

Notice: Sewer System Inspections

SEWER PIPE VIDEO INSPECTIONS: INFLOW & INFILTRATION REDUCTION PROGRAM

The City of Fort Lauderdale is working with Insituform Technologies to inspect sewer mains and lines throughout the City's sewer system. Crews will access sewer lines through manholes and record videos within the pipes to document their condition. The goal is to identify areas where stormwater and groundwater are possibly entering the sewer system, which could lead to problems such as increased treatment cost and reduced system capacity. The results of this analysis will be used to plan future sewer system improvement projects. Inspections are expected to continue until September 2026.

What to Expect

Inspections will take place on weekdays between 8 a.m. and 5 p.m. No heavy machinery will be on site and minimal noise is expected.

Traffic Impacts

- Temporary lane closures are expected along neighborhood streets during work hours.
- Traffic control personnel will direct traffic as needed.
- Access to driveways will be maintained.
- Please follow posted signs and drive with caution in the area.

Inspection Locations

- Sewer Basin A27 in Middle River Terrace
- Sewer Basin A29 in South Middle River
- Sewer Basin A14 in Bal Harbour, Lauderdale Isles, Poinsettia Heights and Lake Ridge
- Sewer Basin D11 in Hendricks and Venice Isles (Hendricks Isle)
- Sewer Basin D19-21 in Riviera Isles
- Sewer Basin D7 and D9 in Nurmi Isles
- Sewer Basin D2 in Seven Isles
- Sewer Basin D37 in Las Olas Isles
- Sewer Basin D24 in Sunrise Key

This schedule is subject to change based on inclement weather or other unforeseen circumstances. We apologize in advance for any inconvenience and thank you for your patience while we complete this important work.
