- you are an eligible, regular/temporary full-time Employee who normally works at least 32 hours a week; or
- you are an eligible, variable hour Employee who normally works an average of 30 hours per week during the City's Measurement period as required by the Affordable Care Act; and
- you pay any required contribution.

If you were previously insured and your insurance ceased, you must satisfy the Waiting Period to become insured again. If your insurance ceased because you were no longer employed in a Class of Eligible Employees, you are not required to satisfy any waiting period if you again become a member of a Class of Eligible Employees within one year after your insurance ceased.

Eligibility for Dependent Insurance

You will become eligible for Dependent Insurance on the later of:

- the day you become eligible for yourself; or
- the day you acquire your first Dependent.

Waiting Period

The first day of the month following 30 days from date of hire or promotion to a benefit eligible position.

Classes of Eligible Employees

Each Employee as reported to the insurance company by your Employer.

Effective Date of Employee Insurance

You will become insured on the date you elect the insurance by signing an approved payroll deduction or enrollment form, as applicable, but no earlier than the date you become eligible.

You will become insured on your first day of eligibility, following your election, if you are in Active Service on that

date, or if you are not in Active Service on that date due to your health status.

Late Entrant - Employee

You are a Late Entrant if:

- you elect the insurance more than 30 days after you become eligible; or
- you again elect it after you cancel your payroll deduction (if required).

Dependent Insurance

For your Dependents to be insured, you will have to pay the required contribution, if any, toward the cost of Dependent Insurance.

Effective Date of Dependent Insurance

Insurance for your Dependents will become effective on the date you elect it by signing an approved payroll deduction form (if required), but no earlier than the day you become eligible for Dependent Insurance. All of your Dependents as defined will be included. A newborn child will be covered for the first 31 days of life even if you fail to enroll the child. If you enroll the child after the first 31 days and by the 60th day after his birth, coverage will be offered at an additional premium. Coverage for an adopted child will become effective from the date of placement in your home or from birth for the first 31 days even if you fail to enroll the child. However, if you enroll the adopted child between the 31st and 60th days after his birth or placement in your home, coverage will be offered at an additional premium.

You will become insured effective the first day of the month following or coincident to receipt of enrollment requirements by signing (or electronically) an approved payroll deduction or enrollment form, as applicable, but no earlier than the date you become eligible." It is under the general eligibility section in the administrative summary.

Your Dependents will be insured only if you are insured.

Late Entrant – Dependent

You are a Late Entrant for Dependent Insurance if:

- you elect that insurance more than 30 days after you become eligible for it; or

-
- you again elect it after you cancel your payroll deduction (if required).

Exception for Newborns

Any Dependent child born while you are insured will become insured on the date of his birth if you elect Dependent Insurance no later than 31 days after his birth. If you do not elect to insure your newborn child within such 31 days, coverage for that child will end on the 31st day. No benefits for expenses incurred beyond the 31st day will be payable.

Transplant services are covered only if they are required to perform any of the following human to human organ or tissue transplants: allogeneic bone marrow/stem cell, autologous bone marrow/stem cell, cornea, heart, heart/lung,

- Cornea transplants received at a facility that is specifically contracted with Cigna for this type of transplant are payable at the In-Network level.

Charges for gene therapy products and services directly related to their administration are not covered under the Transplant Services and Related Specialty Care benefit.

Coverage for organ procurement costs are limited to costs directly related to the procurement of an organ, from a cadaver or a live donor. Organ procurement costs shall consist of hospitalization and surgery necessary for removal of an organ and transportation of a live donor (refer to Transplant and Related Specialty Care Travel Services). Compatibility testing undertaken prior to procurement is covered if Medically Necessary. Costs related to the search for, and identification of a bone marrow or stem cell donor for an allogeneic transplant are also covered.

Transplant and Related Specialty Care Travel Services

Charges made for non-taxable travel expenses incurred by you in connection with a preapproved organ/tissue transplant are covered subject to the following conditions and limitations:

 - The following are specifically excluded travel expenses: any expenses that if reimbursed would be taxable income, travel costs incurred due to travel within 60 miles of your home; food and meals; laundry bills; telephone bills; alcohol or tobacco products; and charges for transportation that exceed coach class rates.

Additionally, the availability of the Patient Assurance Program, as well as the Prescription Drug Products included in the Patient Assurance Program and/or your Copayment or Coinsurance, if any for those eligible Prescription Drug Products, may change from time to time depending on factors including, but not limited to, the continued availability of the Patient Assurance Program discount(s) to Cigna in connection with the Patient Assurance Program.
