Finalized amendments to the ULDR notice procedure to expand public participation meeting requirements for Regional Activity Center (RAC) projects; these changes also apply to Site Plan Level III or IV applications that exceed 5% in floor area or height
- Finalized amendments to the ULDR landscaping and tree preservation requirements to strengthen tree protection standards; modifications include stricter criteria for protecting specimen trees, increasing removal fees, and providing credits for retaining and safeguarding trees during development in the Unified Land Development code
- Initiated vision planning for the Sailboat Bend Historic District as the first step in developing a masterplan for the area
- Implemented educational signage and developed a walking tour for the Sailboat Bend Historic District, funded by a State of Florida Division of Historical Resources grant
- Finalized the Citywide effort to rezone all City properties that are used and maintained as a public park or open space to the Parks, Recreation and Open Space zoning district

Development Services Department

Urban Design and Development, continued

- Conducted an architectural resource survey of the Coral Ridge, Bal Harbour, Laudergate Isles, and Dolphin Isles neighborhoods which was funded through a grant from the Florida Division of Historical Resources

FY 2026 Major Projects and Initiatives

- Develop code amendments and illustrative documents for mixed-use development along major corridors
- Conduct public outreach and initiate a Vision Plan for the South RAC to inform future code amendments in cooperation with Broward Health and neighborhood associations
- Conduct outreach for a potential land use plan amendment that catalyzes redevelopment in the Central City Community Redevelopment Agency (CRA)
- Conduct an architectural resource survey of the Edgewood and River Oaks neighborhoods with grant funding from the Florida Division of Historical Resources
- Integrate the issuance of Development Review Committee comment reports into LauderBuild
- Update Development Review Committee application specifications to improve the efficiency of plan reviews
- Continue to update the City's ULDR to conform to new State Statutes and to address City policy concerns
- Adjust future land use and zoning GIS map layers to the latest parcel information
- Amend the Parks, Recreation, and Open Space zoning designation to permit community facilities and utilities to limit the impact on available park space
- Evaluate the Comprehensive Plan in coordination with City departments, using an interactive platform, to determine the success of implementation and identify amendments to achieve the City's strategic plans goals
- Develop a Streetscape Master Plan for the Sailboat Bend Historic District to address challenges identified with the previous vision plan and future hardscape projects, promoting a more pedestrian-friendly, safe, and attractive environment
- Develop a tactical urbanism design and streetscape beautification plan for the Himmarshee Historic District to identify longer-term solutions to the challenges within the area; the plan will inform a final hardscape project to promote a more pedestrian-friendly, safe, and attractive environment
- Amend Code of Ordinances Article 5 to update Special Entertainment District regulations to improve the organization, oversight, and enforcement of these areas

Development Services Department

Department Performance Measures

Strategic Plan Goal	Performance Measure	FY 2023 Actual	FY 2024 Actual	FY 2025 Actual	FY 2025 Target	FY 2026 Target
Goal 6: Build a diverse and attractive economy	Percentage of new commercial applications issued within 180 days from creation	63%	66%	78%	≥78%	≥80%
	Percentage of all permit applications that pass initial intake review	83%	84%	85%	≥85%	≥85%
	Percentage of engineering reviews completed within average review time thresholds[1]	86%	81%	80%	≥80%	≥81%

[1]*The average review time is calculated per application type, based on the average number of workdays from task assignment to completion*

Note: Goals 2 and 5 are currently in development due to the citywide reorganization

Finance Department

Department Description

The mission of the Finance Department is to safeguard the City's assets and financial affairs and provide for the long-term financial stability, integrity, and accountability of the City's financial resources. This Department ensures the expenditure of City funds is conducted in a manner that will instill trust in neighbors and provide the best value to the City.

The Department is a valuable internal financial resource to all City departments and strives to provide excellent service to entities by facilitating purchases and ensuring transactions are in accordance with accounting standards for state and local governments. Additionally, the Department provides timely reporting of information to investors and other external stakeholders. To achieve its mission, the Finance Department provides services through the functions of financial administration, accounting and financial reporting, treasury, payroll administration, and utility billing and collection.

The Finance Department's resource allocation and initiatives described in this section advance and achieve the following guiding principles to become the "City you never want to leave."

PRESS PLAY FORT LAUDERDALE 2029 STRATEGIC PLAN

Guiding Principle: Customer Service

Guiding Principle: Fiscal Responsibility

HIGHLIGHTED PROGRAMS

- Finance Administration
- Central Accounting
- Payroll Administration
- Treasury Accounts Receivable
- Utility Billing and Collections

Finance Department

Administration

Division Description

The Administration Division safeguards the City's assets, executes its financial affairs, and provides for the long-term financial stability, integrity, and accountability of resources. This is achieved by sharing information as well as promoting and adopting sound fiscal and operational practices. The Division oversees the administration, monitoring, and compliance of the City's Procurement Card (P-Card) Program.

FY 2025 Major Accomplishments

- Completed the issuance of Water and Sewer Revenue Bonds Series 2024 (Automatic Meter Infrastructure Project)
- Updated the Travel Policy to enhance controls over business-related travel
- Implemented Phase II of the merchant card fee transition to customers

FY 2026 Major Projects and Initiatives

- Update the Procurement Card Policy
- Implement an electronic travel request reimbursement process
- Oversee financing for the Parking Revenue Bonds – Federal Courthouse Parking Garage
- Oversee financing for $330 million Stormwater Special Assessment Revenue Bonds
- Oversee financing for the last tranche of the Parks General Obligation Bonds
- Implement Phase III of the merchant card fee transition to customers

Finance Department

Accounting and Financial Reporting

Division Description

The Accounting and Financial Reporting Division ensures that financial transactions are properly recorded in accordance with Generally Accepted Accounting Principles (GAAP) and the Governmental Accounting Standards Board (GASB). The Division is responsible for issuing vendor payments and providing stakeholders with timely financial information to ensure accuracy, accountability, and transparency.

The Division is responsible for monitoring capital and non-capital project expenditures along with maintaining fixed assets records. The Division also reconciles bank and trust accounts. Financial data is generated for several audiences using a variety of reporting mechanisms: the State of Florida Annual Financial Report, the Annual Single Audit Report, the Popular Annual Financial Report (PAFR), and the Annual Comprehensive Financial Report (ACFR).

FY 2025 Major Accomplishments

- Recognized by the Government Finance Officers Association (GFOA) for excellence in financial reporting for the FY 2023 Annual Comprehensive Financial Report (ACFR)
- Recognized by the Government Finance Officers Association (GFOA) for preparing a high quality Popular Annual Financial Report (PAFR) for FY 2023

FY 2026 Major Projects and Initiatives

- Implement mandatory GASB Statement No. 101 – Compensated Absences
- Develop and update desk reference job aids for the City's Enterprise Resource Planning (ERP) system and other accounting processes
- Implement electronic vendor invoice processing
- Complete the monthly financial close within 68 days of month-end
- Complete all annual financial reporting within nine (9) months of the end of the fiscal year
- Utilize available publishing tools to facilitate the preparation of the ACFR
- Onboard one (1) Senior Accountant and one (1) Accountant position to support the Community Investment Plan (CIP) and succession planning efforts

Finance Department

Payroll Administration

Division Description

The Payroll Administration Division ensures that approximately 3,000 City employees are paid accurately and on time. The Division ensures that negotiated pay practices are followed, manages required and voluntary deductions, and oversees the withholding earnings payable to various creditors and agencies for garnishments including federal and state tax levies and child support. Additionally, this Division is responsible for the payroll module in the City's ERP system.

FY 2025 Major Accomplishments

- Stabilized Phase II of the ERP system to ensure accurate payroll reporting

FY 2026 Major Projects and Initiatives

- Complete implementation of the City's timekeeping system upgrade

Finance Department

Treasury

Division Description

The Treasury Division manages the City's estimated $1.4 billion investment portfolio, which includes an average of $40 million in cash equity. The Division also oversees the debt management and revenue tracking functions. The Division facilitates the City's debt issuances and assists in obtaining credit ratings. Treasury Division staff work with external advisors, investment managers, bond counsel, and financial advisors to ensure compliance with securities regulations. The Division is also responsible for recording and reporting revenue properly, accurately, and timely in the City's accounting system. Reporting mechanisms include the Quarterly Investment Report to the City Commission and Annual Bondholder's Report. The Treasury Division is also responsible for assisting with financial management of various state, local, and federal grants.

FY 2025 Major Accomplishments

- Evaluated the current banking services agreement for potential product enhancements
- Conducted an annual review of the City's Investment and Debt Management policies
- Enhanced the preparation process of the Schedule of Expenditures for Federal Awards (SEFA) by implementing a precheck process to verify entries, reduce reporting errors, and strengthen engagement with internal stakeholders

FY 2026 Major Projects and Initiatives

- Assist with the Special Obligation Bonds financing for the public safety and municipal improvement projects
- Assist with the financing for $330 million Stormwater Special Assessment Revenue Bonds
- Procure a new 457 retirement savings plan administrator to provide additional investment options for City employees
- Finalize the build-out of the accounts receivable module within the City's ERP system
- Coordinate the implementation of a grant's module within the City's ERP system
- Configure the Schedule of Expenditures for Federal Awards (SEFA) from the financial system

Finance Department

Utility Billing and Collection

Division Description

The Utility Billing and Collection Division is responsible for the accurate and timely billing and collection of utility bills, special assessments, and miscellaneous account receivables monthly. The Division also provides accurate posting of the City's monetary collections and the timely input to the City's financial accounting system. Additional responsibilities include property lien searches and applying liens to properties with delinquent utility balances. The Division strives to deliver excellent customer support to neighbors paying for utility services.

FY 2025 Major Accomplishments

- Cleared $5.8 million in uncollectible tenant-related utility billing accounts from the City's outstanding receivables balances
- Reduced processing time for high-use billing adjustments from 90 to 30 days
- Reduced the average queue (hold) time by 73%, from 14 minutes and 39 seconds to 3 minutes and 56 seconds, through enhanced monitoring and staff training

FY 2026 Major Projects and Initiatives

- Propose an ordinance change to reduce uncollectible debt by allowing only property owners to establish a utility account
- Procure a new utility billing software system that will integrate with the Advanced Metering Infrastructure (AMI) system
- Coordinate with the Public Works and Information Technology Services Departments to implement the new AMI system

Fire Rescue Department

Department Description

Since 1912, Fort Lauderdale Fire Rescue has been dedicated to saving life and property, providing fire prevention, preparedness, and Emergency Medical Services (EMS). Fort Lauderdale Fire Rescue preserves life and property with an exceptional response to calls for emergency assistance within its jurisdiction and partners with neighboring agencies, as part of Broward County's Fastest Unit Response (FUR) program. Fort Lauderdale Fire Rescue engages with the City's community and operates within the highest accreditation standards. The Department holds several accreditations, including but not limited to the Center for Public Safety Excellence (CPSE), Commission on Fire Accreditation International (CFAI), Commission on Accreditation of Ambulance Services (CAAS), Emergency Management Accreditation Program (EMAP), and Insurance Services Office (ISO).

Fort Lauderdale Fire Rescue promotes public safety by educating and engaging the communities of Fort Lauderdale, Wilton Manors, and the Village of Lazy Lake. The dedication of its firefighters and paramedics to fire rescue and emergency services supports an efficient response approach to neighbors, property owners, businesses, and visitors. Fire Rescue operates 12 fire stations and responds to over 54,000 calls annually. Fort Lauderdale Fire Rescue continues to be one of the busiest fire departments within Broward County.

Fort Lauderdale Fire Rescue trains, certifies, and deploys the following Special Operations teams: Hazardous Materials (HazMat), Technical Rescue (TRT), Marine Rescue, Special Weapons and Tactics (SWAT) Medics, and Aircraft Rescue Firefighting (ARFF). The special operations teams are geared toward incidents requiring a unique skill set and certifications across the City.

Fort Lauderdale Fire Rescue's resource allocation and initiatives described in this section advance and achieve the following strategic goal to become "the City you never want to leave."

Fire Rescue Department

Office of the Chief

Division Description

The Office of the Chief encompasses the administrative personnel in the Department, including all sworn non-operations staff, Ocean Rescue, Accreditation, Fire Logistics, Fire Training, Emergency Management, Fire Prevention, and Administrative Support teams. This Division supports Fort Lauderdale Fire Rescue with administrative decision-making, policies, procedures, payroll and timekeeping, data collection, data analysis, community engagement, and risk reduction.

FY 2025 Major Accomplishments

- Maintained overtime expenditures within budget for the second consecutive year using effective staffing, leave time, and scheduling strategies
- Expanded the equipment replacement plan to cover specialty team equipment, ensuring that life safety equipment is replaced strategically and systematically and remains in compliance with industry safety
- Secured grant funding to move forward key initiatives:
    - Assistance to Firefighters Grant (AFG) - provided high rise and incident management training for firefighters
    - Emergency Operations Center (EOC) Safe Room - completed preliminary work to develop detailed plans needed to construct a stand-alone safe room to protect personnel activated during emergency incidents
    - Coordinated Opioid Recovery (CORE) Program - continued 2024 grant funded partnership with the Broward Behavioral Health Coalition to reduce overdoses and enhance public health outcomes in the City of Fort Lauderdale
- Increased community health education through the Mobile Integrated Health (MIH) Program, hosting outreach events focused on overdose awareness, prevention strategies, and the safe administration of Naloxone, a medication designed to rapidly reverse an opioid overdose
- Received the Award of Excellence for the MIH Community Public Education Program, recognizing advancements in patient reunification efforts and enhanced follow-up coordination
- Established partnerships between local hospitals and the Mobile Integrated Health Program to enhance post-discharge patient tracking
- Developed and implemented a Fire Prevention Productivity Power BI dashboard to monitor inspection completion rates, billing performance, and overall revenue generation
- Completed the 2025–2030 Fire Rescue Community-Driven Strategic Plan through collaboration with internal Fire Rescue personnel and external community stakeholders

Fire Rescue Department

Office of the Chief, continued

- Initiated a high-rise sprinkler retrofit program to comply with state standards and National Fire Protection Association (NFPA) codes, ensure safer structures, and reduce master hazard insurance policy premiums
- Digitized accident, exposure, employee evaluation, and injury reporting using ImageTrend incident management software and trained Fire Rescue personnel on the new fire reporting module
- Modernized operational technology through deployment of the FireRMS On-Site Reporting Data Warehouse, full integration of PremierOne CAD with ImageTrend
- Modernized in-vehicle wireless modem infrastructure to ensure faster, more reliable data connectivity across the Fire Rescue fleet
- Completed the implementation of the Fire Rescue internal Computer Aided Dispatch Reporting Data Warehouse (CAD-RDW) to enhance data integration, analysis, and operational reporting
- Supported major community events and outreach initiatives—including Fleet Week, the Fort Lauderdale Air Show, and the Florida Panthers Championship Parade—while promoting public safety through educational campaigns, partnerships with Broward Health, and recognition of firefighter achievements and historical contributions
- Strengthened EMS services by deploying intraosseous drills for advanced patient care, launching the Emergency Medical Tool & Protocol (EMTAP) mobile application to support field operations, securing a Florida Department of Health grant for resuscitation improvements, and standardizing paramedic certification and officer development training to enhance service delivery
- Enhanced operational readiness with regional HazMat and TRT drills, in-house Shipboard Firefighting and Dive Rescue training, and upgrades to six (6) rescue units staffed with supervisors for improved scene management
- Hired and deployed 28 additional firefighters funded through the Federal Emergency Management Agency (FEMA) Staffing For Adequate Fire and Emergency Response (SAFER) grant
- Expanded workforce capacity by completing two (2) new-hire classes totaling 44 firefighters
- Completed the transition of Aqueous Film Forming Foam (AFFF) to a non-perfluoroalkyl and polyfluoroalkyl substances (PFAS) alternative to extinguish aircraft fires; the new foam reduces firefighter exposure to cancer-causing chemicals in PFAS
- Received a United States Lifesaving Association (USLA) educational award to promote water safety
- Completed two (2) four-week Ocean Rescue training classes for new lifeguards; the classes consisted of Emergency Medical Responder (EMR) and United States Lifesaving Academy (USLA) training

Fire Rescue Department

Office of the Chief, continued

- Partnered with the Broward County Office of Regional Communications and Technology (ORCAT) to establish dedicated call signs, enabling direct dispatching and integration into emergency response calls
- Replaced two (2) fiberglass lifeguard towers with new aluminum and stainless-steel structures designed to withstand high winds, provide improved visibility for water surveillance, and offer expanded storage for emergency response equipment
- Transitioned Ocean Rescue reporting from paper to digital using ImageTrend for incident reports, statistics, and employee evaluations, improving accuracy, efficiency, and data accessibility
- Implemented a preventive maintenance schedule for Personal Rescue Watercraft (PRWC) to extend vessel lifespan and ensure operational readiness
- Provided community outreach and education throughout the City of Fort Lauderdale, training over 200 neighbors in hands-only CPR and teaching water safety to more than 100 students
- Hosted Junior Lifeguard Camp, where 120 children were educated in water safety and training in lifesaving techniques

FY 2026 Major Projects and Initiatives

- Award a design/build contract for the construction of Emergency Medical Substation #88 and a contract for the replacement of Fire Station #13
- Explore opportunities to extend the American Red Cross program for displaced neighbors who are victims of fire catastrophes
- Collaborate with the Community Services and Public Works Departments to strengthen Fire Rescue's Community Risk Reduction program by streamlining information sharing, enhancing coordination, and accelerating emergency response efforts
- Provide fire inspectors with digital database access to NFPA codes, offering a quick reference guide for compliance verification
- Complete construction of the new Ocean Rescue Headquarters at the International Swimming Hall of Fame
- Continue the high-rise sprinkler retrofit initiative to ensure ongoing compliance with state regulations and NFPA codes, improve building safety, and help lower master hazard insurance premiums
- Implement an in-house Officer Development Training program to enhance skills such as leadership, incident command, emergency medical, and interpersonal management
- Purchase Class A uniforms for sworn personnel to enhance the professional decorum of staff at City and department-sanctioned events

Fire Rescue Department

Fire Rescue

Division Description

Operations staff are actively deployed field personnel ranging from the rank of Firefighter/Paramedic to Assistant Chief. Operations staff are the front-line members who ride on each emergency unit and rotate on a three-day shift cycle of 24 hours, 365 days per year.

FY 2025 Major Accomplishments

- Finalized the implementation of the Fastest Unit Response (FUR) system in coordination with neighboring agencies to optimize response time deployment across all department calls within Broward County
- Updated 911 dispatch run cards and response profiles to integrate additional three-person medical rescue units, minimizing out-of-zone responses and improving coverage balance
- Implemented a skills sign-off process to verify the ongoing proficiency of the Aircraft Rescue Firefighting (ARFF) team
- Conducted in-house technical rescue, HazMat, and dive classes for specialty teams, while continuing to train personnel in rapid intervention and vehicle extrication to strengthen overall emergency response capabilities
- Participated in mutual aid training exercises coordinated through the Broward Sheriff's Office with the tri-county Maritime Incident Response Team (MIRT) to support training and response efforts for large-scale water emergencies

FY 2026 Major Projects and Initiatives

- Re-engineer the Tablet Command mobile operations platform, which serves as a real-time Incident Command board, to enhance data accuracy and reduce delays in location tracking data
- Refine dispatch operations supporting the Fastest Unit Response (FUR) program strengthening regional coordination with 911 dispatch centers to improve response efficiency
- Conduct an annual in-house United States Lifesaving Association Personal Rescue Watercraft Operator (USLA PRWC) Class, ensuring Personal Rescue Watercraft (PWC) towers are staffed with a certified operator

Fort Lauderdale Executive Airport

Department Description

Fort Lauderdale Executive Airport (FXE) is a General Aviation Airport owned and operated by the City of Fort Lauderdale. FXE's mission is to attract businesses to the area, help tenants prosper, and benefit the community. Located approximately five (5) miles north of downtown, FXE oversees the administration of land leases and property development for over 100 aeronautical and nonaeronautical businesses and manages a 200-acre Industrial Airpark offering more than two (2) million square feet of prime office, warehouse, and manufacturing space as a stabilizing force in the development of the Uptown Business District. FXE is also home to one of the nation's largest fixed-wing aircraft groups. To attract aircraft operators, its essential amenities include four (4) prominent Fixed-Base Operators (FBOs) serving international and local customers, a 24-hour Federal Aviation Administration (FAA) Air Traffic Control Tower, a U.S. Customs and Border Protection (CBP) facility, 24-hour onsite Airport Rescue and Fire Fighting (ARFF) services, and a Fort Lauderdale Police Substation. In addition, FXE administers the City's Foreign-Trade Zone No. 241, which serves as an economic development tool for international commerce and job retention. It also operates the John Fuhrer Downtown Helistop (DT1), a helicopter landing facility in the City's Downtown Business District.

Fort Lauderdale Executive Airport's resource allocation and initiatives described in this section advance and achieve the following strategic goal and guiding principle to become the "City you never want to leave."

Goal 6: Build a diverse and attractive community

HIGHLIGHTED PROGRAMS

- Executive Airport - Administration
- Executive Airport - Operations

Fort Lauderdale Executive Airport

Executive Airport - Administration

Division Description

The Executive Airport – Administration Division is responsible for providing leadership for the Executive Airport. This Division also administers the Department's finances, monitors and processes leases, and manages the capital improvement projects to ensure that the FXE continues to be a leader in general aviation.

FY 2025 Major Accomplishments

- Completed Phase I of a multiphase master drainage program, which included the construction of stormwater drainage improvements adjacent to Airport Parcels 2, 14, 15, 16, 17, 18, and 22
- Completed Phase II of the Decorative Post Sign Project as part of an initiative to replace existing street signs along FXE's perimeter
- Initiated design for the Runway 9-27 Western Extension Project
- Initiated design for the Runway 9 Parallel Taxiway Extension Project (Taxiways Echo to the south and Foxtrot to the north of the runway)
- Completed design for the Taxiway Echo Pavement Rehabilitation Project (east of Runway 13/31)
- Completed design for the Taxiway Bravo and Quebec Realignment Project
- Completed construction of the Runway 9-27 Pavement Rehabilitation Project

FY 2026 Major Projects and Initiatives

- Complete design for the Runway 9-27 Western Extension Project
- Complete an environmental assessment for Runway 9, which is a requirement by the FAA for the proposed runway extension
- Complete the expansion of the Aviation Equipment Safety (AES) building by adding 4,000 square feet to increase the existing storage capacity
- Complete design for the FXE Localizer Relocation Project
- Complete design for the Runway 27 Bypass Taxiways Project (south of the runway)
- Complete construction of the AES Building Maintenance Apron Pavement Rehabilitation Project
- Complete design for the Runway 9 Parallel Taxiway Extension Project
- Complete construction of the Runway 27 By-pass Taxiways Project

Fort Lauderdale Executive Airport

Executive Airport - Operations

Division Description

The Executive Airport – Operations Division is charged with ensuring the seamless management and operational integrity of airport functions. This Division is also responsible for the maintenance, repair, and lifecycle stewardship of critical infrastructure and assets at both FXE and the downtown helistop, supporting safe, efficient, and continuous aviation operations.

FY 2025 Major Accomplishments

- Responded to requests for maintenance within one (1) day, on average, in FY 2025

FY 2026 Major Projects and Initiatives

- Ensure the continued maintenance and repair of facilities and FXE assets at the airport and downtown helistop
- Complete John Fuhrer Downtown Helistop painting and fireproof coating

Fort Lauderdale Executive Airport

Human Resources Department

Department Description

The Human Resources Department partners with City departments to hire, train, promote, and retain a qualified and diverse professional workforce for the delivery of excellent services. The Department is committed to a fair and inclusive recruitment process, provides learning and development opportunities, and administers competitive employment benefits for City staff. Human Resources represents the City in collective bargaining discussions, union grievance hearings, and promotes conflict resolution. The Department also protects the City's physical and financial assets against loss by maintaining effective insurance programs and minimizing the City's exposure to risk.

The Human Resource Department's resource allocation and initiatives described in this section advance and achieve the following guiding principles to become the "City you never want to leave."

PRESS PLAY FORT LAUDERDALE 2029 STRATEGIC PLAN

Guiding Principle: Fiscal Responsibility

Guiding Principle: Inclusivity

HIGHLIGHTED PROGRAMS

- Citywide Training
- Human Resources
- Employee Relations
- Claims Administration
- Benefits Administration
- Classification and Compensation

Human Resources Department

Talent Management

Division Description

The Talent Management Division provides professional and responsive human resource services, including the recruiting, hiring, onboarding, classification, compensation, organizational culture, orientation, and training of a diverse workforce. Outreach extends to the leaders of tomorrow through career expositions, mentoring programs, and partnerships with local organizations to develop apprenticeship programs. Talent Management fosters organizational excellence by providing employees with personal growth and professional development opportunities.

FY 2025 Major Accomplishments

- Implemented enhancements in the utilization of NeoGov computer software that will streamline the application process for candidates and hiring managers
- Implemented a sign-on bonus wage program
- Created a standardized scoring system for oral interviews that provides hiring managers with defined scoring dimensions and implemented rater training
- Revamped Fort Lauderdale policy specific supervisory training for employees promoted to, or newly hired for, a supervisory or managerial role; training is offered quarterly

FY 2026 Major Projects and Initiatives

- Optimize the NeoGov computer software usage to create an improved interview process that will provide a smoother, more transparent experience for candidates, resulting in higher candidate satisfaction and engagement as well as reduced time-to-hire
- Revamp the recruitment scoring process, which will result in standardization of candidate evaluations and produce higher quality hires
- Improve utilization of analytics and reporting functions within the NeoGov computer software to accurately measure recruitment success and create data-driven improvement opportunities for future recruitment strategies
- Create Standard Operating Procedures (SOP) for the Recruitment Unit to guide all aspects of the recruiting and onboarding process and document clear steps, roles, and timelines for recruitment and onboarding
- Initiate an onboarding optimization project to evaluate and redesign workflows, templates, and communication touchpoints to ensure consistency, accuracy, and compliance across departments
- Maintain and expand Cybersecurity Training via coordination with the Information and Technology Services Department and Risk Management
- Reach 100% participation in revised compliance training
- Launch the FTL Teambuilding Academy for employee participation to support departments by improving collaboration and positively impacting innovation and productivity
- Implement the touch-point initiative to support new employees acclimating to City culture and embracing organizational values
- Launch the City TED Talk series - a social platform designed for employees to master delivery of complex ideas and gain public speaking experience

Human Resources Department

Risk Management

Division Description

The Risk Management Division manages programs in the areas of employee safety, loss prevention, property and casualty insurances, and employee benefits. Risk Management protects the City's physical and financial assets against loss by maintaining effective insurance and self-insurance programs, minimizing the City's exposure to risk, providing for appropriate reserve levels, funding incurred liabilities, and providing for the proper cost allocation of incurred losses. Risk Management provides internal investigative services on claims arising out of automobile, general, police professional, and employment practices liability exposures.

The Division conducts safety and regulatory training for employees. Risk Management also supervises workers' compensation and related legal expenditures being handled by a third-party administrator. The Division is responsible for managing employee benefits including medical, dental, vision, life insurance, and other associated coverages. In addition, the Division supervises an employee Health and Wellness Center operated by a third-party administrator and City Hall security guards.

FY 2025 Major Accomplishments

- Upgraded the risk management computer software, which will improve efficiency by allowing the Division to centrally record, analyze, assess, and manage risk across the City
- Reviewed and revised the City's Health Insurance Portability and Accountability Act (HIPAA) policies and procedures
- Completed a claims and cost analysis evaluation on the dash camera program
- Developed and implemented a temporary vehicle repair cost estimating program for City vehicles damaged by other at-fault parties to obtain financial recovery

FY 2026 Major Projects and Initiatives

- Implement liability best practices (i.e., procedures for excellence in claims handling)
- Implement an automated driver’s license verification program through the City’s Enterprise Resource Planning (ERP) software with the Department of Motor Vehicles
- Conduct an independent claims audit of the City's Health Plan
- Conduct an audit of dependents on the City’s medical health plan to verify the proper application of the plan
- Conduct an audit of the City's workers' compensation claims administrator
- Standardize the safety training program to create a mandatory curriculum based upon job requirements of position classifications through a partnership with the Classification and Compensation Division

Human Resources Department

Employee Relations

Division Description

The Employee Relations Division oversees and manages employee relations issues, union contract and policy compliance, conflict resolution, and internal investigations. Employee Relations facilitates and actively participates in labor management, which includes collective bargaining with four (4) labor organizations representing the City's workforce and administering six (6) collective bargaining agreements. Employee Relations consults with and trains managers and supervisors in best employee relations practices and strategies for managing conflicts and employee grievances. In addition, the Division ensures organizational compliance with labor and employment laws, City policies, and procedures. The Division also analyzes and makes recommendations for operational and emerging employer issues and assists management in policy and organizational development.

FY 2025 Major Accomplishments

- Successfully negotiated a successor collective bargaining agreement for the Teamsters Local Union No.769 (2026 - 2028)
- Successfully negotiated a successor collective bargaining agreement for the Federation of Public Employees, a Division of the National Federation of Public and Private Employees (2026 - 2028)
- Hosted contract administration training for stakeholders
- Provided training to supervisors on disciplinary action and personnel rules
- Reviewed the relevance and accuracy of current policies as well as the internal department process for completing updates

FY 2026 Major Projects and Initiatives

- Expand front-line supervisor training regarding collective bargaining agreement (CBA) administration, disciplinary processes, and conflict resolution
- Complete the collective bargaining process for the Fraternal Order of Police (FOP)
- Complete the collective bargaining process for the International Association of Firefighters (IAFF)

Human Resources Department

Classification and Compensation

Division Description

The Classification and Compensation Division is responsible for the City's pay structure. The Division researches competitive compensation practices, analyzes data in the job market, and monitors market conditions and government regulations to ensure that the City's pay rates are current and competitive. The Division also manages the City's job descriptions and ensures they accurately describe the functions of any given position. Classification and Compensation governs the establishment of job classifications and reviews reclassification requests as well as unscheduled meritorious pay increase requests. The Division is also responsible for all matters of Fair Labor Standards Act (FLSA) determination, Family and Medical Leave Act (FMLA) applications, and interpretation of relevant Federal and State statutes as well as local ordinances.

FY 2025 Major Accomplishments

- Implemented the performance evaluation module in the City’s ERP system to expedite the evaluation process
- Implemented a pilot performance evaluation program to better align with the City's values and targeted position responsibilities
- Created new forms used during the reclassification and promotion processes

FY 2026 Major Projects and Initiatives

- Conduct a Classification and Compensation Study and implement recommendations
- Implement the collectively bargained compensation changes
- Implement organizational changes associated with the FY 2026 citywide reorganization that span across multiple departments
- Implement the Laserfiche interface with the City’s ERP to streamline processing of employee documents from Neogov
- Complete an absence-leave balance audit for the Police and Fire Departments to confirm the accuracy of leave balances in the new ERP module

Information Technology Services Department

Department Description

The Information Technology Services (ITS) Department is a centralized internal service provider responsible for securely delivering high quality, resilient, and value-driven, technology and communication solutions to all City departments, Charter Offices, and external state and local government agencies. The Department is comprised of four divisions: Office of the Chief Information Officer, Enterprise Infrastructure and Operations, Security and Governance, and Data and Digital Services.

Through innovation, digital transformation, and service excellence and guided by stakeholder partnerships and business goal alignment, ITS oversees the strategy, management, and execution of technology services for the City. These services include enterprise technology infrastructure (cloud and on-premise data centers); network, storage, compute, telephony, mail, copy and print shop services; Enterprise Resource Planning (ERP); Geographic Information System (GIS); business and mobile applications; service desk and desktop support; and mobile technology (iPads, cell phones, fingerprint scanners) as well as Public Safety technologies including Automatic Vehicle Locators (AVL), License Plate Readers (LPR), body worn cameras, mobile command vehicle, security video surveillance, and mission-critical radio and wireless communication networks for emergency responders and external state and local government agencies.

The Information Technology Services resource allocation and initiatives described in this section advance and achieve the following guiding principle to become the "City you never want to leave."

Information Technology Services Department

Office of the Chief Information Officer

Division Description

The Office of the Chief Information Officer is responsible for managing the Department's overall vision and tracking compliance with high level City goals. This Division consists of Information Technology Service finance, human resources, performance management, mail, and print shop services. It is also responsible for tracking and monitoring the overall Department budget, managing ITS capital improvement project funding, directing project management and contract administration, coordinating Citywide technology procurement, processing accounts payable transactions, tracking and renewing subscriptions, and administering timekeeping and payroll. The Division also manages Publishing and Mail Services and is responsible for the production and logistics of revenue-generating printed materials, such as water bills, business tax licenses and renewals, fire inspection fees, and more. The Publishing team provides City letterheads, envelopes, business cards, brochures, postcards, outdoor signage, and other printed materials for all City departments, Civic Associations, Homeowner Associations, schools, and other external clients.

The Division also oversees the Project Management Office (PMO), which is responsible for providing ITS project management services and business analysis to all City departments and Charter Offices. The PMO collaborates with department leaders to ensure technology priorities are being correctly identified and to provide the most effective implementation process for new and upgraded technologies. The team drives technological innovation within the City by understanding business process challenges and proposing the best technological solutions. The PMO ensures project execution by monitoring and controlling performance and by optimizing resource allocation with the usage of project management tools. The Division develops policies, procedures, templates, project related documentation, key performance indicators, dashboards, and reports on ITS projects to facilitate high-level discussions, strategic planning, resource management, and decision making within the Department.

FY 2025 Major Accomplishments

- Trained staff to serve in an asset and resource management role to increase operational efficiencies, identify cost saving opportunities, secure vulnerabilities, and add transparency and accountability to Citywide technology investments
- Leased a new mail inserter that automates and accelerates processing - up to 4,300 envelopes per hour - while streamlining workflows and allowing quick operation with minimal staff training

FY 2026 Major Projects and Initiatives

- Advance the asset management program and align it to the Information Technology Infrastructure Library (ITIL) framework through ServiceNow, ensuring transparency and accountability in the management of IT assets
- Add a second wide-format printer to maintain service continuity, improve sign quality with ultraviolet (UV) inks and broader color range, and accelerate turnaround for high-volume, urgent requests
- Install a small-scale mechanical paper cutter to provide equipment redundancy, operate on standard 110V or generator power during outages, require minimal staff training, and boost productivity during high-demand periods

Information Technology Services Department

Enterprise Infrastructure and Operations

Division Description

The Enterprise Infrastructure and Operations Division is responsible for the management, maintenance, and support of technology infrastructure that underpins the City's business applications and computer environments.

The Division is responsible for data, voice (telephony) and video networks, cloud servers/storage, email and collaboration platforms, and contact/call center solutions. The Operations team provides 24/7 support for the technologies consumed across the City's computer environments.

The centralized Service and Support Center "Helpdesk" is a multi-layer section that acts as a technology hub for the intake of requests for service from City employees. This team is responsible for varied amounts of end-user technology in support of the City's business needs, desktop applications, and departmental projects.

This Division is also responsible for the City's Public Safety technologies and systems such as Automatic Vehicle Location (AVL) units, License Plate Readers (LPR), fingerprint scanners, body worn camera technology, Citywide access control, Citywide video security camera systems, and Public Address System on the beach. The Public Safety Technology Team, which is part of this Division, provides support for the City's mission-critical radio communications networks for emergency first responders and various internal and external local government departments. Additionally, the Public Safety Technology Team plays an integral role with the Florida Regional Domestic Security Task Force and the Miami-Fort Lauderdale Urban Areas Security Initiative through the facilitation of Department of Homeland Security target capabilities.

Overall, the Division supports a comprehensive array of technologies, including laptops and desktops, rugged patrol and marine laptops, desk phones, conference rooms, call centers, servers, radios, network switches, routers, firewalls, wireless access points, internet protocol (IP) and analog cameras, email mailboxes, and physical sites.

Finally, the Division is responsible for Information Technology Asset Management, which is essential for optimizing Citywide resources and ensuring that IT assets are utilized effectively to meet strategic objectives. This team manages and enhances the entire lifecycle of IT assets, including hardware, software, and licenses. Through meticulous inventory management, cost analysis, management of contracts, and disposal processes, the team aims to maximize asset value while minimizing associated risks. Their efforts contribute to a more efficient and effective use of technology resources within the organization.

FY 2025 Major Accomplishments

- Continued efforts to standardize technology and service throughout the organization to increase business continuity
- Completed Phase II of the Citywide Technology Infrastructure Modernization Plan which replaces the City’s wireless infrastructure
- Explored the option of implementing a private Fiber Wide Area Network (WAN) to increase the City’s network resiliency

Information Technology Services Department

Enterprise Infrastructure and Operations, continued

- Led strategic planning and implementation efforts to establish the technology infrastructure for the new Police Headquarters
- Implemented a server consolidation effort to mitigate rising software licensing costs
- Completed the Police Azure setup to migrate the Emergency Operations Center (EOC) files to the cloud to improve accessibility
- Commenced a Request for Proposal (RFP) to outsource the Citywide physical access control system and improve the function's service level
- Completed a new Priority/Service Level Agreement (SLA) matrix for shared service support to ensure critical issues are addressed promptly while still managing the overall workload efficiently
- Modernized the Radio Shop's half ton, 4x4 pickup Mobile Emergency Radio System (MERS) truck which is used to transport Radio Shop personnel to various service calls and pull the City's Communications Emergency Response Support Trailer (CERST)
- Identified a Digital Persona Multi Factor Authentication solution for the Police Department, which is a more efficient and secure way to access systems

FY 2026 Major Projects and Initiatives

- Implement the Updated Enterprise Project 25 Radio Communications System, which will address radio coverage deficiencies and provide first responders and local government users with reliable radio communications; this hardened network will serve the community during disasters and the many special events hosted by the City
- Complete the Systems Modernization Initiative, which will replace the near end-of-life VMWare computing environment, alongside the Citywide Business Continuity Project, ensuring the timely restoration of services following outages or disruption
- Install a radio spectrum analyzer at each radio site for monitoring the input frequencies to the Citywide Radio System to increase efficiency
- Increase business continuity by replacing End of Life (EOL) radio consoles, which can no longer be supported; in addition to the Unified Command Center (UCC) and EOC, these consoles interface with equipment already in place on the Mobile Emergency Radio System (MERS)
- Implement a Citywide wireless radio frequency backup system for critical sites
- Prepare a request for proposal to implement a new Citywide radio system to improve essential communications
- Implement the Digital Persona Multi Factor Authentication for the Police Department which is a more efficient and secure way to access systems
- Establish a dedicated public safety IT support model, with the Police and Fire Departments, by adding seven (7) full-time staff to improve compliance, responsiveness, and operational efficiency while aligning with centralized IT governance
- Increase network bandwidth to remote sites
- Implement next-generation firewalls for the new Police Department Headquarters to securely transport CJIS data across the City enterprise while ensuring compliance with FBI CJIS 6.0 standards

Information Technology Services Department

Security and Governance

Division Description

The Security and Governance Division is a critical pillar of Fort Lauderdale's operational resilience, responsible for safeguarding City data and ensuring uninterrupted public services through robust cybersecurity measures. Managing compliance with vital standards and Florida's data security laws, the Division protects sensitive systems in public safety, financial transactions, and neighbor records.

The Division monitors and defends against thousands of daily intrusion attempts and performs real-time vulnerability assessments to address risks before they escalate. On an annual basis, the Division addresses high-risk vulnerabilities, conducts compliance audits and reviews, and maintains rigorous oversight of the City's critical third-party suppliers. The Division also provides cybersecurity awareness training for City staff and the broader community to reduce risks associated with human error.

Through evolving and adaptive cybersecurity architecture, the Division has successfully mitigated threats, protecting essential services like police, utilities, and emergency systems. With the rapid increase in cyberattacks on public-sector entities, this Division is indispensable in ensuring that Fort Lauderdale's digital infrastructure can continue to support its neighbors without compromise.

FY 2025 Major Accomplishments

- Implemented an advanced Security Information and Event Management (SIEM) platform to improve log correlation, integrate threat intelligence, streamline reporting, and strengthen threat detection and regulatory compliance
- Minimized the Payment Card Industry Data Security Standard compliance environment to optimize costs, mitigate risks, and streamline audits and ongoing maintenance
- Developed and implemented a comprehensive vulnerability management program to strengthen the City's security posture
- Revised and implemented security policies and procedures to incorporate technological advancements, mitigate emerging threats, align with best practices, and maintain consistent Citywide security operations
- Conducted a cybersecurity assessment of the City's current environment to identify and address potential vulnerabilities and gaps within the City's cybersecurity infrastructure

FY 2026 Major Projects and Initiatives

- Decommission outdated tools and replace them with modern security solutions that align with best practices, meet compliance requirements, and support operational resilience goals
- Implement a Zero Trust security framework to restrict unauthorized access, segment critical City infrastructure, and enhance network security
- Enhance and broaden Citywide cybersecurity training to strengthen employee awareness and reduce cyber risks
- Develop and implement additional cybersecurity policies to protect the City from cyberattacks and enhance employee preparedness
- Conduct a ransomware preparedness gap analysis to identify vulnerabilities in the current security posture
- Implement a secure and scalable cloud framework to strengthen protection, improve resilience, and support modernization efforts

Information Technology Services Department

Data and Digital Services

Division Description

The Data and Digital Services Division leverages digital technologies to enhance City business. This involves reimagining processes, experiences, and models by using technologies such as cloud computing, data analytics, Internet of Things, artificial intelligence (AI), machine learning, enterprise solutions, and automation. The Division aims to improve efficiency, agility, innovation, and customer satisfaction by offering digital services that enable the City to deliver services more efficiently and effectively.

The Division manages Citywide business applications, interfaces, Power BI Dashboards, databases, and responses to application service requests. Also, the Division administers business intelligence technologies for City staff to analyze business application data.

The Division provides smart technology assessments, conducts thorough investigations, and identifies opportunities to propel the City into the future. By leveraging advanced data analytics and innovative technology solutions, this Division ensures that the City remains at the forefront of modern advancements, driving progress and enhancing the quality of life for its neighbors. The Data and Digital Services Division supports the City by improving efficiency and effectiveness, enhancing service delivery, enabling data-driven decision making, promoting transparency and accountability, and encouraging resilience and innovation. Overall, the Division is essential for modernizing the City's operations, improving services, and delivering sustainable solutions through data-driven decisions.

FY 2025 Major Accomplishments

- Implemented Infor Field Service Management (FSM) and Global Human Resource (GHR) enhancements to streamline processes, improve reporting and dashboards, and support data-driven decision making across the organization
- Developed an implementation plan for intelligent dashboards and modernized enterprise applications to enhance transparency, operational insights, and Citywide data integration
- Assessed enterprise applications and data sources to create a roadmap for modernization, software updates, and system integration across the City
- Designed, developed, and deployed Geographic Information System (GIS) web applications to track homeless outreach, monitor FixIT FTL incidents, and track Broward County intersection outages to improve reporting and operational visibility for the Fire Department

FY 2026 Major Projects and Initiatives

- Upgrade the Kronos Timekeeping and Telestaff application to address the obsolescence of Kronos Workforce Central
- Upgrade Laserfiche Document Management to broaden digital records, increase capabilities, strengthen security, and minimize physical documentation
- Expand applications using the Environmental Systems Research Institute (ESRI) Enterprise Solution to support departments such as Fire Rescue, Police, Development Services, Parks and Recreation, Transportation and Mobility, and Public Works, and to enhance data integration
- Deploy Microsoft Copilot in phases to improve efficiency, drive innovation, and support data-driven decision-making through secure AI within the Microsoft 365 Government Cloud

Information Technology Services Department

Department Performance Measures

Strategic Goal	Performance Measure	FY 2023 Actual	FY 2024 Actual	FY 2025 Actual	FY 2025 Target	FY 2026 Target
Guiding Principle: Technology Adaption	Percent of mobile problem work orders resolved within 24 hours	70%	73%	78%	≥60%	≥78%
	Percent of radio repair work orders resolved within 24 hours	72%	69%	87%	≥60%	≥75%
	Percent of all incident tickets resolved within 24 hours	72%	71%	84%	≥80%	≥80%
	Percent of telephone work orders resolved within 24 hours	34%	50%	49%	≥40%	≥50%
	Percent of network work orders resolved within 24 hours	24%	64%	70%	≥50%	≥70%
	Percent of application support problem work orders resolved within 24 hours	47%	59%	79%	≥45%	≥45%
	Percentage of approved demands in the 'active' phase	59%	78%	77%[1]	≥50%	≥50%

[1]*The methodology for this measure was updated in FY 2025 to more accurately represent the demands as they undergo a structured process where resources are effectively allocated.*

FY 2026 Major Variances

Personnel Services

$ 1,090,880 - Addition of three (3) Senior Technical Support Analyst positions, two (2) Senior Technology Strategist positions, and two (2) Systems Engineer positions dedicated to supporting public safety operations
153,740 - Mid-year addition of one (1) Program Manager position for the citywide timekeeping application
120,577 - Addition of two (2) part-time positions to enhance service desk technical and application support
103,982 - Addition of one (1) Telecommunications Technician position to improve the operational efficiency of the radio equipment repair shop

Operating Expenses

900,000 - Increase in ongoing funding to implement Microsoft Copilot
145,600 - Increase in professional services to support Infor modules
93,600 - Increase in professional services to enhance IT service desk operations
74,970 - Increase in indirect administrative service charge due to updated cost allocation plan
46,800 - Increase in professional services to support server installations
(304,633) - Decrease in security camera equipment replacement based on established replacement plan
(259,319) - Decrease in Citywide and Police Department personal computer (PC) replacements based on established replacement plans
(90,540) - Decrease due to the one-time implementation costs associated with the multi-factor authentication software for the Police Department
(50,000) - Decrease in one-time other professional services for a Cybersecurity Gap Analysis

Information Technology Services Department - Central Services Fund, continued

Department Fund Financial Summary

Capital Outlay

379,429 - Funding for server replacement plan
230,000 - Funding for planned local government radio replacements
(162,190) - Decrease due to one-time capital equipment expenses for Public Safety radio console replacements, vehicle upgrade, and a Spectrum Analyzer for radio sites

Office of Management and Budget

Department Description

The Office of Management and Budget (OMB) is an internal, central resource that facilitates the decision-making process for City Management with the use of performance and financial data. OMB coordinates all budget and management policy activities for the City, which includes the following: development and management of the Vision Plan and Strategic Plan, facilitation of the annual Commission Priorities, and preparation of the annual budget and multi-year Community Investment Plan (CIP). Alignment within each of these documents is critical to ensuring the financial stability and strategic advancement of the City now as well as into the future. In addition, the Department administers the Citywide Quality Management System, centralized grants management, and internal consulting services. OMB includes the following two (2) divisions: 1) Budget, CIP and Grants, and 2) Strategy and Innovation.

The Office of Management and Budget's resource allocation and initiatives described in this section advance and achieve the following guiding principles to become the "City you never want to leave."

Office of Management and Budget

Budget, CIP and Grants

Division Description

The Budget, CIP and Grants Division provides budgetary support services to all City departments in the development and management of the City's annual budget, multi-year CIP, and centralized grants coordination and administration. The Division is responsible for fiscal oversight and control activities associated with the City's operating and capital budgets as well as for undertaking special projects in conjunction with the City Manager's Office and various departments. In addition, the Division is tasked with developing targeted financial analysis to ensure that management is making data-driven decisions.

FY 2025 Major Accomplishments

- Collaborated with Citywide partners to optimize the reporting capabilities with the Enterprise Resource Planning (ERP) system
- Created and published on-demand training courses to provide access for City leaders and stakeholders on key financial information
- Partnered with the Public Works and Finance Departments on a water and sewer rate study to ensure that the rate charged to end users is aligned with the system's ongoing expenses
- Enhanced financial transparency portal tools for the public
- Launched a budget engagement opportunities website page
- Supported collective bargaining costing and financial analysis for Federation of Public Employees and the Teamsters Local Union No. 769

FY 2026 Major Projects and Initiatives

- Continue to offer training courses on grants, community investment plan, and financial processes
- Update the City's financial policies including development of an Emergency Reserve Policy
- Coordinate General Fund Revenue review and enhancement initiative
- Update the Sherpa Budgeting Formulation Reporting System to a new version
- Support the Classification and Compensation Study by providing costing information
- Participate in the collective bargaining process and costing for the International Association of Fire Fighters (IAFF) and Fraternal Order of Police (FOP)

Office of Management and Budget

Strategy and Innovation

Division Description

The Strategy and Innovation Division is responsible for managing and coordinating the City's Quality Management System which focuses on continual improvement and the delivery of quality services. The Quality Management System is comprised of a variety of Citywide programs and initiatives including the City's Vision and Strategic Plans, City Commission Priorities, performance management, audit compliance reporting, and community surveys. The Division also manages a process improvement program that provides leadership, training, and coaching to City staff through the Lean methodology, which is focused on waste reduction. The Quality Management System ensures that the City efficiently addresses key areas for improvement and streamlines processes and procedures, with a focus on continual improvement and quality service delivery.

FY 2025 Major Accomplishments

- Received Bloomberg Philanthropies What Works Cities Certification in recognition of the City's strong data management practices
- Created the City's first Innovation Blueprint, to guide staff in becoming a more innovative organization, delivering groundbreaking solutions to challenges, and improving service delivery
- Implemented strategies from the City's participation in the Bloomberg Harvard City Leadership Initiative Innovation Track to improve how the City transforms services to better respond to challenges and opportunities
- Created an updated landing page and dashboard on the City's website to track the progress and performance of the City's new FY 2029 Strategic Plan, as well as to link the Strategic Plan to the City Commission Priorities and key projects

FY 2026 Major Projects and Initiatives

- Create a framework and standard practices for managing internal, cross-departmental consulting projects
- Establish a quarterly reporting cadence to update City management on the status of ongoing special projects
- Standardize the format of data available on the City's Open Data and Transparency Portal
- Create on-demand trainings to inform and educate City leaders and stakeholders on accessing performance and Strategic Plan data and information
- Develop a broadband road map in partnership with the Information Technology Services Department (ITS)
- Participate in a pilot and guide implementation of human centered artificial intelligence (AI) for staff and operations in partnership with ITS

Office of Strategic Communications

Department Description

The Office of Strategic Communications fosters trust and civic pride by delivering clear and engaging communication that connects Fort Lauderdale with neighbors, businesses, visitors, and media. The Department enhances public understanding of City operations, policies, and initiatives through transparent and accessible messaging. Supporting internal departments and elected officials, the team ensures timely and impactful communication across digital media, public relations, emergency alerts, and creative services. By shaping Fort Lauderdale's brand identity and strengthening civic engagement, it contributes to a vibrant, thriving community.

The Office of Strategic Communications resource allocation and initiatives described in this section advance and achieve the following guiding principles to become the "City you never want to leave."

HIGHLIGHTED PROGRAM

- Strategic Communications

Office of Strategic Communications

Strategic Communications

FY 2025 Major Accomplishments

- Informed neighbors and encouraged participation in the Fortify Lauderdale community meetings; the communications plan utilized diverse channels to educate the community about this vital stormwater infrastructure program and gathered valuable feedback
- Prioritized transparency and community engagement by providing timely updates, encouraging neighbor input, and ensuring neighbors were informed throughout the selection process of the City Manager
- Enhanced recruitment efforts for the Fort Lauderdale Police Department through promotion of the Department's positive community impact, diverse career opportunities, competitive benefits, and professional growth potential
- Created a unified communications plan that ensures consistent messaging and branding across all City departments
- Launched and promoted the *I Am Sistrunk* campaign

FY 2026 Major Projects and Initiatives

- Communicate potential Charter revisions and the process to neighbors; the revisions under consideration include those related to the City's form of government, city manager residency requirements, election cycle, and the use and public disposition of public land
- Coordinate a public outreach effort for the Automated Meter Infrastructure (AMI) Smart Water Meter Program
- Add non-emergency SMS text messaging as an outreach tool
- Create a marketing plan to promote the City as a place to live, work, and play
- Implement a website upgrade to enhance performance and user experience in addition to new tools for improved accessibility

Parks and Recreation Department

Department Description

The Parks and Recreation Department offers a wide range of programs and activities to meet the health, recreation, and leisure needs of neighbors. The Department promotes health and fitness, stimulates social interaction, and fosters community engagement to enhance quality of life. Outstanding facilities provide an array of programming for patrons of all ages including bingo, ballroom dancing, soccer, pickleball, football, diving, and swimming. The Department fosters and preserves open spaces for public enjoyment while actively seeking additional properties to enhance and expand park space. Through the integration of a new Sustainability Operations Division, the Department now supports a stronger focus on tree canopy enhancement and sustainable practices.

The City's Parks and Recreation Department is one (1) of 213 agencies in the country with national endorsement from the Commission for Accreditation of Park and Recreation Agencies (CAPRA). This prestigious designation affirms the City's commitment to providing neighbors with quality parks and recreation programming services, along with efficient and effective operations. In addition, the Parks and Recreation Department is one (1) of 759 Accredited Professional Preschool Learning Environment (APPLE) Programs in the state; 83 of those programs are in Broward County including nine (9) afterschool programs accredited by the Florida Association of Childcare Management (FACCM) and with the Gold Seal Quality Care designation. Achieving this accreditation signifies that the City's PLAY Fort Lauderdale Afterschool Program's daily procedures, processes, and operations are exceptional.

The Parks and Recreation Department's resource allocation and initiatives described in this section advance and achieve the following strategic goals and guiding principle to become the "City you never want to leave."

PRESS PLAY FORT LAUDERDALE 2029 STRATEGIC PLAN

Goal 3: Be a sustainable and resilient community

Goal 5: Build a beautiful and welcoming community

HIGHLIGHTED PROGRAMS

- Adult Programs
- Community Events
- Cemetery System Maintenance
- Facility Maintenance Support
- Fort Lauderdale Aquatic Center
- General Parks Maintenance
- Marine Facilities Administration
- Parks and Rec Administrative Support
- Programming
- Street Lights
- Sustainability Operations
- Tree Services
- Youth Programs, Afterschool, and Camps

Parks and Recreation Department

Special Facilities and Administration

Division Description

The Special Facilities and Administration Division provides the leadership and framework to acquire, operate, and maintain the City's system of public places, including its beach, parks, open spaces, and medians for neighbors and visitors. Core services include the administration of grants and special projects, as well as managing staffing and payroll. The Division also supports the Beach Business Improvement District (BBID), an organization dedicated to promoting and marketing Fort Lauderdale Beach as a premier tourist destination. This is done by supporting events and activations in the general boundaries along State Road A1A between Sunrise Boulevard to the north and Harbor Drive to the south.

FY 2025 Major Accomplishments

- Initiated an update of the Parks and Recreation five-year marketing plan to determine the optimal blend of communication platforms needed to effectively showcase agency programs, facilities, events, and services; while also ensuring prompt and precise dissemination of valuable information to community members, particularly those facing barriers to access and engagement
- Amended Chapter 19 of the City of Fort Lauderdale Code of Ordinance with the creation of Section 19-8, entitled “Exclusive Children Play Area” for the designation of exclusive children play areas within City parks
- Expanded services to provide ancillary marketing needs supporting City Commission initiatives, communicate traffic advisories to the public, and further create social media content promoting 22 major events
- Leveraged technology – such as offering event applications and associated workflows electronically – to streamline and improve operational efficiency, expand data analytics, and enhance public transparency

FY 2026 Major Projects and Initiatives

- Initiate the digitization of department personnel records
- Streamline the processing of Rec-Trac payments and refunds
- Streamline the recording of revenues to ensure that revenues are recorded in a timely manner
- Complete the Parks and Recreation Department’s implementation of the Kronos upgrade
- Identify and apply for grants to support the development of existing parks as well as the acquisition of land for parks
- Launch an integrated public calendar and impact dashboard that consolidates City and permitted community events into one central, easily accessible platform
- Complete, issue, and award a request for proposal (RFP) for a new comprehensive facility asset management and work order platform
- Complete updates to departmental policies for compilation into a comprehensive manual
- Enhance the accuracy and transparency of the City’s parkland inventory by partnering with the City Attorney’s Office to verify title ownership information for right-of-way, entranceway, and median properties and standardize documentation across the organization

Parks and Recreation Department

Recreation

Division Description

The Recreation Division strives to enhance the quality of life in Fort Lauderdale by offering a wide variety of high quality, safe, accessible, and affordable recreational activities to meet the year-round leisure needs of neighbors and visitors of all ages. The Division is responsible for conducting youth, adult, senior, athletic, teen, and aquatic programs and provides licensed after-school care programs, summer camps, adult fitness and wellness programs, and environmental awareness education. In addition, the Division manages the Fort Lauderdale Aquatic Center and provides support for community and special event coordination and management of the City's recreation programs. Recreation facilities include City parks, activity centers, community pools, and the Aquatic Center.

FY 2025 Major Accomplishments

- Examined programming fees to ensure competitiveness with neighboring municipalities, while maintaining alignment with prevailing market rates
- Explored strategies to increase event sponsorships and other mechanisms of collaborative support
- Successfully executed the Department’s first aerial light show during a Bank of America Starlight Musicals event, introducing a captivating aerial spectacle that enriched City programming and offered residents a unique and memorable experience.
- Expanded augmented and virtual reality applications to promote exercise as well as introduce activities, games, and sports that enhance playgrounds and maximize greenspace
- In collaboration with the Florida Panthers, Florida United FC, The Loop, and industry experts, expanded Fort Lauderdale’s free wellness, exercise, and nutrition programming for high-risk populations
- Introduced and activated an online court reservation system to streamline, enhance, and expand the customer service experience for patrons at Jimmy Evert Tennis Center
- Implemented a junior lifeguard summer camp
- Resurfaced and replaced the filters for the main pool at Croissant Park

FY 2026 Major Projects and Initiatives

- Partner with IT to assess current Wi-Fi performance across City-managed community centers and initiate a pilot project to improve capacity
- Partner with the Miami Dolphins, Florida Panthers and other local sports teams to enhance the City’s children-focused experiences
- Advance the Recreation Division’s capacity for safe and efficient program delivery with the acquisition of a large school bus and the creation of a recreation transportation coordinator to oversee and enhance transportation for recreation operations Citywide
- Install flood gates and doors to harden Croissant Park against potential flooding and improve disaster resilience

Parks and Recreation Department

Sustainability

Division Description

The Sustainability Division provides coordination of the City's internal and external sustainability initiatives and planning for a climate resilient community. This structure supports sustainable facility operations, resilient infrastructure, and community-focused programming that promote environmentally and socially responsible practices across City operations and the broader community.

Serving as an internal business partner, the Division helps integrate sustainability and climate resilience into daily City operations, guiding planning, budgeting, and procurement decisions. Externally, it leads initiatives that improve conservation, expand and preserve the tree canopy, strengthen the City's economic resilience and environmental vitality, and supports efforts to reduce greenhouse gas emissions. Through public outreach, education, and media engagement, the Division advances community awareness of climate impacts and participation in sustainability and resilience efforts that make Fort Lauderdale a more adaptive and thriving city.

FY 2025 Major Accomplishments

- Finalized the Net Zero Plan and began implementation
- Initiated development of the Urban Forestry Master Plan
- Facilitated the installation of 10 electric vehicle charging ports at five (5) City facilities

FY 2026 Major Projects and Initiatives

- Finalize and begin to implement initiatives associated with the Urban Forestry Master Plan
- Continue to advance the Net Zero Plan to achieve the City's Greenhouse Gas Emissions (GHG) reduction targets
- Implement sustainability initiatives and develop educational components within Parks and Recreation
- Coordinate monthly checkpoints for maintenance updates and measurable improvements of the barrier island experience

Parks and Recreation Department

Parks

Division Description

The Parks Division performs all mowing operations, irrigation repairs and installations, ball field maintenance, trash collection and removal, and tree trimming of City-owned properties. In addition to the general maintenance and upkeep of all parks, entryways, and medians, the Division participates in the setup of special events when necessary.

FY 2025 Major Accomplishments

- Installed signature trees, which are larger and more scenic than existing trees, with solar lights at "Welcome to Fort Lauderdale" entryway monuments and enhanced landscaping along the following entryway points:
    - Broward Boulevard east of I-95
    - US Highway 1 (US1) at the north end of the City limits
    - Florida State Road A1A at the north end of the City limits
- Continued landscaping improvement projects in Citywide medians at the following locations:
    - Poinciana Park – SE 1st Avenue: Installed a new irrigation system and landscaping
    - The Landings – Bayview Drive: Continued with the second phase of landscaping improvements
    - Sistrunk Boulevard: Continued the second phase of landscape improvements from 13th Avenue to I-95
    - SE/SW 17th Street Mobility Project: Continued landscape beautification of medians
    - NW 19th Street: Installed new medians from Powerline Road to NW 31st Avenue
    - LauderTrail Initiative: Installed tree lined sidewalks and beautified the entryway at Holiday Park
    - Davie Boulevard: Completed landscape beautification of medians from I-95 to State Road 441
    - Rio Vista: Added two (2) medians and an entryway sign on Ponce De Leon Drive
- Removed invasive plant species from the Mills Pond Conservation Area
- Integrated a turtle nesting data processing model with Broward County, eliminating the need for an independent, secondary review which will expedite permitting and ensure continued beach access without limitation
- Replaced the irrigation pump station at Holiday Park
- Opened the newly acquired Bal Harbor Park

Parks and Recreation Department

Parks, continued

FY 2026 Major Projects and Initiatives

- Install signage designating exclusive children play areas in support of the newly established City ordinance
- Install a walkway at Annie Beck Park
- Expand beautification efforts at medians and entryways throughout the City, including installation of signature trees and enhanced landscaping at Cypress Creek Road and NW 31st Avenue to Oakland Park Boulevard and US1
- Place new landscaping including trees, rubber mulch, decorative gravel, and water saving irrigation systems along Powerline Road between Sunrise Boulevard and Mills Pond Park
- Initiate Phase II of the four-phase Sistrunk Corridor Beautification Project, focusing on landscaping improvements to enhance the area's visual character and overall usability
- Upgrade 25 medians with pressure regulation valves to reduce water consumption, and associated costs, by lowering the overall water pressure in the irrigation systems
- Replace the irrigation pump stations at Carter Park, Palm Aire Park, Sunset Park, and Shirley Small Park with energy efficient stations to minimize consumption and reduce overall costs
- Install smart irrigation controllers at baseball fields within Mills Pond Park and Holiday Park with a new two-wire system to communicate with multiple valves and sensors, simplifying installation and reducing overall costs
- Install 40 smart solar irrigation controllers Citywide to reduce water consumption
- Install dog stations, waste bags, and signage at City parks

Parks and Recreation Department

Facilities Maintenance

Division Description

The Facilities Maintenance Division maintains over 140 buildings, covering approximately 1.5 million square feet. The Division maintains playgrounds, roofs, plumbing, and air conditioning units, as well as more than 3,000 streetlights, including parking lot lighting for all City facilities. Staff is responsible for handling maintenance and repair requests, as well as conducting preventive maintenance. The Facilities Maintenance Division oversees service contracts and provides support for the City's special events.

FY 2025 Major Accomplishments

- Initiated a 10-year update to the 2014 Facilities Condition Assessment to better prioritize maintenance needs, optimize asset management, identify and/or enhance opportunities for sustainability initiatives, identify deficiencies, assess risks, support long-term planning needs, and inform decision-making
- Geolocated specific streetlights in the City and monitor their corresponding energy usage
- Completed installation of the redesigned Southside Cultural Arts Center heating, ventilation, and air conditioning (HVAC) system

FY 2026 Major Projects and Initiatives

- Complete the Citywide Facilities Assessment:
    - Geo-map all City buildings and facilities
    - Complete a lifecycle cost analysis
    - Complete a 10-year capital improvement plan
- Complete streetlighting improvements:
    - Complete Riverland streetlighting improvements
    - Complete geolocation of lighting assets
    - Implement a preventative maintenance and evening inspection repair team
    - Install additional smart nodes for real-time monitoring and control of streetlights
- Complete replacement of 2.5 miles of lighting at the Wave Wall
- Complete HVAC system replacement and upgrades for Fire Station 29, Fire Station 47, and the Holiday Park Activity Center
- Complete re-roofing of Fleet administration building, Warfield Park, and Fire Station 2 facilities
- Complete SW 11th Avenue Swing Bridge repairs
- Complete the implementation of Tunnel Top Park plaza shade system
- Modify partnerships and contracts for improved janitorial and housekeeping services for City buildings
- Acquire improved agreements for disaster relief and emergency clean-up, assessments, and remediation

Parks and Recreation Department

Marine Facilities

Division Description

Marine Facilities strives to provide excellent marine dockage facilities for vessels of various sizes for both neighbors and visitors. The Division provides public access to local waterways and maintains the City's public boat ramps. Marine Facilities is also responsible for dockage services, commercial leases, launching facilities, capital projects, and Marine Advisory Board (MAB) functions.

FY 2025 Major Accomplishments

- Initiated pre-installation activities for the Riverwalk floating dock
- Completed renovations for the comfort station at Cooley’s Landing Marina
- Completed a feasibility study for the City-operated pump out vessels to evaluate the financial implications of a potential water pump-out program
- Partnered with Coastal Conservation of Florida to cultivate oysters along the New River to improve water quality, enhance biodiversity, and promote environmental sustainability

FY 2026 Major Projects and Initiatives

- Complete the design and permitting of Lauderdale Isles Landing launch ramp
- Pursue grant funding and support from the Florida Fish and Wildlife Conservation for the Mills Pond Boat Ramp Replacement Project
- Implement Florida Statues (FS) 327 via City Ordinance C-25-35 to protect the City’s aquatic environment and reduce the negative impact of excessive boat anchoring
- Finalize the installation of 130 feet of floating docks at Esplanade Park to enhance water access, support recreational activities, and promote economic activity

Parks and Recreation Department

Cemetery

Division Description

The City of Fort Lauderdale owns and operates four (4) cemeteries within the City's limits: Evergreen Cemetery, Lauderdale Memorial Park Cemetery, Sunset Memorial Gardens Cemetery, and Woodlawn Cemetery. The Parks and Recreation Department manages the administrative, maintenance, and burial duties for all four (4) cemeteries. The properties play an important role in preserving the history of Fort Lauderdale as well as serving the needs of current and future neighbors.

FY 2025 Major Accomplishments

- Initiated construction of three (3) mausoleums at Sunset Memorial Gardens Cemetery to increase burial capacity and service offerings
- Completed mausoleum roof replacement at Lauderdale Memorial Park Cemetery to ensure the structural integrity and longevity of the mausoleum, supporting ongoing operations and preserving the site's historical and aesthetic value
- Installed a cemetery security and access system at Lauderdale Memorial Park and Sunset Memorial Gardens to enhance safety and provide better management of visitor access, aligning with modern security standards, and ensuring a secure environment for visitors and staff

FY 2026 Major Projects and Initiatives

- Complete construction of three (3) mausoleums at Sunset Memorial Gardens Cemetery to increase burial capacity and available services
- Initiate irrigation upgrades at Lauderdale Memorial Park Cemetery to improve landscape maintenance efficiency, water conservation, and ensure long-term viability of cemetery grounds

Parks and Recreation Department

Department Performance Measures

Strategic Goal	Performance Measure	FY 2023 Actual	FY 2024 Actual	FY 2025 Actual	FY 2025 Target	FY 2026 Target
Goal 3: Be a sustainable and resilient community	Percentage of Citywide tree canopy coverage on public and private property	26.5%	26.6%	N/A[1]	≥28.1%	≥28.1%
	Percent reduction in greenhouse gas emissions from City operations	12.2%	N/A[1]	N/A[1]	≥14.2%	≥16.5%
Goal 5: Build a beautiful and welcoming community	Percent occupancy of New River, Cooley's Landing and Las Olas marinas	106%[2]	99%	91%	≥98%	≥98%
	Percent of neighbors that live within a 10-minute walk of a park	83.7%	83.9%	N/A[1]	≥85.0%	≥85.0%
	Number of work orders submitted into MainTrac for fulfillment by Facilities Maintenance	4,069	4,575	4,792	≤4,585	≤4,506
	Number of meals served to youths in fall, spring, and summer programs[2]	77,543	87,242	60, 618[3]	≥65,727	≥75,205
	Number of recreation and aquatic program participants	16,508	15,437	22,141	≥17,325	≥14,786
	Number of City hosted special events	64	61	64	≥64	≥64

[1]Data is not available at the time of publication
[2]Data that exceeds 100% capacity is a result of double occupancy from third-party rentals
[3]This measure is reported for the calendar year; as such, 2025 fall program data is not available at the time of publication

FY 2026 Major Variances

The FY 2026 Adopted Budget memorializes the transfer of the Sustainability Division, with nine (9) positions, from the Public Works Department

Personnel Services

$ (798,876) - Decrease in personnel services due to the transfer of six (6) positions to the Marine Facilities Fund
(422,991) - Transfer of one (1) environmental operations position and one (1) Parks Manager position to the Public Works Department due to the citywide reorganization
(200,470) - Transfer of one (1) Program Manager I position to the Office of Strategic Communications Department
469,725 - Increase in health insurance benefit expenses due to rate increase and additional participation
437,263 - Increase in pension related costs
339,601 - Increase in part-time and temporary salaries for Parks and Recreation Employees
88,731 - Addition of one (1) Recreation Program Coordinator position for the recreation transportation service enhancement
33,878 - Addition of two (2) part-time staff positions to support the maintenance of dog stations at city parks

Operating Expenses

(1,055,528) - Decrease in operating expenses associated with transferring staff to the Marine Facilities Fund
801,300 - Increase in water and sewer expense due to a rate increase
668,512 - Increase in lawn and tree service maintenance costs due to updated contract rate
491,100 - Increase in electricity expense due to a rate increase
350,000 - Increase in funding to support the one-time celebration of the United States Semiquincentennial
270,367 - Increase for implementation and maintenance of the comprehensive facility asset management and work order platform
150,114 - One-time funding for the installation of dog stations, dog waste bags, and signage at city parks
12,000 - Increase in subscription costs associated with the smart irrigation controller program expansion

Parks and Recreation Department - General Fund, continued

Department Fund Financial Summary

Capital Outlay

462,600 - Expense for pump stations, irrigation controllers, pool equipment, and chemical controller systems based on the Ten-Year Equipment Replacement Plan
300,000 - Funding for citywide repairs and maintenance at facilities
205,494 - Funding for one (1) school bus for the enhancement of the recreation transportation service
100,000 - One-time funding for installation of solar powered smart controllers associated with the smart irrigation controller program expansion
29,455 - Funding for iPads and other computer equipment for the comprehensive facility asset management and work order platform

Police Department

Department Description

The Fort Lauderdale Police Department (FLPD) operates under the organizational leadership of the Office of the Chief, supported by the Support Services, Operations, Investigations, and the Professional Development Bureaus. Emphasizing a collaborative policing philosophy, the Department fosters partnerships with community members to reduce crime and enhance quality of life. By adopting a proactive and forward-thinking approach, FLPD addresses concerns before they escalate into larger issues. Data-driven performance metrics shape its crime prevention strategies and public safety initiatives, ensuring adaptability to the community's evolving needs. Reflecting its commitment to excellence, the Department has maintained accreditation from the Commission for Florida Law Enforcement Accreditation since 1998 and has earned its fifth Excelsior Award.

The Police Department's resource allocation and initiatives described in this section advance and achieve the following strategic goal to become the "City you never want to leave."

PRESS PLAY FORT LAUDERDALE 2029 STRATEGIC PLAN

Goal 1: Be a safe community that is proactive and responsive to risks

Police Department

Office of the Chief

Bureau Description

The Office of the Chief directs the activities of FLPD. Units that offer administrative support to the entire Department are administered directly from this Office. These units include Legal, Media Relations, Public Safety Grants, Photographic Lab, Office of Analytics and Innovation, and the Office of Financial Management.

The Legal Unit is responsible for providing legal opinions on law enforcement issues that relate to the operations of the Department. The Unit is comprised of an assistant city attorney and support staff that are assigned to the Police Department by the City Attorney's Office.

The Media Relations Unit delivers the message of the Department to media outlets and the public at large. The Unit is responsible for processing public records requests and disseminating neighbor engagement information using a variety of platforms including social media.

The Public Safety Grants Unit actively researches and applies for federal, state, and county grants to enhance public safety and ensure the Department adheres to grant requirements.

The Photographic Lab is responsible for developing and printing film generated by the Department.

The Office of Analytics and Innovation focuses on the development and implementation of the Department's objectives and performance measures. This oversight ensures that initiatives and performance indicators are effectively monitored, reported, and analyzed, enabling the achievement of strategic goals through performance management.

The Office of Financial Management is responsible for the coordination of the Police Department's fiscal management, including payroll and personnel activities. The Office includes the following activities: personnel/payroll, budgeting, asset forfeiture, and accounting units.

FY 2025 Major Accomplishments

- Expanded the online incident reporting system, which allows the public to submit police reports that do not require a physical police presence
- Developed a new organizational structure for the department, creating a new Professional Development Bureau and streamlining operations within the Support Services Bureau
- Reduced sworn staff vacancies by 85%, from the peak in February 2025, resulting in increased staffing for Patrol

FY 2026 Major Projects and Initiatives

- Oversee the move of the Department into the new Police Headquarters
- Refine the public safety information technology support function within the Bureau
- Enhance customer service at the new Police Headquarters by onboarding five (5) receptionist positions to support 24-hour lobby operations

Police Department

Support Services Bureau

Bureau Description

Support Services is responsible for acquiring and managing the resources necessary for the agency's operations and investigative functions. The Bureau oversees record management, fleet operations, and management of the construction of the new police headquarters building. Key units within Support Services include the Court Liaison, Evidence, Records, and Logistics Units. These teams collaborate to identify best practices and implement the latest technologies to enhance the Department's effectiveness.

The Court Liaison Unit is authorized to accept most Department related court subpoenas, deposition notices, and other court documents on behalf of department members. The Unit also works with representatives involved in the legal system and tracks and notifies the Department of changes to pending court cases.

The Evidence and Police Supply Unit receives, catalogs, and stores evidentiary, abandoned, forfeited, and found property in accordance with state and local laws, storing more than 250,000 items.

The Records Unit utilizes a centralized records management system to maintain all forms of internal documents received by the Department to include those needed by the court system and the public. The unit includes the following activities: records, teletype, and evidence.

The Logistics Unit is responsible for the body worn camera program, police fleet, and departmental assets and includes the following activities: fleet services, police supply, reception, and communication and technology.

FY 2025 Major Accomplishments

- Transitioned to the body worn camera upgrade for sworn and professional staff in the Digital Evidence Unit; these cameras have extended battery lives, improved Global Positioning System (GPS) location mapping, and an improved field of view
- Procured, upfitted, and delivered vehicles in the Fleet and Logistics Unit to provide FLPD with over 100 new law enforcement and specialty vehicles to assist with public safety

FY 2026 Major Projects and Initiatives

- Replace older tablets that are used to photograph crime scenes and record victim and witness statements with cell phones; the mobile devices will further be used as a communications platform to assist FLPD personnel with investigations and provide improved customer service

Police Department

Operations Bureau

Bureau Description

The Operations Bureau is responsible for delivering uniformed police services across the City, responding to 911 emergency calls and non-emergency calls, providing proactive patrols, and upholding laws and ordinances to serve the community. Operating 24 hours a day and seven (7) days a week, the Bureau ensures the physical presence of law enforcement across the City's three (3) police districts.

This Bureau is organized into three (3) divisions: the Patrol Division handles routine policing duties, the Operations Support Division provides additional resources and assistance, and the Specialized Operations Division focuses on specific, mission-critical tasks.

The Patrol Division, the largest division in the agency, is comprised of the City's first responders for all law enforcement aspects. The Patrol Division performs initial law enforcement tasks and includes officers assigned to District patrol operations and Public Safety Aides. All members of the division are responsible for building positive relationships with the community, thereby ensuring the best quality of life possible for neighbors throughout Fort Lauderdale. The Special Weapons and Tactics Team (SWAT), Crisis Negotiators, and Bomb Squad are also housed in this division.

The Operations Support Division includes the following: Driving Under the Influence (DUI) Unit, Honor Guard, LGBTQ+ Liaison Unit, Crime Prevention Unit, Reserves and Detention Unit, Tactical Bicycle Platoon Unit, School Crossing Guards Unit, School Resource Officers Unit, Station Report Unit, and Crime Prevention Unit.

The Special Operations Division includes the following: Special Events and Emergency Management Unit, Park Rangers Unit, Homeless Outreach Unit, Code Enforcement Unit, Environmental Crimes Unit, Traffic Certified Civilian Program, School Zone Speed Enforcement Camera Program, Marine Unit, Mounted Unit, Motor Unit, and the Police Explorers.

Additionally, the Detail Office Administration Program reviews operations for detail activities, ensuring alignment with departmental needs and compliance with applicable policies.

FY 2025 Major Accomplishments

- Created a community-based violence prevention group to reduce gun violence and decrease the number of victims affected by gun violence within the City
- Initiated training for Community Support Unit (CSU) officers in crime prevention techniques offered through the Crime Prevention Through Environmental Design (CPTED) Association to address concentrated crime from targeted burglaries
- Developed a School Zone Speed Enforcement Camera Program to assist in reducing the speed of vehicles within school zones throughout the City; full implementation of the program is expected in FY 2026

Police Department

Operations Bureau, continued

FY 2026 Major Projects and Initiatives

- Increase the number of homeless outreach reunifications to connect and reunify homeless individuals with their families
- Increase the Operations Bureau's response to complaints, such as homelessness, noise disturbances, and possible minor crime issues like misdemeanor larcenies, with a focus on efficiency and transparency by incorporating all complaints into the City's FixIt FTL customer service application
- Use analytics to develop proven response techniques for the most common complaints such as those that have repeated trends in location, subjects involved, and times, and marshal resources to increase the solvability of those reoccurring complaints
- Develop an efficient scheduling system for patrol that maximizes coverage, increases officer safety, and mirrors national guidelines on personnel allocation
- Issue a Request for Proposal (RFP) and obtain a detail administration software solution to fully activate the Detail Office

Police Department

Investigations Bureau

Bureau Description

The Investigations Bureau is tasked with investigating various types of criminal activity and implementing proactive enforcement strategies to deter crime. Working in coordination with other Department bureaus, the Investigations Bureau aims to reduce and solve crimes through both initial and follow-up investigations.

This Bureau is organized into three (3) divisions: the Criminal Investigations Division (CID) handles general criminal cases, the Violent Crimes Division (VCD) focuses on offenses involving violence, and the Special Investigations Division (SID) addresses specialized and complex criminal matters.

The Criminal Investigations Division is responsible for the follow-up investigation of a variety of crimes which includes the following: Burglary Unit, Larceny/Auto Theft Unit, Economic Crimes Unit, Traffic Homicide Investigations Unit, Case Management Unit, Crime Analysis Unit, and Real Time Crime Center.

The Violent Crimes Division is responsible for the follow-up investigation of “persons” type crimes and includes the following units and teams: Violent Crimes, Homicide, Fugitive, Endangered Persons (Human Trafficking, Internet Crimes Against Children, and Missing Persons), Special Victims Unit (SVU), and Forensics (Crime Scene, DNA Analysis, Digital Forensic Lab, Gun Intelligence Unit, and Fingerprint).

The Special Investigations Division is responsible for proactive policing efforts used to eradicate all levels of drug and vice activity. The Special Investigations Division includes the following activities: the Drug Enforcement and Vice Unit, Major Narcotics Unit, Threat Response Unit, Technical Support Services, Nuisance Abatement, and task force officers assigned to various federal agencies.

FY 2025 Major Accomplishments

- Enhanced the Department’s response to violent crimes by transforming the Rapid Offender Control Unit into the newly expanded Gun Intelligence Unit; as a part of this unit, personnel respond in real time to violent crimes, implement best practices to respond to ShotSpotter gunshot detections, conduct follow-up investigations, and quickly process and submit evidence recovered from crime scenes to the National Integrated Ballistic Information Network (NIBIN)
- Increased the Department’s ability to respond to gunfire incidents quickly and safely by expanding the ShotSpotter gunfire locator technology service area by 2.1 square miles which encompasses Melrose Park, Melrose Manors, portions of Sailboat Bend, and the Downtown Entertainment District; the expansion has resulted in a total of 6.8 square miles of coverage across the City
- Enhanced the Mobile Crime Scene Van (MCSV), a fully functional crime scene lab, with technology and equipment upgrades to ensure the vehicle allows for the effective collection, documentation, and forensic processing of evidence at major crime scenes

Police Department

Investigations Bureau, continued

FY 2026 Major Projects and Initiatives

- Enhance regional collaboration efforts with other agencies to improve communication and response to threat and drug trends, as well as response and investigation of violent and property crimes
- Augment current technology to more effectively process crime scenes and traffic homicide scenes
- Implement succession plans for critical positions within the Bureau to minimize vacancies and ensure continuity of operations across all divisions
- Implement protocols for the deployment of the Mobile Crime Scene Vehicle (MCSV) to streamline and increase the efficiency of crime scene processing at large and complicated scenes

Police Department

Professional Development Bureau

Bureau Description

The Professional Development Bureau centralizes and streamlines onboarding functions for the recruitment, hiring, training, and development of the Police Department's employees. The units under this Division include Staff Inspections/Accreditation, the Office of Internal Affairs, Administrative Support, Background Investigations, Psychological Services Program, Recruiting, and Training.

The Staff Inspections/Accreditation Unit maintains the agency's professional standards and accreditation status. The Unit conducts agency-wide inspections to ensure compliance with current policy and best practices.

The Office of Internal Affairs (IA) handles investigations into police misconduct, monitors use-of-force incidents, and ensures disciplinary actions adhere to due process. Given the sensitive nature of its responsibilities, IA is located outside of the Police Headquarters.

The Backgrounds Unit plays a crucial role in identifying and selecting the most qualified candidates for both sworn and civilian positions within the Police Department. This Unit manages the recruitment process and maintains detailed documentation as candidates progress through hiring and training. The Unit is comprised of two (2) key areas: recruiting and background investigations. The recruiting team focuses on promoting career opportunities within the Police Department and attracting prospective applicants. The background investigations team conducts thorough screenings to ensure candidates meet the rigorous standards required to become City employees.

The Psychological Services Program is comprised of the police psychologists, employee wellness coordination office, police chaplains, and the Peer Support Team. The psychologists, as a part of this program, offer counseling services to Police Department employees and their immediate families as well as provide training and support for the Crisis Negotiation and Peer Support Teams.

The Training Unit is responsible for ensuring officers complete all mandatory courses required by the Florida Criminal Justice Standards and Training Commission, Florida State Statutes, the Florida Department of Law Enforcement, and the Fort Lauderdale Police Department.

FY 2025 Major Accomplishments

- Received the Excelsior Award from the Commission for Florida Law Enforcement Accreditation for the 5th time
- Implemented the doctoral clinical practicum program with Nova Southeastern University, which offers university students the opportunity to complete an on-site training with the City, further supporting the Psychological Services Program
- Continued development and administrative supervision of the behavioral health clinician, with the Co-Response Unit, to divert behavioral health clientele away from the jail and receiving facilities and to collect data demonstrating the efficacy of the program
- Continued distribution and training for the one-rifle program by issuing 110 new rifles to previously certified rifle officers and certifying new rifle officers through a required certification class

Police Department

Professional Development Bureau, continued

FY 2026 Major Projects and Initiatives

- Conduct specialized in-house leadership training for all Sergeants and Lieutenants
- Conduct specialized in-house, law enforcement training for all Field Training Officers
- Implement an in-house Public Safety Aide (PSA) academy to certify newly hired employees, thereby improving the quality of training and reducing expenses attributed to outside training academies
- Incorporate digital solutions to streamline, digitize, and manage field training documentation

Police Department

Confiscation/Forfeiture Trust

Division Description

The Police Legal Unit, in conjunction with the Confiscation Unit, is responsible for all property seized by the Department in accordance with the Florida Contraband Forfeiture Act. When property is seized by an officer, an evaluation of the property is conducted to determine its value and identify all potential claimants that are entitled to a statutorily required notice of confiscation. The notice informs the potential claimant that property has been seized and that they have rights, with regards to asserting a claim, to the seized property. Beyond ensuring that notices are sent to potential claimants, the unit is responsible for filing the forfeiture actions and prosecuting the matters in Circuit Court. The unit also works in conjunction with the Office of Financial Management to ensure that the statutorily required annual reports of all forfeitures are properly filed with the Florida Department of Law Enforcement.

All property awarded to the Police Department in accordance with the Florida Contraband Forfeiture Act is either sold at auction or re-purposed. The proceeds of any sales are deposited in the State Trust Fund for use by the Department. The proceeds may be used for the following programs and activities: school resource officers, crime prevention, safe neighborhood programs, drug abuse education and prevention programs, or for other law enforcement purposes. This can include defraying the cost of protracted or complex investigations, providing additional equipment or expertise, purchasing automated external defibrillators for use in law enforcement vehicles, providing matching funds to obtain federal grants, and funding the cost of confiscating property and prosecuting actions under the Act.

Police Department

Department Performance Measures

Strategic Plan Goal	Performance Measure	FY 2023 Actual	FY 2024 Actual	FY 2025 Actual	FY 2025 Target	FY 2026 Target
Goal 1: Be a safe community that is proactive and responsive to risks	National Incident-Based Reporting System (NIBRS) Group A crime rate per 10,000 population[1]	832.4	759.1	648.8	≤783.2	≤648.8
	Average response time (mm:ss) for 911 (Priority 1) calls for service (Constant)[2, 3]	4:40	4:43	4:40	≤4:43[4]	≤4:40[4]
	Average response time (mm:ss) for 911 calls for service (Priorities 2-4) [2, 3]	6:22	6:17	6:09	≤6:17[4]	≤6:09[4]
	Average response time (mm:ss) for non-emergency calls for service (all priorities)[2]	5:21	5:33	5:24	≤5:33[4]	≤5:24[4]
	Average hold time (mm:ss) for 911 calls for service (call received to call dispatched, all priorities) [3, 5]	28:31	26:47[6]	20:36	≤26:47[4]	≤20:36[4]
	Average hold time (mm:ss) for non-emergency calls for service (call received to call dispatched, all priorities)[3, 5]	31:44	28:51[6]	21:27	≤28:51[4]	≤21:27[4]
	Vacancy rate (sworn personnel)[7]	6.4%	2.8%[6]	1.2%	≤4.0%	≤4.0%
	Vacancy rate (professional personnel)	14.2%	10.6%	19.2%	≤4.0%	≤4.0%

[1]Group A crime rate is based on data in FLPD's records management system and is subject to change after the Florida Department of Law Enforcement (FDLE) validates and audits totals

[2]Priorities are set by a call taker at the Broward County dispatch call center based on the information provided by the caller; there are four priorities: (1) immediate threat of bodily harm or loss of life, (2) immediate threat of loss of property, (3) calls of routine nature, (4) delayed calls that do not require an urgent response

[3]The FY 2024 Actual excludes Quarter 1 data as it is not available

[4] The FY 2025 target methodology changed to the previous year actual

[5]Hold time is defined as the time from when a call is received at the Broward County dispatch call center to when it is relayed to a dispatcher that dispatches an officer to the scene; the hold time is based on priority and the availability of officers at the time the call is received

[6]Data correction

[7]The vacancy rate is based on the number of sworn personnel that have officially completed the hiring process; new hires may not have completed the Police Academy

FY 2026 Major Variances

The FY 2026 Adopted Budget memorializes the reorganization of the Police Department, including the following:

- The Office of the Chief will increase by two (2) positions
- The Support Services Bureau will decrease by 53 positions
- The Operations Bureau will decrease by 20 positions
- The Investigations Bureau will increase by 21 positions
- The establishment of the Professional Development Bureau with 48 positions

Personnel Services

$ 1,937,700 - Increase in overtime funding based on historic actuals to support police security services at City sponsored events
156,924 - Addition of one (1) Forensic Specialist position to process and validate DNA samples internally within the department
(267,361) - Transfer of two (2) Human Resource Analysts to the Human Resources Department

Operating Expenses

1,238,865 - Increase in information technology service charge due to the addition of seven (7) Information Technology Services (ITS) positions dedicated to supporting public safety
1,131,848 - Increase in property insurance expense due to the Police Headquarters being added to the inventory of City-owned properties
1,019,701 - Increase in fleet maintenance, replacement, and overhead service charges
366,782 - Increase in operating and maintenance costs for new Police Department Headquarters building
128,000 - Increase to support enhanced training that reduces implicit bias, improves crisis intervention tactics, and promotes greater community engagement
100,000 - Increase in barricade rental costs due to increased usage for City and special events

Police Department - General Fund, continued

Department Financial Summary

Capital Outlay

1,597,045 - One-time funding for the purchase of two (2) units of meridian rapid barrier units, 57 closed-circuit television (CCTV) cameras, 100 padlock removable bollard units, and fiber infrastructure installation
357,660 - Increase for one-time funding for the purchase of Criminal Justice Information Services (CJIS) compliant firewall infrastructure
300,000 - Replacement of 40 high resolution cameras for the Investigative Services Unit per the Equipment Replacement Plan
220,000 - One-time funding for the purchase of two (2) Tower Surveillance Camera Trailers and three (3) LPR Message Boards
188,930 - Replacement of one (1) License Plate Reader (LPR) and funding for four (4) new LPRs per the LPR Replacement and Expansion Plan
153,000 - Replacement of four (4) boat engines for the Marine Unit per the Equipment Replacement Plan
60,390 - One-time funding for the purchase of one (1) carpet cleaning machine, one (1) floor polishing machine, and one (1) scissor lift for the maintenance of the new Police Headquarters
49,500 - Replacement of two (2) canines and one (1) horse per the Animal Replacement Plan

Police Department - Confiscated Property Funds

Procurement Services Department

Department Description

The Procurement Services Department manages and conducts the City's procurement of goods, general services, professional services, and construction in accordance with all applicable laws, ordinances, policies, and procedures. The Department incorporates in its practices the value of maximizing competition in a fair, transparent, ethical, and professional manner. Additionally, in accordance with the City's Code of Ordinances, Procurement oversees and ensures commodities and contractual services of suitable standards and sufficient quantities are available as needed, and that such items are purchased at the best prices available, consistent with City standards of service and quality.

The Procurement Services Department's resource allocation and initiatives described in this section advance and achieve the following guiding principles to become the "City you never want to leave."

PRESS PLAY FORT LAUDERDALE 2029 STRATEGIC PLAN

Guiding Principle: Fiscal Responsibility

HIGHLIGHTED PROGRAMS

- Procurement

Procurement Services Department

Procurement Services

FY 2025 Major Accomplishments

- Streamlined the fiscal year Purchase Order (PO) closeout process
- Implemented a new streamlined informal quote process and trained City employees on how to properly use it
- Updated the City's Procurement Manual to include revisions to the informal quote process
- Automated contract award postings on the City's website utilizing the Enterprise Resource Planning (ERP) system platform
- Implemented the Supplier Relations and Outreach Program, serving as a signature sponsor for the 2025 Broward and Beyond Business Conference, collaborating with Broward County to promote and expand the City's new supplier registrations

FY 2026 Major Projects and Initiatives

- Modernize the procurement website to improve the user experience and support transparency, efficiency, and accessibility for both staff and the public
- Implement procurement schedules for formal competitive solicitations
- Complete the procurement and award for the School Zone Speed Enforcement Camera Program
- Complete the procurement and award of Design-Build service for Fire Station 13 and Emergency Medical Substation #88

Procurement Services Department

Department Performance Measures

Strategic Goal	Performance Measure	FY 2023 Actual	FY 2024 Actual	FY 2025 Actual	FY 2025 Target	FY 2026 Target
Guiding Principle: Fiscal Responsibility	Number of new supplier registrations	N/A[1]	N/A[1]	1,387	N/A[1]	≥100[2]
	Total purchase order (PO) spend	$552.5 million	$1.1 billion[3]	$446.2 million	≤$568.9 million	≤$568.9 million
	Average number of days to complete the purchase order cycle for goods and services	N/A[1]	N/A[1]	75	N/A[1]	<90 days
	Average number of days to complete the purchase order cycle for Construction projects[1]	N/A[1]	N/A[1]	150	N/A[1]	<150 days

[1]New measure; historical information and FY 2025 target unavailable

[2]The surge in FY 2025 is largely attributed to the implementation of the Supplier Relations Program; the target is expected to stabilize, resulting in a significantly lower estimate for FY 2026

[3]Total spend in FY 2024 includes $451.53 million in payments towards the construction of the Prospect Lake Water Treatment Plant

Public Works Department

Department Description

The Public Works Department is made up of nine (9) financial divisions: Administration, Department Support, Distribution and Collections - Stormwater, Environmental Resources, Fleet Services, Project Management, Roadway Maintenance, Sanitation, and Utilities Engineering. Departmental services include the following:

- Construction, operation, and maintenance of the City's stormwater facilities
- Project management for Community Investment Plan (CIP) projects
- Roadway, bridge, sidewalk, and seawall maintenance and construction
- Development and maintenance of the City's Asset Management Program
- Fleet management
- Management of the City's contract for solid waste and recycling
- Environmental and regulatory affairs compliance

The Public Works Department's resource allocation and initiatives described in this section advance and achieve the following strategic goal to become the "City you never want to leave."

PRESS PLAY FORT LAUDERDALE 2029 STRATEGIC PLAN

Public Works Department

Administration

Division Description

The Administration Division provides overall leadership, coordination, and management for the Public Works Department. It supports executive oversight, budget development, departmental policy creation, Commission agenda coordination, and interdepartmental collaboration. Key responsibilities include financial planning, human resources support, timekeeping oversight, vendor and contract payment processing, and department-wide performance measure development. The Division also oversees the Chief Waterways Officer (CWO), who leads environmental waterway initiatives, permitting, grant management, habitat restoration efforts, and community engagement related to marine and waterway issues.

FY 2025 Major Accomplishments

- Hired the City's Chief Waterways Officer to lead and coordinate waterway management initiatives
- Completed two (2) mangrove plantings at City parks, restoring 100 mangroves to the ecosystem
- Donated 50 juvenile mangroves to New River Middle School for students to cultivate until they are ready for planting along the New River
- Adopted a Waterway Noise Ordinance, establishing regulations to limit excessive noise and enhance the quality of life for waterfront residents
- Passed an ordinance restricting overnight anchoring to a maximum of 30 days within a six-month period
- Streamlined the derelict vessel removal process by establishing a pool of pre-approved vendors and creating an emergency removal procedure
- Developed the Flood Emergency Response Plan (FERP), an emergency management application that helps staff monitor flooding Citywide and track internal and external assets
- Developed and implemented new procedural upgrades utilizing the Laserfiche platform to create efficiencies in the Department's document routing, tracking, and approval processes

FY 2026 Major Projects and Initiatives

- Purchase and begin operation of the City's first Sewage Pumpout Vessel, funded primarily through a grant from the Florida Department of Environmental Protection
- Develop the design for a new Public Works Joint Use Facility to accommodate the Stormwater Operations, Roadway Services, Survey team, and Human Resources and Risk Management, supporting the expansion of services and staffing across these programs
- Implement updates to the existing LauderWorks application to better depict project locations and their associated Commission District(s)
- Develop an internal dashboard to monitor the financial health of the Public Works Department
- Develop and implement a departmental onboarding plan and checklist
- Direct the administration of $36.6 million in active grants, ensuring compliance and optimal utilization

Public Works Department

Distribution and Collections - Stormwater

Division Description

The Distribution and Collections – Stormwater Division was developed to provide dedicated operational oversight of the City's stormwater infrastructure. The stormwater workgroups operate collaboratively to proactively inspect stormwater assets, respond to neighbor concerns related to street flooding, proactively maintain stormwater system components, repair and replace aging infrastructure, and construct swales to reduce street flooding and runoff while improving water quality. Although stormwater management is a multi-jurisdictional effort, the City operates, repairs, and maintains a substantial portion of the stormwater infrastructure within City limits.

FY 2025 Major Accomplishments

- Expanded Stormwater Operations staffing and equipment to enhance emergency response and maintain new systems in Edgewood and River Oaks

FY 2026 Major Projects and Initiatives

- Develop a Stormwater Operations emergency response plan that incorporates new stormwater infrastructure systems, including those in the Edgewood and River Oaks neighborhoods
- Expand asset management efforts by incorporating newly installed stormwater infrastructure and pumps from Phase I Stormwater Master Plan projects in Edgewood, River Oaks, Dorsey Riverbend, and Progresso Village, while also extending the asset registry to include curbing and natural assets
- Initiate cleaning and condition assessment of critical stormwater infrastructure (30-inch to 96-inch diameter) in the Middle River watershed as part of the Watershed Asset Management Plan for existing stormwater assets
- Expand the stormwater asset management registry to include the condition assessment for large drainage pipes

Public Works Department

Environmental Resources

Division Description

The Environmental Resources Division manages environmental permitting, regulatory compliance, and capital improvement projects related to stormwater and tidal flooding. Their efforts strengthen Fort Lauderdale's resilience to flooding and support the protection of natural resources through responsible stewardship.

Environmental and Regulatory Affairs addresses the following areas: waterway quality, National Pollutant Discharge Elimination System (NPDES) permitting and reporting, backflow and cross-connection compliance, and industrial pretreatment program management.

FY 2025 Major Accomplishments

- Began implementation of the Condition Assessment Plan for critical stormwater infrastructure
- Began implementation of a five-year NPDES permit, which addresses water pollution by regulating point sources that discharge pollutants to City waterways in conjunction with the Environmental Protection Agency (EPA)
- Completed construction of the stormwater improvement projects in Durrs neighborhoods
- Initiated construction of the stormwater improvement projects for the Dorsey Riverbend neighborhood
- Initiated design for the replacement of the Del Mar Place and Aurelia Place seawalls
- Initiated design for the stormwater improvements project in Melrose Manors/Riverland neighborhoods
- Began construction of stormwater improvements for the Progresso neighborhood
- Awarded a contract for stormwater improvements construction project for the Victoria Park neighborhood

FY 2026 Major Projects and Initiatives

- Award annual consulting contracts to support Public Works asset groups in work order management and capital infrastructure planning
- Finalize the review of waterway quality monitoring strategies, sites, and source-specific data collection to develop targeted management action plans
- Initiate construction for the Southeast Isles Stormwater Improvements project, as a part of the Fortify Lauderdale program
- Initiate construction for stormwater improvements in Victoria Park
- Initiate construction for replacement seawalls at Del Mar Place and Aurelia Place
- Award a contract for the seawall replacement project at Sebastian Street and Seville Street
- Award a contract for the stormwater improvements construction project for the Melrose Manors/Riverland Civic neighborhoods

Public Works Department

Fleet Services

Division Description

Fleet Services provides safe, reliable, and cost-effective vehicles and equipment to support City operations. The Division manages the full life cycle of the City's fleet, including inspections, maintenance, repairs, inventory control, and initiatives to improve operational efficiency.

The Division is responsible for recommending and furnishing fuel-efficient, functional, and economical vehicles and equipment necessary for the conduct of City operations, developing technical specifications for bidding, managing vehicle and equipment auctions, and preparing and administering the annual Fleet Services budget. The Division also oversees the operation of the in-house light-duty vehicle car wash at the Central Garage and manages three (3) City fuel sites used for refueling vehicles and equipment.

In addition, Fleet Services oversees the vehicle maintenance contract, which includes procurement of all parts and materials, management of the parts inventory, and day-to-day oversight of the City's fuel sites and light-duty vehicle car wash.

FY 2025 Major Accomplishments

- Enhanced contract management and vehicle replacement planning by hiring an Automotive and Equipment Specialist
- Implemented operational upgrades including relocating parts for improved accessibility and creating standardized part kits for common repairs
- Renovated the storage area to enhance workflow efficiency and reduce fleet downtime

FY 2026 Major Projects and Initiatives

- Install additional electric vehicle (EV) chargers at the City's fleet facilities

Public Works Department

Project Management

Division Description

The Project Management Division oversees the planning, design, and delivery of Community Investment Plan (CIP) projects, including bridges, streetscapes, seawalls, and buildings. The Division ensures projects meet cost, schedule, quality, and regulatory requirements.

FY 2025 Major Accomplishments

Bridges, Fire Stations, Parks, and Other City Facilities

- Completed construction of the Riverwalk Floating Docks project, providing additional New River dockage for access to Downtown Fort Lauderdale
- Awarded the contract for building mausoleums at the Sunset Memorial Gardens Cemetery
- Awarded the contract for the construction of the new GTL Butler Building

Undergrounding and Streetscape

- Completed the A1A Streetscape Project along the City's beach corridor
- Awarded the contract for the installation of new crosswalks along Sistrunk Boulevard

FY 2026 Major Projects and Initiatives

Bridges, Fire Stations, Parks, and Other City Facilities

- Complete replacement of the South Ocean Drive bridge
- Award a design-build contract, complete design, and begin construction for Fire Rescue Station 13 and Emergency Medical Substation 88
- Complete design for the replacement of NE 1st Street Bridge, SE 13th Bridge, and Bayview Drive Bridge north of 55th Street

Undergrounding and Streetscape

- Complete the rehabilitation of Bayview Drive from Sunrise Boulevard to Oakland Park Boulevard
- Award a contract for the undergrounding of overhead utilities for the Idlewyld and Riviera Isles neighborhoods
- Award the contract for the NW 5th Avenue Streetscape project
- Award the contract for the installation of new crosswalks along Sistrunk Boulevard

Public Works Department

Roadway Maintenance

Division Description

The Roadway Maintenance Division is responsible for the repair and upkeep of paved streets, sidewalks, and public rights-of-way. It provides support for utility-related roadway repairs, asphalt restoration, and pothole maintenance. The roadway maintenance team operates 24 hours a day to maintain the City's streets.

FY 2025 Major Accomplishments

- Enhanced operational workflows to align with the City's new customer request and ticketing platform, FixIt FTL
- Paved Parker Playhouse/War Memorial Auditorium Parking
- Paved NE 8th Street entrance to Holiday Park
- Paved E Las Olas Blvd from Tunnel Top to SE 15th Avenue

FY 2026 Major Projects and Initiatives

- In coordination with the City's Customer Service Center, establish standard service levels for roadway repairs, including pothole filling and related maintenance activities

Public Works Department

Sanitation

Division Description

The Sanitation Division oversees solid waste collection, recycling, bulk programs, waste diversion, and community education initiatives. The Division manages the City's solid waste contract and supports countywide planning for long-term waste management. The City of Fort Lauderdale provides curbside solid waste and recycling collections to single family and multi-family properties with three or less units. Services are designed to collaborate with the community, reduce waste, and promote responsible recycling.

The Division is also responsible for the cleaning of bus shelters, public spaces, trash can collection, the removal of debris from beaches, and the maintenance of public places such as alleys and City-owned lots. The Division additionally handles the removal of seaweed from the beach and pressure cleaning in parks throughout the City.

FY 2025 Major Accomplishments

- Assisted with the demolition of City Hall

FY 2026 Major Projects and Initiatives

- Participate in the development and implementation of the Broward County Solid Waste Authority Master Plan and Facilities Amendment
- Consolidate all Sanitation Operations under the Public Works Department
- Execute a contract agreement for sandbag operations
- Evaluate the need for additional wire mesh trash cans for special event use to ensure community safety and cleanliness

Public Works Department

Utilities Engineering

Division Description

The Utilities Engineering Division provides engineering services for the City's water and wastewater systems, including planning, design, construction oversight, regulatory compliance, and condition assessment. It supports major capital improvements for treatment plants, force mains, water transmission lines, and resiliency infrastructure.

The Division is responsible for the City's Asset Management Program. Asset management refers to the development, implementation, and maintenance of a comprehensive database of City-owned infrastructure. This enterprise asset management system helps to ensure that historic asset data is tracked and recorded to better inform and project future infrastructure needs as well as ensure they are accounted for in the Department's operating and capital budgets.

FY 2025 Major Accomplishments

- Awarded two (2) contracts for professional engineering and program support services to efficiently initiate and manage future utility undergrounding project requests from neighborhoods
- Completed Phase I of the rehabilitation and replacement of the 54-inch effluent force main leading from GTL to the injection wells
- Completed construction for the NE 25th Avenue force main, NE 38th Street 42-inch force main, and NE 19th Avenue 24-inch force main replacement projects
- Began construction activities for the rehabilitation and replacement of the 48-inch to 54-inch force main along SE 9th Avenue and 10th Avenue to the GTL project
- Began construction of a 54-inch raw water main from Prospect Wellfield to the Prospect Lake Clean Water Center
- Completed construction of a 48-inch water main from the Prospect Lake Clean Water Center to the Fiveash Water Treatment Plant
- Initiated an optimal corrosion control treatment pipe loop test for the Prospect Lake Clean Water Center
- Completed installation of the Deepwell Electric Power Instrumentation and Control project at the George T. Lohmeyer (GTL) Wastewater Treatment Plant
- Completed smoke testing, night flow assessments, and manhole inspections on the City's sanitary sewer system to reduce inflow and infiltration (I&I)
- Awarded contracts for closed-circuit television (CCTV), cured in place pipe (CIPP), point repair, and manhole rehabilitation for utilization on the I&I reduction priority sewer basins

Public Works Department

Utilities Engineering, continued

FY 2026 Major Projects and Initiatives

- Complete construction and startup of the Prospect Lake Clean Water Center to process up to 50 million gallons of potable water daily
- Complete the installation of standby generators, providing 12 megawatts of standby generator power to GTL
- Complete the construction of 3,500 linear feet of 6-inch watermain on Hendricks Isles
- Initiate construction of the 17th Street Causeway large watermain replacement
- Complete construction for Phase II of the Tarpon River A-11 Sewer Basin Rehabilitation project

Public Works Department

Department Support

Division Description

The Department Support Division manages the City's pipeyard infrastructure, including the storage, organization, and distribution of critical materials such as pipes, fittings, and construction supplies required for water, sewer, and stormwater projects. Through effective asset management, facility oversight, inventory coordination, and logistical support, the Department of Support ensures that field crews, maintenance teams, and administrative staff have the resources, materials, and infrastructure needed to deliver high-quality public works services to the community.

Public Works Department

Department Performance Measures

Strategic Goal	Performance Measure	FY 2023 Actual	FY 2024 Actual	FY 2025 Actual	FY 2025 Target	FY 2026 Target
Goal 3: Be a sustainable and resilient community	Percent of projects on budget and on schedule	90%	91%	89%	≥93%	≥93%
	Percent of environmental permits in compliance	98%	97%	98%	≥98%	≥98%
	Percent change in total fleet fuel consumption (as compared to the prior year)	0.8%	2.6%	5.7%	≤-2.0%	≤-2.0%
	Number of preventative catch basin inspections	17,496	25,627	21,918	≥19,798	≥22,800
	Number of storm drains/inlets cleaned	2,378	6,936	6,709	≥990	≥4,800
	Number of catch basin repairs	153	199	397	≥360	≥360
	Total linear feet of storm systems assessed for condition of pipe	24,836	31,771	46,283	≥13,200	≥24,000

FY 2026 Major Variances

The FY 2026 Adopted Budget memorializes a citywide reorganization including the creation of a Utility Services Department and the following 267 interdepartmental transfers from the Public Works Department:

- 176 positions from the Distributions and Collections Division
- 65 positions from the Treatment Division
- 26 positions from the Customer Support Division

Personnel Services

$ (2,434,495) - Transfer of 17 net additional positions to the Utility Services Department due to the citywide reorganization

Operating Expenses

(3,000,000) - Reduction of one-time funding to update the City's Water and Sewer Master Plan
336,283 - Increase in service charges for the Call Center resulting from a higher volume of water and sewer fund service requests
218,956 - Increase in indirect administrative service charge

Capital Outlay

422,442 - Purchase of nine (9) vehicles per the Citywide vehicle replacement plan

Debt Service

4,568,050 - Increase in debt service for the Advanced Metering Infrastructure (AMI) System

FY 2026 Major Variances

Operating Expenses

$ 515,145 - Increase due an anticipated new agreement with a parts provider plus additional external sourcing costs for specialty maintenance
41,000 - Increase due to transferring the Collective Data software system annual payment from a capital outlay to an operating expense
(505,881) - Decrease due to lower fuel costs
(50,000) - Decrease in loose equipment upfitting due to the absence of planned fire engine replacements for fiscal year 2026

Capital Outlay

14,337,336 - Replacement of 207 vehicles based upon established replacement schedule
277,867 - Information Technology costs associated with upfitting public safety replacement vehicles
96,053 - Replacement of critical fleet equipment, including one (1) vehicle lift, based upon the FY 2026 - FY 2035 Fleet Services Equipment Replacement Plan

Transportation and Mobility Department

Department Description

The Transportation and Mobility (TAM) Department provides safe, equitable mobility options by strategically elevating transportation policy, planning, and implementation of projects within the City under one umbrella. The Transportation and Mobility Department is focused on developing a transportation ecosystem that embodies all existing modes of transportation while addressing future transportation needs as the City continues to grow and develop. The Department consists of four (4) divisions: Administrative Support, Parking Services, Transportation, and Microtransit.

The Transportation and Mobility Department's resource allocation and initiatives described in this section advance and achieve the following strategic goal and guiding principles to become the "City you never want to leave."

PRESS PLAY FORT LAUDERDALE 2029 STRATEGIC PLAN

Goal 4: Facilitate an efficient, multimodal transportation network

Guiding Principle: Customer Service

HIGHLIGHTED PROGRAMS

- Transportation Planning
- Transportation Traffic
- Microtransit
- Transportation and Mobility Admin Support
- Parking Customer Services
- Parking Enforcement
- Parking Lots
- Parking On Street Meters

Transportation and Mobility Department

Transportation and Mobility Administrative Support

Division Description

The Transportation and Mobility Administrative Support Division is responsible for leading and maintaining the day-to-day operations of the Department. The Division manages the administrative processes of the Department such as payroll, performance management, travel coordination, and other personnel and clerical duties.

FY 2025 Major Accomplishments

- Completed upgrades to the irrigation and landscaping of the Transportation and Mobility Department building
- Completed the Restroom Rehabilitation Project for the Transportation and Mobility Department building

FY 2026 Major Projects and Initiatives

- Review and evaluate TAM stormwater management facilities, licensing status, inspection and maintenance practices, and discuss transitioning license management and related responsibilities from Public Works to TAM

Transportation and Mobility Department

Parking Services

Division Description

The Parking Services Division manages, operates, and maintains approximately 10,900 parking spaces Citywide including four (4) garages and 46 surface parking lots. Parking Services is dedicated to increasing sustainable parking initiatives for the benefit of all facilities. The Division is currently implementing parking demand technologies to assist in reducing the environmental impact of drivers searching for available parking spaces and to improve the customer service experience.

The Parking Services Division also collects revenue and manages daily operations for the parking garages located within the Arts and Science District. This parking facility, which is jointly owned by the Downtown Development Authority (DDA) and the Performing Arts Center Authority (PACA), has more than 570 parking spaces and services the businesses and visitors along Himmarshee Steet.

FY 2025 Major Accomplishments

- Expanded the electronic vehicle (EV) Charging Station Program in City-owned parking lots and garages
- Continued development of a new web-based parking application to centralize parking location and payment information as well as utilize new parking sensor technology to provide accurate, real-time parking space availability as part of a Smart Cities initiative

FY 2026 Major Projects and Initiatives

- Continue expansion of the electronic vehicle (EV) Charging Station Program in City-owned parking lots and garages
- Launch the new web-based parking application to centralize parking locations and payment information and continue the expansion of parking sensor technology as part of a Smart Cities initiative
- Complete repairs of Las Olas Garage facade lighting

Transportation and Mobility Department

Transportation

Division Description

The Transportation Division is charged with implementing the City's Fast Forward Fort Lauderdale Vision of being a multimodal, connected community by 2035. The vision forecasts a future in which the single occupancy vehicle is not the only choice, and neighbors are able to walk, bike, and use transit to travel to their various destinations. The Division is responsible for traffic and multi-modal service analysis, transportation planning and programming, program development and implementation, coordination with agency partners on roadway projects, maintenance of traffic (MOT), traffic calming practices, the Community Shuttle Program, vehicle for hire permits, and coordination with area partners to create a more sustainable community while improving traffic flow in the City. The Division is also responsible for the submittal of transportation projects to Broward County's Mobility Advancement Program (MAP) for surtax funding.

FY 2025 Major Accomplishments

- Continued a study to explore traffic, economic development, property, and public impacts related to the construction of a new train tunnel under the New River utilizing funds awarded through the Regional Infrastructure Accelerator Grant
- Began the One-Way Pairs Study in partnership with Broward County
- Began development of a neighborhood mobility plan for Riverside Park
- Began the design of the SE/SW 17th Street Mobility Hub project in partnership with the Broward Metropolitan Planning Organization (Broward MPO) which will incorporate new bike lanes, crosswalks, lighting, landscaping, sidewalks, and traffic calming improvements
- Began the design of a sidewalk gap project to improve sidewalk connectivity and Americans with Disabilities Act (ADA) compliant crosswalks at priority locations Citywide
- Began design of the Shady Banks and Tarpon River Mobility Plan implementation project, funded by the Complete Streets and Other Localized Initiatives Program to add sidewalks and traffic calming elements within two (2) neighborhoods as priority items developed through their Neighborhood Mobility Master Plans
- Secured additional funding for the Breakers Avenue Streetscape Project through the County's Surtax Grant Match Program and the Florida Department of Transportation (FDOT)
- Partnered with the FDOT to implement temporary modifications to the SE 17th Street Bridge opening schedule to improve traffic flow during morning and afternoon peak traffic periods

Transportation and Mobility Department

Transportation, continued

FY 2026 Major Projects and Initiatives

- Continue the installation of traffic calming devices throughout the City to improve traffic flow, which includes speed radar signs and speed cushions
- Complete the Urban Core Master Plan, which will enhance the ability to move throughout the downtown area of the City as development increases
- Continue the design of the SE/SW 17th Street Mobility Hub project in partnership with the Broward MPO which will incorporate new bike lanes, crosswalks, lighting, landscaping, sidewalk, and traffic calming improvements
- Complete the Citywide Sidewalk Master Plan and begin public outreach efforts for the installation of sidewalks identified as a priority through the Master Plan
- Complete the Riverside Park Mobility Plan, which will include improvements to sidewalks and add new traffic calming elements
- Pursue new grant opportunities to implement the improvements identified as part of the Riverside Park Mobility Plan effort
- Seek additional grant funds through the Safe Streets and Roads for All (SS4A) program to update the City's Vision Zero Plan
- Collaborate with FDOT to permanently modify the SE 17th Street Bridge opening schedule, reducing the number of bridge openings during morning and evening traffic peak times

Transportation and Mobility Department

Microtransit

Division Description

The Microtransit Division enhances and supports the City's Fast Forward Fort Lauderdale Vision of being a multimodal, connected community by providing land and sea transit services. The Microtransit Division works in conjunction with Broward County Transit (BCT) to increase access to destinations within the City for neighbors and visitors while maintaining efficient and effective service.

The Division is comprised of three (3) services: LauderGo! Community Shuttle, LauderGo! Water Trolley, and LauderGo! Micro Mover. The LauderGo! Community Shuttle and LauderGo! Micro Mover provide additional first and last mile connections between larger transit networks – such as the Broward County Transit System and Brightline High-Speed Rail – while working in tandem with the LauderGo! Water Trolley to provide additional transit options in the downtown area. These services are funded through the Mobility Advancement Program and the Florida Department of Transportation.

FY 2025 Major Accomplishments

- Improved LauderGO! Community Shuttle branding through the mobile application and signage on existing Community Shuttle stops to improve visibility and awareness of existing shuttle routes and the Program's live tracking system
- Began operations of the microtransit service, LauderGo! Micro Mover, within the Northwest Community, providing additional transportation services to local businesses, restaurants, and residences in the area

FY 2026 Major Projects and Initiatives

- Gather customer feedback on LauderGO! Community Shuttle service quality
- Explore enhancements to the LauderGO! Community Shuttle service by improving branding and signage as well as expanding routes, leveraging funding opportunities through Broward County Transit
- Pursue additional grant funding to expand the services areas of the LauderGo! Micro Mover

Transportation and Mobility Department

Department Performance Measures

Strategic Goal	Performance Measure	FY 2023 Actual	FY 2024 Actual	FY 2025 Actual	FY 2025 Target	FY 2026 Target
Goal 4: Facilitate an efficient, multimodal transportation network	Average percentage of Community Shuttle services completed	N/A[1]	94%	93%	≥95%	≥90%
	Average number of Community Shuttle complaints per month	2	1	2	≤2	≤2
	Number of riders on Community Shuttles per hour and per route	8.5	9.4	9.9	≥8.5	≥8.5
	Average time spent on the City's major corridors (seconds)[2]	517	627	674	≤500	≤650
	Average speed of vehicles travelling on the City's major corridors (miles per hour)[2]	44	30	19	≤35	≤35
Guiding Principles: Customer Service and Innovation	Percent of credit card and Pay-by-Phone meter sales	97%	99%	99%	≥98%	≥98%
	Percent of citations paid	75%	74%	75%	≥75%	≥75%
	Average meter revenue per parking space	$1,852.79[3]	$1,980.37	$2,195.29	≥$1,900.00	≥$1,900.00

[1]New performance measure; historical data is unavailable

[2]This measure monitors traffic on three (3) of the City's major corridors: Broward Boulevard (between US-1 and SW 18th Avenue), Davie Boulevard (between US-1 and I-95), and Sunrise Boulevard (between State Road 7 and US-1)

Utility Services Department

Department Description

The Utility Services Department is responsible for the operation, maintenance, and support of the City's water and wastewater infrastructure, serving neighbors, businesses, visitors, and six (6) neighboring municipalities. Utility Services includes the Fiveash and Peele-Dixie Water Treatment Plants, which produce a combined average of 38 million gallons per day (MGD) of potable water, and the George T. Lohmeyer (GTL) Wastewater Treatment Plant, which treats an average of 42 MGD of wastewater. The City provides potable water and wastewater treatment services to Fort Lauderdale, Oakland Park, Wilton Manors, Port Everglades, and parts of Davie and Tamarac.

Utility Services is organized into three (3) divisions: Administration and Customer Service, Distribution and Collection, and Treatment. The Administration and Customer Service Division oversees budgeting, finance, human resources, payroll, inventory, and performance management, and its 24/7 Utilities Dispatch Team responds to customer concerns, 811 locate requests, traffic control needs, and precautionary boil water notices. The Distribution and Collection Division operates, maintains, and repairs the water distribution and wastewater collection systems, as well as raw water wellfields and pumping stations. The Treatment Division protects the community by ensuring safe water and wastewater management at every stage.

The Utility Services Department's resource allocation and initiatives described in this section advance and achieve the following strategic goal to become the "City you never want to leave."

Administration and Customer Service

Division Description

The Administration and Customer Service Division plays a vital role in managing both the day-to-day operations and the strategic planning for the City's water and wastewater systems. The Division is committed to ensuring the efficient, reliable, and cost-effective delivery of these essential public services to neighbors, businesses, and institutions.

In addition to operational oversight, the Division is responsible for financial management, regulatory compliance, and transparent communication with the public. This includes budget development, rate analysis, and adherence to federal, state, and local regulations governing utility operations.

The Division also provides essential customer support by responding to inquiries, service requests, billing questions, and service issues promptly and professionally. Through a combination of operational excellence, customer-focused service, and long-term infrastructure planning, the Division helps ensure that the City's utility systems continue to meet the evolving needs of the community.

FY 2025 Major Accomplishments*

- Awarded the 2025 Comprehensive Water and Sewer Masterplan Agreement
- Initiated a Citywide survey of existing water meters, advanced system integration, and developed a community outreach plan as a part of the Advanced Metering Infrastructure (AMI) water meter project
- Completed the Comprehensive Water System Mapping project, which is the final major requirement of the City's Water Consent Order, which will help Utilities Operations staff more readily locate and isolate water mains during emergencies

FY 2026 Major Projects and Initiatives

- Develop an administrative framework for advancing the newly established department
- Develop and implement a departmental onboarding plan and checklist
- Develop and implement new procedural upgrades utilizing the Laserfiche platform to create efficiencies in the Department's document routing, tracking, and approval processes
- Secure a contract for emergency sewer line repairs
- Begin the deployment and installation of 65,000 AMI units
- Develop an internal dashboard to monitor the financial health of the Utility Services Department
- Initiate the implementation of a new sewer related Consent Order to address inflow and infiltration (I&I)
- Finalize the water and sewer rate study and implement recommended changes

**FY 2025 Major Accomplishments reflects work completed under the Public Works Department*

Utility Services Department

Distribution and Collection

Division Description

The Distribution and Collection Division manages the infrastructure that delivers clean water to homes and businesses and collects wastewater for treatment. As the crucial connection between treatment facilities and the community, the Division ensures the safe, continuous flow of essential water and wastewater services. Responsibilities include maintaining and repairing water lines, valves, hydrants, and sewer components such as gravity mains, force mains, and lift stations.

The Division also oversees system upgrades, leak repairs, new service installations, and utility locates to prevent construction-related damage. With 24/7 emergency response capabilities, the team addresses water and sewer service issues promptly while providing responsive customer support.

FY 2025 Major Accomplishments

- Completed smoke testing, night flow assessments, and manhole inspections on the City's sanitary sewer system to reduce inflow and infiltration (I&I)
- Awarded contracts for closed-circuit television (CCTV), cured in place pipe (CIPP), point repair, and manhole rehabilitation for utilization on the I&I reduction priority sewer basins
- Initiated an optimal corrosion control treatment pipe loop test for the Prospect Lake Clean Water Center
- Utilized new high pressure camera technology to allow for the visual inspection of pressurized waterways
- Developed a Lead Service Line Replacement Program, after completing a Citywide lead and copper inventory, to ensure compliance with the Florida Department of Environmental Protection (FDEP) and the Environmental Protection Agency (EPA)

FY 2026 Major Projects and Initiatives

- Build a new sanitary sewer dump site for the disposal of debris captured by City vactor trucks

Utility Services Department

Treatment

Division Description

The Treatment Division ensures the production of safe, clean drinking water and the proper treatment of wastewater before it is returned to the environment. Responsibilities include operating water treatment facilities, maintaining infrastructure, and ensuring compliance with local, state, and federal regulations. The Division's core functions are water treatment using nanofiltration membrane, lime softening, and ion exchange processes; water quality monitoring; and wastewater treatment including screening processes, pure oxygen treatment, and chlorination. Additional duties include cross-connection control, industrial pretreatment, infrastructure maintenance, and emergency response to system failures or environmental incidents.

The Division includes the accredited Environmental Laboratory**,** which provides year-round sampling and testing services, and Process Control Engineers who manage instrumentation, controls, and Supervisory Control and Data Acquisition (SCADA) systems.

FY 2025 Major Accomplishments

- Began Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS) pilot testing for the Prospect Lake Clean Water Center
- Completed the modernization of the Fiveash Water Treatment Plant freight elevator
- Replaced eight (8) variable frequency drives for high service, concentrate, and membrane pumps to improve the distribution of potable water at the Peele Dixie Water Treatment Plant
- Updated the instrument/control panels, programmable logic controller (PLC), and communications at the Prospect Wellfield
- Replaced 19 gates and two (2) transformers at the Fiveash Water Treatment Plant
- Completed GTL Deepwell mechanical integrity testing (MIT)

FY 2026 Major Projects and Initiatives

- Complete the installation of standby generators, providing 12 megawatts of standby generator power to GTL
- Complete the conversion of GTL's existing mechanic shop into a maintenance shop
- Renew the Florida Department of Environmental Protection (FDEP) Injection Well Permit at GTL
- Conduct mechanical integrity testing (MIT) for the Peele Dixie injection wells
- Begin operation of the new Prospect Lake Clean Water Facility

Utility Services Department

Department Performance Measures

Strategic Goal	Performance Measure	FY 2023 Actual	FY 2024 Actual	FY 2025 Actual	FY 2025 Target	FY 2026 Target
Goal 3: Be a sustainable and resilient community	Potable water produced in million gallons per day (MGD) per full time employee (FTE)	0.86	0.88	0.92	≥0.30	≥0.30
	Water distribution system integrity – leaks per 100 miles of distribution pipe	13.52	17.86	14.29	≤22.60	≤22.60
	Water distribution system integrity – breaks per 100 miles of distribution pipe	7.02	4.08	4.72	≤18.92	≤18.92
	Wastewater treated in million gallons per day (MGD) per full time employee (FTE)	1.39	1.38	1.41	≥0.27	≥0.27
	Collection system integrity – failures per 100 miles of collection pipe	4.20	1.51	1.01	≤2.52	≤2.52
	Percent of days in compliance with primary drinking water standards	100.0%	99.8%	100.0%	100.0%	100.0%
	Linear Feet of Gravity Sewer Pipelines Cleaned	650,494	563,453	866,403	≥837,795	≥837,795
	Utility Services Department employee vacancy rate	N/A[1]	N/A[1]	N/A[1]	N/A[1]	≤7%

[1]As this is a newly formed department, historical data and a FY 2025 target for this performance measure are not available

Utility Services Department - Water and Sewer Fund

Department Fund Financial Summary

FY 2026 Major Variances

The FY 2026 Adopted Budget memorializes the transfer of 267 positions from the Public Works Department - Water and Sewer Fund

Personnel Services

$ 2,434,495 - Transfer of 17 net additional positions from the Public Works Department - Water and Sewer Fund due to the citywide reorganization

1,628,814 - Addition of one (1) Occupational Safety and Training Coordinator position, two (2) Lead Water Treatment Plant Operator positions, three (3) Water Treatment Plant Operator positions, four (4) Senior Utilities Mechanic positions, one (1) Utilities Mechanic position, one (1) Public Works Maintenance Supervisor position, one (1) Electro Technician position, two (2) Procurement and Inventory Specialist positions, one (1) Environmental Laboratory Supervisor position, one (1) Senior Accounting Clerk position, and one (1) Senior Procurement and Inventory Specialist position to support phased staffing of the new Prospect Lake Treatment Facility

Operating Expenses

1,096,761 - Increase in chemical and electricity expenses to support one month of concurrent operations at the new Prospect Lake Water Treatment Facility and the existing Fiveash Facility

644,763 - Increase in the annual subscription cost for Advanced Metering Infrastructure (AMI) software

449,800 - Increase in electricity expense due to rate increase

400,000 - Increase in funding to support asphalt repairs on City, County, and State roads following utility rehabilitation work

380,987 - Increase in chemical expenses due to inflationary factors

120,000 - Increase in professional services to support additional water quality monitoring services with molecular source tracking (MST) integration

Capital Outlay

5,046,557 - Replacement of 63 vehicles per the Citywide vehicle replacement plan

1,725,000 - Replacement equipment funding for large motors, pumps, generators, and valves

(95,000) - Reduction of one-time funding for an additional portable sewage pump and a welding machine

Utility Services Department - Central Regional Wastewater System Fund

FY 2026 Major Variances

The FY 2026 Adopted Budget memorializes the transfer of thirty-seven positions from the Public Works Department - Central Regional Wastewater Treatment Fund

Personnel Services

$ 87,733 - Increase in health insurance benefit expenses due to rate increase and additional participation

Operating Expenses

3,006,340 - Increase for sludge collections and disposal costs in accordance with updated contractual agreement
2,543,300 - Increase in liquid oxygen purchases until the City's oxygen production facility is repaired, anticipated at the end of FY 2026
(893,200) - Decrease in electricity expenses based on current trend and anticipated rate adjustment

Capital Outlay

665,720 - Replacement of two (2) vehicles based on the FY 2026 - FY 2030 Citywide replacement plan, including one (1) vacuum truck
550,000 - Replacement equipment funding for pumps, motors, and valves

APPENDIX

Glossary of Terms

Accrual Basis – The basis of accounting under which transactions are recognized when they occur, regardless of when cash is received or spent.

Ad Valorem Taxes – Property taxes calculated as a percentage of the value of real or personal property. The percentage is expressed in mills (per thousand dollars of taxable value).

Adopted Budget – The financial plan (budget) demonstrating a basis of appropriations approved by City Commission.

Amended Budget – The authorized budget as adjusted over the course of the fiscal year through formal action taken by the City Commission, typically from contingency, department, or fund appropriation transfers.

Annexation – A process by which a city adds land to its jurisdiction. The city then extends its services, laws, and voting privileges to meet the needs of residents living in the annexed area.

Appropriation – The City Commission's legal authorization for the City to make expenditures and incur obligations.

Arts and Science District Garage Fund – This fund services a 950-space parking garage located in the Arts & Science District of the City, with the City having full and exclusive responsibility for operations and maintenance of the garage.

Assessed Value – The County Property Appraiser's estimation of the market value of real estate or other property minus any assessment limitations. This valuation is used to determine taxes levied upon the property.

Audit – An examination of evidence including records, facilities, inventories, systems, etc., to discover or verify information.

Available Fund Balance/Working Capital – Funds available after all financial obligations are accounted. These funds are important to address unexpected expenditures and to continue providing services during normal business interruptions such as a natural disaster.

Balanced Budget – According to Florida Statute, the amount available from taxation and other sources, including amounts carried over from prior fiscal years, must equal the total appropriations for expenditures and reserves.

Benchmarking – A methodology used to determine the quality of products, services, and practices by measuring critical factors (e.g., the speed or reliability of a product or service) and analyze the results alongside comparable municipalities or industry standards.

Block Grant – A federal grant allocated according to predetermined formulas and for use within a preapproved broad functional area such as the Community Development Block Grant (CDBG). CDBG funding can be used as a funding source for qualified projects.

Bond – A type of financial security in which the issuer (typically a governmental entity) promises to pay the bondholder (the purchaser or owner of the bond) a specified stream of future cash flows, including periodic interest payments, and a principal repayment.

Glossary of Terms, continued

Budget Calendar – A schedule of key dates the City follows in the preparation, adoption, and administration of the budget.

Cash Flow – A projection of the cash receipts and disbursements anticipated during a given period.

Capital Outlays – Outlays for the acquisition of, or addition to, fixed assets which are durable in nature and cost at least $5,000. Such outlays are charged as expenditures through an individual department's operating budget and do not include those provided for in the Community Investment Plan (see the Capital Projects section).

Capital Projects Funds – Funds used to account for any program, project, or purchase with a useful life span of ten years and a cost of at least $100,000. Specific appropriations for these funds are summarized in the Community Investment Plan.

Cemetery Perpetual Care Fund – Fund established to account for the City's four cemeteries: Woodlawn, Evergreen, Sunset Memorial Gardens, and Lauderdale Memorial Park.

Community Investment Plan (CIP) – Annually prepared summary plan and list of capital improvement projects proposed during the next five fiscal years, such as street or park improvements, building construction, and various kinds of major facility maintenance.

Debt Financing – Issuance of bonds and other debt instruments to finance municipal improvements and services.

Debt Proceeds – Revenue derived from the sale of bonds.

Debt Service Funds – Funds created to pay for the principal and interest of all bonds and other debt instruments according to a predetermined schedule.

Deficit – The amount by which expenditures exceeds revenues during a single accounting period.

Depreciation – The decline in the value of assets because of wear and tear, age, or obsolescence.

Direct Debt – A type of debt that has been incurred under the City's name or assumed through the annexation of territory or consolidation with another governmental unit.

Encumbrances – Commitments of funds for contracts and services to be performed. When encumbrances are recorded, available appropriations are reduced accordingly.

Enterprise Funds – Funds which are primarily self-supporting and provide goods and services to public users in exchange for a fee. Like private sector enterprises, the fee structure is set to recover the operating costs of the fund, including capital costs (i.e., depreciation, replacement, and debt service).

Estimated Revenues – Projection of funds to be received during the fiscal year.

Expenditures – Cost of goods delivered, or services provided, including operating expenses, capital outlays, and debt service.

Fiscal Year – The 12-month period to which the annual budget applies. The City's fiscal year begins on October 1st and ends September 30th.

Glossary of Terms, continued

Fiduciary Funds – Funds used to account for assets held by the City in a trustee capacity for individuals, private organizations, other governmental units, and/or other funds.

Florida's Gold Coast – Area extending from Miami to Palm Beach, along the Atlantic Ocean border.

Florida Power and Light (FPL) – A private electrical utility company that provides significant franchise fees and utility tax revenue to the City.

Foreign-Trade Zone (FTZ) – A geographic area, in a port of entry to the United States, where commercial merchandise, both foreign and domestic, can be moved without being subject to U.S. Customs duties. A FTZ is operated as a public venture and is sponsored by a local municipality or other authority.

Franchise Fees – Fees levied by the City in return for granting a privilege that permits the continual use of public property, such as city streets, and usually involves the elements of monopoly regulation.

Full-time Equivalent (FTE) – Refers to the number of full-time employees. All part-time and seasonal employees are pro-rated to full-time increments when represented in FTE figures.

General Fund – The primary fund used by a governmental entity for citywide public services. This fund is used to account for all financial resources except those required to be accounted for in another fund.

Grants – Contributions of cash or other assets from another agency to be directed to a specified purpose, activity, or facility.

Governmental Funds – Funds used to account for most City functions and primarily financed through taxes, grants, and other revenue sources. Funds are fiscal and accounting entities with a self-balancing set of accounts recording cash and other financial resources along with all related liabilities and residual equities or balances and related changes.

Homestead Exemption – Florida State law allows homeowners to claim up to a $50,000 Homestead Exemption on their primary residence. The first $25,000 exemption applies to all taxing authorities. The second $25,000 excludes school board taxes and applies to properties with assessed values greater than $50,000.

Infrastructure – The physical assets of a government (e.g., streets, water, sewer, public buildings, and parks).

Intergovernmental Revenues – Funds received from federal, state, and other local governmental sources in the form of grants, shared revenues, and payments in lieu of taxes (PILOT).

Internal Service Funds – Funds established as a source for goods or services provided by one department to other departments within the City on a cost-reimbursement basis (i.e., Vehicle Rental, Central Services, and City Insurance Funds).

Millage Rate – One mill equals $1 of tax for each $1,000 of property value. The millage rate is the total number of mills of tax assessed against the value.

Glossary of Terms, continued

Modified Accrual Basis – The basis of accounting under which transactions are recognized when they become both measurable (i.e., an amount can be determined) and available (i.e., able to liquidate liabilities of the current period).

Moody's Rating Scale – Widely used organizational security analytics to measure results for provision to gain financial trust using metrics of AAA as the highest quality and C as the lowest.

Municipal Transportation Surtax Grants – Broward County voters approved a 30-year, one percent sales surtax in November 2018 aimed at resolving the community's biggest transportation issues. Surtax took effect on January 1, 2019.

Net – Resulting amount after all figures have been added/deducted from the whole (gross) amount.

Operating Budget – An operating budget is a plan of annual spending and the means to fund it (e.g., taxes, fees).

Ordinance – A formal legislative enactment by the City that carries the full force and effect of the law within corporate boundaries of the City unless in conflict with any higher form of law, such as state or federal.

Overlapping Debt – The proportionate share of the debts of local governmental units located wholly or in part within the limits of the City such as, the County and School Board, which must be borne by property owners within the City.

Overhead Costs – Indirect, ongoing costs that are day-to-day expenses that cannot be exacted.

Performance Measures – Qualitative and quantitative measures designed to represent the City's actions, abilities, and overall quality.

Personnel Services – A category of expenditures for salaries, wages, and benefits provided to persons employed by the City. These benefits include the City's contribution to health insurance, pensions, and workers' compensation insurance.

Pension Obligation Bonds – Taxable bonds exercised for the purpose of ensuring coverage of unfunded pension liabilities.

Proprietary Fund – A type of fund where government activities are primarily supported through fees and charges, like the private sector. Proprietary funds include all enterprise and internal service funds.

Quality Management System – A quality management process that connects planning, budgeting, measuring and improvement of the City's performance.

Recapitalization – The restructuring adjustments of debt and equity to manage sustainability.

Reserve Targets – Contingency amounts desired, based on analytics to account for additional fund needs that may arise, whether anticipated or not.

Resolution – A legislative act by the City with less legal formality than an ordinance.

Glossary of Terms, continued

Restricted Funds – Designated funds that can only be used for a specified purpose.

Revenue – Money collected by the City from various income sources to finance the cost of services provided to its neighbors.

Rolled Back Rate – The millage necessary to raise the same amount of ad valorem tax revenue as the previous year, excluding taxes from new construction.

Sales and Use Taxes – Sales tax refers to tax imposed on any non-exempt sale, admission, storage, or rental. Use tax refers to taxing upon usage for goods or services with unpaid sales tax.

Self-Supporting Debt – Bonds for which payment in full faith and credit of the City or specific general revenue is pledged. This debt is payable from property taxes and other general revenue.

Series Bonds – Debt issued in two or more indentures (series) and securitized as tradeable assets.

Self-Insured – Risk management procedure in which funds are set aside to pay insurance claims directly or through a third party, rather than sending funds to the insurance company, resulting in enhanced budget management.

Special Revenue Fund – Funds used to account for the proceeds of specific revenue sources (other than major capital projects) requiring separate accounting because of the legal/regulatory provisions or administrative actions.

State Revolving Fund Loans – Low-interest loans administered by the state generally designated toward the improvement of infrastructure.

Strategic Plan – A document outlining organizational goals, critical issues, and action plans which will increase the organization's effectiveness in attaining its mission, vision, and priorities.

Sunset – The regulation in which an expiration date is to take effect for a whole or piece of law.

Surplus – An amount left over when requirements have been met.

Taxes – Compulsory charges levied by a government for the purpose of financing services performed for the common benefit of the people.

User Fee – Charges for specific services provided only to those paying such charges such as sewer service charges and dock fees.

Utility Taxes – Municipal charges levied by the City on every purchase of a public service within its corporate limits, including electricity, gas, fuel, oil, water, and telephone service.
